LABORERS

Beaverhead, Deer Lodge, Jefferson, Madison, Powell (excluding SE portion) and Silver Bow Counties

GROUP 1: General Laborer; Axeman; Carpenter Tender; Car and Truck Loaders, Scissorman; Chuck Tender and Nipper (above ground); Cosmolene, applying and removing; Fence Erector and Installer incl. the installation and erection of fences, guard rails, median rails, reference posts, guide posts and right-of-way markers); Form Stripper; Form Setter; Landscapr Laborer; Nozzleman-air and water, gunnite and place machine; Pilot Car; Riprap Helper; Scaleman; Sod Cutter (hand operated) (General Laborer); Stake Jumper for equipment; Tool Checker, Toolhouseman

GROUP 2: Riprapper; Sandblaster; Sandblaster Tailhouseman; Pot Tender

GROUP 3: Hand Faller

GROUP 4: Post Hole Digger (power Auger)

GROUP 5: Concrete or asphalt saws; Tar Pot Operator

GROUP 6: Powderman Helper

GROUP 7: Caisson Workers (free air); Chocker Setter; Pipe Wrapper; Power Saw (bucking); Spike Driver, single or dual or hand

GROUP 8: Drills, Air-tract, self-propelled car or truck mount air operated drills; Jackhammer, Pavement Breaker, Wagon Driller, Mechanical Tamper, Vibrating Roller hand steered and other power tools

GROUP 9: Asphalt Raker; Dumpman (grademan)

GROUP 10: High Pressure Machine Nozzleman

GROUP 11: Pipe Layer (all types); Cutting Torch Operator

GROUP 12: Powderman

GROUP 13: Grade Setter

GROUP 14: High Scaler

GROUP 15: Dumpman (spotter)

GROUP 16: Power Saw (falling)

GROUP 17: Rigger

GROUP 18: Core Drill Operator

GROUP 19: Concrete Worker, wet or dry; Tending Masons when pouring and finishing concrete

GROUP 20: Vibrator Operator; Tending Stonesetters, Marble Setters, Tile Setters, Skagiola and Terrazzo Workers; Tending brick masons or brick or stone work; Tending Plasterers or stuccoing or plastering; (This does not include rubbing down of foundation or concrete walls), Surekete, Stonehard and Rubberslate; Concrete Conveyor Swinger Operator

GROUP 21: Power Driven Concrete Buggies

LABORERS

Broadwater (Northern area), Lewis & Clark, Meagher, Powell (that portion lying east of a N-S line at the west edge of the Town of Elliston) Counties

Group 1: General laborer; Car and truck loader; Concrete handler; Form stripper; Fence erector and installer

Group 2: Concrete buggy; Vibrator; Jackhammer; Wagon driller; Barco tamper; Pavement breaker; Powderman helper

Group 3: All power tools; Rodder and spreader; Non-metallic pipe layers; Pipe wrappers; Sandblasters; Pot tenders; Curb form setter; Concrete tenders

Group 4: Mortar mixer; Powderman

Broadwater (Southern portiun incl. the City of Tosten), Gallatin, Park, Sweetgrass and Wheatland Counties

Group 1: Common laborers

Group 2: Semi-skilled; Hod carriers; Jackhammer operator; Vibrator; Mixer operator; Concrete pump tender; Nozzleman; Concrete machiner; Curb form setter

Flathead, Glacier National Park, Lincoln, and that area of Lake and Sanders Counties lying 5 miles north of the 5th Parallel

Group 1: General laborers; scaleman; form strippers; car and truck loaders

Group 2: Concrete handlers, conveying and handling concrete, Nozzlemen (air or water); Sand blast tail hose man; Powderman helper, Power driven wheelbarrow; Rodder and Spreader; Form setters (paving); Bucketman; Small air tool operators, including blow pipes and small power tool operators; Chuck tenders; Asphalt rakers, Dumpman; Rip rapping; Pipe wrapper; Pot tender; Concrete pumper hoseman; Jackhammer; Pavement breaker; Vibrator; mechanical tamper and other air tools; Cement handlers (sack or bulk); Burning bar

Group 3: Pipe layers (non-metallic); Metal culvert pipe layers; Mason and Plaster tenders; Cement finisher tender; Small concrete mixer operator; Shoring and lagging open ditches; Powderman; Drills, Air-Trac, wagon drill, cat or truck mounted air operated drills, Sand Blaster (wet or dry); gunite nozzleman; barco tamper

LABORERS (Cont'd)

Carter, Custer, Dawson, Fallon, Powder River, Prairie and Wibaux Counties

Group 1: General laborers

Group 2: Jackhammer operator; Mechanical tampers; Pipelayers (all types); Pavement breakers; Pneumatic and electric tools operator; Pipewrappers

Group 3: Mason and plasterer's tenders

Big Horn, Carbon, Golden Valley, Musselshell, Rosebud, Stillwater, Treasure and Yellowstone Counties

Group 1: General laborers; Concrete laborers; Chuck tenders and nippers

Group 2: Cement handler (sack or bulk); Jackhammer operator; Mortarman; Pipelayer (all types); Pipewrapper; Primerhouseman

Group 3: Mason and plasterer's tenders

Granite, Lake (Southern area), Mineral, Missoula, Ravalli and Sanders (Southern area) Counties

Group 1: Laborers

Group 2: All power tools, creosote workers; Jackhammer; Marble and tile setters' tenders; Pipelayers; Pipewrappers; Pot tenders; Small concrete mixers; Vibrators

Group 3: Cement masons and plasterer's tenders; Mason tenders; Pumpcrete, gunnite and plasterer pump

LABORERS

Cascade, Chouteau, Fergus, Glacier (excluding Glacier National Park), Judith Basin, Pondera, Teton and Toole Counties

Group 1: General and Building Laborers' and Scale Men; Concrete Laborers (wet or dry breaking of concrete requiring sledge hammer); Dumpman (spotter) and Flagman; Fence Erectors and Installers, including the installation and erection of fences, guardrails, median rails, reference posts, guide posts and right-of-way markers; Vibrators, under 1-1/2" in diameter; Small Air Tools such as Chippers, Clay Spades, etc.; Stake Setters; Stake Jumper, Rodder and Spreader, Form Stripper; Caisson Workera (Free Air), Vibrator 1-1/2" to 2-1/2" in diameter

Group 2: Concrete or Asphalt Saws, Creosote Material Handler; Curb Machine Form Setter (Slab Steel Forms); Diamnnd Drills up through 3 inches in diameter; Jackhammer, Pavement Breaker, Wagon Driller, Cat or Truck Mounted Air Operated Drills, and other Air Tools; Diesel Tamper, Wacker, Jay, Turtle, Pogo Sticks, etc., Mechanical Tampers; Nozzlemen, Air and Water, Gunite and Placo, Machine (Grout); Pipe Layer (all types); Power Saw (bucking and falling); Power Driven Wheelbarrow; Chuck Tenders, Muckers and Nippers, Primeman

Group 3: Sand Blaster

Group 4: Vibrators, 2-1/2" to 4" in diameter; Brick Tenders; Dumpmen (Grade); Small Concrete Mixers

Group 5: Diamond Drills up through 6 inches in diameter; Hod Carriers and Plaster Tenders (1 - one mixerman per crew); Asphalt Raker and Tamper; High Scaler; Powderman Helper; Concrete Nozzleman; Miners; Barco Tamper; Air-Trac

Group 6: Diamond Drill, over 6 inches in diameter; Self-Propelled Drills, with the exception of size differential, such as Mustang Drills or Twin Stack Drills; Core Drill Operator; Laser Equipment and Tools, excluding Transit; Powderman

Group 7: Concrete Vibrator, 4" and over

LABORERS

Blaine, Daniels, Garfield, Hill, Liberty, McCone, Petroleum, Phillips, Richland, Roosevelt, Sheridan, and Valley Counties

Group 1: General and Building Laborers' and Scale Men; Form Stripper and Carpenter Tender; Car and Truck Loaders; Concrete Laborers (wet or dry breaking of concrete requiring sledge hammer); Dumpmen (Spotter and Flagman); Small Power Tools, Chippers, Clay Spaders, Pogo Stick, etc.; Fence Erectors and Installers, installation and erection of fences, guard rails, median rails, reference posts, guide posts, and right-of-way markers

Group 2: Dumpmen (Grade)

Group 3: Power Driven Concrete Buggies or Power Driven Wheelbarrows; Pipe Layers (non-metallic); Sandblaster, Concrete Nozzleman, Place Operator, Jackhammer, Pavement Breaker, Vibrator (2½ inches and over) Barco Tamper, Vibrator Turtle; Small Concrete Mixers, Concrete Saw; Nozzleman (air and water); Sandblaster, Tailhoseman, Pot Tender, Tar Pot Tender; Gunite Nozzleman; Caisson Workers (Free Air); Tunnels and Shafts (Free Air); Bull Gang, Pot Tender; Chuck Tender, Muckers and Nippers, Primerhouseman

Group 4: Brick Tenders (handling bricks and blocks only)

Group 5: Hod Carriers and Plaster Tenders (men carrying motor either by hod, pail or barrow); High Scaler, Wagon Driller, Cat or Truck mounted Air Operated Drills; Asphalt Rakers and Tampers, Gunite, Form Setter (slab steel forms); Stake Setter, Stake Jumper, Rodder and Spreader, Grademan; Concrete Nozzleman; Miners

Group 6: Powdermen; Lazer Tools and Equipment

Flathead, Lake, Lincoln, Mineral, Missoula, North ½ of Powell, Ravalli and Sanders Counties

LABORERS

Flathead and that area of Sanders County lying 5 miles north of the 5th Parallel

Group 1: General laborers; scaleman; form strippers; car and truck loaders

Group 2: Concrete handlers, conveying and handling concrete; Nozzlemen (air or water); Sand blast tail hose man; Powderman helper; Power driven wheelbarrow; Rodder and Spreader; Form setters (paving); Bucketman; Small air tool operators, including blow pipes and small power tool operators; Chuck tenders; Asphalt rakers, Dumpman; Rip rapping; Pipe wrapper; Pot tender; Concrete pumper hoseman; Jackhammer; Pavement breaker; Vibrator; mechanical tamper and other air tools; Cement handlers (sack or bulk); Burning bar

Group 3: Pipe layers (non-metallic); Metal culvert pipe layers; Mason and Plaster tenders; Cement finisher tender; Small concrete mixer operator; Shoring and lagging open ditches; Powderman; Drills, Air-Trac, wagon drill, cat or truck mounted air operated drills, Sand Blaster (wet or dry); gunite nozzleman; barco tamper

Hill and Valley Counties

Group 1: General and Building Laborers' and Scale Men; Form Stripper and Carpenter Tender; Car and Truck Loaders; Concrete Laborers (wet or dry breaking of concrete requiring sledge hammer); Dumpmen (Spotter and Flagman); Small Power Tools, Chippers, Clay Spaders, Pogo Stick, etc.; Fence Erectors and Installers, installation and erection of fences, guard rails, median rails, reference posts, guide posts and right-of-way markers

Group 2: Dumpmen (Grade)

Group 3: Power Driven Concrete Buggies or Power Driven Wheelbarrows; Pipe Layers (non-metallic); Sandblaster, Concrete Nozzleman, Place Operator, Jackhammer, Pavement Breaker, Vibrator (2-1/2 inches and over) Barco Tamper, Vibrator Turtle; Small Concrete Mixers, Concrete Saw; Nozzleman (air and water); Sandblaster, Tailhoseman, Pot Tender, Tar Pot Tender; Gunite Nozzleman; Caisson Workers (Free Air); Tunnels and Shafts (Free Air); Bull Gang, Pot Tender; Chuck Tender, Muckers and Nippers, Primerhouseman

Group 4: Brick Tenders (handling bricks and blocks only)

Group 5: Hod Carriers and Plaster Tenders (men carrying motor either by hod pail or barrow); High Scaler, Wagon Driller, Cat or Truck mounted Air Operated Drills; Asphalt Rakers and Tampers, Gunite, Form Setter (slab steel forms); Stake Setter, Stake Jumper, Rodder and Spreader, Grademan; Concrete Nozzleman; Miners

Group 6: Powdermen; Lazer Tools and Equipment

LABORERS (Cont'd)

Sanders (Southern area) County

Group 1: Laborers

Group 2: All power tools, creosote workers; Jackhammer; Marble and tile setters' tenders; Pipelayers; Pipewrappers; Pot tenders; Small concrete mixers; Vibrators

Group 3: Cement masons and plasterer's tenders; Mason tenders; Pumpcrete, gunnite and plasterer pump

Cascade County

Group 1: General and Building Laborers' and Scale Men; Concrete Laborers (wet or dry breaking of concrete requiring sledge hammer); Dumpman (spotter) and Flagman; Fence Erectors and installers, including the installation and erection of fences, guardrails, medium rails, reference posts, guide posts and right-of-way markers; Vibrators, under 1-1/2" in diameter; Small Air Tools such as Chippers, Clay Spades, etc.; Stake Setters; Stake Jumper, Rodder and Spreader, Form Stripper; Caisson Workers (Free Air); Vibrator 1-1/2" to 2-1/2" in diameter

Group 2: Concrete or Asphalt Saws; Creosote Material Handler; Curb Machine Form Setter (Slab Steel Forms); Diamond Drills up through 3 inches in diameter; Jackhammer, Pavement Breaker, Wagon Driller, Cat or Truck Mounted Air Operated Drills, and other Air Tools; Diesel Tamper, Wacker, Jay, Turtle, Pogo Sticks, etc., Mechanical Tampers; Nozzlemen, Air and Water, Gunite and Placo, Machine (Grout); Pipe Layer (all types); Power Saw (bucking and falling); Power Driven Wheelbarrow; Chuck Tenders, Muckers and Nippers, Primeman

Group 3: Sand Blaster

Group 4: Vibrators, 2-1/2" to 4" in diameter; Brick Tenders; Dumpmen (Grade); Small Concrete Mixers

Group 5: Diamond Drills up through 6 inches in diameter; Hod Carriers and Plaster Tenders (1 - one mixerman per crew); Asphalt Raker and Tamper; High Scaler, Powderman Helper; Concrete Nozzleman; Miners; Barco Tamper; Air-Trac

Group 6: Diamond Drill, over 6 inches in diameter; Self-Propelled Drills, with the exception of size differential, such as Mustang Drills or Twin Stack Drills; Core Drill Operator; Laser Equipment and Tools, excluding Transit; Powderman

Group 7: Concrete Vibrator, 4" and over

LABORERS

Deer Lodge and Silver Bow counties

GROUP 1: General Laborer; Axeman; Carpenter Tender; Car and Truck Loaders, Scissorman; Chuck Tender and Nipper (above ground); Cosmolene, applying and removing; Fence Erector and Installer incl. the installation and erection of fences, guard rails, median rails, reference posts, guide posts and right-of-way markers); Form Stripper; Form Setter; Landscapr Laborer; Nozzleman-air and water, gunnite and place machine; Pilot Car; Riprap Helper; Scaleman; Sod Cutter (hand operated) (General Laborer); Stake Jumper for equipment; Tool Checker, Toolhouseman

GROUP 2: Riprapper; Sandblaster; Sandblaster Tailhouseman; Pot Tender

GROUP 3: Hand Faller

GROUP 4: Post Hole Digger (power Auger)

GROUP 5: Concrete or asphalt saws; Tar Pot Operator

GROUP 6: Powderman Helper

GROUP 7: Caisson Workers (free air); Chocker Setter; Pipe Wrapper; Power Saw (bucking); Spike Driver, single or dual or hand

GROUP 8: Drills, Air-tract, self-propelled car or truck mount air operated drills; Jackhammer, Pavement Breaker, Wagon Driller, Mechanical Tamper, Vibrating Roller hand steered and other power tools

GROUP 9: Asphalt Raker; Dumpman (grademan)

GROUP 10: High Pressure Machine Nozzleman

GROUP 11: Pipe Layer (all types); Cutting Torch Operator

GROUP 12: Powderman

GROUP 13: Grade Setter

GROUP 14: High Scaler

GROUP 15: Dumpman (spotter)

GROUP 16: Power Saw (falling)

GROUP 17: Rigger

GROUP 18: Core Drill Operator

GROUP 19: Concrete Worker, wet or dry; Tending Masons when pouring and finishing concrete

GROUP 20: Vibrator Operator; Tending Stonesetters, Marble Setters, Tile Setters, Skagiola and Terrazzo Workers; Tending brick masons or brick or stone work; Tending Plasterers or stuccoing or plastering; (This does not include rubbing down of foundation or concrete walls), Surekete, Stonehard and Rubberslate; Concrete Conveyor Swinger Operator

GROUP 21: Power Driven Concrete Buggies

Gallatin County

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITION

Group I - All crane type equipment with 100' of boom or over (including jib), all tower cranes and all crane type of 3 cu. yd. or more

Group II - Heavy duty mechanic, welder, crane hook and over head monorail, whirley, panel board batch plant operator, derrick, piledriver, engineer, dragline, shovel, clamshell, backhoe, sideboom, gradall, hydro crane, cherry picker, hoists while operating 2 or more drums.

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITION (CONT'D)

Group III - Motor patrol (blade), dozer (engine h.p. 65 of over), Fordson tractor or like equipment with hoe or loader equipment or ditcher, scraper type equipment, Tournapull, DW 10, 15, 19, 20, 21 and similar rubber-tired equipment, Euclid, TS-24 and similar, loader operator of hi-lift (engine h.p. 65 or over), asphalt lay machine, tail boom, conveyor-multiple, panel board control; power driven hole digger, trenching machine, concrete pump-boom type

Group IV - Locomotive engineer, boring machine, tug boat, mixer, 18 cu. ft. and over, sand barge, dredging machine, tugger, hoist when operating one drum, welding machine, 3 to 6, air compressor, 3 to 6,500 cu. ft. and under, air compressor, over 500 cu. ft. (1); pumps, battery, 3 to 6; fork-lift; bobcat and similar equipment, generator plant engineer, Diesel electric, winch trucks with A-Frame; rollers all types, outside elevator or building of personnel hoist, concrete buster, or tamper, heater under jurisdiction of op.; engineers, fireman, boiler operator, crushing plants, oiler distributor, pulvimixer, farmer tractor with or without attachments, batch plant operator, (portable), conveyor operator-duel, continous or belt, bulk handling, screened operator, concrete pump, form grader, screening plant, well point pump operator, signal man on large wherleys when and if required, operator for rotary drilling machine machine when operated from console or machines

Group V - Permanent elevator - building type (automatic), concrete mixer, with hopper less than 18 cu. ft. air compressor 300 cu. ft. and under (1 or 2), welding machine (1 or 2); fuelman; conveyor operator-single continous belt bulk handling

Group VI - Greaser, tilt top trailer operator

Group VII - Asphalt lay machine back end man helpers

Group VIII - Truck crane oiler driver or truck crane oiler

Engineers for machine not listed under the above classifications shall receive the scale comparable to these classifications.

Engineers of all classifications when working in caverns or tunnels shall receive 25c per hour above listed rates.

LABORERS

Group 1: Asphalt plant laborers; Asphalt spreaders; Batch weighman; Broomers; Brush burner and cutters; Car and truck loaders; Carpenter tender; Change-House man or dry shack man; Choke setter; Clean up laborers; Concrete laborers; Crusher feeders; Culvert, hand labor; Curing, concrete; Demolition, wrecking, and moving laborers; Driller helpers; Dumpers, Road oiling crew; Dumpmen (for grading crew); Elevator feeders; Fence builder (incl. Guard rail, Median rail, Reference post, Guide post, Right-of-way marker); Fine graders; Form strippers (not swinging stages); General laborers; Landscaping or planting laborers; Leverman on aggregate spreader (Flaherty and similar types); Loading spotters; Material yard man (incl. electrical); Pittsburgh chipper operator or similar types; Powderman helper; Railroad track laborers; Ribbon setters (incl. steel forms); Rip Rap man (hand placed); Road pump tender; Sewer labor; Skipmen; Signalman; Slopers; Spraymen; Stake chaser; Stake setter; Grade checker; Stockpiler; Timber faller and bucker (hand labor); Toolroom man (at job site) Tunnel bull gang (above ground); Weigh-man - Crusher (Aggregate when used)

Group 2: Applicator (incl. pot tender for same), applying protective material by hand or nozzle on utility lines or storage tanks on project; Burners; Choker splicer; Clary power spreader and similar types; Clean-up nozzleman; Greencutter (Concrete rock, etc.); Concrete power buggyman; Demolition and wrecking-charred materials; Gunite nozzleman tender; Gunite or sand blasting pot tender; Handlers or mixers of all materials of an irritating nature (incl. cement and lime); Manhole builder; Powertool operator, incls. but not limited to: Chipping Guns; Jackhammer, Paving breakers, Post hole digger, Air, Gas, or Electric; Tampers; Vibrating screed; Vibrators (less than 4" in diameter); Post hole digger, air, gas, or electric; Ribbon setter, head; Rip rap man (head), Hand placed; Sand blasting (wet); Sewer timbermen; Timber buckers and fallers, Brush cutters (power saw); Tunnel-Muckers, Brakemen, Concrete crew, Bull gang (underground)

Group 3: Asphalt rakers; Bit grinder; Concrete saw operator; Drill doctor; Drill operator, Air tracks, Cat drills, Wagon drills, Rubber-mounted drills, and other similar types; Gunite nozzleman; High scalers, strippers and drillers (covers work in swinging stages, chairs or belts, under extreme conditions unusual to normal drilling, blasting, barring-down, or sloping and stripping); Powdermen; Power saw operators (Bucking and falling mechantable logs); Pumpcrete nozzlemen; Sand blasting (Dry); Sewer pipe layers; Track liners, Anchor machines, Ballast regulators, Multiple tampers, Power jacks; Tugger operator; Tunnel-Chuck tenders, Nipper and Timberman; Vibrators (4" and larger); Water blaster; Laser beam (pipe laying)

Group 4: Tunnel miners; Tunnel powderman; Laser beam (tunnel)

POWER EQUIPMENT OPERATORS

Group 1: Oiler, including plant, crane, crusher, guardrail equipment, and trenching machine; Assistant Conveyor Operator; Crusher feederman; Deckhand; Self-propelled scaffolding operator; Guardrail punch oiler; Pump operator, under 4"; Brakeman; Switchman; Parts man (tool room)

Group 2: Blade Operator, pulled type; Truck Crane Oiler-Driver, 25 ton capacity or over; Crane Fireman, (all equipment except floating); A-Frame truck operator, single drum; Tugger or coffin type hoist operator; Drill helper; Auger oiler; Boatman; Fork Lift or Lumber Stacker operator (on job site); Oiler, combination guardrail machines; Temporary heating plant operator; Grade Oiler, required to check grade; Grade checker; Tar pot fireman; Tar pot fireman (power agitated); H.D. Repairman Helper; Welder's helper; Helicopter radioman (ground); Roller operator, grading of base rock (not asphalt);

Group 3: Asphalt plant fireman; Pugmill operator (any type); Truck mounted asphalt spreader, with screed; Compressor operator (any power), under 1,250 cu. ft. total capacity; Conveyor operator; Mixer box operator (C.T.B., dry batch, etc.); Cement hog; Concrete saw; Concrete curing machine (riding type); Wire mat or brooming machine; Ross carrier operator (on job site); Bucket elevator loader, Barber-Greene and similar types; Hydraulic pipe press; Pump operator (any power), 4" and over; Hydrostatic pump; Motorman; Ballast jack tamper; Bell Boy phones, etc.; Tamping machine, mechanical self-propelled; Hydrographic seeder machine, straw, pulp or seed; Broom operator, self propelled (on job site); Air Filtration equipment; Welding machine operator

Group 4: Screed operator; Compactor, including vibratory; Compressor (any power) over 1,250 cu. ft. total capacity; Combination mixer and compressor, gunnite work; Concrete mixer operator, single drum, under five bag capacity; Helicopter hoist operator; Floating Equipment fireman; Lull HI-Lift operator or similar type; Fork Lift, over 5 ton; Service oiler (greaser); Hydra hammer or similar types; Pavement breaker; Pump operator, more than 5 (any size); Locomotive, under 40 tons; Roller Operator, Oiling, C.T.B.

Group 5: Extrusion machine; Wagner Factor or similar type (without blade); Concrete batch plant quality control operator; Power Jumbo, setting slip forms, etc., in tunnels; Slip form pumps, power driven hydraulic lifting device for concrete forms; Hoist, single drum; Elevator operator; Pulva-mixer or similar types; Chip spreading machine operator; Lime spreading (on job site); Sweeper (Wayne type) self propelled (on job site); Tractor, rubber-tired 50 H.P. Flywheel and under; Trenching machine, maximum digging capacity 3 ft. depth;

POWER EQUIPMENT OPERATORS (Cont'd)

Group 6: Asphalt paver (screed man required); Asphalt burner and reconditioner; Pavement grinder and/or grooving machine (riding type); Cast-in-place pipe laying machine; Maginnis Internal Full Slab Vibrator; Concrete finishing machine, Clary, Johnson, Bidwell, Burgess bridge deck or similar type; Curb machine, mechanical berm, curb and/or curb and gutter; Concrete joint machine; Concrete planer; Concrete paving machine; Concrete spreader; Loaders, rubber-tired type, 2 1/2 cu. yds. and under; Rock spreaders, self-propelled

Group 7: Roller (any asphalt mix); Asphalt plant operator; Beltcrete; Pumpcrete operator (any type); Cement pump, Fuller-Kenyon and similar; Concrete pump; Grouting machine; Concrete mixer, single drum, five bag capacity and over; Tower mobile operator; A-Frame truck, double drum; Boom truck; Churn drill and earth boring machine; Hydraulic backhoe, wheeltype 3/8 cu. yd. and under with or without front end attachments 2 1/2 cu. yds. and under (Ford, John Deere, Case type); Elevating Grader, Tractor towed requiring operator or grader; Pot rammer; Ballast regulator; Ballast Tamper Multi-purpose; Track liner; Tie spacer; Shuttle car; Locomotive, 40 tons and over;

Group 8: Diesel-Electric Engineer, Plant, Crusher, Generator, Floating; Batch plant and/or wet mix, one and two drum; Generator operator; Belt Loaders, Kolman and Ko Cal types

Group 9: Bulldozer; Drill Cat Operator; Side-Boom Cat; Compactor, with blade; Concrete cooling machine; Chicago boom and similar types; Lift Slab machine; Boom type lifting device, 5 ton capacity or less; Cherry picker or similar type crane-hoist, 5 ton capacity or less; Grizzley Crusher; Crusher plant; Drill doctor; Boring machine; Guardrail punch and auger (all types); Surface heater and planer; Hydraulic Backhoe, track type 3/8 cu. yd.; Loader, front end and overhead, 2 1/2 cu. yds. and under 4 cu. yds.; Hammer operator; Pipe Cleaning, Doping, Bending and Wrapping Machines; Bolt-Threading machine; Drill Doctor (bit grinder); H.D. Mechanic and welder; Machine tool operator; Stationary Drag Scraper; Tractor, rubber-tired over 50 H.P. flywheel; Tractor with boom attachment; Trench machine, maximum digging capacity over 3 ft. depth

Group 10: Bulldozer, twin engine (TC12 and similar); Cable plow (any type); Compactor, multi-engine; Jack operator, elevating barges; Barge operator, self-unloading; Combination H.D. Mechanic-Welder, when dispatched and/or when required to do both; Rubber-tired dozers and pushers (Michigan, Cat, Hough type); Driller-Percussion, Diamond, Core, Cable, Rotary and similar type

POWER EQUIPMENT OPERATORS (Cont'd)

Group 11: Mixer Mobile; Concrete breaker; Crane operator, 25 tons and under; Combination guardrail machines, i.e., punch, auger, etc.; Shovel, dragline, clamshell, hoe, etc., under 1 cu. yd.; Grade-alls, under 1 cu. yd.; Mucking machine (tunnel)

Group 12: Blade operator; Batch plant and/or wet mix, 3 units or more; Reinforced tank banding machine (K-17 or similar); Hoist, two or more drums; Elevating loader, Athey and similar; Piledriver (not crane type); Rubber-tired scraper, single and twin engine, single scraper, with push-pull attachments, Self-loading, paddle wheel, Auger type; Blade mounted spreaders, Ulrich and similar types; Shield operator

Group 13: Blade operator, finish; Blade, externally controlled by electronic, mechanical hydraulic means; Blade, multi-engines; Concrete paving road mixer; Derrick, under 100 tons; Hoist, stiff leg, Guy Derrick or similar, 50 tons and over; Cableway operator 25 ton and over; Crane, over 25 ton and including 40 tons; Piledriver (where deckhand required); Floating clamshell, etc., 1 cu. yd. and under, but less than 3 cu. yds.; Floating crane (derrick barge), less than 30 ton; Elevating grader, operated by tractor operatur, Sierra, Euclid, or aimilar; Back filling machine; Shovel, etc., 1 cu. yd. and less than 3 cu. yds.; Grade-all, 1 cu. yd. and over

Group 14: Tower crane operator; Rubber-tired scraper, with tandem scrapers, Self-loading, paddle wheel, Auger type, finish and/or 2 or more units

Group 15: Rock hound operator; Loader, 4 cu. yds., but less than 6 cu. yds.

Group 16: Auto-grader or "trimmer"; Tandem bulldozer, Quad-nine and similar; Automatic concrete slip form paver; Concrete canal lone; Cableway, 25 ton and over; Crane, over 40 ton and including 100 ton; Whirley, 80 ton and under; Floating clamshell etc., 3 cu. yds. and over; Floating crane (derrick barge) 30 ton but less than 80 ton; Loader, 6 cu. yds., but less than 12 cu. yds.; Rubber-tired scraper, with tandem scrapers, multi-engine; Shovel etc., 3 cu. yds. but less than 5 cu. yds.; Wheel excavator, under 750 cu. yds. per hour

Group 17: Crane over 100 ton and including 200 ton; Whirley over 80 ton and including 150 ton; Floating crane (derrick barge) 80 ton but less than 150 ton; Loader, 12 cu. yds. and over; Shovel, etc., 5 cu. yds. and over; Canal trimmer

Group 18: Crane, over 200 ton; Whirley, 150 ton and over, Floating crane 150 ton but less than 250 ton; Wheel excavator, over 750 cu. yds. per hour; Band wagons, in conjunction with wheel excavator

Group 19: Helicopter, when used in erecting work; Floating crane 250 ton and over; Remote controlled earth moving equipment; Underwater equipment, remote or otherwise

TRUCK DRIVERS

Group 1: Battery rebuilders; Bus or manhaul driver; Concrete buggies (power operated); Dump trucks, side, end and bottom dumps, incl. semi trucks and trains or combinations thereof: 6 cu. yds. and under; Lift jitneys, fork lifts (all sizes used in loading, unloading and transporting material on job site); Loader and/or leverman on concrete dry batch plant (manually operated); Pilot car; Solo flat bed and misc. body trucks, 0-10 tons; Truck helper; Truck mechanic helper; Warehouseman (warehouse parts, tool men and parts chaser, checkers and receivers); Water wagons (rated capacity), up to 1600 gallons

Group 2: "A" Frame or hydra-lift truck w/load bearing surfaces; Lubrication man, fuel truck driver, tireman, wash rack, steam cleaner or combinations; Team drivers

Group 3: Dump trucks, side, end and bottom dumps, including semi-trucks and trains or combinations thereof: over 6 cu. yds. and including 10 cu. yds.; Slurry truck driver or leverman; Transit mix and wet or dry mix trucks: 5 cu. yds. and under; Tireman (full-time basis); Water wagons (rated capacity), 1600 to 3000 gallons

Group 4: Flaherty spreader driver or leverman; Low bed equipment, flat bed semi-trailer, truck and trailer or doubles transporting equipment or wet or dry materials; lumber carrier driver-Straddle carrier (used in loading, unloading and transporting of materials on job site); Oil distributor driver or leverman; Water wagons (rated capacity), 3000 to 5000 gallons

Group 5: Dumpsters or similar equipment, all sizes; Transit mix and wet or dry trucks, over 5 cu. yds. and including 7 cu. yds.

Group 6: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof, over 10 cu. yds. and including 20 cu. yds.; Transit mix and wet or dry mix trucks, over 7 cu. yds. and including 9 cu. yds.; Truck mechanic-welder-body repairman; Water wagons (rated capacity) 5000 to 7000 gallons

Group 7: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 20 cu. yds. and including 30 cu. yds.; Transit mix and wet or dry mix trucks, over 9 cu. yds. and including 11 cu. yds.; Water wagons (rated capacity), over 7000 gallons to 10,000 gallons

Group 8: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 30 cu. yds. and including 40 cu. yds.; Transit mix and wet or dry mix trucks, over 11 cu. yds. and including 13 cu. yds.; Water wagons (rated capacity), over 10,000 gallons to 15,000 gallons

TRUCK DRIVERS (Cont'd)

Group 9: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combination thereof: over 40 cu. yds. and including 50 cu. yds.; Transit mix and wet or dry mix trucks, over 13 cu. yds. and including 15 cu. yds.

Group 10: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 50 cu. yds. and including 60 cu. yds.

Group 11: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 60 cu. yds. and including 70 cu. yds.

Group 12: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 70 cu. yds. and including 80 cu. yds.

Group 13: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 80 cu. yds. and including 90 cu. yds.

Group 14: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 90 cu. yds. and including 100 cu. yds.

Drivers and Helpers (handling sacked cement add $.15 per hour)

Winch truck - takes classification of truck on which winch is mounted.

SUPERSEDEAS DECISION

STATE: Rhode Island
DECISION NUMBER: R175-2033
Supersedes Decision No. AS-3070, dated August __, 1974, in 39 FR _____, and
DESCRIPTION OF WORK: Building (including residential), Heavy, Highway, and Marine Construction.

COUNTY: Washington
DATE: Date of Publication

CLASSIFICATION DEFINITIONS
LABORERS - ZONES 1,2&3

GROUP 1 - Laborers: carpenter tender: flagmen: water boy: demolition worker; fire watch; landscape laborer.
GROUP 2 - Powderman helper; semi-skilled laborer; scaffold builders; chainmen & rod men; grade checker; signal man; brick masons tenders; plasterer tenders; cement finishers tender; stone masons tenders; lathers tenders; tile setters tenders; mortar mixers; jackhammer operators; vibrator operators; temper operators; pavement buster operators; chipping & peening hammer operators; air sysphon & air pump operators; riprap finishers; concrete saw operators; concrete technician; power saw operators; chain saw operators; motorized buggy operators; pipelayers helpers; drill operators helpers; sheeters & shorers; post hole digger operators; asphalt rakers; lance and/or water blaster operators; blacksmith helpers; batch house scale operators; workmen working with acid porter, acid brick, acid or mastic asphalt; workmen working creosote; nozzlemen for gunnite or sandblasting; tool room attendants; ride or walk roller tampers.
GROUP 3 - Blacksmith; powderman; air track operator; pipe layer (including laser beam set-up); burner.

DECISION NO. 75WV-3007

LABORERS - ZONE 4

GROUP 1 - General laborers; carpenters tenders.
GROUP 2 - Brick handlers; tenders for brick masons, plasterers, stone masons; tile setters; mortarmen for masons & plasterers; men mixing cement for cement finishers.
GROUP 3 - Operators of concrete busters, jackhammers, air spades, chipping hammers, air tampers, vibrators, power buggy, cement saw, power saw, sandblaster, acetylene burners; welders; scuba divers; panel cleaning machines; all power driven tools operators; air pump operators; air blow pipe operators; pipe layers & helpers working in ditches or tunnels; hand spikers on railroads.
GROUP 4 - Ditches, trenches, caissons & coffers over 6' deep (open top).
GROUP 5 - Laborers performing work pertaining to or in connection with repair stoves, blast furnaces & basic oxygen process furnaces, steeples & stacks, annealing process furnaces, kilns, soaking pits, coke battries on industrial work; demolition of stacks 50' to 100'; tunnel leborers, muckers, including caisson & coffers, horizontal & underground.
GROUP 6 - Demolition of stacks 100' to 150'.
GROUP 7 - Miners, including caissons & coffers, horizontal or underground; mucking machine operators.
GROUP 8 - Blaster men & helpers; billmen & lancer; bottom-men in blast furnaces; stacks, stoves & dust covers.
GROUP 9 - Gunnite nozzlemen.
GROUP 10 - Demolition of stacks over 150'.

GROUP 5 - Agitator & mixer trucks (up to 5 cubic yards).
GROUP 6 - Euclids, dumpsters, turnarocker, ross carriers, athey wagons.
GROUP 7 - Agitator & mixer trucks (over 5 cubic yards).
GROUP 8 - Low-boy trailers, winch trucks, ford trucks (front and back end), truck crane.
GROUP 9 - A-Frame.
GROUP 10 - Mechanics.

DECISION NO. WV75-3007

TRUCK DRIVERS - ZONE 6

GROUP 1 - Warehousemen, yardmen, truck helpers.
GROUP 2 - Greasers, washers, tiremen, gas pump attendants, mechanics helpers.
GROUP 3 - Flatboy material trucks, dump trucks, semi-trucks.
GROUP 4 - Tank trucks (straight & semi).
GROUP 5 - Semi-trailers & tractor trailers.
GROUP 6 - Euclids, dumpsters, turnarockers, ross carriers, athey wagons.
GROUP 7 - Low-boy trailers, winch trucks, A-frame, fork trucks, distributos (front & back end), truck crane.
GROUP 8 - Mechanics.

AREA COVERED BY TRUCK DRIVERS ZONES

ZONE 1 - Boone, Clay, Fayette, Kanawha & Putnam Counties.
ZONE 2 - Calhoun, Gilmer, Jackson, Pleasents, Ritchie, Tyler, Wirt & Wood Counties.
ZONE 3 - Cabell, Mason & Wayne Counties.
ZONE 4 - Barbour, Doddridge, Harrison, Lewis, Marion, Monongalia & Upshur Counties.
ZONE 5 - Marshall, Ohio & Wetzel Counties.
ZONE 6 - Brooke & Hancock Counties.

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Paid Holidays: A through F.

b. Employer contributes 4% basic hourly rate for 5 years or more of service or 2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

c. Employer contributes 2¢ per hour per employer from June 1 to December 31.

d. Employer contributes $41.16 per month per employee employed 30 days or more.

DECISION NO. WV75-3007

FOOTNOTES (CONT'D):

e. Employer contributes $34.67 per month per employee.

f. Employer contributes $58.50 per month per employee employed 30 days or more.

g. Employer contributes $26.00 per month per employee employed 30 days or more.

h. Employer contributes $34.67 per month per employee employed 30 days or more.

i. Employer contributes $28.50 per month per employee employed 30 days or more.

j. Employer contributes $6.30 per week per employee.

k. Employer contributes $6.00 per week per employee.

l. One week's paid vacation.

m. Employer contributes $9.50 per week per employee.

[FR Doc.75-3266 Filed 2-6-75;8:45 am]

INDEX TO GENERAL WAGE DETERMINATION DECISIONS AND MODIFICATIONS AS OF JANUARY 10, 1975

There is set forth below an index to general wage determination decisions and modifications as published in the FEDERAL REGISTER pursuant to the Davis-Bacon and related Acts. The index lists general wage determination decisions and modifications by State and county. An updated index is published on the first Friday of each month.

The index is published for the convenience of the public and the Department of Labor will endeavor to keep it accurate and up to date. In the event the data in the index and published general decisions do not coincide, the published general decisions shall control.

ABBREVIATIONS

(B)—Building Construction
(D)—Dredging Construction
(F)—Flood Control Construction
(H)—Heavy Construction
(Hw)—Highway Construction
(R)—Residential Construction
Mod.—Modification
(HE)—Heavy Engineering
(LE)—Light Engineering
(U)—Light Engineering
(U)—Utility
(S)—Utility
(W&S)—Water and Sewer Lines

Signed at Washington, D.C., this 31st day of January 1975.

RAY J. DOLAN,
Assistant Administrator,
Wage and Hour Division.

[FR Doc.75-3267 Filed 2-6-75;8:45 am]

Would you like to know IF ANY CHANGES HAVE BEEN MADE IN CERTAIN TITLES OF THE CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the "List of CFR Sections Affected."

List of CFR Sections Affected — $10.00 per year

The "List of CFR Sections Affected" is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Also available on a subscription basis . . .

The Federal Register Index — $8.00 per year

Indexes covering the contents of the daily Federal Register are issued monthly and annually. Entries are carried primarily under the names of the issuing agencies. Significant subjects are also carried.

A finding aid is included at the end of each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Order from: Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

Note to FR Subscribers: FR Indexes and the "List of CFR Sections Affected" will continue to be mailed free of charge to regular FR subscribers.

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

EPA—Asbestos manufacturing point source category; effluent guidelines and standards..... 1874; 1–9–75

List of Public Laws

This is a listing of public bills enacted by Congress and approved by the President, together with the law number, the date of approval, and the U.S. Statute citation. Subsequent lists appear each day in the FEDERAL REGISTER, and copies of the laws may be obtained from the U.S. Government Printing Office.

NOTE: No acts approved by the President were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5266. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

RADIO AND CABLE TELEVISION—FCC rules on broadcasting of lottery information; effective 1–30–75..... 6209

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 337, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period Jan. 31-Feb. 6, 1975. The quantity that may be shipped is increased due to improved market conditions for Navel oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907.

§ 907.637 Navel Orange Regulation 337.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Naval Orange Regulation 337 (40 FR 4415). The marketing picture now indicates that there is a greater demand for Navel oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Navel oranges to fill the current market demand thereby making a greater quantity of Naval oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1)(i), and (ii) of § 907.637 (Navel Orange Regulation 337 (40 FR 4415)) are hereby amended to read as follows:

"(i) District 1: 1,435,000 cartons;

"(ii) District 2; 215,000 cartons."

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674).)

Dated: February 5, 1975.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER G—MISCELLANEOUS REGULATIONS

[AL-10 (440)]

PART 1890j—INCOME GUIDELINES—INDIVIDUAL AND COOPERATIVE ECONOMIC OPPORTUNITY (EO) LOANS

Deletion of Part

Part 1890j, "Income Guidelines—Individual and Cooperative Economic Opportunity (EO) Loans," (35 FR 14916), is deleted from Chapter XVIII, Title 7 of the Code of Federal Regulations. This Part has served its purpose, and no longer has any applicability.

((42 U.S.C. 2942); delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70; Order of Director, OEO, 29 FR 14764, 33 FR 9350.)

Effective date: This deletion shall become effective on February 10, 1975.

Dated: January 31, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

[FR Doc.75-3629 Filed 2-7-75;8:45 am]

[AL-928 (440); AL-904 (440)]

PART 1890k—OPERATING LOANS FOR TOBACCO AND PEANUT ACREAGE ALLOTMENTS

Deletion of Part

Part 1890k, "Operating Loans for Tobacco and Peanuts Acreage Allotments," (36 FR 1131), is deleted from Chapter XVIII, Title 7 of the Code of Federal Regulations. This Part has served its purpose and no longer has any applicability.

((U.S.C. 1989); delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70.)

Effective date: This deletion shall become effective on February 10, 1975.

Dated: January 31, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

[FR Doc.75-3630 Filed 2-7-75;8:45 am]

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Emergency Amendment to Special Rule No. 3

On November 29, 1974, FEA issued the final rule for the allocation of old oil (39 FR 42246; December 4, 1974). Subsequent to the issuance of the rule, FEA concluded that, in light of the special needs of many small refiners, an amendment was necessary to assist those small refiners that would be required to purchase entitlements under the program to adjust on a graduated basis to their entitlement purchase obligations. Accordingly on December 16, 1974, FEA adopted Special Rule No. 3 for Subpart C of Part 211.

FEA has determined that extension of the first phase of Special Rule No. 3 is required, for the reasons set forth below. Accordingly, FEA is hereby adopting the amendment set forth herein effective immediately.

Special Rule No. 3 (the Special Rule) provided specified relief for all small refiners that would otherwise be required to purchase entitlements under the program for the first 30,000 barrels per day of their daily average volume of crude oil runs to stills. The Special Rule applied to the months of November and December 1974, and January 1975. For small refiners having run levels under

XUM
V40-28
FEB 10 75
XUM

30,000 barrels per day, no purchases of entitlements were required for November 1974. For December 1974 and January 1975, such small refiners were required to purchase one-third (⅓) and two-thirds (⅔), respectively, of the entitlements they would otherwise be required to purchase under § 211.67(b). For small refiners with run levels in excess of 30,000 barrels per day, the Special Rule was applicable only to that number of entitlements which bears the same proportion to the total number of entitlements required to be purchased that 30,000 barrels per day bears to the average daily volume of crude oil runs to stills of that small refiner.

In adopting the Special Rule, FEA recognized that immediate imposition of the full entitlement purchase requirements of the program might have a severe short-term economic impact on certain small refiners which have been running a higher percentage of old oil in their refineries than the national average. In particular, many small refiners have recently had lower run levels than the industry average; phasing in the entitlement purchase requirements of the program as to small refiners would afford these refiners an interim period during which to bring their run levels back to more normal levels. FEA also realized that serious cash flow problems would be posed for some small refiners that are required to purchase entitlements. The Special Rule was intended to assist small refiners in arranging any necessary financing and instructuring their marketing operations with regard to compliance with the program. In addition, FEA expected that, at the outset of the program, changes would take place in the product prices of various refiners, depending on the impact of the program on each of them; delaying the impact of the program as to small refiners would permit these refiners to adjust their product prices so as to most effectively pass through their increased crude oil costs under the program. In adopting the Special Rule, FEA was aware that many small refiners will also have more difficulty in passing through these increased costs, due to their limited product slate.

One further significant consideration was present in the adoption of the Special Rule. To assure that small refiners were not placed in possible jeopardy during the processing of their exception requests, small refiners were given a reduction in their entitlement purchase requirements for a period that FEA felt was adequate to permit filing and evaluation of applications for exception prior to the point in time at which any significant purchase obligations would attach. In this connection, the FEA also announced that it was implementing an expedited exceptions procedure.

However, as of the current date, FEA has received relatively few exception requests from small refiners, due perhaps to the complexities inherent in the startup phase of the program and the difficulties in drafting the necessary applications, which have heretofore required a broad range of financial and other information concerning the applicant. In light of the present situation facing many small refiners, FEA has concluded that the underlying considerations which led to the adoption of the Special Rule are still applicable and that more time is necessary to allow small refiners to make the appropriate adjustments required by the entitlement program. Accordingly, FEA has decided that the first phase of the Special Rule should be extended for one more month. Further, since FEA believes that numerous small refiners may still need exceptions relief from the full operation of the program, the first phase exemption will also be extended autqmatically upon filing of an exception application on or prior to February 21, 1975 to prevent any possible financial or competitive injury to those small refiners during the processing of their applications.

FEA wishes to emphasize that it considers the exceptions process the appropriate vehicle for final relief for small refiners that are required to purchase entitlements and that may be severely adversely affected by the program. In this connection, FEA would like to reiterate its earlier announcement that it has instituted an expedited exceptions process for the program and expects to evaluate each application with considerable care to ensure that relief is granted where a refiner would suffer a severe hardship or a gross inequity under the program.

The Special Rule as amended extends through December 1974 the purchase requirement exemption for the first 30,000 barrels per day of each small refiner's crude runs provided initially for the month of November. In addition, entitlement purchase obligations for January and February 1975 are exempted to the same extent as were purchase obligations for December and January under the Special Rule as originally issued.

To confirm FEA's policy to effect a reduction in entitlement purchase obligations pending decision on a small refiner's exception request, the amended Special Rule provides for extension of the first phase (November and December) of the Special Rule's exemption for entitlement purchase obligations upon the following conditions: first, the small refiner shall have filed an exception application (including the information called for by Schedule A to the Special Rule) on or prior to February 21, 1975; second, the extension terminates upon issuance of the decision on the application; third, the extension may be terminated by FEA if it determines that a small refiner has significantly delayed the decision on its exception application by not submitting additional financial or other information requested by FEA within a reasonable time which FEA deems necessary for decision of the case. Under this procedure, small refiners that file exception applications on or prior to February 21, 1975 will be exempted from entitlement purchase requirements as to the first 30,000 barrels per day of their crude runs until a decision on their application is issued. The effect will be to preclude any significant impact of the program upon small refiners that might otherwise be required to purchase entitlements pending the decision on their exception applications.

Section 7(1)(1)(B) of the Federal Energy Administration Act of 1974 (Pub. L. 93-275) (FEAA) provides for waiver of the requirements of that section as to time of notice and opportunity to comment prior to promulgation of regulations where strict compliance with such harm or injury to the public health, harm or injury to the public helath, safety, or welfare. The FEA has determined for the reasons outlined above that strict compliance with the requirements of section 7(1)(1)(B) of the FEAA would thus cause serious harm and injury to the public safety and welfare. Accordingly, these requirements must be waived and this amendment is made effective immediately, prior to opportunity to comment thereon.

The review provisions of section 7(c)(2) of the FEAA are hereby waived for a period of fourteen days, as provided for in that section, upon a finding that there is an emergency situation which requires immediate action. FEA is submitting the text of this emergency amendment concurrently with its issuance to the Administrator of the Environmental Protection Agnecy for his review.

Because this amendment is being issued on an emergency basis, an opportunity for oral presentation of views will not be possible prior to its promulgation. A public hearing on the amendment, however, will be held beginning at 9:30 a.m. on Tuesday, March 4, 1975, in Room 3000, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., to receive comments from interested persons. Any person who has an interest in the subject of the hearing, or who is a representative of a group or class of persons which has an interest in the subject of the hearing, may make a written request for an opportunity to make oral presentation. Such a request should be directed to Executive Communications, FEA, and must be received before 4:30 p.m., e.s.t., Monday, February 24, 1975. Such a request may be hand delivered to Room 3309, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be contacted through Friday, February 28, 1975. Each person selected to be heard will be so notified by the FEA before 5:30 p.m., Wednesday, February 26, 1975, and must submit 100 copies of his or her statement to Executive Communications, FEA, Room 3315, Federal Building, Washington, D.C. 20461, before 9 a.m., e.s.t., Monday, March 3, 1975.

The FEA reserves the right to select the persons to be heard at the hearing, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearing. Each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. It will not be a judicial or evidentiary type hearing. Questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. Any decision made by the FEA with respect to the subject matter of the hearing will be based on all information available to the FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to the time limitations.

Any interested person may submit questions, to be asked of any person making a statement at the hearing, to Executive Communications, FEA, before 4:30 p.m., Friday, February 28, 1975. Any person who makes an oral statement and who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer. The FEA or the presiding officer, if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by the FEA and made available for inspection at the Administrator's Reception Area of the FEA, Room 3400, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Anyone may buy a copy of the transcript from the reporter.

Interested persons are invited to submit data, views, or arguments with respect to the emergency amendment to Executive Communications, Federal Energy Administration, Box CD, Washington, D.C. 20461.

Comments should be identified on the outside envelope and on documents submitted to Executive Communications, FEA, with the designation "Emergency Amendment—Special Rule No. 3". Fifteen copies should be submitted. All comments received by February 28, 1975, and all relevant information will be considered by the Federal Energy Administration.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, 39 FR 23185.)

In consideration of the foregoing, Part 211 of Chapter II, Title 10 of the Code of Federal Regulations, is amended as set forth below, effective immediately.

Issued in Washington, D.C., February 5, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel,
Federal Energy Administration.

The Appendix to Subpart C of Part 211 is amended by revising Special Rule No. 3 to read as follows:

SPECIAL RULE NO. 3

1. *Scope.* This Special Rule provides for a reduction in the entitlement purchase requirements of § 211.67(b) for specified volumes of old oil included in the adjusted crude oil receipts of small refiners for the months of November and December 1974, and January and February 1975.

2. *Reduction in entitlement purchase requirements for small refiners.* (a) Each small refiner with a volume of crude oil runs to stills of less than 30,000 barrels per day in the month concerned, that would otherwise be required to purchase entitlements under § 211.67(b): (i) shall not be required to purchase any entitlements for the months of November and December 1974; (ii) shall not be required to purchase in excess of one-third (⅓) of the number of entitlements otherwise required to be purchased by that small refiner under § 211.67(b) for the month of January 1975; and (iii) shall not be required to purchase in excess of two-thirds (⅔) of the number of entitlements otherwise required to be purchased by that small refiner under § 211.67(b) for the month of February 1975.

(b) Each small refiner with a volume of crude oil runs to stills in excess of 30,000 barrels per day in the month concerned, that is required to purchase entitlements under § 211.67(b): (i) shall not be required to purchase a number of entitlements for the months of November and December 1974, which is in the same portion to the total number of entitlements otherwise required to be purchased by that small refiner under § 211.67(b) in the particular month that 30,000 barrels per day is to the daily average volume of that small refiner's crude oil runs to stills for that month; (ii) shall not be required to purchase in excess of one-third (⅓) of that proportion (as calculated in (i) above) of the total number of entitlements otherwise required to be purchased under § 211.67(b) for the month of January 1975; and (iii) shall not be required to purchase in excess of two-thirds (⅔) of that proportion (as calculated in (i) above) of the total number of entitlements otherwise required to be purchased under § 211.67(b) for the month of February 1975.

3. *Filing of applications for exception.* The provisions of subparagraphs (a)(1) and (b)(1) of paragraph 2 of this special rule shall remain in effect as to the entitlement purchase obligations of a small refiner for months subsequent to December 1974 upon the following conditions:

(a) The small refiner shall have filed an application for exception purusant to and in compliance with Subpart D of Part 205 on or prior to February 21, 1975. Any such application shall include the information set forth in Schedule A to this special rule.

(b) The provisions of this paragraph 3 shall cease to be applicable to that small refiner as to entitlements issued subsequent to the date of the issuance of the initial decision upon that small refiner's application for exception.

(c) FEA may in its discretion order that the provisions of this paragraph 3 shall cease to be applicable to any small refiner that has filed an application for exception in compliance with subparagraph (a) of this paragraph 3, if FEA determines that the small refiner has delayed to any significant extent the issuance of a decision on its application by failure to furnish to FEA within a reasonable time financial or other information requested and deemed necessary by the FEA in connection with the analysis of its application.

4. *Adjustment to number of entitlements issuable to refiners and eligible firms.* The total number of entitlements exempted from the purchase requirements of § 211.67(b) pursuant to paragraphs 2 and 3 of this special rule shall be deducted, on a pro-rata basis, from the number of entitlements otherwise issuable to and available for sale by each refiner and each eligible firm which has entitlements available for sale in the month concerned.

5. *Provisions of Subpart C.* The provisions of Subpart C of Part 211 (including, without limitation, the reporting requirements of § 211.66) shall remain in full force and effect except as expressly modified by the provisions of this special rule.

SCHEDULE A

INFORMATION REQUIRED TO BE SUBMITTED IN CONNECTION WITH EXCEPTION APPLICATIONS

PRODUCTION AND REFINING OF CRUDE OIL

(1) Schedules of the following information on a quarterly basis for the period January 1, 1973 through December 31, 1974:

(a) Total refinery capacity;

(b) Crude oil runs (as that term is defined in 10 CFR 211.62);

(c) Volumes of crude oil receipts (as that term is dened in 10 CFR 211.62), specifying the volumes of crude oil received under the FEA Refiners' Buy/Sell List and the volume received from sources in which the applicant has a beneficial or operating interest. In addition, for each month since September 1, 1974 provide an indication of the percentage of crude oil receipts represented by old oil.

(d) The weighted average cost of the crude oil received from all sources.

(e) The nature and duration of any crude oil processing agreements.

(f) The nature of any crude oil exchange agreements including any agreements under which crude oil is exchanged for refined petroleum products; and

(g) A description of any sales of crude oil specifying the volume sold, the name of each purchaser and the weighted average price per barrel.

(2) A schedule for each quarter of 1975 showing the applicant's projected crude oil receipts, its anticipated sources of crude oil, the percentage of old oil which it anticipates receiving and the nature of any crude oil processing agreements the applicant expects to utilize.

PURCHASE AND SALE OF REFINED PRODUCTS

(3) A schedule showing the following data on a quarterly basis for the period January 1973 through December 1974:

(a) The types of refined petroleum products sold; and

(b) For each product which constitutes 10% of the total sales volume (1) the weighted average selling price per gallon and (2) the volume sold.

XUM V40128 FEB 10 75 XUM

COMPETITIVE POSITION

(4) A discussion of the reasons underlying the applicant's inability to increase the prices of the products which it sells so as to reflect the crude oil cost increases which it expects to incur as a result of the Crude Oil Entitlements Program. Such a discussion should include the following types of information:

(a) A list of the applicant's major competitors;

(b) A description of the historical relationships between the prices of the applicant's refined products and those of the firms listed in (a); and

(c) A detailed description of the present competitive price posture of the applicant and the firms listed in (a) to the extent that such information is available to the applicant.

FINANCIAL DATA

(5) Complete financial statements and Forms 10–K (if available) for the fiscal years 1968 through the most recently completed fiscal year, and any available quarterly financial statements for the current fiscal year.

(6) A schedule specifying the firm's operating cost per barrel of crude oil processed in both 1973 and 1974, an explanation of the composition of these costs and the manner in which these figures are derived.

(7) A pro-forma profit and loss statement for each fiscal quarter of 1975 prepared under the assumptions that: (i) the FEA Crude Oil Entitlements Program (10 CFR 211.67) is in effect during that entire period; (ii) the national old oil supply ratio is 40 percent; and (iii) the price of each entitlement is $5. These pro-forma statements should take into account the entitlement adjustment for small refiners set forth in 10 CFR 211.67(e) if applicable, and any other appropriate adjustments as required under § 211.67 should be made. An explanation of any other assumptions employed in the preparation of these statements should be provided.

(8) Copies of the following documents:

(a) Contracts between the firm and the purchasers of its refined petroleum products which in any way restrict the firm's ability to pass through the added costs of entitlements to such purchasers in the form of higher prices;

(b) Existing agreements between the firm and financial lending institutions; and

(c) Copies of all Forms FEO–96 which the firm has filed to date.

[FR Doc.75-3644 Filed 2-7-75;8:45 am]

PART 212—MANDATORY PETROLEUM PRICE REGULATIONS

Redesignation of Section Numbers of Subpart K

On December 19, 1974, the Federal Energy Administration issued a new Subpart K, containing regulations covering the pricing of natural gas liquids and products produced from natural gas liquids, including propane, pursuant to authority granted by the Emergency Petroleum Allocation Act of 1973, to become effective on January 1, 1973. (39 FR 44407; December 24, 1974). Subsequent to the issuance of these regulations, FEA became aware that the individual sections in the new Subpart K had been numbered using a sequence which is out of phase with the numbering sequence used for previously existing subparts. FEA has therefore determined that a corrective amendment to the regulations to redesignate the section numbers of Subpart K is warranted, and FEA is hereby redesignating each section number in Subpart K to comport with the numbering sequence previously used in Part 212. References to the section numbers of Subpart K which appear in various sections of FEA's mandatory petroleum price regulations are also being revised to reflect the redesignation of the sections of Subpart K. No other revisions of the regulations are contained in this amendment.

Since this amendment is issued solely to correct an error in section designations and is purely technical in nature, FEA finds that good cause exists to issue this corrective amendment immediately, without notice, opportunity for comment, or delay in the effective date of the amendment.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93–159; Federal Energy Administration Act of 1974, Pub. L. 93–275; E.O. 11790, 39 FR 23185).

In consideration of the foregoing, Part 212 of Chapter II, Title 10 of the Code of Federal Regulations, is amended as set forth below, effective immediately.

Issued in Washington, D.C., February 4, 1975.

ROBERT E. MONTGOMERY, JR.,
General Counsel,
Federal Energy Administration.

1. Section 212.83 is amended in paragraph (c) (1) (iii) (C) to read as follows:

§ 212.83 Allocation of refiner's increased costs.

* * * * * * *

(c) *Allocation of increased product costs*—(1) *General rule.* * * *

(iii) * * *

(C) May apportion to propane the increased product costs attributable to propane produced from natural gas as determined pursuant to the provisions of § 212.166 of Subpart K of this part; and

* * * * * * *

§ 212.141 [Amended]

2. Section 212.141 is amended by redesignating the section as § 212.161 and by revising paragraphs (b) (2) (ii), and (iii) to read as follows:

§ 212.161 Applicability and Relationship to other Subparts.

* * * * * * *

(b) * * *

(2) * * *

(ii) *Calculation of increased product costs.* Such refiners shall calculate the increased product costs of all natural gas liquids (except natural gas liquids which are separated from natural gas at the well head of an oil well, and purchased as crude oil) and the increased product costs attributable to natural gas liquid products pursuant to §§ 212.166 and 212.167 of this subpart, and shall add the amount of increased product costs so determined to the amount of increased product costs incurred in each month of measurement and determined to be allocable to other than special products under the refiner's cost allocation formulae of § 212.83(c) (1), provided that the amount of such increased product costs allocable to propane prices is limited pursuant to the provisions of § 212.167(c) and § 212.83(c) (1) (iii).

(iii) *Calculation of increased non-product costs.* Such refiners shall calculate increased non-product costs attributable to natural gas processing pursuant to § 212.165, and shall add the amount of increased non-product costs so determined to the amount of increased non-product costs incurred in each month of measurement and determined to be allocable to prices charged for covered products pursuant to § 212.87(b), provided that the inclusion of such increased non-product costs determined pursuant to § 212.165 in prices charged by such refiners shall constitute the charging of an allowable price in excess of base price which will make such refiners subject to the profit margin limitation of § 212.82(d).

* * * * * * *

§§ 212.142—212.146 [Amended]

3. Section 212.142 is amended by redesignating the section as § 212.162.

4. Section 212.143 is amended by redesignating the section as § 212.163.

5. Section 212.144 is amended by redesignating the section as § 212.164.

6. Section 212.145 is amended by redesignating the section as § 212.165.

7. Section 212.146 is amended by redesignating the section as § 212.166 and by revising paragraph (a) to read as follows:

§ 212.166 Increased product costs.

(a) The first sale price of natural gas liquids or natural gas liquid products may be increased in each month as provided in § 212.167 to reflect, on a dollar-for-dollar basis, increased product costs since May, 1973 attributable to the production of such natural gas liquids or natural gas liquid products.

* * * * * * *

§ 212.147—212.150. [Amended]

8. Section 212.147 is amended by redesignating the section as § 212.167.

9. Section 212.148 is amended by redesignating the section as § 212.168.

10. Section 212.149 is amended by redesignating the section as § 212.169.

11. Section 212.150 is amended by redesignating the section as § 212.170.

[FR Doc.75-3619 Filed 2-7-75;8:45 am]

Title 12—Banks and Banking

CHAPTER I—COMPTROLLER OF THE CURRENCY, DEPARTMENT OF THE TREASURY

PART 23—STATEMENTS OF BUSINESS INTERESTS OF DIRECTORS AND PRINCIPAL OFFICERS OF NATIONAL BANKS

Clarification of Reporting Requirements

The Comptroller of the Currency is amending the regulation governing statements of business interests of directors and principal officers of national banks (12 CFR Part 23, 39 FR 41735, December 2, 1974). The amendment (a) eliminates collection of information relating to deposits; and (b) makes clear that extensions of credit to reporting individuals, as well as to their business enterprises, must be reported.

Under this amendment a director or principal officer no longer will be required to report deposits held by a national bank for a business enterprise in which he has an interest. Similarly, a reporting person will not file a Form CC–9030–29 for any personal or family trust nor for any charitable, social, fraternal, civic, governmental or recreational organization if the only connection of such trust or organization with the bank is a depository relationship.

This amendment also deletes certain references to a business enterprise in §§ 23.2 and 23.3, thereby focusing those sections on the definitions of transactions. These changes clarify the requirement that a director or principal officer report on a separate Form CC–9030–29 extensions of credit by the bank made to him or for his benefit, as well as extensions of credit to, or for the benefit of, his business enterprises. Transactions between a reporting individual and the bank other than those which involve extensions of credit need not be reported.

Since this amendment merely clarifies ambiguous provisions and relaxes certain reporting requirements, it is hereby determined that further proposed rulemaking and public participation procedures are not in the public interest. Accordingly, this amendment will become effective March 1, 1975, as part of the original regulation.

Part 23 of 12 CFR is amended as follows:

1. In § 23.2, paragraphs (b), (e) (2), and (h) (2) are revised to read as follows:

§ 23.2 Definitions.

For purposes of this part:

* * * * * * *

(b) The term "business enterprise" means a corporation, association, business trust, partnership, joint venture, pool, syndicate, sole proprietorship or any other form of business not specifically listed herein, whether or not such enterprise has engaged in transactions with the designated bank. The term "business enterprise" also includes any personal or family trust and any charitable, social, fraternal, civic, governmental or recreational association, trust, club, agency or other organization if, and only if, such enterprise has engaged in any transaction with the designated bank, other than making a deposit or soliciting or receiving contributions, during the last year. The term "business enterprise" excludes: (1) The designated bank; (2) a corporation, partnership, or joint venture which is 50 percent or more owned by the designated bank; joint venture which is 50 percent or more owned by the designated bank; and (3) a holding company whose control of the designated bank is registered with or approved by the Board of Governors of the Federal Reserve System, pursuant to sections 3 or 5 of the Bank Holding Company Act, (12 U.S.C. 1842, or 1844), or any of such holding company's subsidiaries the control of which has been registered with or approved by the Board of Governors of the Federal Reserve System pursuant to section 3, 4, or 5 of the Bank Holding Company Act, (12 U.S.C. 1842, 1843 or 1844).

* * * * * * *

(e) The term "excluded transaction" means:

* * * * * * *

(2) An extension of credit or agreement which is of such insignificance both to the designated bank and to the business enterprise involved that the senior management of both should not be expected in the normal course of business to be aware of the transaction.

* * * * * * *

(h) The term "material change" means:

* * * * * * *

(2) The creation, or termination, or significant change in the terms or conditions of any extension of credit or agreement.

* * * * * * *

2. § 23.3 is revised to read as follows:

§ 23.3 Filing of statement.

Every director or principal officer of a national bank is required to maintain on file with the bank as prescribed in this regulation one or more Forms CC–9030–29. The director or principal officer shall complete and file Forms CC–9030–29 with the designated bank within 30 days after becoming a director or principal officer, or by March 1, 1975, whichever is later. Thereafter, the reporting person shall complete and file with the designated bank a new Form CC–9030–29 within 30 days after the occurrence of any material change. The reporting person shall include on the Forms, in accordance with applicable instructions, the required information concerning any business enterprise in which he, his spouse, or his minor children have an interest and any extension of credit or agreement which is not an excluded transaction. If the reporting person has no interest in any business enterprise, he shall complete and file a Form CC–9030–29 so stating.

Effective date: This amendment becomes effective on March 1, 1975.

Dated: February 4, 1975.

[SEAL] JAMES E. SMITH,
Comptroller of the Currency.

[FR Doc.75-3633 Filed 2-7-75;8:45 am]

Title 13—Business Credit and Assistance

CHAPTER IV—EMERGENCY LOAN GUARANTEE BOARD

PART 402—RULES REGARDING AVAILABILITY OF INFORMATION

The Emergency Loan Guarantee Board has amended its Rules Regarding Availability of Information, effective immediately, in order to comply with recent amendments to section 552 of Title 5, United States Code, known as the Freedom of Information Act, by prescribing time limits for responses to requests, extensions thereof, and defining the unusual circumstances which permit such extensions.

1. Effective immediately the Emergency Loan Guarantee Board's Rules Regarding Availability of Information are amended in the following respects:

§ 402.2 is amended by adding the following definition:

§ 402.2 [Amended]

"Unusual Circumstances." For purposes of this Part "unusual circumstances" means, but only to the extent reasonably necessary to the proper processing of the particular request—

(i) The need to search for and collect the requested records from field facilities or other establishments that are separate from the Board's office processing the request;

(ii) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(iii) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the Board having substantial subject-matter interest therein.

§ 402.4(c) is deleted in its entirety and the following is substituted:

§ 402.4 [Amended]

* * * * * * *

(c) *Actions on requests.* The Secretary of the Board shall within 10 days (excepting Saturdays, Sundays and legal public holidays) determine whether to comply with such request for records and shall immediately notify in writing the person making such request of such determination and the reasons therefor and the right of such person to appeal that determination, as provided in § 402.6. In unusual circumstances the time limit for the Secretary's determination may be extended by written notice to the person making such request setting forth the reasons for such extension and the date on which the determination is expected to be dispatched. No such notice shall specify a date that will result in an extension of more than 10 days; provided however, that the total days of extension under this section and § 402.6(b) shall not exceed, in the aggregate, 10 days.

§ 402.6(b) is deleted in its entirety and the following is substituted:

§ 402.6(b) [Amended]

* * * * * * *

(b) The Executive Director of the Board shall make a determination with respect to any appeal within 20 days after the receipt of such appeal. In unusual circumstances, action on such appeal may be deferred by written notice to the person making such appeal setting

XUM V40128 FEB 10 75 XUM

forth the reasons for the extension and the date on which the determination is expected to be dispatched. No such notice shall specify a date that will result in an extension for more than ten days; provided however, that the total days of extension under this section and § 402.4(c) shall not exceed, in the aggregate, 10 days. The granting or the denial of a request upon appeal shall constitute final Board action. If the appeal is denied in whole or in part, the Executive Director shall notify in writing the person making such request of the provisions for judicial review of that determination under section 552(a)(4) of Title 5, United States Code.

2. The provisions of section 553 of Title 5, United States Code, relating to notice and public participation and to deferred effective dates, are not followed in connection with the adoption of this action because the rules involved are procedural in nature and accordingly do not constitute substantive rules subject to the requirements of such section.

Dated: January 31, 1975.

ALAN N. VINICK,
Secretary,
Emergency Loan Guarantee Board.

[FR Doc.75-3682 Filed 2-7-75;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75 NE-6; Amdt. 39-2068]

PART 39—AIRWORTHINESS DIRECTIVE

Pratt & Whitney JT8D Aircraft Engines

Amendment 39-1835 (39 FR 16388), AD 74-10-12, requires operators of certain JT8D engines, exposed to a possible intermix of different type material second, third, and fourth stage turbine nozzle guide vanes, to determine if there is sufficient axial clearance between the turbine stators and their respective turbine rotors. If the clearance is below the minimum limit, the engine must be removed within the next 25 hours time in service and unapproved vanes removed. If the clearance is above the minimum, the engine shall be inspected prior to the accumulation of 6000 hours time in service after the effective date of the AD and any unapproved vanes removed.

It has come to our attention that certain serial number engines that have been listed were not exposed to the vane intermix, while others not listed were exposed. Therefore, the AD is being amended to delete and add engine serial numbers.

Since a situation exists that requires immediate adoption of this airworthiness directive, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to be by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1835 (39 FR 16388), AD 74-10-12, is amended by changing the applicability paragraph by:

A. Deleting the following serial numbers from Group I, JT8D-9 and -9A engines affected: 665152, 665170, 665219, 665245, 665289, 665324, 665334, 665347, 665371, 665372, 665390, 665404, 665413, 665424, 665430, 665435, 665447, 665472, 665480, 665491, 665494, 665530, 665537, 665550, 665558, 665559, 665561, 665629, 665634, 665658, 665660, 665669, 665703, 665704, 674299, 674318, 674329, 674341, 674373, 674375, 674381, 674390, 674409, 674431, 674488.

B. Adding the following serial numbers to Group I, JT8D-9 and -9A engines affected: 665323, 665377, 674344.

C. Deleting the following serial numbers from Group II, JT8D-7 and -7A engines affected: 649494, 649528, 653660, 653748, 654153, 654605, 654608, 654666, 654724, 654757, 654793, 654842, 654865, 654895, 654915, 654976, 654987, 654997, 655048, 655060, 655073.

D. Adding the following serial numbers to Group II, JT8D-7 and -7A engines affected: 653683, 654898, 654925.

This amendment becomes effective February 20, 1975.

This amendment is made under the authority of Section 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Burlington, Massachusetts, on January 31, 1975.

WILLIAM E. CROSBY,
Acting Director, New England Region.

[FR Doc.75-3684 Filed 2-7-75;8:45 am]

[Docket No. 75-NE-3; Amdt. 39-2062]

PART 39—AIRWORTHINESS DIRECTIVES

Sikorsky S-55 and S-62A Helicopters Certificated in All Categories, Including Military Types

A crack has been found in a lug of a main rotor spindle of an aircraft that is the military counterpart of the Sikorsky S-62 helicopter. Since this condition is likely to exist or develop in other helicopters of the same design, an Airworthiness Directive is being issued to require inspections of the main rotor spindle lug areas and replacement, if necessary, of the spindles.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

SIKORSKY AIRCRAFT. Applies to S-55, S-55B, S-55C and S-62A Helicopters certificated in all categories, including military type HRS-1, HRS-3, CH-19, H-19B, H-19C, H-19A, R-19D, H04S§3G, UH-19D, H19D5, UH-19B, UH-19D helicopters, equipped with P/N S10-10-3325-1 and S10-10-3325-2 main rotor spindles.

(a) Within the next 10 hours' time in service after the effective date of this AD, unless already accomplished within the preceding 50 hours' time in service, conduct a dye penetrant inspection of the exposed areas of the lugs of the main rotor spindles.

(b) If a crack is found during the above inspection, replace the cracked spindle with a spindle that has been inspected in accordance with paragraph (a) above and found to be free of cracks, prior to flight.

(c) Report in writing any cracks found during the inspection of paragraph (a) to: Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803. Each report must include the length and location of the cracks and the total time in service of the spindle.

Sikorsky message SST62A6C74.3 covers this inspection.

This amendment becomes effective February 19, 1975.

This amendment is made under the authority of Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Burlington, Massachusetts, on January 28, 1975.

WILLIAM B. CROSBY,
Acting Director,
New England Region.

[Airspace Docket No. 74-SW-44]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate a 700-foot transition area at La Pryor, Tex.

On December 20, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 44036) stating the Federal Aviation Administration proposed to designate the La Pryor, Tex., transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 19, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

LA PRYOR, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of La Paloma Ranch Airport (latitude 28°53'30" N., longitude 99°51'09" W.) and within 3.5 miles each side of the 353° bearing from the La Pryor, Tex., NDB (latitude 28°55'47" N., longitude 99°51'16" W.) extending from the 5-mile radius area to 11.5 miles northwest of the La Pryor, Tex., NDB.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Forth Worth, Tex., on January 31, 1975.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.75-3686 Filed 2-7-75;8:45 am]

[Airspace Docket No. 74-SO-70]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On July 12, 1974, a Notice of Proposed Rule Making was published in the FEDERAL REGISTER (39 FR 25668), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Knoxville, Tenn., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901, April 24, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the Knoxville, Tenn., transition area is amended as follows:

"• • • excluding the portion within Morristown, Tenn., transition area • • •" is deleted and "• • • within a 6.5-mile radius of Monroe County Airport, Madisonville, Tenn. (latitude 35°42'45" N., longitude 84°22'47" W.); excluding the portion within the Athens and Morristown, Tenn., transition areas • • •" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c))).

Issued in East Point, Ga., on January 30, 1975.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.75-3687 Filed 2-7-75;8:45 am]

[Airspace Docket No. 74-SO-69]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

PART 73—SPECIAL USE AIRSPACE

Temporary Alteration of Federal Airway and Designation of Temporary Restricted Areas

On November 20, 1974, a Notice of Proposed Rule Making (NPRM) was published in the FEDERAL REGISTER (39 FR 40784) stating that the Federal Aviation Administration (FAA) was considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would designate temporary restricted areas in the vicinity of Onslow Beach, Camp LeJeune, N.C., to contain a military joint training exercise, AGATE PUNCH, scheduled from 0800 G.m.t., April 14, 1975, to 2300 G.m.t., April 26, 1975. Two of the restricted areas would contain airspace at or above 14,500 feet MSL, and they would therefore be included in the continental control area for the duration of their time of designation. During the period of the exercise, a portion of VOR Federal Airway, V-139, would also be reduced in width to three nautical miles on its east side.

On January 8, 1975, a Supplemental Notice of Proposed Rule Making was published in the FEDERAL REGISTER (40 FR 1518) that would alter the original Notice by changing the time of designation proposed for Restricted Areas R-5315 A, B, C and D and by proposing that an additional Restricted Area, R-5315E, be designated for use during AGATE PUNCH.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. Only one comment was received and it was favorable.

In consideration of the foregoing, Parts 71 and 73 of the Federal Aviation Regulations are amended, effective 0901 G.m.t., March 27, 1975, as hereinafter set forth.

§ 71.123 [Amended]

1. § 71.123 (40 FR 367) is amended as follows:

In V-139 "• • • From Wilmington, N.C., New Bern, N.C.; • • •" is deleted and "• • • From Wilmington, N.C., 7 miles wide from 13 miles NE of Wilmington to 44 miles NE of Wilmington (4 miles W and 3 miles E) New Bern, N.C.; • • •" is substituted therefor for the duration of Exercise AGATE PUNCH from 0800 G.m.t., April 15, to 2300 G.m.t., April 27, 1975.

§ 71.151 [Amended]

2. In § 71.151 (40 FR 343) the following temporary restricted areas are included for the duration of their time of designation from 0800 G.m.t., April 15, to 2300 G.m.t., April 27, 1975.

a. R-5315A Exercise Agate Punch.
b. R-5315C Exercise Agate Punch.

§ 73.53 [Amended]

3. In § 73.53 (40 FR 687) the following temporary restricted areas are added:

a. R-5315A Exercise Agate Punch.
Boundaries. Beginning at Lat. 34°17'45"N., Long. 77°37'50"W.; thence via the 13 nautical mile arc of Wilmington, N.C. VORTAC (Lat. 34°21'05"N., Long. 77°52'29" W.); to Lat. 34°28'00"N., Long. 77°39'00"W.; to Lat. 34°50'30"N., Long. 77°13'00"W.; to Lat. 34°49'30"N., Long. 77°10'00"W.; thence south along the westerly and southerly boundaries of R-5306C, E and D and W-122 to point of beginning.
Designated altitudes. 1,000 feet AGL to FL 180.
Time of designation. Continuous, 0800 G.m.t., April 15 to 2300 GMT, April 27, 1975.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. COMSECONDFLT, Norfolk, Va.

b. R-5315B Exercise Agate Punch.
Boundaries. Beginning at Lat. 34°56'00" N., Long. 77°01'00"W.; to Lat. 34°43'15"N., Long. 76°47'30"W.; to Lat. 34°42'00"N., Long. 76°54'45"W.; to Lat. 34°51'00"N., Long. 77°05'30"W.; to Lat. 34°49'30"N., Long. 77°-10'00"W.; to Lat. 34°52'30"N., Long. 77°04'-30"W.; to point of beginning.
Designated altitudes. 1,000 feet AGL to 3,000 feet MSL.
Time of designation. Continuous, 0800 G.m.t., April 15 to 2300 GMT, April 27, 1975.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. COMSECONDFT, Norfolk, Va.

c. R-5315C Exercise Agate Punch.
Boundaries. Beginning at Lat. 34°43'15" N., Long. 76°47'30" W.; to Lat. 34°38'15" N., Long. 76°41'30" W.; to Lat. 34°37'30" N., Long. 76°56'20" W.; thence north and east along the easterly and southerly boundaries of R-5306C and B to point of beginning.
Designated altitudes. 1,000 feet AGL to FL 180.
Time of designation. Continuous, 0800 GMT, April 15 to 2300 GMT, April 27, 1975.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. COMSECONDFLT, Norfolk, Va.

d. R-5315D Exercise Agate Punch.
Boundaries. A circular area with a 3-nautical mile radius centered on OLF Camp Davis (Lat. 34°31'00" N., Long. 77°32'30" W.)
Designated altitudes. Surface to 1,000 feet AGL.
Time of designation. Continuous, 0800 GMT, April 15 to 2300 GMT, April 27, 1975.
Controlling agency. Federal Aviation Administration, Washington ARTC Center.
Using agency. COMSECONDFLT, Norfolk, Va.

e. R-5315E Exercise Agate Punch.
Boundaries. A circular area with a 3-nautical mile radius centered at Lat. 34°33'-25" N., Long. 77°20'30" W., excluding that airspace within existing R-5306D.
Designated altitudes. Surface to 1,000 feet AGL.
Time of designation. Continuous, 0800 GMT, April 15 to 2300 GMT, April 27, 1975.
Controlling agency. Federal Aviation Administration Washington ARTC Center.
Using agency. COMSECONDFLT, Norfolk, Va.

Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Title 29—Labor

CHAPTER I—NATIONAL LABOR RELATIONS BOARD

PART 102—RULES AND REGULATIONS, SERIES 8

Miscellaneous Amendments

By virtue of the authority vested in it by the National Labor Relations Act, approved July 5, 1935,[1] the National Labor Relations Board hereby issues the following further amendments to its Rules and Regulations, Series 8, as amended, which it finds necessary to carry out the provisions of said Act.

1. Section 102.16 is revised to read as follows:

§ 102.16 Hearing; change of date or place.

Upon his own motion or upon proper cause shown by any other party, the regional director issuing the complaint may extend the date of such hearing or may change the place at which it is to be held.

2. Section 102.68 is revised to read as follows.

§ 102.68 Record; what constitutes; transmission to Board.

The record in the proceeding shall consist of: the petition, notice of hearing with affidavit of service thereof, motions, rulings, orders, the stenographic report of the hearing and of any oral argument before the regional director, stipulations, exhibits, documentary evidence, affidavits of service, depositions, and any briefs or other legal memoranda submitted by the parties to the regional director or to the Board, and the decision of the regional director, if any. Immediately upon issuance by the regional director of an order transferring the case to the Board, or upon issuance of an order granting a request for review by the Board, the regional director shall transmit the record to the Board.

3. Section 102.69(g) is revised to read as follows:

§ 102.69 Election procedure; tally of ballots; objections; certification by regional director; report on challenged ballots; report on objections; exceptions; action of the Board; hearing.

• • • • •

(g) The notice of hearing, motions, rulings, orders, stenographic report of the hearing, stipulations, exceptions, documentary evidence, together with the objections to the conduct of the election or conduct affecting the results of the election, any report on such objections, any report on challenged ballots, exceptions to any such report, any briefs or other legal memoranda submitted by the parties, the decision of the regional director, if any, and the record previously made as described in § 102.68, shall constitute the record in the case. Materials other than those set out above shall not be a part of the record; except that in a proceeding in which no hearing is held, a party filing exceptions to a regional director's report on objections or challenges, a request for review of a regional director's decision on objections or challenges, or any opposition thereto, may append to its submission to the Board copies of documents it has timely submitted to the regional director and which were not included in the report or decision. Immediately upon issuance of a report on objections or challenges, or both, upon issuance by the regional director of an order transferring the case to the Board, or upon issuance of an order granting a request for review by the Board, the regional director shall transmit the record to the Board.

4. Section 102.71(a) is revised to read as follows:

§ 102.71 Dismissal of petition; refusal to proceed with petition; requests for review by Board of action of the regional director.

(a) If, after a petition has been filed and at any time prior to the close of hearing, it shall appear to the regional director that no further proceedings are warranted, the regional director may dismiss the petition by administrative action and shall so advise the petitioner in writing, setting forth a simple statement of the procedural or other grounds for the dismissal, with copies to the other parties to the proceeding. Any party may obtain a review of such action by filing a request therefor with the Board in Washington, D.C., in accordance with the provisions of subsection (c) of this section. A request for review from an action of a regional director pursuant to this subsection may be granted only upon one or more of the following grounds:

(1) That a substantial question of law or policy is raised because of (i) the absence of, or (ii) a departure from, officially reported Board precedent.

(2) There are compelling reasons for reconsideration of an important Board rule or policy.

(3) The request for review is accompanied by documentary evidence previously submitted to the regional director raising serious doubts as to the regional director's factual findings, thus indicating that there are factual issues which can best be resolved upon the basis of a record developed at a hearing.

(4) The regional director's action is, on its face, arbitrary or capricious.

(5) The petition raises issues which can best be resolved upon the basis of a record developed at a hearing.

• • • • •

These amendments shall become effective on February 10, 1975.

Dated: Washington, D.C. February 5, 1975.

By direction of the Board.

ROBERT VOLGER,
Acting Executive Secretary.

Title 32—National Defense

CHAPTER XVIII—DEFENSE CIVIL PREPAREDNESS AGENCY

PART 1811—NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS OF THE DEFENSE CIVIL PREPAREDNESS AGENCY

Definitions

In § 1811.2 of 32 CFR Part 1811, as published in the FEDERAL REGISTER of January 20, 1975 (40 FR 3212) paragraph (a) designated the title of DCPA manual number CPG 1-9. This manual provides detailed information to States and their political subdivisions regarding nondiscrimination in Federally assisted programs of the Defense Civil Preparedness Agency. The title is being changed so as to be more descriptive of the scope of the manual. Therefore, in 32 CFR Part 1811, paragraph (a) is revised. § 1811.2 is revised to read as follows:

§ 1811.2 Definitions.

• • • • •

(a) "CPG 1-9" means DCPA publication number CPG 1-9 entitled "nondiscrimination in federally assisted programs of the defense civil preparedness agency."

• • • • •

(32 CFR 300.14, 29 FR 19294, Dec. 31, 1964.)

Dated this 31st day of January 1975.

JOHN E. DAVIS,
Director,
Defense Civil Preparedness Agency.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 3-75-2-R]

PART 127—SECURITY ZONE

Establishment of Security Zone, Marcus Hook, Pa.

Captain Dudley C. Goodwin, United States Coast Guard, Captain of the Port, Philadelphia, Pennsylvania, issued the following order establishing a Security Zone around the M. T. Corinthos at the BP Dock at Marcus Hook, Pa., effective February 3, 1975.

This amendment to the Coast Guard's security zone regulation establishes the remains of the M/T Corinthos at the BP Dock as a Security Zone. This Security Zone is established to protect evidence required by a Coast Guard Board of Inquiry into the circumstances surrounding an explosion on the Corinthos.

This amendment is issued without publication of a notice of proposed rulemaking and this amendment is effective in less than 30 days from the date of publication because good cause exists and public procedures on this amendment are impracticable because immediate action is necessary to protect the evidence.

In consideration of the foregoing, Part 127 of Title 33 of the Code of Federal Regulations is amended by adding § 127.317 to read as follows:

§ 127.317 Marcus Hook, Pa.—Delaware River.

The area within the following boundary is a security zone:

The M/T Corinthos and the area within the floating boom surrounding the vessel.

(46 Stat. 220, as amended, 6(B), 80 Stat. 937; (40 U.S.C. 191), (49 U.S.C. 1655(B)); E.O. 10173, E.O. 10277, E.O. 10352, E.O. 11249; 3 CFR, 1949-1953 Comp. 356, 778, 873, 3 CFR, 1964, 1965 Comp. 349, 33 CFR Part 6, 49 CFR 1.46(B)).

Effective date: This amendment becomes effective on February 3, 1975.

Dated: February 4, 1975.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Marine Environment and Systems.

Title 36—Parks, Forests, and Public Property

CHAPTER VI—AMERICAN REVOLUTION BICENTENNIAL ADMINISTRATION

PART 602—EMPLOYEE RESPONSIBILITIES AND CONDUCT

The following are adopted as the American Revolution Bicentennial Administration (ARBA) regulations regarding employee responsibilities and conduct. The regulations were approved by the Civil Service Commission on January 29, 1975, and are effective February 10, 1975.

Sec.
602.101 Adoption of regulations.
602.102 Review of statements of employment and financial interests.
602.103 Disciplinary and other remedial action.
602.104 Gifts, entertainment, and favors.
602.105 Outside employment and other activity.
602.106 Financial interest.
602.107 Miscellaneous statutory provisions.
602.108 Special provisions of Administration regulations governing special Government employees.
602.109 Statements of employment and financial interests.
602.110 Supplementary statements.
602.111 Use of Government property.
602.112 Misuse of information.
602.113 General conduct prejudicial to the Government.
602.114 Interpretation and advisory services.

AUTHORITY: E.O. 11222; 3 CFR 1964-1965 Comp., p. 306; 5 CFR 735.104.

§ 602.101 Adoption of regulations.

Pursuant to 5 CFR 735.104(f), the American Revolution Bicentennial Administration (referred to hereinafter as the Administration) hereby adopts the following sections of Part 735 of Title 5, Code of Federal Regulations: §§ 735.101-102; 735.201a; 735.202 (a), (d), (e), (f) 735.305(a); 735.306; 735.403(a); 735.404-411; and 735.412 (b) and (d). These adopted sections are modified and supplemented as set forth in this part.

§ 602.102 Review of statements of employment and financial interests.

Each statement of employment and financial interests submitted under this part shall be reviewed by the General Counsel. When this review indicates a conflict between the interests of an employee or special Government employee of the Administration and the performance of his services for the Government, the General Counsel shall have the indicated conflict brought to the attention of the employee or special Government employee, grant the employee or special Government employee an opportunity to explain the indicated conflict, and attempt to resolve the indicated conflict. If the indicated conflict cannot be resolved, the General Counsel shall forward a written report on the indicated conflict to the Administrator, American Revolution Bicentennial Administration.

§ 602.103 Disciplinary and other remedial action.

(a) An employee or special Government employee of the Administration who violates any of the regulations in this part or adopted under § 602.101 may be disciplined. The disciplinary action may be in addition to any penalty prescribed by law for the violation. In addition to or in lieu of disciplinary action, remedial action to end conflicts or appearance of conflicts of interest may include but is not limited to:

(1) Changes in assigned duties;

(2) Divestment by the employee or special Government employee of his conflicting interest; or

(3) Disqualification for a particular assignment.

§ 602.104 Gifts, entertainment, and favors.

The Administration authorizes the exception to 5 CFR 735.202(a) set forth in 5 CFR 735.202(b)(1)-(4).

§ 602.105 Outside employment and other activity.

(a) An employee of the Administration may engage in outside employment or other outside activity not incompatible with the full and proper discharge of the duties and responsibilities of his Government employment. An employee who engages in outside employment shall report that fact in writing in advance to the Administrator.

(b) Employees of the Administration may engage in teaching, writing, and lecturing provided, however, employees shall not receive compensation or anything of monetary value for any consultation, discussion, writing, lecturing or appearance, the subject matter of which is devoted substantially to the specific responsibilities, programs, or operations of the Administration or which draws substantially on official data or ideas which have not been published or otherwise publically released by the Administration. The foregoing limitaion on the receipt of compensation or anything of monetary value shall not be construed as applying to amounts received for reimbursement for travel and other expenses incurred in performing the outside employment.

§ 602.106 Financial interest.

(a) An employee shall not:

(1) Have a direct or indirect financial interest that conflicts, or appears to conflict with his Government duties and responsibilities; or

(2) Engage in, directly or indirectly, a financial transaction as a result of, or primarily relying on, information obtained through his Government employment.

(b) This section does not preclude an employee from having a financial interest or engaging in financial transactions to the same extent as a private citizen not employed by the Government so long as it is not prohibited by law, the Executive Order, this section, or the Administration regulations.

§ 602.107 Miscellaneous statutory provisions.

The Administration authorizes the adoption of the regulations regarding miscellaneous statutory provisions as set forth in 5 CFR 735.210.

[1] 49 Stat. 449; (29 U.S.C. 151-166), as amended by act of June 23, 1947 (61 Stat. 136; (29 U.S.C. 151-167)), act of October 22, 1951 (65 Stat. 601; (29 U.S.C. 158, 159, 168)), and act of September 14, 1959 (73 Stat. 519; (29 U.S.C. 141-168).

XUM
V40128
FEB 10 75
XUM

§ 602.108 Specific provisions of Administration regulations governing special Government employees.

(a) Special Government employees of the Administration shall adhere to the standards of conduct applicable to employees as set forth in this part and adopted under § 602.101 (except 5 CFR 735.203(b)).

(b) Special Government employees of the Administration may teach, lecture, or write in a manner not inconsistent with 5 CFR 735.203(c).

(c) Pursuant to 5 CFR 735.305(b), the Administration authorizes the same exceptions concerning gifts, entertainment, and favors for special Government employees as are authorized for employees by § 602.104.

§ 602.109 Statements of employment and financial interests.

(a) Employees in the following named positions shall submit statements of employment and financial interests:

(1) Deputy Administrator and Assistant Administrators

(2) Division Directors (GS–13 and above)

(b) Each statement of employment and financial interests required by this section shall be submitted to the Administrator, American Revolution Bicentennial Administration, Washington, D.C. 20276.

(c) An employee who believes that his position has been improperly included in this section as one requiring the submission of a statement of employment and financial interests may obtain a review of his complaint under the Administraion's grievance procedure.

§ 602.110 Supplementary statements.

Notwithstanding the filing of the annual supplementary statement of employment and financial interests on June 30 as required by 5 CFR 735.406, each employee shall at all times avoid acquiring a financial interest that could result, or taking an action that would result, in a violation of the conflicts-of-interest provisions of section 208 of title 18, United States Code, or the regulations in this part or adopted under § 602.101.

§ 602.111 Use of Government property.

An employee shall not directly or indirectly use, or allow the use of, Government property of any kind, including property leased to the Government, for other than officially approved activities. An employee has a positive duty to protect and conserve Government property, including equipment, supplies, and other property entrusted or issued to him.

§ 602.112 Misuse of information.

For the purpose of furthering a private interest, an employee shall not, directly or indirectly use, or allow the use of, official information obtained through or in connection with his Government employment which has not been made available to the general public.

§ 602.113 General conduct prejudicial to the Government.

An employee shall not engage in criminal, infamous, dishonest, immoral or notoriously disgraceful conduct, or other conduct prejudicial to the Government.

§ 602.114 Interpretation and advisory services.

In accordance with 5 CFR 735.105, the General Counsel, American Revolution Bicentennial Administration, is designated as counselor to provide counseling and interpretations on questions of conflicts of interest and other matters covered by the regulations, and to serve as the Administration's designee to the Civil Service Commission for such purposes. Each Assistant Administrator is designated as deputy counselor for Administration employees within his jurisdiction. An employee who wishes advice or guidance on questions of conflicts of interest and on other matters covered by the regulations should consult his appropriate deputy counselor for assistance, or may refer his request for guidance directly to the Administration's counselor.

NOTE: This Part was approved by the Civil Service Commission on January 29, 1975 and is effective February 10, 1975.

JOHN W. WARNER,
Administrator.

FEBRUARY 3, 1975.

Title 39—Postal Service

CHAPTER I—U.S. POSTAL SERVICE

PART 111—GENERAL INFORMATION ON POSTAL SERVICE

Nonmailable Matter

The purpose of this document is to amend the headings of Parts 123 and 124 contained in § 111.5, which lists the entire contents of Chapter I of the Postal Service Manual, in conformity with the complete revision of Parts 123 and 124 of the Postal Service Manual, described elsewhere in today's issue of the FEDERAL REGISTER.

Accordingly, effective immediately, in 39 CFR 111.5 paragraphs (b)(3) and (b)(4) are revised to read as follows:

§ 111.5 Contents of Chapter I of Postal Service Manual.

• • • • •

(b) Subchapter 120—Preparation for mailing.

• • • • •

(3) Part 123—Nonmailable matter—written, printed and graphic matter.

(4) Part 124—Nonmailable matter—articles and substances; special mailing rules.

• • • • •

((5 U.S.C. 552(a)), (39 U.S.C. 401, 404, 407, 408, 3001–3011, 3201–18, 3403–05, 3621), and (50 U.S.C. 1463–64)).

ROGER P. CRAIG,
Deputy General Counsel.

[FR Doc. 75-3650 Filed 2-7-75; 8:45 am]

PART 111—GENERAL INFORMATION ON POSTAL SERVICE

Postal Service Manual; Miscellaneous Amendments

Chapter I of the Postal Service Manual, which has been incorporated by reference in the FEDERAL REGISTER (see 39 CFR 111.1), has been amended by the issuance of Post Office Services (Domestic) Transmittal Letter 34, Issue 97, dated February 7, 1975.

In accordance with 39 CFR 111.3 notice of these changes is hereby published in the FEDERAL REGISTER as an amendment to that section and the text of the changes is filed with the Director, Office of the Federal Register. Subscribers to the Manual will receive these amendments automatically from the Government Printing Office. (For other availability of Chapter I of the Postal Service Manual, see 39 CFR 111.2).

Description of these amendments to Chapter I of the Postal Service Manual follows:

PART 112—DOMESTIC MAIL SERVICE

1. Part 112 is amended to delete Swan Islands from the list of territories and possessions of the United States. These islands are under the jurisdiction of Honduras.

PART 123—NONMAILABLE MATTER—WRITTEN, PRINTED AND GRAPHIC MATTER

PART 124—NONMAILABLE MATTER—ARTICLES AND SUBSTANCES; SPECIAL MAILING RULES

2. On June 5, 1974, there was published in the FEDERAL REGISTER (39 FR 19958) a notice of proposed rulemaking to revise completely parts 123 and 124 of title 39, Code of Federal Regulations. The period for receiving comments, originally ending on June 20, 1974, was extended to August 15, 1974, at the request of parties preparing comments (39 FR 24244), and the proposed September 1, 1974, effective date was cancelled when it became clear that the regulations would not be ready for publication by that time (39 FR 32036). Parts 123 and 124 are closely interrelated regulations that are concerned with matter the mailability of which is conditioned or prohibited by law. The regulations have been revised in an effort to treat differently "written, printed and graphic" materials (Part 123), which potentially involve First Amendment considerations, from "articles and substances" (Part 124). All comments submitted with respect to the proposed revised regulations were given due consideration.

As a result of comments received, the following changes are made:

a. In § 124.151 (proposed § 124.1(e)(1)) a new sentence is added at the end providing that hazardous materials subject to 49 CFR must be marked with the shipping name as set forth in 49 CFR 172.5.

b. In § 124.153 (proposed § 124.1(e)(3)) a new sentence is added at the end providing that any package transported by aircraft must bear the appropriate Department of Transportation hazardous materials label.

c. In § 124.242a (proposed § 124.2(d)(2)) the second sentence is amended to provide that overseas and air mail are restricted to items with a flash point at or above 100° F, instead of only above 100° F.

d. In § 124.25 (proposed § 124.2(e)) the next to the last sentence is amended to more accurately refer to packaging requirements of title 49 CFR.

e. In § 124.282 (proposed § 124.2(h)(1)) a reference to 42 CFR 72.25 is added.

f. In § 124.544a (proposed § 124.5(d)(4)(i)) the proposed requirement that would have limited the use of regular mail to prescription medicines containing controlled substances listed in Schedule II in amounts not exceeding a 34-day supply or 100 dosage units, whichever is less, has been changed to permit the use of regular mail for amounts not exceeding 100 dosage units.

g. In § 124.544b (proposed § 124.5(d)(4)(ii)) the proposed requirement that would have limited the use of regular mail to prescription medicines containing controlled substances listed in Schedules III, IV and V in amounts not exceeding a 100 day supply or 200 dosage units, whichever is less, has been changed to permit the use of regular mail for up to 300 dosage units.

Certain minor printing errors were also corrected and other minor editorial corrections and revisions were made where necessary.

In addition, new § 123.424 is added, consistent with Pub. L. 93–583, enacted January 2, 1975, exempting from the anti-lottery provisions an advertisement, list of prizes or information concerning a lottery conducted by a State contained in a newspaper published in that State, or the mailing to addresses within a State of tickets or other materials concerning a lottery conducted by that State.

As so modified and revised, parts 123 and 124 are hereby adopted.

PART 134—THIRD CLASS

3. Section 134.44c is amended to allow the permit indicia to be carried on the detached address card when merchandise samples are mailed using the detached address card procedure.

PART 144—POSTAGE METERS AND METER STAMPS

4. Section 144.13d is amended to update a meter manufacturer's mailing address.

5. Section 144.223 is amended to establish a corresponding requirement to § 144.962 which requires meter manufacturers to perform semi-annual inspections. Some meter users have refused meter manufacturers access to their meters, thereby weakening the effectiveness of such checks in detecting improper use of meters and faulty meters.

6. Section 144.351b is amended to simplify procedures for issuance of a receipt for postage printed in excess of the amount set in a postage meter.

PART 154—CONDITIONS OF DELIVERY

7. Section 154.143 is amended to provide for the immediate return to the sender of Treasury checks undeliverable because the addressee has moved and failed to file a change of address.

PART 156—RURAL SERVICE

8. Section 156.21 and 156.22 are amended to provide rural route extensions from an average of at least one family being served per 0.67 mile of additional travel, including retrace, to an average of one family being served per one mile of additional travel, including retrace.

PART 159—UNDELIVERABLE MAIL

9. Section 159.311 is amended to provide for the immediate return to the sender of Treasury checks undeliverable because the addressee has moved and failed to file a change of address.

10. Section 159.852 is amended to raise the minimum size of sale lots because of increased costs of auction sales.

PART 161—REGISTERED MAIL

11. Section 161.749 is amended to include the prohibition against cutting pouch straps, the removal of the damaged pouches from service, and the requirement for reporting the damage to the Inspection Service.

PART 153—COD MAIL

PART 171—MONEY ORDERS

12. Various sections relating to COD money orders in Part 163 and substantially all of Part 171 are amended in conformity with an improved money order system previously adopted by the Postal Service. The domestic part of this improved system went into effect on October 13, 1973 (see notice at 38 FR 29651). All military post offices were converted to the new system on November 13, 1973, and the international part of the system went into effect on March 30, 1974 (see notice at 39 FR 12071). The money order system has been operating under interim regulations during an initial period of testing. That period having now been completed, the Postal Service hereby adopts permanent regulations governing the clerk issuance, accounting, and reporting procedures for its money order system.

PART 165—CERTIFICATES OF MAIL, RETURN RECEIPTS, AND RESTRICTED DELIVERY

13. Section 165.3 is amended to delete the present endorsements *Deliver to Addressee Only* and *Deliver to Addressee or Order* and substitute the single endorsement *Restricted Delivery* for all such mail. Mail so endorsed will be delivered to the addressee only, unless the addressee specifically authorizes in writing another person to receive his restricted delivery mail. The existing exceptions to the delivery of restricted delivery mail described in § 165.341 are revised in minor respects and retained.

The remainder of the changes are minor, technical, or editorial in nature.

PART 111—GENERAL INFORMATION ON POSTAL SERVICE

14. In consideration of the foregoing, 39 CFR 111.3 is amended by adding the following:

§ 111.3 Amendments to Chapter I of the Postal Service Manual.

• • • • •

AMENDMENTS TO POSTAL SERVICE MANUAL

Transmittal Letter, Letter 34, Issue 97; Date, February 7, 1975; FR publication, 40 FR-----.

These amendments are effective immediately.

(5 U.S.C. 552(a), (39 U.S.C. 401, 404, 407, 408, 3001–3011, 3201–18, 3403–05, 3621) and (50 U.S.C. 1463–64)).

ROGER P. CRAIG,
Deputy General Counsel.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5477]

ARIZONA

Partial Revocation of Reclamation Withdrawals

By virtue of the authority contained in section 3 of the Act of June 17, 1902, as amended and supplemented, (43 U.S.C. 416 (1970)), it is ordered as follows:

The departmental orders of July 2, 1902, January 31, 1903, September 30, 1904, June 18, 1914, and March 14, 1929, and any other order or orders which withdrew lands for reclamation purposes, are hereby revoked so far as they affect the following described lands:

GILA AND SALT RIVER MERIDIAN

T. 9 S., R. 23 W.,
Sec. 10, lots 1 thru 6, SE¼NE¼, E½SE¼;
Sec. 11, Tract A, lots 1 thru 7, S½N½, SW¼SE¼, N½NE¼;
Secs. 12, 13, 14, 15.

The areas described aggregate, 3,402.27 acres in Yuma County.

Of the lands described above, the E½W½W½SW¼SW¼NW¼ sec. 12, T. 9 S., R. 23 W., is appropriated for a canal right-of-way established by the Bureau of Reclamation pursuant to subsection P, section 4, of the Act of December 5, 1924, (43 U.S.C. 417 (1970)), and shall not be open to disposition under the public land laws. The remaining lands have been conveyed out of Federal ownership, or transferred to the jurisdiction of the military, and are not subject to use or disposition under the public land laws.

JACK O. HORTON,
Assisant Secretary of the Interior.

FEBRUARY 4, 1975.

[FR Doc.E5-3672 Filed 2-7-75;8:45 am]

[Public Land Order 5473]

ARIZONA

Modification of Reclamation Withdrawals To Permit Grant of Right-of-Way

By virtue of the authority contained in section 3 of the Act of June 17, 1902,

XUM
V40128
FEB 10 75
XUM

32 Stat. 388, as amended and supplemented, (43 U.S.C. 416 (1970)), it is ordered as follows:

The departmental orders of January 31, 1903, September 8, 1903, and March 14, 1929, withdrawing lands in Arizona for reclamation purposes, are hereby modified to the extent necessary to permit the location of a right-of-way under section 2477, U.S. Revised Statutes, (43 U.S.C. 932), by Yuma County, Arizona, over the following described lands, as delineated on a map filed by the Yuma County Department of Public Works with the Bureau of Land Management in Arizona 7378, for the construction of a public road:

GILA AND SALT RIVER MERIDIAN

T. 10 N., R. 19 W., Sec. 14, N½NE¼NE¼ (50' x 1044.33').

The area described contains 1.20 acres in Yuma County.

JACK O. HORTON,
Assistant Secretary of the Interior.

FEBRUARY 4, 1975.

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5472, Arizona 6882]

ARIZONA

Withdrawal of National Forest Lands

By virtue of the authority vested in the President by the Act of June 4, 1897, (16 U.S.C. 473) (1970), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws, 30 U.S.C. Ch. 2, but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture:

KAIBAB NATIONAL FOREST

GILA AND SALT RIVER MERIDIAN

Three Lakes Game Preserve

T. 37 N., R. 2 E.,
Sec. 6, SW¼NE¼NE¼, SE¼NW¼NE¼; E½SW¼NE¼, W½SE¼NE¼; NW¼NE¼SE¼, NE¼NW¼SE¼.

Lamb's Lake Game Preserve

T. 38 N., R. 1 E.,
Secs. 13 and 14, those lands included in M.S. No. 1655.

The areas described aggregate 178.03 acres in Coconino County.

2. The withdrawal made by this order does not alter the applicability of the public land laws governing the use of the national forest lands under lease, license or permit or governing the disposal of their mineral or vegetative resources other than under the mining laws.

JACK O. HORTON,
Assistant Secretary of the Interior.

JANUARY 31, 1975.

[FR Doc.75-3616 Filed 2-7-75;8:45 am]

[Public Land Order 5465; Riverside 1451]

CALIFORNIA

Partial Revocation of Reclamation Project Withdrawal

By virtue of the authority contained in section 3 of the Act of June 17, 1902, (43 U.S.C. 416) (1970), it is ordered as follows:

1. The Departmental Order of October 19, 1920, withdrawing lands for the Yuma Project, now the All American Canal Project, is hereby revoked so far as it affects the following described land:

SAN BERNARDINO MERIDIAN

T. 7 S., R. 8 E.,
Sec. 18, S½ of lots 1 and 2 of SW¼.

The area described contains 76.83 acres in Riverside County.

2. At 10 a.m. on March 8, 1975, the lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received on or prior to 10 a.m. on March 8, 1975, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. The lands will be open to location under the United States mining laws at 10 a.m. on March 8, 1975. They have been and will continue to be open to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the Bureau of Land Management, Room E-2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

JACK O. HORTON,
Assistant Secretary of the Interior.

JANUARY 31, 1975.

[FR Doc.75-3617 Filed 2-7-75;8:45 am]

[Public Land Order 5476]

IDAHO

Withdrawal for National Forest Administrative Site

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from location and entry under the mining laws (30 U.S.C. Ch. 2), but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture:

ST. JOE NATIONAL FOREST

BOISE MERIDIAN

T. 43 N., R. 9 E.,
Sec. 19, E½SE¼SE¼SE¼;
Sec. 29, W½SE¼NW¼, W¼NE¼SW¼, NW¼SW¼, S½SW¼;
Sec. 29, SW¼SW¼NE¼, NW¼;
Sec. 30, E½E½NE¼NE¼, E½NE¼SE¼NE¼, SE¼SE¼NE¼.

The area described aggregates 360 acres in Shoshone County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

JACK O. HORTON,
Assistant Secretary of the Interior.

FEBRUARY 4, 1975.

Title 46—Shipping

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 74-100R]

CO₂ FIXED FIRE EXTINGUISHING SYSTEMS

Controls; Requirements for Additional Instructions

A notice of proposed rulemaking (CGD 74-100) was published in the FEDERAL REGISTER of Wednesday, May 8, 1974 (39 FR 16364). It proposed a revision of the existing regulations concerning specifications for controls of CO_2 fixed fire extinguishing systems.

The purpose of this amendment is to modify the requirements pertaining to the posting of operating instructions for fixed carbon dioxide fire extinguishing systems. This modification will require the posted instructions to be of a more detailed nature.

During the thirty day comment period, three comments were received. One commenter requested clarification of the definition of "releasing control device." The term "releasing control device" refers to all pull boxes, stop valve controls, and cylinder valves. This clarification was made in the regulation. A second commenter expressed concern that the posting of alternate means of releasing the extinguishing system may encourage persons to enter hazardous areas on small vessels. It is felt that this comment has merit. Accordingly, the wording of the regulation has been altered to exclude all systems in which the CO_2 cylinders are within the protected space. This exempts the systems normally found on small vessels. The final commenter suggested changing the terminology "primary or secondary means of release." To clarify the intent of the regulation this provision was altered to read "manual release or stop value controls."

In consideration of the foregoing, Parts 34, 76, 95, 181, and 193 of Title 46 of the Code of Federal Regulations are amended as follows:

PART 34—FIREFIGHTING EQUIPMENT

1. By revising § 34.15–10(h) to read:

§ 34.15–10 Controls—T/ALL.

* * * * *

(h) Complete but simple instructions for the operation of the systems must be located in a conspicuous place at or near all pull boxes, stop valve controls and in the CO_2 cylinder storage room. On systems in which the CO_2 cylinders are not within the protected space, these instructions must also include a schematic diagram of the system and instructions detailing alternate methods of discharging the system should the manual release or stop valve controls fail to operate. Each control valve to branch lines must be marked to indicate the related space served.

* * * * *

PARTS 76, 95, 181, AND 193 [AMENDED]

2. By revising §§ 76.15–10(h), 95.15–10(h), 181.20–15(d), and 193.15–10(h) to read the same as § 34.15–10(h)

(46 U.S.C. 375, 390b, and 391a (49 U.S.C. 1655(b)); 49 CFR 1.46(b) and 1.46(o)(4))

Effective date: This amendment is effective on May 15, 1975.

Dated: February 3, 1975.

O. W. SILER,
Admiral, U.S. Coast Guard Commandant.

[FR Doc.75-3634 Filed 2-7-75;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19946]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

Search and Rescue Communications, Order Extending Time for Filing Reply Comments

By the Chief, Safety and Special Radio Services Bureau.

In the Matter of Amendment of Parts 2 and 83—to make available the frequency 157.1 MHz for use by non-Government ship stations; to require that 157.1 MHz be fitted in VFH equipment installed in ship stations; and to designate 156.3 for search and rescue communications.

1. Northern Pacific Marine Radio Council (NPMRC) has requested a 45-day extension of time within which to file comments in the above-captioned rule making proceeding [December 6, 1974; 39 FR 42689], in order to permit solicitation of the views of its members considering the effects of the holiday season on the originally allowed time. The Coast Guard has informally joined in this request.

2. Accordingly, *it is ordered*, That the time for filing comments in the proceeding in Docket No. 19946 is extended to February 19, 1975, and the time for filing reply comments is extended to March 3, 1975. This action is taken pursuant to authority delegated by section 0.331(b)(4) of the rules.

Adopted: January 30, 1975.

Released: February 4, 1975.

[SEAL] CHARLES A. HIGGINBOTHAM,
Chief, Safety and Special Radio Services Bureau.

[FR Doc.75-3645 Filed 2-7-75;8:45 am]

[FCC 75-129]

PART 73—RADIO BROADCAST SERVICES

PART 76—CABLE TELEVISION SERVICE

State Lotteries

In the Matter of Amendment of Part 73 (Radio Broadcast Services) and Part 76 (Cable Television Service) of the rules.

By the Commission: 1. The Commission has under consideration § 73.122 for AM stations, § 73.292 for FM stations, § 73.656 for TV stations, and § 76.213 for cable television systems. These provisions contain the Commission's rules concerning lotteries.

2. On January 2, 1975, Congress modified the scope of the Federal statute prohibiting broadcasts of advertisements of or information concerning lotteries set forth in section 1304 of Title 18 of the criminal code by enacting a new provision (Pub. L. 93-583) for broadcasts about lawful State conducted lotteries. The new law set forth in 18 U.S.C. section 1307 exempts in specific circumstances described therein the broadcast of advertisements of or information concerning a State conducted lottery acting under authority of State law from the prohibitions contained in section 1304 when such information is broadcast: (1) by a radio or television broadcast station licensed to a location in that State or (2) by a radio or television broadcast station licensed to a location in an adjacent State also conducting such a lottery.[1]

3. For the purposes of the new exemption a lottery is defined as "the pooling of proceeds derived from the sale of tickets or chances and allotting those proceeds or parts thereof by chance to one or more chance takers or ticket purchasers. 'Lottery' does not include the placing or accepting of bets or wagers on sporting events or contests." See 18 U.S.C. section 1307(d). In addition, it should be noted that the legislative history indicates the word "adjacent" used in the exemption is intended to mean adjoining or contiguous, i.e., having a common boundary, at least in part. Further it should be noted that it is the licensed location of a station, rather than the actual location of a transmitter or studio, to which the statute refers in providing a limited exemption from the prohibitions of section 1304.

[1] The new law also contains exemptions permitting the publication of information about a lawful State conducted lottery in newspapers published in the State and for the use of the mails to send tickets and other material concerning a lawful State conducted lottery to addresses within the State conducting the legal State lottery.

4. In more concrete terms, the new law permits a broadcast station licensed to a location in New York, which now conducts a lawful State lottery, to broadcast advertisements of or information concerning the New York State lottery as well as the lawful State lotteries of Massachusetts, Connecticut, New Jersey and Pennsylvania, since these States are adjacent to New York and since they also conduct a lawful State lottery. The exemption, however, would not permit a broadcast station licensed to a location in New York to broadcast information concerning the Maine or Michigan state lotteries since those states are not adjacent States to New York. Nor would the exemption permit a station licensed to a location in Virginia to broadcast information concerning the Maryland state lottery, since although Virginia is adjacent to Maryland, Virginia does not conduct a State lottery. Although the language of the new statute appears clear, the preceding example is included in the appended revised lottery rules to assist in understanding its basic application.

5. Finally, it should be emphasized that the exemption to the provisions of section 1304 provided by Pub. L. 93-583 is limited to the specific circumstances described therein, and that the general prohibition of broadcasts regarding lotteries set forth in section 1304 is applicable to broadcasts about all other lotteries.

6. In order to conform the Commission's lottery rules to the new lottery exemption set forth in section 1307, §§ 73.122, 73.292 and 73.656 are, in effect, eliminated and their substance, as revised is set forth in a new § 73.1209, found in Subpart H of the rules applying to all broadcast services.

7. In 1970, the Commission adopted rules which in effect imposed the restrictions of section 1304 on cablecasts originated by cable systems. These rules are also being modified to reflect the exemptions contained in the statute. See § 76.213.

8. The amendments hereby adopted are issued pursuant to the authority contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended.

9. The amendments adopted simply conform existing lottery rules to the recent amendment of Chapter 61 of Title 18 of the United States Code by the addition of new section 1307. Therefore the notice and effective date requirements set forth in 5 U.S.C. 553 are inapplicable.

10. Accordingly, *it is ordered*, That §§ 73.122, 73.292, 73.656, and 76.213 are amended as set forth below.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; (47 U.S.C. 154, 303))

Adopted: January 30, 1975.

Released: February 5, 1975.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS,
Secretary.

XUM V40 I28 FEB 10 75 XUM

Effective January 30, 1975, Parts 73 and 76 of 47 CFR is amended as follows:

§§ 73.122, 73.292, and 73.656 [Amended].

1. Sections 73.122, 73.292 and 73.656 are revised to read:

See § 73.1209 of this chapter which applies to all broadcast stations.

2. A new § 73.1211 is added to read:

§ 73.1211 Broadcast of lottery information.

(a) No licensee of an AM, FM or television broadcast station, except as in paragraph (c) of this section, shall broadcast any advertisement of or information concerning any lottery, gift enterprise, or similar scheme, offering prizes dependent in whole or in part upon lot or chance, or any list of the prizes drawn or awarded by means of any such lottery, gift enterprise or scheme, whether said list contains any part or all of such prizes. (18 U.S.C. 1304, 62 Stat. 763).

(b) The determination whether a particular program comes within the provisions of paragraph (a) of this section depends on the facts of each case. However, the Commission will in any event consider that a program comes within the provisions of paragraph (a) of this section if in connection with such program a prize consisting of money or other thing of value is awarded to any person whose selection is dependent in whole or in part upon lot or chance, if as a condition of winning or competing for such prize, such winner or winners are required to furnish any money or other thing of value or are required to have in their possession any product sold, manufactured, furnished or distributed by a sponsor of a program broadcast on the station in question. (See 21 FCC 2d 846).

(c) The provisions of paragraphs (a) and (b) of this section shall not apply to an advertisement, list of prizes or other information concerning a lottery conducted by a State acting under authority of State law when such information is broadcast: (1) by a radio or television broadcast station licensed to a location in that State, or (2) by a radio or television broadcast station licensed to a location in an adjacent State which also conducts such a lottery. (18 U.S.C. 1307, 88 Stat. 1916).

(d) For the purposes of paragraph (c) of this section, "lottery" means the pooling of proceeds derived from the sale of tickets or chances and allotting those proceeds or parts thereof by chance to one or more chance takers or ticket purchasers. It does not include the placing or accepting of bets or wagers on sporting events or contests.

NOTE.—Pursuant to the exemption set out in paragraph (c) of this section, a broadcast station licensed to a location in a State that conducts a State Lottery may broadcast advertisements of or information concerning such lottery in its State of license and advertisements of or information concerning such lotteries conducted in any adjacent State. (See 18 U.S.C. 1307, FCC 75). The exemption would, for example, permit a broadcast station licensed to a location in New York, which now conducts a lawful state lottery, to broadcast advertisements of or information concerning the New York State Lottery as well as the lawful State Lotteries of Massachusetts, Connecticut, New Jersey and Pennsylvania, since these States are adjacent to New York, and also conduct a State Lottery. The exemption, however, would not permit a broadcast station licensed to a location in New York to broadcast information concerning the Maine or Michigan State lotteries since those states are not adjacent States to New York. Nor would the exemption permit a station licensed to a location in Virginia to broadcast information concerning the Maryland State Lottery, since although Virginia is adjacent to Maryland, Virginia does not conduct a State lottery.

3. Section 76.213 (a), (c), (d) is amended to read:

§ 76.213 Lotteries.

(a) No cable television system, except as in paragraph (c), when engaged in origination cablecasting shall transmit or permit to be transmitted on the origination cablecasting channel or channels any advertisement of or information concerning any lottery, gift enterprise, or similar scheme, offering prizes dependent in whole or in part upon lot or chance, or any list of the prizes drawn or awarded by means of any such lottery, gift enterprise, or scheme, whether said list contains any part or all of such prizes.

* * * * *

(c) The provisions of paragraphs (a) and (b) of this section shall not apply to advertisements or lists of prizes or information concerning a lottery conducted by a State acting under the authority of State law when such information is transmitted:

(1) by a cable system located in that State,

(2) by a cable system located in an adjacent State which also conducts such a lottery, or

(3) by a cable system located in another State which is integrated with a cable system described in (1) or (2) herein, if termination of the receipt of such transmission by the cable system in such other State would be technically infeasible.

(d) For the purposes of paragraph (c) *lottery* means the pooling of proceeds derived from the sale of tickets or chances and allotting those proceeds or parts thereof by chance to one or more chance takers or ticket purchasers. It does not include the placing of accepting of bets or wagers on sporting events or contests.

Title 16—Commercial Practices

CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION

SUBCHAPTER C—FEDERAL HAZARDOUS SUBSTANCES ACT REGULATIONS

PART 1500—HAZARDOUS SUBSTANCES AND ARTICLES; ADMINISTRATION AND ENFORCEMENT REGULATIONS

Test Methods for Simulating Use and Abuse of Toys, Games and Other Articles Intended for Use by Children

Correction

In FR Doc. 75-225 appearing at page 1480 in the issue for Tuesday, January 7, 1975, make the following Changes:

1. On page 1485 in § 1500.51(g)(1), in the fourth line the word now reading "contract" should be changed to read "contact".

2. On page 1485 in § 1500.52(a) the fifth line at the top of the second column, now reading "centimeters) shall be applied evenly" should be moved to § 1500.52(e)(3) after the fifth line ending "(3.46 kilogram-"

3. On page 1486 in § 1500.52(f)(3) the line now reading "to the test object of component. A 15-" should read "to the test object or component. A 15-".

4. On page 1487 in the third column, the first line of the authority cite, should read "(Secs. 2(f)(1)(D), (q)(1)(A), (s), (3)(e)(1),".

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

[8 CFR Part 214]

NONIMMIGRANT (H-1) VISA PETITIONS FOR PHYSICIANS AND NURSES

Evidence Submitted in Support of Visa Petition

Pursuant to section 553 of Title 5 of the United States Code (80 Stat. 383), notice is hereby given of the proposed amendment of 8 CFR 214.2(h)(2)(iii) pertaining to the evidence to be submitted in support of a visa petition to accord a physician or nurse nonimmigrant classification as an alien of distinguished merit and ability under section 101(a)(15)(H)(i) of the Immigration and Nationality Act, as amended.

Current § 214.2(h)(2)(iii) requires that a visa petition to accord a physician or nurse H-1 nonimmigrant classification shall be accompanied by a statement from the petitioner certifying whether to the best of his information and belief the beneficiary is fully qualified under the laws governing the place of intended employment to perform the desired services; whether under those laws the petitioner is permitted to employ the beneficiary to perform such services, and whether under those laws the beneficiary is permitted to substantially perform the desired services. It is believed to be in the public interest to require the petitioner to submit certain relevant evidence from the state licensing authorities. It is, therefore, proposed to amend § 214.2(h)(2)(iii) to require that visa petitions to accord a physician or nurse H-1 nonimmigrant classification should be accompanied by evidence that a permanent license to practice medicine or professional nursing, as appropriate, has been issued to the beneficiary by the licensing authority having jurisdiction over the place of intended employment, or a written statement from such licensing authority that, based on the facts known to it, a temporary license or permit will be issued to the beneficiary once the beneficiary establishes residence in the area of intended employment. It is proposed to further amend that section to provide that if the state or other place where the desired services of the beneficiary are to be performed does not issue temporary licenses or permits, the petitioner shall submit a written statement from the Attorney General of such state or other place to the effect that the desired services may be performed without a license or permit; the submission of such statement by the petitioner shall be waived if the Service has previously obtained such a statement.

In accordance with the provisions of section 553 of Title 5 of the United States Code (80 Stat. 383), interested persons may submit to the Commissioner of Immigration and Naturalization, Room 7100-C, 425 Eye Street NW., Washington, D.C. 20536, written data, views, or arguments, in duplicate, with respect to the proposed rule. Such representations may not be presented orally in any manner. All relevant material received before March 14, 1975, will be considered.

In light of the foregoing, it is proposed to amend Part 214 of Chapter I of Title 8, Code of Federal Regulations, as follows:

PART 214—NONIMMIGRANT CLASSES

It is proposed to amend § 214.2(h)(2)(iii) to read as follows:

§ 214.2 Special requirements for admission, extension, and maintenance of status.

* * * * *

(h) *Temporary employees.*

* * * * *

(2) *Petition for alien of distinguished merit and ability.* * * *

(iii) *Physicians and nurses.* A petitioner seeking to accord a physician or nurse a classification under section 101(a)(15)(H)(i) of the Act shall attach to the petition evidence that the beneficiary has obtained a full and unrestricted license to practice medicine or professional nursing in the country where he obtained his medical or nursing education, or that such education was obtained in the United States or Canada, or that he is a physician who successfully passed the examination given by the Educational Commission for Foreign Medical Graduates; also, evidence that a permanent license to practice medicine or professional nursing has been issued to the beneficiary by the licensing authority having jurisdiction over the place of intended employment, or a written statement from such authority that based upon the facts known to the licensing authority such authority will issue the beneficiary a temporary license or permit once the beneficiary establishes residence in the area of intended employment. If the state or other place where the desired services are to be performed does not issue temporary licenses or permits, the petitioner shall submit a written statement from the Attorney General of such state or other place to the effect that the desired services may be performed without a license or permit; however, the submittal by the petitioner of such Attorney General's statement shall be waived if the Service has previously obtained such a statement. If the laws governing the place where the services will be performed impose any limitations on the services to be rendered by the beneficiary, the petitioner shall submit a written statement describing the limitations and asserting whether he will observe them. The district director shall consider any such limitations in determining whether the services which the beneficiary would perform are of an exceptional nature requiring a person of distinguished merit and ability.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[7 CFR Part 729]

PEANUTS

Notice of Proposed Determination for 1975-76 Marketing Year

Pursuant to section 358(c) of the Agricultural Adjustment Act of 1938, as amended, (7 U.S.C. 1358(c)), the Secretary of Agriculture is preparing to determine whether the supply of any type or types of peanuts for the 1975-76 marketing year will be insufficient to meet the estimated demand for cleaning and shelling purposes. Section 358(c)(2) of the Act, as amended, reads in part as follows:

Notwithstanding any other provision of law, if the Secretary of Agriculture determines, on the basis of the average yield per acre of peanuts by types during the preceding five years, adjusted for trends in yields and abnormal conditions of production affecting yields in such five years, that the supply of any type or types of peanuts for any marketing year, beginning with the 1951-52 marketing year, will be insufficient to meet the estimated demand for cleaning and shelling purposes at prices at which the Commodity Credit Corporation may sell for such purposes peanuts owned or controlled by it, the State allotments for those States producing such type or types of peanuts shall be increased to the extent determined by the Secretary to be required to meet such demand but the allotment for any State may not be increased under this provision above the 1947 harvested acreage of peanuts for such State. The total increase so determined shall be apportioned among such States for distribution among farms producing peanuts of such type or types on the basis of the average acreage of peanuts of such type or types in the three years immediately preceding the year for which the

XUM
V40128
FEB 10 75
XUM

allotments are being determined. The additional acreage so required shall be in addition to the national acreage allotment, the production from such acreage shall be in addition to the national marketing quota, and the increase in acreage allotted under this provision shall not be considered in establishing future State, county or farm acreage allotments.

Prior to determining whether the supply of any type or types of peanuts for the 1975–76 marketing year will be insufficient, under section 358(c) of the Act to meet the estimated demand for cleaning and shelling, consideration will be given to data, views and recommendations relating thereto which are submitted in writing to the Director, Tobacco and Peanut Division, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, Washington, D.C. 20250. To be sure of consideration, any such submission must be postmarked not later than March 12, 1975.

All written submissions made pursuant to this notice will be made available for public inspection at the office of the Director, during regular business hours (8:15 a.m. to 4:45 p.m.) (7 CFR 1.27(b)).

Signed at Washington, D.C. on: February 4, 1975.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

EMERGENCY LOAN GUARANTEE BOARD

[13 CFR Part 402]

ESTABLISHMENT OF FEES IN CONNECTION WITH REQUEST FOR INFORMATION UNDER THE FREEDOM OF INFORMATION ACT

Notice of Proposed Rulemaking

Notice is hereby given in accordance with administrative rulemaking procedures of 5 U.S.C. 553 that the Emergency Loan Guarantee Board, pursuant to the requirements of 5 U.S.C. 552(a)(4)(A) proposes to adopt the following amendment to its rules regarding availability of information in order to adopt a fee schedule for searching and duplication of records requested under the Freedom of Information Act.

Subject to the receipt of comments, it is proposed that 13 CFR 402.4 be amended by ending the second sentence of paragraph (b) after the word "difficulty," deleting all that follows, redesignating paragraph (c) as paragraph (d) and adding the following new paragraph (c):

§ 402.4 [Amended]

. . . . . .

(c) *Fees.* A fee based upon $5 per hour for the time required to locate such records and prepare them for inspection, plus 10 cents per standard page for any copying thereof shall be paid by any person requesting records other than published records described in § 402.3. In addition, the cost of postage and any packaging or special handling shall be paid by the requester. Documents shall be provided without charge or at a reduced charge where the Board determines that waiver or reduction of the fee is in the public interest because furnishing the information can be considered as primarily benefiting the general public.

Any person who wishes to submit written data, views, or arguments concerning the proposed fee schedule may do so by filing them with the Secretary, Emergency Loan Guarantee Board, c/o Department of the Treasury, Office of the General Counsel, Washington Building, Room 1001, Washington, D.C. 20220.

All written submissions made pursuant to this notice will be made available for public inspection at the Washington Building, 15th & G Street NW., Room 1001, Washington, D.C., during regular hours of business (9 a.m. to 5:30 p.m., Monday through Friday, except holidays).

Subject to the receipt of comments pursuant to this notice, on or before February 18, 1975, the proposed amendment will become effective on February 19, 1975, but will later be revised (under the procedures of 5 U.S.C. 553), if necessary, to reflect comments received after the effective date but prior to the end of thirty days from the date of this notice.

ALAN N. VINICK,
Secretary,
Emergency Loan Guarantee Board.

DEPARTMENT OF DEFENSE

Department of the Navy

CHIEF OF NAVAL OPERATIONS EXECUTIVE PANEL

Rescheduled Advisory Committee Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given that the Chief of Naval Operations Executive Panel Advisory Committee will hold a closed meeting on March 4 and 5, 1975, at the Naval Intelligence Support Center, Suitland, Maryland. The session will commence at 9 a.m. and terminate at 5:30 p.m.

The agenda will consist of matters which are classified in the interest of national security, including intelligence systems and applications, weapons and ship design, and long-range Navy plans and policy. For that reason, the Secretary of the Navy has determined in writing that meetings of the Chief of Naval Operations Executive Panel Advisory Committee should be closed to the public because they are concerned with matters listed in section 552(b) of Title 5, United States Code.

The above meeting has been scheduled in lieu of the one previously announced to take place on February 6 and 7, 1975.

Dated: February 3, 1975.

H. B. ROBERTSON, Jr.,
Rear Admiral, JAGC, U.S. Navy
Acting Judge Advocate General.

DEFENSE SCIENCE BOARD TASK FORCE ON SPECIFICATIONS AND STANDARDS IMPROVEMENT

Advisory Committee Meeting

Pursuant to the provisions of Pub. L. 92-463, effective January 5, 1973, notice is hereby given that the Defense Science Board Task Force on "Specifications and Standards Improvement" will meet in open session on Friday and Saturday 21–22 February 1975 at Hughes Aircraft, Building 373, Room 9567, El Segundo, California.

The mission of the Defense Science Board is to advise the Secretary of Defense and Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The primary responsibility of the Task Force is to provide an evaluation of current DoD Specifications and Standards and the related DoD organization, system and procedures to serve as a basis for DoD policy decisions to reduce costs in systems/equipment design and acquisition.

At this meeting, the Task Force will evaluate the impact on acquisition costs of Military Specification MIL-D-1000, Drawings, Engineering and Associated Lists; review environmental and reliability specifications with a view toward consolidation and removing specification tiering; discuss, critique and offer alternatives to the DoD feedback process as it pertains to specifications and standards; discuss and recommend actions aimed at the tailoring of specifications; discuss specification relationships between prime and subcontractors, and discuss and review other pertinent and related subjects as may come before the group.

Due to the limited time and space availability, it is requested that persons interested in attending the DSB Task Force meeting provide written notice to the address listed below by February 14, 1975. Notice should include information with respect to interest and degree of participation.

Mr. Lester Fox, Director, Defense Materiel Specifications and Standards Office,
Cameron Station,
Alexandria, Virginia 22314.

Telephone inquiries may also be made to Mr. Fox at (292) 274-7061.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

FEBRUARY 5, 1975.

WAGE COMMITTEE

Closed Meetings

Pursuant to the provisions of section 10 of Pub. L. 92-463, effective January 5, 1973, notice is hereby given that meetings of the Department of Defense Wage Committee will be held on:

Tuesday, March 4, 1975
Tuesday, March 11, 1975
Tuesday, March 18, 1975
Tuesday, March 25, 1975

These meetings will convene at 9:45 a.m. and will be held in Room 1E-801, The Pentagon, Washington, D.C.

The Committee's primary responsibility is to consider and make recommendations to the Assistant Secretary of Defense (Manpower and Reserve Affairs) on all matters involved in the development and authorization of wage schedules for Federal prevailing rate employees pursuant to Pub. L. 92-392.

At these scheduled meetings, the Committee will consider wage survey specifications, wage survey data, local reports and recommendations, statistical analyses and proposed pay schedules derived therefrom.

Under the provisions of section 10(d) of Pub. L. 92-463, the Assistant Secretary of Defense (Manpower and Reserve Affairs) has determined that these meetings will be closed to the public because the matters considered are related to the internal personnel rules and practices of the Department of Defense (5 U.S.C. 552 (b)(2)) and the wage survey data considered by the Committee have been obtained from private industry with the guarantee of confidentiality (5 U.S.C. 552 (b)(4)).

However, members of the public who may wish to do so, are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the Committee's attention. Additional information concerning these meetings may be obtained by contacting the Chairman, Department of Defense Wage Committee, Room 3D-281, The Pentagon, Washington, D.C.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD(C).

Rural Electrification Administration

SIERRA TELEPHONE CO., INC.

Proposed Loan Guarantee

Under the authority of Pub. L. 93-32 (87 Stat. 65) and in conformance with applicable agency policies and procedures as set forth in the proposed REA Bulletin 320-22, "Guarantee of Loans for Telephone Facilities," published in the FEDERAL REGISTER, September 16, 1974, (39 FR 33228-33229) notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of $5,950,000 to Sierra Telephone Company, Inc., Oakhurst, California. The loan funds will be used to finance the construction of facilities to extend telephone service to new subscribers, and improve telephone service for existing subscribers.

Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information and details of the proposed project from Mr. Harry H. Baker, Jr., President, Sierra Telephone Co., Inc., P.O. Box 219, Oakhurst, California 93644.

To assure consideration, proposals must be submitted on or before March 12, 1975 to Mr. Harry H. Baker, Jr. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as Sierra Telephone Co., Inc., and REA deem appropriate. Prospective lenders are advised that it is anticipated that financing for this project will be available from the Federal Financing Bank under a standing loan commitment agreement with the Rural Electrification Administration.

Copies of the proposed REA Bulletin 320-22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 3rd day of February, 1975.

Notice is hereby given that The Southern Ohio Bank, with offices at 515 Main Street, Cincinnati, Ohio, has been approved as Trustee pursuant to Pub. L. 89-346 and 46 CFR 221.21-221.30.

Dated: January 20, 1975.

BURT KYLE,
Director, Office of Domestic Shipping.

[FR Doc.75-3694 Filed 2-7-75;8:45 am]

TANKER CONSTRUCTION PROGRAM

Revisions of Section 70 of the Standard Specifications for Merchant Ship Construction

Pursuant to the Final Opinion and Order of the Maritime Subsidy Board in Docket A-75 (served August 30, 1973), notice is hereby given that the following revisions to section 70 of the Standard Specifications for Merchant Ship Construction have been adopted by the Maritime Subsidy Board:

(1) Revise Article 4(c)(3, (d), and (e) to require a new standard for oil content meters and oily water separators (15 ppm).

(2) Add a clarifying sentence to Article 2 for emergency cargo transfer to permit a reduction in the calculated oil outflow in the case of bottom damage.

(3) Revise Article 4(c) to permit recirculation as an alternative to requiring automatic oil/water separator shutdown in the event of high oil content.

(4) Revise Article 4(f) to standardize shore connections to meet IMCO and USCG requirements.

(5) Add a clarifying sentence to Article 4(e) indicating alternative designs that may be used in the bilge and ballasting system of tank vessels.

(6) Add a clarifying sentence to Article 6(a) indicating design alternatives for sewage treatment plant.

(7) Substitute in Article 7 known stack emission purity standards for the presently required Environmental Protection Agency standards since there are no Environmental Protection standards for stack emissions at present.

(8) Add a new Article 8 detailing inert gas system requirements to comply with Docket A-75.

(9) Add a new Article 9 to reference the collision avoidance radar system required by Docket A-75.

Further, the following revisions to section 70 were adopted by the Board as a result of comments received pursuant to notice by the Board's proposed revisions to section 70, published in the FEDERAL REGISTER of July 29, 1974 (39 FR 27483):

(10) Retitle Article 4 to read "Bilge, Ballast and Cargo/Ballast Systems" instead of "Bilge and Ballast Systems."

(11) Revise the wording of paragraph 4(a)(1) to clarify the intent of that subsection.

(12) Include in the first paragraph of Article 6(c) requirements for holding tanks for grey water.

Section 70 of the Maritime Administration Standard Specifications consolidates all pollution abatement features of cargo and tanker construction and operation to control oil, sewage and air pollution. A complete text of the revised section 70 is published herein as an attachment to this notice.

Dated: February 5, 1975.

By Order of the Maritime Subsidy Board,

JAMES S. DAWSON, JR.,
Secretary, Maritime Subsidy Board.

STANDARD SPECIFICATION FOR MERCHANT SHIP CONSTRUCTION

SECTION 70: POLLUTION ABATEMENT SYSTEMS AND EQUIPMENT

1. General (a) It is the general intent of this section to specify appropriate pollution control measures to be taken in the design and operation of all merchant ships in order to protect and enhance the quality of the marine environment from ship-generated pollutants, such as oil, sewage, garbage and smoke.

(b) All vessels shall be so equipped and operated as to prevent the discharge of oil into or upon the navigable waters of the United States, adjoining shorelines and waters of the Contiguous Zone in such quantities as to cause a film or sheen upon or discoloration of the surface of the water or upon adjoining shorelines. (Implementation of section 11 of the "Water Quality Improvement Act of 1970" as published in the FEDERAL REGISTER of September 11, 1970.)

(c) All vessels equipped with toilets and urinals shall be provided with marine sanitation devices designed to prevent the discharge of untreated or inadequately treated sewage into or upon the navigable waters of the United States. (Implementation of section 13 of the "Water Quality Improvement Act of 1970" as published in the FEDERAL REGISTER of June 23, 1972.)

2. Cargo Oil Tanks on Tank Vessels: The size and arrangement of cargo tanks shall be such as to limit the oil outflow from tanks assumed to be breached by collision or grounding to a value of 30,000 cubic meters or 400 times the cube root of the deadweight 400 DWT, which ever is larger, but in no case exceeding 40,000 cubic meters. The oil outflow shall be calculated in accordance with the Intergovernmental Maritime Consultative Organization (IMCO) Resolution A. 246(VII) adopted 15 October 1971 by IMCO Assembly. Credit may be taken for reduction in oil outflow in case of bottom damage when a cargo transfer system is installed as prescribed in Article 3(c).

3. Cargo Piping Systems on Tank Vessels: (a) Remote shut-down of all main cargo pumps shall be provided at the loading and discharge manifold on the deck, port and starboard, and at the centralized cargo control station.

(b) Quick closing valves with means of local control shall be fitted at the loading and discharge manifold.

(c) To reduce the calculated oil outflow due to grounding, an emergecny cargo transfer system may be installed having a high suction in each cargo tank, and capable of transferring cargo oil from a breached tank to any other segregated ballast tanks or other available cargo tanks. The pipes for the emergency suction should be installed at a point 3m (10 feet) below the load waterline, but not less than 6m (20 feet) from the bottom of the tank. Manual control of these valves shall be provided on the deck as well as remote control from the centralized control station. The requirements of this paragraph are not mandatory, except when this cargo transfer system is used to reduce the calculation for oil outflow. (By the use of this system larger tanks may be used.)

(d) Means shall be provided to contain any oil spillage around each oil loading and discharge manifold and oil transfer connection area.

4. Bilge Ballast Systems and Cargo/Ballast Systems: (a) General.

(1) All bilge and ballast systems shall be so arranged as to assure that all oily bilge or ballast water will be discharged either overboard, through an approved oily water separator, or directly into a designated slop tank which decants the effluent to 15 ppm or to a shore ballast reception and treatment facility.

(2) Cargo/ballast systems on tank vessels shall be so arranged to insure that oily ballast water or tank washings are: (1) decanted or discharged overboard via an appropriate oil content meter; (2) retained on board for "Load-on-Top"; or, (3) discharged ashore to a reception and treatment facility.

(3) Vessels shall be fitted with slop tanks having a capacity to retain on board all oily wastes and oily bilge slops that may accumulate while operating in the navigable waters of the United States.

(b) General Cargo Vessel.

A 100 percent segregated ballast system shall be provided for ballasting and deballasting of the designated segregated ballast tanks in order to maintain the vessel's stability characteristic in accordance with the damaged stability requirements presented in section 1 for one compartment flooding without the use of oily ballast in the fuel or liquid cargo tanks. Means shall be provided for both direct sea flooding and pump discharge to the segregated ballast tanks. The system shall be served by a clean ballast pump with standby service from a bilge and ballast pump or a general service or bilge pump.

At no time shall ballast water be placed in fuel tanks or cargo oil tanks.

Remote liquid level indicators shall be provided at the ballast control station for all segregated ballast tanks.

(c) Tank Vessels.

Tank vessels shall be designed to meet one of the three design alternatives described below:

(1) All tank vessels shall be designed to allow for deballasting and tank cleaning operations by means of the "Load-on-Top" method. The method shall allow the oily ballast and tank washings to be pumped to a designated slop tank or tanks. All decanted ballast water discharged overboard shall not contain oil in excess of the maximum limits prescribed for the receiving waters.

(2) All tank vessels not equipped to handle deballasting and tank cleaning operations by the Loand-on-Top method shall be designed for segregated ballast operation. In such cases sufficient tankage for all weather operations in ballast condition shall be assigned exclusively for segregated ballast.

(3) Alternatively, an effective oil/water separator system of full flow capacity equivalent to at least one main cargo oil pump shall be installed with automatic shut-down or recirculation of effluent when the oil content of the effluent exceeds 15 ppm. (See Article 1(b)).

(d) Oily Water Separators.

Approved separators installed in the bilge and ballast system shall be capable of producing an effluent containing not more than 15 ppm. (See Article 1(b)).

(e) Oil Content Meters.

An oil content meter shall be installed in each bilge, oily ballast and tank washing overboard discharge line. The oil content meter shall be fitted with an alarm device set at a preset valve to shut-down the pump or operate an appropriate valve in the discharge line to recirculate the flow automatically when the oil content in the overboard discharge exceeds 15 ppm. The meter will be considered as meeting this standard of 15 ppm if the standard can be met in certified laboratory tests. (See Article 1(b)).

(f) Shore Connection.

Discharge stations shall be fitted for the bilge and ballast system on the main deck, port and starboard, to enable oily bilge and ballast water to be piped to shore facilities. Remote control of the bilge and ballast pumps shall be provided at the discharge stations on the main deck.

To enable flexible piping at shore reception facilities to be connected with the ships discharge pipe lines for residues from machinery bilges, both lines shall be fitted with a standard discharge connection in accordance with the following table:

XUM
V40128
FEB 10 75
XUM

Standard dimensions of flanges for discharge connections

Description:	Dimension
Outside diameter	245 mm (6½ in.).
Inner diameter	According to pipe outside diameter.
Bolt circle diameter	183 mm (7³⁄₁₆ in.).
Slots in flange	6 holes 22 mm (⅞ in.) in diameter equi-distantly placed on a bolt circle of the above diameter, slotted to the flange periphery. The slot width to be 22 mm (⅞ in.).
Flange thickness	20 mm (¾ in.)
Bolts and nuts:	
Quantity, diameter	6, each of 20 mm (¾ in.) in diameter and of suitable length.

The flange is designed to accept pipes up to a maximum internal diameter of 125 mm (5 in.) and shall be of steel or other equivalent material having a flat face. This flange, together with a gasket of oilproof material, shall be suitable for a service pressure of 6 kg/cm² (85 PSI)

The steel materials used shall meet the material specifications of standard B 16.5 Steel Pipe Flanges and Flanged Fittings of the American National Standards Institute (ANSI).

(g) Overboard Discharge Piping.

Overboard discharge piping from oily/water separators and "Load-on-Top" operation shall be fitted with at least two shut-off valves as close to the shell as possible.

5. Fuel Oil System: All overflow piping in the fuel oil system discharging overboard shall be fitted with an alarm with indicators at the filling station and control console.

6. Sewage Treatment and Liquid Waste Disposal Systems: (a) General.

Any vessel equipped with toilets, showers, lavatories, laundries or a galley shall be provided with suitably sized holding tanks to retain the sewage and liquid waste while in port or in restricted waters. In lieu of holding tanks an approved sewage treatment plant which will meet the requirements of the U.S. Coast Guard may be provided to handle human wastes.

(b) Sewage Treatment Plant.

The design and operation of the sewage treatment plants shall meet the standards of the Environmental Protection Agency and U.S. Coast Guard.

Where sewage treatment plants are used to handle human body wastes only, holding tanks shall also be provided to handle other wastes (grey water).

The marine sanitation device shall be capable of discharging to dockside facilities. Provisions shall be made to facilitate internal cleaning.

(c) Holding Tanks.

When provided, holding tanks shall be of sufficient capacity to retain all accumulated drains from urinals, toilets, showers, lavatories, laundries and galleys and shall be capable of holding 56 cubic meters (15,000 gallons) of accumulated sewage and liquid wastes, or have a five day capacity based on the total ship complement at 26 cubic meters (70 gallons)/day/person. When using recirculation or vacuum flush systems, holding capacity for these low flow systems will be based on individual system requirements. Holding tanks for "grey" water, where no sewage solids are discharged into the tank, shall only be fitted with manholes, air vents to the weather deck, an overflow to the sea above the deep water line, and all necessary piping connections. When organic solids are discharged into the tank, air shall be supplied to the tank to keep solids in suspension.

Each tank shall be fitted with means to discharge to dockside facilities.

Provision shall be made to prevent the accumulation of noxious and explosive gases in the holding tanks and vents.

The tanks shall be equipped with manholes, air vents to the weather deck, an overflow to the sea above the deep load water line, and all necessary piping connections. All air vents that terminate above the weather deck shall be located where odors will not be objectionable.

Sufficient air shall be supplied to the sewage holding tank in order to prevent the contents from becoming anaerobic and to keep the solids in suspension. A pressure regulator and shut-off valve shall be provided to control the air flow into the tank. The capacity of air required shall not be less than .7 cubic meters (25 CFM) at 34 kPa (5 psig) per 28 m³ (1000 ft.³) tank capacity.

Each holding tank shall be fitted with a floatless type level indicator and a separate high level alarm. The remote level indicators and alarm annunciators shall be placed on the engine room control console. The level control electrodes should not be in direct contact with sewage and the unit should be arranged for easy access and maintenance.

On vessels where the engine room is aft, or where it is impractical to have the sewage system distributed throughout the ship, a holding tank or a small independent sewage treatment system shall be provided for the engine room toilets and lavatory drains.

Provisions shall be made for the use of water and steam for tank cleaning purposes.

(d) Piping.

All liquid wastes from urinals, toilets, showers, lavatories and laundries shall be led to the sewage treatment tank. Sewage drains shall be led to the treatment plant or holding tank independent of other drains. Shore connections fitted with 102 mm (4" pipe) shall be located on the main deck, port and starboard, to enable sewage and liquid waste to be pumped to shore facilities.

(e) Pumps.

Each sewage system shall be equipped with two (2) sewage pumps connected in parallel. The pumps shall take suction from the holding tanks or sewage treatment plant and shall be capable of discharging overboard independently of other drain lines and to the shore connection. The sewage pumps shall be of the non-clog marine type, suitable for handling raw sewage and either sea or fresh water as required.

7. Stack Emission. (a) General.

All stack emissions shall meet the air purity standards established by the ports of call of the vessel, the standards of the San Francisco Bay Area or the standards of New York City, whichever are most restrictive for the operation intended.

(b) Smoke Indicator.

Each boiler shall be equipped with a combination visual-photo-electric smoke indicator which shall clearly indicate the absence or presence of smoke. The indicator shall be provided with an alarm which actuates when the smoke intensity exceeds the value established by Article 7(a) above. The indicator shall be provided with an auto-semi-auto pressurized lens cleaning system to insure cleanliness of the lens. The indicator shall be visible in the vicinity of the Central Control Console. A recorder shall be coordinated with the smoke intensity alarm to record the duration of pollution above the standards established by Article 7(a) above.

8. Inert Gas Systems: All tankers over 100,000 DWT and having tank sizes greater than 10,000 cubic meters shall be equipped with an approved inert gas system to prevent tanker casualties from fire and explosion.

9. Collision Avoidance Radar: All tankers must be equipped with a collision avoidance radar system which complies with the requirements of § 94.4 of this specification.

National Oceanic and Atmospheric Administration

DRAFT ENVIRONMENTAL IMPACT STATEMENT

Public Hearing

In accordance with section 1500.7 of the Council on Environmental Quality Guidelines issued pursuant to the National Environmental Policy Act of 1969, and in compliance with Department Administrative Order 216-6, the Commerce Department's National Oceanic and Atmospheric Administration (NOAA) will hold a public hearing on the Draft Environmental Impact Statement for the proposed NOAA Western Regional Headquarters Facility. The hearing will begin at 10 a.m. on Saturday, February 22, 1975, at the View Ridge Elementary School, 7047 50th Avenue Northeast, Seattle, Washington. The purpose of the hearing is to receive comments on the Draft Environmental Impact Statement for the proposed NOAA Facility at Sand Point and to answer questions related to the development.

Hearing presentations should, if possible, include written comments summarizing the substance of the presentation. Those wishing to submit such comments prior to the hearing may address them to the Northwest Administrative Service Office, NOAA, 1700 Westlake North, Seattle, Washington 98109. Inquiries concerning the hearing should be directed to the Sand Point Coordinator, NOAA, at the same address, phone: (206) 442-1703. Copies of the Draft Environmental Impact Statement may be picked up at the Northwest Administrative Service Office after January 30th.

The length of individual presentations may be limited to ten minutes by the hearing officer, depending upon the number of presentations to be heard, in order to allow sufficient time for all presentations. Comments from government representatives will be heard in the morning, the remaining groups and individuals in the afternoon, A question and discussion period will follow the conclusion of the formal presentations. Dale C. Gough, Administrative Service Office Director, will convene and conduct the hearing.

ROBERT L. CARNAHAN,
Acting Assistant Administrator for Administration.

NEW YORK BIGHT MESA ADVISORY COMMITTEE

Public Meeting

Pursuant to section 10(a)(2) of 5 U.S.C. App. I and section 8(b) of Office of Management and Budget Circular No. A-63 (March 27, 1974), the National Oceanic and Atmospheric Administration announces the New York Bight MESA Advisory Committee meeting scheduled for March 11, 1975, in Stony Brook, New York.

AGENDA

9:30 a.m.—Greeting: Dr. R. L. Swanson, Project Manager and Panel Chairman.
9:45 a.m.—The Implications of Ocean Dumping from a Biological Standpoint: Dr. Kneeland McNulty.
10:15 a.m.—The Implications of Ocean Dumping from a Chemical Standpoint: Dr. Douglas Segar.
10:45 a.m.—Break.
11 a.m.—Questions and Discussion.
11:30 a.m.—Environmental Protection Agency Presentation.
12 noon—Lunch.
1 p.m.—Recommendations to the Committee from the Scientific and Technical Advisory Panel.
1:45 p.m.—Recommendations to the Committee from the User Information Advisory Panel.
2:30 p.m.—Break.
2:45 p.m.—Recommendations to the Committee from the Citizens and Industrial Advisory Panel.
3:30 p.m.—Framing of Advisory Committee Recommendations.
4:30 p.m.—Adjournment.

Agenda items are subject to change as priorities dictate.

Interested persons are invited to attend and to submit written statements before or after the meeting or by mailing such statements within five days after the date of the meeting to: Executive Secretary, New York Bight MESA Advisory Committee, MESA Project Office, Building J—Room 121, State University of New York, Stony Brook, New York, 11794. Interested persons will be permitted to make oral statements to each Panel during the period reserved for questions and discussion, subject to the procedures which follow. Persons must register with the Panel meeting rapporteur, prior to the start of the meeting, in the Panel meeting room and provide their name, legal address, a list of any affiliations relevant to the topic(s) to be addressed, and a brief, written description of their proposed topic(s). Because of limited time available, it may be necessary to limit the number of persons permitted to speak to five, to limit the length of oral statements to no more than five minutes each, and to give preference to individuals based upon the relevance of their proposed topic(s), as judged by the Panel Chairman. The submission of written versions or oral statements within five days after the date of the meeting to the address above is encouraged. All statements received in typewritten form will be forwarded with the minutes of the meeting to Committee and Panel members for their consideration.

R. L. CARNAHAN,
Acting Assistant Administrator for Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

SPECIAL COMMUNITY SERVICE AND CONTINUING EDUCATION PROJECTS

Closing Date for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in title V, parts B and C of the Economic Opportunity Act, as amended, applications are being accepted for Follow Through grants or contracts in the following three categories: (1) non-competing continuation grants or contracts for carrying out Follow Through programs, (2) non-competing grants or contracts for research and demonstration, and (3) grants or contracts for technical assistance to Follow Through programs.

In order to be assured of consideration for funding from appropriations for Fiscal Year 1975, applications for projects under the first two categories listed above should be received by the U.S. Office of Education Application Control Center on or before March 10, 1975.

All other applications must be received by the U.S. Office of Education Application Control Center on or before March 10, 1975.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue SW., Washington, D.C. 20202, Attention: 13.433. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than March 5, 1975, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the Office of Education).

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from the Division of Follow Through, Bureau of School Systems, Office of Education, Room 3636, 7th and D Streets SW., Washington, D.C. 20202.

D. *Enactment of Pub. L. 93-644.* Applicants have constructive notice of the amendments to the Economic Opportunity Act affecting Follow Through which were enacted by section 8(a) of Pub. L. 93-644 (the "Community Services Act") on January 4, 1975. Among the changes made by those amendments are: extension of the legislative authority for Follow Through through fiscal year 1977, transfer of legislative authority for the administration of Follow Through from the Director of the Office of Economic Opportunity to the Secretary of Health, Education, and Welfare, and elimination of statutory geographic allotment criteria applicable to Follow Through.

E. *Applicable regulations.* Regulations for the Follow Through program were published as Notice of Proposed Rule Making, March 5, 1974 (39 FR 8341). A permanent final regulation, to be published and to be effective before the end of the current fiscal year, will govern the Follow Through program. Other regulations applicable to this program are contained in the Office of Education General Provisions Regulations (45 CFR Part 100a).

F. *Funding criteria.* Projects for Follow Through grants will be funded according to criteria set forth in §§ 158.15, 158.42, and 158.52 of the Notice of Proposed Rule Making published in the FEDERAL REGISTER for the Follow Through program on March 5, 1974 (39 FR 8341). It is anticipated that a permanent final regulation for the Follow Through program, to be published and to become effective before the end of the current fiscal year, will contain funding criteria essentially the same as those published in the Notice of Proposed Rule Making.

G. *Separate Identification of Cost of Entering Grades.* Applicants for Follow Through grants under section 551(a) of the Economic Opportunity Act as amended (grants to local agencies and other organizations for the purpose of carrying out Follow Through programs) are requested to submit with their applications a budget which separately identifies, to the extent possible, the cost of the entry grade so as to facilitate adjustments due to limitations on available funds.

(Catalog of Federal Domestic Assistance No. 13.433; Follow Through)

(Title V, Parts B and C of the Economic Opportunity Act as amended (Pub. L. 93-644, section 8(a)).

Dated: February 3, 1975.

T. H. BELL,
U.S. Commissioner of Education.

V40128 FEB 10 75 XUM

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. 74-39; Notice 04]

FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Reconsideration of Seat Belt Warning System Requirements

This notice responds to petitions for reconsideration of an amendment of 49 CFR 571.208, *Standard No. 208; Occupant crash protection*, that established optional seat belt warning system requirements until February 24, 1975, when the new optional requirements become mandatory. The petitions received from Peugeot, Inc., and Renault, Inc., to extend the optional period until June 3, 1975 (180 days following publication of the final rule), are denied.

The "Motor Vehicle and School Bus Safety Amendments of 1974" (15 U.S.C. § 1410(b)) require that, within 120 days of their enactment, Standard No. 208 must have been amended so that it does not have the effect of requiring, or providing that a manufacturer is permitted to comply with the standard by means of, a "continuous buzzer" warning system. This means that Standard No. 208 must not specify any "continuous buzzer" as a requirement or as an option after February 24, 1975.

The NHTSA concludes that these provisions clearly prohibit as a matter of law the Peugeot and Renault proposals to extend until June 3, 1975, the period for use of the present continuous buzzer. Accordingly the petitions of Peugeot and Renault for such an extension of the present options are denied.

(Secs. 103, 119, Pub. L. 89-563, 80 Stat 718 (15 U.S.C. 1392, 1407); Sec. 109, Pub. L. 93-492, 88 Stat 1470 (15 U.S.C. 1410(b)); delegation of authority at 49 CFR 1.51).)

Issued on February 3, 1975.

JAMES B. GREGORY,
Administrator.

[FR Doc.75-3600 Filed 2-7-75;8:45 am]

Hazardous Materials Regulations Board

UNION CARBIDE CORP., INC. ET AL.

Special Permits Issued

Pursuant to Docket No. HM-1, Rule-making procedures of the Hazardous Materials Regulations Board, issued May 22, 1968 (33 FR 8277) 49 CFR Part 170, following is a list of new DOT Special Permits upon which Board action was completed during January 1975.

Special permit No.	Issued to—Subject	Mode or modes of transportation
SP 6926	Union Carbide Corp., Bound Brook, N.J., to ship a Class B poisonous solid in a six-ply DOT Specification 44D extensible kraft paper bag having a minimum total basis weight of 320 pounds.	Motor vehicle, Rail freight.
SP 6927	Dow Chemical Co., Midland, Michigan, to ship Methyl bromide, liquid; and Methyl bromide and chlorpicrin mixture liquid in a non-DOT specification portable tank having a design pressure of 175 psig and a capacity of 3,567 gallons.	Cargo vessel, Motor vehicle.
SP 6949	Monsanto Co., St. Louis, Missouri, to ship Elemental phosphorus in marine portable tanks, with external steam coils, each having a design capacity of 3,200 gallons.	Cargo vessel, Motor vehicle, Rail freight.
SP 6950	Ozark-Mahoning Co., Tulsa, Oklahoma, to ship Hexafluorophosphoric acid in 55-gallon capacity DOT-Specification 6D cylindrical steel overpack with an inside specification 23L polyethylene container. Maximum net weight 550 pounds.	Cargo vessel, Motor vehicle
SP 6960	Shippers registered with the Board, to ship certain corrosive liquids in non-DOT Specification stainless steel drums, tight-head, with rated capacity not exceeding 55-gallons.	Motor vehicle, Rail freight.
SP 6961	Monsanto Co., St. Louis, Missouri, to ship certain flammable solids in DOT Specification 37A steel drums, authorized for reuse one time.	Cargo vessel Motor vehicle, Rail freight.
SP 6962	Sandia Laboratories, Albuquerque, N.M., to ship Argon or helium in DOT Specification 3AA1500 or 3AA2000 cylinders forming an integral part of a leak tracer standard.	Motor vehicle, Rail freight, Rail express.
SP 6965	National Aeronautics and Space Administration or the K2 Expeditionary Force, to make a onetime shipment of Oxygen in a limited number of non-DOT Specification seamless, aluminum high-pressure cylinders reinforced with continuous fiberglass filament winding embedded in epoxy resin.	Cargo vessel, Motor vehicle.

ALAN I. ROBERTS,
Secretary.

[FR Doc.75-3632 Filed 2-7-75;8:45 am]

CIVIL AERONAUTICS BOARD

[Order 75-2-18, Docket 27471]

CAPITOL INTERNATIONAL AIRWAYS, INC.

Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 5th day of February, 1975.

By tariff revisions[1] filed January 10, 1975, for effectiveness February 10, 1975, Capitol International Airways, Inc. (Capitol) proposes new charges for cancellation of passenger charter contracts prior to departure. The cancellation charges, proposed as fixed percentages of the total charter price, would be set at 10 percent for cancellation 61 to 89 days before departure; 25 percent for cancellations less than 61 days prior to departure; and 10 percent for cancellations at any time if the canceling charterer engages another carrier to perform the transportation contemplated in its contract with Capitol.[2]

In support of its proposal, Capitol alleges that the proposed charges are more favorable to the customer than those of other carriers. It alleges that liquidated damage cancellation conditions have been an important consideration for agents and chartering organizations proposing to contract for charter availability; and that its principal area of operation is dominated by large wholesalers who are capable of blocking a very significant proportion of a carrier's lift capability. Capitol further contends that, unless a firm commitment is secured by a substantial cancellation penalty, duplicating reservations and space blocking can occur on an indiscriminate basis. Because of the long lead time required in booking charters, this can allegedly create disastrous and last-minute gaps in a carrier's charter flight program. It asserts that in some markets a single cancellation may create an open ferry leg which could add in excess of $25,000 per flight to the overall cost of operation.

The carrier claims that its business experience in the charter market makes it painfully clear that, absent a substantial cancellation charge, a higher "no show" and cancellation fallout rate will develop, as it has in the scheduled airline industry, and that this will be severely detrimental to the economic viability of the low cost charter industry. Finally, Capitol alleges that its proposed charges are the minimum necessary to assure that charterers make firm and not frivolous contracts for the company's charter availability.

No complaints have been filed.

Upon consideration of the tariff filing and all other relevant matters, the Board finds that the proposed charges may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board has also concluded to suspend the proposed charges as they would apply in interstate and overseas air transportation pending investigation.

As Capitol contends, the Board has permitted carriers to apply flat percentage charges for charter cancellations. However, we are not persuaded that the levels here proposed are either necessary to accomplish the stated purpose or reasonable. The maximum charge generally applied by charter operators is 10 percent for cancellation within two months of departure, which would appear sufficient to safeguard against frivolous charter contracts. Capitol has provided no data which would indicate that the costs actually incurred as a result of cancellation by the charterer warrant charges in the magnitude of 25 percent, or even 10 percent when the cancellation occurs more than two months prior to departure. Neither has Capitol advanced any basis for imposing a charge, whatever the level, simply because the charterer engages a different carrier upon its cancellation with Capitol. In the absence of more explicit information, the Board concludes that the charges here proposed may constitute an unwarranted penalty for the charterer.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. An investigation is instituted to determine whether the provisions of rule No. 44 on 1st Revised Page 13-A of Capitol International Airways, Inc's C.A.B. No. 160 (Capitol Airways, Inc., Series) and rules, regulations, or practices affecting such provisions, are or will be, unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and, if found to be unlawful, to determine and prescribe the lawful provisions and rules, regulations, and practices affecting such provisions in interstate transportation, the lawful minimum and/or maximum provisions in overseas transportation, and to take appropriate action to prevent the use of such provisions in foreign transportation;

2. Pending hearing and decision by the Board, the provisions of Rule 44 on 1st Revised Page 13-A of Capitol International Airways, Inc.'s C.A.B. No. 160 (Capitol Airways, Inc., series) are suspended insofar as they apply to interstate and overseas air transportation and their use deferred to and including May 10, 1975, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The investigation ordered herein be assigned for hearing before an Administrative Law Judge of the Board at a time and place hereafter to be designated; and

4. Copies of this order be served upon Capitol International Airways, Inc., which is hereby made a party to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-3666 Filed 2-7-75;8:45 am]

[Order 75-2-22; Docket 25705]

NORTH CENTRAL AIRLINES, INC.

Application for Realignment of Route 86; Order Amending Certificate

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 5th day of February, 1975.

By Order 74-7-63, July 16, 1974, all interested persons were directed to show cause why the Board should not amend the certificate of public convenience and necessity for route 86 held by North Central Airlines so as to realign the carrier's system by consolidating its existing nine segments into one segment and by eliminating certain operating restrictions.

Objections have been filed by United Air Lines, Northwest Airlines, Frontier Airlines and North Central itself. Replies, accompanied by motions for leave to file, were submitted by Allegheny Airlines and the Flint, Michigan, Airport Commission. Subsequently, North Central moved for leave to reply to the objecting carriers which prompted United to move for leave to file a reply to North Central contingent upon the Board's acceptance of the latter's pleading. We have decided to grant the motions of Allegheny and the Flint Airport Commission and to accept their respective replies but to deny the motion of North Central. Consequently, United's contingent motion will be dismissed as moot. Allegheny and the Flint Airport Commission assert—correctly, in our estimation—that North Central, in its statement of objections to Order 74-7-63, raised matters regarding certain markets not previously in controversy in this realignment. Accordingly, good cause is demonstrated for acceptance of the otherwise unauthorized replies.[1] On the other hand, North Central's justification for receipt of its responsive pleading is not persuasive in that it relies upon the fact that the Board provided for replies in the *Allegheny Route Realignment* order to show cause.[2] Nowhere in its motion does North Central allege that the objective carriers have made errors of fact or raised new matters not previously before the Board. In these circumstances, there is no purpose to be served by burdening the record with further responsive documents.

Upon consideration of the matters contained in the foregoing pleadings and all the relevant facts, we conclude that the tentative findings and conclusions set forth in Order 74-7-63 should be made final, except to the extent modified herein, and that an amended certificate in the form attached hereto should be issued to North Central.

Objections of Northwest

Northwest has renewed its objections to grant of nonstop authority in the Bismarck/Mandan (hereinafter Bismarck)-Grand Forks market and unrestricted one-stop authority in the Bismarck-Minneapolis/St. Paul (Twin Cities) market. In support thereof, it is alleged that North Central would be able to mount a Bismarck-Twin Cities operation via Grand Forks directly competitive with Northwest's nonstop, one-stop and two-stop service via Fargo and/or Jamestown (OAG, November 1, 1974). While North Central is presently authorized to offer one-stop Bismarck-Twin Cities service over the segment junction points Aberdeen and Minot, it is argued that the greater traffic pool available to support service over Grand Forks would induce North Central to institute directly competitive service in the Bismarck-Twin Cities market.[3] Moreover, it is asserted that grant of nonstop Bismarck-Grand Forks authority to North Central would preclude Northwest, which must stop at the bifurcation point, Fargo, from obtaining similar authority because of the small size of the market (280 true O&D).

In view of Northwest's continuing objection and the fact that the level of traffic between Grand Forks and Twin Cities may induce North Central to provide service directly competitive with Northwest's, we will restrict North Central's one-stop Bismarck-Twin Cities authority by excluding Grand Forks as an intermediate stop.[4] We will not, however, place any restriction upon North Central's Bismarck-Grand Forks authority. The tenor or Northwest's pleading suggests that its objection to nonstop authority for North Central in this market is lodged primarily to bolster its case in favor of a Bismarck-Twin Cities restriction rather than to preserve any future rights in this tiny Bismarck-Grand Forks market itself. We note, in this connection, that Northwest has not directed our attention to any pending application or motion to consolidate which constitutes a necessary predicate for any claim to comparative consideration. See Order 73-5-68, May 11, 1973. Moreover, we cannot conclude that the liberalization of North Central's authority in this realignment will, as a matter of economics, prevent any liberalization of Northwest's authority at some time in the future.[5]

[1] To the extent that the motions of Allegheny and the Flint Airport Commission rely upon the fact that replies were explicitly authorized by Order 73-10-24, October 4, 1973, in the Allegheny Route Realignment, we reject that justification. The Allegheny Realignment was substantially more complex and involved decisions by the Board in its order to show cause that had not been suggested by the pleadings. Procedural variations authorized in that case were the exception rather than the rule.

[2] See n. 1, *supra*. In the Frontier Route Realignment order to show cause, Order 73-12-45, December 11, 1973, which was issued two months after the Allegheny order, no replies were authorized.

[3] A total of 44,780 true O&D passengers traveled on the routing over Grand Forks as opposed to 34,350 over Minot and 29,750 over Aberdeen. (Consistent with Order 74-7-63, all O&D figures mentioned herein are for the year ended September 30, 1973. O&D Survey, Table 8.)

[4] North Central has neither suggested nor demonstrated that there is a need for additional service in the market. In this regard, it may be noted that Northwest provides two nonstops and one two-stop eastbound and one nonstop and three one-stops westbound; in both directions the flights are well spaced throughout the day. OAG, November 1, 1974.

[5] The Bismarck-Grand Forks market generates less than one daily passenger and the size and service in the local market would clearly not be determinative in deciding whether or not to modify Northwest's existing authority in the reasonably near future. Consequently, the case cited by Northwest to support its economic preclusion argument (Remanded Atlanta-Detroit/Cleveland/Cincinnati Investigation, Docket 20724), which involved competitive service between large hubs, is inapposite.

[1] Revisions to Capitol's Tariff C.A.B. No. 160 (Capitol Airways, Inc. series).

[2] In effect, this latter charge is applicable only with respect to cancellations earlier than 89 days prior to departure.

Objections of Frontier

Frontier has interposed objections to grant of nonstop authority in the Bismarck-Kansas City market and unrestricted one-stop authority in the Denver-Minot market. In support thereof, Frontier alleges, in the first case, that North Central should not receive authority superior to Frontier's one-stop Bismarck-Kansas City authority[6] and, in the second case, that unrestricted one-stop Denver-Minot authority will expose Frontier's one- and multi-stop service to diversion.[7] The Board is requested to maintain the mandatory stop at Twin Cities on flights between Denver and Minot. For the following reasons, we find that Frontier's objections cannot be sustained.[8]

First, the Bismarck-Kansas City market is extremely small, having generated fewer than 10 daily passengers for the year ended September 30, 1973. Consistent with Board precedent, this is the type of market in which we believe it is ordinarily desirable to give the primary local service carrier unrestricted operating flexibility. See Order 73-12-45, December 11, 1973, p. 5. Moreover, Frontier has historically possessed extremely circuitous authority (one-stop via Denver) and has not participated in traffic to any measurable degree.[9] Upon finalization of Frontier's route realignment, the carrier's best authority will be one-stop via Scottsbluff, or almost 50 percent more circuitous than North Central's present best authority, which is one-stop via Sioux City (North Central's one-stop authority is only 3 miles longer than the Bismarck-Kansas City nonstop distance). Therefore, Frontier's authority is essentially unusable vis-a-vis North Central's so that, in accord with Board precedent, improvement in North Central's authority is warranted on this basis in all but a technical sense. See Order 73-12-45 at p. 6. In view of North Central's historic participation, the improbability of diversion from Frontier, the past and prospective authority of each carrier and the size of the market, the proposed improvement is clearly warranted.

Second, it does not appear that Frontier's objection to "unrestricted" one-stop authority between Denver and Minot is well-founded. North Central will be precluded from offering one-stop service over Rapid City, the most logical and least circuitous intermediate, because all Denver-Rapid City flights are two-stop restricted. Service between Denver and Minot over Pierre or Bismarck, the next least circuitous intermediates, is also restricted.[10] Therefore, North Central's best authority in terms of both circuity and available traffic would be one-stop over Aberdeen, a distance of 749 miles with an available true O&D traffic pool of 8,340.[11] In contrast, Frontier's existing one-stop service over Rapid City entails a trip length of 613 miles and affords access to 32,990 true O&D passengers.[12] As a matter of economic reality, North Central will not be in a position to mount an operation in the Denver-Minot market that could divert a measurable amount of traffic from Frontier's nonstop and nonetheless circuitous one-stop service. Accordingly, Frontier's objection must be overruled.

Objections of United.

United has objected to the improved authority proposed by the Board in eleven markets: Omaha-Grand Rapids/Lansing/Muskegon/Saginaw-Bay City-Midland (heringafter Saginaw/South Bend; Denver-Grand Rapids/Lansing/Muskegon; and New York-Flint/Muskegon/Saginaw.

1. *Omaha Markets.* United takes issue with our statement in Order 74-7-63, at 5, that "no single-carrier service, either single-plane or on-line connecting" is offered in the Omaha markets and, in support of its argument, refers to Attachment A to its response dated November 14, 1973, and includes as exhibits copies of its city timetables distributed to the general public in the cities in question. Attachment A (Exhibit 2 in its statement of objections) indicated nothing more than the fact that a United flight serving Omaha and a United flight serving a Michigan/Indiana point would connect somewhere. As United is undoubtedly aware, the only published connecting schedules commonly noticed by the Board are those appearing in the Official Airline Guide and it was upon these that the Board relied in its order to show cause. United has now offered copies of its city timetables in Exhibit 3 which do, indeed, indicate that on-line connections of varying quality are available over Chicago; these timetables may be discussed herein to the extent that they are relevant.[13]

More to the point, United alleges that it provides a level of service commensurate with the size of the Omaha markets, that it carriers virtually all of the local and connecting on-line O&D traffic and that award of better than two-stop authority to North Central cannot be justified. We disagree. Because of the operation of other restrictions upon North Central's flexibility, one-stop restrictions in the five Omaha markets are more than adequate to protect United from unwarranted diversion. Accordingly, our proposed nonstop authority in the Muskegon, Saginaw and South Bend markets will be modified to one-stop.

Realistically, North Central cannot be expected to mount one-stop operations in these markets for other than aircraft routing purposes because the traffic flow is so thin [14] and there are no strong intermediates available. For example, neither Chicago, Milwaukee, Twin Cities nor Madison can serve as the sole intermediate because of proposed restrictions between each of those points and Omaha or between each and the Michigan/Indiana points. See Order 74-7-63, Appendix E. Service over any other point—Rochester, for example—would not be supported by appreciable traffic and would be more circuitous than United's one-stop connections over Chicago. In sum, if and when the Omaha-Michigan/Indiana markets merit single-plane service, United, by virtue of superior authority (one-stop over Chicago), historic participation and access to more traffic, will be able to tap the markets without fear of directly competitive service by North Central.

2. *Denver Markets.* In the Denver-Grand Rapids/Lansing/Muskegon markets United has renewed its objection to the Board's proposal to grant one-stop authority (provided that the one-stop may not be Twin Cities). We have determined that United's position has merit although not necessarily for the reasons offered by United.

[6] Frontier characterizes his grant of nonstop authority as an inadvertant exclusion from those city-pairs subject to a one-stop restriction on the ground that North Central itself did not seek nonstop rights. In its detailed response to Order 73-8-68, September 17, 1973, North Central did request nonstop authority between Bismarck and Kansas City (Exhibit NCA-B-200, p. 7) but Frontier did not answer in opposition. Nevertheless, Frontier's objection will be considered herein on the merits.

[7] Frontier incorrectly characterizes its best Denver-Minot authority as one-stop. By Order 74-5-73, May 14, 1973, the Board granted exemption authority for Frontier to overfly Bismarck on flights between points on segment 7 and points on segment 8 thereby permitting nonstop Denver-Minot service which Frontier does, in fact, provide. OAG, November 1, 1974. Moreover, the Board has proposed to make such authority permanent in the Frontier Route Realignment, Order 73-12-45.

[8] Frontier requests a hearing in the event its two proposed restrictions are not adopted. However, Frontier has presented no testimony, statistical data, or evidentiary support for its objections as required by the terms of the Show Cause. In our judgment, the policy upon which we proposed to modify North Central's authority is well established in Board practice, the facts are readily apparent so that no dispositive factual issues need be resolved, and an evidentiary hearing would serve no useful purpose.

[9] For year ended September 30, 1973, Frontier carried only 100 of the 2510 local and connecting on-line O&D passengers while North Central carried the balance. O&D Survey, Table 10.

[10] Denver-Pierre: one-stop; Denver-Bismarck: two-stop. Order 74-7-63, Appendix E.

[11] Denver-Minot, 6,070; Denver-Aberdeen, 1,680; Aberdeen-Minot, 610.

[12] Denver-Minot, 6,070; Denver-Rapid City, 25,100; Rapid City-Minot, 1,820. As noted at n. 7, *supra*, Frontier also operates a daily Denver-Minot nonstop round trip which serves Winnipeg, Canada, beyond Minot.

[13] For the record, it should be noted that United chose not to pay for publication of these connections in the OAG, undoubtedly because of the small size of the markets. If the markets were generating at least 850 local O&D passengers per quarter, in view of the absence of single-plane service, publication in the OAG would have been automatic with no charge to United.

[14] Omaha-Grand Rapids; 2240; Lansing, 1510; Muskegon, 470; Saginaw, 1320; South Bend, 1860. See Order 74-7-63, Appendix B.

First, in United's other three Denver-Michigan/Indiana markets (i.e., Flint, Saginaw and South Bend), North Central itself proposed two-stop unrestricted authority to which United did not object.[15] There is no apparent explanation for North Central's request for one-stop authority in three city-pair markets when it had voluntarily limited itself to two-stop authority in three others under essentially identical circumstances. Since the Board's realignment program is directed primarily toward removal of specific named intermediate points in order to afford some operating flexibility, restricting North Central to two-stop authority in all Denver-Indiana markets certificated to United will not detract from our principal objective.

Second, the Denver markets are much larger than the Omaha markets and, with one-stop authority, North Central might be encouraged to enter into competition with United. For example, a Denver-Green Bay-Grand Rapids service would afford access to more than 17,000 true O&D passengers.[16] While United now carries virtually all Denver-Grand Rapids traffic, North Central carries virtually all Denver-Green Bay and Green Bay-Grand Rapids traffic, offering daily single-plane service in both markets.[17] It would seem to be a relatively easy matter to alter this service pattern to accommodate at least one daily Denver-Grand Rapids one-stop through round trip which, coincidentally, would entail a trip length only 48 miles longer than United's one-stop connecting service over Chicago but with a considerable saving in time for the passenger who would not have to change planes. This is the type of potential competitive impact which the Board has sought to avoid in realigning routes under nonhearing procedures. Accordingly, North Central's Denver-Grand Rapids/Lansing/Muskegon authority will be restricted to two-stop as requested by United.

3. *New York/Newark Markets.* In the third group of markets—New York-Flint/Muskegon/Saginaw—United seeks to have the Board retain the present Milwaukee stop requirement imposed upon all flights serving New York by virtue of North Central's separate Milwaukee-New York segment.[18] United alleges, inter alia, that the proposed improvement (two-stop authority in New York-Flint, one-stop in New York-Muskegon/Saginaw) is not supported by the Board's realignment rationale and that more than $3 million of United's revenues would be subject to diversion. In its answer to United's pleading, the Flint Airport Commission expresses its support for the Board's tentative decision.

We have determined to accdee to United's objections. As in the case of the Denver markets, supra, some of the services North Central could operate pursuant to the authority proposed in the show cause order would afford access to sufficiently large pools of traffic, and would be sufficiently noncircuitous, to raise a distinct possibility that they might become significantly competitive with United's existing services. For instance, a Muskegon-Kalamazoo-New York service by North Central would have access to a total of 19,300 O&D passengers and would be only 2 percent more circuitous than United's best connecting service over Cleveland. Similarly, a Saginaw-Jackson-New York service would have access to 29,080 O&D passengers and would be only 15 percent more circuitous than United's nonstop flight. Finally, a Flint-Saginaw-Jackson-New York service, although 24 percent more circuitous than United's existing one-stop flight via Cleveland, would have access to 44,790 O&D passengers.[19] We do not undertake to determine whether such services would in fact, or would probably, inflict significant diversion on United; it is enough here that the possibility of such diversion is sufficiently plausible that the Board does not consider it appropriate to employ nonhearing procedures to grant improved authority in potential competitive markets. Accordingly, North Central's existing Milwaukee stop restriction will be retained in these markets as it has been in all of North Central's other Michigan/Indiana/Ohio-New York competitive markets.[20]

Objections of North Central

North Central's objections and Allegheny's reply thereto are directed toward nine markets [21] which were also in controversy in the *Allegheny Route Realignment*. In our order on reconsideration, Order 74-10-60, October 10, 1974, we refused to accede to North Central's objection to improvement of Allegheny's authority in these nine markets which was couched in terms of (1) the Ashbacker doctrine and (2) the Board's allegedly erroneous reliance upon North Central's initial acquiescence. We stated that, first, the Ashbacker doctrine was not applicable and, second, that our decision to improve Allegheny's authority by removing named stop restrictions (Indianapolis, in each case) was based upon consideration of the "merits in light of the carrier's route structure and the dissimilarity of North Central's route structure." Order 74-10-60 at 12. We did, however, assert that North Central's case for improved authority would be fully examined on the merits in its own realignment proceeding. Upon consideration of the facts enumerated below, we have determined to retain the Milwaukee stop restriction in the Grand Rapids-New York, South Bend-New York and Chicago - Cincinnati/Columbus/Dayton markets but to grant North Central the authority it seeks in the Grand Rapids/South Bend-Columbus/Dayton markets.[22]

The Grand Rapids/South Bend-Columbus/Dayton markets are minor markets and, as such, do not present competitive considerations of a significant magnitude. Nevertheless, we have retained named intermediate points in several such markets when it has appeared that a competitor's objections were well-grounded. Here, however, they are not. In the two Grand Rapids markets, North Central presently offers some single-plane service while Allegheny does not serve these two markets at all (OAG, November 1, 1974) and is, in fact, suspended completely at Grand Rapids.[23] In addition, North Central participates to a much greater degree in local and connecting on-line O&D in the two markets than does Allegheny,[24] which fact also supports its requests for improved authority. Thus, while Allegheny has possessed less circuitous authority, it has made no effort to serve the Grand Rapids markets while North Central has. Accordingly, we discern no reason to "protect" Allegheny by restricting North Central.[25]

Similarly, the South Bend-Columbus/Dayton markets are extremely small, having generated only 1390 and 670 true O&D passengers in the year ended September 30, 1973. No single-plane service is offered by any carrier but United carried virtually all of the on-line local and connecting passengers by necessarily circuitous connections. As in the case of Grand Rapids, Allegheny is now suspended at South Bend.[26] Grant of unre-

[15] North Central's current best single-plane authority in these Denver markets is:
Flint: three-stop (Twin Cities+1+Detroit).
Grand Rapids: two-stop (Twin Cities+1).
Lansing: two-stop (Twin Cities+1).
Muskegon: two-stop (Twin Cities+1).
Saginaw: three-stop (Twin Cities+1+Detroit).
South Bend: two-stop (Twin Cities+).

[16] Denver-Green Bay, 3190; Denver-Grand Rapids, 7560; Green Bay-Grand Rapids, 6400.

[17] Denver-Green Bay, one-three-stop round trip and one additional two-stop flight eastbound; Green Bay-Grand Rapids, three nonstop round trips.

[18] Twin Cities-Milwaukee Long-Haul Investigation, Order 70-6-36, decided June 4, 1970.

[19] Although the hypothetical two-stop Flint-New York service described above may appear somewhat improbable, the fact that United's existing Flint-New York flight is operated pursuant to a Board adequacy-of-service order is entitled to substantial weight on the other side.

[20] Since the Milwaukee restriction will patently suffice to preclude any competitive impact on United, we will not require an additional stop in the Flint-New York or South Bend-New York markets.

[21] Chicago - Cincinnati/Columbus/Dayton; Grand Rapids-Columbus/Dayton/New York; and South Bend-Columbus/Dayton/New York.

[22] Grand Rapids-Columbus, one-stop; Grand Rapids-Dayton, nonstop; South Bend-Columbus/Dayton, nonstop.

[23] Order 74-1-5, January 2, 1974.

[24] O&D Survey, Table 10 (Y.E. September 30, 1973). In the Columbus market, North Central and United each carried about 40 percent of such traffic, Allegheny about 10 percent. In the Dayton market, United, North Central and Allegheny carried about 70, 21, and 6 percent, respectively.

[25] We note that United, which possesses one-stop authority over Chicago, the segment junction point, did not object to improvement of Allegheny's authority in these markets and, presumably, will not object to improvement of North Central's.

[26] See n. 23, *supra*.

XUM
V40128
FEB 10 75
XUM

stricted authority in these two markets to North Central could hardly have competitive implications but might, on the positive side, encourage the carrier to offer some improved single-plane service beyond the two markets to points north and northwest. In contrast, Allegheny's system lies largely to the east of Ohio; therefore, in the unlikely event that Allegheny were to route aircraft over these markets, its effort would undoubtedly be to flow passengers in an entirely different direction. For the foregoing reasons and in view of other general principles of the Board's realignment policy, North Central will receive the authority it seeks in the Grand Rapids/South Bend-Columbus/Dayton markets.

North Central's request for unrestricted one-step authority in the Grand Rapids/South Bend-New York markets will be denied.[27] Irrespective of our action in the *Allegheny Route Realignment*, the authority of, and service provided by, United in these markets warrants retention of the Milwaukee stop requirement. First, it must be noted that North Central agreed to such a restriction not solely on the basis of Allegheny's objection but also (perhaps primarily) on the basis of United's objection.[28] Second, we have already considered and accepted United's objections to removal of the Milwaukee stop restriction in other relatively large Michigan-New York markets; the reasoning, discussed above, is equally applicable to the instant markets.[29] Finally, United has objected to improvement in North Central's authority in these markets even though it did not object to improvement in Allegheny's and this factor must be considered as militating against grant of North Central's request.

Last, we have decided to retain the Milwaukee stop restriction in the Chicago-Cincinnati/Columbus/Dayton markets, principally for reasons similar to those articulated in connection with our discussion of the New York-Michigan markets. Again, these are large markets[30] and North Central's best authority under its own proposal, one-stop unrestricted, would be only slightly circuitous.[31] Although North Central's penetration of these markets would necessarily be quite limited in view of the volume of nonstop service they now receive from other carriers, we cannot say for certain that the competitive impact would be completely negligible in the particular context of a grant of improved authority by nonhearing procedures. In a case where hearing procedures were to be or had already been followed, of course, different standards would apply.

Technical Amendments

North Central suggests four additional minor changes which it characterizes as technical amendments. The first involves effectuation of the final decision in the *Wisconsin Points Dehyphenation Case*, Docket 21115, Order 74–7–45, July 11, 1974, while the other three involve minor modifications of the restrictions in the Fargo-Detroit/Twin Cities/Milwaukee markets. These four changes will be adopted.

Requirement of a Hearing

Finally, United has again questioned the appropriateness and legality of show cause procedures to realign route systems, implying that the Board may not deny its requests for the retention of restrictions absent a hearing. This issue has been considered in some detail and United's arguments have been rejected. See Order 74–10–60, October 10, 1974, at 3–4. We believe that all statutory mandates have been fulfilled, both to the letter and in spirit, and that the procedures utilized are otherwise fully consistent with general principles of due process.

For purposes of determining a license fee in accordance with the schedules set forth in section 389.25 of the Board's Organization Regulations (14 CFR 389.25), it is found that the additional gross transport revenues for the first full year of operations by North Central, as a result of the new authority granted herein, will be within the $100,000 to $1,000,000 range.[32]

Accordingly, *It is ordered*, That:

1. The tentative findings and conclusions set forth in Order 74–7–63, July 16, 1974, as modified herein, be and they hereby are made final;

2. An amended certificate of public convenience and necessity for route 86 in the form attached hereto be issued to North Central Airlines, Inc.;[33]

3. Such certificate shall be signed on behalf of the Board by its Secretary, shall have affixed thereto the seal of the Board and shall be effective 60 days after service of this order: *Provided, however*, That the effective date of said amended certificate shall be postponed automatically until further Board order if the appropriate license fee is not paid pursuant to section 389.21(b) of the Regulations;

4. The motion of Allegheny Airlines, Inc. for leave to file an unauthorized reply and the motion of the Flint, Michigan, Airport Commission for leave to file an unauthorized answer be and they hereby are granted;

5. The motion of North Central Airlines, Inc. for leave to file an unauthorized reply be and it hereby is denied;

6. The contingent motion of United Air Lines, Inc. for leave to file an otherwise unauthorized document be and it hereby is dismissed; and

7. A copy of this order shall be served upon the parties listed in Appendix B.[34]

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

[FR Doc.75-3667 Filed 2-7-75;8:45 am]

[Order 75-1-133; Docket 27114 et al.]

PAN AMERICAN WORLD AIRWAYS, INC. AND TRANS WORLD AIRLINES, INC.

Application for Approval of Route Agreement; Order; Correction

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 30th day of January 1975.

In FR Doc. 75–3166, appearing at 40 FR 5184, on page 40 FR 5188, ordering paragraph 1, should read as follows (italic word added):

1. Pan American World Airways be and it hereby is exempted from section 401 of the Act, the Board's rules and regulations, and the terms, conditions, and limitations of its certificate for route 130 insofar as they would otherwise prevent Pan American from serving Bombay, India and points in Taiwan and Okinawa subject to the condition that Pan American shall not perform single-plane service (including single-flight number) in any Taiwan/Okinawa city-pair market currently authorized in the certificates of Northwest which did *not* receive single-plane service by TWA as reflected in TWA's general schedule No. 51 on file with the Board effective November 1, 1974;

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

[FR Doc.75-3665 Filed 2-7-75;8:45 am]

---

[27] We will, however, eliminate the requirement that South Bend-New York flights serve a second intermediate point in addition to Milwaukee. Since North Central will have would be anomalous and, obviously, is unrestricted authority between South Bend and Milwaukee and between Milwaukee and New York, the imposition of an additional stop requirement on flights serving both South Bend and New York over Milwaukee necessary. See n. 20, *supra*.

[28] See Reply of North Central, dated August 27, 1973 at p. 8 (leave to file granted by Order 73–9–66, September 17, 1973).

[29] The Grand Rapids/South Bend-New York markets are significantly larger than the Flint/Muskegon/Saginaw-New York markets; therefore, North Central's incentive to initiate one-stop service, albeit over a weak, slightly circuitous intermediate such as Jackson, will be fairly great.

[30] Chicago-Cincinnati: 202,370 true O&D; Chicago-Columbus, 182,910; Chicago-Dayton, 120,400.

[31] Under its proposal, North Central's least circuitous one-stop authority in the Chicago-Columbus/Dayton markets would be via South Bend. In the Chicago-Cincinnati market, because of a one-stop restriction on South Bend-Cincinnati flights, the carrier's least circuitous one-stop service would be via eBnton Harbor or alamazoo, entailing a relatively small increase in mileage.

[32] North Central requested the Board to find that revenues realized would be under $100,000; however, we cannot accept such a conservative estimate in light of the extent of liberalization of the carrier's authority.

[33] Filed as part of original document.

[34] Appendices A, B, C filed as part of original document.

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Administrative Actions Requiring Statements

The following lists, filed with the Council by the Department of Defense, Corps of Engineers, Tennessee Valley Authority, the Department of Transportation, and the United States Coast Guard pursuant to Council Guideline 40 CFR 1500.6(e), indicate those administrative actions that DOD, COE, TVA, DOT, and USCG have determined will require the preparation of environmental impact statements under NEPA.

DEPARTMENT OF DEFENSE

ASSISTANT SECRETARY OF DEFENSE

Quarterly CEQ Report
Unified and Specified Commands
July 1, to September 30, 1974

1. Final statements: None filed during reporting period.
2. Draft statements: None.
3. Statements under Preparation:

Subject	Projected date	CINC
Tinian, Mariana Islands, Crested Isle.	USAF comments on CEIS being used to prepare DEIS. Due December 1974.	CINCPAC

4. List of Actions for which a statement is not required:
a. Actions which normally require a statement. None.
b. Actions similar to those for which a significant number of statements have been filed. None.
c. Actions previously announced as requiring a statement. None.
d. Actions for which the CEQ requested a statement. None.
5. List of actions for which statements are not yet timely:

CINCPAC

a. Camp Butler, Japan—AV8A training facility.
b. Hickam AFB, Hawaii—Fire training facility.
c. Clark AFB, Philippines—Central Supervisory Utility Control System.
d. Kadena AB, Japan—Central Supervisory Utility Control System.
e. Schofield Barracks, Hawaii—Kolekole Quarry.
f. Guam—200-man USAR center.

DEFENSE SUPPLY AGENCY

RCS DD–H&E (Q)1326

1 SEPTEMBER 1973 TO 30 SEPTEMBER 1974

1. Final Statements: None
2. Draft Statements: None
3. Statements Under Preparation: None
4. List of actions for which a statement is not required: a. Actions which normally require a statement: (1) Expanded boiler plant capacity at one location and reduced total number of plants, Defense Depot Ogden, Ogden, Utah (DDOU). Date of Determination: FY 74. Reason for Determination: Number of plants reduced. Expanded plant meets EPA standards.

(2) Installed refuse compaction and transfer station—DDOU. Date of Determination: FY 74. Reason for Determination: Eliminated open pit burning. Compacted refuse delivered to Weber County incinerator which meets EPA emission standards.

(3) Expanded storm sewer—DDOU. Date of Determination: FY 74. Reason for Determination: Improved control of runoff. Reduced overflow.

(4) Constructed 18 units of family housing (in progress)—DDOU. Date of Determination: FY 74. Reason for Determination: Replaces a like number of substandard units. New units heated by natural gas. Existing boiler plant to be closed reducing air emissions.

b. Actions similar to those for which a significant number of statements have been filed: None.

c. Actions previously announced as requiring a statement: None.

d. Actions for which the CEQ requested a statement: None.

5 List of actions for which statements are not yet timely: None.

Department of the Army—July 1, 1974 to September 30, 1974

	Date Filed
(a) Final statements: *Subject*	
Project Eagle—expanded, Supplement A—Disposal of GB Agent in Underground Tanks.	Notice published in FEDERAL REGISTER (F.R.) Aug. 2, 1974.
(b) Draft statements:	
1. Land acquisition, Fort Carson, Colo.	Notice published in F.R. Sept. 13, 1974.
2. Construction and operation, parachute drop zone and short-field landing strip, Fort Richardson, Ark.	Approved by DA on Oct. 16, 1974. Filed with CEQ that date.
(c) Statements under Preparation:	*Date Scheduled*
1. South approach, Golden Gate Bridge, Presidio of San Francisco, Calif. Draft statement reported in F.R. of May 6, 1974.	Unscheduled (final).
2. Family housing project (400 units) Fort Bragg, N.C.	Unscheduled (draft).
3. Real estate acquisition, 3 phases, Fort Hood, Tex.	2d quarter 1975 (draft).
4. Military operations and activities, 4th Infantry Division (Mech.) and Fort Carson, Colo.	4th quarter 1975 (draft).
5. Family housing project, Fort Campbell, Ky.	Rescheduled to 3d quarter 1975 (draft).
6. Co-use of monument land by White Sands Missile Range and National Park Service, U.S. Army Air Defense Center and Fort Bliss, Tex.	3rd quarter 1975 (draft).
7. Military operations, Fort Polk, La.	3d quarter 1975 (draft).
8. Land acquisition, Fort Riley, Kans.	Unscheduled (draft).
9. Family housing project, Fort Belvoir, Va.	1st quarter 1975 (draft).
10. Family housing project, Allamanu Military Reservation, Hawaii, 2950 units.	4th quarter 1975 (draft).
11. Project Eagle—expanded:	
Supplement B—disposal of GB agent 1 in 1-ton containers.	4th quarter 1974 (final).
Supplement C—WETEYE bombs	2d quarter 1975 (final).
Supplement D—Honest John warhead	1st quarter 1975 (final).
12. Dredging project, Badger Army Ammunition Plant, Baraboo, Wash.	1st quarter 1975 (draft).
13. Project Eagle phase III, disposal of obsolete phosgene (carbonyl chloride).	Unscheduled.
14. Demilitarization of toxic munitions at USAMC installations:	
Without explosives	1st quarter 1975 (final).
With explosives	3d quarter 1975 (final).
15. Division stationing plan, Fort Ord, Calif.	Unscheduled.
(d) List of Actions for which a statement is not required:	
1. Actions which normally require a statement.	None.
2. Actions similar to those for which a significant number of statements have been filed:	*Date of Determination*
a. Family housing, Lightning Field, Schofield Barracks, Oahu, Hawaii.	Sept. 1974.
b. Brief reason for determination: This project's size (640 family housing units) was large enough to justify careful investigation of its environmental effects. However, the commander, based on his study, determined that no significant environmental impacts would be caused by the project.	
a. Family housing construction program, Fort Stewart, Ga.	Do.

XUM
V40128
FEB 10 75
XUM

Department of the Army—July 1, 1974 to September 30, 1974—Continued

(d) List of Actions for which a statement is not required—Continued

2. Actions similar to those for which a significant number of statements have been filed—Continued — *Date of Determination*

b. Brief Reason for Determination: This long-range program for the construction of approximately 3,000 military family housing units on a 750 acre site at Fort Stewart was carefully assessed and the commander determined that it will cause no significant adverse effects which cannot be avoided. Design of the project will include measures to minimize all avoidable adverse environmental effects.

a. Family housing construction program, Fort Polk, La. — Do.

b. Brief reason for determination: This long-range program for the construction of 3,000 to possibly 4,000 family housing units is to provide housing for officers, enlisted men and their families. The construction will be accomplished on the military reservation. Design of the project will include features to minimize all avoidable adverse environmental effects. A careful assessment of the project was made and the commander determined that it would cause no significant adverse environmental impact.

a. Proposed legislative change to Clean Air Act. — Oct. 1974.

b. Brief reason for determination: The proposed change to the Clean Air Act would exclude military designed tactical vehicles from post 1974 emission standards. The small number of vehicles involved and their locations will not have a significant impact on ambient air quality.

a. Control of blackbirds, Fort Campbell, Ky. and Milan Army Ammunition Plant, Tenn. — Oct. 21, 1974.

b. Brief reason for determination: The project proposed spraying the starlings and other blackbirds with a biodegradable detergent wetting agent which, when associated with certain weather conditions, subjects the birds to a quick death. The material used will have insignificant impact on nontarget animals and will not degrade air or water quality or damage plant life. The animals are destructive to the local farmers, produce filth and are generally hazardous to high speed aircraft and to the health of the local inhabitants and their live stock. A negative declaration was published in the FEDERAL REGISTER on Oct. 21, 1974.

a. Renewal of lease, Fort Bliss, Tex------ — 3d quarter 1974.

b. Brief reason for determination: This 66,000 acre maneuver area (No. 2) has been leased by the Army from private landowners for a significant period of time. The environmental assessment of the proposed action to renew the leases concluded that the action including the land use would not cause a significant impact on the environment.

a. Joint training exercise Gallant crew 1975, Fort Bliss, Tex. — 3d quarter 1974.

Department of the Army—July 1, 1974 to September 30, 1974—Continued

(d) List of Actions for which a statement is not required—Continued

2. Actions similar to those for which a significant number of statements have been filed—Continued — *Date of Determination*

b. Brief reason for determination: This training exercise including men, equipment and weapons systems is scheduled to be conducted at Fort Bliss during April 1975. An environmental assessment of the proposed action concluded that by restricting the use of approximately 250,000 acres of range, the activity would not cause a significant environmental impact.

3. Actions previously announced as requiring a statement. — None.

4. Actions for which the CEQ requested a statement. — None.

5. List of actions for which statements are not yet timely. — None.

Department of the Navy

July to September 1974

(a) Final statements: Subject: "U.S. Navy Atlantic Fleet Air Combat Maneuvering Range, Atlantic Ocean Training Area". Date filed: 9 July 1974. Subject: "TRIDENT Support Site, Bangor, Washington". Date filed: 19 July 1974. Subject: "Camping Facility, Naval Air Station, Miramar, California". Date filed: 27 August 1974.

(b) Draft statements: Subject: "Berthing Pier No. 7, U.S. Naval Station, San Diego, California". Date filed: 30 July 1974. Subject: "Navy Family Housing, U.S. Naval Weapons Station, Charleston, S.C.". Date filed: 13 September 1974.

(c) Statements under preparation: Subject: Final EIS for "Berthing Pier No. 7, U.S. Naval Station, San Diego, California". Projected date: November 1974. Subject: Final EIS for "Land Acquisition and Construction of Two Helicopter Outlying Fields, Naval Air Station, Whiting Field, Milton, Florida". Projected date: January 1975. Subject: Final EIS for "Naval Submarine Base, New London, Groton, Connecticut". Projected date: January 1975.

Subject: Final EIS for "Improvement/Addition of Ship Berthing Spaces, Naval Station, Norfolk, Virginia.". Projected date: January 1975. Subject: Final EIS for "Off-Road Vehicle Use, Naval Weapons Center, China Lake, California.". Projected date: February 1975. Subject: Final EIS for "Abrasive Blasting of Ships Hulls" Projected date: June 1975. Subject: Final EIS for "Continued Use of Farallon de Medinilla Bombardment Range, Marianas Islands". Projected date: December 1974. Subject: Draft EIS for "Proposed New Ammunition Facility at the Naval Air Station, North Island, San Diego, California". Projected date: November 1974. Subject: Draft EIS for "Uniformed Services University of the Health Sciences, Bethesda, Md.". Projected date: November 1974. Subject: Draft EIS for "Naval Personnel Administrative Complex, Belle Chasse, Louisiana.". Projected date: January 1975. Subject: Draft EIS for "Navy Family Housing at Forth Story, (Virginia Beach), Virginia.". Projected date: January 1975.

(d) List of actions for which a statement is not required: Subject: "CH-53E Helicopter System". Date of determination: 11 July 1974. Brief Reason for determination: Action did not constitute a "major Federal action significantly affecting the quality of the human environment" as operational usage does not indicate any direct or secondary impact and engines utilized will be designed for minimal pollutant (exhaust) emissions.

Subject: "Community Support Facilities and Land Acquisition, Naval Submarine Base, New London (Groton), Connecticut". Date of determination: 9 August 1974. Brief reason for determination: Action was discussed in the Draft EIS for "Naval Submarine Base, New London" filed on June 19, 1974 and accordingly did not require decision for Draft EIS.

Subject: "DD 963 Class Ships". Date of determination: 9 August 1974. Brief reason for determination: Not considered a major Federal action significantly affecting the quality of the human environment as this class ships will incorporate the latest in pollution abatement devices as:

(1) Utilization of gas turbine engines (burning distillate fuels) which are significantly cleaner (with respect to exhaust pollutants) than their predecessor;

(2) Sewage collection/incineration systems facility no overhead discharge in port or while operating in the contiguous zone;

(3) Trash compacted for ultimate disposal ashore whenever feasible;

(4) Oily ballast minimized through revised refueling procedures;

(5) Oily bilge discharge minimized through provision of 9,000 gallon capacity holding tanks; and

(6) Plans for backfitting with oil/water separators and oil content monitors when such devices are approved for military use.

Subject: "AIM-9L (Air-to-Air) Missile". Date of determination: 9 August 1974. Brief reason for determination: Not considered a major action significantly affecting the quality of the human environment as peacetime use is primarily associated with training at an established and dedicated target range. Any minor "contamination" occurring unfortunately is a "fact of life" as dictated by the defense mission.

1. Actions which normally require a statement: Subject: "Dredge Piers SIERRA and TANGO, Naval Station, Charleston, S.C." Date of determination: 11 July 1974. Brief reason for determination: Proposed action did not constitute a "major Federal action significantly affecting the quality of the human environment" as:

(1) Disposal of spoils was to be accomplished in an approved EPA site;

(2) A Corps of Engineers permit had been issued;

(3) There were no identifiable "significant" impacts;

(4) The alternatives considered were not preferrable to the proposed action; and

(5) There was no evidence of "environmental controversy".

Subject: "Dredging at Naval Amphibious Base, Little Creek, Va." Date of determination: 9 August 1974. Brief reason for determination: Action was not considered a major Federal action significantly affecting the quality of the human environment as:

(1) Dredging was to involve removal of Navy lands;

(2) Spoil disposal was consistent with current EPA standards for land disposal;

(3) Dredging (and subsequent beach replenishment) is the preferred alternative; and

(4) There was no identifiable degradation or impact vs. long-term productivity and timing of the project would minimize any minor direct environmental impact.

Subject: "Land Acquisition for the Naval Research Laboratory at Leesburg, Fla.". Date of determination: 9 August 1974.

Brief reason for determination: Action would only change ownership of land and improvements (where Navy has been conducting underwater acoustic experiments) from private hands to government rolls. No change to existing site characteristics were involved or scheduled.

2. Actions similar to those for which a significant number of statements have been filed:

a. Subject: "Navy Family Housing Construction for Murphy Canyon Heights, Naval Complex, San Diego, California." Date of determination: 11 July 1974. Brief reason for determination: Proposed construction did not constitute a major Federal action significantly affecting the quality of the human environment as:

(1) The action was consistent with applicable land use plans and policies;

(2) There were no identifiable primary impacts;

(3) Secondary impacts were not considered significant;

(4) Alternatives considered might have a more adverse environmental impact; and

(5) There was no evidence of "controversy with regard to environmental impact."

Subject: "Family Housing Project, Marine Corps Air Station, Cherry Point, North Carolina." Date of determination: 2 August 1974. Brief reason for determination: Proposed action will provide for replacement housing and will not add to the total housing at the station. There was no evidence of environmental controversy.

Subject: "Mobile Home Park, Marine Corps Recruit Depot Parris Island, South Carolina." Date of determination: 2 August 1974. Brief reason for determination: Proposed action will provide for replacement mobile home spaces and will not add to the total spaces available at the activity. There was no evidence of environmental controversy.

Subject: "Land Acquisition for the Naval Research Laboratory at Leesburg, Fla." Date of determination: 9 August 1974. Brief reason for determination: Action would only change ownership of land and improvements (where Navy has been conducting underwater acoustic experiments(from private hands to government rolls). No change to existing site characteristics were involved or scheduled.

Subject: "Mobile Home Park, Naval Weapons Station, Charleston, South Carolina." Date of determination: 9 August 1974. Brief reason for determination: This proposal, for 60 mobile home parking "spaces" was to utilize 13 of an estimated 9,000 acres in a forest management area at the Weapons Station, and accordingly note a very minor direct impact. Secondary impacts were also minimal, the predominant factor providing less than .01% of expected 1976 county enrollment into local schools.

Subject: "Mobile Home Park, Naval District, Washington, D.C.". Date of determination: 24 September 1974. Brief reason for determination: Action proposed to use existing Navy, substandard trailer park for renovation of 24 mobile home parking "spaces."

XUM V40-28 FEB 10 75 XUM

Accordingly, little if any impact on the quality of the human environment is involved, and in fact, action is an improvement due to the incorporation of updated and more modern utilities/services.

Subject: "Mobile Home Park, Naval Weapons Station, Yorktown, Virginia.". Date of determination: 24 September 1974. Brief reason for determination: Action proposed to use existing, Navy substandard housing project for removal and renovation to provide for 40 mobile home parking spaces. Accordingly, little if any impact on the quality of the human environment is involved, and in fact, action is an improvement due to incorporation of updated and more modern utilities/services.

Subject: "Mobile Home Park, Naval Air Station, Alameda, California". Date of determination: 24 September 1974. Brief reason for determination: Identical case with Yorktown, Virginia, project as identified above.

Subject: "Navy Family Housing, Naval Facility, Nantucket Island, Massachusetts". Date of determination: 24 September 1974.

Brief reason for determination: Not considered a major action significantly affecting the quality of the human environment as 18 new units proposed will be constructed at (and as an addition to) existing housing on naval property with no secondary impacts identified. The basic differences in impacts being that families will remain through the summer season instead of vacating the island.

Subject: "Mobile Home Housing Project, Marine Corps Base, Camp Lejeune, North Carolina." Date of determination: 30 September 1974. Brief reason for determination: Proposed action provides for construction of mobile home sites on an existing but abandoned trailer park site. There were no identifiable significant impacts. For example, school loadings would not be changed as the children who will be located on the site are already located in the area and are enrolled in the local schools. In addition there was no evidence of environmental controversy.

3. Actions previously announced as requiring a statement: Final statement. Subject: "Navy Family Housing Project, Naval Air Station, Glenview (at Fort Sheridan) Illinois." Date of determination: 15 July 1974. Brief reason for determination: Requirement for Navy Family Housing was cancelled by the Department of Defense.

4. Actions for which the CEQ requested a statement. None identified

(e) List of Actions for which Statements are Not Yet Timely

Subject: "Continued Use of Atlantic Fleet (Inner) Weapons Range." Date of evaluation: Undetermined.

U.S. Air Force

July 1, 1974 to September 30, 1974

RCS: DD-H&E(Q) 1326

A. Final statements:	*Date filed*
Subject: 1. F-15 Beddown Luke AFB	Aug. 1, 1974.
B. Draft statements:	
Subject:	
1. USAF Continental Operations Range (COR)	July 10, 1974.
2. Over-the-Horizon Radar CONUS (OTH-B)	Aug. 9, 1974.
C. Statements under preparation:	*Projected date*
Subject: 1. Joint City/Air Force Use of Norton	2d quarter fiscal year 1975.

D. Lists of actions for which a statement is not required: None.

E. List of actions for which statements are not yet timely: Subject: 1. None.

TENNESSEE VALLEY AUTHORITY

LIST OF ENVIRONMENTAL IMPACT STATEMENTS UNDER PREPARATION, DECEMBER 1974

Final statements being prepared: Raccoon Mountain Pumped Storage Project (draft issued September 6, 1974). Timberlake New Community (draft issued November 29, 1974). Hartsville Nuclear Plants (draft issued November 25, 1974).

Draft statements being prepared: Policies Relating to Power Rates and Ratemaking Procedures, Policies Relating to Power System Transmission Facilities. Cherokee Reservoir—Poor Valley Creek Dam and State Park.

NOTE.—Elkmont Rural Village, A Planned Rural Village Near the Town of Elkmont, Alabama, in the Lower Elk River Area (listed on September 1974 list)—final issued December 16, 1974. Gas Turbine Peaking Plant Addition, Units 11-16—Johnsonville Steam Plant (listed on September 1974 list)—final issued November 25, 1974. Gas Turbine Peaking Plant Addition, Units 1-4—Gallatin Steam Plant (listed on September 1974 list)—final issued December 20, 1974. Widows Creek-West Jefferson 500-kV Transmission Line (listed on September 1974 list)—final issued November 7, 1974.

DEPARTMENT OF TRANSPORTATION

URBAN MASS TRANSPORTATION ADMINISTRATION

LIST OF PROJECTS FOR PREPARATION OF EIS

In accordance with the CEQ Guidelines of August 1, 1973, this Office is sending you a list of projects requiring administrative actions for which environmental impact statements are being prepared for the third quarter.

1. Draft EIS on Transit-Mall Project by Tri-County Metropolitan Transportation District, Portland, Oregon.

2. Draft EIS on Embarcadero Spur Storage for Light Rail Vehicles, San Francisco, California.

3. Draft EIS on Extension to Shady Grove, Washington Metropolitan Area Transit Authority, Washington, D.C.

4. Supplemental EIS on Changes to MARTA East-West Line, Atlanta, Georgia.

Projects which were previously reported for second quarter but now held in abeyance until further notice are:

1. Draft EIS on Proposed Central Area Transit Project, Chicago, Illinois.

2. Draft EIS of Plainfield Corridor Extension PATH System Port Authority of New York & New Jersey.

3. Draft EIS on Second Avenue South Project, New York City Transit Authority.

4. Final EIS on Center City Commuter Rail Connection, Philadelphia, Pennsylvania.

DEPARTMENT OF TRANSPORTATION

COAST GUARD

DRAFT (D) AND FINAL (F) ENVIRONMENTAL IMPACT STATEMENTS (EIS) BEING PREPARED

DEIS—Proposed Coast Guard Station at Provincetown, Mass. (Revised DEIS).

DEIS—For the location, construction and operation of the U.S. Coast Guard New London Station, Research and Development Center, and support facilities in New London, Conn.

FEIS—New York Vessel Traffic System for the Port of New York, Hudson River and Long Island Sound.

DEIS—Proposed Loran C Station at Grangeville, LA.

DEIS—Proposed Loran C Station at Raymondville, TX.

DEIS—Proposed Loran C Station at Mariana, FL.

DEIS—Proposed Multi-purpose facility at Berwick, LA.

DEIS—Proposed General Rules for Vessel Traffic System, Berwick Bay, LA.

FEIS—Proposed Sewage Disposal System, USCG Base, Kodiak, AK.

FEIS—Proposed Vessel Traffic System, Prince William Sound, AK.

FEIS—Proposed Regulated Navigation Area, entrance to Chesapeake Bay.

FEIS—Proposed Regulations to implement Title II, Ports and Waterways Safety Act of 1972.

FEIS—Proposed Vessel Traffic System, New Orleans, LA.

FEIS—Proposed Vessel Traffic System, Houston/Galveston, TX.

FEIS—Proposed Station Creek Bridge, Beaufort County, SC.

FEIS—Proposed USCG Air Station, Arcata, McKinleyville, CA.

DEIS—Proposed Loran C Chain, U.S. West Coast, Gulf of Alaska.

DEIS—Point Reyes Housing Sewage Disposal Plant, CA.

DEIS—Proposed Search and Rescue Facility at Martines, CA.

DEIS—Proposed Replacement of the Dumbarton Bridge across San Francisco Bay, San Mateo and Alameda Counties, CA.

FEIS—Deepwater Port Regulations.

DEIS—Northbrook Housing, IL.

FEIS—Proposed Coast Guard Station (Destin Station), Santa Rosa Island, FL.

NEGATIVE DECLARATIONS PREPARED AND FILED IN COAST GUARD HEADQUARTERS DURING THE LAST QUARTER OF CALENDAR YEAR 1974

Acquisition of USCG Housing, 5 houses, Hilo, Hawaii.

Construction of four units of CG family housing in the Sunset subdivision of Grassey Key, FL.

Construction of six units of CG family housing in the Treasure Harbor subdivision of Plantation Key, Monroe County, FL.

Construct quarters for the Commander, Seventeenth CG District, Juneau, AK.

Acquire 7.3 acres of Army property at Sandy Hook, Monmouth County, NJ.

Construct two buildings (8300 SF total) at the Naval Electronic Systems Test and Evaluation Detachment (NESTED) property, St. Inogoes, Saint Mary's County, Maryland.

Microwave/UHF-FM Antenna Installations, Mt. Haleakala and Mauna Kapu, Hawaii.

Proposed Rules for Mooring Barges on Mississippi River between Miles 88 and 127 above Head of Passes.

Juneau Moorings Repair, Juneau, AK.

NEGATIVE DECLARATIONS FOR BRIDGE PERMIT ACTIONS

Project, waterway, location:	*Permit No.*
Upper Mississippi River, Burlington, Iowa	109-74
Intracoastal Waterway (Atlantic), Yaupon Beach, N.C	135-71
Kuapa Pond, Hawaii-Kai Drive, Honolulu, Hawaii	38-74
Williston Creek, Williston, N.C. (mile 0.7)	50-74
Tolmie State Park, Thurston County, Olympia, Wash	107-73
Imperial River, Bonita Springs, Fla	114-74
Anclote River, Tarpon Springs, Fla	108-74
Millport Slouth, Kernville, Oreg	111-74
Illinois Waterway, Ottawa, Ill	107-74
Illinois River, South Perkin, Ill	85-74
Bayou Bonfouca, Slidell, La	96-71b
Kingman Lake and Anacostia River, Washington, D.C	39-74
Mill Creek, Southold, N.Y	35-74
Big Sandy River (Levisa Fork), Banner, Ky	140-74
Hogan Creek, Aurora, Ind	119-74
Blackwater Creek, Virginia Beach, VA	122-74
Merrimack River, Nooksett, N.H	98-74
Elizabeth River (West Branch), Portsmouth, Va	83-74

GARY L. WIDMAN,
General Counsel,
Council on Environmental Quality.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 331-7]

BASF WYANDOTTE CORP.

Establishment of Temporary Tolerance

BASF Wyandotte Corp., 100 Cherry Hill Road, Post Office Box 181, Parsippany, NJ 07054, submitted a petition (PP 5G1543) requesting establishment of a temporary tolerance for negligible residues of the herbicide fluchloralin (*N*-(2-chloroethyl)-α,α,α-trifluoro-2,6-dinitro-*N*-propyl-p-toluidine) in or on the raw agricultural commodity soybeans at 0.05 part per million.

It has been determined that a temporary tolerance for negligible residues of the herbicide in or on soybeans at 0.05 part per million will protect the public health. It is therefore established as requested on condition that the herbicide be used in accordance with the temporary permit being issued concurrently and which provides for distribution under the BASF Wyandotte Corp. name.

This temporary tolerance expires February 4, 1976.

Residues remaining in or on the above raw agricultural commodity after expiration of this temporary tolerance will not be considered actionable if the pesticide is legally applied during the term, and in accordance with provisions of the temporary permit/temporary tolerance.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; (21 U.S.C. 346a(j))), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805).

Dated: February 4, 1975.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.75-3622 Filed 2-7-75;8:45 am]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street SW., Washington, D.C. 20460.

On or before April 11, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received on or before April 11, 1975, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after April 11, 1975.

Dated: February 3, 1975.

JOHN B. RITCH, JR.,
Director,
Registration Division.

LOUISIANA

Application for Emergency Exemption To Use DDT for Control of Tobacco Budworm on Cotton; Public Hearing

Pursuant to section 21 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973), notice is hereby given that the Environmental Protection Agency (EPA) will hold public hearings February 27-28, 1975, in Baton Rouge, Louisiana, and March 3, 1975, in Washington DC, regarding the State of Louisiana's application for an emergency exemption pursuant to section 18 of the FIFRA to allow the use of DDT for control of tobacco budworm on cotton this year. An announcement of the receipt of this application is published elsewhere in today's FEDERAL REGISTER.

Section 18 provides that the Administrator "may, at his discretion, exempt any Federal or State agency from any provision of this Act if he determines that emergency conditions exist which require such exemption."

EPA's regulations for implementation of section 18, which were issued December 3, 1973 (38 FR 33303), provide that an emergency will be deemed to exist when:

1. A pest outbreak has occurred or is about to occur and no pesticide registered for the particular use, or alternative method of control, is available to eradicate or control the pest;

2. Significant economic or health problems will occur without the use of the pesticide; and

3. The time available from discovery or prediction of the pest outbreak is insufficient for a pesticide to be registered for the particular use.

In determining whether emergency conditions exist for the purpose of section 18, extensive balancing of risks and benefits and a determination of "no unreasonable adverse effects on the environment" are not required, as they are in other sections of FIFRA, as amended. Nevertheless, consideration of the risks and benefits is desirable when, as in this case, a significant quantity of a cancelled pesticide is proposed for use.

EPA is holding these public hearings in order to provide all interested parties an opportunity to present information relevant to the foregoing questions as they relate to Louisiana's application.

The State of Louisiana has requested a decision on the application by April 1, 1975, to allow sufficient time for planning of cotton planting and pest control activities. EPA plans to meet this requested decision date. It therefore is necessary to hold the public hearings on less than 30 days' notice. It should be noted, however, that interested parties wishing to submit written comments will have until March 12, 1975, to do so, in accordance with the notice of receipt of Louisiana's request also published in today's FEDERAL REGISTER.

All individuals and organizations wishing to testify at the hearing in Baton Rouge should notify Dr. Norman Dyer, Pesticides Branch, EPA, 1600 Patterson Street, Dallas TX 75201. Dr. Dyer's telephone number is 214/749-1121. Notification concerning participation in the Washington, D.C. hearing should be given to the Federal Register Section (Attn.: Mrs. Radinsky), Technical Services Division, Office of Pesticide Programs, Rm. E-421, 401 M Street, SW, Washington, D.C. 20460. Mrs. Radinsky's telephone number is 202/755-8060.

EPA reserves the right to schedule testimony in such a manner as to ensure that sufficient time is allowed for orderly presentation of all substantive information and for appropriate questioning of persons presenting such information.

The hearing in Baton Rouge will be held in the Conservation Hearing Room, Natural Resource Building, 625 North 4th Street, beginning each day at 9 a.m.

The hearing in Washington, D.C., will be held in Room 305, Waterside Mall (EPA Headquarters), 4th and M Streets, SW, beginning at 9 a.m.

Dated: February 7, 1975.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

[FRL 333-4]

LAKE MICHIGAN COOLING WATER STUDIES PANEL

Meeting

Pursuant to Pub. L. 92-463, notice is given that a meeting of the Lake Michigan Cooling Water Studies Panel will be held at 9:30 a.m. on Tuesday, February 25, 1975, at the O'Hare Hilton Hotel, O'Hare International Airport, Chicago, Illinois.

The purpose of this meeting will be to discuss the final revision of the Panel's program report. There will also be some discussion of priorities and studies regarding lake wide effects.

The meeting will be open to the public. Any member of the public wishing to attend the meeting should contact the Chairman, Mr. Karl E. Bremer, U.S. Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604. The telephone number is 312-353-1458.

Minutes of the meeting will be available for public inspection two weeks after the meeting at the EPA Region V Office.

Dated: February 5, 1975.

FRANCIS T. MAYO,
Regional Administrator Region V.

[FRL 331-6; OPP-180034]

LOUISIANA

Application for Specific Exemption and Solicitation of Public Views

On January 24, 1975, the State of Louisiana applied to the Environmental Protection Agency (EPA) for a specific exemption to use a pesticide formulation containing DDT to control the tobacco budworm (*Heliothis virescens F.*) infesting approximately 450,000 acres of cotton. This specific exemption, if granted, will be valid for no longer than one (1) year from the date of approval by EPA.

This application is in accordance with the provisions of section 18 (40 CFR Part 166) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973). Part 166 was issued on December 3, 1973 (38 FR 33303), and prescribes the requirements for exemption of Federal and State agencies for the use of pesticides under emergency conditions.

In its application, the State of Louisiana maintains that an emergency exemption permitting the use of DDT is necessary because:

1. Average cotton yields have declined significantly in 1973-74 compared with the average cotton yield for the previous ten (10) years when DDT was available.

2. In 1974, Louisiana was subjected to the worst tobacco budworm outbreak in history.

3. Tobacco budworm populations exhibit resistance to most of the alternative registered pesticides and the remaining registered alternatives are ineffective, phytotoxic, or unavailable in sufficient quantities.

A total of 2.25 million pounds of DDT would be needed for treatment of approximately 450,000 acres. This would assume that outbreak populations of tobacco budworm will occur in 1975 as they did in 1974, and the entire acreage will require five (5) applications of the proposed Toxaphene-DDT-Methyl Parathion formulation.

This notice does not indicate a decision by the EPA on the application. It has been determined that this application raises questions of such importance that public notice and opportunity for public comment should be given. Accordingly, interested parties may submit written views on this subject to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, EPA, Room E-421, 401 M St. SW, Washington, D.C. 20460. Three copies of the comments should be submitted to facilitate the work of EPA and others interested in inspecting the documents. The comments must be received within 30 days from the date of publication of this notice in the FEDERAL REGISTER, and should bear the identifying notation OPP-180034. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

In addition, the application itself is on file in the Registration Division, Office of Pesticide Programs, EPA, in Room E-315 at the same address given above for the Federal Register Section. Another copy of the application is available in the Office of the Chief, Pesticides Branch, EPA Region VI; the address is 1600 Patterson St., Suite 1100, Dallas Texas 75201. Interested parties may review this application during regular business hours.

Dated: February 6, 1975.

RUSSELL E. TRAIN,
Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 75-116; Docket No. 20349]

WEST TEXAS M'CROWAVE CO.

Memorandum Opinion and Order; Re Tariff Revision

1. On October 2, 1974, West Texas Microwave Co. (West Texas) filed revisions to its Tariff FCC No. 2 to become effective December 1, 1974. These revisions provide for an increase of 19.8 percent in its published tariff rates for point-to-point microwave service to its customers on the West Texas system. Petitions to suspend and/or reject the tariff were filed by United Cable Television Corp. (United Cable), Cablecom-General, Inc. (Cablecom), Lubbock Cable TV (Lubbock), and Texas Community Antennas, Inc. (Texas Community). The contentions of these petitioners were substantially similar in that it was alleged that West Texas had failed to comply with the requirements of § 61.38 of our rules thereby impairing the ability of the aforementioned petitioners to ascertain the reasonableness of the proposed revised tariff schedules.

2. West Texas thereupon furnished additional information and economic data required by § 61.38 of the rules and requested permission to defer the effective date of the revised tariff to January 14, 1975.[1] On January 9, 1975 in response to an informal request of the staff of the Common Carrier Bureau (Bureau) for additional time to review Transmittal No. 53, West Texas filed a further application to defer the effective date from January 14, 1975 to January 31, 1975.[2]

3. On December 10, 1974, United Cable, Lubbock and Texas Community after having an opportunity to examine the additional § 61.38 information and data filed by West Texas, advised the Commission that they now acquiesced in the West Texas filing and requested that their complaints be dismissed without prejudice. Accordingly, we will dismiss these pleadings without prejudice as moot.

4. However, on December 10, 1974 Cablecom timely filed a petition for suspension of the proposed revisions to West Texas' Tariff and requested a full evidentiary hearing. Among other things, it contended that the proposed rates then scheduled to become effective on January 14, 1975 would be increased an average of 19.8 percent. It seeks the rejection of the tariff amendments proposed because of alleged deficiencies and ambiguities in the supporting information filed by West Texas in purported compliance with the requirements of § 61.38 of our rules. Cablecom contends that the proposal appears to be unjust, unreasonable and discriminatory, in violation of sections 201(b) and 202(a) of the Communications Act (47 U.S.C. 201(b) and 202(a)).

5. On December 18, 1974, West Texas timely filed a reply to Cablecom's petition for suspension of tariff and hearing. It contended, among other things, that rejection of its tariff would be inappropriate; that Cablecom's request for suspension and hearing is erroneously based on the grounds that West Texas' ratemaking methodology is founded on subscriber population rather than actual system costs whereas its figures generally have been based on actual costs for the extension of service to each customer. West Texas reiterated its explanation for the revised tariff. It alleges that at current rate levels, it projects net losses of $18,113, $2,343, and $32,643 during 1975 through 1977, respectively. With the proposed revisions, net income for those years is projected at $52,526, $54,441 and $48,015, respectively. As of July 1974 with a capital structure of $422,000 in equity and $2,096,000 in debt, West Texas further states that an average return to the equity holders of 12.2 percent over the next three years would result.

6. Cablecom's contentions may be summarized, in substantial part as follows:

West Texas has (a) failed to adequately explain the need for the rate increase; (b) inadequately described the effect of the projected increase in its traffic; (c) imposed developmental risks

[1] Application for Special Permission Number 7462 to defer the effective date filed November 14, 1974 and granted the same day. West Texas filed Transmittal No. 54 providing for an effective date of January 14, 1975.

[2] Application for Special Permission Number 7520 was granted on January 10, 1975.

XUM V40128 FEB 10 75 XUM

on its customers; and (d) submitted questionable accounting and rate of return analysis because of the paucity of underlying data.

Cablecom contends that the tariff revisions are unreasonable and discriminatory on their face and, therefore should be rejected or designated for hearing.

7. We disagree with Cablecom's contention that West Texas filing is so deficient that it should be rejected. However, we believe that the matters of rate base and rate of return raise questions that should be resolved on the basis of a further record. Accordingly, we are unable to conclude at this time that all features of the tariff revision are just and reasonable and free from undue discrimination within the meaning of Sections 201 and 202 of the Communications Act. We shall therefore designate the revised tariff for investigation and suspend the effectiveness thereof, and enter an accounting order providing for possible refund. However, because three customers have acquiesced in the filing, the carrier's earnings position and the protection afforded by the accounting order we are providing herein, we will suspend the effectiveness of the subject tariff revisions for forty-five (45) days only. On January 27, 1975 a meeting was held between the representatives of West Texas, Cablecom and the staff to explore whether the furnishing of additional information by West Texas might result in the elimination of the necessity for a hearing or shorten any hearing which might be required. It became apparent that West Texas would not postpone further the effective date of its proposed increases and that Cablecom wanted a full 90-day suspension of the effective date of such increase. We believe the possibility of achieving a settlement will be enhanced by the 45-day suspension of the effective date of the proposed increased charges. This will allow time for the submission of additional information requested of West Texas. Accordingly, we will specify that the initial filing under the procedure prescribed in paragraph 15a will be on or before 65 days of the release of this order.

8. In the present case, due to the nature of the increases and the potential for harm to the petitioner, Cablecom is required to pay the rate increases to West Texas during the pendency of a prolonged trial-type hearing before the Commission, we shall order that "paper" proceedings be utilized to expedite the resolution of this controversy. Such proceedings provide for the submission of interrogatories and requests for information, which process merges cross-examination and the informal gathering of information traditionally undertaken during the prehearing and hearing states of rulemaking proceedings. We shall provide that upon close of the record the Administrative Law Judge assigned to this proceeding shall issue an initial decision. We believe the employment of the procedures noted above will best conduce to the proper dispatch of business and the ends of justice and promote the objectives of the Act for expeditious resolutions of the issues herein. 47 U.S.C. 154(j) and 204. Should it develop that the procedures which we are establishing prove inadequate or result in unfairness to any person, orders in modification thereof shall be issued.

9. Accordingly, *it is ordered*, That pursuant to the provisions of sections 201, 202, 203, 204, 205 and 403 of the Communications Act of 1934, as amended, an investigation, hereby, is instituted into the lawfulness of the tariff schedule filed by West Texas Microwave Co. submitted with Transmittal No. 53 and into any subsequent revisions thereto or reissue thereof.

10. *It is further ordered*, That, pursuant to the provisions of section 204, the tariff schedule filed by The West Texas Microwave Co. submitted with Transmittal No. 53 is hereby suspended until March 17, 1975, and that West Texas, as to the operation of such tariff schedule, shall, in the case of all increased charges and until further order of the Commission, keep accurate account of all amounts received by reason of such increase, specifying by whom and in whose behalf such amounts were paid, and upon completion of the hearing and decision herein, the Commission may, by further order require the refund thereof, with interest, pursuant to section 204 of the Act, and West Texas shall file such reports on the amounts accounted for as aforesaid as the Chief, Common Carrier Bureau, shall require;

11. *It is further ordered*, That without in any way limiting the scope of the investigation, it shall include consideration of the following:

(1) Whether the charges, classifications, practices, and regulations published in the subject tariff are or will be just and reasonable within the meaning of section 201(b) of the Act;

(2) Whether any such charges, practices, classifications, regulations, facilities, or services for or in connection with like communication sservice directly or indirectly will be free of any unjust or unreasonable discrimination and will not result in any undue or unreasonable preference or advantage to any person or class of persons or locality and will not subject any particular person, class of persons or locality to any undue or unreasonable prejudice or disadvantage.

(3) If any of such charges, classifications, practices, or regulations are found to be unlawful, whether the Commission, pursuant to section 205 of the Act, should prescribe charges, classifications, practices and regulations for the service governed by the tariff, and if so, what should be prescribed;

12. *It is further ordered*, That the burden of proof on issues 1 and 2 above shall be upon West Texas.

13. *It is further ordered*, That pursuant to § 1.1209(d) of the Commission's rules, a sepaarted trial staff will participate in this proceeding. As provided therein, the Chief, Hearing and Legal Division and his staff will be separated from the Commission, the presiding Administrative Law Judge, the Office of the General Counsel, and the Chief, Deputy Chief and all Division Chiefs of the Common Carrier Bureau, but are unrestricted in their access to all other Commission personnel.

14. *It is further ordered*, That the following procedures will apply in this proceeding:

a. The record for decision will consist of all matters submitted for the record by respondent, interested persons and the Common Carrier Bureau trial staff. Interrogatories and information requests and responses thereto shall be part of the record. Such submittals together with supporting documentation and workpapers will be available for public inspection as they are received.

b. All matters submitted for the record, including answers to interrogatories and responses to information requests, must be identified as to sponsoring party, numbered consecutively and identified with the name of a person by whom or under whose supervision the submittal was prepared.

c. The source of all data must be clearly and specifically noted. Supporting documents which are not readily available and working papers must be presented with the submittals to which they apply. Statistical studies will be submitted and supported in the form prescribed in § 1.363 of the Commission's rules.

d. Original and five copies of all matters submitted for the record as well as of supporting documentations and workpapers must be filed with the Commission. Part I of our rules governs as to the number of copies and other submissions, such as briefs, pleadings and proposed findings. Matters submitted for the record shall be served on all parties and the Administrative Law Judge (ALJ).

e. Interrogatories and requests for information must be filed with the Commission and served on the ALJ and the parties to this proceeding. Objections to interrogatories and information requests should be resolved, if possible, by immediate informal conferences between the persons involved and the Trial Staff. If such persons are unable to resolve their differences, the ALJ shall be notified, and on notification shall provide for an immediate oral conference of the persons involved. After oral presentations by such persons and the Trial Staff, the ALJ shall forthwith issue a ruling. Appeals from such rulings shall be governed by 47 CFR § 1.301 except that the ALJ shall set an expedited procedure.

f. Requests for oral proceedings may be filed with, and acted upon, by the ALJ and must be specific as to the issues requiring further evidence, the persons to be cross-examined and the reason why such oral proceedings are required to avoid prejudice. Oral proceedings, if any, will be held before the ALJ who shall issue an initail decision.

15. *It is further ordered*, That the following schedule will be adhered to:

a. Within 65 days of the release of this order West Texas may supplement the materials submitted pursuant to § 61.38 of our rules. Any such supplementation, together with the material originally filed will form the evidence upon which it intends to rely. At the same time West Texas should place materials already filed into proper form as described in paragraph 14 at "b" above.

b. Cablecom and any other party may file with the Commission written interrogatories for West Texas witnesses and requests for information within 15 days following the filing of any supplement to West Texas' direct case. Answers to such interrogatories and requests for information shall be filed within 20 days of the filing thereof.

c. If necessary, further interrogatories and requests for information may be filed within 10 days of filing of answers to the first interrogatories and requests for information. Answers to such second interrogatories and requests for information should be filed within 10 days of the filing thereof.

d. Cablecom and any other party may file material in response to West Texas within ten days following the filing of answers to interrogatories and requests for information which they have submitted in accordance with subparagraph (c) above, except that this period will not be tolled pending resolution of conflicts with regard to answers which are not forthcoming but contested.

e. Any party may serve interrogatories and requests for information on other parties filing material in response to West Texas within 15 days of the filing of such responses. Answers to such interrogatories and requests for information shall be filed within 20 days of the filing thereof.

f. Proposed Findings of Fact and Conclusions of Law may be filed by any participant within 30 days of the filing of the last filed responses to interrogatories and requests for information.

g. Replies to the Proposed Findings of Fact and Conclusions of Law may be filed by any participant within 15 days of the filing of such findings and conclusions.

16. *It is further ordered*, That the petitions to reject or suspend filed by United Cable, Lubbock, and Texas Community are hereby dismissed.

17. *It is further ordered*, That, Cablecom General's Petition to reject is hereby the ALJ in arriving at his decision. set for hearing is hereby granted to the extent indicated herein and otherwise denied.

18. *It is further ordered*, That West Texas is hereby made party respondent herein, and that pursuant to § L.221(d) of the Commission rules Cablecom is made a party to the proceeding.

19. *It is further ordered*, That, upon closing of the record, the ALJ shall issue an initial decision.

20. Objections to the admissability of evidence may be made in Proposed Findings of Fact and Conclusions of Law and Replies thereto and shall be considered by the ALJ in ariving at his decision. Procedural requests should be addressed to the ALJ who shall rule thereon unless a significant modification of the procedures here established is required in which case the request should be certified to the Commission.

Adopted: January 29, 1974.

Released: February 4, 1975.

FEDERAL COMMUNICATIONS COMMISSION,[3]

[SEAL] VINCENT J. MULLINS, *Secretary.*

[FR Doc.75-3648 Filed 2-7-75;8:45 am]

[3] Commissioner Reid dissenting.

FEDERAL ENERGY ADMINISTRATION

ELECTRIC UTILITIES ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Electric Utilities Advisory Committee will meet Thursday, February 27, 1975, at 10 a.m., Conference Room B, Departmental Auditorium, Constitution Avenue between 12th and 14th Street NW., Washington, D.C.

The Committee was established to advise the Administrator, FEA, with respect to general electric utilities' aspects of interests and problems related to the policy and implementation of programs to meet the current and continuing national energy shortage.

The agenda for the meeting is as follows:

10 a.m.—Introductory remarks.
10:15 a.m.—Impact of President Ford's Energy Program on Electric Utilities.
11:45 a.m.—FEA "Power Plant Reliability Task Force Report".
12:30 p.m.—Lunch.
1:30 p.m.—FEA Program to Save One MMB/D of Oil by 1980.
2:30 p.m.—FEA Electricity Conservation Programs.
3:15 p.m.—Description of the Joint EEI/EPRI/NARUC Rate and Load Management Study.
3:45 p.m.—Summary of Comments Received on "The Industrial Response to Investigation of Electric Rates".
4 p.m.—Closing remarks.

The meeting is open to the public; however, space and facilities are limited.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Advisory Committee Management Officer, 202-961-7022 at least 5 days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C. on February 6, 1975.

ROBERT E. MONTGOMERY, JR., *General Counsel.*

[FR Doc.75-3822 Filed 2-7-75;9:14 am]

WHOLESALE PETROLEUM ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Wholesale Petroleum Advisory Committee will hold an emergency meeting on Monday, February 24, 1975, second floor, FEA Regional Headquarters—Dallas, 2626 Mockingbird Land, Dallas, Texas.

The Committee was established to provide the Administrator, FEA, with expert and technical advice concerning the wholesale trade of selling heating oil, residual fuel, and gasoline.

The purpose of the meeting is to review the President's energy and economic programs proposed in the State of the Union message of January 15, 1975.

The meeting is open to the public; however space and facilities are limited.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Advisory Committee Management Officer, 202-961-7022 at least 5 days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C. on February 6, 1975.

ROBERT E. MONTGOMERY, JR., *General Counsel.*

XUM V40-28 FEB 10 75 XUM

FEDERAL POWER COMMISSION

[Docket No. RP75-44-2]

ALABAMA-TENNESSEE NATURAL GAS CO.

Order Granting Relief; Consolidating for Hearing Request for Additional Relief, and Modifying Order

FEBRUARY 3, 1975.

By order issued January 17, 1975, we granted *pendente lite* a request by Tennessee Valley Authority (TVA) for extraordinary relief from curtailment imposed by its supplier, Alabama-Tennessee Natural Gas Co. (A-T), and set for hearing TVA's request for permanent relief. On January 23, 1975, TVA filed for additional relief in the amount of 1,300 Mcf per day above the 5,000 Mcf per day previously granted to permit it to fully operate its fertilizer plant at Muscle Shoals, Alabama.

In support of its request, TVA states that the prior relief requested and granted only permits it to operate its plant at 76 percent capacity and that the additional volumes requested will permit it to operate at almost 100 percent capacity, which will result in increased production of an additional 54 tons of ammonia per day. The additional volume requested by TVA represents a portion of the interruptible gas usage under its contract with A-T. TVA states that it did not request the additional interruptible volumes because it erroneously understood that we would only consider relief for firm gas volumes.

On January 24, 1975, A-T filed its answer to TVA's additional request for relief reiterating its contention that any relief granted to TVA should contain a concommitant grant of relief to it from its supplier's curtailment. However, A-T has not filed for such relief and, as stated in our January 17th order in this proceeding, it would be inappropriate to condition any relief granted to TVA as suggested by A-T.

The grant of TVA's request *pendente lite* is justified for the same reasons that we granted interim relief initially in this proceeding as set forth more specifically in our order of January 17, 1975. The additional relief requested by TVA as granted herein *pendente lite* will not jeopardize service to the residential and commercial consumers on A-T's system.

The Commission finds: (1) Good cause exists to grant additional relief to TVA as requested by it in its filing of January 23, 1975, as hereinafter ordered and conditioned.

(2) The requests for relief filed by TVA on December 23, 1974, and on January 23, 1975, contain common questions of law and fact and therefore, good cause exists to consolidate for purposes of hearing and decision the requests for extraordinary relief filed in this proceeding by TVA on December 23, 1974, and on January 23, 1975, and to modify our order of January 17, 1975, as hereinafter ordered.

The Commission orders: (A) The additional relief requested by TVA in its petition filed January 23, 1975, is granted pendente lite upon the conditions set forth in our order issued January 17, 1975, in this proceeding.

(B) TVA's request for additional relief filed January 23, 1975, in this proceeding, is hereby consolidated for purposes of hearing and decision with its request for relief filed December 23, 1974.

(C) The procedural dates heretofore established in our order of January 17, 1975, is hereby modified to permit TVA and all other parties to file their testimony on TVA's request for additional relief on or before February 6, 1975, and to convene the hearing commencing February 11, 1975. In all other respects, our order of January 17, 1975, remains in full force and effect.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3602 Filed 2-7-75;8:45 am]

[Dockets Nos. RP73-98; RP73-74]

ALGONQUIN GAS TRANSMISSION CO.

Request for Approval

JANUARY 31, 1975.

Take notice that on December 9, 1974, Algonquin Gas Transmission Co. (Algonquin) tendered for filing a Request for Approval to Make an Entry in Account 439—Adjustment to Retained Earnings.

Algonquin's December 9, 1974, filing states that on March 14, 1974, the Commission issued an order in Docket No. RP73-98 approving a settlement agreement and providing for refunds of $750,273.79 applicable to the period year 1973. Algonquin further states that on September 24, 1974, the Commission issued an order in Docket No. RP73-74 approving Algonquin's rate increase in part and providing for refunds of $214,946.59 applicable to the year 1973. Finally, Algonquin states that as required by Account 439, its December 9, 1974, filing requests Commission approval of an entry by which Account 439 will be charged with the above enumerated refunds less the related income taxes applicable to 1973 revenues and operations.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 21, 1975.

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3603 Filed 2-7-75;8:45 am]

[Docket No. E-8884]

CAROLINA POWER AND LIGHT CO.

Extension of Procedural Dates

JANUARY 31, 1975.

On January 28, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued August 26, 1974, as most recently modified by notice issued December 23, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the Phase I procedural dates in the above matter are modified as follows:

Service of Staff's testimony	Feb. 21, 1975.
Service of intervenor's testimony	Mar. 7, 1975.
Service of company rebuttal	Mar. 21, 1975.
Hearing	Apr. 1, 1975 (10 a.m. e.d.t.).

The Phase II procedural dates are modified as follows:

Service of intervenor's testimony (unchanged)	Mar. 13, 1975.
Service of staff's testimony (unchanged)	Apr. 1, 1975.
Service of company's evidence	Apr. 17, 1975.
Service of intervenor's rebuttal	May 1, 1975.
Hearing (unchanged)	May 15, 1975 (10 a.m. e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3604 Filed 2-7-75;8:45 am]

[Rate Schedule Nos. 28, et al.]

CHAMPLIN PETROLEUM CO., et al.

Rate Change Filings

JANUARY 30, 1975.

Take notice that the producers listed in the Appendix attached hereto have filed proposed increased rates to the applicable area new gas or national ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 699-H, issued December 4, 1974.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filing should on or before February 12, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-39]

EL PASO NATURAL GAS CO.

Order Granting Late Interventions

FEBRUARY 3, 1975.

By petition received January 15, 1975, The People of the State of California (People) and the Public Utilities Commission of California (PUCC) requested intervention in the El Paso Natural Gas Co. (El Paso) rate filing in this docket. Notice of the filing in this docket was issued on December 31, 1974, with protests and petitions due on or before January 6, 1975.

The People and PUCC state that the reason for this out-of-time filing stems from the slow course of the mail to the West Coast. They further state that their untimely intervention in no way prejudices or delays the RP75-39 rate proceeding.

The Commission finds: Participation by People and PUCC in this proceeding may be in the public interest and good cause exists for permitting such intervention.

The Commission orders: (A) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however*, that the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene, and *Provided, further*, that the admission of such intervenors shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(B) The late interventions granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3605 Filed 2-7-75;8:45 am]

[Docket No. E-9233]

INDIANA AND MICHIGAN ELECTRIC CO.

Tariff Change

FEBRUARY 5, 1975.

Take notice that Indiana and Michigan Electric Co. (I&M), on January 29, 1975, tendered for filing proposed changes in its FPC Rate Schedule No. 27 applicable to service rendered by I&M to the City of Anderson, Indiana (Anderson). According to I&M, the proposed changes would increase revenues from Anderson by $633,621 if the proposed increases had been in effect for the twelve-month period ending December 1974.

I&M states that the proposed changes implement the contractual obligations as set forth in the Service Agreement between I&M and Anderson and have been authorized by the decision of the United States Court of Appeals for the District of Columbia Circuit in *Richmond Power & Light* v. *FPC*, 481 F. 2d 490 (1973). I&M states further that copies of the filing were served upon Anderson and upon its counsel, as well as upon the Public Service Commission of Indiana.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3639 Filed 2-7-75;8:45 am]

[Docket No. E-9234]

KENTUCKY UTILITIES CO.

Proposed Change in Rate

JANUARY 31, 1975.

Take notice that Kentucky Utilities Co. (KU Co.) on January 29, 1975 tendered for filing Amendment No. 2 dated October 10, 1974, to the Kentucky-Indiana Pool Planning and Operating Agreement between Kentucky Utilities Co., East Kentucky Power Cooperative, Inc., Indianapolis Power & Light Co. and Public Service Company of Indiana, Inc., dated July 9, 1971. An effective date of March 1, 1975 is requested.

The primary purposes of the proposed Amendment No. 2 is to amend certain definitions in section 2 of Service Schedule B—Unit Power and provide for a new Service Schedule C—Back-Up Power and amend Service Schedule F—Short Term Power. The demand charge in Service Schedule C and F would be changed from $0.35 to 0.45 per KW per week. Other minor changes in wording and provisions are contained in the proposed Service Schedule C and F.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions and protests should be filed on or before February 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3606 Filed 2-7-75;8:45 am]

[Docket No. E-8547]

MISSOURI EDISON CO.

Order Approving Settlement Agreement

FEBRUARY 3, 1975.

At issue in this proceeding is a proposed settlement agreement between the Missouri Edison Co. (ME) and the Staff of the Federal Power Commission. This

XUM V40128 FEB 10 75 XUM

agreement was filed on November 19, 1974, by ME and notice was issued on November 26, 1974, with provision for comments to be filed on or before December 11, 1974. The only comments filed in this docket were by the Staff supporting the settlement agreement.

The proposed settlement agreement relates to ME's filing of December 12, 1973, as completed on January 18, 1974, revising their FPC Electric Tariff sheets pertaining to the City of Clarksville, Missouri. The revised sheets were filed by ME for the purpose of effecting a general revenue increase of approximately $3,337 annually. On February 15, 1974, the Commission entered an order accepting the filing and suspending said proposed increase until February 19, 1974, at which time the proposed increased rates became effective, subject to refund. Following discussions among the parties, the settlement was filed on November 19, 1974.

The proposed settlement agreement includes a summary cost of service study flowing through the settlement rates approved by the Commission in Docket Nos. E–7571, E–7572, and E–8215. This cost of service study indicates that ME's proposed increase of $3,337 based on the test period ending September 30, 1973, is justified. The proposed agreement also includes a revised fuel adjustment clause which complies with the Commission's regulations.

The following results summarize the significant results of the settlement cost of service.[1]

Test period:	*Clarksville*
Year ending Sept. 30, 1973:	
Revenue at proposed rates	$68,856
Revenue under prior rates	$65,519
Proposed increase	$3,337
Increase (percent)	5.09
Rate of return at proposed rates (percent)	5.72

Our review of the proposed settlement agreement, as well as the entire record in this proceeding indicates that the proposed settlement represents a reasonable resolution of the issues raised by the filing, is in the public interest, and should therefore be approved and made effective as hereinafter ordered and conditioned.

The Commission finds: Approval of the settlement agreement filed by ME on November 19, 1974, in this proceeding is reasonable and appropriate in the public interest in carrying out the provisions of the Federal Power Act.

The Commission orders: (A) The settlement agreement filed on November 19, 1974, by ME is incorporated herein by reference, approved and made effective as provided by the provision of the settlement agreement.

(B) Within 30 days of the date of issuance of this order, ME shall file revised tariff sheets consistent with the provisions of this order and the approved settlement agreement.

(C) This order is without prejudice to any findings or orders which have been made or which will hereafter be made by the Commission, and is without prejudice to any claims or contentions which may be made by the Commission, its staff, or any party or person affected by this order, in any proceeding now pending or hereafter instituted by or against ME or any person or party.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-3607 Filed 2-7-75;8:45 am]

[1] Data are taken from Attachment A of ME's settlement agreement attachments. See also Appendix A to this order, filed as part of the original document, for the settlement capitalization.

[Docket No. RP74-100; PGA75-7]

NATIONAL FUEL GAS SUPPLY CORP.

Filing of Tariff Sheets

JANUARY 31, 1975.

Take notice that on January 27, 1975, National Fuel Gas Supply Corp. (National Fuel) tendered for filing Alternate First Interim Revised Sheet No. 4; Schedule A—Statement to Adjust Base Cost of Gas Pursuant to Commission Order Issued January 10, 1975 at Docket No. RP74–100, PGA75–3; and Revised Sheets 1 and 2 of section 17 Test for Change in Sales Rates. National Fuel states that such were submitted in response to a Commission order issued January 10, 1975, in Docket No. RP74–100, PGA75–3. In addition, National Fuel tendered for filing Alternate Second Interim Revised Sheet No. 4; Revised Sheets 1 and 2 of section 17 Test for Change in Sales Rates; Alternate First Revised Sheet No. 4; and Alternate Original Sheet No. 35. National Fuel states that these latter submissions were filed as a result of reducing the effective purchased gas adjustment (PGA) from 5.90¢ to 5.79¢ pursuant to Commission order.

National Fuel states that all of the above changes reflect the elimination of all costs associated with manufactured gas from the average base cost of gas and PGA adjustment. All sheets are proposed to become effective as of February 1, 1975, and National Fuel requests waiver of any of the Commission's rules and regulations as may be required to permit such an effective date.

National Fuel states that copies of its filing have been mailed to all purchasers and interested state commissioners.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 10, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-3608 Filed 2-7-75;8:45 am]

[Docket No. E-8954]

NEW ENGLAND POWER CO.

Order Accepting Unit Sales Agreements for Filing

FEBRUARY 3, 1975.

On August 2, 1974, New England Power Company (NEPCO) tendered [1] for filing initial unit sales agreements which provide for the purchase by Vermont Electric Power Co. of 40,000 KW of power and by New Bedford Gas & Edison of 50,000 KW of power from NEPCO's Bear Swamp Project.[2] This filing was completed in accordance with the Commission's Regulations on September 6, 1974,[3] pursuant to a letter from the Secretary enumerating various deficiencies.

The contracts provide that they shall become effective on the date of commercial operation of the first of the two units at NEPCO's Bear Swamp Project and that they shall terminate on October 31, 1977. By letter dated October 18, 1974, this Commission was advised that the first unit was declared to be in commercial operation at 11:59 P.M. on September 30, 1974.

Notice of NEPCO's filing was issued on August 15, 1974, with protests or petitions to intervene due on or before August 23, 1974. No protests or petitions were received.

Our review of NEPCO's filing and the issues raised therein indicates that the proposed charges have not been shown to be just and reasonable and may be unjust, unreasonable, excessive, unduly discriminatory, preferential or otherwise unlawful. Accordingly, we shall establish hearing procedures under section 206 of the Federal Power Act to determine the justness and reasonableness of NEPCO's filing.

With respect to the transmission calculations contained in the agreement, NEPCO states that the NEPOOL Executive Committee has recently approved the NEPOOL Rules for determination of PTF (pool transmission facilities) costs. NEPCO advises that it is in the process of calculating its PTF costs based on these rules and will refile its transmission costs to be used in the Bear Swamp Project contracts as soon as this study is finalized. The PTF costs are currently under investigtaion in Docket No. E–7690 (PTF Cost Rules). Since the transmission charge in the instant submittal is in part based on NEPOOL Rules for determination of PTF costs, any changes in the method of determining the PTF costs resulting from the proceedings in Docket No. E–7690 should be made applicable to the subject rate schedules.

The Commission finds. It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the charges contained in NEPCO's initial unit sales agreements in this docket.

The Commission orders. (A) NEPCO's initial unit sales agreements, filed on August 2, 1974, in this docket are hereby accepted for filing to be effective September 30, 1974, subject to the terms and conditions of this order.

(B) Pursuant to authority of the Federal Power Act, particularly section 206 thereof, and the Commission's rules and regulations (18 CFR, Chapter I), a hearing for purposes of cross-examination concerning the lawfulness and reasonableness of the charges in NEPCO's initial unit sales agreements filed on August 2, 1974, shall be held commencing on June 24, 1975, at 10 a.m., e.d.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426.

(C) On or before April 29, 1975, NEPCO shall serve its prepared testimony and exhibits. The Commission Staff shall serve its prepared testimony and exhibits on or before May 13, 1975. Any intervenor evidence will be filed on or before May 27, 1975. Any rebuttal evidence by NEPCO shall be served on or before June 10, 1975.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(E) Any changes in the method of determining the PTF costs resulting from the proceedings in Docket No. E–7690 shall be made applicable to the subject rate schedules.

(F) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conference or offers of settlement pursuant to § 1.18 of the Commission's rules of practice and procedure.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

NORTHERN STATES POWER CO.

Filing of Short Term Power Agreement

JANUARY 31, 1975.

Take notice that Northern States Power Co. (Northern States), on January 24, 1975, tendered for filing, a Short Term Power Agreement dated January 17, 1975, with the City of Lake Crystal.

The Agreement provides for either party to purchase Short Term Power from the other for periods of seven days or longer as agreed in advance. The rates for these transactions are contained in § 1.06. Northern States requests an effective date of March 3, 1975.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.18, 1.10). All such petitions and protests should be filed on or before February 14, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. E-9213]

NORTHERN STATES POWER CO.

Filing of Short Term Power Agreements

FEBRUARY 5, 1975.

Take notice that on January 13, 1975, Northern States Power Company (Northern States) tendered for filing Short Term Power Agreements with the following wholesale customers:

City of Delano: dated December 26, 1974.
City of Glencoe: dated December 16, 1974.
City of Janesville: dated January 2, 1975.
City of LeSueur: dated November 25, 1974.
City of Madelia: dated January 2, 1975.

Each agreement provides either party to purchase short term power from the other for periods of seven days or longer as agreed in advance at rates contained in § 1.06.

Northern States requests an effective date of February 15, 1975.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions and protests should be filed on or before February 13, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-3640 Filed 2-7-75;8:45 am]

[Docket Nos. RP71-119; RP74-31-25]

PANHANDLE EASTERN PIPE LINE CO. AND OKIE PIPE LINE CO.

Order Granting Conditional Temporary Extraordinary Relief, Setting Matters for Hearing, Granting Interventions and Prescribing Procedures

FEBRUARY 3, 1975.

On January 8, 1975, Okie Pipe Line Co. (Okie), filed a petition pursuant to § 1.7 of the Commission's rules for emergency relief from the natural gas curtailments imposed by Panhandle Eastern Pipe Line Co. (Panhandle), upon Okie under the presently effective 467–B interim curtailment plan filed by Panhandle with the Commission on November 6, 1973.

Okie asserted in its petition that it had been advised by Panhandle that it would be completely curtailed during the month of December 1974, and that it was subsequently afforded emergency relief by Panhandle for a period of 60 days commencing December 1, 1974, on the condition that it repay all the emergency volumes provided. Okie contends that the prospects of its acquiring any natural gas during February and the remaining months of the winter are not bright and evidently feels that it will encounter operational problems due to its inability to obtain gas. It thus feels that it will not have the gas supply needed to repay the emergency relief volumes taken from Panhandle. It urges that the permanent emergency relief that it requests is warranted.

Okie operates a gas liquids pipeline that has a pumping station located at Liberal, Kansas. The station has a standby natural gas powered engine used to pump liquids in the event of failure of primary electric pumps. Okie also owns homes at Liberal Station used by company employees, each of which relies upon natural gas from Panhandle for heating and cooking.

Okie indicated that its annual requirements and monthly natural gas usages were as follows:

	Heating residences and offices	Operating industrial engines
December 1974	700	2,300
January 1975	[1] 1,000	2,500
February 1975	800	1,800
March 1975	800	2,500
April 1975	600	1,100
May 1975	500	1,000
June 1975	300	1,100
July 1975	300	1,000
August 1975	300	900
September 1975	450	1,650
October	450	2,050
November 1975	450	1,850
December 1975	700	2,200

[1] Okie indicates its January requirements are 100 Mcf for this usage. From the other figures presented it seems that it had intended to reflect a usage of 1,000 Mcf for that month.

XUM V40 N28 FEB 10 1975 XUM

The space heating needs depicted by Okie on an average daily basis are well under 50 Mcf per day and therefore qualify for incorporation into Category No. 1 on the basis of the information contained in Okie's petition. Okie should be afforded the relief it seeks to meet these requirements on a temporary basis, pendente lite, to the extent that these requirements are being fully or partially curtailed by Panhandle.

Okie should not be afforded the relief it seeks, pendente lite, for an exemption from curtailment to meet the full requirements of its standby natural gas powered engine that is used in the event of failure of primary electric pumps. The volumes requested for this purpose should be made available to Okie by Panhandle prior to a final determination of this proceeding only in the event that Okie loses the operation of its electric pumps due to a power interruption and this relief should be afforded only during the period of such power interruption. Okie should immediately advise Panhandle of such an occurrence by the most expeditious means available to it. After the termination of such an occurrence Okie shall file a report with Panhandle indicating the exact duration of such a power interruption.

The petition filed by Okie for permanent relief from Panhandle's curtailment plan raised legal and factual issues that require development in an evidentiary proceeding, including the extent to which Okie may be required to pay back any relief volumes taken by it. We will, therefore, set its petition for extraordinary relief for formal hearing.

The petitioners seeking intervention have already been permitted to intervene in the proceeding relating to a permanent curtailment plan for Panhandle in Docket No. RP71-119. Since many of the parties in the latter docket may also wish to participate herein, they shall also be deemed parties in Docket No. RP74-31-25 with all of the attendant rights attached thereto. However, in order to maintain orderly procedures any intervener desiring to record objections and protests to the requested relief must file a formal protest to the notice of the petition stating with particularity the nature of its objections.

The Commission orders. (A) The petition for extraordinary relief filed by Okie Pipe Line Co., is granted to the extent indicated above, on a temporary basis, pending notice and hearing.

(B) The grant of temporary relief in ordering paragraph (A) is conditioned as follows:

(1) That Okie Pipe Line Co. shall be required to repay any volumes of gas taken under this grant as may be determined appropriate in any final determination rendered by the Commission in this proceeding.

(2) Okie Pipe Line Company's usage of the gas granted hereunder for space heating shall be considered as Category 1 and shall be subject to curtailment along with other Category 1 requirements. All other usage shall be considered as being in Category 2.

(3) This grant shall be effective until a final curtailment plan is established for Panhandle Eastern Pipeline Co. in Docket No. RP71-119.

(4) This grant shall be effective as long as the volumes provided for herein are delivered to Okie Pipe Line Co.

(C) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, particularly sections 4, 5, 15, and 16 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing shall be held commencing on March 24, 1975, at 10 a.m. (e.s.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning the application for interim and permanent extraordinary relief filed in this proceeding by Okie Pipe Line Co.

(D) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose [see Delegation of Authority, 18 CFR § 3.4 (d)] shall preside at the hearings in this consolidated proceeding and shall prescribe relevant procedural matters not herein provided.

(E) All parties including interveners and staff will file and serve on all other parties their direct evidence and testimony on or before February 25, 1975.

(F) Cross-examination shall commence on March 24, 1975.

(G) Petitioners seeking permission to intervene in the proceeding entitled Panhandle Eastern Pipeline Co. (Okie Pipe Line Co.) in Docket No. RP74-31-25 along with all other parties previously granted intervention in the proceeding entitled Panhandle Eastern Pipeline Co. in Docket No. RP71-119 are permitted to intervene in and participate in the above-styled proceeding relating to the petition for extraordinary relief filed by Okie Pipe Line Co. in Docket No. RP74-31-25 subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such interveners shall be limited to matters affecting rights and interests specifically set forth in their petitions, to intervene: *Provided, further,* That the admission of such interveners shall not be construed as recogniton by the Commission that subject intervener might be aggrieved because of any order or orders issued by the Commission in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. E-9230]

SOUTHERN CALIFORNIA EDISON CO.

Filing of Application and Request for Waiver

JANUARY 31, 1975.

Take notice that on January 27, 1975, Southern California Edison Co. (Edison) tendered for filing a September 30, 1969, Interim Arrangement for Interconnected Operations (Navajo Interconnection Principles), and a September 13, 1974, Amendment No. 1 to the Navajo Interconnection Principles between the United States of America, Arizona Public Service Co., Department of Water and Power of the City of Los Angeles, Nevada Power Co., Salt River Project Agricultural Improvement and Power District, Tucson Gas & Electric Co., and Edison.

Edison states that the terms of the Navajo Interconnection Principles provide for the sale and purchase of emergency energy between the parties on a cash settlement basis. Edison further states that Amendment No. 1 establishes energy return at the option of the supplier as an alternate method of payment to settlement in cash for emergency service.

A waiver of the notice provisions of the Commission's regulations and an effective filing date of June 1, 1973, are requested.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 14, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commision will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc. 75-3612 Filed 2-7-75;8:45 am]

[Docket Nos. RP72-74, RP74-6, RP73-6]

SOUTHERN NATURAL GAS CO. AND MISSISSIPPI RIVER TRANSMISSION CORP.

Order Reopening Proceedings and Requiring Environmental Impact Statements

FEBRUARY 3, 1975.

In two separate proceedings captioned above, the Presiding Administrative Law Judges have certified the following question to the Commission for disposition: [1]

Should the proceedings in Docket * * * involving a determination of the justness and reasonableness of a permanent curtailment plan filed by * * * be reopened for the limited purpose of permitting the Staff of the Commission to prepare, circulate and file an environmental impact statement in accordance with section 102(2)(c) of NEPA?

In both proceedings the applicants, Mississippi River Transmission Corp. (MRT) and Southern Natural Gas Co. (Southern), have filed permanent curtailment plans; and exhaustive hearings on the lawfulness of these plans have been conducted. The cases have been fully submitted to the Presiding Administrative Law Judges for decision. However, both Administrative Law Judges have determined that the respective records now before them are inadequate and do not contain all of the information which is necessary for the preparation of environmental impact statements.

We have concluded that the Commission Staff must prepare and circulate environmental impact statements evaluating these two proposed curtailment plans, and that the above captioned proceedings must be reopened for this limited purpose. This conclusion is compelled by the recent decision of the Court of Appeals for the Fifth Circuit in *State of Louisiana* v. *F.P.C.*, No. 73-3478, decided November 8, 1974; in hicl. environmental impact statements were held to be a necessary ingredient in our consideration of permanent curtailment plans. We recognize that our action here will further delay the issuance of Initial Decisions and the permanent resolution of various curtailment procedure questions related to MRT's and Southern's operation of their transmission systems; yet we must attempt in good faith to comply with the requirements of NEPA. It is our expectation that this unavoidable delay will be mirimized by the complete cooperation which MRT, Southern, and the other parties will give to the Commission Staff and, particularly, to Staff's requests for data. Similarly, we remind the parties of the Fifth Circuit's admonitions that the impact statement is not intended "to be a weapon for disappointed parties", and that this Commission "should not pour an inordinate amount of its resources into environmental forecasting."

The Commission finds. The permanent curtailment plans proposed by MRT and Southern should be the subjects of environmental impact statements and, if any party desires cross-examination thereon, of reopened hearings before the Presiding Administrative Law Judges, so that the requirements of the National Environmental Policy Act, as construed in *State of Louisiana* v. *F.P.C.* can be met.

The Commission orders. These two proceedings are reopened so that all steps necessary may be taken to insure compliance with the National Environmental Policy Act, as construed in *State of Louisiana* v. *F.P.C.* In each proceeding the Final Environmental Impact Statement prepared by the Staff shall be made a part of the record, and if any party desires to conduct cross-examination thereon, an opportunity will be afforded. In that event, a further public hearing with respect to the Final Environmental Impact Statement shall be held before the Presiding Administrative Law Judge in Washington, D.C., commencing on such date as he may, in his discretion prescribe.

By the Commission.

[FR Doc.75-3613 Filed 2-7-75;8:45 am]

[Docket Nos. RI75-105 and RI75-106]

SOUTHERN UNION PRODUCTION CO. ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

JANUARY 31, 1975.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds. It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders. (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto [18 CFR, Chapter I], and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[1] Administrative Law Judge Max Kane submitted this question, filed on January 15, 1975, in Docket No. RP73-6, a proceeding concerning Mississippi River Transmission Corporation's (MRT) currently effective curtailment plan. An essentially similar submission was also filed on January 15, 1975, by Administrative Law Judge Nahum Litt, presiding over the Southern Natural Gas Co. proceeding, Docket Nos. RP72-74 and RP74-6. We note that in Docket No. RP73-6 3AF Corp., on June 20, 1975, filed a motion requesting an immediate decision on the lawfulness of MRT's permanent curtailment plan prior to consideration of the environmental impact issue. We will consider this request after the period for the filing of objections has expired.

[1] Does not consolidate for hearing or dispose of the several matters herein.

[Docket No. E-9235]

VIRGINIA ELECTRIC AND POWER CO.

Delivery Point Change

JANUARY 31, 1975.

Take notice that on January 28, 1975, Virginia Electric and Power Co. (Virginia) tendered for filing a cancellation of a supplemental agreement servicing Northern Neck Electric Cooperative from Virginia's Warsaw Delivery Point. Virginia states that the delivery point load was transferred permanently to Virginia as a general service customer.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3614 Filed 2-7-75;8:45 am]

FEDERAL PREVAILING RATE ADVISORY COMMITTEE

SPECIAL COMMITTEE MEETING

Pursuant to the provisions of section 10 of Pub. L. 92-463, effective January 5, 1973, notice is hereby given that a special meeting of the Federal Prevailing Rate Advisory Committee will be held on Wednesday, February 12, 1975.

The meeting will convene at 9:30 a.m., and will be held in Room 1E801, Conference Room Number 4, The Pentagon, Washington, D.C.

The Committee's primary responsibility is to study the prevailing rate system and from time to time advise the Civil Service Commission thereon.

At a regular meeting held on February 6, 1975, the Committee determined that this special meeting was required to give priority consideration to the use of special wage schedules in localities where remote worksite allowances are determined to be appropriate. This emergency notice is published in lieu of the regular 15 day notice as required by section 8(b)(3) of OMB Circular A-63, revised.

The meeting will be closed to the public on the basis of a determination under section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) and 5 U.S.C., section 552(b)(2), that the closing is necessary in order to provide the members with the opportunity to advance proposals and counter-proposals in meaningful debate on issued related solely to the Federal Wage System with the view toward ultimately formulating advisory policy recommendations for the consideration of the Civil Service Commission.

However, members of the public who wish to do so, are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the Committee's attention. Additional information concerning this meeting may be obtained by contacting the Chairman, Federal Prevailing Rate Advisory Committee, Room 5451, 1900 E Street, NW, Washington, D.C. 20415.

Dated: February 7, 1975.

DAVID T. ROADLEY,
Chairman, Federal Prevailing Rate Advisory Committee.

INTERIM COMPLIANCE PANEL (COAL MINE HEALTH AND SAFETY)

PINE COAL CORP.

Applications for Renewal Permits, Electric Face Equipment Standard; Opportunity for Public Hearing

Applications for Renewal Permits for Noncompliance with the Electric Face Equipment Standard prescribed by the Federal Coal Mine Health and Safety Act of 1969 have been received for items of equipment in underground coal mines as follows:

ICP Docket No. 4326-000, Pine Coal Corp., Mine No. 1, Mine ID No. 15 01367 0, Daisy, Ky.:

ICP Permit No. 4326-003-R-1 (Kersey 744N Mine Tractor, I.D. No. T-1),
ICP Permit No. 4326-004-R-1 (Kersey 744N Mine Tractor, I.D. No. T-2),
ICP Permit No. 4326-005-R-1 (Kersey 744N Mine Tractor, I.D. No. T-3),
ICP Permit No. 4326-006-R-1 (Kersey BJD Mine Tractor, I.D. No. T-4),

In accordance with the provisions of § 504.7(b) of Title 30, Code of Federal Regulations, notice is hereby given that requests for public hearing as to an application for a renewal permit may be filed on or before February 25, 1975. Requests for public hearing must be filed in accordance with 30 CFR Part 505 (35 F.R. 11296, July 15, 1970), as amended, copies of which may be obtained from the Panel upon request.

A copy of each application is available for inspection and requests for public hearing may be filed in the office of the Correspondence Control Officer, Interim Compliance Panel, Room 800, 1730 K Street NW., Washington, D.C. 20006.

C. DONALD NAGLE,
Vice Chairman, Interim Compliance Panel.

INTERNATIONAL TRADE COMMISSION

[332-73]

FORMULATION OF AN INTERNATIONAL COMMODITY CODE

Study

In accordance with section 608(c) of the Trade Act of 1974 (Pub. L. 93-618, approved January 3, 1975), the United States International Trade Commission has instituted an investigation, under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)), to provide the basis for (1) a report on the appropriate concepts and principles which should underlie the formulation of an international commodity code adaptable for modernized tariff nomenclature purposes and for recording, handling, and reporting of transactions in national and international trade, and (2) the Commission's participation in the U.S. contribution to technical work of the Harmonized System Committee under the Customs Cooperation Council. The full text of section 608(c) follows:

(c) In further connection with its responsibilities pursuant to subsections (a) and (b), the United States International Trade Commission shall undertake an investigation under section 332(g) of the Tariff Act of 1930 which would provide the basis for—

(1) a report on the appropriate concepts and principles which should underlie the formulation of an international commodity code adaptable for modernized tariff nomenclature purposes and for recording, handling, and reporting of transactions in national and international trade, taking into account how such a code could meet the needs of sound customs and trade reporting practices reflecting the interests of United States and other countries, such report to be submitted to both Houses of Congress and to the President as soon as feasible, but in any event, no later than June 1, 1975; and

(2) full and immediate participation by the United States International Trade Commission in the United States contribution to technical work of the Harmonized System Committee under the Customs Cooperation Council to assure the recognition of the needs of the United States business community in the development of a Harmonized Code reflecting sound principles of commodity identification and specification and modern producing methods and trading practices, and, in carrying out such responsibilities, the Commission shall report to both Houses of Congress and to the President, as it deems appropriate.

As soon as practicable, the Commission will issue a preliminary draft for the purposes of receiving the views and comments of interested parties with respect to the report required by subsection (c)(1) of section 608. The draft will include a statement on the appropriate concepts and principles which should underlie the formulation of an international commodity code adaptable for the purposes indicated in section 608(c)(1).

To permit participation by the Commission in the U.S. contribution to technical work of the Harmonized System Committee of the Customs Cooperation Council as required by subsection (c)(2) of section 608, the Commission may obtain information by any of the methods specified in rule 201.9 of the Commission's rules of practice and procedure, i.e., from its own files, from other agencies of the Government, through questionnaires and correspondence, through fieldwork by members of the Commission's staff, and from testimony and other evidence which may be presented at public hearings. Specific opportunities for the U.S. business community and other interested parties to comment on draft provisions of a harmonized commodity code will be provided as appropriate.

Due notice will be given of any hearing which may be scheduled in the investigation.

Any correspondence relating to this investigation should be addressed to the Secretary, United States International Trade Commission, Washington, D.C. 20436.

By order of the Commission.

Issued: February 4, 1975.

KENNETH R. MASON,
Secretary.

SANDLER-ETTE FOOTWEAR MANUFACTURING CORP.

Workers' Petition; Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the workers and former workers of the Sandler-Ette Footwear Manufacturing Corp., Webster, Mass., a wholly owned subsidiary of the Kayser-Roth Corp., New York, New York, the United States International Trade Commission, on February 3, 1975, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear for women, misses and children (of the types provided for in Items 700.45 and 700.55 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed within 10 days after notice is published in the FEDERAL REGISTER.

The petition filed in the case is available for inspection at the Office of the Secretary, United States International Trade Commission, 8th and E Streets, NW., Washington, D.C., and at the New York office of the International Trade Commission located at 6 World Trade Center.

By order of the Commission.

Issued: February 4, 1975.

KENNETH R. MASON,
Secretary.

[FR Doc.75-3625 Filed 2-7-75;8:45 am]

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (75-6)]

NASA LUNAR ADVISORY COMMITTEE

Meeting

The NASA Lunar Advisory Committee will meet at the Jet Propulsion Laboratory on February 24, 25, and 26, 1975. The meeting will be held in Room 101 of Building 180 of the Laboratory located at 4800 Oak Grove Drive, Pasadena, California.

The meeting will begin at 9 a.m. on Monday, February 24 and 8:30 a.m. on February 25 and 26 and will end at 6 p.m. on the 24th and 25th and 4 p.m. on the 26th. The meeting is open to members of the public to within the 80-seat capacity of the room.

The 15-member Lunar Advisory Committee serves in a consultative capacity to the National Aeronautics and Space Administration to review the NASA lunar programs and objectives. From 9 a.m. to 10 a.m. on Monday, the Committee will review the status of previous recommendations and action items. The period from 10 a.m. until noon will be devoted to a discussion on the effects on the lunar program of recent budgetary decisions. From 1 p.m. until 6 p.m., the Committee will discuss NASA's science planning and develop procedures and formats for updating (1) NASA's advanced lunar planning and (2) revising the 1972 Lunar Science Institute's booklet "Post-Apollo Lunar Science."

XUM V40128 FEB 10 75 XUM

On Tuesday and Wednesday the 25th and 26th, the Committee will be divided into two subcommittees which will meet in working sessions. One subcommittee will review the existing lunar advanced planning documents and recommend modifications to these plans. The other subcommittee will recommend changes to the Lunar Science Institute's document mentioned above.

The entire Committee will meet together from 2 p.m. to 4 p.m. on the 26th to review progress and assign to individual members tasks needed to complete the up-dating projects.

This notice of meeting may not be published in the FEDERAL REGISTER with the required 15-day notice. The reason for the late notice was due to the need to publish a detailed agenda which was not officially approved until February 6, 1975.

For further information regarding the meeting, please contact Dr. Richard J. Allenby, Area Code 202–755–1948.

Dated: February 7, 1975.

BOYD C. MEYERS, II,
Assistant Associate Administrator for Organization and Management, National Aeronautics and Space, Administration.

[FR Doc.75-3836 Filed 2-7-75;9:52 am]

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts

MUSIC ADVISORY PANEL

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given that a meeting of the Music Advisory Panel to the National Council on the Arts will be held on February 26, 27, 28, and March 1, 1975, in the 14th floor conference room, 2401 E Street, Washington, D.C. The meetings will be held from 9:30–5 p.m. on February 27 and 28; from 1:30–5 p.m. on February 26; and from 9:30 a.m.–12 noon on March 1.

A portion of this meeting will be open to the public on February 26 from 1:30–5 p.m. and on March 1 from 9:30 a.m.–12 noon. There will be a report on the Music Policy Conference during these open sessions.

The remaining sessions of this meeting February 27 and 28, 1975, are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, these sessions, which involve matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b) (4) and (5)), will not be open to the public.

Further information with reference to this meeting can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634–7144.

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

[FR Doc.75-3676 Filed 2-7-75;8:45 am]

NATIONAL SCIENCE FOUNDATION

DIVISION OF PRE-COLLEGE EDUCATION IN SCIENCE

Project Directors' Meeting

The Division of Pre-College Education in Science of the National Science Foundation customarily sponsors project directors' meetings to provide opportunities for the exchange of information and ideas among project directors, school system representatives and NSF program staff members. The schedule for project directors' meetings for 1975 is listed below.

FEBRUARY 13–15, 1975

SHERATON-BILTMORE, ATLANTA, GEORGIA; AND PALMER HOUSE, CHICAGO, ILLINOIS

February 13—2–5 p.m.; 7:30–9 p.m.
February 14—9 a.m.–5 p.m.
February 15—9 a.m.–12 Noon.

FEBRUARY 20–22, 1975

HOLLYWOOD ROOSEVELT, LOS ANGELES, CALIFORNIA

February 20—3–5 p.m.; 7:30–9 p.m.
February 21—9 a.m.–5 p.m.
February 22—9 a.m.–12 Noon

The project directors' meetings are not considered to be meetings of "advisory committees" as that term is defined in section 3 of the Federal Advisory Committee Act, Pub. L. 92–463. However, it is believed that these meetings are of sufficient importance and interest to the general public to have them opened for public attendance and observation. Public attendance is encouraged especially on the first day and evening when the meeting will be devoted to a discussion of the current outlook with respect to the new thrusts introduced in the National Science Foundation's program in the Education Directorate in FY 1974. An optional informative conference on emerging NSF curricula is scheduled for the first evening (7:30–9 p.m.) of each session. The second and third days of each meeting will encompass detailed discussions of plans for the operation of the 1975 projects.

Persons wishing to attend any of these meetings or requiring further information should contact Ms. Jane Stutsman, Program Manager, Instructional Improvement Implementation Section, Division of Pre-College Education in Science, Rm. 418–W, National Science Foundation, Washington, D.C. 20550, telephone 202/282–7950.

R. GAIL ANDERSON,
Acting Committee Management Officer.

FEBRUARY 5, 1975.

[FR Doc.75-3677 Filed 2-7-75;8:45 am]

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-254 and 50-265]

COMMONWEALTH EDISON CO. AND IOWA-ILLINOIS GAS AND ELECTRIC CO. (QUAD CITIES, UNITS 1 AND 2)

Facility Operating Licenses

The Nuclear Regulatory Commission (the Commission) is considering the issuance of amendments to Facility Operating Licenses Nos. DPR–29 and DPR–30 (respectively) issued to the Commonwealth Edison Company (acting for itself and on behalf of the Iowa-Illinois Gas and Electric Company) for operation of Quad Cities Units 1 and 2, boiling water reactors located in Rock Island County, Illinois, and each currently authorized for operation at power levels up to 2511 MWt.

The amendments would change the provisions of the Technical Specifications for the facilities to incorporate operating limits based on the General Electric Thermal Analysis Basis in accordance with the licensee's application for license amendment dated December 13, 1974, as supplemented by December 20, 1974 and January 27, 1975.

Prior to issuance of the proposed license amendments, the Commission will have made the findings required by the Act and the Commission's regulations.

On or before March 12, 1975, any person whose interest may be affected by the proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and Section 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section by March 12, 1975. A copy of the petition and/or request for a hearing should be sent to the Chief Hearing Counsel, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to John W. Rowe, Esq., the attorney for the applicant, One First National Plaza, Chicago, Illinois 60670.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see (1) the application for amendment dated December 13, 1974, and supplements thereto dated December 20, 1974 and January 27, 1975, (2) the nonproprietary General Electric Report NEDO–10958, and (3) the Commission's evaluation of the General Electric Report dated September 1974, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Moline Public Library, 504—17th Street, Moline, Illinois 61265. As they become available, the Commission's related Safety Evaluation and license amendments and any attachments may be inspected at the above locations. A copy of the license amendments and attachments and the Safety Evaluation, when available, may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 3rd day of February, 1975.

For the nuclear regulatory commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch #2, Division of Reactor Licensing.

[FR Doc.75-3704 Filed 2-7-75;8:45 am]

[Docket No. 50-255]

CONSUMERS POWER CO. (PALISADES PLANT)

Order for Modification of License

FEBRUARY 6, 1975.

I. Consumer Power Company (the Licensee) is the holder of Provisional Operating License No. DPR–20, which authorizes operation of the Palisades Plant (the facility) at power levels up to 2,200 megawatts thermal. The facility is located in Covert Township, Van Buren County, Michigan.

II. The facility is a pressurized water reactor which consists of a two loop system using two steam generators designated as "A" and "B". The facility commenced commercial operation on December 22, 1971, and, during the course of operation since that time, the tubes within both steam generators have experienced localized corrosion of the wastage type and intergranular cracking. The cause of this steam generator tubing corrosion is attributed to phosphate treatment of the water chemistry in the secondary coolant system.

It should be noted by way of background that on January 15, 1973, after approximately one year of intermittent operation of the facility, the first leak in the facility's steam generator tubes developed. Eddy current inspection detected wall thinning in the tubes of both steam generators in the U-bend area. All tubes in the first eleven rows from the divider plates were plugged, and the facility returned to service early in March 1973, after which it operated at essentially 100 percent rated power. On August 11, 1973, the facility was shutdown because of steam generator tube leakage in excess of the limits established by the license technical specifications. Eddy current measurements performed during September 1973 showed measurable wall thinning on nearly half the tubes in each of the two steam generators. The inservice inspection and evaluation continued through April 1974, and all tubes with eddy current indications of 60 percent or more wall thinning were plugged. During a preoperational hydrostatic test early in May 1974, leaks developed in two tubes at a pressure differential of 200 psi. Reinspections of the steam generators showed that a number of tubes had developed a new type of degradation called "intergranular attack" during the nine-month period of shutdown. Thereafter, the Licensee plugged all tubes suspected of intergranular attack.

By September 1974, the Licensee had plugged all steam generator tubes which either were the subject of intergranular attack or exhibited eddy current indications of wall thinning of 50 percent[1] or more. In addition, the Licensee proposed to avoid further corrosion effects by changing from a phosphate water chemistry regime to an all volatile water chemistry treatment of the secondary coolant system. Based on the then AEC Regulatory Staff's (hereinafter referred to as the "NRC Staff") Safety Evaluation Reports dated August 30, 1974, and November 27, 1974, resumed operation of the facility was authorized. Specifically, (i) the facility could be operated at first only at limited power levels consistent with the requirements of a program designed to flush residual phosphates from the secondary coolant system, and then at power levels up to 100 percent of rated power subject to the limiting of the maximum operating transient differential pressure across the steam generator tubes to 1530 psi; and (ii) because of the possibility of the recurrence of further corrosion, the facility would be subject to a further steam generator tube inspection at the end of ninety effective full-power days or six calendar months from the date of resumption of criticality—September 5, 1974—whichever occurs first. Based on the foregoing, the NRC Staff determined that, taking into account the number of tubes plugged, the steam generators met the requirements for reactor system performance, and that steam generator tube integrity could be maintained with adequate margins of safety during normal operation or under postulated accident conditions. Accordingly, on August 30, 1974, and November 27, 1974, Provisional Operating License No. DPR–20 was amended by Amendments Nos. 10 and 11 to reflect the foregoing requirements.

In December 1974, the Licensee, on its own initiative, conducted an eddy current inspection of steam generator tubes in the "A" steam generator. On January 3, 1975, the Licensee reported the results of this inspection. The Licensee tested a sample of 569 tubes selected with emphasis upon tubes which had eddy current indications of at least 40 percent wall thinning in previous tests. Within the inspection sample, 27 tubes had eddy current indications of corrosion exceeding 50 percent. Of the 27 tubes, one tube had indications exceeding 70 percent (which the Licensee has since plugged); three tubes, from 60 to 70 percent; and 23 tubes, from 50 to 60 percent. These test results suggest (i) the possibility of continuing corrosion, and (ii) that there may exist, within the facility's steam generators, a number of tubes with wall thinning significantly in excess of the limit established by the tube plugging criterion upon which the basis for operation of the facility has been authorized under Amendments Nos. 10 and 11, and that, therefore, such thinning could represent a significant reduction in the margins of safety needed to protect the health and safety of the public.

Although the facility is otherwise ready to resume operation, the Licensee has maintained the facility in a shutdown condition since the December 1974 inspection was performed. Under the present operating license, absent further action by the NRC Staff, the Licensee could return the facility to full power operation in its present condition until March 5, 1975, without any further inspections.[2]

III. In view of the foregoing, the Acting Director, Office of Nuclear Reactor Regulation, finds that the additional license provisions set forth in part IV below are required, and that the public

[1] By September 1974, the plugging criterion had been revised from 60 to 50 percent.

[2] As indicated supra, Amendments Nos. 10 and 11 require a further steam generator tube inspection after ninety effective full-power days first. The six-month period expires first, and it occurs on March 5, 1975.

XUM
V40128 FEB 10 75 XUM

health, safety or interest require that these conditions be made immediately effective upon issuance.

IV. Accordingly, pursuant to the Atomic Energy Act of 1954, as amended, and the Commission's rules and regulations in 10 CFR Parts 2 and 50, *it is ordered*, That:

1. The Provisional Operating License No. DPR-20 is amended by the addition of paragraphs 4.14.4 and 4.14.5 to the Technical Specifications as follows:

4.14.4 The Licensee shall conduct prior to further reactor operation the following steam generator in-service inspection program:

A. Inspect all steam generator tubes in both steam generators which previously had defect indications, not including plugged tubes) of greater than 20 percent wall penetration in the manner prescribed by Regulatory Guide 1.83 (issued June 1974), as that guide applies to inspections after the baseline inspection. All tubes with indications of 50 percent or more wall thinning shall be plugged; or in the alternative,

B. Conduct additional statistical inspections as follows:

1. With respect to each steam generator "A" tube with December 1974 test indications of 50 percent or more wall thinning, either plug such tube or re-evaluate by the following procdure:

(a) Eddy current test such tube to obtain at least 2 additional readings.

(b) Average the 2 or more additional readings with the December 1974 reading.

(c) If the average indicated wall thinning is 50 percent or more, plug the tube.

2. If the results of B.1 above require plugging one or more tubes (in addition to the one tube already plugged since the December 1974 inspection), an additional 3 percent of the total tubes in steam generator "A" shall be inspected, concentrating on those areas of the tube sheet array where tubes with defects were previously found. All tubes with indications of 50 percent or more wall thinning shall be plugged.

3. Continue the sampling procedure of B.2 above until a sampling results in no tubes found that require plugging, or all tubes have been inspected.

4. Irrespective of the results of the inspection in B.1 through B.3 above, sample 3 percent of the total tubes in steam generator "B", concentrating on those areas of the tube sheet array where tubes with defects were previously found. Acceptance, plugging, and further sampling criteria shall be the same as described above for steam generator "A".

C. The results of the above-described inspection and tube plugging program, and a proposal for the conduct of future operations, including a recommended schedule for the next steam generator tube inspection shall be submitted to the NRC Staff for review and approval by letter prior to further operation.

4.14.5 Any steam generator tubes with eddy current indications of 50 percent or more wall thinning shall be removed from service by plugging. Such indications may be confirmed by averaging during a given inspection, but such average shall be based on not less than three readings, in which case an average indication of 50 percent or more wall thinning shall result in tube plugging.

2. This order is effective immediately upon issuance.

3. Within thirty (30) days of the date of issuance of this Order, the Licensee may file a request for a hearing with respect to this Order. Within the same thirty (30) day period, any other person whose interest may be affected may file a request for a hearing with respect to this Order. If a request for a hearing is filed within the prescribed time herein, the Commission will issue a notice of hearing or such other order as may be appropriate. A request for a hearing must be filed with the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section. A copy of the request for a hearing should also be sent to the Chief Hearing Counsel, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to R. Rex Renfrow, III, Esquire, Isham, Lincoln & Beale, One First National Plaza, Chicago, Illinois 60670, attorney for the Licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of this Order as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All requests for a hearing and petitions for leave to intervene will be acted upon by the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel.

In the event that a hearing is held and a petitioner is permitted to intervene, that petitioner becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, the petitioner may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see (1) Provisional Operating License No. DPR-20, as amended, (2) the Licensee's inspection report dated January 3, 1975, (3) the Commission's Safety Evaluation Report dated August 30, 1974, issued in connection with Amendment No. 10 to the operating license dated August 30, 1974, which was issued in response to the Licensee's application for amendment dated August 20, 1974, and its letter to the Directorate of Licensing dated August 28, 1974, requesting interim technical specifications, and (4) the Commission's Safety Evaluation Report dated November 27, 1974, issued in connection with Amendment No. 11 to the operating license dated November 27, 1974, which was issued in response to the Licensee's August 20, 1974, application for amendment as supplemented November 7, 1974. All of the above documents are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Kalamazoo Public Library, 315 South Rose Street, Kalamazoo, Michigan 49006.

Order dated and issued at Bethesda, Maryland, this 6th day of February, 1975.

For the Nuclear Regulatory Commission.

EDSON G. CASE,
Acting Director, Office of Nuclear Reactor Regulation.

[DOCKET NO. P-531-A]

PUBLIC SERVICE COMPANY OF OKLAHOMA

Receipt of Partial Application for Construction Permits and Facility Licenses: Time for Submission of Views on Antitrust Matters

FEBRUARY 7, 1975.

Public Service Company of Oklahoma (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated November 20, 1974, in connection with its plans to construct and operate two boiling water reactors in Rogers County, Oklahoma, near the town of Inola. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report pursuant to § 2.101 of Part 2, is expected to be filed during August 1975. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, and at the Local Public Document Room, Tulsa City—County Library, Tulsa, Oklahoma 74102. Docket No. P-531-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before March 18, 1975.

Dated at Bethesda, Maryland, this 9th day of January, 1975.

For The Atomic Energy Commission.

WALTER R. BUTLER,
Chief, Light Water Reactors Branch 1-2, Directorate of Licensing.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on February 4, 1975, (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the Reviewer listed.

AMERICAN AGRONOMICS CORP.

Suspension of Trading

JANUARY 31, 1975.

The common stock of American Agronomics Corp. being traded on the American Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of American Agronomics Corp. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to sections 19(a)(4) and 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange is suspended, for the period from February 2, 1975, through February 11, 1975.

By the Commission.

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Amendment to Option Plan

Notice is hereby given that the Chicago Board Options Exchange, Inc. (CBOE) has filed proposed amendments to its Option Plan pursuant to Rule 9b–1 under the Securities Exchange Act of 1934 (17 CFR 240.9b–1). The CBOE proposes to amend Rule 14.5 and add a new Rule 6.25.

The proposed amendment to Rule 14.5 provides for the elimination of fixed minimum commissions on orders executed on the floor of the Exchange by Floor Brokers. The amendments also provide for the continued regulation by the Exchange of commission rates charged by Board Brokers in the form of a schedule of standard commission rates from which departures could be permitted under certain circumstances. Any such departure would have to be nondiscriminatory among customers, filed with the Floor Procedure Committee at least thirty days prior to its effectiveness and not disapproved by that committee as being unreasonable or discriminatory and continuously displayed at the post.

Proposed Rule 6.25 would prohibit two or more member organizations, each of which does a public or correspondent business and has its own floor broker or brokers on the floor of the Exchange, from entering into any kind of a pooling arrangement whereby orders managed on the floor by one of such firms would be executed by the floor broker or brokers of another of such firms.

CBOE has also withdrawn its previously filed amendments to Rules 14.5 and 14.6, noticed at 39 FR 40203 and 39 FR 43338, respectively.

The proposed amendments will become effective on March 12, 1975, or upon such earlier date as the Commission may allow unless the Commission shall disapprove the changes in whole or in part as being inconsistent with the public interest or the protection of investors.

All interested persons are invited to submit their views and comments on the proposed amendments to CBOE's plan either before or after they have become effective. Written statements of views or comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File No. 10–54. The proposed amendments are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street NW., Washington, D.C.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

JANUARY 30, 1975.

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Non-disapproval of Amendments to Option Plan

Notice is hereby given that on January 28, 1975, the Commission considered and did not disapprove proposed amendments to the Option Plan of the Chicago Board Options Exchange, Inc. (CBOE) pursuant to rule 9b–1 under the Securities Exchange Act of 1934 (17 CFR 240.9b–1). The CBOE proposed to amend rule 2.6 and add rule 6.6 which were originally noticed at 39 FR 44100.

The proposed amendment to rule 2.6 would change the definition of a quorum for the Floor Procedure Committee and would permit the Floor Procedure Committee to appoint additional Floor Officials. Proposed rule 6.6 authorizes Floor Officials to make a temporary response to unusual market conditions in a class of option contracts without imposing a trading halt in that class.

All interested persons are invited to submit their views and comments on the proposed amendment and new rule to CBOE's plan either before or after it has become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File No. 10–54. The proposed amendment is, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street NW., Washington, D.C.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

JANUARY 30, 1975.

[FR Doc.75–3660 Filed 2–7–75;8:45 am]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Notice of Amendment to Option Plan

Notice is hereby given that the Chicago Board Options Exchange, Inc. (CBOE) has filed a proposed amendment to its Option Plan pursuant to rule 9b–1 under the Securities Exchange Act of 1934 (17 CFR 240.9b–1).

The proposed amendment would modify paragraph (e) of rule 14.3 in order to make the 40 percent discount from non-member commissions available to Canadian brokers which are members of a Canadian securities exchange or association acceptable to CBOE.

The proposed amendment will become effective on March 12, 1975, or upon such earlier date as the Commission may allow unless the Commission shall disapprove the change in whole or in part as being inconsistent with the public interest or the protection of investors.

All interested persons are invited to submit their views and comments on the proposed amendment to CBOE's plan either before or after it becomes effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File No. 10–54. The proposed amendment and all such comments will be available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street NW., Washington, D.C.

Dated: January 30, 1975.

Secretary.

[FR Doc.75–3663 Filed 2–7–75;8:45 am]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Notice of Amendment to Option Plan

Notice is hereby given that the Chicago Board Options Exchange, Inc. (CBOE) has filed a proposed amendment to its Option Plan filed pursuant to Rule 9b–1 under the Securities Exchange Act of 1934 (17 CFR 240.9b–1).

The proposed addition to Rule 6.45 provides that, where necessary in order to achieve a single-price opening the Board Broker may give priority to market orders entitled to participate in the opening over limit orders at the opening price on the Board Broker's book, thus reversing the existing order of priority. This change will enable CBOE to eliminate the range of opening prices which occurs at some openings.

The proposed amendment will become effective on March 12, 1975, or upon such earlier date as the Commission may allow unless the Commission shall disapprove the change in whole or in part as being inconsistent with the public interest or the protection of investors.

All interested persons are invited to submit their views and comments on the proposed amendment to CBOE's plan either before or after it has become effective. Written statements of views or comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File No. 10–54. The proposed amendment is, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street NW., Washington, D.C.

Dated: January 30, 1975.

[File No. 24D–3363]

MINCOMP CORP.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor and Notice of Opportunity for Hearing

JANUARY 28, 1975.

Mincomp Corp. (Issuer), 1780 South Bellaire, Denver, Colorado 80222, incorporated in Colorado on January 15, 1970, filed with the Commission on July 13, 1973, a Notification on Form 1–A and an Offering Circular relating to a proposed public offering of 300,000 shares of its no par common stock of $1.00 per share for an aggregate offering price of $300,000. The purpose of this filing was to obtain an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof, and Regulation A adopted thereunder. Mr. Edward R. Mellicker, Jr., vice president and director of the Issuer, 1130 Grape, Denver, Colorado, was designated as underwriter for the Issuer. The Issuer's Form 2–A Report filed on January 11, 1974, showed that the offering commenced on August 10, 1973, and terminated on January 10, 1974.

The Commission, on the basis of information reported to it by its staff has reasonable cause to believe that:

A. The notification and offering circular filed by the issuer contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, in the following respects:

1. The failure to disclose bank overdrafts and other corporate debts resulting from the Issuer's operations;

2. The failure to disclose the existence of repurchase agreements, between insiders and various persons purchasing pursuant to the offering;

3. The failure to accurately disclose the use to be made of the proceeds of the offering;

4. The failure to disclose the issuance of restricted stock held by insiders as consideration for purchasing stock of the offering pursuant to the repurchase agreements;

5. The failure to disclose the sale by insiders of repurchased stock during the offering to persons believing the stock to be part of the offering;

6. The failure to disclose that securities would be placed in a nominee account; and

7. The failure to disclose an artificial attainment of the proceeds from escrow by reaching the minimum through the sale of stock pursuant to repurchase agreements.

B. The terms and conditions of Regulation A have not been complied with in that:

1. The offering circular failed to disclose the method by which the securities were to be offered and the terms thereof;

2. The offering circular failed to accurately state the financial condition of the Issuer.

C. The offering was made in violation of section 17 of the Securities Act of 1933, as amended.

It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of Mincomp Corporation under Regulation A be temporarily suspended.

It is ordered, pursuant to rule 261(a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption of the Issuer under Regulation A be, and it hereby is, temporarily suspended.

It is further ordered, pursuant to Rule 7 of the Commission's rules of practice, that the issuer file an answer to the allegations contained in the order within thirty days of the entry thereof.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission, the order shall become permanent on the thirtieth day after its entry and shall remain in effect unless it is modified or vacated by the Commission.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[812–3750]

MOBIL ALASKA PIPELINE CO.

Filing of Application

JANUARY 30, 1975.

Notice is hereby given that Mobil Alaska Pipeline Co., 108 South Akard Street, Dallas, Texas 75202, a Delaware corporation ("Applicant"), filed an application on January 15, 1975, and and amendment thereto on January 30, 1975, for an order pursuant to section 6(c) of the Investment Company Act of 1940 (the "Act") exempting Applicant from all provisions of the Act. All interested persons are referred to the application which is on file with the Commission for a statement of the representations made therein which are summarized below.

Applicant was organized as a wholly owned subsidiary of Mobil Oil Corp. ("Mobil"), a New York Corporation. Applicant contends that its sole purpose is to own, construct and operate a 5 percent undivided interest in the Trans Alaska Pipeline System (TAPS), a 48-inch crude oil pipeline running approximately 800 miles from the Prudhoe Bay oil field on the North Slope of Alaska to a tank farm and marine terminal at the ice-free port of Valdez on Alaska's southern coast. Construction of TAPS commenced in 1974 and is scheduled for completion in the second half of 1977.

The other owners of TAPS are seven companies which also have interests in the Prudhoe Bay field. Each owner is separately responsible for raising its share of the cost of construction of TAPS. As the estimated total cost of TAPS is $5.98 billion, Applicant's 5 percent share is approximately $300 million (not including interest during construction).

Applicant proposes to finance its share of costs of TAPS by a single public offering of debt securities (the "Debt Securities"), which Debt Securities will be guaranteed as to principal, premium, if any, and interest by Mobil. In addition, Mobil will enter into an agreement with Applicant which will provide undertakings by Mobil to provide Applicant with any funds necessary to permit it to meet its obligations incurred under the Debt Securities.

The Debt Securities will be registered under the Securities Act of 1933 (the "1933 Act") and an indenture with respect thereto will be qualified under the Trust Indenture Act of 1939 (the "Trust Indenture Act"). Applicant filed on January 23, 1975, the applicable registration statement under the 1933 Act to register $300,000,000 amount of Debt Securities. The Debt Securities will be offered to the public through a firm commitment underwriting to be managed by Morgan Stanley & Co. Inc.

Applicant submits that approximately $79 million of the public offering net proceeds of $297 million will be used to repay existing TAPS indebtedness. The remainder will be used to finance most of Applicant's share of the estimated cost

XUM
V40128
FEB 10 75
XUM

of TAPS. Applicant estimates that monthly aggregate amounts averaging $10 million in 1975 and $8 million in 1976 will be disbursed to meet cash calls. The balance of the cost will be payable in 1977. Applicant proposes to lend funds in excess of current and continuing needs to Mobil for general corporate purposes or from time to time invest such funds pending their investment in TAPS in short-term securities, consisting only of United States government securities. Applicant estimates that the amount of excess funds available will be $218,000 million after the public offering, $121 million at year end 1975, and $17 million at year end 1976.

Section 3(a)(1) of the Act defines the term "investment company" to include any issuer which "is * * * engaged primarily, or proposes to engage primarily, in the business of investing, reinvesting, or trading in securities." Section 3(a)(3) of the Act defines "investment company" to include any issuer which "is engaged or proposes to engage in the business of investing, reinvesting, owning, holding, or trading in securities, and owns or proposes to acquire investment securities having a value exceeding 40 per centum of the value of such issuer's total assets (exclusive of government securities and cash items) on an unconsolidated basis. Applicant submits that, since its proposed loans to Mobil and U.S. government securities investments will constitute at least initially the greater part of its assets and since all of its income until TAPS commences operations will be derived from either the loans to Mobil or the U.S. government securities, it may be considered to be an investment company under the Act.

The Debt Securities to be publicly offered by Applicant will be guaranteed as to principal, premium, if any, and interest by Mobil. Applicant states that the guarantees will rank equal to all other indebtedness of Mobil and, upon liquidation of Mobil, would have a claim on the assets of Mobil equal to that of all other indebtedness of Mobil. Applicant submits that the payment of its Debt Securities will not depend on its investment policy.

Applicant asserts that Mobil is not an "investment company", as defined in section 3(a) of the Act and that had Mobil itself engaged in the proposed operations the Act would be inapplicable. Applicant further states that for business reasons, principally the applicability of Interstate Commerce Act regulation to the company owning an interest in TAPS, Mobil deemed it advisable to form Applicant to operate TAPS.

All equity securities of Applicant will be owned solely by Mobil. Any securities of the Applicant publicly offered will be registered under the 1933 Act, and an indenture with respect thereto will be qualified under the Trust Indenture Act. Applicant will be subject to the reporting requirements of the 1934 Act. Applicant also states that the proposed acts will help to make available to the economy of the United States extensive resources of low sulfur oil.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person or transaction from any provision or provisions of the Act to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicant has agreed, in the event that the Commission grants the application, to the insertion in the Commission's order of the following conditions:

(1) Applicant will file with the Commission, within 120 days after the close of each fiscal year of Applicant, commencing with the first fiscal year in which it issues and sells any debt securities: (a) the data required by Items 1.08 (except with respect to information relating to persons under common control with Applicant), 1.09, 1.10, and 1.11 of Form N-1R adopted by the Commission pursuant to section 30(a) of the Act and (b) an annual balance sheet, income and surplus statment, and a schedule of investments.

(2) With respect to Applicant's excess funds other than amounts loaned to Mobil, Applicant will invest in short term securities which will consist only of U.S. government securities, that is securities issued or guaranteed as to principal or interest by the United States, or by a person controlled or supervised by and acting as an instrumentality of the Government of the United States pursuant to authority granted by the Congress of the United States; or any certificates of deposit for any of the foregoing.

Notice is further given that any interested person may, not later than February 18, 1975, at 12:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule O-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following February 18, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75-3658 Filed 2-7-75;8:45 am]

[Rel. No. 812-3712]

THE MUNICIPAL INCOME FUND, AND MERRILL LYNCH, PIERCE, FENNER & SMITH INC.

Filing of Application

JANUARY 31, 1975.

Notice is hereby given that the Municipal Income Fund, First Insured Discount Series (the "Fund") and Subsequent Series (hereinafter called the "Funds"), registered under the Investment Company Act of 1940 (the "Act") as unit investment trusts, and the sponsor, Merrill Lynch, Pierce, Fenner & Smith Inc., One Liberty Plaza, 165 Broadway, New York, N.Y. 10006 ("Sponsor"), (collectively the "Applicants"), filed an application on October 24, 1974, and amendments thereto on December 10, 1974, December 16, 1974, and January 28, 1975, pursuant to section 6(c) of the Act for an order of the Commission exempting the Funds from the provisions of section 14(a) of the Act and the provisions of rule 19b-1 under the Act and exempting the Sponsor from the provisions of rule 22c-1, under the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The Fund, an unmanaged investment company, will be governed under New York law by a Trust Agreement (the "Trust Agreement") under which the Sponsor will act as such, The Bank of New York will act as Trustee, and Standard & Poor's Corp. will act as Evaluator. Pursuant to the Trust Agreement, the Sponsor will deposit with the Trustee $50,000,000 principal amount of bonds (the "Bonds"), which the Sponsor will have accumulated for such purposes. The Bonds deposited with the Trustee are identified and the acquisition or substitution of any other securities for any of the identified Bonds is prohibited, except for bonds acquired pursuant to refunding or refinancing. The identified Bonds may be sold from time to time by the Trustee upon the Sponsor's direction only under certain circumstances set forth in the Trust Agreement including, principally, default in the payment of principal or interest, actions or proceedings instituted at law or in equity seeking to restrain or enjoin the payment of principal or interest on any such Bonds, breach of covenant or warranty in any document under which such Bonds are outstanding which might adversely affect the payment of principal or interest on such Bonds, or a decline in the price of any of such Bonds to such an extent, or other market or credit factors which in the opinion of the sponsor makes the

retention of such Bonds detrimental to the interest of Unitholders. However, the proceeds from such dispositions must be distributed to the Unitholders. Interest on the Bonds also must be paid out to Unitholders.

The Bonds will consist of bonds issued by states, counties, territories, or municipalities of the United States and authorities, municipal corporations, and political subdivisions thereof. They are to be selected on the basis of yield, quality, and diversification and will be purchased at deep market discounts. Payments of principal and interest on the Bonds in the portfolio for the First Insured Discount Series will be insured under an insurance policy issued by MGIC Indemnity Corp. The assets of the Fund will consist of the Bonds, such bonds as may continue to be held from time to time in exchange for or in substitution of any of the Bonds upon refundings or refinancings, accrued and undistributed interest, and undistributed cash.

Simultaneously with the deposit of the Bonds, the Trustee will deliver to the Sponsor for sale to the public registered certificates for 50,000 Units of fractional undivided interest in the Fund (the "Units"), which will represent the entire ownership of the Fund. Units of the Fund will be offered to the public either separately or in "Combined Units" together with shares of Putnam Investors Fund, Inc. (an open-end management investment company). The offering will be made separately through a final prospectus at a Public Offering Price computed by adding to the offering side evaluation of the Bonds, divided by the number of Units, a sales charges. The sales charge on the Units will be 4 percent of the Public Offering Price of the Units whether the Units are purchased separately or in combination with Putname shares. Units are redeemable on the basis of the bid side evaluation of the Bonds.

The Sponsor, while under no obligation to do so, intends to maintain a market for Units of the Fund and to offer to purchase such Units at prices which are based upon the aggregate offering price of the Bonds. Should business reasons dictate, such as if the supply of Units exceeds demand, the Sponsor may purchase Units at prices below the offering prices of Bonds, with a minimum offer equal to the Unit redemption value, and in such cases the Sponsor will tender these Units to the Trustee for redemption and will not resell them in the secondary market.

The organization, operation and marketing of Units of Subsequent Series may vary in that one or more additional investment banking firms may act as sponsor in addition to Sponsor, the public sale of the Units may be done through the Sponsor as sole underwriter or through an underwriting account, and the trustee and evaluator may vary. With respect to the portfolio bonds in Subsequent Series, they may or may not be purchased at deep market discounts and may be selected on the basis of different quality standards. The principal amount of bonds deposited, the number of Units issued, and the sales charge on such Units may vary in Subsequent Series, and the payment of principal and interest on bonds in the portfolios of Subsequent Series may not be insured.

Section 14(a) of the Act requires that a registered investment company (a) have a net worth of at least $100,000 prior to making a public offering of its securities, (b) have previously made a public offering and at the time have had a net worth of $100,000 or (c) have made arrangements for at least $100,000 to be paid in by 25 or fewer persons before acceptance of public subscriptions.

Each Series of The Municipal Bond Fund at the date of deposit of the underlying Bonds and before any Unit is offered to the public is intended to have a net worth substantially in excess of $100,000 represented by the market value of the Bonds on that date. However, the Sponsor's deposit in the Funds of Bonds with a net worth in excess of $100,000, in exchange for Units of the Funds which the Sponsor intends to offer to the public, may not satisfy these provisions of the Act.

Applicants, therefore, request exemption from the provisions of section 14(a) of the Act in order that they may make a public offering of Units of the Fund and Subsequent Series as described above. Applicants state that investors will be offered interests in the Funds which will be unmanaged investment companies with portfolios composed of pre-deposited and identified Bonds.

As a condition to the requested exemption, the Sponsor has agreed that it will refund, on demand and without deduction, all sales charges to purchasers of Units of any Series from the Sponsor or from any underwriter or dealer participating in the distribution, and liquidate the Bonds held by any Series and distribute the proceeds thereof if, within ninety days from the time that the registration statement relating to the Units of such Series shall have become effective, the net worth of the Series shall be reduced to less than $100,000 or if such Series of the Fund shall have been terminated. The Sponsor has further agreed to instruct the Trustee to terminate such Fund in the event redemption by the Sponsor of unsold Units results in such Fund having a net worth of less than 40 percent of the principal amount of Bonds in the initial portfolio, and in the event of any such termination the Sponsor will refund, on demand and without reduction, all sales charges to purchasers of Units of such Fund from the Sponsor or from any underwriter or dealer participating in the distribution.

Applicants contend that in these circumstances it is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policies and provisions of the Act to exempt the Fund and all Subsequent Series from the provisions of section 14(a) of the Act.

Rule 19b-1(a) under the Act provides, in substance, that no registered investment company which is a "regulated investment company" shall distribute more than one capital gain distribution in any one taxable year. Paragraph (b) of the rule contains a similar prohibition for a company not a "regulated investment company," provided, however, that a unit investment trust may distribute capital gains distributions received from a "regulated investment company" within a reasonable time after receipt.

Applicants state that the Funds are unmanaged investment companies with portfolios of pre-deposited and identified Bonds. Once the initial deposit is made, prior to the public offering of Units, other securities may not be acquired in addition to or in substitution for any of the Bonds except in the case of refundines or refinancings. Although Bonds may be sold by the Trustee upon the Sponsor's direction under certain circumstances stated in the Trust Agreement, such circumstances are limited.

Distributions of principal constituting capital gains to Unitholders may arise in the following instances: (1) an issuer might call or redeem an issue held in the portfolio and (2) Bonds might be liquidated in order to provide the funds necessary to meet redemptions.

Applicants contemplate making monthly distributions of principal and interest to Unitholders of a Series. Applicants state that the dangers against which rule 19b-1 is intended to guard do not exist in Applicants' situation since the events which may give rise to capital gains are substantially independent of any action by the Sponsor and the Trustee.

Any capital gains or return of capital distributions will be clearly distinguished from interest distributions in the accompanying report by the Trustee to Unitholders. Applicants contend that it would clearly be to the detriment of Unitholders if a Series is required to hold any money, which might be capital gains, until the end of its taxable year before distributing such gains to Unitholders.

Applicants further state that the purpose behind paragraph b of rule 19b-1 is to avoid forcing a Unit investment trust to accumulate valid distributions received throughout the year until year end and that the Fund's situation is within the intended objectives of such provisions even though each Series will not invest in regulated investment companies.

Rule 22c-1 provides, in part, that redeemable securities of registered investment companies must be sold, redeemed, or repurchased at a price based on the current net asset value (computed on each day during which the New York Stock Exchange (the "NYSE") is open for trading not less frequently than once daily as of the time of the close of trading on such Exchange) which is next computed after receipt of a tender of such security for redemption or of an offer to repurchase or sell such security.

Applicants seek an order pursuant to section 6(c) of the Act exempting the

XUM V40128 FEB 10 75 XUM

secondary market operations of the Sponsor from the provisions of rule 22c–1 under the Act. The Sponsor proposes to adopt the practice of valuing units of a Series, for purchase and resale by the Sponsor in the secondary market, at prices computed once a week as of the close of business of the NYSE on the last business day of the week, effective for all transactions made during the following week. The evaluation is to be made by the Evaluator.

Applicants state that rule 22c–1 has two purposes: (1) to eliminate or reduce any dilution of the value of outstanding redeemable securities of registered investment companies which would occur through the redemption or repurchase of such securities at a price above their net asset value or the sale of such securities at a price lower than their net asset value and (2) to minimize speculative trading practices in the securities of registered investment companies.

Applicants assert that the pricing by the Sponsor in the secondary market will in no way affect the assets of a Series since the price at which units of a Series are sold or repurchased in the secondary market does not affect the value of either the underlying Bonds or the fractional undivided interest in those Bonds represented by each unit outstanding. Furthermore, Applicants state that secondary market trading in the Funds is not attractive to speculators since the Funds are designed for investors who desire fixed income with diversification. The evaluation process involves highly complicated and specialized techniques. Only through a substantial transaction could a would-be speculator produce a profit. Applicants state that they anticipate that the number of Units available in the secondary market will be very limited.

Applicants state that while the purposes for which rule 22c–1 was adopted would not be served by its application to the Funds, the interests of investors would be significantly impaired by imposing upon them the cost of additional determinations of net asset value which would be required by the Rule, particularly in light of the anticipated low volume of secondary market activity.

Applicants represent that backward pricing is necessary in order that the Sponsor may be able to quote a price at which it will buy or sell Units. A price to be determined several days in the future would be unsatisfactory to the Unitholders as well as to the Sponsor and prospective buyers.

A procedure will be instituted, without additional cost to investors, whereby the Evaluator will provide informal evaluations to protect Unitholders and investors. In the case of a repurchase, if the Evaluator cannot state that the current bid price is not higher than or equal to the previous Friday's offering side evaluation, the Sponsor will order a new evaluation. In the case of a resale of Units in the secondary market, if the Evaluator determines that the offering side evaluation has decreased by an amount greater than or equal to one-half point ($5.00 on a unit representing $1,000 principal amount of underlying bonds) it will perform a new evaluation.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provisions of the Act or of any rule or regulation under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than February 25, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communications should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following February 25, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

SMALL BUSINESS ADMINISTRATION
GUARANTEED LOANS

Establishment of Maximum Interest Rates

Notice is given that the Small Business Administration ("SBA") has established the maximum rates of interest that lending institutions participating with SBA may charge on loans approved by SBA on or after February 15, 1975, under section 7 of the Small Business Act, as amended, and section 502 of the Small Business Investment Act, as amended.

Effective February 15, 1975, the maximum rate of interest acceptable to SBA on a guaranteed loan or guaranteed revolving line of credit shall be eleven percent (11 percent) a year, and the maximum rate on an immediate-participation loan shall be ten percent (10 percent) a year. These maximum interest rates shall remain in effect until notification of a change is issued by SBA.

This notice is issued under 13 CFR 120.3(b)(2)(vi).

FOURTH SECTION APPLICATIONS FOR RELIEF

FEBRUARY 5, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before February 25, 1975.

FSA No. 42933—*Wrought Iron or Steel Oil Country Tubular Goods and Line Pipe to Ivanhoe, Louisiana.* Filed by Southwestern Freight Bureau, Agent, (No. B–511), for interested rail carriers. Rates on wrought iron or steel country tubular goods and line pipe, in carloads, as described in the application, from Minnequa and Pueblo, Colarado, to Ivanhoe, Louisiana.

Grounds for relief—Rate relationship.

Tariff—Supplement 64 to Southwestern Freight Bureau, Agent, tariff 259–F, I.C.C. No. 5080. Rates are published to become effective on March 6, 1975.

FSA No. 42934—*Joint Water-Rail Container Rates—Nippon Yusen Kaisha.* Filed by Nipon Yusen Kaisha, (No. 7), for itself and interested rail carriers. Rates on general commodities, between ports in Japan, Korea, Hong Kong, and Taiwan, and rail stations on the U.S. Atlantic and Gulf Seaboard.

Grounds for relief—Water competition.

FSA No. 42935—*Joint Water-Rail Container Rates—Showa Line, Ltd.* Filed by Showa Line, Ltd. (No. 11), for itself and interested rail carriers. Rates on general commodities, between ports in Japan, Korea, Hong Kong, The Philippines, Taiwan, Malaysia, Indonesia, and The Republic of Singapore, and rail station at Providence, R.I.

Grounds for relief—Water competition.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

FEBRUARY 4, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's gateway elimination rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before February 20, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 78842 (Sub-No. E1), filed May 16, 1974. Applicant: DALEY & WANGER, 821 Nantasket Ave., Hull, Mass. 02045. Applicant's representative: Mr. Herbert F. Fleck (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (1) between points in Alabama, on the one hand, and, on the other, points in Maine, New Hampshire, and Rhode Island (Quincy, Mass., and points within 15 miles thereof) *; (2) between points in Florida, on the one hand, and, on the other, points in Maine, New Hampshire, and Rhode Island (Quincy, Mass., and points within 5 miles thereof) *; (3) between points in Georgia, on the one hand, and, on the other, points in Maine, New Hampshire, and Rhode Island (Quincy, Mass., and points within 5 miles thereof) *; (4) between points in North Carolina, on the one hand, and, on the other, points in Maine, New Hampshire, and Rhode Island (Quincy, Mass., and points within 5 miles thereof) *; (5) between points in South Carolina, on the one hand, and, on the other, points in Maine, New Hampshire, and Rhode Island (Quincy, Mass., and points within 5 miles thereof) *; (6) between points in Tennessee, on the one hand, and, on the other, points in Maine, New Hampshire, and Rhode Island (Quincy, Mass., and points within 5 miles thereof) *; (7) between points in Maryland, on the one hand, and, on the other, points in Maine, New Hampshire, and Rhode Island (Quincy, Mass., and points within 5 miles thereof) *; (8) between points in Virginia, on the one hand, and, on the other, points in Maine, New Hampshire, and Rhode Island (Quincy, Mass., and points within 5 miles thereof) *; (9) between points in the District of Columbia, on the one hand, and, on the other, points in Maine, New Hampshire, and Rhode Island (Quincy, Mass., and points within 5 miles thereof) *; (10) between points in Pennsylvania, on the one hand, and, on the other, points in Maine and New Hampshire (Brookline, Mass.) *; (11) between points in Rhode Island, on the one hand, and, on the other, points in Maine (Hull, Mass.) *; (12) between points in New Jersey, on the one hand, and, on the other, points in Maine (Brookline, Mass.) *; and (13) between points in Connecticut, on the one hand, and, on the other, points in Maine (Brookline, Mass.) *. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 106401 (Sub-No. E2), filed May 13, 1974. Applicant: JOHNSON MOTOR LINES, INC., P.O. Box 10877, Charlotte, N.C. 28234. Applicant's representative: Thomas G. Sloan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, livestock, and commodities injurious or contaminating to other lading), from points in that part of South Carolina south of a line beginning at the Georgia-South Carolina State line, thence along U.S. Highway 1 to junction U.S. Highway 76, thence along U.S. Highway 76 to the South Carolina-North Carolina State line, to points in Allegany, Baltimore, Frederick, and Washington, Counties, Md. (except points on a line beginning at the Maryland-Pennsylvania State line, thence along U.S. Highway 111 to junction Maryland Highway 45, thence along Maryland Highway 45 to Towson, Md., thence along U.S. Highway 111 to Baltimore, Md., thence along U.S. Highway 1 to the Maryland-District of Columbia State line; points on a line beginning at the Frederick County, Md., line, thence along Maryland Highway 194 to junction Maryland Highway 26, thence along Maryland Highway 26 to junction U.S. Highway 15, thence along U.S. Highway 15 to Frederick, Md., thence along Alternate U.S. Highway 40 to Hagerstown, Md.; points on a line beginning at the Pennsylvania-Maryland State line, thence along Maryland Highway 60 to Hagerstown, Md.; points on a line beginning at Baltimore, Md., thence along U.S. Highway 40 to the Harford County, Md. line), and to points in Berks, Bucks, Chester, Dauphin, Delaware, Lancaster, Lebanon, Lehigh, Monroe, Montgomery, Northampton, and Schuylkill Counties, Pa. (except points on a line beginning at the Delaware-Pennsylvania State line, thence along U.S. Highway 13 to Philadelphia, Pa.; points on a line beginning at the Susquehanna River, thence along U.S. Highway 30 to Lancaster, Pa., thence along U.S. Highway 222 to Reading, Pa.; points on a line beginning at Harrisburg, Pa., thence along U.S. Highway 422 to Lebanon, Pa.; points on a line beginning at Lancaster, Pa., thence along Pennsylvania Highway 501 to Lititz, Pa.; and points on a line beginning at the New Jersey-Pennsylvania State line, thence along U.S. Highway 1 to Philadelphia). The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

No. MC 106401 (Sub-No. E4), filed May 13, 1974. Applicant: JOHNSON MOTOR LINES, INC., P.O. Box 10877, Charlotte, N.C. 28234. Applicant's representative: Thomas G. Sloan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, livestock and commodities injurious or contaminating to other lading, uncrated store fixtures, uncrated hotel equipment, and uncrated kitchen equipment), from Corning and New York, N.Y., Hagerstown, Md., Danville, Lynchburg, Roanoke, and Winchester, Va., points in Bergen, Burlington, Cumberland, Essex, Gloucester, Hudson, Mercer, Middlesex, and Passaic Counties, N.J., and points in that part of Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line, thence along U.S. Highway 522 to Selinsgrove, Pa., thence along U.S. Highway 11 to the Pennsylvania-New York State line, and to points in South Carolina west or north of a line consisting of the western and northern boundaries of Horry, Georgetown, Williamsburg, Clarendon, Calhoun, Orangeburg, and Barnwell Counties, S.C. (except points on a line beginning at the Georgia-South Carolina State line, thence along U.S. Highway 123 to Greenville, S.C., points on a line beginning at the Georgia-South Carolina State line, thence along U.S. Highway 29 to Lyman, S.C., thence along Alternate U.S. Highway 29 to the South Carolina-North Carolina State line; points on U.S. Highway 1 between the Georgia-South Carolina State line and the South Carolina-North Carolina State line; points on U.S. Highway 76 between Columbia and Florence, S.C.; and points on a line beginning at Sumter, S.C., thence along U.S. Highway 15 to junction U.S. Highway 52, thence along U.S. Highway 52 to Cheraw, S.C.). The purpose of this filing is to eliminate the gateways of Nicholson, Pa., Newark, N.J., and Charlotte, N.C.

No. MC 106401 (Sub-No. E6), filed May 13, 1974. Applicant: JOHNSON MOTOR LINES, INC., P.O. Box 10877, Charlotte, N.C. 28234. Applicant's representative: Thomas G. Sloan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *General commodities* except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, livestock,

and commodities injurious or contaminating to other lading, uncrated store fixtures, uncrated hotel equipment, and uncrated kitchen equipment, (1) from New York, N.Y., Hagerstown, Md., Winchester, Va., points in Bergen, Burlington, Cumberland, Essex, Gloucester, Hudson, Mercer, Middlesex, and Passaic Counties, N.J., and points in that part of Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line, thence along U.S. Highway 522 to junction U.S. Highway 11 to the Pennsylvania-New York State line, and, to points in Alexander, Buncombe, Burke, Cabarrus, Caldwell, Catawba, Cleveland, Gaston, Henderson, Iredell, Lincoln, McDowell, Mecklenburg, Polk, Rowan, Rutherford, Stanly, and Union Counties, N.C. (except points on a line beginning at the South Carolina-North Carolina State line, thence along Alternate U.S. Highway 29 to Grove, N.C., thence along U.S. Highway 29 to Charlotte, N.C., thence along North Carolina Highway 49 to junction unnumbered highway, thence along unnumbered highway to Concord, N.C., thence along Alternate U.S. Highway 29 to junction U.S. Highway 29, thence along U.S. Highway 29 to the Rowan-Davidson County line; and points on a line beginning at Salisbury, N. C., thence along U.S. Highway 70 to Hickory, N.C., thence along U.S. Highway 321 to junction Alternate U.S. Highway 321, thence along Alternate U.S. Highway 321 to Valmead, N.C.); and (2) from Corning, N.Y., and Danville and Lynchburg, Va., to points in Buncombe, Burke, Caldwell, Catawba, Cleveland, Gaston, Henderson, Lincoln, McDowell, Mecklenburg, Polk, and Rutherford Counties, N.C., (except points on a line beginning at the South Carolina-North Carolina State line, thence along Alternate U.S. Highway 29 to Grover, N.C., thence along U.S. Highway 29 to junction North Carolina Highway 49, thence along North Carolina Highway 49 to the Mecklenburg-Cabarrus County line; and points on a line beginning at the Iredell-Catawba County line, thence along U.S. Highway 70 to junction U.S. Highway 321, thence along U.S. Highway 321 to junction Alternate U.S. Highway 321, thence along Alternate U.S. Highway 321 to Valmead, N.C.). The purpose of this filing is to eliminate the gateways of Nicholson, Pa., Newark, N.J., and Charlotte, N.C.

No. MC 106401 (Sub-No. E22), filed May 13, 1974. Applicant: JOHNSON MOTOR LINES, INC., P.O. Box 10877, Charlotte, N.C. 28234. Applicant's representative: Thomas G. Sloan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, livestock, and commodities injurious or contaminating to other lading, uncrated store fixtures, uncrated hotel equipment, and uncrated kitchen equipment), between Corning and New York, N.Y., Hagerstown, Md., Danville, Lynchburg, Roanoke, and Winchester, Va., points in Bergen, Burlington, Cumberland, Essex, Gloucester, Hudson, Mercer, Middlesex, and Passaic Counties, N.J., and points in that part of Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line, thence along U.S. Highway 522 to junction U.S. Highway 11 to the Pennsylvania-New York State line, on the one hand, and, on the other, points in that part of Georgia and South Carolina on a line beginning at Atlanta, Ga., thence along U.S. Highway 29 to Lyman, S.C., thence along Alternate U.S. Highway 29 to the South Carolina-North Carolina State line; points in that part of Georgia and South Carolina on a line beginning at Lawrenceville, Ga., thence along Georgia Highway 20 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction U.S. Highway 123, thence along U.S. Highway 123 to Greenville, S.C.; points in that part of Georgia and South Carolina on a line beginning at Athens, Ga., thence along U.S. Highway 78 to junction U.S. Highway 1, thence along U.S. Highway 1 to the South Carolina-North Carolina State line; points in that part of South Carolina on a line beginning at Columbia, S.C., thence along U.S. Highway 76 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction U.S. Highway 52, thence along U.S. Highway 52 to Cheraw, S.C.; points in that part of South Carolina on a line beginning at Sumter, S.C., thence along U.S. Highway 76 to junction U.S. Highway 52, thence along U.S. Highway 52 to Society Hill, S.C. The purpose of this filing is to eliminate the gateways of Nicholson, Pa., Newark, N.J., and Pineville, N.C.

No. MC 106920 (Sub-No. E57), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Commodities classified as *dairy products* under B in the appendix to the report in modification of permits of motor contract carriers of packinghouse products, 48 M.C.C. 628, from points in Texas on and west of a line beginning at the Texas-Mexico International Boundary line and extending along U.S. Highway 80 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Interstate Highway 27, thence along Interstate Highway 67 to junction U.S. Highway 287, thence along U.S. Highway 287 to the Texas-Oklahoma State line, to points in Kentucky east of a line beginning at the Kentucky-Indiana State line and extending along Interstate Highway 64 to junction U.S. Highway 127, thence along U.S. Highway 127 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction U.S. Highway 25E, thence along U.S. Highway 25E to the Kentucky-Tennessee State line and on the west by a line beginning at the Ohio-Kentucky State line and extending along U.S. Highway 27 to junction Kentucky Highway 617, thence along Kentucky Highway 617 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Kentucky Highway 165, thence along Kentucky Highway 165 to junction Kentucky Highway 32, thence along Kentucky Highway 32 to junction Kentucky Highway 201, thence along Kentucky Highway 201 to junction U.S. Highway 460, thence along U.S. Highway 460 to the Kentucky-Virginia State line. The purpose of this filing is to eliminate the gateway of Arke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E60), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Commodities classified as *dairy products* under B in the appendix to the report in modification of permits of motor contract carriers of packinghouse products, 48 M.C.C. 628, from points in Michigan on and north of a line beginning at Lake Superior extending along U.S. Highway 41 to junction Michigan Highway 28, thence along Michigan Highway 28 to junction Michigan Highway 77, thence along Michigan Highway 77 to junction U.S. Highway 2, thence along U.S. Highway 2 to its intersection with unnumbered highway at Gulliver, Michigan, to points in Tennessee. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E61), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Commodities classified as *dairy products* under B in the appendix to the report in Modification of Permits of motor contract carriers of packinghouse products, 48 M.C.C. 628, from the upper peninsula of Michigan to points in Tennessee on and east of a line beginning at the Kentucky-Tennessee State line and extending along Interstate Highway 65 to junction U.S. Highway 31, thence along U.S. Highway 31 to the Tennessee Alabama State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E62), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common*

carrier, by motor vehicle, over irregular routes, transporting: Commodities classified as *dairy products* under B in the appendix to the report in modification of permits of motor contract carriers of packinghouse products, 46 M.C.C. 626, from the Upper Peninsula of Michigan to points in Mississippi on and south of a line beginning at the Alabama-Mississippi State line and extend along Mississippi Highway 50 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction Mississippi Highway 12, thence along Mississippi Highway 12 to junction Mississippi Highway 43, thence along Mississippi Highway 43 to junction Interstate Highway 20, thence along Interstate Highway 20 to the Mississippi-Louisiana State line. The purpose of this filing is to eliminate the gateway of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 111496 (Sub-No. E1), filed June 4, 1974. Applicant: TWIN CITY FREIGHT, INC., 2550 Long Lake Road, Roseville, Minn 55113. Applicant's representative: R. E. Caturia (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular rotes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, from Fargo, North Dakota, to those points in North Dakota on and North of North Dakota Highway 5. The purpose of this filing is to eliminate the gateway of points in Walsh County, North Dakota.

No. MC 113855 (Sub-No. E2), (Correction), filed June 13, 1974, published in the FEDERAL REGISTER January 7, 1975. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Herbert J. Hilken (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (2) *Self-propelled articles*, each weighing 15,000 pounds or more and *related machinery, tools, parts, and supplies* moving in connection therewith (restricted to commodities transported on trailers), between points in Idaho, on the one hand, and, on the other, points in Michigan. The purpose of this filing is to eliminate the gateway of (1) points in Utah, (2) points in Montana and other points in South Dakota east of the Missouri River, and (3) points in Wyoming and those in South Dakota east of the Missouri River. The purpose of this partial correction is to clarify the commodity description. The remainder of this letter-notice remains as previously published.

No. MC 113855 (Sub-No. E21) (Correction), filed May 30, 1974, published in the FEDERAL REGISTER January 8, 1975. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Commodities classified as *dairy products* under B in the appendix to the report in modification of permits of motor contract carriers of packinghouse products, 46 M.C.C. 626, from the Upper Peninsula of Michigan to points in Mississippi on and south of a line beginning at the Alabama-Mississippi State line and extend along Mississippi Highway 50 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction Mississippi Highway 12, thence along Mississippi Highway 12 to junction Mississippi Highway 43, thence along Mississippi Highway 43 to junction Interstate Highway 20, thence along Interstate Highway 20 to the Mississippi-Louisiana State line. The purpose of this filing is to eliminate the gateway of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 111496 (Sub-No. E1), filed June 4, 1974. Applicant: TWIN CITY FREIGHT, INC., 2550 Long Lake Road, Roseville, Minn 55113. Applicant's representative: R. E. Caturia (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular rotes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, from Fargo, North Dakota, to those points in North Dakota on and North of North Dakota Highway 5. The purpose of this filing is to eliminate the gateway of points in Walsh County, North Dakota.

No. MC 113855 (Sub-No. E2), (Correction), filed June 13, 1974, published in the FEDERAL REGISTER January 7, 1975. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Herbert J. Hilken (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (2) *Self-propelled articles*, each weighing 15,000 pounds or more and *related machinery, tools, parts, and supplies* moving in connection therewith (restricted to commodities transported on trailers), between points in Idaho, on the one hand, and, on the other, points in Michigan. The purpose of this filing is to eliminate the gateway of (1) points in Utah, (2) points in Montana and other points in South Dakota east of the Missouri River, and (3) points in Wyoming and those in South Dakota east of the Missouri River. The purpose of this partial correction is to clarify the commodity description. The remainder of this letter-notice remains as previously published.

No. MC 113855 (Sub-No. E21) (Correction), filed May 30, 1974, published in the FEDERAL REGISTER January 8, 1975. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic and aluminum pipe* (except oilfield pipe as described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), the transportation of which because of its size or weight requires the use of special equipment; (a) from points in Delaware to points in Arizona, New Mexico, and those in Oklahoma on and west of U.S. Highway 83 (points in Hall County, Nebr.)*; (b) from points in Maryland on and east of U.S. Highway 15 to points in Arizona (same as (a))*; (c) from points in Maryland on, east, and south of Interstate Highway 83 from the Pennsylvania-Maryland State line to its junction with U.S. Highway 301, thence along U.S. Highway 301 to the Maryland-Virginia State line to points in that part of New Mexico, except points south and east of a line beginning along U.S. Highway 60 at the New Mexico-Texas State line, thence westerly along U.S. Highway 60 to junction U.S. Highway 54, thence southerly along U.S. Highway 54 to the New Mexico-Texas State line*. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this partial correction is to clarify the commodity description. The remainder of this letter-notice remains as previously published.

No. MC 113855 (Sub-No. E37) (Correction), filed May 30, 1974, published in the FEDERAL REGISTER January 8, 1975. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Rd., S.E., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled articles*, each weighing 15,000 pounds or more and related machinery, tools, parts and supplies moving in connection therewith (restricted to commodities transported on trailers), (d) between points in Nebraska west of U.S. Highway 81, on the one hand, and, on the other, points in North Dakota on and east of a line beginning at the North Dakota-South Dakota State line, thence northerly along North Dakota Highway 18 to junction Interstate Highway 94, thence westerly along Interstate Highway 94 to junction North Dakota Highway 1, thence northerly along North Dakota Highway 1 to the United States-Canada Boundary line (except points on North Dakota Highway 1 lying on or north of U.S. Highway 2). The purpose of this filing is to eliminate the gateways of points in South Dakota in (a) and (b) and points in Minnesota within 50 miles of Sioux Falls, S. Dak., in (c) and (d). The purpose of this partial correction is to clarify the commodity description. The remainder of this letter-notice remains as previously published.

No. MC 114019 (Sub-No. E418), filed May 14, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Packinghouse products* and *byproducts*, and *packinghouse supplies*, from Sioux City and Des Moines, Iowa, Omaha, Nebraska, Kansas City, and Wichita, Kansas, and St. Joseph and Kansas City, Missouri, to points in Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, Delaware, those points in Virginia on and east of U.S. Highway 501, those points in Maryland on and east of U.S. Highway 15. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pennsylvania, and Chicago, Illinois.

No. MC 114211 (Sub-No. E492), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery* and *parts* thereof, from points in that part of Minnesota on and west of a line beginning at the Minnesota-Wisconsin State line extending along Interstate Highway 94 to junction Minnesota Highway 3, thence along Minnesota Highway 3 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction U.S. Highway 63, thence along U.S. Highway 63, to junction Interstate Highway 90, thence along Iowa Highway 90 to junction U.S. Highway 218, thence along U.S. Highway 218 to the Minnesota-Iowa State line, and from points in that part of Minnesota on and east of a line beginning at the Minnesota-Wisconsin State line extending along U.S. Highway 12 to the junction Interstate 694, thence along I 694 to junction Interstate Highway 494, thence along Interstate 494 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Minnesota Highway 22, thence along Minnesota Highway 22 to junction U.S. Highway 16.

Thence along U.S. Highway 16 to junction U.S. Highway 69, thence along U.S. Highway 69 to Minnesota-Iowa State line, to points in that part of Michigan on and north of a line beginning at the Wisconsin-Michigan State line extending along U.S. Highway 8 to junction U.S. Highway 2, thence along U.S. Highway 2 to Escanaba, Mich., to points in that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line extending along U.S. Highway 8, thence along U.S. Highway 8 to the Wisconsin-Michigan State line; to points in that part of Ohio on and east of a line beginning at the Ohio-Kentucky State line extending along Interstate Highway 71 to junction State Highway 13, thence along Ohio Highway 13, to junction U.S. Highway 250, thence along U.S. Highway 250 to Sandusky, Ohio; to points in that part of Tennessee on and east of a line beginning at the Tennessee-Mississippi State line extending along U.S. Highway 79, to the Kentucky-Tennessee State line; to points in that part of Kentucky on and south of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 79 to junction U.S. Highway 68, thence along U.S. Highway 68, to junction U.S. Highway 31 E, thence along U.S. Highway 31 E, to junction Interstate Highway 264, thence along Interstate Highway 264, to junction Interstate Highway 71, thence along Interstate Highway 71 to the Kentucky-Indiana State line, to points in that part of Arkansas on, south, and east of a line beginning at the Arkansas-Texas State line extending along U.S. Highway 822 to junction U.S. Highway 79, thence along U.S. Highway 79 to the Arkansas-Tennessee State line; to points in that part of Texas on and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 83 to junction U.S. Highway 62.

Thence along U.S. Highway 62 to the Texas-Oklahoma State line; to points in that part of Texas on and south of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 283 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 82, thence along U.S. Highway 82 to the Texas-Arkansas State line: to points in that part of Oklahoma on and south of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 62 to junction U.S. Highway 283, thence along U.S. Highway 283 to the Oklahoma-Texas State line: to points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 83, thence along U.S. Highway 83 to the Oklahoma-Texas State line, and those points in Oklahoma on and south of line beginning at the Texas-Oklahoma State line extending along U.S. Highway 62 to junction U.S. 283, thence along U.S. 283 south to the Oklahoma-Texas State line; to points in that part of Kansas on and south of a line beginning at the Colorado-Kansas State line extending along U.S. Highway 50 to junction U.S. Highway 270, thence along U.S. Highway 270 to the Oklahoma-Kansas State line: to points in that part of Colorado on and west of a line beginning at the Wyoming-Colorado State line extending along U.S. Highway 85 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Colorado-Kansas State line; to points in that part of Wyoming on, north and west of a line beginning at the South Dakota-Wyoming State line extending along U.S. Highway 85 to junction U.S. Highway 18 and 85, thence along U.S. 18 and 85 to junction U.S. Highway 18 and 20, thence along U.S. Highway 18 and 20, to junction Interstate Highway 25.

Thence along Interstate Highway 25 to the Wyoming-Colorado State line; to points in that part of South Dakota on, north and west of a line beginning at the North Dakota-South Dakota State line extending along South Dakota Highway 10, thence along South Dakota Highway 10 to junction U.S. Highway 83, thence along U.S. Highway 83, to junction U.S. Highway 12, thence along U.S. Highway 12 to junction South Dakota Highway 20, thence along North Dakota Highway 20, to junction South Dakota Highway 65, thence along North Dakota Highway 65, to junction U.S. Highway 212, thence along U.S. Highway 212, to junction South Dakota Highway 73, thence along South Dakota Highway 73, to junction South Dakota Highway 34, thence along South Dakota Highway 34 to junction U.S. Highway 85, thence along U.S. Highway 85 to the South Dakota-Wyoming State line, to points in that part of North Dakota on and north and west of a line beginning at the Minnesota-North Dakota State line extending along Interstate Highway 94 to junction North Dakota Highway 32, thence along North Dakota Highway 32 to junction North Dakota Highway 11, thence along North Dakota Highway 11 to junction North Dakota Highway 3, thence along North Dakota Highway 3 to the North Dakota-South Dakota State line: and to points in Washington, Oregon, California, Idaho, Nevada, Arizona, Utah, Montana, New Mexico, Louisiana, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, West Virginia. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E554), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories therefor* when moving with such pipe, the transportation of which because of size or weight, requires special equipment, from points in that part of Missouri on and north of a line beginning at the Missouri-Illinois State line extending along Missouri Highway 180 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction Missouri Highway 19, thence along Missouri Highway 19 to junction Missouri Highway 22, thence along Missouri Highway 22 to junction Missouri Highway 15, thence along Missouri Highway 15 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Missouri-Kansas State line, to points in that part of New Mexico on and west of a line beginning at the Texas-New Mexico State line extending along Interstate Highway 25 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction New Mexico Highway 32, thence along New Mexico Highway 32 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction U.S. Highway 57, thence along U.S. Highway 57 to junction New Mexico Highway 44, thence along New Mexico Highway 44 to junction New Mexico Highway 126, thence along New Mexico Highway 126 to junction New Mexico Highway 4, thence along New Mexico Highway 4 to junction U.S. Highway 285, thence along U.S. Highway 285 to the New Mexico-Colorado State line; to points in that part of Colorado on and west and south of a line beginning at the New Mexico-Colorado State line extending along U.S. Highway 285 to junction Colorado Highway 17, thence along Colorado Highway 17 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Colorado Highway 82, thence along Colorado Highway 82 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 6, thence along U.S. Highway 6 west to the Colorado-Utah State line. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E558), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof* from that part of Minnesota on, north, and west of a line beginning at the Minnesota-South Dakota State line extending along U.S. Highway 12 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Minnesota Highway 25, thence along Minnesota Highway 25 to junction Minnesota Highway 210, thence along Minnesota Highway 210 to junction Minnesota Highway 6, thence along Minnesota Highway 6 to junction U.S. Highway 71, thence along U.S. Highway 71 to the United States-Canada International Boundary line, to points in that part of California on and south of a line beginning at the Nevada-California State line extending along U.S. Highway 6 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction California Highway 120, thence along California Highway 120 to junction

California Highway 140, thence along California Highway 140 to junction California Highway 99, thence along California Highway 99 to junction California Highway 32, thence along California Highway 32 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction California Highway 20, thence along California Highway 20 to Ft. Bragg, Calif.; to points in that part of Nevada on and south of a line beginning at the Nevada-Utah State line extending along Nevada Highway 25 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Nevada-California State line; to points in that part of Utah on and west of a line beginning at the Utah-Nevada State line extending along Utah Highway 56 to junction Utah Highway 14, thence along Utah Highway 14 to junction U.S. Highway 89, thence along U.S. Highway 89 to the Utah-Arizona State line; to points in that part of Colorado on and south of a line beginning at the Colorado-New Mexico State line extending along U.S. Highway 160 to junction U.S. Highway 160 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Colorado-New Mexico State line; to points in that part of New Mexico on, south, and west of a line beginning at the New Mexico-Colorado State line extending along U.S. Highway 84, thence along U.S. Highway 84 to the New Mexico-Texas State line; to points in that part of Texas on and south of a line beginning at the Texas-New Mexico State line extending along U.S. Highway 84 to junction U.S. Highway 82.

Thence along U.S. Highway 82 to junction U.S. Highway 75, thence along U.S. Highway 75 to the Texas-Oklahoma State line; to points in that part of Oklahoma on and east of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 69 to junction Interstate Highway 44, thence along Interstate Highway 44 to the Oklahoma-Missouri State line; to points in that part of Kansas on and east of a line beginning at the Kansas-Missouri State line extending along U.S. Highway 66 to junction Kansas Highway 26, thence along Kansas Highway 26 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Kansas-Missouri State line; to points in that part of Missouri on and east of a line beginning at the Missouri-Kansas State line extending along U.S. Highway 69, thence along U.S. Highway 69 to the Missouri-Iowa State line; to points in that part of Iowa on and east of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 69 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Iowa-Minnesota State line; to points in that part of Michigan on and south of a line beginning at Lake Michigan extending along U.S. Highway 10 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Interstate Highway 96, thence along Interstate Highway 96 to junction Michigan Highway 21, thence along Michigan Highway 21 to the United States-Canada International Boundary line; to points in that part of Wisconsin on and south of a line beginning at the Wisconsin-Minnesota State line extending along U.S. Highway 12 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 41, thence along U.S. Highway 41 to Green Bay; points in Arkansas, Tennessee, Mississippi, Alabama, Georgia, Florida, South Carolina, Louisiana, North Carolina, Kentucky, West Virginia, Ohio, Indiana, Illinois, and Arizona, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E570), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hod buggies and self-propelled* sweepers, from that part of Kansas on and west of a line beginning at the Kansas-Nebraska State line extending along U.S. Highway 183 to junction Kansas Highway 9, thence along Kansas Highway 9 to junction Kansas Highway 23, thence along Kansas Highway 23 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Kansas Highway 25, thence along Kansas Highway 25 to junction U.S. Highway 160, thence along U.S. Highway 160 to the Kansas-Colorado State line; to points in that part of Pennsylvania on and east of a line beginning at the New York-Pennsylvania State line extending along Pennsylvania Highway 449 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Pennsylvania-New Jersey State line; to points in that part of New Jersey on and east of a line beginning at the Pennsylvania-New Jersey State line extending along U.S. Highway 206 to junction New Jersey Highway 15, thence along New Jersey Highway 15 to junction U.S. Highway 46, thence along U.S. Highway 46 to junction New Jersey Highway 53, thence along New Jersey Highway 53 to junction New Jersey Highway 10, thence along New Jersey Highway 10 to Newark, N.J.; to points in that part of New York on and east of a line beginning at Silver Creek, N.Y., extending along New York Highway 428 to junction New York Highway 83, thence along New York Highway 83 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction New York Highway 17, thence along New York Highway 17 to junction U.S. Highway 219, thence along U.S. Highway 219 to the New York-Pennsylvania State line; and points in Massachusetts and Connecticut, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E577), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories therefor* when moving with such pipe, the transportation of which because of size or weight, requires special equipment, from points in that part of Missouri on and west of a line beginning at the Missouri-Iowa State line extending along U.S. Highway 71 to junction Interstate Highway 29, thence along Interstate Highway 29 to junction Interstate Highway 35, thence along Interstate Highway 35 to the Missouri-Kansas State line, to points in that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line extending along Wisconsin Highway 54 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Wisconsin Highway 54, thence along Wisconsin Highway 54 to Lake Michigan, to points in that part of Michigan on and north of a line beginning at Lake Michigan extending along U.S. Highway 10 to junction Interstate Highway 75, thence along Interstate Highway 75 to Detroit, Mich. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E578), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery* and *contractors' equipment and supplies*, from points in that part of Iowa on, north and west of a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 169 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line, to points in that part of New York on and east of a line, beginning at Lake Ontario extending along New York Highway 57 to junction I Highway 81 to junction New York Highway 13, thence along New York Highway 13 to junction New York Highway 14, thence along New York Highway 14 to the New York-Pennsylvania State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of Stinar Corporation at or near Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E580), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa. 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery* and *parts* thereof, from Portal, North Dakota, to points in that part of Texas on and east

of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 281 to junction Texas Highway 79, thence along Texas Highway 79 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 377, thence along U.S. Highway 377 to Del Rio, Texas; to points in that part of Oklahoma on and east of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 77 to junction H. E. Bailey Turnpike, thence along H. E. Bailey Turnpike to the Oklahoma-Texas State line; to points in that part of Kansas on and east of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 75 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line; to points in that part of Nebraska on and east of a line beginning at the Iowa-Nebraska State line extending along U.S. Highway 2 to junction U.S. Highway 75, thence along U.S. Highway 75 to the Nebraska-Kansas State line; to points in that part of Iowa on and east of a line beginning at the Minnesota-Iowa State line extending along Iowa Highway 4 to junction Iowa Highway 9, thence along Iowa Highway 9 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 59, thence along U.S. Highway 59, to junction Iowa Highway 2 to the Iowa-Nebraska State line; to points in that part of Minnesota on, south and east of a line beginning at the Wisconsin-Minnesota State line extending along U.S. Highway 8 to junction U.S. Highway 61 to junction Minnesota Highway 5, thence along Minnesota Highway 5, to junction Iowa Highway 494, thence along Interstate Highway 494, to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Minnesota Highway 60, thence along Minnesota Highway 60 to junction Mirnesota Highway 4, thence along Minnesota Highway 4 to the Minnesota-Iowa State line; to points in that part of Wisconsin on and east of a line beginning at Ashland, extending along U.S. Highway 2 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 8, thence along U.S. Highway 8 to the Wisconsin-Minnesota State line; and to points in Michigan, Illinois, Missouri, Arkansas, Louisiana, Indiana, Kentucky, Tennessee, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, West Virginia, Ohio.

No. MC 114211 (Sub-No. E581), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery*, and *implements*, other than hand, and parts when transported with such agricultural machinery and implements as described in Sections B and C of Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, except those requiring the use of special equipment, from Corpus Christi, Texas, to points in that part of Nebraska on, south and east of a line beginning at the Nebraska-Iowa State line extending along U.S. Highway 6 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line. RESTRICTED against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling and restricted against the transportation of those commodities described in *Mercer Extention—Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of points in Nebraska West of U.S. Highway 72.

No. MC 114211 (Sub-No. E582), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, tractor attachments*, and *parts* between the Port of Entry of Miami, Florida, and Mobile, Alabama, on the one hand, and, on the other, points in Colorado, Kansas, Nebraska, and South Dakota. The purpose of this filing is to eliminate the gateway of Topeka, Kansas.

No. MC 114211 (Sub-No. E583), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, road making machinery, and contractors' equipment and supplies*, the transportation of which, because of size or weight, requires the use of special equipment, between points in that part of Kansas on, north, and west of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 77 to junction Interstate Highway 70, thence along Interstate Highway 40 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction U.S. Highway 56, thence along U.S. Highway 56 to the Oklahoma-Kansas State line, on the one hand, and, on the other, points in that part of Missouri on, north, and east of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 65 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Missouri-Illinois State line. The purpose of this filing is to eliminate the gateway of points in Nebraska.

No. MC 114211 (Sub-No. E584), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving, and finishing machinery, equipment, parts, accessories and attachments*, between that part of South Dakota on and east of a line beginning at the South Dakota-North Dakota State line extending along U.S. Highway 281 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction South Dakota Highway 37, thence along South Dakota Highway 37 to junction South Dakota Highway 34, thence along South Dakota Highway 34 to junction South Dakota Highway 37, thence along South Dakota Highway 37 to junction South Dakota Highway 50, thence along South Dakota Highway 50 to junction South Dakota Highway 11, thence along South Dakota Highway 11 to the Iowa-South Dakota State line, on the one hand, and, on the other, points in Oklahoma and New Mexico. The purpose of this filing is to eliminate the gateway of Canton, S. Dak.

No. MC 114211 (Sub-No. E585), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, (except commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling), from points in that part of Nebraska on and south of a line beginning at the Nebraska-Wyoming State line extending along U.S. Highway 26 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line, to points in Wisconsin and Michigan, with no transportation for compensation on return except as otherwise authorized restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E586), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, (except commodities the transportation of which, because of size or weight, require the use of special equipment or special handling), between points in Illinois, on the one hand, and, on the other, points in that part of Colorado on and northwest of a line beginning at the Kansas-Colorado State line extending along U.S. Highway 36 to junction Colorado Highway 57, thence along Colorado Highway 57 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Colorado

Highway 115, thence along Colorado Highway 115 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Colorado Highway 67, thence along Colorado Highway 67 to junction Colorado Highway 96, thence along Colorado Highway 96 to junction Colorado Highway 165, thence along Colorado Highway 165 to junction Interstate Highway 25, thence along Interstate Highway 25 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 285, thence along U.S. Highway 285 to the Colorado-New Mexico State line, restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateways of Omaha and Beatrice, Nebr., and Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E587), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on and east of a line beginning at the Minnesota-Iowa State line extending along U.S. Highway 169 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Interstate Highway 35, thence along Interstate Highway 35 to the Iowa-Missouri State line, to points in New Mexico, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Ottumwa, Iowa.

No. MC 114211 (Sub-No. E588), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery*, from points in that part of Illinois on and north of a line beginning at the Illinois-Indiana State line extending along Interstate Highway 80 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Illinois-Iowa State line, to parts of Texas on and west of a line beginning at the Texas-Oklahoma State line extending along Interstate Highway 35 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Gulf Coast with no transportation for compensation on return except as otherwise authorized restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateways of Nebraska City, Nebr., Beatrice, Nebr., and points in Iowa.

No. MC 114211 (Sub-No. E589), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Illinois on and north of line beginning at a point of the Illinois-Indiana State line extending along U.S. Highway 24 to junction Illinois Highway 116, thence along Illinois Highway 116 to junction U.S. Highway 34, thence along U.S. Highway 34 to the Illinois-Iowa State line, to points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 75 to junction Texas Highway 288, thence along Texas Highway 288 to the Gulf of Mexico, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 114211 (Sub-No. E590), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on and east of a line beginning at the Iowa-Missouri State line extending along Interstate 35 to Junction Iowa Highway 92, thence along Iowa Highway 92 to Junction U.S. Highway 169, thence along U.S. Highway 169 to Junction U.S. Highway 18, thence along U.S. Highway 18 to Junction Iowa Highway 4, thence along Iowa Highway 4 to the Minnesota-Iowa State line, to points in Texas, with no transportation for compensation on return as otherwise authorized. The purpose of this filing is to eliminate the gateway of Ottumwa, Iowa.

No. MC 114211 (Sub-No. E591), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on and east of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 34 to junction Iowa Highway 5, thence along Iowa Highway 5 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Iowa Highway 191, thence along Iowa Highway 191 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Iowa-Minnesota State line, to points in that part of Texas on, south, and east of a line beginning at the Texas-Oklahoma State line extending along Texas Highway 79 to junction U.S. Highway 82/277, thence along U.S. Highway 82/277 to junction with U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 377, thence along U.S. Highway 377 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 57, thence along U.S. Highway 57 to Eagle Pass, Tex., with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 114211 (Sub-No. E592), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on and east of a line beginning at the Iowa-Missouri State line extending along Interstate 35 to Junction Iowa Highway 92, thence along Iowa Highway 92 to Junction U.S. Highway 169, thence along U.S. Highway 169 to Junction U.S. Highway 18, thence along U.S. Highway 18 to Junction Iowa Highway 4, thence along Iowa Highway 4 to the Minnesota-Iowa State line, to points in Texas, with no transportation for compensation on return as otherwise authorized. The purpose of this filing is to eliminate the gateway of Ottumwa, Iowa.

No. MC 114211 (Sub-No. E593), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* (other than pipe used in or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products), and *fittings and accessories* therefor when moving with such pipe, from points in that part of Illinois on and north of a line beginning at the Missouri-Illinois State line, thence along U.S. Highway 40 to the Illinois-Indiana State line, thence along the Illinois-Indiana State line to the Iowa-Illinois State line, thence along the Illinois-Iowa State line to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Illinois Highway 116, thence along Illinois Highway 116 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line, to points in Idaho, Utah, and Arizona, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of the Griffith Pipe Co., located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E595), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, between points in that part of Illinois on and north of a line beginning at the Iowa-Indiana State line extending along Interstate Highway 80 to junction Illinois Highway 92, thence along Illinois Highway 92 to the Illinois-Iowa State line, on the one hand, and, on the other, points in that part of Missouri on, north, and east of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 65 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Missouri-Kansas State line. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 114211 (Sub-No. E596), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, from points in that part of Illinois on and north of a line beginning at the Missouri-Illinois State line extending along Illinois Highway 140 to junction U.S. Highway 40, thence along U.S. 40 to junction Illinois Highway 33, thence along Illinois Highway 33 to junction Illinois Highway 130, thence along Illinois Highway 130 to junction U.S. 50, thence along U.S. Highway 50 to the Illinois-Indiana State line, to points in New Mexico, with no transportation for compensation on return except as otherwise authorized. The purpose of this filin gis to eliminate the gateway of Ottumwa, Iowa.

No. MC 114211 (Sub-No. E597), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery*, from points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 136 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line, to points in that part of Texas on and southwest of a line beginning at the United States-Mexico Boundary line extending along U.S. Highway 277 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. 62, thence along U.S. Highway 62 to the Texas-Oklahoma State line with no transportation for compensation on return except as otherwise authorized, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateways of Des Moines, Iowa, and Beatrice, Nebraska.

No. MC 114211 (Sub-No. E604), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in Illinois, to points in that part of New Mexico on and west of a line beginning at the New Mexico-Texas State line extending along New Mexico Highway 170 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction New Mexico Highway 44, thence along New Mexico Highway 44, to junction New Mexico Highway 4, thence along New Mexico Highway 4 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction New Mexico Highway 14, thence along New Mexico Highway 14 to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line. The purpose of this filing is to eliminate the gateway of Ottumwa, Iowa.

No. MC 114211 (Sub-No. E605), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural shredders, agricultural sprayers, scalpers, row crop shields, corn cribs* (knocked down), and *attachments* and *parts* for said shredders, sprayers, scalpers, and corn cribs, when moving incidental to and in the same vehicle with said commodities, from points in that part of Missouri on and east of a line beginning at the Missouri-Iowa State line extending along Interstate Highway 29 to junction Interstate Highway 35, thence along Interstate Highway 35 to the Missouri-Kansas State line, to points in that part of Indiana on and north of a line beginning at the Illinois-Indiana State line extending along Interstate Highway 94 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Indiana-Ohio State line; to points in that part of Ohio on and north of a line beginning at the Ohio-Indiana State line extending along U.S. Highway 20 to junction Ohio Highway 18, thence along Ohio Highway 18, to junction Interstate Highway 77, thence along Interstate Highway 77, to junction U.S. Highway 30, thence along U.S. Highway 30 to the Ohio-Pennsylvania State line; to points in that part of Pennsylvania on and north of a line beginning at the Pennsylvania-Ohio State line extending along U.S. Highway 30 to junction U.S. Highway 140, thence along U.S. Highway 140 to the Pennsylvania-Maryland State line; and to points in Michigan and New York (except points in Kings, Queens, Nassau, and Suffolk Counties), with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Oelwein and Des Moines, Iowa.

No. MC 114211 (Sub-No. E606), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof between points in that part of Iowa on, north and east of a line beginning at the Iowa-Nebraska State line extending along U.S. Highway 6 to junction U.S. Highway 59, thence along U.S. Highway 59, to junction U.S. Highway 30, thence along U.S. Highway 30, to junction U.S. Highway 17, thence along U.S. Highway 17 to junction U.S. Highway 20, thence along U.S. Highway 20, to junction U.S. Highway 69, thence along U.S. Highway 69, to junction U.S. Highway 18, thence along U.S. Highway 18, to junction U.S. Highway 52, thence along U.S. Highway 52 to the Iowa-Illinois-Wisconsin State lines, on the one hand, and, on the other, points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 75 to junction Indiana Turnpike, thence along Indiana Turnpike to junction U.S. Highway 271, thence along U.S. Highway 271 to the Oklahoma-Texas State line, restricted against the transportation of commodities the transportation of which because of size or weight; requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension Oil Field Commodities*, 74 MCC 459. The purpose of this filing is to eliminate the gateways of Omaha and Beatrice, Nebraska, and Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E607), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, between points in that part of Iowa on and west of a line beginning at the Minnesota-Iowa State line extending along Iowa Highway 86 to junction U.S. Highway 71, thence along U.S. Highway 71, to junction Iowa Highway 10, thence along Iowa Highway 10, to junction U.S. Highway 59, thence along U.S. Highway 59, to junction Iowa Highway 175, thence along Iowa Highway 37, to junction Interstate Highway 29, thence along Interstate Highway 29, to junction U.S. Highway 6, thence along U.S. Highway 6 west to Iowa-Nebraska State line, on the one hand, and, on the other, points in Oklahoma, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension Oil Field Commodities*, 74 MCC 459. The purpose of this filing is to eliminate the gateways of Omaha and Beatrice, Nebraska, and Council Bluffs, Iowa.

XUM V40 N28 FEB 10 75 XUM

No. MC 114211 (Sub-No. E608), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery* and *contractors' equipment* and *supplies*, from points in that part of Illinois on and north of a line beginning at Indiana-Illinois State line and extending along U.S. Highway 30 to the Illinois-Iowa State line, to points in California, Nevada and Utah, and to points in that part of Arizona on and west of a line beginning at the Colorado-Arizona State line extending along U.S. Highway 16 to junction Arizona Highway 63, thence along Arizona Highway 63, to junction U.S. Highway 66, thence along U.S. Highway 66, to junction U.S. Highway 180, thence along U.S. Highway 180 to junction U.S. Highway 60, thence along U.S. Highway 60, to junction U.S. Highway 70, thence along U.S. Highway 666, thence along U.S. Highway 666 to the U.S.-Mexico Boundary line, and to points in that part of Wyoming on and north and west of a line beginning at the Wyoming-South Dakota State line extending along U.S. Highway 16 to junction Wyoming Highway 450, thence along Wyoming 450 to junction Wyoming Highway 59, thence along Wyoming Highway 59, to junction Wyoming Highway 387, thence along Wyoming Highway 387 to junction U.S. Highway 87, thence along U.S. Highway 87, to junction Wyoming Highway 220, thence along Wyoming Highway 220, to junction U.S. Highway 287, thence along 287, to junction Interstate Highway 80, thence along Interstate Highway 80, to junction Wyoming Highway 430, thence along Wyoming Highway 430 to the Wyoming-Colorado State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E609), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, between points in that part of Minnesota on, west, and north of a line beginning at the Iowa-Minnesota State line extending along Minnesota Highway 15 to junction Minnesota Highway 23, thence along Minnesota Highway 23 to junction Interstate Highway 35, thence along Interstate Highway 35 to Duluth, Minn., on the one hand, and, on the other, points in Oklahoma. The purpose of this filing is to eliminate the gateways of Council Bluffs, Iowa, Beatrice, Nebr., and Nebraska City, Nebr.

No. MC 114211 (Sub-No. E610), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except truck tractors) *scrapers, motor graders, wagons, engines* (except aircraft and missile engines), *generators, engines and generators combined, welders, road rollers, and dump trucks and parts attachments and accessories* for the above described commodities from Aurora, Joliet, Mossville, Decatur, Morton, and Peoria, Illinois and points within 15 miles of Peoria, Illinois to points in North Dakota, Montana, Idaho, Washington, Oregon, and to points in that part of Wyoming on and north of the line beginning at the Wyoming-Nebraska State line and extending along U.S. Highway 26 to the Wyoming-Idaho State line; to points in that part of Utah on and west of the line beginning at the Idaho-Utah State line extending, along U.S. Highway 89 to junction U.S. Highway 6, thence along U.S. Highway 6 to Nevada-Utah State line, to points in Nevada north of U.S. Highway 6; and to points in that part of California on and west of a line beginning at the Nevada-California State line extending along U.S. Highway 395 to San Diego, California with no transportation for compensation on return except as otherwise authorized restricted to the transportation of shipments originating at the above-named origins. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E6111, filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery*, between points in that part of Iowa on and east of a line beginning at the Missouri-Iowa State line extending along U.S. Highway 63 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Iowa-Minnesota State line, on the one hand, and, on the other, points in Oklahoma. The purpose of this filing is to eliminate the gateways of Des Moines, Iowa, and Beatrice, Nebr.

No. MC 114211 (Sub-No. E613), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except those with vehicle beds, bed frames, and fifth wheels), equipment designed for use in conjunction with tractors, attachments for the above-described commodities, and parts, from Noyes, Minnesota, to points in Washington, Oregon, California, Nevada, Idaho, Utah, New Mexico, Texas, Oklahoma, Kansas, Colorado, Wyoming, South Dakota, Nebraska, Iowa, Missouri, Arkansas, Louisiana, Mississippi, Tennessee, Illinois, Wisconsin, Indiana, Michigan, Ohio, Kentucky, Alabama, Georgia, Florida, South Carolina, North Carolina, Virginia, West Virginia, Pennsylvania, District of Columbia, Maryland, Delaware, New Jersey, Connecticut, Rhode Island, New York, Massachusetts, New Hampshire, Vermont, Maine, and to points in that part of Montana on and southwest of a line beginning at the North Dakota-Montana State line thence along Interstate Highway 94 to junction Montana Highway 200 S, thence along Montana Highway 200 S to junction Montana Highway 200, thence along Montana Highway 200 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 191, thence along U.S. Highway 191 to junction Fergus County Highway 236,

Thence along Fergus County Highway 236 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Hill County Highway 432, thence along Hill County Highway 432 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction U.S. Highway 91, thence along U.S. Highway 91 to the United States-Canada Boundary line, and to points in that part of Minnesota on and south of a line beginning at the North Dakota-Minnesota State line extending along U.S. Highway 10 to junction Minnesota, Highway 87, thence along Minnesota Highway 87, thence along nesota Highway 64, thence along Minnesota Highway 64 to junction Minnesota Highway 210, thence along Minnesota Highway 210 to the Minnesota-Wisconsin State line, and to points in that part of North Dakota on and south of a line beginning at the Minnesota-North Dakota State line extending along Interstate Highway 94 to junction North Dakota Highway 31, thence along North Dakota Highway 31, to junction North Dakota Highway 200, thence along U.S. Highway 200 to junction U.S. Highway 85, to junction Interstate Highway 94, thence along Interstate Highway 94 to the North Dakota-Montana State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of that part of the Fargo, North Dakota, commercial zone located in Moorhead, Minnesota.

No. MC 114211 (Sub-No. E614), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* (except pipe used in or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission and distribution of natural gas and petroleum and their products) and fittings and accessories therefor when moving with such pipe, from points in that part of Texas on and west of a line

beginning at the Oklahoma-Texas State line extending along U.S. Highway 75 to junction Interstate Highway 35E, thence along Interstate Highway 35E, to junction U.S. Highway 183, thence along U.S. Highway 183, to junction U.S. Highway 90, thence along U.S. Highway 90, to junction Texas Highway 123, thence along Texas Highway 123, to junction U.S. Highway 181, thence along U.S. Highway 181, to junction Texas Highway 72, thence along Texas Highway 72, to junction U.S. Highway 281, thence along U.S. Highway 281 to the Mexico-Texas State line, and from points in that part of Oklahoma on and west of a line extending along U.S. Highway 75 to junction Indian Nation Turnpike, thence along Indian Nation Turnpike, to junction U.S. Highway 69, Oklahoma-Texas State line, to points in New York, Vermont, New Hampshire, Maine, Massachusetts, Rhode Island, Connecticut, and to points in that part of New Jersey on and north of a line beginning at the Pennsylvania-New Jersey State line extending along Interstate Highway 80 to junction Interstate Highway 280, to the New Jersey-New York State line, and to points in that part of Pennsylvania on and north of a line beginning at Erie, Pennsylvania extending along U.S. Highway 19 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 11, thence along U.S. Highway 11, to junction Interstate Highway 380, thence along Interstate Highway 380, to junction Interstate Highway 80, thence along Interstate Highway 80 to the Pennsylvania-New Jersey State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant-site of the Griffen Pipe Company located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E615), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on, south, and east of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 169 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Iowa Highway 149, thence along Iowa Highway 149 to junction Iowa Highway 151, thence along Iowa Highway 151 to junction Iowa Highway 64, thence along Iowa Highway 64 to the Iowa-Illinois State line, to points in South Dakota. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 114211 (Sub-No. E616), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterlo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving and finishing machinery, equipment, parts, accessories, and attachments*, from points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, and from points in that part of New York on and east of a line beginning at the U.S., Canada, Boundaries line extending along New York Highway 16 to junction New York Highway 17, thence along New York Highway 17, to junction U.S. Highway 219, thence along U.S. Highway 219 to the New York-Pennsylvania State line, and from points in that part of Pennsylvania on and east of a line beginning at the Pennsylvania-New York State line extending along U.S. Highway 219 to junction Pennsylvania Highway 879, thence along Pennsylvania Highway 879 to junction Pennsylvania Highway 453, thence along Pennsylvania 453, to junction Pennsylvania Highway 350, to junction U.S. Highway 522, thence along U.S. Highway 522 to junction Pennsylvania Highway 641, thence along Pennsylvania Highway 641, to junction Pennsylvania Highway 997, thence along Pennsylvania Highway 977 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction U.S. Highway 11, thence along Highway 11 south to the Pennsylvania-Maryland State line, to points in Washington, Oregon, Montana, and to points in that part of North Dakota on and west of a line beginning at the U.S.-Canada Boundary line extending along U.S. Highway 85.

Thence along U.S. Highway 85 to the North Dakota-South Dakota State line, and to points in that part of Idaho on and north of a line beginning at the Idaho-Wyoming State line extending along U.S. Highway 26 to junction Interstate Highway 15, thence along Interstate Highway 15, to junction U.S. Highway 30, thence along U.S. Highway 30, to junction U.S. Highway 93, thence along U.S. Highway 93 to the Idaho-Nevada State line, and to points in that part of Wyoming on and north of a line beginning at the Wyoming-Montana State line extending along U.S. Highway 26 to junction U.S. Highway 187, thence along U.S. Highway 187, to junction U.S. Highway 89, thence along U.S. Highway 89, to junction U.S. Highway 20, thence along U.S. Highway 20, to junction U.S. Highway 14, thence along U.S. Highway 14, to junction U.S. Highway 87, thence along U.S. Highway 87 to the Wyoming-Montana State line, and to points in that part of California on and north of a line beginning at the California-Nevada State line extending along U.S. Highway 395 to junction California Highway 70, thence along California Highway 70, to junction California Highway 149, thence along California Highway 149, to junction California Highway 99, thence along California Highway 99, to junction California Highway 36, thence along California Highway 36, to junction U.S. Highway 101, thence along U.S. Highway 101 to Eureka, California, and to points in that part of Nevada on and north of a line beginning at the Nevada-Idaho State line extending along U.S. Highway 93 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Nevada-California State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Canton, South Dakota, and Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E617), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery* and *parts* thereof, from points in that part of Illinois on and north of a line beginning at the Illinois-Iowa State line extending along U.S. Highway 30 to junction Illinois Highway 56, thence along Illinois Highway 56, to junction Illinois Highway 5, thence along Illinois Highway 5, to junction Interstate Highway 90, thence along Interstate Highway 90 to the Illinois-Indiana State line, to points in Utah, California, and Nevada and to points in that part of Wyoming on north & west of a line beginning at the Wyoming-South Dakota State line extending along U.S. Highway 16 to junction Wyoming Highway 450, thence along Wyoming Highway 450 to junction Wyoming Highway 59, thence along Wyoming Highway 59, to junction Wyoming Highway 387, thence along Wyoming Highway 387 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Wyoming Highway 220, thence along Wyoming Highway 220 to junction Wyoming Highway 73, thence along Wyoming Highway 73, to junction Interstate Highway 80, thence along Interstate Highway 80, to junction Wyoming Highway 430, thence along Wyoming Highway 430 to the Wyoming-Colorado State line, and to points in that part of Arizona on and west of a line beginning at the Colorado-Arizona State line extending along U.S. Highway 160 to junction Arizona Highway 63, thence along Arizona Highway 63, to junction U.S. Highway 66, thence along U.S. Highway 66, to junction U.S. Highway 180, thence along U.S. Highway 180, to junction U.S. Highway 60, thence along U.S. Highway 60, to junction U.S. Highway 70, thence along U.S. Highway 70, to junction U.S. Highway 666, thence along U.S. Highway 666 to the United States-Mexico Boundary line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E618), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as

V40128 FEB 10 75 XUM

a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery and contractors' equipment and supplies*, from points in Illinois to points in Washington, Oregon, Idaho, Montana, and North Dakota. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E619), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, from points in Illinois to points in Washington, Oregon, Idaho, Montana, and North Dakota. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 115331 (Sub-No. E26), filed June 3, 1974. Applicant: TRUCK TRANSPORT, INC., 230 Saint Clair Avenue, East St. Louis, Illinois 62201. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in containers, from points in New York, to points in Iowa, Missouri, Minnesota, Nebraska, those points in Illinois on and west of a line beginning at the Illinois-Wisconsin State line and extending along U.S. Highway 51 to its junction with Illinois Highway 17, thence along Illinois Highway 17 to its junction with U.S. Highway 45, thence along U.S. Highway 45 to the Illinois-Kentucky State line, and those points in Wisconsin on and west of U.S. 51. The purpose of this filing is to eliminate the gateway of El Paso, Illinois.

No. MC 115331 (Sub-No. E27), filed June 3, 1974. Applicant: TRUCK TRANSPORT, INC., 230 Saint Clair Avenue, East St. Louis, Illinois 62201. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW, Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in containers, from points in Nevada, to points in Pennsylvania, West Virginia, Kentucky, Ohio, Indiana, Michigan, Illinois, those points in Wisconsin on and south of Wisconsin Highway 64, those points in Iowa on and west of a line beginning at the Iowa-Missouri State line, and extending along U.S. 218 to its junction with Iowa Highway 1, thence along Iowa Highway 1 to its junction with U.S. 151, thence along U.S. 151 to the Iowa-Wisconsin State line, those points in Missouri on and east of a line beginning at the Missouri-Iowa State line, and extending along unmarked state highway to its junction with U.S. 63, thence along U.S. Highway 63 to its junction with U.S. Highway 61 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to the Missouri-Illinois State line. The purpose of this filing is to eliminate the gateway of El Paso, Illinois.

No. MC 119968 (Sub-No. E1), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Berry, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are manufactured and sold by chemical manufacturing plants (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemicals manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in Illinois, Indiana, the Southern Peninsula of Michigan, and those points in that part of Kentucky on and west of a line beginning at the Kentucky-Ohio State line and extending south along Interstate Highway 75 to the Kentucky-Tennessee State line, on the one hand, and, on the other, points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, Rhode Island, and those points in New York on and east of a line beginning at the U.S.-Canada International Boundary line and extending south along Interstate Highway 81 to the New York-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E4), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Berry, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are manufactured and sold by chemical manufacturing plants (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in the counties of Green and Washington, Pa., and the counties of Brook, Hancock, Marshall, and Ohio, W. Va., on the one hand, and, on the other, points in Illinois, Indiana, the Southern Peninsula of Michigan, those in Ohio on and west of a line beginning at Sandusky, Ohio, and extending south along Ohio Highway 39 to junction U.S. Highway 250 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Ohio Highway 16, thence along Ohio Highway 16 to junction U.S. Highway 23, thence along U.S. Highway 23 to the Ohio-Kentucky State line; those points in Kentucky on and west of a line beginning at the Ohio-Kentucky State line and extending east along U.S. Highway 23 to junction Kentucky Highway 7, thence along Kentucky Highway 7 to junction U.S. Highway 119, thence along U.S. Highway 119 to the Kentucky-West Virginia State line. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E5), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Such commodities as are manufactured and sold by chemical manufacturing plants (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in the counties of Armstrong, Beaver, Butler, and Lawrence Counties, Pa., on the one hand, and, on the other, points in Illinois, Indiana, Kentucky, the Southern Peninsula of Michigan, those in Ohio west of a line beginning at Toledo, Ohio, and extending south and east along Ohio Highway 2 to junction U.S. Highway 150, thence along U.S. Highway 250 to junction Ohio Highway 4, thence along Ohio Highway 4 to junction U.S. Highway 224, thence along U.S. Highway 224 to junction Ohio Highway 60, thence along Ohio Highway 60 to junction Ohio Highway 39, thence along Ohio Highway 39 to junction Interstate Highway 77, thence along Interstate Highway 77 to the Ohio-West Virginia State line, those in West Virginia on and west of Interstate Highway 77. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E6), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured and sold by chemical manufacturing plants* (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in that part of Kentucky on and east of a line beginning at Middlesboro, Ky., and extending north along U.S. Highway 119 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction Kentucky Highway 80, thence along Kentucky Highway 80 to junction U.S. Highway 119, thence along U.S. Highway 119 to the Kentucky-West Virginia State line, on the one hand, and, on the other, points in Illinois, Indiana, the Southern Peninsula of Michigan, those in Ohio on and west of a line beginning at Sandusky, Ohio, and extending south along U.S. Highway 250 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Ohio Highway 16, thence along Ohio Highway 16 to junction U.S. Highway 23, thence along U.S. Highway 23 to the Ohio-Kentucky State line; those points in Kentucky on and west of a line beginning at the Ohio-Kentucky State line and extending east along U.S. Highway 23 to junction Kentucky Highway 7, thence along Kentucky Highway 7 to junction U.S. Highway 119, thence along U.S. Highway 119 to the Kentucky-West Virginia State line. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E7), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured and sold by chemical manufacturing plants* (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between those points in Pennsylvania on and south of a line beginning at the Pennsylvania-West Virginia State line and extending north along U.S. Highway 119 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction U.S. Highway 322, thence along U.S. Highway 322 to the Pennsylvania-New Jersey State line, on the one hand, and, on the other, points in Illinois, Indiana, the southern peninsula of Michigan, those points in Kentucky on and west of a line beginning at the Ohio-Kentucky State line and extending south along U.S. Highway 68 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Kentucky-Tennessee State line; and those points in Ohio on and west of a line beginning at Lorain, Ohio, and extending south along Ohio Highway 57 to junction Ohio Highway 18, thence along Ohio Highway 18 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Ohio Highway 16, thence along Ohio Highway 16 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Ohio-Kentucky State line. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E8), filed May 20, 1974. Applicant: A. J. WEIGAN, INC., 3966 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are manufactured and sold by chemical manufacturing plants (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in that part of Kentucky on and east of a line beginning at Middlesboro, Ky., and extending north along U.S. Highway 119 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction Kentucky Highway 80, thence along Kentucky Highway 80 to junction U.S. Highway 119, thence along U.S. Highway 119 to the Kentucky-West Virginia State line, on the one hand, and, on the other, points in Connecticut, Massachusetts, New York, Rhode Island, that part of the southern peninsula of Michigan on and north of U.S. Highway 10, that part of Pennsylvania on and north of a line beginning at the Pennsylvania-West Virginia State line and extending east along Interstate Highway 70 to junction U.S. Highway 119, thence along U.S. Highway 119 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Pennsylvania-New Jersey State line; that part of West Virginia on and north of Interstate Highway 70. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E10), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are manufactured and sold by chemical manufacturing plants (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between those points in Pennsylvania on and south of a line beginning at the Pennsylvania-West Virginia State line and extending along U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 119, thence along U.S. Highway 119 to the West Virginia-Kentucky State line. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice No. 18]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

FEBRUARY 3, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC 67, (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field officials named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 17812 (Sub-No. 2TA), filed January 27, 1975. Applicant: M. BURNS TRUCKING CO., 1860 Fall River Avenue, Seekonk, Mass. 02771. Applicant's representative: John M. Burnes or Robert

Wallin (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Commercial papers, documents and written instruments* (except currency, and negotiable securities) as are used in the business of banks and banking institutions, between points in Daviess County, Ind., on the one hand, and, on the other, Indianapolis, Ind., restricted to shipments having a prior or subsequent movement by air, for 180 days. Supporting shipper: Joe M. Dearmin, Pres., The First National Bank of Odon, 100 E. Main Street, Odon, Ind. 47562. Send protests to: Robert G. Anderson, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Bldg., 219 S. Dearborn Street, Room 1086, Chicago, Ill. 60604.

No. MC 133977 (Sub-No. 21TA), filed January 23, 1975. Applicant: GENE'S, INC., 10115 Brookville Salem Road, Clayton, Ohio 45315. Applicant's representative: Paul F. Beery, 9th Floor, 8 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities dealt in by a retail distributor of pizza ingredients, fish, potatoes, and fish and potato ingredients and equipment, materials and supplies used in the manufacture of pizza ingredients, fish, potatoes, and fish and potato ingredients*, (1) From Kettering, Ohio to the Cassano Pizza King and London Bobby Stores at Quincy, Ill.; Hannibal, Mo.; Madison and Keokuk, Idaho; Lexington, Louisville and Maysville, Ky.; Erie, Pa.; and Detroit, Mich., and (2) From Detroit, Mich.; Chicago and Springfield, Ill.; St. Louis, Mo.; and Pittsburgh, Pa., to Kettering, Ohio. *Restricted to service* in dual refrigerated compartmented trailers, for 180 days. Supporting shipper(s): Cassano Enterprises, Inc., 1700 East Stroop Road, Dayton, Ohio 45429. Send protests to: Paul J. Lowry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 5514-B FOB, 550 Main Street, Cincinnati, Ohio 45202.

No. MC 134145 (Sub-No. 54TA), filed January 21, 1975. Applicant: NORTH STAR TRANSPORT, INC., Route 1, Highway, Thief River Falls, Minn. 56701. Applicant's representative: Robert P. Sack, P.O. Box 6010, West St. Paul, Minn. 55118. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Parts, computing machine*, (except commodities in bulk), from Owatonna, Minn., to Campton, Ky., Mount Clemens and Rochester, Mich., for 180 days. Supporting shipper(s): Computer Peripherals, Inc., 8100 34th Avenue South, Bloomington, Minn. 55420. Send protests to: J. H. Ambs, District Supervisor, Bureau of Operations, Interstate Commerce Commission, P.O. Box 2340, Fargo, N. Dak. 58102.

No. MC 135072 (Sub-No. 7), filed January 23, 1975. Applicant: HEATER TRUCKING, INC., 6887 Versailles Road, North Evans, N.Y. 14112. Applicant's representative: William J. Hirsch, Suite 1125, 43 Court Street, Buffalo, N.Y. 14202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt and emulsions*, in bulk, and equipment utilized in application and transportation of asphalt or emulsions, for the accounts of Allied Bitumens, Inc. and Allied Emulsions, Inc., over irregular routes, from Cheektowaga, N.Y., to points in Pennsylvania, except those in the counties of Bradford, Cameron, Clarion, Crawford, Elk, Erie, Jefferson, Lycoming, McKean, Potter, Tioga, Venango and Warren. Base Stock Asphalt, in bulk, and equipment utilized in the transportation of base stock asphalt, for the account of Allied Bitumens, Inc. and Allied Emulsions, Inc. From Marcus Hook, Pa., to Cheektowaga, N.Y., for 90 days. Supporting shipper(s): Allied Bitumens, Inc. and Allied Emulsions, Inc., 505 Como Park Blvd., Cheektowaga, N.Y. 14227. Send protests to: George M. Parker, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 612 Federal Building, 111 West Huron Street, Buffalo, N.Y. 14202.

No. MC 135437 (Sub-No. 2TA), filed January 22, 1975. Applicant: TRI-NORTHEASTERN TRANSPORT, INC., South Main Street, Lyndonville, N.Y. 14098. Applicant's representative: S. Michael Richards, 44 North Avenue, Webster, N.Y. 14580. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Unfrozen foodstuffs* (except in bulk), and *materials, supplies and equipment*, used in the manufacture, sale or distribution of unfrozen foodstuffs (except in bulk), Between Owensboro, Ky. on the one hand, and, on the other, points in the states of Ohio, Indiana, Illinois, on and south of Interstate 70, on and west of Interstate 77 and on and east of Interstate 55 and points in the states of Tennessee and Kentucky. All restricted to traffic originating at or destined to the plantsite of Ragu Foods, Inc., for 180 days. Supporting shipper(s): Ragu Foods, Inc., 1680 Lyell Avenue, Rochester, N.Y. 14606. Send protests to: George M. Paker, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 612 Federal Building, 111 West Huron Street, Buffalo, N.Y. 14202.

No. MC 136008 (Sub-No. 48TA), filed January 27, 1975. Applicant: JOE BROWN COMPANY, INC., 20 Third Street NE., P.O. Box 1669, Ardmore, Okla. 73107. Applicant's representative: Rufs H. Lawson, 106 Bixier Building, 2400 NW 23d St., Oklahoma City, Okla. 73107. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, in open top dump trucks, (a) from Lamm Coal Company near Thayer, Kans., to (1) St. Joseph Power & Light Co., St. Joseph, Mo. (2) Associated Electric Cooperative at or near Thomas Hill, Mo. (b) From plant site and facilities at or near Alluwe, Okla., to Independence, Mo., for 180 days. Supporting shipper(s): Lamb Coal Company, R. C. Lamb, President, 5523 Grape, Houston, Tex. 77035. Associated Producers, Douglas Klusmeyer, Secretary-Treasurer, 1700 N. Western, Oklahoma City, Okla. Send protests to: C. L. Phillips, District Supervisor, Interstate Commerce Commission, Bureau of Operations Rm. 240, Old, P.O. Bldg. 215 N.W. Third, Oklahoma City, Okla. 73102.

No. MC 136285 (Sub-No. 13TA), filed January 27, 1975. Applicant: SOUTHERN INTERMODAL LOGISTICS, INC., P.O. Box 143, Savannah, Ga. 31792. Applicant's representative: William P. Jackson, Jr., 919 Eighteenth Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, and *such other commodities* as are dealt in by wholesale

and retail chain and grocery houses, and in connection therewith *equipment, materials and supplies* used in the conduct of such business, between the facilities of Savannah Foods & Industries, Inc. and its subsidiary, TranSales Corporation in Chatham County, Ga., on the one hand, and, on the other, points in Florida and Alabama, for 180 days. Restriction: (1) Restricted against the transportation of shipments in vehicles equipped with mechanical refrigeration and (2) Further restricted against the transportation of commodities in bulk. Supporting shippers: TranSales Corporation, P.O. Box 9177, Savannah , Ga. 31402 and Savannah Foods and Industries, Inc., P.O. Box 339, Savannah, Ga. 31402. Send protests to: G. H. Fauss, Jr., District Supervisor, Interstate Commerce Commission, Box 33008, 400 West Bay Street, Jacksonville, Fla. 32202.

No. MC 139495 (Sub-No. 29TA), filed January 22, 1975. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products* (except in bulk, in tank vehicles), from the facilities of CITGO, located at or near Cicero, Ill., and from the facilities of Southern Petroleum Industry, located at or near West Memphis, Ark., to Liberal, Ulysses, Garden City, Hays, Sterling and Kansas City, Kans.; Guymon, Oklahoma City, Bartlesville and Tulsa, Okla. Pampa, Texas, and Kimball, Nebr., for 180 days. Supporting shippers: There are approximately 12 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: M. E. Taylor, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 501 Petroleum Bldg., Wichita, Kans. 67202.

No. MC 139784 (Sub-No. 4TA), filed January 24, 1975. Applicant: CATTLE AND GRAIN TRANSPORTS, INC., 310 Court, Box 726 Professional Building, Scott City, Kans. 67871. Applicant's representative: Keen K. Brantley, 325 Main Street, Scott City, Kans. 67871. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, including *pipe*, from Kansas City, Mo.; Peoria, Ill.; and Sterling, Ill., to points in Kansas, for 180 days. Supporting shippers: There are approximately 21 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: M. E. Taylor, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 501 Petroleum Building, Wichita, Kans. 67202.

NOTE.—Applicant states it will tack and/or interline with authority held in MC 139784.

No. MC 139822 (Sub-No. 1TA), filed January 27, 1975. Applicant: FOOD CARRIER, INC., P.O. Box 4131, Savannah, Ga. 31407. Applicant's representative: William P. Jackson, Jr., 919 Eighteenth Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, and *such other commodities* as are dealt in by wholesale and retail chain and grocery houses, and in connection therewith *equipment, materials, and supplies* used in the conduct of such business, between the facilities of Savannah Foods and Industries, Inc., and its subsidiary TranSales Corporation, in Chatham County, Ga., on the one hand, and, on the other, points in Alabama, Florida, and Tennessee, for 180 days. Restriction: Restricted against the transportation of commodities in bulk, and further restricted against the transportation of shipments in vehicles equipped with mechanical refrigeration. Supporting shippers: TranSales Corporation, P.O. Box 9177, Savannah, Ga. 31402 and Savannah Foods and Industries, Inc., P.O. Box 339, Savannah, Ga. 31402. Send protests to: G. H. Fauss, Jr., District Supervisor, Interstate Commerce Commission, Bureau of Operations, Box 35008, 400 West Bay Street, Jacksonville, Fla. 32202.

No. MC 139945 (Sub-No. 1TA), filed January 21, 1975. Applicant: ARNOLD M. TWEEDIE, doing business as PRODUCE TRANSPORT, Route 202, Greene, Maine 04236. Applicant's representative: Peter L. Murray, 30 Exchange Street, Portland, Maine 04111. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from Albany, N.Y., to Lewiston, Maine, under contract with Twin City Fruit & Produce, Lewiston, Maine, for 180 days. Supporting shipper: Twin City Fruit & Produce, 31 Oxford Street, Lewiston, Maine 04240. Send protests to: Donald G. Weiler, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 307, 76 Pearl Street, Portland, Maine 04111.

No. MC 140559 (Sub-No. 1TA), filed January 23, 1975. Applicant: PAT ROMERO, doing business as PAT ROMERO FEEDS AND SUPPLY, Route 1, Box 307 Commerce, Las Vegas, N. Mex. 87701. Applicant's representative: Edwin E. Piper, Jr., 1115 Sandia Savings Building, Albuquerque, N. Mex. 87101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Pre-cut log buildings* (complete, disassembled or in sections); *pre-cut logs and log building materials*; and *accessories, parts, supplies and other materials* used in the erection, construction or completion of such pre-cut log buildings, from the plantsite and facilities of Air-Lock Logs Co., Inc., at or near Las Vegas, N. Mex., to points in Texas, Colorado, Arizona, Utah, Nevada, and California, for 180 days. Supporting shipper(s): Air-Lock Log Co., Inc., Post Office Box 2506, Las Vegas, N. Mex. 87701. Send protests to: John H. Kirkemo, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1106 Federal Office Building, 517 Gold Avenue, SW, Albuquerque, N. Mex. 87101.

No. MC 140572 TA, filed January 21, 1975. Applicant: R. C. MOORE, INC., Box 346, Waldoboro, Maine 04572. Applicant's representative: Frederick T. McGonagle, 36 Maine Street, Gorham, Maine 04038. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wood products and plastic articles*, from Wilton, Maine, to Atlanta, Ga.; Charlotte, N.C.; Dallas, Tex.; and Jacksonville and Miami, Fla., under contract with Forester Mfg. Co., Inc., Wilton, Maine, for 180 days. Supporting shipper: Forester Mfg. Co., Inc., Depot Street, Wilton, Maine 04294. Send protests to: Donald G. Weiler, District Supervisor, Interstate Commerce Commission, Room 307, 76 Pearl Street, Portland, Maine 04112.

No. MC 140584 (Sub-No. 1TA), filed January 27, 1975. Applicant: D.M.C. TRUCKING, INC., 7262 Walton-Nicholson, Road, Independence, Ky. 41051. Applicant's representative: Timothy J. Brandt, Hughes, Clark and Ziegler, 400 Covington Trust Building, 6th & Madison Avenue, Covington, Ky. 41011. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, in bulk, from Perry, Breathitt and Wolfe Counties in Kentucky, to Cincinnati, Cleves and Dayton, Ohio, for 180 days. Supporting shipper(s): R. C. Durr Company, Inc., 7262 Walton-Nicholson Road, Independence, Ky. 41051. Send protests to: R. W. Schneiter, District Supervisor, Interstate Commerce Commission, 222 Bakhaus Building, 1500 West Main Street, Lexington, Ky. 40505.

APPLICATION(S) OF PASSENGERS

No. MC 140558 (Sub-No. 1TA), filed January 22, 1975. Applicant: ALVIN SCOGGINS, doing business as SCOGGINS TAXI COMPANY, Route No. 3, Abbeville, S.C. 29620. Applicant's representative: Charles N. Plowden, Jr., 1340 Pickens Street, Columbia, S.C. 29201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle along roads having access to the rails of the Seaboard Coastline Railroad, between Monroe, N.C. and Atlanta, Ga., restricted to the transportation of train crews of the Seaboard Coastline Railroad, for 180 days. Supporting shipper: Seaboard Coast Line Railroad, 87 Haynes St. N.W., Atlanta, Ga. 30313. Send protests to: District Supervisor E. E. Strotheid, Interstate Commerce Commission, Bureau of Operations, Room 302, 1400 Building, 1400 Pickens Street, Columbia, S.C. 29201.

By the Commission.

COUNCIL ON ENVIRONMENTAL QUALITY

■

NATIONAL OIL AND HAZARDOUS SUBSTANCES POLLUTION CONTINGENCY PLAN

XUM

V40-28 FEB 10 75 XUM

Title 40—Protection of Environment

CHAPTER V—COUNCIL ON ENVIRONMENTAL QUALITY

PART 1510—NATIONAL OIL AND HAZARDOUS SUBSTANCES POLLUTION CONTINGENCY PLAN

Pursuant to section 311(c)(2) of Pub. L. 92-500 and section 4 of Executive Order 11735, the Council on Environmental Quality on August 13, 1973, invited comments and suggestions regarding a revised of the National Oil and Hazardous Substances Pollution Contingency Plan (38 FR 21888). The Plan was made effective as of August 13, 1973, and was codified as Part 1510 in Chapter V of Title 40 the Code of Federal Regulations.

Comments and suggestions were received from several Federal agencies, Texaco, Inc., General Electric Company, the Salt River Project, the Tennessee Valley Authority, and the American Petroleum Institute. These comments and suggestions were considered by the National Response Team (NRT) in preparing recommended changes to the Plan, and by the Council in approving the NRT's recommendations. Copies of a memorandum setting forth the reasons for decisions on the more important suggestions will be mailed to the parties named above. Additional copies will be available from the Public Information Officer, CEQ, 722 Jackson Place, NW, Washington, D.C. 20006.

Among the changes which have been incorporated in the Plan appearing below are the following:

(1) Annex X has been revised and expanded to provide more precise and definitive information concerning substances which may be employed to remove discharges. It should be noted that, pursuant to section 1(2) of Executive Order 11735, Annex X is the responsibility of the Administrator of the Environmental Protection Agency.

(2) The criteria for determining the size classification of discharges have been revised. It is clearly indicated that these classifications are for administrative purposes and do not imply a measure of environmental threat or damage.

(3) The definition of "discharge" has been revised to include any spilling, etc. that poses a threat to the public health or welfare as defined in section 311. In this connection, it should be noted that, pending designation of hazardous substances pursuant to section 311(b)(2) of Pub. L. 92-500, the NRT agencies will continue to act pursuant to other operating authority to remove polluting substance discharges as necessary to protect the public health or welfare. In addition, it should be emphasized that the addition of the phrase "that poses a threat to the public health or welfare" does not create discretion concerning any discharge prohibited pursuant to section 311(b)(4) of Pub. L. 92-500, since such discharges are per se harmful to the public health or welfare.

(4) The geographic scope of the Plan as indicated in § 1510.3(a) now conforms more closely to the scope indicated in section 311(c) of Pub. L. 92-500. However, the Plan remains somewhat broader in that it covers discharges into the high seas where a threat to U.S. waters, shoreface, or shelf-bottom exists. Necessary response actions in such cases will be carried out pursuant to other agency operating authority, see § 1510.21(c).

The following Plan supersedes the August 13, 1973, version; and is hereby codified as indicated. Copies will be available shortly and may be requested from: Oil and Special Materials Control Division (WH 448), Environmental Protection Agency, 401 M Street, SW, Washington, D.C. 20460.

GARY L. WIDMAN,
General Counsel.

AUTHORITY: Sec. 311(c)(2), Public Law 92-500, 86 Stat. 865, 33 U.S.C. 1251, et seq.

Subpart A—Introduction

§ 1510.1 Authority.

This National Oil and Hazardous Substances Pollution Contingency Plan[1] has been developed in compliance with the Federal Water Pollution Control Act, as amended, (33 U.S.C. 1251, et seq.). The President delegated authority and responsibility to the Council on Environmental Quality to carry out subsection (c)(2) of section 311 of the Act, providing for the preparation, publication, revision and amendment of a National Contingency Plan for the removal of oil and hazardous substances.

§ 1510.2 Purpose of objectives.

(a) This Plan, including the Annexes, provides for a pattern of coordinated and integrated response by Departments and Agencies of the Federal Government to protect the environment from the damaging effects of pollution discharges. It promotes the coordination and direction of Federal and State response systems and encourages the development of local government and private capabilities to handle such discharges.

(b) The objectives of this Plan are to provide for efficient, coordinated and effective action to minimize damage from oil and hazardous substance discharges, including containment, dispersal and removal. The Plan, including the Annexes and regional plans, provides for: (1) Assignment of duties and responsibility among Federal departments and agencies in coordination with State and local agencies; (2) identification, procurement, maintenance, and storage of equipment and supplies; (3) establishment or designation of a strike force to provide necessary services to carry out the Plan and establishment, at major ports, of trained and equipped emergency task forces; (4) a system of surveillance and reporting designed to insure the earliest possible notice of discharges of oil and hazardous substances to appropriate Federal agency; (5) establishment of a national center to provide coordination and direction for operations in carrying out the Plan; (6) procedures and techniques to be employed in identifying, containing, dispersing, and removing oil and hazardous substances; (7) a schedule, prepared in cooperation with the States, identifying dispersants and other chemicals, if any, that may be used in carrying out the Plan; and (8) a system whereby the State or States effected by a discharge may be reimbursed for reasonable costs incurred in the removal of such discharge.

§ 1510.3 Scope.

(a) This Plan is effective for the navigable waters of the United States (section 502(7) of the Act) and adjoining shorelines and for the contiguous zone and the high seas where a threat to the United States waters, shoreface, or shelf-bottom exists.

(b) The provisions of this Plan are applicable to all Federal Agencies. Implementation of this Plan is compatible with and complementary to the joint U.S./Canadian Contingency Plan including the annexes pertaining to the Great Lakes, Eastern and Western

[1] This Plan supersedes the August 1973 edition.

coastal areas; International assistance plans and agreements, security regulations, and responsibilities based upon Federal statutes and Executive Orders.

§ 1510.4 Abbreviations.

NRC—National Response Center
NRT—National Response Team
OSC—On-Scene Coordinator
RRC—Regional Response Center
RRT—Regional Response Team

§ 1510.5 Definitions (within the meaning of this Plan).

(a) Act—means the Federal Water Pollution Control Act, PL 92-500 (86 Stat. 816).

(b) Discharge—includes but is not limited to any spilling, leaking, pumping, pouring, emitting, emptying or dumping. (For the purposes of this Plan, discharges permitted pursuant to sections 301, 302, 306, 318, 402 or 404 of the Act or section 102 of PL 92-532 are not included.)

(c) On-Scene Coordinator (O.S.C.)—means the Federal official pre-designated by the EPA or the USCG to coordinate and direct Federal discharge removal efforts under Regional Contingency Plans at the scene of an oil or hazardous substance discharge.

(d) United States—means the States, the District of Columbia, the Commonwealth of Puerto Rico, the Canal Zone, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(e) Coastal waters—generally are those U.S. waters navigable by deep draft vessels, the contiguous zone, the high seas and other waters subject to tidal influence.

(f) Inland waters—generally are those waters upstream from coastal waters (paragraph (e) of this section).

(g) Contiguous Zone—means the entire zone established by the United States under Article 24 of the Convention on the Territorial Sea and the Contiguous Zone. This is the zone contiguous to the territorial sea which extends 12 miles seaward from the baseline from which the territorial sea is measured.

(h) Public health or welfare—includes consideration of all factors affecting the health and welfare of man, including but not limited to human health, the natural environment, fish, shellfish, wildlife, and public and private property, shorelines and beaches.

(i) Major Disaster—means any hurricane, tornado, storm, flood, high water, wind-driven water, tidal wave, earthquake, drought, fire, or other catastrophe in any part of the United States which, in the determination of the President, is or threatens to become of sufficient severity and magnitude to warrant disaster assistance by the Federal Government to supplement the efforts and available resources of States and local governments and relief organizations in alleviating the damage, loss, hardship or suffering caused thereby.

(j) Oil—means oil of any kind or in any form, including but not limited to, petroleum, fuel oil, sludge, oil refuse and oil mixed with wastes other than dredged spoil.

(k) Hazardous substance—means any substance designated pursuant to subsection (b)(2) of section 311 of the Act.

(l) Size Classes of Discharges—The following classifications are provided for the guidance of the OSC and serve as the criteria for actions as delineated in § 1510.53. They are not meant to imply or connote associated degrees of hazard to the public health or welfare, or a measure of environmental damage. A discharge that poses a substantial threat to the public health or welfare, or results in critical public concern shall be classed as a major discharge notwithstanding the following quantitative measures.

(1) Minor discharge is a discharge to the inland waters of less than 1000 gallons of oil; or, to the coastal waters, a discharge of less than 10,000 gallons of oil.

(2) Medium discharge is a discharge of 1,000 to 10,000 of oil to the inland waters, or 10,000 to 100,000 gallons of oil to the coastal waters, or a discharge of a hazardous substance in a harmful quantity as defined by regulations.

(3) Major discharge is a discharge of more than 10,000 gallons of oil to the inland waters or more than 100,000 gallons of oil to the coastal waters, or a discharge of a hazardous substance that poses a substantial threat to the public health or welfare.

(m) Potential discharge—is any accident or other circumstance which threatens to result in the discharge of oil or hazardous substance. A potential discharge shall be classified by its severity based on the guidelines above.

(n) Primary Agencies—are those Departments or Agencies comprising the NRT and designated to have primary responsibility and resources to promote effective operation of this Plan. These agencies are: Commerce, DOD, DOI, DOT, and EPA.

(o) Advisory Agencies—are those Departments or Agencies which can make major contributions during response activities for certain types of discharges. These Agencies are: AEC, DHEW, Justice, OEP and State.

(p) Remove or Removal—is the removal of oil or hazardous substance from the water and shorelines or the taking of such other actions as may be necessary to minimize or mitigate damage to the public health or welfare. For purposes of this Plan, removal refers to Phase III and IV response operations.

Subpart B—Policy and Responsibility

§ 1510.21 Federal policy.

(a) The Congress has declared that it is the policy of the United States that there should be no discharge of oil or hazardous substance into or upon the navigable waters of the United States, adjoining shorelines, or into or upon the waters of the contiguous zone (section 311(b)(1) of the Act).

(b) The primary thrust of this Plan is to provide a coordinated Federal response capability at the scene of an unplanned or sudden, and usually accidental, discharge of oil or hazardous substance that poses a threat to the public health or welfare. Initial actions taken by the Federal OSC, designated pursuant to § 1510.36 of this Plan and the appropriate regional contingency plan, shall be to determine in accordance with section 311(c)(1) of the Act, if the actions taken by the person responsible for the discharge of oil or hazardous substance are proper to remove the discharge. The OSC should, if practicable, insure that the person responsible for the discharge is aware of his responsibility and is encouraged to undertake necessary countermeasures. In the event that the person responsible for the discharge does not act promptly, does not take or propose to take proper and appropriate actions to remove the discharged pollutants, or if the person responsible for the discharge is unknown, further Federal response actions shall be instituted as required in accordance with this Plan. When the person responsible for the discharge is taking proper action, the OSC shall observe and monitor progress, and provide advice, counsel, and logistical support as may be necessary.

(c) Removal actions taken pursuant to section 311(c)(1) of the act are limited to the navigable waters of the United States, adjoining shorelines and the waters of the contiguous zone. Removal actions within the Contiguous zone are limited and do not include those covered by the Outer Continental Shelf Lands Act. When a discharge or potential discharge that poses a threat to the waters of the U.S. occurs outside the jurisdiction under section 311(c) of the Act, the procedures of this plan apply to the extent practicable and removal action will be accomplished pursuant to other Agency authorities. Removal actions for non-vessel discharges on the outer continental shelf, shall be in accordance with the August 1971 DOI/DOT Memorandum of Understanding.

(d) In accordance with section 311(d), whenever a marine disaster in or upon the navigable waters of the United States has created a substantial threat of pollution hazard to the public health or

XUM
V40128
FEB 10 75
XUM

welfare, because of a discharge, or an imminent discharge, of large quantities of oil, or of a hazardous substance from a vessel, the United States may: (1) Coordinate and direct all public and private efforts directed at the removal or elimination of such threat; and (2) summarily remove and, if necessary, destroy such vessel by whatever means are available without regard to any provisions of law governing the employment of personnel or the expenditure of appropriated funds. This authority has been delegated to the Administrator of EPA and the Secretary of the Department in which the Coast Guard is operating, respectively, in and for the waters for which each has responsibility to furnish or provide the OSC under this Plan.

(e) In addition to any other actions taken by a State or local government, when the Administrator of EPA or the Secretary of the Department in which the Coast Guard is operating determines there is an imminent and substantial threat to the public health and welfare because of an actual or threatened discharge of oil or hazardous substance into or upon the waters of the United States from any onshore or offshore facility, he may require, through the Attorney General, that the U.S. Attorney of the district in which the threat occurs secure such relief as may be necessary to abate such threat. This authority could be exercised on request of the NRT.

(f) The Federal agencies possessing facilities or other resources which may be useful in a Federal response situation will make such facilities or resources available for use in accordance with this Plan, as supplemented by the regional plans, and as consistent with operational requirements, within the limits of existing statutory authority, and within the spirit of the President's intention to minimize discharges and their effects when they do occur.

(g) Environmental pollution control techniques shall be employed in accordance with applicable regulations and guidelines, and regional contingency plans. In any circumstances not covered by regulations or regional contingency plans, the use of chemicals shall be in accordance with Annex X and must have the concurrence of the EPA representative or alternate representative on the RRT; or in his absence the concurrence of the appropriate EPA Regional Administrator.

(h) Response operations carried out to remove discharges originating from Outer Continent Shelf Lands Act operations shall be in accordance with the August 1971 Memorandum of Understanding between DOI and DOT concerning respective responsibilities under this Plan.

§ 1510.22 Federal responsibility.

(a) Each of the Primary and Advisory Federal Agencies has responsibilities established by statute, Executive Order or Presidential Directive which may bear on the Federal response to a pollution discharge. This Plan intends to promote the expeditious and harmonious discharge of these responsibilities through the recognition of authority for action by those Agencies having the most appropriate capability to act in each specific situation. Responsibilities and authorities of these several agencies relevant to the control of pollution discharges are detailed in Annex VII to this part. In the development of the regional plans, provision shall be made to assure recognition of the statutory responsibilities of all involved Agencies.

(b) The Council on Environmental Quality is responsible for the preparation, publication, revision and amendment of this National Contingency Plan. The Council will receive the advice of the NRT on necessary changes to the Plan and shall insure that any disagreements arising among members of the NRT are expeditiously settled.

(c) The Department of Commerce, through NOAA, provides support to the NRT, RRT and OSC with respect to: Marine environmental data; living marine resources; current and predicted meteorological, hydrologic and oceanographic conditions for the high seas, coastal and inland waters; and maps and charts, including tides and currents for coastal and territorial waters and the Great Lakes. When requested by NRT, MARAD will provide advice on the design, construction and operation of merchant ships.

(d) The Department of Defense, consistent with its operational requirements, may provide assistance in critical pollution discharges and in the maintenance of navigation channels, salvage, and removal of navigation obstructions.

(e) The Department of Health, Education, and Welfare is responsible for providing expert advice and assistance relative to those discharges or potential discharges that constitute or may constitute a threat to public health and safety.

(f) The Department of Housing and Urban Development, through FDAA, maintains an awareness of pollution emergencies and evaluates any request for a major disaster declaration received from a Governor of a State pursuant to Pub. L. 93-288. If the President declares that a pollution emergency constitutes a major disaster or that a major disaster is imminent as defined by Pub. L. 93-288, the Administrator, FDAA, will coordinate and direct the Federal response.

(g) The Department of Interior, through the USGS, supplies expertise in the fields of oil drilling, producing, handling, and pipeline transportation. Also, the USGS has access to and supervision over continuously manned facilities which can be used for command, control and surveillance of discharges occurring from operations conducted under the Outer Continental Shelf Lands Act. Additionally, the Department of Interior will provide, through its Regional Coordinators, techincal expertise to the OSC ritory.
and RRT with respect to land, fish and wildlife, and other resources for which it is responsible. DOI is also responsible for American Samoa and the Trust Ter-

(h) The Department of Justice can supply expert legal advice to deal with complicated judicial questions arising from discharges and Federal agency responses.

(i) The Department of Transportation provides expertise regarding all modes of transporting oil and hazardous substances. Through the USCG, DOT supplies support and expertise in the domestic/international fields of port safety and security, marine law enforcement, navigation, and construction; manning, operation, and safety of vessels and marine facilities. Additionally, the Coast Guard maintains continuously manned facilities that are capable of command, control, and surveillance for oil discharges occurring on the waters of the United States or the high seas. The USCG is responsible for chairing the RRT and for implementing, developing and revising, as necessary, the regional plans for those areas where it is assigned the responsibility to furnish or provide for OSC's (§ 1510.36(b)).

(j) The Department of State will provide leadership in developing joint international contingency plans. It will also provide assistance in coordination when a pollution discharge transects international boundaries or involves foreign flag vessels.

(k) The Atomic Energy Commission is the designated Agency for administration, implementation and coordination of the Interagency Radiological Assistance Plan (IRAP). AEC will provide advice and assistance to the NRT with respect to the identification of the source and extent of radioactive contamination, and removal and disposal of radioactive discharges.

(l) The Environmental Protection Agency, through the Office of Water and Hazardous Materials, provides expertise regarding environmental effects of pollution discharges and environmental pollution control techniques, including assessment of damages. EPA shall also advise the RRT and OSC of the degree of hazard a particular discharge poses to the public health and safety. EPA is responsible for chairing the RRT and for development, revision and implementation, as necessary, of regional plans for those areas in which it has responsibility to furnish or provide for the OSC (§ 1310.36(b)). EPA will provide guidance to and coordinate with DOT regarding pollution control and protection of the environment in the preparation of regional plans.

(m) All Federal agencies are responsible for minimizing the occurrence of discharges and for developing the capability to respond promptly in cases of discharges from facilities they operate or supervise, and for making resources available for Federal pollution response operations.

(n) In addition to paragraph (m) of this section, Primary Agencies are responsible for:

(1) Leading all Federal agencies in programs to minimize the number of and environmental damage associated with discharges from facilities they operate or supervise;

(2) Providing representation to the NRT and the RRT's;

(3) Developing, within their operating elements, the capability for a rapid, coordinated response to any pollution discharge;

(4) Making information available to the NRT, RRT or OSC as necessary; and

(5) Keeping NRT and the RRT's informed, consistent with national security considerations, of changes in the availability of resources that would affect the operation of this Plan.

§ 1510.23 Non-Federal responsibility.

(a) The States are invited to provide liaison to RRT's and shall designate the appropriate element of the State government that would undertake direction of State supervised discharge removal operations. The designated agency shall be the single State governmental element that will seek reimbursement for removal operation expenditures in accordance with section 311(c)(2)(H) of the act. Details on reimbursement to States for removal actions taken pursuant to this Plan are contained in 33 CFR, Part 153 and Annex IX—Funding.

(b) Industry groups, the academic community, and others are encouraged to commit resources for removal operations. Their specific commitments are outlined by the regional plans. Of particular relevance is the organization of a standby scientific response capability.

Subpart C—Planning and Response Organization

§ 1510.31 Emergency response activities and coordination.

(a) For pollution emergency response activities, Federal on-scene coordination is accomplished through the OSC. He reports to and receives advice from an RRT composed of appropriate representatives from the Regional and District offices of the Primary and Advisory Agencies.

(b) National level coordination is accomplished through the NRT which receives reports from and renders advice to the RRT. Activities are coordinated through the National and various regional response centers.

(c) The organizational concepts of this Plan are shown on Figure 1.

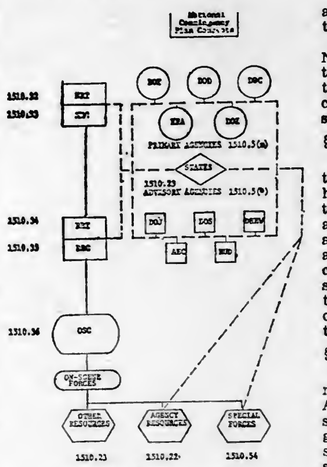

FIG. 1

§ 1510.32 National response team.

(a) The NRT consists of representatives from the Primary and Advisory Agencies. It serves as the National body for planning and preparedness actions prior to a pollution discharge and for coordination and advice during a pollution emergency. It shall be organized and shall function as outlined in Annex II to this part.

(b) The NRT shall establish and maintain a Committee on Revision of the National Plan. This Committee shall provide suggested revisions to the NRT for consideration, approval and publication by CEQ. The Primary Agencies shall provide membership on this standing committee. Advisory Agencies shall participate whenever revision or proposed amendments would affect those Agencies. Ad hoc committees may also be established from time to time to consider various matters. Membership on these committees shall consist of the representatives from the Primary Agencies and such Advisory Agencies that may have direct involvement.

(c) Based on a continuing evaluation of response actions, the NRT shall consider and make recommendations to appropriate agencies relating to training and equipping response team personnel; necessary research, development, demonstration and evaluation activities to improve response capabilities; and equipment, material stockpiling and other operational matters as the need arises. CEQ shall be advised of any agency's failure to adequately respond to these recommendations.

(d) During pollution emergencies, NRT shall act as an emergency response team comprised of representatives from the Primary and selected Advisory Agencies to be activated in accordance with section 1201.2, Annex II to this part.

§ 1510.33 National Response Center.

(a) The NRC, located at Headquarters, USCG, is the Washington, D.C. headquarters site for activities relative to pollution emergencies. NRC quarters are described in Annex III to this part, and provide communications, including a continuously manned communication center, information storage; and necessary personnel and facilities to promote the smooth and adequate functioning of this activity as described in Annex III to this part.

§ 1510.34 Regional Response Team.

(a) The RRT consists of regional representatives of the Primary and selected Advisory Agencies, as appropriate. RRT shall act within its region as an emergency response team performing response functions similar to those described for NRT. RRT will also perform review and advisory functions relative to the regional plan similar to those prescribed for NRT at the National level. Additionally, the RRT shall determine the duration and extent of the Federal response, and when a shift of on-scene coordination from the predesignated OSC to another OSC is indicated by the circumstances or progress of a pollution discharge.

(b) Each Primary Agency shall designate one member and a minimum of one alternate member to the RRT. Each Advisory Agency may designate a member. Agencies may also provide additional representatives as observers to meetings of the RRT. Individuals representing the participating agencies may vary depending on the subregional area in which the discharge occurred or removal actions are underway. Details of such representation are specified in each regional contingency plan.

(c) Each of the States lying within a region is invited to furnish liaison to the RRT for planning and preparedness activities. When the Team is activated for a pollution emergency, the affected State or States are invited to participate in RRT deliberations.

(d) The RRT shall be activated automatically in the event of a major or potential major discharge. The RRT shall be activated during any other pollution emergency by an oral request from any Primary Agency representative to the Chairman of the team. Such requests for team activation shall be confirmed in writing. The time of team activation, place of assembly, and means of contact shall be included in POLREPS submitted in accordance with Annex V to this part.

XUM
V40-28 FEB 10 75 F
XUM

(e) The Chairman may require assembly of all or selected members of the team at the emergency center during a pollution response operation to provide technical support and assistance to the OSC.

(f) Deactivation of RRT shall be by agreement between the EPA and USCG team members. The time of deactivation shall be included in POLREPS submitted in accordance with Annex V to this part.

(g) Boundaries of the Standard Federal Regions as shown in Annex IV to this part shall be followed for the development of Regional Contingency Plans.

§ 1510.35 Regional Response Center.

(a) The RRC is the regional site for pollution emergency response activities. It will be accommodated in quarters described in each regional plan and will provide communications, information storage and other necessary personnel and facilities to promote the proper functioning and administration of regional pollution emergency response operations.

§ 1510.36 On-Scene Coordination.

(a) Coordination and direction of Federal pollution control efforts at the scene of a discharge or potential discharge shall be accomplished through the OSC, predesignated by regional plan to coordinate and direct such pollution control activities in each area of the region.

(1) In the event of a discharge of oil or hazardous substance, the first official on the site from an agency having responsibility under this Plan shall assume coordination of activities under the Plan until the arrival of the predesignated OSC.

(2) The OSC shall determine pertinent facts about a particular discharge, such as its potential impact on human health and welfare; the nature, amount, and location of material discharged; the probable direction and time of travel of the material; the resources and installations which may be affected and the priorities for protecting them.

(3) The OSC shall initiate and direct as required Phase II, Phase III and Phase IV operations. Advice provided by the EPA representative on the RRT on use of chemicals in Phase III and Phase IV operations in response to discharges of oil or hazardous substances shall be binding on the OSC, except as provided for by Annex X to this part.

(4) The OSC shall call upon and direct the deployment of needed resources in accordance with the regional plan to evaluate the magnitude of the discharge and to initiate and continue removal operations.

(5) The OSC shall provide necessary support activities and documentation for Phase V activities.

(6) In carrying out this Plan, the OSC will fully inform and coordinate closely with RRT to ensure the maximum effectiveness of the Federal effort in protecting the natural resources and the environment from pollution damage.

(b) EPA and the USCG shall insure that OSC's are predesignated for all areas within the region in accordance with the following criteria:

(1) The EPA shall furnish or provide for OSC's on inland waters.

(2) The USCG shall furnish or provide for OSC's for the coastal waters, and for Great Lakes waters, ports and harbors.

(3) The major consideration in selection of the OSC shall be based upon that Agency's capability and resources for pollution control response activities and the individual OSC's knowledge of the National Contingency Plan and the appropriate Regional Contingency Plan.

(c) All Federal agencies are required by executive order to develop emergency plans and procedures for dealing with accidental pollution. All Federal agencies, therefore, are responsible for designating the offices to coordinate response actions for facilities or vessels under their jurisdiction and for the provision of means to remove or mitigate the effects of discharges from their facilities. If the responsible Agency does not act promptly or take appropriate action, the EPA or USCG shall, depending on the area in which the discharge occurs, assume the OSC functions. Pollution control actions taken must be in accordance with Federal regulations and guidelines, EPA policies and this Plan.

Subpart D—Operational—Response Phases

§ 1510.40 Phase groupings.

The actions taken to respond to a pollution discharge can be separated into five relatively distinct classes or phases. For descriptive purposes, these are: Phase I—Discovery and Notification; Phase II—Evaluation and Initiation of Action; Phase III—Containment and Countermeasures; Phase IV—Removal, Mitigation and Disposal; and Phase V—Documentation and Cost Recovery. It must be recognized that elements of any one phase may take place concurrently with one or more other phases.

§ 1510.41 Phase I—Discovery and notification.

(a) A discharge may be discovered through: (1) A report submitted by a discharger in accordance with statutory requirements; (2) through deliberate search by vessel patrols and aircraft; and (3) through random or incidental observations by government agencies or the general public.

(b) In the event of a deliberate discovery, the discharge will be reported directly to the RRC. Reports of random discovery may be provided by fishing or pleasure boats, police department, telephone operators, port authorities, news media, or others. Reports generated by random discovery should be submitted to the nearest USCG or EPA office. Regional plans shall provide for such reports to be channeled to the RRC as promptly as possible to facilitate effective response action. Reports of major and medium discharges received by either EPA or USCG shall be expeditiously relayed by telephone to the other agency. Reports of minor discharges shall be exchanged between EPA and USCG as agreed to by the two agencies.

(c) The Agency furnishing the OSC for a particular area is assigned responsibility for implementing Phase I activities in that area.

§ 1510.42 Phase II—Evaluation and initiation of action.

(a) The OSC shall insure that a report of a discharge is immediately investigated. Based on all available information, the OSC shall: (1) Evaluate the magnitude and severity of the discharge; (2) determine the feasibility of removal; and (3) assess the effectivenes of removal actions.

(b) The OSC shall, when appropriate and as soon as possible after receipt of a report, advise the RRC of the need to initiate further governmental response actions. This may be limited to activation of the RRT or a request for additional resources to conduct further surveillance or initiation of Phase III or Phase IV removal operations.

(c) The OSC shall insure that adequate surveillance is maintained to determine that removal actions are being properly carried out. If removal is not being done properly, the OSC shall so advise the responsible party. If, after the responsible party has been advised and does not initiate proper removal action, the OSC shall, pursuant to section 311(c)(1) of the act, take necessary action to remove the pollutant.

(d) If the discharger is unknown or otherwise unavailable, the OSC shall proceed with removal actions pursuant to section 311(c)(1) of the act.

§ 1510.43 Phase III—Containment and countermeasures.

(a) These are defensive actions to be initiated as soon as possible after discovery and notification of a discharge. These actions may include public health and welfare protection activities, source control procedures, salvage operations, placement of physical barriers to halt or slow the spread of a pollutant, emplacement or activation of booms or barriers to protect specific installations or areas, control of the water discharge from upstream impoundments and the employment of chemicals and other materials to restrain the pollutant and its effects on water related resources.

§ 1510.44 Phase IV—Cleanup, mitigation and disposal.

(a) This includes actions taken to recover the pollutant from the water and affected public and private shoreline areas, and monitoring activities to determine the scope and effectiveness of removal actions. Actions that could be taken include the use of sorbers, skimmers and other collection devices for floating pollutants, the use of vacuum dredges or other devices for sunken pollutants; the use of reaeration or other methods to minimize or mitigate damage resulting from dissolved, suspended or emulsified pollutants; or special treatment techniques to protect public water supplies or wildlife resources from continuing damage.

(b) Pollutants and contaminated materials that are recovered in cleanup operations shall be disposed of in accordance with procedures agreed to at the State or local level.

§ 1510.45 Phase V—Documentation and cost recovery.

(a) This includes a variety of activities, depending on the location of and circumstances surrounding a particular discharge. Recovery of Federal removal costs and recovery for damage done to Federal, State or local government property is included; however, third party damages are not dealt with in this Plan. The collection of scientific and technical information of value to the scientific community as a basis for research and development activities and for the enhancement of understanding of the environment may also be considered in this phase. It must be recognized that the collection of samples and necessary data must be performed at the proper times during the case to fix liability and for other purposes.

§ 1510.46 Special considerations.

(a) *Safety of personnel.* Actual or potential polluting discharges that could have an imminent and substantial effect on both air and water media can pose serious hazards to personnel health and safety. The OSC should be aware of this potential and should exercise caution in allowing civilian or government personnel into the affected area without first verifying the nature of the substance discharged. Regional plans shall identify the sources of information on the hazards, precautions, and personnel protective requirements that will be expected in carrying out response operations. The means for OSC to secure such information also shall be included.

(b) *Waterfowl conservation.* Oil discharges, particularly in estuarine and near shore areas, often cause severe stress to resident and migratory bird species. The DOI representatives and the State liaison to the RRT shall arrange for and coordinate actions of professional and volunteer groups that wish to establish bird collection, cleaning and recovery centers. Regional contingency plans shall, to the extent practicable, identify organizations or institutions that can and are willing to establish and operate such facilities. These activities will normally be considered Phase IV response actions (§ 1510.44 of this subpart).

Subpart E—Coordinating Instructions

§ 1510.51 Delegation of Authority.

(a) When required, delegation of authority or concurrence in proposed or continuing pollution control activities initially may be oral; however, written confirmation by the EPA representative on RRT should be completed as soon as possible.

§ 1510.52 Multi-regional actions.

(a) In the event that a discharge or a potential pollution emergency moves from the area covered by one contingency plan into another area, the authority to initiate pollution control actions shall shift as appropriate. In the event that a polluting discharge or potential pollution emergency affects areas covered by two or more regional plans, the response mechanism called for by both plans shall be activated; however, pollution control actions shall be fully coordinated as detailed in the regional plans.

(b) There shall be only one On-Scene Coordinator at any time during the course of a response operation. Should a discharge affect two or more areas, the RRT will designate the OSC, giving prime consideration to the area vulnerable to the greatest damage. NRT shall designate the OSC if members of one RRT or of two adjacent RRT's, if appropriate, are unable to agree on the designation.

§ 1510.53 General pattern of response actions.

(a) When the predesignated Federal On-Scene Coordinator receives a report of a discharge, or potential discharge, the report should be evaluated. In most situations, the sequence of actions shown below should be followed:

(1) Investigate the report to determine pertinent information such as the threat posed to public health or welfare, the type and quantity of material discharged, and the source of the discharge.

(2) Effect notification in accordance with Annex V to this part and the applicable regional plan.

(3) Determine, in accordance with section 311(c)(1) of the act, whether removal actions are being carried out properly. Removal is considered as being done properly when the following criteria are met:

(i) Private cleanup efforts are effective in terms of the statutory definition of removal, that is, they are fully sufficient to minimize or mitigate damage to the public health or welfare. Private removal efforts shall be deemed "improper" to the extent that Federal efforts are necessary to prevent continued or further damage.

(ii) Private removal efforts must be in accordance with applicable regulations and guidelines, and Annex X to this part and other provisions or restrictions of this Plan.

(4) Designate the severity of the situation and determine the future course of action to be followed.

(5) Determine whether State action to effect removal is necessary.

(b) The result of the report probably can be categorized by one of five classes. Appropriate action to be taken in each specific type case is outlined below:

(1) If the investigation shows that the initial information overstated the magnitude or danger of the discharge and there is no environmental pollution involved, it shall be considered a false alarm and the case should be closed.

(2) If the investigation shows a minor discharge with the discharger taking appropriate removal action, contact should be established with the discharger. The removal action should be monitored to insure continued proper action by the owner or operator of the vessel, onshore facility or offshore facility from which the discharge occurred.

(3) If the investigation shows a minor discharge with improper removal action being taken, the following measures shall be taken:

(i) An immediate effort should be made to prevent further discharges from the source.

(ii) The discharger shall be advised of the proper action to be taken.

(iii) If the discharger does not follow this advice, warning of the discharger's liability for the cost of removal, pursuant to section 311(f), shall be given. (See paragraph (a)(3) of this section).

(iv) The OSC should notify appropriate State and local officials. He shall keep the RRC advised and initiate Phase III and IV operations as conditions warrant.

(v) Information shall be collected for possible recovery of removal costs when removal is effected in accordance with section 311(c)(1) of the Act.

(4) When a report of investigation indicates that a medium discharge has occurred, or the potential for a medium discharge exists, the OSC shall follow the same general procedures as for a minor discharge. Additionally, the OSC shall make a recommendation concerning team activation to the Chairman of the RRT.

(5) When a report indicates that a major discharge has occurred, a potential major pollution emergency exists, or that a discharge or potential discharge which could arouse wide public concern has occurred, the OSC shall follow the same procedures as for minor and medium discharges. RRC and NRT shall, however, be notified immediately of the situation even if the initial report has not been confirmed.

§ 1510.54 Special forces.

(a) The National Strike Force (NSF) shall be established consisting of personnel trained, prepared, and available to provide necessary services to carry out this Plan. This NSF shall be formed around the Strike Teams established by the U.S. Coast Guard on the East, West, and Gulf coasts, and including the Environmental Response Team (ERT) established by the EPA, when required. The NSF shall provide assistance to the OSC during Phase III, IV, and V operations as the circumstances of the situation dictate. When possible, the NSF will provide training to the Emergency Task Forces and participate with the Regional Response Team in Regional Contingency Plan development.

(1) The Strike Teams established by the U.S. Coast Guard are able to provide communications support, advice and assistance for oil and hazardous substances removal. These teams include expertise in ship salvage, diving, and removal techniques and methodology.

(2) The Environmental Response Team established by EPA to carry out the Agency's disaster and emergency responsibilities can provide the OSC and NSF with advice on the environmental

XUM
V40128 FEB 10 75 F
XUM

effects of oil and hazardous substances discharges, and removal and mitigation of the effects of such discharges. This team includes expertise in biology, chemistry, engineering and, when necessary, meteorology and oceanography.

(3) The Emergency Task Forces established pursuant to section 311(c)(2)(C) shall consist of trained personnel with adequate supplies of oil and hazardous pollution control equipment and materials and detailed discharge removal plans for their areas of responsibility. The Emergency Task Forces shall be established by the Agency responsible for providing the OSC not later than one year from the effective date of this Plan.

(4) The NSF and ERT will generally respond to requests for assistance from the OSC. Requests for the NSF may be made directly to the Commanding Officer of the appropriate Strike Team, the Coast Guard member on the RRT, the appropriate Area Commander, USCG, or to the Commandant, USCG, through the NRC. Requests for the EPA–ERT may be made to the EPA Emergency Coordinator or the appropriate Regional Emergency Coordinator (REC), or the EPA representative on the RRT.

ANNEX I—1100 DISTRIBUTION

1101 Plan distribution.

1101.1 This Plan will be distributed to designated offices of Primary and Advisory Agencies, State and interstate water pollution control agencies and such other Federal, State, local and private agencies and organizations which are cooperating with and participating in activities in support of the Plan.

1101.2 Included in this formal distribution are the following:

Department of Commerce
Department of Defense
Department of Health, Education and Welfare
Department of the Interior
Department of Housing and Urban Development
Department of Justice
Department of State
Department of Transportation
Atomic Energy Commission
All State water pollution control agencies
All interstate water pollution control agencies
Other Federal, State, local and private agencies and organizations, as appropriate.

1101.3 Formal distribution of the Plan and amendments will be made by the Environmental Protection Agency.

1102 Amendment, distribution and format.

1102.1 Amendments to the Plan and annexes will be made by sequentially numbered changes. Numbered changes will be effected by means of a transmittal sheet which identifies the Plan, the change number and date, the page numbers affected by the change and any other instructions deemed necessary for purposes of clarity or to make special emphasis or explanation of the change. There will be attached to the transmittal sheet the revised or added pages with the change number and current date on each page at the upper right hand corner.

1102.2 Where a change can be effected merely by pen and ink, the transmittal sheet may be used to accomplish the change without submission of revised pages. The use of pen and ink changes is limited to those cases where existing matter is being deleted or is of minor extent.

1102.3 Asterisks will be used to indicate changes. For line changes, an asterisk will be placed before and after each sentence changed in the left and right page margins. For paragraph changes, an asterisk will be placed before and after each paragraph changed and if continued on the next page, an asterisk will be placed at the top of the page and the end of the paragraph. For a paragraph deletion, an asterisk will be placed in the left margin and the paragraph number or letter will be retained in the original sequence followed by the word "Rescinded" in parentheses.

1102.4 If the Plan is completely rewritten, asterisks will not be used but supercession will be indicated at the bottom of the first page.

ANNEX II—1200 NATIONAL RESPONSE TEAM

1201 National Response Team.

1201.1 The NRT consists of representatives from the Primary and Advisory Agencies. It serves as the National body for planning and preparedness actions prior to a pollution discharge and for coordination and advice during a pollution discharge.

1201.2 Membership on the NRT is established by § 1510.32(a). Each Primary and Advisory Agency shall designate a member to the team and sufficient alternates to insure representation in the event that the member is unavailable.

1202 NRT organization.

1202.1 Except for periods of activation because of a pollution incident, the representative of EPA shall be the Chairman and the representative of DOT shall be vice-chairman of NRT. The vice-chairman shall maintain records of the NRT activities along with National and regional plans for pollution response. When NRT is activated for a pollution incident, the Chairman shall be the representative of EPA or DOT, depending upon the area in which the response is taking place.

1203 NRT purpose.

1203.1 The NRT, when not activated for a pollution discharge, serves as a standing committee to recommend needed policy changes in the response organization, to revise this Plan as needed and to evaluate the preparedness of the Agencies and effectiveness of plans for coping with pollution discharges.

1203.2 The NRT shall act as an emergency response team to be activated in the event of a discharge involving oil or hazardous substances which (a) exceeds the response capability of the region in which it occurs; (b) transects regional boundaries; (c) involves significant numbers of persons or nationally significant amounts of property; or (d) when requested by any Primary Agency representative. Each representative, or an appropriate alternate, shall be notified immediately by telephone of activation of NRT.

1204 Responsibilities and functions.

1204.1 Planning and preparedness responsibilities of the NRT are to:

1204.1–1 Maintain a continuing review of regional pollution emergency response operations and equipment readiness to insure adequacy of regional and national planning, and coordination for combating discharges of oil and hazardous substances. RRT shall recommend revision of the National Contingency Plan to CEQ on the basis of observations of response operations;

1204.1–2 Review the functioning of the RRT's to insure that regional plans developed are fully coordinated among involved agencies. It shall serve as a body to which the RRT's may refer for settlement of matters which they cannot resolve;

1204.1–3 Develop procedures to promote the coordination of Federal, State and local governments and private agencies to respond to pollution incidents;

1204.1–4 Consider necessary changes in policy on the basis of continuing evaluation of regional response actions taken in combating discharges of oil and hazardous polluting substances;

1204.1–5 Provide information to the Research and Development Committee, on research requirements, the need for which is not known until discharges of unusual materials or unique circumstances occur;

1204.1–6 Maintain a continuing awareness of review and act upon reports by the Research and Development Committee;

1204.1–7 Maintain a readiness posture to respond to a nationally significant discharges of oil or other hazardous substance;

1204.1–8 Maintain a continuing surveillance of incoming reports from all RRT's and activate NRT when appropriate; and

1204.1–9 Meet quarterly on the first Thursday of March, June, September and December to review pollution emergency response actions of the preceding period, receive reports of the Committee on Revision and consider amendments to the Plan.

1204.2 When activated during a pollution discharge response, Agency representatives shall meet at the call of the Chairman and shall:

1204.2–1 Monitor and evaluate reports generated by the OSC insuring their completeness. Based on this evaluation, NRT may recommend courses of action in combating the discharge through RRT for consideration by the OSC.

1204.2–2 Request other Federal, State, local government or private agencies to consider taking action under their existing authorities to provide resources necessary for combating a discharge or deployment of personnel to monitor response operations.

1204.2–3 Coordinate the actions of regions or districts other than those affected by the pollution emergency to supply needed equipment, personnel, or technical advice to the RRT and OSC. This includes requests, when appropriate, for activating the Special Forces provided by § 1510.54 of the Plan.

1204.2–4 Act as the focal point for national public information releases and for information transfer between the OSC and the Washington, D.C. headquarters of the Agencies concerned, so as to minimize or prevent dissemination of spurious and incomplete information. Public information actions are discussed in Annex VI of this part.

ANNEX III—1300 NATIONAL RESPONSE CENTER

1301 National Response Center location.

1301.1 The National Response Center (NRC) for control of pollution by oil and hazardous substances is established at the Headquarters, United States Coast Guard, Washington, D.C.

1302 NRC purpose.

1302.1 The purpose of the NRC is to provide physical facilities for coordination and control of a pollution emergency should national level involvement be required.

1303 Responsibility for NRC.

1303.1 The Commandant, U.S. Coast Guard, shall provide the necessary communications and plotting facilities and equipment. These will include:

1303.1–1 A continuously manned communication center for receiving reports of discharges;

1303.1–2 Telephone branch lines;

1303.1–3 Teletypewriter circuits;

1303.1–4 The latest updated charts of the Department of Commerce, Interior and Defense for the U.S. waters, the Continental Shelf and the ocean areas adjacent to U.S. territorial waters;

1303.1–5 Technical library on oil and hazardous substances pollution; and,

1303.1–6 Plotting and display provisions to visually depict the geographic position, movement and extent of the pollutant.

1303.2 Primary Agencies shall furnish competent technical personnel to man the NRC as requested, furnish appropriate technical manuals and materials, and such additional administrative support as required to operate the NRC effectively and efficiently.

1304 Communications services available.

1304.1 Telephone (voice) services available include:

1304.1–1 Commercial telephone available 24 hours per day, toll free (800) 424–8802;

1304.1–2 AUTOVON (Automated Voice Network)—General purpose switched voice network of Defense Communications Systems, which serves Continental U.S., Alaska, Europe, Pacific and Panama;

1304.1–3 Washington Tactical Switchboard—Pentagon terminal of the tactical telephone system, operated by USAF;

1304.1–4 FTS–GSA operated government administrative telephone system; and,

1304.1–5 SARTEL—Search and Rescue Command Coordination telephone network including leased Hotline telephone net extending from Halifax to New Orleans.

1304.2 Teletype writer services available include:

1304.2–1 AUTODIN—A defense communications worldwide high speed user data communications system operated for and managed by the DCA to provide both direct user-to-user and store and forward message switching service for DOD and other government agencies;

1304.2–2 SARLANT—Coast Guard-leased teletypewriter system extending from Massachusetts to Texas (used to control and coordinate SAR incidents and to handle other operational traffic and priority administrative communications);

1304.2–3 SARPAC—Same as (2) for the West Coast U.S.; and

1304.2–4 TELEX—Teletypewriter exchange service provided by Western Union that serves Continental U.S., industry and Government offices. TELEX also permits direct connections with international communication carriers and oversea TELEX communications.

1305.1 Information on current and predicted meteorological, hydrologic and oceanographic conditions for the high seas, coastal and inland waters is available from NOAA. If specific capabilities of other agency environmental description and prediction programs are required because of the area or unusual conditions, NOAA will arrange for the provision of such information.

ANNEX IV—1400 PRIMARY AGENCY OFFICE LOCATIONS AND BOUNDARIES

1400 *Geographical boundaries.*

Regional contingency plans shall be based upon the Standard Federal Regions. These plans are available for inspection at EPA regional offices or U.S. Coast Guard district offices as shown in 1401 and 1402. Other agencies' addresses and telephone numbers may be found in the United States Government Manual (issued annually) or in the local telephone directories of cities shown on the maps included in this Annex. EPA, HEW, and HUD regional geographical boundaries follow this delineation.

1401 Environmental Protection Agency—Office addresses, telephone numbers, and map.

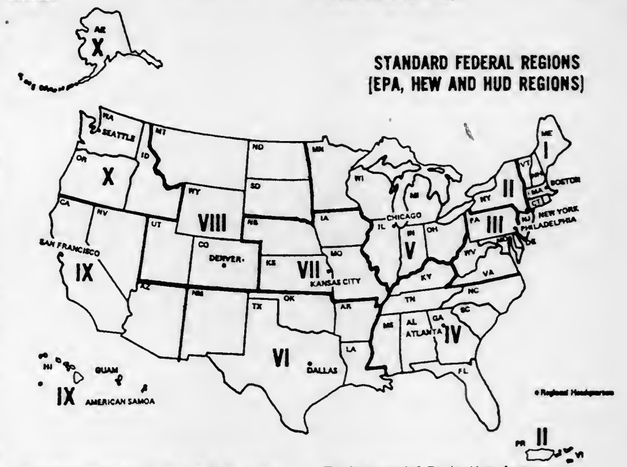
1402 Department of Transportation—United States Coast Guard district offices addresses, telephone numbers and maps.

1403 Department of Commerce—map.

1404 Department of Defense—maps.

1404.1 U.S. Army Corps of Engineers.

1404.2 U.S. Army Continental Army Commands.



1404.3 U.S. Naval Districts.

1404.4 U.S. Air Force Reserve Regions.

1405 U.S. Department of the Interior.

1405.1 Field Committee Regions.

1405.2 U.S. Geological Survey—Area and District Offices—map.

ANNEX V—1500 COMMUNICATIONS AND REPORTS

1501 Purpose.

1501.1 The communications concerning an oil or hazardous substance discharge are an integral and significant part of the operations. The same precepts govern in these instances as do other operations in which the USCG, EPA and other operating agencies are involved.

1502 Objectives.

1502.1 The objectives of the communications and reports are:

1502.1–1 To speed the flow of information pertaining to pollution discharge;

1502.1–2 To relay advice, instructions and reports pertaining to pollution discharge; and

1502.1–3 To provide for alerting, notification, surveillance and warning of a pollution discharge.

1503 Communications procedures.

1503.1 Normal communication circuits of each Primary Agency shall be used to effectuate this Plan. The national and district or regional offices and telephone numbers of primary alerting and notification offices of interested agencies will be maintained in NRC and as appropriate in RRC.

1503.2 The initial reporting of a pollution discharge by agencies participating in this plan shall be in accordance with the information and format as described in the regional plans. Reports of medium or major discharge received from dischargers or the general public by the NRC shall be relayed by telephone to predesignated OSC, NRC shall evaluate incoming information and immediately advise OEP Disaster Programs Office of potential disaster situations.

1503.3 POLREPS (Pollution Reports) shall be submitted by RRT to NRT in a timely manner as developments occur and at 0600 and 2000 local time on each day of the operation.

1504 Pollution reports.

1504.1 Within 60 days after the conclusion of Federal removal action resulting from a major pollution discharge, the OSC shall submit a complete report of the response operation and the actions taken. Copies will be furnished to the NRT or RRT, as appropriate, together with any other pertinent information available to the forwarding group. The NRT shall then evaluate each situation and will make appropriate recommendations.

1504.2 The report required by 1504.1 above shall include:

1504.2–1 Description of the cause and initial situation;

1504.2–2 Organization of response action and resources committed;

1504.2–3 Effectiveness of response and removal actions by:

a. The discharger;
b. State and local forces;
c. Federal Agencies and Special Forces;

1504.2–4 Unique problems encountered;

1504.2–5 Recommendations on:

a. Means to prevent reoccurrence;
b. Improvement of response actions;
c. Changes in National or Regional Contingency plans to improve.

ANNEX VI—1600 PUBLIC INFORMATION

1601 Introduction.

1601.1 When a major pollution discharge occurs, it is imperative that the public be provided promptly with accurate information on the nature of the discharge and what steps are being taken to correct the problem. This policy must be followed to obtain understanding from the public, ensure cooperation for all interested parties and to check the spread of misinformation. National Administration Policy and the Freedom of Information Act both call for maximum disclosure of information.

1602 National News Office.

1602.1 When the NRT is activated, the team chairman will contact the most appropriate Primary Agency and ask it to detail a professional information officer to establish and direct a National News Office. Requests by the Director of the National News Office for an appropriate number of professional and clerical assistants will be met by one or more of the Primary Agencies.

1602.2 The Director of the National News Office will be responsible for overall supervision of public information activities. While the Director of the Regional News Office will have considerable freedom in responding to news inquiries, he will work under the direction of the Director of the National News Office. The closest possible coordination will be maintained between the National News Office in Washington and the Regional News Office.

1602.3 Promptly after his designation, the Director of the National News Office will contact the White House Press Office and the Office of the Director of Communications for the Federal Government to arrange whatever information assistance may be required by these offices.

1602.4 All written news releases involving major policy considerations will be cleared by the Chairman of the NRT or in his absence the vice-chairman. Situation reports and other factual releases will not require formal clearance.

XUM V40-28 FEB 10 75 XUM

1602.5 The Director of the National News Office will have free access to meetings of the NRT and will be consulted on the possible public reaction to the courses of action under consideration by the NRT.

1602.6 At appropriate intervals the Director of the National News Office may arrange news conferences at which the Chairman of the NRT, the OSC or other informed officials will make progress reports and respond to questions from the media representatives.

1602.7 The Director of the National News Office will keep appropriate press offices posted on developments. These include the press offices of the Secretaries or Director of the Primary Agencies to the National Contingency Plan; Governors, Senators and Representatives whose States or Districts are affected by the incident; and, the mayor and other responsible local officials in affected communities.

1602.8 As long as public interest warrants, at least one written news release or status report per day will be issued by the National News Office and the Regional News Office reporting progress.

1602.9 The National News Office will be provided with adequate space, telephones, typewriters, communications equipment and other supplies by the U.S. Coast Guard at U.S. Coast Guard headquarters, Washington, D.C., where the NRC is housed. The Director of the National News Office will determine what equipment and supplies are needed to ensure an orderly flow of information and to accommodate visiting members of the news media.

1603 Regional News Office.

1603.1 When an RRT is activated, the Chairman will contact the most appropriate agency and ask it to detail a professional public information officer to establish and direct a Regional News Office. Any primary Agency may by request to the RRT, place its designated representative on the staff of the Regional News office to advise and assist the Director. The Regional News Office should be set up at or near the location where the OSC is stationed. Requests by the Director of the Regional News Office for appropriate professional and clerical assistance will be met by one or more of the primary agencies.

1603.2 The Director of the Regional News Office will follow the procedures outlined above for the Director of National News Office in contacting the press offices of State and local officials, in arranging appropriate public information liaison with industries and other concerned interests, and in issuing at least one daily written news release.

1603.3 All news releases involving major policy considerations will be cleared by the Chairman of the RRT.

1603.4 The Director of the Regional News Office will have free access to meetings of the RRT and should be consulted on the possible public reaction to the courses of action under consideration by the RRT.

1603.5 The Regional News Office will be provided with adequate space, telephones, typewriters, communications equipment and other supplies by the Primary Agency which is providing the RRO. The Director of the Regional News Office will determine what equipment and supplies are needed to ensure an orderly flow of information and to accommodate visiting members of the news media.

1604 Washington, D.C., public information contact.

1604.1 If the NRT has not been activated, the Director of the Regional News Office will ask the most appropriate Primary Agency to assign a public information officer in Washington, D.C., to serve as a contact point for queries made in Washington, D.C. The information officer assigned to this task will follow the procedures outlined above for the Director of the National News Office in contacting the press offices of the White House and Congressional and Federal officials.

1605 Interim Public Information Director.

1605.1 In the period following a discharge and before the need for a Federal response is determined, information activities will be directed by the public information personnel of the same Primary Agency which will provide the predesignated OSC. These activities will be conducted in accordance with the information policies of that agency.

1606 Special public information procedures for Senators, Representatives, Congressional Aides and Staff Members, White House Representatives and other VIP's.

1606.1 The Director of the National News Office or the Director of the Regional News Office will arrange, on request, to perform special public information services for VIP's including: notifying the media of the time, place and purpose of the VIP visits; making press conference arrangements; and, arranging for interviews with the VIP by interested members of the media.

1607 Special public information procedures for salesmen.

1607.1 Public information officers assigned to pollution emergencies will refer salesmen to technical personnel designated to evaluate their wares.

1608 Special public information procedures for the general public.

1608.1 In responding to queries from the general public, public information officers will advise the callers or arrange to have the callers advised on what the latest press release has reported.

1609 Special public information procedures—correspondence.

1609.1 After the crisis has subsided, a model letter reporting on the situation will be drafted by the public information personnel assigned to the problem. After the model letter has been approved by the Chairman of the NRT or the RRT, copies will be sent to the Primary Agencies for their guidance in responding to mail inquiries.

ANNEX VII

1700 LEGAL AUTHORITIES

1700.1 Federal Statutes, Regulations and Administration orders relative to oil pollution control are administered by several Departments and Agencies. The following is a tabular summation of the more important of these legal authorities.

1710 Federal Oil Pollution Control Statutes

	STATUTES	OPERATING AGENCIES INVOLVED	PROHIBITED ACT OR AUTHORIZATION	TERRITORIAL APPLICATION	SANCTIONS	EXCEPTED DISCHARGES
1711	Refuse Act 1899 (33 U.S.C.407 et seq.)	1.COPPS 2.U.S.C.G. 3.Customs 4.JUSTICE	To discharge from ship, . . (foreign & domestic) or from shore or water front facility, any refuse matter of any kind or description (open commercially valuable petroleum).	1.U.S.navigable waters (USNW) 2.Tributaries, if refuse floats or washes into USNW. 3.On banks, if likely to be washed into USNW.	1.$500.00 - $2500.00; 30 days to 1 yr. or both 2.Vessel liable "in rem" for penalties.	"sewage" flowing from streets and sewers.
1712	Federal Water Pollution Control Act, as amended. (33 U.S.C. 1151 et seq.)	1.EPA 2.DOT 3.COPPS 4.Customs 5.JUSTICE	Discharge, in harmful quantities, of oil or hazardous substances to the waters of the U.S. Effluent Standards, National Standards of Performance, Water Quality Standards.	U.S. waters or adjoining shorelines or the waters of the contiguous zone.	1.Failure to report prohibited discharge;(a)fine up to $10K or (b) imprisonment for up to one year. 2.Prohibited discharge of oil or hazardous substance-civil penalty, 5K. 3.Violation of regulations-5K. 4.Removal liability costs: (a)vessel $14M or $100/grt; (b)onshore or offshore facility, $8M.	1.As allowed by regulations, standards or permits. 2.In the contiguous zone as permitted by the 54 Convention, as amended in 1969.
1713	Oil Pollution Act 1961, as amended, (33 U.S.C. 1001-1005) implements International Convention on Prevention of Pollution of Sea by Oil.	1.U.S.C.G. 2.Customs 3.COPPS 4.JUSTICE 5.State	1.Any discharge or escape of persistent oil from vessels subject to Act, i.e., all U.S. ocean-going vessels including tankers (whose tanks carry only oil). Exempts:(a)tankers under 150 gross tons; (b)other vessels under 500 gross tons; (c)vessels on whaling operations;	1.Prohibited zone: (a)measured from baseline from which territorial sea is established; (b)Generally extends 50 miles to sea; (c)Extends 100 miles to sea off Northeast Coast of U.S.& (d)Extends out 150 miles to sea off West Coast of Canada and (e)Modifications published in Notices to Mariners.	1.Penalty: (a)$5500.00 to $2500.00 or 1 yr. or both-any person or company; (b)Ship other than one owned & operated by U.S. liable "in rem" for above penalty, and (c)Suspension or revocation of license.	1.Discharges: (a)To secure safety of ship, cargo or life at sea; (b)Due to damage to vessel or unavoidable leakage, if all reasonable precautions taken after damage occurred

		(d)Vessels while using Great Lakes & tributaries; and, (e)Naval vessels and auxiliaries. 2.Any discharge of oil from vessel subject to Act, of 20,000 or plus gross tons, whose bldg. contract executed on or after May 18, 1967; 3.Vessels, subject to Act, which are tankers or use oil fuel must keep Oil Record Book with entries of certain discharges or escapes of oils. 4.Forward to State Dept. evidence of discharge or escape from foreign vessel.	2.Unlimited-Except if in Master's opinion special circumstances make it neither reasonable nor practicable to retain oil on board, discharge, outside prohibited zone is permitted. 3.Penalties re. Oil Record Book: (a)Person failing to comply - fine of from $500.00 to $1,000.00; (b)Person making false entry (i)fine - $500.00 to $1,000.00, (ii)imprisonment for 6 mos. or both. 4.Prohibited zone (No. 1 above).	or leakage discovered: (c)Of residue from fuel or lube oil purification or clarification as far from land as possible; (d)Oily mixtures from bilges containing only lube oil drained or leaked from machinery spaces; and (e)Vessels, other than tanker, proceeding to a port with inadequate reception facilities.

VII-2

1720 Related Federal Statutes

	STATUTES	ADMINISTRATIVE AUTHORITY	AUTHORIZED ACTION	TERRITORIAL CONSIDERATIONS
1721	U.S.Navy Ship Salvage Authority (10 U.S.C. 7361)	Secretary of Navy (U.S. Navy Ship System Command, Supervisor of Salvage)	1.To salvage, by contract or otherwise: (a)U.S. Naval vessels; (b)Private vessel (foreign or domestic) subject to availability of salvage forces; and, (i)if not abandoned nor under governmental control nor other salvage facilities reasonably available & competent private authority requests help, i.e., ship's master, owner, or underwriter. (ii)if abandoned or under control of U.S.C.G.,FWPCA, Corps of Engineers, Office of Emergency Preparedness, or Federal Court - competent requesting agency becomes customer.	1.(a) for U.S. Naval vessels-Navy has direct responsibility anywhere; (b)for private vessels (i)U.S. navigable waters and high seas; (ii)U.S. navigable waters U.S. territorial waters and those within the authority of requesting government agency by law or treaty.
1722	Outer Continental Shelf Land Act of 1953 (43 U.S.C. 1331-1343)	Secretary of the Interior (a) Dep. of Land Mgmt. (b) U.S.G.S. Secretary of Transportation (a) U.S.C.G.	1.To regulate leases for exploitation of Shelf lands, terms and conditions calculated to prevent pollution in offshore oil or mining operations. Regulations provide that lessee shall not pollute; shall take certain preventive actions and if pollution occurs, lessee shall make appropriate notifications and shall be liable for cleanup.	1.U.S. Continental Shelf Lands.
1723	Disaster Relief Act of 1974 88 Stat. 143	The President Administrator, Federal Disaster Assistance Administration E.O. 11878, Dec. 31, 1970	1. To declare an emergency or a major disaster at the request of a governor of a State. 2. If declared, to direct Federal agencies to assist by: (a) Utilizing or lending, with or without compensation therefor, to States and local governments, their equipment, supplies, facilities, personnel, and other resources, other than the extension of credit under the authority of any Act; (b) Performing on public or private lands or waters any emergency work or services essential to save lives and to protect and preserve property, public health and safety, including but not limited to: search and rescue, emergency medical care, emergency mass care, emergency shelter, and provision of food, water, medicine, and other essential needs, including movement of supplies or persons; clearance of roads and construction of temporary bridges necessary to the performance of emergency tasks and essential community services; provision of temporary facilities for schools and other essential community services; demolition of unsafe structures that endanger the public; warning of further risks and hazards; public information and assistance on health and safety measures; technical advice to State and local governments on disaster management and control; reduction of immediate threats to life, property, and public health and safety; and making contributions to State or local governments for the purpose of carrying out the provisions of this paragraph.	(1) Major disaster areas (States) as declared by the President and areas designated by the FDAA Administrator. (2) Emergency areas as determined by FDAA Administrator. (3) U.S., its territories and possessions.
1724	14 U.S.C. 81 et seq.	U.S.C.G.	1.To aid distressed persons & protect property. Sec. 88(b) in USNW and on the high seas. 2.To establish, maintain & operate aids to maritime navigation in USNW, waters above the U.S. continental shelf and other specified areas. 3.To mark for protection of navigation any wreck in USNW (Sec. 86) not properly marked by owner (33 U.S.C. 409)	
1725	14 U.S.C. 141(a)	U.S.C.G.	1.On request may use personnel & facilities to assist any government agency to perform any activity for which such personnel are especially qualified.	1. Limited only by international law re. Territorial waters.
1726	Magnuson Act (50 U.S.C. 191)	Designated U.S.C.G. officers (33 CFR 6) when directed by Executive Order (presently implemented by E.O. 10173 as amended)	1.Prevent anything from being placed on board any vessel or waterfront facility as defined in 33 CFR 6.01-4, when necessary to prevent damage to U.S. waters, 2.Establish security zones into which no person or vessel may enter or take anything, 3.Control vessel movement & take full or partial possession or control of any vessel when necessary to prevent danger to U.S. waters, 4.Prevent mooring to or connel shifting of any vessel from waterfront facility if it endangers such vessel, other vessels, harbor, any facility therein because conditions exist in or about waterfront - not limited to fire hazards	1. U.S. Territorial waters

1757	Convention for Prevention of Pollution by Sea by Oil, (1954) (12 U.S.T. 2989; (1962) amended 17 U.S.T. 1523)	U.S. (1961)-Belgium, Denmark, Finland, France, West Germany, Greece, Italy, Japan, Liberia, Mexico, Netherlands, Nigeria, Norway, Panama, Spain, Sweden, U.K., inter alia.	1. To prevent discharge or escape of oily substances by sea-going vessels - See Oil Pollution Act of 1961 as amended in 1966 for U.S. implementation. (33 U.S.C. 1001-1015) (Note: Oily substance is defined as persistent oil) 2. Maintenance of Oil Record Book.	1. Prohibited zone: All seas within 50 miles from nearest land (baseline from which territorial sea is established) and other areas as defined in the convention.

ANNEX VIII—1800 DOCUMENTATION AND COST RECOVERY

1801 Introduction.

1801.1 The OSC in charge at the scene of a discharge may be from any one of several agencies; it is necessary, therefore, to establish uniform procedures for collection of samples and information consistent with the several phases in Federal response operations. Necessary information and sample collection must be performed at the proper times during the Federal involvement in removal operations for the purpose of later use in identifying the party responsible for removal cost recovery. Time is of great importance since wind, tide and current may disperse or remove the evidence. Additionally, witnesses may no longer be available. Thus, during the response phase, the OSC must take the necessary action to ensure that information, records, and samples adequate for legal and research purposes are obtained and safeguarded for future use. Additional guidance can be found in EPA's "Field Detection and Damage Assessment Handbook".

1802 Notification of Counsel.

1802.1 Immediately upon notification that a discharge has occurred, the RRT or NRT members, as appropriate, shall notify their respective regional and departmental attorneys, as provided herein and as detailed in regional plans.

1802.2 Coordination of appropriate counsel will be effected by counsel of the Department responsible for furnishing the OSC. Coordination will be for joint and several actions concerning legal matters regarding the operation and the Plan and for advising the owner or operator that a determination has been made under subsection 311(c)(1) of the Act that removal is not being properly accomplished.

1802.3 The information and reports obtained by the OSC are to be transmitted to the RRC. Copies will then be forwarded to the NRC, members of the RRT, and others, as appropriate. The representative of the Agency on the RRT having cost recovery authority will then refer copies of the pollution reports to his respective agency counsel.

1803 Legal notice to suspected discharger.

1803.1 The owner, operator, or other appropriate responsible person shall be notified of Federal interest and potential action in a pollution discharge by the agency furnishing the OSC. This notice shall include advice of the owner or operator's liability for proper removal of the discharge in accordance with section 311(f) of the Act; the need to perform removal in accordance with existing Federal and State statutes and regulations, and this Plan; and identification of the OSC.

1804 Sample collection procedures to be followed by OSC.

1804.1 Several precautions must be observed when taking and handling liquid samples for analyses as the character of the sample may be affected by a number of common conditions. These precautions concern the following: (a) The composition of the container; (b) cleanliness of the container; and, (c) manner in which the sample is taken.

1804.2 In taking such samples, the following procedures are to be followed in all cases:

1804.2-1 Glass or other appropriate containers of suitable size shall be used. The portion of the closure (sealing gasket or cap liner) which may come into contact with the sample in the container is of considerable importance. When oil or petroleum hydrocarbons are to be sampled, the closure should be made of glass, aluminum foil, or teflon. Polythene other than oil may require special precautions such as jacketing of glass containers or different closure material. The analysis laboratory should be consulted whenever a question arises as to the appropriateness of any packaging material.

1804.2-2 Previously unused containers are preferred. Containers that have been cleaned with a strong detergent, thoroughly rinsed and dried may be used.

1804.2-3 Some explanatory notes covering the above procedures are as follows: (a) Glass or other appropriate containers always must be used because plastic containers, with the exception of teflon, have been found in some cases to absorb organic materials from water and, in other cases, compounds have been dissolved from plastic containers; (b) as it is desirable to take a large sample of the pollutant, proper skimming techniques should be used to obtain a sufficient amount of oil for analysis; and, (c) because pollution conditions change rapidly, samples should be taken promptly, and the time sequences and locations noted.

1804.2-4 Consult with the analysis laboratory personnel relative to special samples and unusual problems.

1804.2-5 Samples collected are to be transmitted for analysis, using special courier or registered mail (return receipt requested) and observing the procedures outlined below. Appropriate analytical laboratories are designated in the regional plan. Reports of laboratory analysis will be forwarded to the appropriate RRT for transmittal to counsel.

1805 Photographic records.

1805.1 Photographs should be taken to show the source and the extent of pollution, if possible, using both color and black and white film. The following information should be recorded on the back of each photographic print: (a) Name and location of vessel or facility; (b) date and time the photo was taken; (c) names of the photographer and witnesses; (d) shutter speed and lens opening; and (e) type of film used and details of film processing. (The immediate developing type of photographic process may be of major assistance to the less-than-professional photographer by allowing on-the-spot inspection of results and "retakes" as needed to obtain an acceptable photograph.)

ANNEX IX—1900 FUNDING

1901 General.

1901.1 The primary thrust of this Plan is to encourage the person responsible for a discharge to take appropriate remedial actions promptly. Usually this will mean that the cost of removal of the discharge shall be borne by the person responsible for the discharge. The OSC and other officials associated with the handling of a pollution emergency shall make a substantial effort to have the discharger voluntarily accept this responsibility.

1901.2 If the discharger does not voluntarily act promptly to remove the discharge of oil or hazardous substances, Federal discharge removal actions may be initiated pursuant to section 311(c)(1) of the Act. The discharger, if known, is liable for the reasonable costs of such Federal removal actions in accordance with section 311(f) of the Act.

1901.3 Actions undertaken by the Primary Agencies in response to pollution emergencies shall be carried out under existing programs and authorities insofar as practicable.

1901.4 It is not envisioned that any Federal agency will make resources available, expend funds or participate in operations in connection with pollution emergency operations unless such agency can so respond in conformance with its existing authority. Authority to expend resources will be in accordance with agencies' basic statutes and, if required, through cross-servicing agreements.

1901.5 This Plan encourages interagency agreements whenever specific reimbursement agreements between Federal agencies are deemed necessary to ensure that the Federal resources will be available for a timely response to a pollution emergency.

1902 Funding responsibility.

1902.1 The funding of removal actions necessitated by a discharge from a Federally operated or supervised facility is the responsibility of the operating or supervising agency.

1902.2 Funding of response actions not associated with the removal activity, such as scientific investigations, law enforcement or public relations, is the responsibility of the agency having statutory or executive responsibility for those specific actions.

1903 Agency funding.

1903.1 The Environmental Protection Agency can provide funds to insure timely initiation of discharge removal actions in those instances where the OSC is an EPA representative. Funding of continuing Phase III and IV actions, however, shall be determined on a case-by-case basis by the Oil and Special Materials Control Division at EPA. Inasmuch as EPA does not have funds provided for this purpose by statute or regulation, initiation of Phase III and IV activities is funded out of operating program funds.

1903.2 The U.S. Coast Guard pollution control efforts are funded under "Operating Expenses." These funds are utilized in accordance with agency directives and applicable regional plans.

1903.3 The Department of Defense has two specific sources of funds which may be applicable to a pollution incident under appropriate circumstances. (This does not consider military resources which might be made available under specific conditions.)

1903.3-1 Funds required for removal of a sunken vessel or similar obstruction to navigation are available to the Corps of Engineers through Civil Functions Appropriations, Operations and Maintenance, General.

1903.3-2 The U.S. Navy has funds available on a reimbursable basis to conduct salvage operations.

1904 Disaster relief funds.

1904.1 Certain pollution control emergency response activities may qualify for reimbursement as disaster relief functions. In making a declaration of a "major disaster or emergency" for a stricken area, the President may allocate funds from his Disaster Relief Fund, administered by the Administrator, Federal Disaster Assistance Administration. After the President has declared a "major disaster or emergency" and authorized allocation of funds, the Administrator may authorize certain reimbursements to Federal agencies for assistance provided under direction of his office. Applicable policies and procedures are stated in Title 24, Chapter XIII, Part 2201, "Reimbursement of Other Federal Agencies" under Pub. L. 91-606 (For use under Pub. L. 93-288 until revised).

1904.2 The Administrator, FDAA, may also make financial assistance available to State governments and through the States to local governments in accordance with policies and procedures stated in Title 24, Chapter XIII, Part 2205, "Federal Disaster Assistance".

1905 Pollution revolving fund.

1905.1 A pollution revolving fund, administered by the Commandant, USCG, has been established pursuant to subsection (k) of section 311 of the Act. Regulations governing the administration and use of the fund are contained in 33 CFR 153.

XUM V40128 FEB 10 75 XUM

1905.2 Pursuant to section 311(c)(2)(H) of Public Law 92-500, the State or States affected by a discharge of oil or hazardous substance may act where necessary to remove such discharge and may, pursuant to regulations which the Commandant, USCG, may prescribe, be reimbursed from the fund for the reasonable costs incurred in such removal.

1905.2-1 Removal by a State is necessary when the OSC determines that the owner or operator of the vessel, onshore facility, or offshore facility from which the discharge occurs does not effect removal properly and that:

1905.2-1.1 State action is required to minimize or mitigate significant damage to the public health or welfare which Federal action cannot minimize or mitigate, or

1905.2-1.2 Removal or partial removal can be effected by the State at a cost which is not significantly greater than the cost which would be incurred by the Federal departments or agencies.

1905.2-2 Notwithstanding the above, State removal actions are not necessary if not in compliance with Annex X of this Plan.

1905.2-3 State removal operations are considered to be Response Phase III or Response Phase IV actions to the extent that the same operations undertaken by a Federal agency would be so considered.

1905.2-4 When supervised by the State agency designated pursuant to § 1510.23(a) of this Plan, removal operations of a local government are considered to be actions of the State for purposes of this section.

1906 Obligations of funds.

1906.1 Care must be exercised to ensure that misunderstandings do not develop about reimbursement of funds expended for removal activities. The OSC should not knowingly request services for which reimbursement is mandatory unless reimbursement funds are known to be available. Similarly, the agency supplying a reimbursable service should determine the source of reimbursement before committing resources necessitating reimbursement.

1906.2 OSC shall exert adequate control of removal operations so that he can certify that reimbursement from the fund is appropriate.

1906.3 Detailed instructions on utilization of the fund are contained in USCG Comptroller Manual.

1907 Planning.

1907.1 The availability of funds and requirements for the reimbursement of expenditures by certain agencies must be included in resource utilization planning. Regional and subregional contingency plans should show what resources are available under what conditions and cost arrangements.

1907.2 Local interagency agreements may be necessary to specify when reimbursement is required.

ANNEX X—SCHEDULE OF CHEMICALS AND OTHER ADDITIVES TO REMOVE OIL AND HAZARDOUS SUBSTANCES DISCHARGES

2001 General.

2001.1 This Schedule has been prepared by the U.S. Environmental Protection Agency pursuant to section 1(2), Executive Order 11735 and applies to the waters of the United States and adjoining shorelines, and the waters of the contiguous zone.

2001.2 This Schedule applies to the use of any chemicals or other additives as hereinafter defined that may be used to remove oil and remove or neutralize hazardous substances discharges. Any chemical agent or other substance not specifically defined in this schedule will be considered by EPA on a case by case basis for use in the removal of oil and hazardous substances discharges.

2001.3 This Schedule advocates development and utilization of sorbents, skimmers, booms and other mechanical control methods to remove or mitigate oil and remove, mitigate, or neutralize hazardous substances discharges from the environment with subsequent proper disposal.

2001.4 It is the intent of this Schedule that no harmful quantities of any substances be applied to the waters to remove or mitigate the effects of oil or hazardous substances discharges.

2001.5 In implementing this schedule and in maintaining its relationship with other Federal and State agencies, EPA shall recognize that some States may have more stringent laws, regulations or written policies regulating the use of chemicals in the removal of oil and hazardous substance discharges, in which case such laws, regulations or policies shall govern.

2001.6 It has been determined that because of the overriding need for prompt initiation of discharge removal actions no formal permit, as provided for by section 402 of the Act, shall be required before application of chemicals to mitigate the effe t of a discharge. The provisions of § 1510.21(g) of this Plan shall apply.

2002 Definitions. Materials applied to oil or floating hazardous substances discharges are defined as follows:

2002.1 Chemical Agents are those elements, compounds, or mixtures that disperse, dissolve, emulsify, neutralise, precipkate, reduce, solubilise, oxidise, concentrate, congeal, entrap, fix, gell, make the pollutant mass more rigid or viscous, or otherwise facilitate the mitigation of deleterious effects or removal of the pollutant from the water.

2002.2 Dispersing Agents are those chemical agents which emulsify, disperse, or solubilize oil into the water column or act to further the surface spreading of oil slicks in order to facilitate dispersal of the oil into the water column.

2002.3 Surface Collecting Agents are those chemical agents which are a surface film forming chemical for controlling oil layer thickness.

2002.4 Biological Agents are microbiological cultures, ensynses, or nutrient additives that are deliberately introduced into an oil or hazardous substance spill for the specific purpose of encouraging biodegradation to mitigate the effects of a spill.

2002.5 Burning Agents are those materials which, through physical or chemical means, improve the combustibility of the materials to which they are applied.

2002.6 Sinking Agents are those materials which are applied to oil and hazardous substance spills to sink floating pollutants below the water surface.

2002.7 Mechanical removal methods includs the use of pumps, skimmers, booms, earthmoving equipment, and other mechanical devices.

2002.8 Sorbents are essentially inert and insoluble materials which are used to remove oil and hazardous substances from water through a variety of sorption mechanisms. Examples include: straw, expanded perlite, polyurethane foams, reclaimed paper fibers, peat moss.

2003 Dispersing agent program for spills of oil and applicable hazardous substances.

2003.1 Authorization for use of dispersing agents.

2003.1-10 Major and medium discharges. Dispersing agents may be used in any place, at any time, and in quantities designated by the OSC when their use will:

2003.1-1. In the judgment of the OSC, prevent or substantially reduce hazard to human life or limb or substantially reduce explosion or fire hazard to property;

2003.1-1.2 In the judgment of the EPA RRT member on a case by case basis, in consultation with appropriate State or Federal agencies, prevent or reduce substantial hazard to a major segment of the population(s) of vulnerable species of waterfowl; or,

2003.1-1.3 In the judgment of the EPA RRT member on a case by case basis, in consultation, whenever possible, with appropriate State and Federal agencies, result in the least overall environmental damage, or interference with designated water uses.

2003.1-2 Minor discharge. The provisions of section 203.1-1.1 shall apply.

2003.2 Special restrictions on dispersing agent use:

2003.2-1 Chemical agents shall not be considered for use as dispersing agents unless technical product data has been provided and accepted in accordance with 2003.3 except when in the judgment of the On-Scene Coordinator the hazards discussed in 2003.1-1.1 are so imminent that the time delay for obtaining a dispersant agent that is in compliance with 2003.3 would be excessive.

2003.2-2 Federal officials responsible for oil and hazardous substance spill response activities at all levels shall develop effective programs to insure that dispersants that are available for use in appropriate spill response actions are dispersants with adequate technical data on file with EPA. This effort will help preclude the avoidance of the EPA technical data program by manufacturers or suppliers who might wish to take advantage of the emergency conditions provisions of 2003.2-1.

2003.2-3 For all situations where dispersants are used, accurate records shall be kept on dispersant types, brands, application rates and methods, effectiveness, environmental impacts, plus any other pertinent observations.

2003.3 Technical product data for dispersing agents.

2003.3-1 Technical product data as outlined in 2003.3-4 on the physical, chemical and toxicity characteristics of a dispersing agent shall be submitted to the Division of Oil and Special Materials Control (WH-488), Environmental Protection Agency, Washington, D.C. 20460, at least 60 days prior to the use of the agent. Within 60 days of receipt of the data, EPA will inform in writing the submitter on the adequacy of the data provided. If additional information is requested or EPA desires to perform tests, the dispersing agent may not be considered for use until the additional needs have been satisfied and the submitter so notified.

2003.3-2 Information furnished in accordance with 2003.3-4 shall be maintained on file by the Environmental Protection Agency, Oil and Special Materials Control Division, Washington, D.C. 20460 to provide technical guidance to OSC's on the acceptable circumstances of use and dosage rates for dispersing agents. Any changes in the composition or formulation of the dispersing agent that will affect any of the data being requested in 2003.3-4 shall be immediately brought to the attention of EPA and testing of the agent will be repeated prior to the use of the revised dispersing agent.

2003.3-3 The acceptance and maintenance of product data by EPA does not constitute approval of the dispersing agent nor does it imply compliance with any EPA criteria or minimum standards for such agents. The OSC will determine which dispersing agent may be used for a spill event on a case by case basis using all available information in making such a decision. To avoid possible misinterpretation and misrepresentation of the EPA's role in this technical product data program, the manufacturer's representatives may use only the EPA letter advising compliance with 2003.3-4 in any advertisements or technical literature on the dispersing agent. The EPA letter must be used in its entirety. Failure to comply with these restrictions or any other improper reference to EPA in attempting to demonstrate EPA approval of the dispersing agent for use on spills of oil or hazardous substances shall constitute grounds for removing the technical product data from EPA files which would preclude use of the dispersing agent except as noted in 2003.2-3 for imminent hazards.

2003.3-4 Required technical product data.

2003.3-4.1 Name, brand, or trademark, if any, under which the chemical agent is sold.

2003.3-4.2 Name, address and telephone number of the manufacturer, importer or vendor.

2003.3-4.3 Name, address and telephone number of primary distributors or sales outlets.

2003.3-4.4 Special handling and worker precautions for storage and field application. Maximum and minimum storage temperatures to include optimum ranges as well as temperatures that will cause phase separation, chemical changes or otherwise damage effectiveness of the chemical agent.

2003.3-4.5 Shelf life.

2003.3-4.6 Recommended application procedure(s), concentration(s) and conditions for use depending upon water salinity, water temperature and types and ages of the pollutants.

2003.3-4.7 Dispersant toxicity. Use standard toxicity test methods described in EPA Report "Standard Dispersant Effectiveness and Toxicity Test" (EPA R2-73-201, May 1973) pages 22-34. This report may be obtained from the Division of Oil and Special Materials Control (AW-448), EPA, Washington, D.C. 20460.

2003.3-4.8 Dispersant Effectiveness. Use standard effectiveness test methods in EPA R2-73-201, May 1973, pages 11-21.

2003.3-4.9 Flash Point—select appropriate method from the following:

ASTM D 56-70
ASTM D 92-72
ASTM D 93-72
ASTM D 1310-67

2003.3-4.10 Pour point. Use ASTM D 97-66.

2003.3-4.11 Viscosity. Use ASTM D 445-72.

2003.3-4.12 Specific gravity. Use ASTM D 1298-67.

2003.3-4.13 pH. Use ASTM D 1293-65.

2003.3-4.14 Ionic activity. Use Weatherburn Test as described below:

IONIC ACTIVITY TESTS (WEATHERBURN TEST)

Reagents:

1. Dye solution: 0.03 grams methylene blue, 12 grams concentrated sulfuric acid, 50 grams anhydrous sodium sulphate dissolved fh water to make a total of one liter solution.

2. Anionic surfactant solution—0.05 percent Aerosol OT (Sodium dioctyl sulfo succinate).

3. Chloroform.

Procedure:

1. Into a 25 ml. test tube, place 8 ml. of dye solution and 5 ml. chloroform. Add anionic surfactants solution drop by drop, shaking vigorously between drops and allowing phases to separate. Continue adding dropwise until the two layers are equal in color and intensity viewed in reflected light. Usually 10 to 12 drops of anionic solution are required.

2. Now add 2 ml. of 0.1 percent solution of the unknown and shake vigorously.

Results:

1. Chloroform phase (lower) is deeper in color and aqueous phase is mostly colorless—anionic is positive.

2. Water phase (upper) is deeper in color than the chloroform phase—cationic is positive.

3. Both phases are more or less the same color—probably a nonionic.

4. If the aqueous phase has become milky and hence slightly lighter in color, it may still be nonionic. Soaps do not react in this procedure. If both anionics and nonionics are present, the reaction of this test will be anionic positive.

2003.3-4.15 Miscibility. Use the test described below which is a modification of military specification MIL-C-22230 (ships):

One part of the dispersing agent is mixed with 100 parts of synthetic sea water. The solution is agitated for one hour and any visible separation of the dispersing agent should be noted after this period of agitation. The test is to be performed with water temperatures at both 20 C and 0 C. The synthetic sea water shall be formulated as follows:

Sodium chloride	150.0 grams.
Magnesium chloride, hexahydrate	66.0 grams.
Calcium chloride dihydrate	9.6 grams.
Sodium sulfate anhydrous	24.0 grams.
Distilled water to make a total of	6.0 liters.

2003.3-4.16 Dispersing agent components. Itemize by chemical name and percentage by weight of each component of the total formulation. The percentages will include maximum, minimum and average weights in order to reflect quality control variations in manufacture or formulations. At least the following major components shall be identified in complying with 2003.3-4.16.

(a) Surface active agents.
(b) Solvents.
(c) Additives.

If requested by the submitter, information from 2003.3-4.16 will be handled as trade secrets under provisions of Pub. L. 90-23, the Administrative Procedure Act.

2003.3-4.17 Heavy metals and chlorinated hydrocarbons. Using reliable analytical chemistry techniques, state the concentrations or upper limits of the following materials:

Arsenic, cadmium, chromium, copper, lead, mercury, nickel, zinc, plus any other metals that may be reasonably expected to be in the sample. Atomic absorption methods should be used and the detailed analytical methods and sample preparation shall be fully described;

Cyanide using standard colorimetric procedures;

Chlorinated hydrocarbons. Gas chromatography should be used and the detailed analytical methods and sample preparation shall be fully described.

2003.3-5 Analytical Laboratory Requirements for Technical Product Data:

2003.3-5.1 The required tests shall be performed by a qualified laboratory.

2003.3-5.2 The technical product data submission shall include the identity of the laboratory, the qualifications of the laboratory staff including professional biographical information for individuals responsible for any tests, and laboratory experience with similar tests. Laboratories performing bioassay tests for dispersant or surface collecting agent toxicity must demonstrate previous bioassay experience in order for their results to be accepted. EPA will not approve the selection of laboratories by intended submitters of technical product data prior to submission of the data. It is the responsibility of the submitter to select component analytical laboratories based on the guidelines contained herein.

2003.3-5.3 EPA reserves the right to refuse to accept a submission of technical product data because of lack of qualifications of analytical laboratory, significant variance between submitted data and any laboratory confirmation performed by EPA, or other circumstances that will result in inadequate or inaccurate environmental information on the dispersing agent.

2004 Surface collecting agent program for spills of oil and applicable hazardous substances.

2004.1-1 Authorization for use of surface collecting agents: Major, medium and minor discharges.

The OSC may authorize use of surface collecting agents on a case-by-case basis when their use will:

2004.1-1.1 Result in the least overall environmental damage or interference with designated water uses, and

2004.1-1.2 Provide a key element in the most effective system for removing oil or hazardous substances discharges from the water environment.

2004.1-2 Mechanism for authorizing use—The OSC may authorize the use of a surface collecting agent verbally when on scene or by telephone prior to arriving on scene. In all cases, the OSC is obligated to comply with the provisions of 2004.2 prior to making such authorization. A review of the capabilities and expertise of the owner or operator or cleanup contractor prior to the occurrence of the spill incident would be most beneficial in situations where telephone authorization is desired or contemplated.

2004.2 Restrictions on surface collecting agent use.

2004.2-1 The OSC may authorize the use of surface collecting agents only after being informed of the environmental conditions at the point of intended use. These environmental conditions include air and water temperatures, wind conditions, wave and current conditions, presence and relative density of debris and other floating matter on the water, type and condition of the oil or hazardous substance spilled, special biological factors such as waterfowl sanctuaries, wildlife refuges, spawning or nursery grounds, shellfish beds, swamp areas, etc., and the availability of removal equipment that could be employed to remove the collected material from the water. Information on environmental conditions should be evaluated by the OSC from the standpoint that conditions such as strong winds, choppy waters, low temperatures, debris, and aquatic vegetation can adversely affect the performance of collecting agents or complicate further removal operations. The performance can also vary with types of oils or hazardous substances. The agents can be effective with thin films of light oils but have little value with thick layers of heavy, viscous oils. The agents should not be used unless adequate removal equipment is available to remove the collected oil.

2004.2-2 A chemical agent shall not be used as a surface collecting agent unless the provisions of 2004.3 are complied with and EPA has informed the manufacturer's representative that the product is acceptable for use as a surface collecting agent.

2004.3 Technical product data for surface collecting agents.

2004.3-1 Technical product data as specified in 2004.3-4 shall be provided to the Oil and Special Materials Control Division (WH-448), EPA, Washington, D.C. 20460, at least 60 days prior to the use of the agent. The use of existing surface collecting agents may be authorized by the OSC without complying with 2004.3 for 120 days from the effective date of this Annex. Within 60 days of receipt of the data, EPA will inform, in writing, the submitter of the adequacy of the data submitted. If additional data are requested or EPA desires to perform additional tests, the surface collecting agent may not be used until these additional needs

XUM
V40128
FEB 10 75
XUM

have been satisfied and the submitter so notified.

2004.3–2 Information furnished in accordance with 2004.3–4 shall be maintained on file by the EPA, Oil and Special Materials Control Division, Washington, D.C. 20460, to provide technical guidance to OSC's on the acceptable circumstances of use, dosage rates and special problems in the use of surface collecting agent. Any changes in the composition or formulation of the surface collecting agent that will affect any of the data requested in 2004.3 shall be immediately brought to the attention of EPA and testing of the agent will be repeated prior to the use of the revised formulation of the surface collecting agent.

2004.3–3 EPA will review technical product data for surface collecting agents and will issue approvals for agents meeting certain criteria. At present, the only minimum criterion established is for solubility which is described in 2004.3–4.13. This criterion classifies the substance as a surface collecting agent but is not an indication of the effectiveness or toxicity of the material. Other product data such as toxicity, chemical components, and physical characteristics will be reviewed and, if the combined effects of this data and other factors will result in excessive hazard to the aquatic life, work safety, or other elements of the environment in the judgment of EPA, EPA may refuse to approve the use of the agent.

EPA may, from time to time, establish minimum criteria for the data being requested and may also require additional data to assist in arriving at a judgment on the environmental acceptability of collecting agent usage.

To avoid possible misinterpretation and misrepresentation of the EPA's role in the surface collecting agent technical product data program, the manufacturer's representatives may use only the EPA letter advising compliance with 2004.3–4 in any advertisements or technical literature on the collecting agent. The EPA letter must be used in its entirety. Failure to comply with these restrictions or any other improper reference to EPA in attempting to demonstrate EPA approval of the surface collecting agent beyond that stated in the letter for use on spills of oil or hazardous substances shall constitute grounds for removing the technical product data from EPA files which would preclude use of the surface collecting agent.

2004.3–4 Required technical product data.

2004.3–4.1 Name, brand, or trademark, if any, under which the surface collecting agent is sold.

2004.3–4.2 Name, address and telephone number of the manufacturer, importer or vendor.

2004.3–4.3 Name, address and telephone number of primary distributers or sales outlets.

2004.3–4.4 Special handling and worker precautions for storage and field application. Maximum and minimum storage temperatures to include optimum ranges as well as temperatures that will cause phase separation, chemical changes, or otherwise damage effectiveness of the surface collecting agent.

2004.3–4.5 Shelf life.

2004.3–4.6 Recommended application procedure(s), concentration(s) and conditions for use depending upon water salinity, water temperature and types and ages of the pollutants.

2004.3–4.7 Surface collecting agent toxicity. Use standard toxicity test methods described in EPA Report "Standard Dispersant Effectiveness and Toxicity Test" (EPA R2–73–261, May 1973) pages 22–34. This report may be obtained from the Division of Oil and Special Materials Control (WH–448), EPA, Washington, D.C. 20460.

2004.3–4.8 Flash point. Select appropriate method from the following:

ASTM D 56–70
ASTM D 92–72
ASTM D 93–72
ASTM D 1310–67

2004.3–4.9 Pour Point. Use ASTM D 97–66.

2004.3–4.10 Viscosity. Use ASTM D 445–72.

2004.3–4.11 Specific gravity. Use ASTM D 1298–67.

2004.3–4.12 pH. Use ASTM D 1293–65.

2004.3–4.13 Interim test to distinguish between surface collecting agents and other spill cleanup chemicals.

In order to distinguish between surface collecting agents and other chemical materials, this interim test procedure was developed. This test procedure is not an efficiency test. This test is to be used only to distinguish between surface collecting agents and dispersants.

Scope.—1. Procedure to be used to determine the solubility in water under standard conditions of oil spill control chemicals.

Method summary.—2. Five (5) milliliters of the chemical under test are intimately mixed with ninety-five (95) milliliters of distilled water, allowed to stand undisturbed for one hour, and then the volume of the upper phase is determined to the nearest 1 milliliter.

Apparatus.—3. (a) Mixing cylinder, 100 milliliter subdivisions and fitted with glass stoppers.

(b) Pipettes: Volumetric pipette, 5.0 milliliter.

(c) Timers.

Procedure.—4. Add 95 milliliters of distilled water at 72 F±5 F to a 100 milliliter mixing cylinder. To the surface of the water in the mixing cylinder, add 5.0 milliliters of the chemical under test. Insert the stopper and invert the cylinder 5 times in 10 seconds. Set upright for one (1) hour at 72 F±5 F and then measure the chemical layer at the surface of the water. The major portions of the chemical added (75% +) should be at the water surface as a separate and easily distinguished layer.

2004.3–4.14 Surface collecting agent components. Itemize by chemical name and percentage by weight of each component of the total formulation. The percentages will include maximum, minimum and average weights in order to reflect quality control variations in manufacture or formulations. As least the following major components shall be identified:

(a) Surface active agents.
(b) Solvents.
(c) Additives.

If requested by the submitter, information for 2004.3–4.14 will be handled as trade secrets under provisions of Pub. L. 90–23, the Administrative Procedures Act.

2004.3–4.15 Heavy metals and chlorinated hydrocarbons.

Using reliable analytical chemistry techniques, state the concentrations or upper limits of the following materials:

Arsenic, cadmium, chromium, copper, lead, mercury, nickel, zinc, plus any other metals that may be in the sample. Atomic absorption methods should be used and the detailed analytical methods and sample preparation shall be fully described;

Cyanide using standard colorimetric procedures;

Chlorinated hydrocarbons. Gas chromatography should be used and the detailed analytical methods and sample preparation shall be fully described.

2004.3–5 Analytical laboratory requirements for technical product data: Follow stipulations in 2003.3–5.

2005 Biological additive program for spills of oil and applicable hazardous substances.

2005.1 Authorization for use of biological agents.

2005.1–1 All Discharges. The OSC may authorize the use of biological additives on water or shorelines only after obtaining the approval of the EPA representative to the RRT. The EPA RRT representative is required to consult with the EPA representative to the NRT on the environmental priorities of the subject incident. The manufacturer or supplier of microbiological cultures or enzymes must obtain approval from State and local public health and pollution control officials and furnish evidence of such approval to the EPA RRT representative.

2005.2 Special restrictions on biological additive use.

2005.2–1 Microbiological cultures and enzyme mixtures shall not be considered for use as biological additives unless technical product data has been provided and accepted in accordance with 2005.3.

2005.2–2 The OSC must be supplied with the chemical composition and ratios of primary nutrients for nutrient additives prior to seeking approval for their use.

2005.3 Technical product data for biological additives.

2005.3–1 Technical product data as outlined in 2005.3–4 on the constituents of a biological additive shall be submitted to the Division of Oil and Special Materials Control (WH–448), Environmental Protection Agency, Washington, D.C. 20460, at least 60 days prior to the use of the additive. Within 60 days of receipt of the data, EPA will inform in writing the submitter on the adequacy of the data provided.

If additional information is requested or EPA desires to perform tests, the biological additive may not be used until the additional needs have been satisfied and the submitter so notified.

2005.3–2 Information furnished in accordance with 2003.3–4 shall be maintained on file by EPA to provide technical guidance to OSC's on the acceptable circumstances of use and application rates for biological additives. Any changes in the composition of the biological additive that will affect any of the data being requested in 2005.3–4 shall be immediately brought to the attention of EPA and testing of the additive will be repeated prior to the use of the revised biological additive.

2005.3–3 The acceptance and maintenance of product data by EPA does not constitute approval of the biological additive nor does it imply compliance with any EPA criteria or minimum standards for such additives. The OSC will determine which biological additive may be used for a spill event on a case-by-case basis using all available information in making such a decision. To avoid possible misinterpretation and misrepresentation of EPA's role in this technical product data program, the manufacturer's representatives may use only the EPA letter advising compliance with 2005.3–4 in any advertisements or technical literature on the biological additive. The EPA letter must be used in its entirety. Failure to comply with these restrictions or any other improper reference to EPA in attempting to demonstrate EPA approval of the biological additive for use on spills of oil or hazardous substances shall constitute grounds for removing the technical product data from EPA files which would preclude use of the biological additive.

2005.3–4 Required technical product data.

2005.3–4.1 Name, brand, or trademark, if any, under which the biological additive is sold.

2005.3–4.2 Name, address and telephone number of the manufacturer, importer or vendor.

2005.3–4.3 Name, address and telephone number of primary distributers or sales outlets.

2005.3–4.4 Special handling and worker precautions for storage and field application. Maximum and minimum storage temperatures.

2005.3–4.5 Shelf life.

2005.3–4.6 Recommended application procedure(s), concentration(s) and conditions for use depending upon water salinity, water temperature and types and ages of the pollutants.

2005.3–4.7 Statements on the expected effectiveness of the agent including degradation rates and the test conditions and data on effectiveness.

2005.3–4.8 For microbiological cultures furnish the following information:

Listing of all microorganisms to species.[1]

Percentage of each species in the composition of the additive.[1]

Optimum pH and temperature range for use of the additive.

Special nutrient requirements, if any.

Separate listing of the following and test methods for such determinations:

Salmonella, fecal coliform, shigella, staphylococcus coagulase positive, and beta hemolytic streptococci.

2005.3–4.9 For enzyme additives furnish the following information:

Enzyme name(s).

International Union of Biochemistry (I.U.B.) number(s).

Source of the enzyme.

Units.

Specific activity.

Optimum pH and temperature range for the use of the agent.

2005.3–5 Laboratory requirements for technical product data: Follow stipulations in 2003.3–5.

2006 Burning agent program for spills of oil and applicable hazardous substances.

2006.1 Authorization for use of burning agents.

2006.1–1 All discharges. The OSC may authorize the use of burning agents only when their use: 2006.1–1.1 will prevent or substantially reduce imminent threats to human life or limb or property;

2006.1–1.2 will result in the least environmental harm when compared to other removal or disposal methods.

2006.1–2 Prior to authorizing use under 2006.1–2, the OSC must obtain the approval of the EPA RRT representative and all applicable State and local public health and pollution control officials.

2006.2 Special restrictions on burning agent use.

2006.2–1 The OSC will evaluate the suitability of burning agents on a case-by-case basis. Burning agents should be inert materials that will not, in themselves, be a water pollutant. The addition of oils (such as gasoline or solvents) as an igniter shall be avoided unless it is necessary under 2006.1–1.

2006.2–2 A technical data program for burning agents will not be established at this time.

2007 Sinking agent program for spills of oil and applicable hazardous substances.

2007.1 Authorization for use of sinking agents.

2007.1–1 All discharges. Sinking agents shall not be applied to discharges of oil or hazardous substances on the navigable waters of the United States and the contiguous zone.

2008 Mechanical methods and sorbents program for spills of oil and hazardous substances.

2008.1 Authorization for use of mechanical methods and sorbents.

[1] If requested by the submitter, these items will be handled as trade secrets under provisions of Pub. L. 90–23, the Administrative Procedure Act.

2008.1–1 All discharges.

2008.1–1.1 As stated in 2001.3, it is the policy of this schedule to advocate the use of mechanical methods and sorbents for removal of oil and hazardous substances spills. The OSC has the authority to use or prohibit specific mechanical methods and sorbents on a case-by-case basis. The OSC will select methods and materials that in his judgment, will be most effective in expeditiously removing the spilled material and mitigating the related damages, and will minimize secondary pollution from the removal or mitigation operation. Prior to authorizing the use of sorbents, the OSC shall take into consideration hydrographic and meteorological conditions as well as the characteristics of the sorbent and the availability of adequate containment and removal equipment.

2008.1–1.2 A technical data program for mechanical methods and sorbents will not be established at this time.

ANNEX XI—2100 NON-FEDERAL INTERESTS

2101 General policy.

2101.1 The policy of the Federal government is to initiate discharge removal operations when required and action is not being taken by the discharger or other private or public organization.

2110 Planning and preparedness.

2110.1 The planning and preparedness functions incorporated in regional contingency plans also apply to non-Federal resources. The State and local governments and private interests are to be encouraged to participate in Regional planning and preparedness functions.

2110.2 State and local government agencies are encouraged to include contingency planning for discharge removal in existing and future emergency and disaster planning activities. States are invited to provide observers to the planning activities of the appropriate RRT. (§1510.34(o) of the Plan)

2120 Pollution emergency response operations.

2120.1 State agencies may be reimbursed from the fund established by section 311(k) of the Act for reasonable costs incurred in the removal of oil and hazardous substances discharges from the waters and shorelines of the United States. The procedures to be followed are detailed in section 1905, Annex IX of this part.

2120.2 Regional Contingency Plans should provide for coordination with local government organizations such as as county and city or town governments. This is especially important for purposes of traffic control, land access and disposal of pollutants removed in response operations.

2130 Volunteers.

2130.1 In many pollution emergency situations in the coastal areas, volunteers desiring to assist in mitigating the effects of the pollution discharge response effort present themselves at the scene. Regional contingency plans should provide for this possibility and through the direct participation of State observers in plan development, should establish procedures that will result in organized and worthwhile employment of these persons.

2130.2 Regional plans should provide for the organization and directing of volunteers by USCG, other Federal, local or State officials knowledgeable in contingency operations and capable of providing mature, responsive and practical leadership.

2130.3 Regional plans should also provide specific areas in which volunteers should be used such as: Beach surveillance, logistical support, bird and other wildlife treatment and scientific investigations. Normally they should not be used for physical removal of pollutants. Specifically, if a substance is toxic to humans, volunteers should not be permitted at on-scene operations.

2130.4 Information for and education of volunteer personnel on general contingency operations and procedures as well as specific details of the discharge is mandatory if response efforts are to be effective and conclusive. Regional plans should provide for this volunteer education and training program for rapid, on-site use.

2130.5 During contingency plan operations, information on the discharge and removal efforts should be provided to volunteers frequently to insure coordinated effort and a sense of meaningful participation.

ANNEX XV—2500 TECHNICAL INFORMATION

2501 Technical library.

2501.1 A technical library of pertinent pollution control technical documents will be maintained in the NRC and in each RRC. Such information should be useful as reference information to the experienced OSC and instructional to less experienced personnel.

2502 Specific references.

2502.1 As a minimum, the following reference documents will be maintained in the NRC and in each RRC technical library.

2502.1–1 Current National Oil and Hazardous Substances Pollution Contingency Plan.

2502.1–2 Current Regional and State Oil and Hazardous Substances Pollution Contingency Plan.

2502.1–3 Current Directory of the American Council of Independent Laboratories.

2502.1–4 Encyclopedia of Chemical Technology, 22 Vols., Kirkothmer, 2nd edition c1963–1971, John Wiley & Sons, New York, New York.

2502.1–5 Chemical Data Guide for Bulk Shipment by Water (U.S. Coast Guard CG–388).

2502.1–6 U.S. Corps of Engineers' Regulations ER 500–1–1 and ER 500–1–8 Emergency Employment of Army Resources (Natural Disaster Activities).

2502.1–7 Federal Disaster Assistance Program—Handbook for Applicants FDAA 3300.1, July 1973.

2502.1–8 Federal Disaster Assistance Program—Eligibility Handbook 3300.2, July 1973.

2502.1–9 Federal Disaster Assistance Program—Handbook for State and Federal Officials 3000.4, December 1973.

2502.1–10 Handbook of Toxicology (National Academy of Sciences/National Research Council).

2502.1–11 46 CFR–146. Transportation or Storage of Explosives or other Dangerous Articles or Substances, and Combustible Liquids on Board Vessels.

2502.1–12 33 CFR, 3, 6, 121, 122, 124–6. Security of Vessels and Waterfront Facilities (USCG CG 239).

2502.1–13 33 and 40 CFR parts implementing section 311 of the Federal Water Pollution Control Act, as amended.

2502.2 In addition to the library specified above, the RRC should have provision, either in publications or by computer terminal, for access to the EPA Technical Assistance Data System (TADS) and the USCG Chemical Hazard Response Information System (CHRIS).

2503 Definitions of terms.

2503.1 *API Gravity.* An empirical scale for measuring the density of liquid petroleum products, the unit being called the "degree API".

2503.2 *Ash.* Inorganic residue remaining after ignition of combustible substances determined by definite prescribed methods.

2503.3 *Asphalts.* Black, solid or semisolid bitumens which occur in nature or are ob-

XUM
V40128 FEB 10 75
XUM

tained as residues during petroleum refining.

2503.4 *Bilge Oil.* Waste oil which accumulates, usually in small quantities, in the lower spaces in a ship, just inside the shell plating. Usually mixed with larger quantities of water.

2503.5 *Blowout.* A sudden violent escape of gas and oil from an oil well when high pressure gas is encountered and preventive measures have failed.

2503.6 *Boiling Point.* The temperature at which the vapor pressure of a liquid is equal to the pressure of the atmosphere.

Knowing	Gallon U.S.	Multiply by factor below to obtain			
		Barrel U.S.	Gallon Imperial	Cubic feet	Litre
Gallon (U.S.)	1.000	0.023810	0.83268	0.13368	3.7853
Barrel	*42.0	1.0000	34.9726	5.6146	158.984
Gallon (Imp.)	1.2009	0.02859	1.000	0.1606	4.546
Cubic Feet	7.4805	0.1781	6.2288	1.000	28.316
Litres	0.2641	0.00629	0.2199	0.03532	1.000
	Pound	Ton (short)	Ton (long)	Ton (metric)	
Pounds	1.00	0.00050	0.000446	0.00045359	
Ton (Short)	*2000.0	1.0000	0.89286	0.90718	
Ton (Long)	*2240.0	1.120	1.0000	1.0160	
Ton (Metric)	2204.6	1.1023	0.98421	1.000	

One Hectolitre equals 100 Litre.
One Ton (Metric) equals 1000 Kilograms.
Conversions marked (*) are exact by definition.

2503.12 *Approximate conversions.*

Material	*Barrels Per Ton (Long)*
crude oils	6.7–6.1
aviation gasolines	8.3–9.2
motor gasolines	8.2–9.1
kerosenes	7.7–8.3
gas oils	7.2–7.9
diesel oils	7.0–7.9
lubricating oils	6.8–7.6
fuel oils	6.6–7.0
asphaltic bitumens	6.9–6.5

(As a general rule-of-thumb use 6.5 barrels or 250 gallons per ton of oil.)

2503.13 *Crude oil.* Petroleum as it is extracted from the earth. There may be several thousands of different substances in crude oil, some of which evaporate quickly while others persist indefinitely. The physical characteristics of crude oils may vary widely. Crude oils are often identified in trade jargon by their regions of origin. This identification may not relate to the apparent physical characteristics of the oil. Commercial gasoline, kerosene, heating oils, diesel oils, lubricating oils, waxes, and asphalts are all obtained by refining crude oil.

2503.14 *Demulsibility.* The resistance of an oil to emulsification, or the ability of an oil to separate from any water with which it is mixed. The better the demulsibility rating, the more quickly the oil separates from water.

2503.15 *Density.* Density is the term meaning the mass of a unit volume. Its numerical expression varies with the units selected.

2503.16 *Emulsion.* A mechanical mixture of two liquids which do not naturally mix as oil and water. Water-in-oil emulsions have the water as the internal phase and oil as the external. Oil-in-water emulsions have water as the external phase and the internal phase is oil.

2503.17 *Fire Point.* The lowest temperature at which an oil vaporizes rapidly enough to burn for at least 5 seconds after ignition, under standard conditions.

2503.18 *Flash Point.* The lowest temperature at which an oil gives off sufficient vapor to form a mixture which will ignite, under standard conditions.

2503.19 *Fraction.* Refinery term for a product of fractional distillation having a restricted boiling range.

2503.20 *Fuel oil grade.* Numerical ratings ranging from 1 to 6. The lower the grade number, the thinner the oil is and the more easily it evaporates. A high number indicates a relatively thick, heavy oil. No. 1 and No. 2 fuel oils are usually used in domestic heaters, and the others are used by industry and ships. No. 5 and 6 oils are solids which must be liquified by heating. Kerosene, coal oil, and range oil are all No. 1 oil. No. 3 fuel oil is no longer used as a standard term.

2503.21 *Innage.* Space occupied in a product container.

2503.22 *In personem.* An action *in personem* is instituted against an individual, usually through the personal service of process, and may result in the imposition of a liability directly upon the person of a defendant.

2503.23 *In rem.* An action *in rem* is one in which the vessel or thing itself is treated as offender and made defendant without any proceeding against the owners or even mentioning their names. The decree in an action *in rem* is enforced directly against the *res* by a condemnation and sale thereof.

2503.24 *Load on top.* A procedure for ballasting and cleaning unloaded tankers without discharging oil. Half of the tanks are first filled with seawater while the others are cleaned by hosing. Then oil from the cleaned tanks, along with oil which has separated out in the full tanks, is pumped into a single slop tank. The clean water in the full tanks is then discharged while the freshly-cleaned tanks are filled with seawater. Ballast is thus constantly maintained.

2503.25 *Oil films.* A slick thinner than .0001 inch and may be classified as follows:

Standard Term	Gallons of Oil Per Square Mile	Appearance
"barely visible"	25	barely visible under most favorable light conditions
"silvery"	50	visible as a silvery sheen on surface water
"slightly colored"	100	first trace of color may be observed
"brightly colored"	200	bright bands of color are visible
"dull"	666	colors begin to turn dull brown
"dark"	1332	Much darker brown

2503.26 *Outage.* Space left in a product container to allow for expansion during temperature changes it may undergo during shipment and use. Measurement of space not occupied.

2503.27 *pH.* Term used to express the apparent acidity or alkalinity of aqueous solutions; values below 7 indicate acid solutions and values above 7 indicate alkaline solutions.

2503.28 *Pour Point.* The lowest temperature at which an oil will flow or can be poured under specified conditions of test.

2503.29 *Residual oil.* A general term used to indicate a heavy viscous fuel oil.

2503.30 *Scuppers.* Openings around the deck of a vessel which allow water falling onto the deck to flow overboard. Should be plugged during fuel transfer.

2503.31 *Sludge oil.* Muddy impurities and acid which have settled from a mineral oil.

2503.32 *Specific gravity.* The ratio of the weight of a given volume of the material at a stated temperature to the weight of an equal volume of distilled water at a stated temperature.

2503.33 *Spontaneous ignition temperature (S.I.T.).* The temperature at which an oil ignites of its own accord in the presence of air oxygen under standard conditions.

2503.34 *Stoke.* The unit of kinematic viscosity.

2503.35 *Tonnage.* There are various tonnages applied to merchant ships. The one commonly implied is gross tonnage although in these days tankers and other bulk-carriers are often referred to in terms of deadweight.

2503.35–1 *Gross tonnage.* 100 cubic feet of permanently enclosed space is equal to one gross ton—nothing whatever to do with weight. This is usually the registered tonnage although it may vary somewhat according to the classifying authority or nationality.

2503.35–2 *Net tonnage.* The earning capacity of a ship. The gross tonnage after deduction of certain spaces, such as engine and boiler rooms, crew accommodation, stores, equipment, etc. Port and harbor dues are based on this tonnage.

2503.35–3 *Displacement tonnage.* The actual weight in tons, varying according to whether a vessel is in light or loaded condition. Warships are always spoken of by this form of measurement.

2503.35–4 *Deadweight tonnage.* The actual weight in tons of cargo, stores, etc., required to bring a vessel down to her load line, from the light condition. Cargo deadweight is, as its name implies, the actual weight in tons of the cargo when loaded, as distinct from stores, ballast, etc.

2503.36 *Ullage.* The amount by which a tank or vessel lacks being filled. (See also Outage)

2503.37 *Viscosity.* The property of liquids which causes them to resist instantaneous change of shape, or instantaneous rearrangement of their parts, due to internal friction. The resistance which the particles of a liquid offer to a force tending to move them in relation to each other. Viscosity of oils is usually expressed as the number of seconds at a definite temperature required for a standard quantity of oil to flow through a standard apparatus.

2503.38 *Viscous.* Thick, resistant to flow, having a high viscosity.

2503.39 *Volatile.* Evaporates easily.

PART III

GENERAL SERVICES ADMINISTRATION

PUBLIC AND PRIVATE HIGHER EDUCATION INSTITUTIONS, HOSPITALS, AND NONPROFIT ORGANIZATIONS

Proposed Uniform Administrative Standards

V 40 28 FEB 10 75 XUM

GENERAL SERVICES ADMINISTRATION

[34 CFR Part 258]

UNIFORM ADMINISTRATIVE STANDARDS FOR AGREEMENTS WITH PUBLIC AND PRIVATE INSTITUTIONS OF HIGHER EDUCATION, PUBLIC AND PRIVATE HOSPITALS, AND OTHER PUBLIC AND PRIVATE NONPROFIT ORGANIZATIONS

Notice of Proposed Rulemaking

This notice offers interested parties an opportunity to comment on a proposed regulation concerning standard administrative requirements for Federal grants, contracts, and other agreements with public and private institutions of higher education, public and private hospitals, and public and private nonprofit organizations (hereinafter referred to as recipients). It is issued in accordance with the provisions of the Federal Property and Administrative Services Act of 1949 and Executive Order 11717.

The proposed regulation is the product of an interagency task force, and its purpose is to provide one set of requirements in place of the multitude of varying and often conflicting requirements which have been burdensome to recipients.

Generally, the proposed regulation does not permit Federal agencies to impose additional requirements without the approval of the General Services Administration. However, there may be some grant recipients which may not have adequate management systems. For these recipients, it may be necessary to establish more rigid requirements until the management deficiencies are corrected. We invite interested parties to provide comments as to how these grant recipients which need help should be identified and to describe what additional requirements would be needed for these recipients.

Interested persons should submit their comments in duplicate to the General Services Administration (AMF), Washington, DC 20405. All relevant material should be received on or before March 12, 1975.

NOTE.—The forms mentioned in Appendix G are on file with the original document.

Dated: February 3, 1975.

R. E. ZECHMAN,
Associate Administrator.

This is a Federal Management Circular requiring all Federal agencies to adopt standard administrative requirements for certain grants, contracts, and other agreements with public and private institutions of higher education, public and private hospitals, and other public and private nonprofit organizations. Authority for issuance of such standards is provided under provisions of Executive Order 11717.

As proposed, 34 CFR Part 258 would read as follows:

PART 258—UNIFORM ADMINISTRATIVE STANDARDS FOR AGREEMENTS WITH PUBLIC AND PRIVATE INSTITUTIONS OF HIGHER EDUCATION, PUBLIC AND PRIVATE HOSPITALS, AND OTHER PUBLIC AND PRIVATE NONPROFIT ORGANIZATIONS

Sec.
258.1 Purpose.
258.2 Effective date.
258.3 Cancellation/recession/supersession.
258.4 Policy intent.
258.5 Applicability and scope.
258.6 Definitions.
258.7 Requests for exceptions.
258.8 Responsibilities.
258.9 Inquiries.

AUTHORITY: Executive Order 11717.

§ 258.1 Purpose.

This part promulgates standards for obtaining consistency and uniformity among Federal agencies in the administration of agreements including grants, contracts, and other agreements as defined in § 258.6c with public and private institutions of higher education, public and private hospitals, and other public and private nonprofit organizations (hereinafter referred to as recipients).

§ 258.2 Effective date.

The standards in the appendixes to this part will be applied for grants and certain other agreements as soon as practicable but not later than October 1, 1975. For contracts, the standards will be published in the Federal Procurement Regulations and Armed Services Procurement Regulations.

§ 258.3 Cancellation / rescission / supersession.

This part rescinds and replaces Parts III and IV of the Appendix to Part 253.

§ 258.4 Policy intent.

The uniform standards and requirements included in the appendixes to this part replace the varying and often conflicting and burdensome requirements which have been imposed by Federal agencies upon recipients as conditions of agreements with recipients.

§ 258.5 Applicability and scope.

Except as provided below, the standards promulgated by this part are applicable to agreements with recipients, as defined in § 258.6(b). If the enabling legislation for a specific project or program prescribes policies or requirements that differ from the standards provided herein, the provisions of the enabling legislation shall govern. Except as otherwise provided, the provisions of this part shall also supply to all subrecipients performing substantive work under the agreement.

§ 258.6 Definitions.

For the purposes of this part:

(a) The term "grant" means money or property provided in lieu of money paid or furnished by the Federal Government to recipients under programs that provide financial assistance and support for basic research. The term does not include technical assistance programs which provide services instead of money or other assistance in the form of general revenue sharing, loans, loan guarantees, or insurance. Also the term does not apply to direct payments or direct loans to individuals.

(b) The term "recipient" includes the following types of organizations which are receiving Federal funds:

(i) Public and private institutions of higher education,

(ii) Public and private hospitals, and

(iii) Other public and private nonprofit organizations, such as (but not limited to) community action agencies, Head Start agencies, research institutes, educational associations, and health centers.

The term does not include foreign or international organizations (such as agencies of the United Nations and Government-owned facilities (GOCO) or research centers providing continuing support for mission-oriented, large scale programs which are (usually) Government-owned or controlled, or are designed as federally-funded research and development centers.

(c) The term "agreement" means a cooperative agreement, grant, contract or other types of instruments used to reflect a relationship between the Federal Government and the recipient but does not include procurements for goods and services which are normally conducted through solicited competitive bidding or provide for a payment of a fee or profit to the recipient.

§ 258.7 Requests for exceptions.

The General Services Administration shall grant deviations from the requirements of this part when deviations are permissible under existing laws. However, in the interest of keeping maximum uniformity, deviations from the requirements of the part will be permitted only in exceptional cases.

§ 258.8 Responsibilities.

Agencies responsible for administering programs shall issue the appropriate regulations necessary to implement the provisions of the part and shall, upon request, furnish such regulations or implementing instructions to the Office of Federal Management Policy (AMF), GSA. They shall also designate an official to serve as the agency representative on matters relating to the implementation of this part. The name and title of such representative shall be furnished to the Office of Federal Management Policy (AMF), GSA, not later than 30 days after the date of final publication in the FEDERAL REGISTER.

§ 258.9 Inquiries.

Further information concerning this part may be obtained by contacting:

APPENDIX

Cash Depositories. 1. This appendix sets forth standards governing the use of banks and other institutions as depositories of funds advanced under agreements.

2. Except for situations described in 2., 3., and 4., no Federal sponsoring agency shall:

(a) Require physical segregation of cash depositories for funds which are provided to a recipient.

(b) Establish any eligibility requirements for cash depositories in which funds are deposited by a recipient.

3. A separate bank account shall be required when letter-of-credit agreements entered into by the recipient, the Federal Government, and the bank involved provide that drawdowns will be made when the recipient's checks are presented to the bank for payment.

4. When no other method is feasible for providing the security required by Federal procurement statutes on advance payments under a contract, a special bank account with a lien in favor of the Government shall be required.

5. Any moneys advanced to a recipient which are subject to the control or regulation of the United States or any of its officers, agents or employees (public moneys as defined in Treasury Circular No. 176) must be deposited in a bank with Federal Deposit Insurance Corporation (FDIC) insurance coverage and the balance exceeding the FDIC coverage must be collaterally secured.

6. Consistent with the national goal of expanding the opportunities for minority business enterprises, recipients shall be encouraged to use minority banks (a bank at least 50 per cent of which is owned by minority group members).

APPENDIX B

Bonding and insurance. 1. This appendix sets forth bonding and insurance requirements for agreements with recipients. No other bonding and insurance requirements shall be imposed other than those normally required by the recipient.

2. The Federal sponsoring agencies may impose special requirements for liability insurance for cost reimbursement contracts for supplies and services (including construction) and for awards in which the Government obligates itself to indemnify the recipient for liabilities to third persons for loss of or damage to property, or for death or bodily injury, not compensated by insurance or otherwise, arising out of performance under the contract.

3. Except as otherwise required by law, an agreement which requires the contracting (or subcontracting) for construction or facility improvement shall provide for the recipient to follow its own requirements relating to bid guarantees, performance bonds, and payment bonds unless the construction contract or subcontract exceeds $100,000. For these contracts or subcontracts exceeding $100,000, the minimum requirements shall be as follows:

a. *A bid guarantee from each bidder equivalent to five percent of the bid price.* The "bid guarantee" shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractural documents as may be required within the time specified.

b. *A performance bond on the part of the contract or for 100 percent of the contract price.* A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract.

c. *A payment bond on the part of the contractor for 100 percent of the contract price.* A "payment bond" is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

4. Where the Federal Government guarantees or insures the repayment of money borrowed by the recipient, the Federal agency, at its discretion, may require adequate bonding and insurance if the bonding and insurance requirements of the recipient are not deemed adequate to protect the interest of the Federal Government.

5. The Federal sponsoring agency may require adequate fidelity bond coverage where the recipient has no coverage and the bond is needed to protect the Government's interest.

6. Where bonds are required in the situations described above, the bonds shall be obtained from companies holding certificates of authority as acceptable sureties (31 CFR Part 223).

APPENDIX C

Retention and custodial requirements for records. 1. This appendix sets forth record retention requirements for agreements with recipients. Federal sponsoring agencies shall not impose any other record retention requirements upon recipients other than those described below.

2. Financial records, supporting documents, statistical records, and all other records pertinent to an agreement shall be retained for a period of three years, with the following qualifications:

a. The records shall be retained beyond the 3-year period if any audit findings, litigations or claims involving the records have not been resolved.

b. Records for nonexpendable property which was acuired with Federal funds shall be retained for 3 years after its final disposition.

c. When records are transferred to or maintained by the Federal sponsoring agency, the 3-year retention requirement is not applicable to the recipient.

3. The retention period for agreements, other than contracts, starts from the date of the submission of the final expenditure report or, for agreements which are renewed annually, from the date of the submission of the annual expenditure report.

4. The retention period for contracts starts from the date of final payment.

5. Recipient organizations should be authorized by the Federal sponsoring agency, if they so desire, to substitute microfilm copies in lieu of original records.

6. The Federal sponsoring agency shall request transfer of certain records to its custody from recipient organizations when it determines that the records possess long-term retention value. However, in order to avoid duplicate record-keeping, a Federal sponsoring agency may make arrangements with recipient organizations to retain any records which are continuously needed for joint use.

7. The head of the Federal sponsoring agency and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the recipient organization and their subrecipients to make audits, examinations, excerpts and transcripts.

8. Unless otherwise required by law, no Federal sponsoring agency shall place restrictions on recipient organizations which will limit public access to the records of recipient organizations except when the agency can demonstrate that such records must be kept confidential and would have been excepted from disclosure pursuant to the Freedom of Information Act (5 U.S.C. 552) if the records had belonged to the Federal sponsoring agency.

APPENDIX D

Program income. 1. Federal sponsoring agencies shall apply the standards set forth in this appendix in requiring recipient organizations to account for program income related to projects financed in whole or in part with Federal funds. Program income is defined in Appendix G, paragraph 2g.

2. Except as provided by the Intergovernmental Cooperation Act of 1968 (Public Law 90-577), for recipient organizations which are agencies or instrumentalities of a State, interest earned by a recipient organization on advances of Federal funds shall be remitted to the Federal agency.

3. Proceeds from the sale of real and personal property either provided by the Federal Government or purchased in whole or in part with Federal funds, shall be handled in accordance with Appendix N to this part pertaining to property management.

4. Royalties received as a result of copyrights or patents will normally be retained by the recipient unless the terms of the agreement provide otherwise.

5. All other program income earned during the project period shall be retained by the recipient and, in accordance with the agreement, shall be:

a. Added to funds committed to the project by the Federal sponsoring agency and recipient organization and be used to further eligible program objectives, or

b. Deducted from the total project costs in determining the net costs on which the Federal share of costs will be based.

APPENDIX E

Cost sharing and matching. 1. This appendix sets forth criteria and procedures for the allowability of cash and in-kind contributions made by recipients or third parties in satisfying cost sharing and matching requirements of Federal sponsoring agencies. This appendix also establishes criteria for the evaluation of in-kind contributions made by third parties, and supplements the guidance found in FMC 73-3 (34 CFR Part 211) with respect to cost sharing on federally-sponsored research.

2. The following definitions apply for the purpose of this appendix:

a. *Project costs.* Project costs are all allowable costs incurred by a recipient (as set forth in the applicable Federal cost principles) and the value of in-kind contributions made by third parties in accomplishing the objectives of the agreement during the project or program period.

XUM
V 40 28 FEB 10 75 XUM

b. *Cost sharing and matching.* In general, cost sharing and matching represent that portion of project or program costs not borne by the Federal Government.

c. *Cash contributions.* Cash contributions represent the recipient's cash outlay, including the outlay of money contributed to the recipient by non-Federal third parties.

d. *In-kind contributions.* In-kind contributions represent the value of noncash contributions provided by the recipient and non-Federal third parties. Only when authorized by Federal legislation, may property purchased with Federal funds be considered as the recipient's in-kind contributions. In-kind contributions may be in the form of real property and non-expendable personal property, and the value of goods and services directly benefiting and specifically identifiable to the project or program.

3. General guidelines for computing cost sharing or matching are as follows:

a. Cost sharing or matching may consist of:

(1) Charges incurred by the recipient as project costs. (Not all charges require cash outlays by the recipient during the project period; examples are depreciation and use charges for buildings and equipment.)

(2) Project costs financed with cash contributed or donated to the recipient by other public agencies and institutions, and private organizations and individuals, and

(3) Project costs represented by services and real and personal property, or use thereof, donated by other public agencies and institutions, and private organizations and individuals.

b. All contributions, both cash and in-kind, shall be accepted as part of the recipient's cost sharing or matching when such contributions meet all the following criteria:

(1) Are verifiable from the recipient's records;

(2) Are not included as contributions for any other federally assisted program;

(3) Are necessary and reasonable for proper and efficient accomplishment of project objectives;

(4) Are types of charges which would be allowable under the applicable cost principles;

(5) Are not paid by the Federal Government directly or indirectly under another agreement (unless the agreement is authorized by Federal law to be used for cost sharing or matching); and

(6) Conform to other provisions of this appendix.

4. Values for recipient in-kind contributions will be established in accordance with the applicable cost principles.

5. Specific procedures for the recipients in establishing the value of in-kind contributions from non-Federal third parties are set forth below:

a. *Valuation of volunteer services.* Volunteer services may be furnished by professional and technical personnel, consultants, and other skilled and unskilled labor. Volunteer service may be counted as cost sharing or matching if the service is an integral and necessary part of an approved program.

(1) *Rates for volunteer services.* Rates for volunteers should be consistent with those paid for similar work in the recipient's organization. In those instances in which the required skills are not found in the recipient organization, rates should be consistent with those paid for similar work in the labor market in which the recipient competes for the kind of services involved.

(2) *Volunteers employed by other organizations.* When an employer other than the recipient furnishes the services of an employee, these services shall be valued at the employee's regular rate of pay (exclusive of fringe benefits and overhead cost) provided these services are in the same skill for which the employee is normally paid.

b. *Valuation of donated expendable personal property.* Donated expendable personal property includes such items as expendable equipment, office supplies, laboratory supplies or workshop and classroom supplies. Value assessed to expendable personal property included in the cost or matching share should be reasonable and should not exceed the market value of the property at the time of the donation.

c. *Valuation of donated, nonexpendable personal property, buildings and land or use thereof.* (1) The method used for charging cost sharing or matching for donated nonexpendable personal property, buildings, and land may differ according to the purpose of the grant or contract as follows:

(a) If the purpose of the agreement is to assist the recipient in the acquisition of equipment, buildings, or land, the total value of the donated property may be claimed as cost sharing or matching.

(b) If the purpose of the agreement is to support activities that require the use of equipment, buildings or land on a temporary or part-time basis, depreciation or use charges for equipment and buildings may be made. The full value of equipment or other capital assets and fair rental charges for land may be allowed provided that the Federal agency has approved the charges.

(2) The value of donated property will be determined in accordance with the usual accounting policies of the recipient with the following qualifications:

(a) *Land and buildings.* The value of donated land and buildings may not exceed its fair market value, at the time of donation, as established by an independent appraiser (e.g., certified real property appraiser or GSA representatives) and certified by a responsible official of the recipient.

(b) *Nonexpendable personal property.* The value of donated nonexpendable personal property shall not exceed the fair market value of equipment and property of the same age and condition at the time of donation.

(c) *Use of space.* The value of donated space shall not exceed the fair rental value of comparable space as established by an independent appraiser of comparable space and facilities in a privately-owned building in the same locality.

(d) *Loaned equipment.* The value of loaned equipment shall not exceed its fair rental value.

6. The following requirements pertain to the recipient's supporting records for in-kind contributions from non-Federal third parties.

a. Volunteer services must be documented and, to the extent feasible, supported by the same methods used by the recipient for its employees.

b. The basis for determining the valuation for personal services, material, equipment, buildings, and land must be documented.

APPENDIX F

Standards for financial management systems. 1. This appendix prescribes standards for financial management systems of recipients. Federal sponsoring agencies shall not impose additional standards on recipients unless specifically provided for in the applicable statutes or other attachments to this part. However, Federal sponsoring agencies are encouraged to make suggestions and assist recipients in establishing or improving financial management systems when such assistance is needed or requested.

2. Recipients' financial management systems shall provide for:

a. Accurate, current and complete disclosure of the financial results of each federally sponsored project or program in accordance with the reporting requirements set forth in appendix G to this part. When a Federal sponsoring agency requires reporting on an accural basis, the recipient shall not be required to establish an accrual accounting system (except to the extent prescribed by the Cost Accounting Standards Board for awards subject to the Board's requirements), but should develop its reports on the basis of best estimates through an analysis of the documentation on hand.

b. Records which identify adequately the source and application of funds for federally sponsored activities. These records shall contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, outlays, and income.

c. Effective control over and accountability for all funds, property, and other assets. Recipients shall adequately safeguard all such assets and shall assure that they are used solely for authorized purposes.

d. Comparison of actual outlays with budget amounts for each agreement. Whenever appropriate or required by the Federal sponsoring agency, financial information should be related to performance and unit cost data.

e. Procedures to minimize the time elapsing between the transfer of funds from the U.S. Treasury and the disbursement by the recipient, whenever funds are advanced by the Federal Government. When advances are made by a letter-of-credit method, the recipient shall make drawdowns from the U.S. Treasury through his commerical bank as close as possible to the time of making disbursements.

f. Procedures for determining the allowability and allocability of costs in accordance with the provisions of the applicable Federal cost principles and the terms of the agreement.

g. Accounting records which are supported by source documentation.

h. Examinations in the form of audits or internal audits, of the recipient's financial transactions made by individuals who are sufficiently independent of those who authorize the expenditure of Federal funds, to produce unbiased opinions, conclusions or judgments. These examinations are intended to ascertain the effectiveness of the financial management systems and internal procedures that have been established to meet the terms and conditions of the agreement. It is not intended that each agreement awarded to the institution be examined. Generally, examinations should be conducted on an organizationwide basis to test the fiscal integrity of financial transactions, as well as compliance with the terms and conditions of the Federal agreements. Such tests would include an appropriate sampling of Federal agreements. Examinations will be conducted with reasonable frequency, on a continuing basis or at scheduled intervals, usually annually, but not less frequently than every two years. The frequency of these examinations shall depend upon the nature, size, and the complexity of the activity.

i. A systematic method to assure timely and appropriate resolution of audit findings and recommendations.

3. Primary recipients shall require secondary recipients (recipients of grants and cost type contracts which are passed through or awarded by the primary recipient) to adopt the standards in paragraph 2, above, except for the requirement in paragraph 2.e. regarding the use of letter-of-credit method.

APPENDIX G

Financial reporting requirements. 1. This appendix prescribes uniform reporting procedures for recipients to summarize expenditures made and Federal funds unexpended for each award; report the status of Federal cash advanced; request advances and reimbursement when the letter-of-credit method is not used; and promulgates standard forms incident thereto.

2. The following definitions apply for purposes of this appendix.

a. *Accrued expenditures.* Accrued expenditures are the charges incurred by the recipient during a given period requiring the provision of funds for: (1) goods and other tangible property received; (2) services performed by employees, contractors, subrecipients, and other payees, and (3) other amounts becoming owed under programs for which no current services or performance are required.

b. *Accrued income.* Accrued income is the earnings during a given period which are a source of funds resulting from (1) services performed by the recipient; (2) goods and other tangible property delivered to purchasers; and (3) amounts becoming owed to the recipient for which no current services or performance are required by the recipient.

c. *Federal funds authorized.* Federal funds authorized represent the total amount of Federal funds authorized for obligation by the recipient. This amount may include any authorized carryover of unobligated funds from prior fiscal years.

d. *In-kind contributions.* In-kind contributions represent the value of noncash contributions provided by the recipient and non-Federal third parties. Only when authorized by Federal legislation may property purchased with Federal funds be considered as the recipient's in-kind contributions. In-kind contributions may be in the form of charges for real property and nonexpendable personal property, and value of goods and services directly benefiting and specifically identifiable to the project or program.

e. *Obligations.* Obligations are the amounts of orders placed, contracts and grants awarded, services received, and similar transactions during a given period, which will require payment during the same or a future period.

f. *Outlays.* Outlays or expenditures represent charges made to the project or program. They may be reported on a cash or accrual basis. For reports which are prepared on a cash basis, outlays are the sum of actual cash disbursements for direct charges for goods and services, the amount of indirect expense charged, the value of in-kind contributions applied, and the amount of cash advances and payments made to subrecipients. For reports prepared on an accrual basis, outlays are the sum of actual cash disbursements for direct charges for goods and services, the amount of indirect expense incurred, the value of in-kind contributions applied, and the net increase (or decrease) in the amounts owed by the recipient for goods and other property received, for services performed by employees, contractors, subrecipients and other payees and other amounts becoming owed under programs for which no current services or performances are required.

g. *Program income.* Program income represents earnings by the recipient realised from the federally supported activities. Such earnings exclude interest income and may include, but will not be limited to, income from service fees, sale of commodities, usage or rental fees, and royalties on patents and copyrights. Program income can be reported on a cash or accrued income basis.

h. *Unobligated balance.* The unobligated balance is the portion of the funds authorized by the Federal sponsoring agency which has not been obligated by the recipient and is determined by deducting the cumulative obligations from the cumulative funds authorized.

i. *Unliquidated obligations.* For reports prepared on a cash basis, unliquidated obligations represent the amount of obligations incurred by the recipient which have not been paid. For reports prepared on an accured expenditure basis, they represent the amount of obligations incurred by the recipient for which an outlay has not been recorded.

3. Only the following forms will be authorized for obtaining financial information from recipients. The forms mentioned below are filed as part of the original document.

a. *Financial Status Report (Exhibit 1).* (1) Each Federal sponsoring agency shall require recipients to use the standardized Financial Status Report to report the status of funds for all nonconstruction, projects or programs. The Federal sponsoring agencies may, however, have the option of not requiring the Financial Status Report when the Request for Advance or Reimbursement (paragraph 4a.) or Report of Federal Cash Transactions (paragraph 3b.) is determined to provide adequate information to meet their needs, except that a final Financial Status Report shall be required at the completion of the project when the Request for Advance or Reimbursement form is used only for advances.

(2) The Federal sponsoring agency shall prescribe whether the report shall be on a cash or accrual basis. If the Federal sponsoring agency requires accrual information and the recipient's accounting records are not normally kept on the accrual basis, the recipient shall not be required to convert his accounting system, but should develop such information through best estimates based on an analysis of the documentation on hand.

(3) The Federal sponsoring agency shall determine the frequency of the Financial Status Report for each project or program considering the size and complexity of the particular project or program. However, the report shall not be required more frequently than quarterly or less frequently than annually. When necessary to meet program needs, monthly reports may be authorized if approved by the General Services Administration. A final report shall be required at the completion of the agreement.

(4) Federal sponsoring agencies shall require recipients to submit the Financial Status Report (original and no more than two copies) no later than 30 days after the end of each specified reporting period for quarterly and semi-annual reports, and 90 days for annual and final reports. Extensions to reporting due dates may be granted upon request of the recipient.

b. *Report of Federal Cash Transactions (Exhibit 2).*

(1) When funds are advanced to recipients through letters of credit or with Treasury checks, the Federal sponsoring agencies shall require each recipient to submit a Report of Federal Cash Transactions. The Federal sponsoring agency shall use this report to monitor cash advanced to recipients and to obtain disbursement information for each agreement from the recipients.

(2) Federal sponsoring agencies may require forecasts of Federal cash requirements in the "Remarks" section of the report.

(3) When practical and deemed necessary, the Federal sponsoring agencies may require recipients to report in the "Remarks" section the amount of cash advances in excess of three days' requirements in the hands of subgrantees or subcontractors and to provide short narrative explanations of actions taken by the recipients to reduce the excess balances.

(4) Recipients shall be required to submit not more than the original and two copies of the Report of Federal Cash Transactions 15 working days following the end of each quarter. The Federal sponsoring agencies may require a monthly report from those recipients receiving advances totaling $1 million or more per year.

(5) Federal sponsoring agencies may waive the requirement for submission of the Report of Federal Cash Transactions when monthly advances do not exceed $10,000 per recipient, provided that such advances are monitored through other forms contained in this appendix, or the recipient's accounting controls are adequate to minimize excessive Federal advances.

4. Except as noted below, only the following forms will be authorized for the recipients in requesting advances and reimbursements.

a. *Request for Advance or Reimbursement (Exhibit 3).* (1) Each Federal sponsoring agency shall adopt the Request for Advance or Reimbursement as a standardized form for all nonconstruction programs when letters of credit or predetermined advance methods are not used. Federal sponsoring agencies, however, have the option of using this form for construction programs in lieu of the Outlay Report and Request for Reimbursement for Construction Programs (paragraph 5b.).

(2) Recipients shall be authorized to submit requests for advances and reimbursement at least monthly when letters of credit are not used. Federal sponsoring agencies shall not require the submission of more than the original and two copies of the Request for Advance or Reimbursement.

b. *Outlay Report and Request for Reimbursement for Construction Programs (Exhibit 4).* (1) Each Federal sponsoring agency shall adopt the Outlay Report and Request for Reimbursement for Construction Programs as the standardized format to be used for requesting reimbursement for construction programs. The Federal sponsoring agencies may, however, have the option of substituting the Request for Advance or Reimbursement Form (paragraph 4a.) when the Federal agencies determine that it provides adequate information to meet their needs.

(2) Recipients shall be authorized to submit requests for reimbursement at least monthly when letters of credit are not used. Federal sponsoring agencies shall not require more than the original and two copies of the Outlay Report and Request for Reimbursement for Construction Programs.

5. When the Federal sponsoring agencies need additional information in using these forms, the following shall be observed:

a. When necessary to comply with legislative requirements, Federal sponsoring agencies shall issue instructions to require recipients to submit such information under the "Remarks" section of the reports.

b. When necessary to meet specific program needs, Federal sponsoring agencies shall submit the proposed reporting requirements to the General Services Administration for approval under the exception provision of this part.

c. When a Federal sponsoring agency has determined that a nonprofit organization's accounting system does not meet the Standards for Financial Management contained in appendix F to this part, additional information to further monitor agreements may be obtained until such time as the system is brought up to standard.

d. The Federal sponsoring agency, in obtaining information as in paragraphs a. and

XUM V40128 FEB 10 75 XUM

b. above, must also comply with report clearance requirements of the Office of Management and Budget Circular No. A-40, as revised.

6. Federal sponsoring agencies have the option of shading out any line item on any report that is unnecessary for decisionmaking purposes.

7. Federal sponsoring agencies should accept the identical information from the recipients in machine usable format or computer printouts in lieu of prescribed formats.

8. Federal sponsoring agencies may provide computer outputs to recipients when it will expedite or contribute to the accuracy of reporting.

9. Federal sponsoring agencies are authorized to reproduce these forms. The forms for reproduction purposes can be obtained from the General Services Administration.

APPENDIX H

MONITORING AND REPORTING PROGRAM PERFORMANCE

1. This appendix sets forth the procedures for monitoring and reporting program performance of recipients.

2. Recipients shall monitor the performance under agreements and, where appropriate, ensure that time schedules are being met, projected work units by time periods are being accomplished, and other performance goals are being achieved. This review shall be made for each program, function, or activity of each agreement as set forth in the approved application or award document.

3. Recipients shall submit a performance report (technical report) for each agreement that briefly presents the following information for each program, function, or activity involved as prescribed by the Federal sponsoring agency:

a. A comparison of actual accomplishments with the goals established for the period, the findings of the investigator, or both. If the output of programs or projects can be readily quantified, such quantitative data should be related to cost data for computation of unit costs.

b. Reasons why established goals were not met.

c. Other pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

4. Except as provided in a. and b. below, recipients shall submit the performance or technical reports to Federal sponsoring agencies with the Financial Status Reports in the frequency established by Appendix G of this part and, where appropriate, a final technical or performance report after completion of the project on a date specified by the Federal sponsoring agency. The Federal sponsoring agency shall prescribe the frequency with which the performance reports will be submitted with the request for advance or reimbursement when that form is used in lieu of the Financial Status Report. Except as provided for in paragraph 5. below, performance reports shall not be required more frequently than quarterly or less frequently than annually. Federal sponsoring agencies may waive the requirement for recipients to submit performance reports with the financial reports under the following circumstances:

a. When the recipient is required to submit a performance report with a continuation or renewal application.

b. When the Federal sponsoring agency determines that on-site technical inspections and certified completion data will be sufficient to evaluate construction projects.

c. When the Federal sponsoring agency requests annual financial reports on a fiscal year basis but it is necessary to get annual progress reports on a calendar year basis.

5. Between the required performance reporting dates, events may occur which have significant impact upon the project or program. In such instances, the recipient shall inform the Federal sponsoring agency as soon as the following types of conditions become known:

a. Problems, delays, or adverse conditions which will materially affect the ability to attain program objectives, prevent the meeting of time schedules and goals, or preclude the attainment of project work units by established time periods. This disclosure shall be accompanied by a statement of the action taken, or contemplated, and any Federal assistance needed to resolve the situation.

b. Favorable developments or events that enable time schedules to be met sooner than anticipated or more work units to be produced than originally projected.

6. If any performance review conducted by the recipient disclosures the need for change in the budget estimates in accordance with the criteria established in Appendix J to this circular, the recipient shall submit a request for budget revision.

7. The Federal sponsoring agency shall make site visits as frequently as practicable to:

a. Review program accomplishments and management control systems, and

b. Provide such technical assistance as may be required.

APPENDIX I

Payment requirements. 1. This appendix establishes the required methods of making payments to recipients. These methods will minimize the time elapsing between the disbursement by these recipients and the transfer of funds from the United States Treasury to these recipients whether such disbursement occurs prior to or subsequent to the transfer of funds.

2. Payments can be made to recipients through a letter of credit, an advance by Treasury check, or a reimbursement by Treasury check. The following definitions apply for the purpose of this appendix:

a. *Letter of credit.* A letter of credit is an instrument certified by an authorized official of a Federal sponsoring agency which authorizes a recipient to draw funds when needed from the Treasury, through a Federal Reserve bank and the recipient's commercial bank, in accordance with the provisions of Treasury Circular No. 1076, as revised.

b. *Advance by Treasury check.* An advance by Treasury check is a payment made by a Treasury check to a recipient upon its request before outlays are made by the recipient, or through the use of predetermined payment schedules.

c. *Reimbursement by Treasury check.* A reimbursement by Treasury check is a Treasury check paid to a recipient upon request for reimbursement from the recipient.

3. Except for construction grants and other construction agreements for which optional payment methods are authorized, as described in paragraph 5, the letter-of-credit method shall be used by Federal sponsoring agencies if all of the following conditions exist:

a. If there is or will be a continuing relationship between a recipient and a Federal sponsoring agency for at least a 12-month period and the total amount of advance payments expected to be received within that period from the Federal sponsoring agency is $250,000 or more, as prescribed by Treasury Circular No. 1075.

b. If the recipient has established or demonstrated to the Federal sponsoring agency the willingness and ability to establish procedures that will minimize the time elapsing between the transfer of funds and their disbursement by the recipient.

c. If the recipient's financial management system meets the standards for fund control and accountability prescribed in Appendix F to this part, "Standards for Financial Management Systems."

4. The method of advancing funds by Treasury check shall be used, in accordance with the provisions of Treasury Circular No. 1075, when the recipient meets all of the requirements specified in paragraph 3, above, except those in subparagraph 3a.

5. The reimbursement by Treasury check method shall be the preferred method if the recipient does not meet the requirements specified in either or both of subparagraphs 3b. and 3c. At the option of the Federal sponsoring agency, this method may also be used on any construction agreement, or if the major portion of the program is accomplished through private market financing or Federal loans, and the Federal assistance constitutes a minor portion of the program. When the reimbursement method is used, the Federal sponsoring agency shall make payment within thirty days after receipt of the billing, unless the billing is improper.

6. When the letter-of-credit procedure is used, the recipient shall be issued one consolidated letter of credit whenever possible to cover anticipated cash needs for all grants and other agrements awarded by the sponsoring agency. Likewise, to the extent possible, when the advance by Treasury check method is used, advances should be consolidated (pooled) for all grants and other agreements made by the sponsoring agency to that recipient.

7. The preferred form of security for advance payments under contracts shall be a paramount lien in favor of the Government upon personal property acquired for or allocated to contract performance.

8. Unless otherwise required by law, Federal sponsoring agencies shall not withhold payments for proper charges made by recipients at any time during the project or program period unless (a) a recipient has failed to comply with the program objectives, award conditions, or Federal reporting requirements; or (b) the recipient is indebted to the United States, and collection of the indebtedness will not impair accomplishment of the objectives of a project or program sponsored by the United States.

Under such conditions, the sponsoring agency may, upon reasonable notice, inform the recipient that payments will not be made for obligations incurred after a specified date until the conditions are corrected or the indebtedness to the Federal Government is liquidated.

APPENDIX J

Revision of financial plans. 1. This appendix sets forth criteria and procedures to be followed by Federal sponsoring agencies in requiring recipients to report deviations from financial plans and to request approvals for financial plan revisions.

2. The financial plan is the financial expression of the project or program as approved during the application and/or award process. It may include both the Federal and non-Federal share or only the Federal share, depending upon sponsoring agency requirements. It should be related to performance for program evaluation purposes whenever appropriate and required by the Federal sponsoring agency.

3. For nonconstruction awards, recipients shall request prior approvals promptly from Federal sponsoring agencies whenever deviations from approved financial plans are necessary for the following reasons:

a. The revision results from changes in the scope or the objective of the project or program.

b. The revision indicates the need for additional Federal funding.

c. The revision involves the transfer of amounts budgeted for indirect costs to absorb increases in direct costs or vice versa, if approval is required by the Federal sponsoring agency.

d. The revisions pertain to expenditures which require approval in accordance with FMC 73-6 (34 CFR Part 254) (Cost Principles for Educational Institutions). No other requirements for specific items may be imposed unless a deviation has been approved by the General Services Administration.

e. When recipients plan to transfer funds allotted for training allowances (direct payments to trainees) to other categories of expense.

4. The Federal sponsoring agency may also, at its option, restrict transfers of funds among direct cost categories for awards in which the Federal share exceeds $100,000 when the cumulative amount of such transfers exceeds or is expected to exceed 5 percent of the total budget. The same criteria shall apply to the cumulative amount of transfers among programs, functions, and activities when budgeted separately for an award, except that the Federal sponsoring agency shall permit no transfer which would cause any Federal appropriation, or part thereof, to be used for purposes other than those intended.

5. All other changes to nonconstruction budgets, except for the changes described in paragraph 7., do not require approval. This includes the use of recipient funds in furtherance of program objectives over and above the recipient minimum share included in the approved budget.

6. For construction awards, recipients shall request prior approvals promptly from Federal sponsoring agencies for budget revisions wherever:

a. The revision results from changes in the scope or the objective of the project or program, and

b. The revision increases the budget amounts of Federal funds needed to complete the project.

7. When a Federal sponsoring agency makes an award which provides support for both construction and nonconstruction work, the Federal sponsoring agency may require the recipient to request prior approval from the Federal sponsoring agency before making any fund or budget transfers between the two types of work supported.

8. For both construction and nonconstruction awards, Federal sponsoring agencies shall require recipients to notify the Federal sponsoring agency promptly whenever the amount of Federal authorized funds is expected to exceed the needs of the recipient by more than $5,000 or 5 percent of the Federal award, whichever is greater. This notification will not be required when applications for additional funding are submitted for continuing grants or contracts.

9. When requesting approval for budget revisions which require forms, recipients shall use the budget forms which were used in the application.

10. Within 30 calendar days from the date of receipt of the request for budget revisions, Federal sponsoring agencies shall review the request and notify the recipient whether the budget revisions have been approved. If the revision is still under consideration at the end of 30 calendar days, the Federal sponsoring agency shall inform the recipient in writing of the date when the recipient may expect the decision.

APPENDIX K

Closeout procedures. 1. This appendix prescribes uniform closeout procedures for Federal agreements with recipients.

2. The following definitions shall apply for the purpose of this attachment:

a. *Closeout.* The closeout of an agreement is the process by which a Federal sponsoring agency determines that all applicable administrative actions and all required work of the agreement have been completed by the recipient and the Federal sponsoring agency.

b. *Date of completion.* The date of completion means when all work under an agreement is completed or the date in the award document, or any supplement or amendment thereto, on which Federal sponsorship ends.

c. *Disallowed costs.* Disallowed costs are those charges to an agreement which the Federal sponsoring agency or its representative determines to be unallowable, in accordance with the applicable Federal cost principles or other conditions contained in the agreements.

3. All Federal sponsoring agencies shall establish closeout procedures which include the following requirements:

a. Upon request, the Federal sponsoring agency shall make prompt payments to a recipient for allowable reimbursable costs under the agreement being closed out.

b. The recipient shall immediately refund any balance of unencumbered cash which the Federal sponsoring agency has advanced or paid and which is not authorized to be retained by the recipient for use in other agreements.

c. The Federal sponsoring agency shall obtain from the recipient within 90 calendar days after the date of completion of the agreement all financial, performance, and other reports required as the condition of the agreement. The agency may grant extensions when requested by the recipient.

d. When authorized by the agreement, the Federal sponsoring agency shall make a settlement for any upward or downward adjustments to the Federal share of costs after these reports are received.

e. The recipient shall account for any property acquired with Federal funds, or received from the Government in accordance with the provisions of Appendix N to this part, Property Management Standards.

f. In the event a final audit is required and has not been performed prior to the closeout of the agreement, the Federal sponsoring agency shall retain the right to recover an appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

4. Suspension and termination procedures are contained in Appendix L to this part.

APPENDIX L

Suspension and termination procedures. 1. This appendix prescribes uniform suspension and termination procedures for Federal agreements with recipients.

2. The following definitions shall apply for the purpose of this appendix:

a. *Termination.* The termination of an agreement means the cancellation of Federal sponsorship, in whole or in part, under an agreement at any time prior to the date of completion.

b. *Suspension.* The suspension of an agreement is an action by a Federal sponsoring agency which temporarily suspends Federal sponsorship under the agreement pending corrective action by the recipient or pending a decision to terminate the agreement by the Federal sponsoring agency.

3. All Federal sponsoring agencies shall provide procedures to be followed when a recipient has failed to comply with the terms of the agreement and conditions or standards. When that occurs, the Federal sponsoring agency may, on reasonable notice to the recipient, suspend the agreement, and withhold further payments, or prohibit the recipient from incurring additional obligations of funds, pending corrective action by the recipient or a decision to terminate in accordance with paragraph 4. The Federal sponsoring agency shall allow all necessary and proper costs which the recipient could not reasonably avoid during the period of suspension provided that they meet the provisions of the applicable Federal cost principles.

4. Federal sponsoring agencies shall provide for the systematic settlement of terminated agreements including the following:

a. *Termination for cause.* The Federal sponsoring agency may reserve the right to terminate any agreement in whole or in part at any time before the date of completion, whenever it is determined that the recipient has failed to comply with the conditions of the agreement. The Federal sponsoring agency shall promptly notify the recipient in writing of the determination and the reasons for the termination, together with the effective date. Payments made to recipients or recoveries by the Federal sponsoring agencies under agreements terminated for cause shall be in accordance with the legal rights and liabilities of the parties.

b. *Termination for convenience.* (1) *Grants and other cooperative agreements.* The sponsoring agency or recipient may terminate grants and other cooperative agreements in whole or in part when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall agree upon the termination conditions, including the effective date and, in the case of partial terminations, the portion to be terminated. The recipient shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The Federal sponsoring agency shall allow full credit to the recipient for the Federal share of the noncancellable obligations, properly incurred by the recipient prior to termination.

(2) *Contracts.* The Federal contracting agency may terminate contracts, in whole, or in part, whenever for any reason the contracting officer shall determine that such termination is in the best interest of the Government.

APPENDIX M

[RESERVED FOR—APPLICATION FORMS]

APPENDIX N

Property management standards. 1. This appendix prescribes uniform standards governing management of property furnished by the Federal Government or acquired in whole or in part with Federal funds by recipients. Federal sponsoring agencies shall require recipients to observe these standards under agreements and shall not impose additional requirements unless specifically required by Federal law. The recipient may use his own property management standards and procedures provided he observes the provisions of this appendix.

2. The following definitions apply for the purpose of this appendix:

a. *Real property.* Real property means land, including land improvements, structures, and and appurtenances thereto, but excluding movable machinery and equipment.

b. *Personal property.* Personal property means property of any kind except real property. It may be tangible—having physical existence, or intangible—having no physical

XUM
V40128
FEB 10 75
XUM

existence, such as patents, inventions, and copyrights.

c. *Nonexpendable personal property.* Nonexpendable personal property means tangible personal property having a useful life of more than one year and an acquisition cost of $300 or more per unit except that recipients subject to Cost Accounting Standards Board regulations may use the CASB standard of $500 per unit and useful life of two years. A recipient may use its own definition of nonexpendable personal property provided that the definition would at least include all tangible personal property as defined above.

d. *Expendable personal property.* Expendable personal property referes to all tangible personal property other than nonexpendable property.

e. *Excess property.* Excess property means property under the control of any Federal agency which, as determined by the head thereof, is no longer required for its needs.

f. *Acquisition cost of purchased nonexpendable personal property.* Acquisition cost of an item of purchased nonexpendable personal property means the net invoice unit price of the property including the cost of modifications, attachments, accessories, or auxiliary apparatus necessary to make the property usable for the purpose for which it was acquired. Other charges such as the cost of installation, transportation, taxes, duty or protective in-transit insurance, shall be included or excluded from the unit acquisition cost in accordance with the recipient's regular accounting practices.

g. *Exempt property.* Exempt property means tangible personal property which is acquired in whole or in part with Federal funds, and title to which is vested in the recipient without further obligation to the Federal Government except as provided in 4d. below. Such unconditional vesting of title will be pursuant to any Federal legislation which provides the Federal sponsoring agency with adequate authority.

3. *Real property.* Agencies shall follow existing regulations for acquisition and use of real property acquired under contracts. Each Federal sponsoring agency shall prescribe requirements for recipients concerning the use and disposition for real property acquired partly or wholly under agreements except contracts. Unless otherwise provided by statute, such requirements, as a minimum, shall contain the following:

a. Title to real property shall vest in the recipient subject to the condition that the recipient shall use the real property for the authorized purpose of the assistance, as long as it is needed.

b. The recipient shall obtain approval by the Federal sponsoring agency for the use of real property in other projects when the recipient determines that the property is no longer needed for the purpose of the original assistance project. Use in other projects shall be limited to those under other federally assisted projects (i.e., grants or other agreements) or programs that have purposes consistent with those authorized for support by the Federal sponsoring agency.

c. When the real property is no longer needed as provided in a. and b. above, the recipient shall request disposition instructions from the Federal sponsoring agency or its successor Federal sponsoring agency in interest. The Federal sponsoring agency shall observe the following rules in the disposition instructions.

(1) The recipient may be permitted to retain title after it compensates the Federal Government in an amount computed by applying the Federal percentage of participation in the cost of the original project to the fair market value of the property.

(2) The recipient may be directed to sell the property under guidelines provided by the Federal sponsoring agency and pay the Federal Government an amount computed by applying the Federal percentage of participation in the cost of the original project to the proceeds from sale (after deducting actual and reasonable selling and fix-up expenses, if any, from the sales proceeds). When the recipient is authorized or required to sell the property, proper sales procedures shall be established which would provide for competition to the extent practicable and result in the highest possible return.

(3) The recipient may be directed to transfer title to the property to the Federal Government provided that in such cases the recipient shall be entitled to compensation computed by applying the recipient's percentage of participation in the cost of the program or project to the current fair market value of the property.

4. *Nonexpendable personal property.* Standards and procedures governing management of nonexpendable personal property acquired with Federal assistance funds or furnished by the Federal Government, are set forth below.

a. *Exempt property.* When statutory authority exists, (e.g., Pub. L. 85-934, (42 U.S.C. 1892)), nonexpendable personal property acquired with Federal funds, title shall be vested in the recipient upon acquisition unless it is determined that to do so is not in furtherance of the objectives of the Federal sponsoring agency. When title is vested in the recipient, the recipient shall have no other obligation or accountability to the Federal Government for its use or disposition except as provided in 4d. below.

b. *Nonexempt, nonexpendable personal property acquired with contract funds.* Title to nonexempt, nonexpendable personal property acquired with contract funds shall vest in the Federal Government upon acquisition. The contractor shall (subject to the shared use rule in 4f. below) use the property for the contract under which it was acquired as long as needed. Upon completion or termination of the contract, the contractor and the Federal sponsoring agency will act in accordance with 4e. below.

c. *Nonexempt, nonexpendable personal property acquired with other than contract funds.* When nonexempt, nonexpendable personal property is acquired by a recipient wholly or in part with other than contract funds, title shall not be taken by the Federal Government except as provided in 4d., below, but shall vest in the recipient subject to the following conditions governing use and disposition of the property:

(1) The recipient shall (subject to 4f. below) use the property in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When no longer needed for the original project or program, the recipient shall use the property in connection with its other federally assisted activities, in the following order of priority:

(a) Activities sponsored by the same Federal agency.

(b) Activities sponsored by other Federal agencies.

(2) When the recipient no longer needs the property as provided in (1) above, the property may be used for other activities in accordance with the following standards:

(a) *Nonexpendable property with a unit acquisition cost of less than $1,000.* The recipient may use the property for other activities without reimbursement to the Federal Government or sell the property and retain the proceeds.

(b) *Nonexpendable personal property with a unit acquisition cost of $1,000 or more.* The recipient may retain the property for other uses provided that compensation is made to the original Federal sponsoring agency or its successor. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original project or program to the current fair market value of the property. If the recipient has no need for the property and the property has further use value, the recipient shall request disposition instructions from the original sponsoring agency. The Federal sponsoring agency shall determine whether the property can be used to meet the agency's requirements. If no requirement exists within that agency, the availability of the property shall be reported to the General Services Administration (GSA) by the Federal agency to determine whether a requirement for the property exists in other Federal agencies. The Federal sponsoring agency shall issue instructions to the recipient not later than 120 days after the recipient's request, and the following procedures shall govern:

(1) If the recipient is instructed to ship the property elsewhere, the recipient shall be reimbursed by the benefiting Federal agency with an amount which is computed by applying the percentage of the recipient's participation in the cost of the original grant project or program to the current fair market value of the property, plus any reasonable shipping or interim storage costs incurred.

(11) If the recipient is instructed to otherwise dispose of the property, the recipient shall be reimbursed by the Federal sponsoring agency for such costs incurred in its disposition. If the recipient is instructed to sell the property, he shall reimburse the Federal sponsoring agency in accordance with subparagraph 4b(iii) below.

(iii) If disposition instructions are not issued within 120 calendar days after the recipient's request, the recipient shall sell the property and reimburse the Federal sponsoring agency an amount which is computed by applying to the sales proceeds the percentage of Federal participation in the cost of the original project or program. However, the recipient shall be permitted to deduct and retain from the Federal share $100 or 10 percent of the proceeds, whichever is greater, for the recipient's selling and handling expenses.

d. *Transfer of title of recipient-owned, nonexpendable property with a unit acquisition cost of $1,000 or more.* With respect to items of nonexpendable personal property owned by recipients and acquired with Federal funds having a unit acquisition cost of $1,000 or more, the Federal sponsoring agency may reserve the right to require the recipient to transfer the title to the Federal Government or directly to a third party named by the Federal Government when such third party is otherwise eligible under existing statutes. Such reservation shall be subject to the following standards:

(1) The property shall be appropriately identified in the agreement or otherwise made known to the recipient.

(2) The Federal sponsoring agency shall issue disposition instructions within 120 calendar days after the end of the Federal support of the project for which it was acquired. If the Federal sponsoring agency fails to issue disposition instructions within the 120 calendar day period, the recipient shall apply the standards of subparagraphs 4c. and 4a. as appropriate.

(3) When the Federal sponsoring agency exercises its right to take title, it shall notify the recipient; the personal property shall be subject to the provisions of subparagraph 4e. below.

(4) When title is transferred either to the Federal Government or to a third party, the provisions of 4c(b)(i) should be followed.

e. *Federally owned nonexpendable personal property.* Title to federally owned property remains vested in the Federal Government. The Federal sponsoring agency may require property acquired under a contract to be reported to it upon acquisition. Recipients shall submit annually an inventory listing of federally owned property in their custody to the Federal sponsoring agency. Upon completion of the agreement or when the property is no longer needed, the recipient shall report the property to the Federal sponsoring agency for further agency utilization.

If the Federal sponsoring agency has no further need for the property, it shall be declared excess and reported to the General Services Administration. Appropriate disposition instructions will be issued to the recipient after completion of the Federal agency review.

f. *Shared use.* During the time that nonexpendable personal property is held for use on the project or program for which it was acquired, the recipient shall make it available for use on other projects or programs if such other use will not interfere with the work on the project or program for which the property was originally acquired. First preference for such other use shall be given to other projects or programs sponsored by the Federal agency which financed the property; second preference shall be given to projects or programs sponsored by other Federal agencies. If the property is owned by the Federal Government, use on other activities not sponsored by the Federal Government shall be permissible if authorized by the Federal agency. User charges should be considered if appropriate.

5. The recipient's property management standards for nonexpendable personal property shall include the following procedural requirements:

a. Property records shall be maintained accurately and shall include:

(1) A description of the property.

(2) Manufacturer's serial number, model number, Federal stock number, national stock number, or other identification number.

(3) Source of the property, including contract or grant number.

(4) Whether title vests in the recipient or the Federal Government.

(5) Acquisition date (or date received, if the property was furnished by the Federal Government) and cost.

(6) Percentage of Federal participation in the cost of the project or program for which the property was acquired (not applicable to property furnished by the Federal Government).

(7) Location, use and condition of the property and the date the information was reported.

(8) Unit acquisition cost.

(9) Ultimate disposition data, including sales price or the method used to determine current fair market value where a recipient compensates the Federal sponsoring agency for its share in accordance with 4c. above, and the date of disposal.

b. Property owned by the Federal Government must be marked to indicate Federal ownership. Any differences between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the difference.

c. A physical inventory of property shall be taken and the results reconciled with the property records at least once every two years. The recipient shall, in connection with the inventory, verify the existence, current utilization, and continued need for the property.

d. A control system shall be in effect to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft of nonexpendable property shall be investigated and fully documented; if the property was owned by the Federal Government, the recipient shall promptly notify the sponsoring Federal agency.

e. Adequate maintenance procedures shall be implemented to keep the property in good condition.

f. Where the recipient is authorized or required to sell the property, proper sales procedures shall be established which would provide for competition to the extent practicable and result in the highest possible return.

6. Standards for nonexempt, expendable personal property are as follows:

a. *Nonexempt, expendable personal property acquired with contract funds.* Title to nonexempt, expendable personal property acquired with contract funds shall vest in the Federal Government upon acquisition. Any residual inventory of such property, upon completion or termination of the contract, shall be reported to the Federal sponsoring agency, and shall be disposed of in accordance with instructions issued by the Federal sponsoring agency.

b. *Nonexempt, expendable personal property acquired with other than contract funds.* Title to nonexempt, expendable personal property acquired with other than contract funds shall vest in the recipient upon acquisition. If there is a residual inventory of such property exceeding $1,000 in total aggregate fair market value, upon termination or completion of the grant, and the property is not needed for any other federally sponsored project or program, the recipient shall retain the property for use on nonfederally sponsored activities, or sell it, but must in either case, compensate the Federal Government for its share. The amount of compensation shall be computed in accordance with 4c(2)(b) or, if sold, in accordance with 4c(2)(b)(iii), above.

7. Standards for control of intangible property are set forth below:

a. *Inventions and patents.* If any program produces patentable items, patent rights, processes, or inventions, in the course of work sponsored by the Federal Government, such fact shall be promptly and fully reported to the Federal sponsoring agency. Unless there is a prior agreement between the recipient and the Federal sponsoring agency on disposition of such items, the Federal sponsoring agency shall determine whether protection on the invention or discovery shall be sought. The Federal sponsoring agency will also determine how the rights in the invention or discovery—including rights under any patent issued thereon—shall be allocated and administered in order to protect the public interest consistent with "Government Patent Policy" (President's Memorandum for Heads of Executive Departments and Agencies, August 23, 1971, and statement of Government Patent Policy as printed in 36 FR 16889).

b. *Copyrights.* Except as otherwise provided in the terms and conditions of the agreement, the author or the recipient organization is free to copyright any books, publications or other copyrightable materials developed in the course of or under a Federal agreement, but the Federal sponsoring agency shall reserve a royalty-free, nonexclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, the work for Government purposes.

APPENDIX O

Procurement standards. 1. This appendix provides standards for use by recipients in establishing procedures for the procurement of supplies, equipment, construction, and other services with Federal funds. These standards are furnished to ensure that such materials and services are obtained in an effective manner and in compliance with the provisions of applicable Federal law and executive orders. The recipient shall rely on the private sector to provide goods and services to the maximum feasible extent. No additional procurement standards or requirements shall be imposed by the Federal sponsoring agencies upon recipients unless specifically required by Federal statute or executive orders.

2. The standards contained in this appendix do not relieve the recipient of the contractual responsibilities arising under its contracts. The recipient is the responsible authority, without recourse to the Federal sponsoring agency regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into, in support of an agreement. This includes disputes, claims, protests of award, source evaluation, or other matters of a contractual nature. Matters concerning violation of law are to be referred to such local, State, or Federal authority as may have proper jurisdiction.

3. Recipients may use their own procurement policies and procedures. However, all recipients shall adhere to the standards set forth in paragraphs 3 and 4.

a. The recipient shall maintain a code or standards of conduct which shall govern the performance of its officers, employees, or agents in the awarding and administration of contracts using Federal funds. The recipient's officers, employees, or agents shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or potential contractors. Such standards shall provide for disciplinary actions to be applied for violation of such standards by the recipients' officers, employees, or agents.

b. All procurement transactions shall be conducted in a manner to provide to the maximum extent practical, open and free competition. The recipient should be alert to organizational conflicts of interest or noncompetitive practices among contractors which may restrict or eliminate competition or otherwise restrain trade. Awards shall be made to the bidder/offeror with the lowest bid provided the bid/offer is responsive to the solicitation and is most advantageous to the recipient, price and other factors considered. Solicitations shall clearly set forth all requirements which the bidder/offeror must fulfill in order for his bid/offer to be evaluated by the recipient. Any and all bids/offers may be rejected when it is in the recipients' interest to do so.

c. All recipients shall establish procurement procedures which provide for, as a minimum, the following procedural requirements:

(1) Proposed procurement actions shall have a procedure to assure the avoidance of purchasing unnecessary or duplicative items. Where appropriate, an analysis shall be made of lease and purchase alternatives to determine which would be the most economical, practical procurement.

(2) Solicitations for supplies and services shall be based upon a clear, and accurate description of the technical requirements for the material, product, or service to be procured. Such a description shall not, in competitive procurements, contain features which unduly restrict competition. "Brand name or equal" description may be used as a means to refine the performance or other salient requirements of a procurement, and when so used the specific features of the named brand which must be met by bidders/offerors shall be clearly specified.

XUM
V40128
FEB 10 75
XUM

(3) Positive efforts shall be made by the recipients to utilize small business and minority-owned business sources of supplies and services. Such efforts should allow these sources the maximum feasible opportunity to compete for contracts utilizing Federal funds.

(4) The type of procuring instruments used, e.g., fixed price contracts, cost reimbursable contracts, purchase orders, incentive contracts, shall be determined by the recipient to be appropriate for the particular procurement and for promoting the best interest of the program involved. The "cost-plus-a-percentage-of-cost" method of contracting shall not be used.

(5) Contracts shall be made only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of a proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and technical resources, or accessibility to other necessary resources.

(6) All proposed sole source contracts in which the aggregate expenditure is expected to exceed $5,000 shall be subject to prior approval at the discretion of the Federal sponsoring agency.

(7) Procurement records and files for purchases in excess of $10,000 shall include the following:

(a) Basis for contractor selection.

(b) Justification for lack of competition when competitive bids or offers are not obtained.

(c) Basis for award cost or price.

(8) A system for contract administration shall be maintained to ensure contractor conformance with terms, conditions, and specifications of the contract, and to ensure adequate and timely followup of all purchases.

4. The recipient shall include, in addition to provisions to define a sound and complete agreement, the following provisions in all contracts. These provisions shall also be applied to subcontracts.

a. Contracts in excess of $10,000 shall contain contractual provisions or conditions that will allow for administrative, contractual, or legal remedies in instances in which contractors violate or breach contract terms, and provide for such remedial actions as may be appropriate.

b. All contracts in excess of $10,000 shall contain suitable provisions for termination by the recipient including the manner by which termination will be effected and the basis for settlement. In addition, such contracts shall describe conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

c. In all contracts for *construction* or facility improvement awarded for more than $100,000, recipients shall observe the bonding requirements provided in Appendix B to this part.

d. All construction contracts awarded by recipients and their contractors or subgrantees having a value of more than $10,000, shall contain a provision requiring compliance with Executive Order 11246, entitled, "Equal Employment Opportunity," as amended by Executive Order 11375, and as supplemented in Department of Labor regulations (41 CFR Part 60).

e. All contracts and subgrants in excess of $2,000 for construction or repair awarded by recipients and subrecipients shall include a provision for compliance with the Copeland "Anti-Kick Back" Act (18 U.S.C. 874) as supplemented in Department of Labor regulations (29 CFR Part 3). This Act provides that each contractor or subgrantee shall be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he is otherwise entitled. The recipient shall report all suspected or reported violations to the Federal sponsoring agency.

f. When required by the Federal program legislation, all construction contracts awarded by recipients and subrecipients of more than $2,000 shall include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 276a to 276a-7) and as supplemented by Department of Labor regulations (29 CFR Part 5). Under this Act contractors shall be required to pay wages to laborers and mechanics at a rate not less than the minimum wages specified in a wage determination made by the Secretary of Labor. In addition, contractors shall be required to pay wages not less often than onec a week. The recipient shall place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation and the award of a contract shall be conditioned upon the acceptance of the wage determination. The recipient shall report all suspected or reported violations to the Federal sponsoring agency.

g. Where applicable, all contracts awarded by recipients in excess of $2,000 for *construction* contracts and in excess of $2,500 for other contracts which involve the employment of mechanics or laborers, shall include a provision for compliance with sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327–330) as supplemented by Department of Labor regulations (29 CFR Part 5). Under section 103 of the Act, each contractor shall be required to compute the wages of every mechanic and laborer on the basis of a standard work day of 8 hours and a standard work week of 40 hours. Work in excess of the standard work day or work week is permissible provided that the worker is compensated at a rate of not less than 1½ times the basic rate of pay for all hours worked in excess of 8 hours in any calendar day of 40 hours in the work week. Section 107 of the Act is applicable to construction work and provides that no laborer or mechanic shall be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous to his health and safety as determined under construction safety, and health standards promulgated by the Secretary of Labor. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

h. Contracts or agreements, the principal purpose of which is to create, develop, or improve products, processes or methods; or for exploration into fields which directly concern public health, safety, or welfare; or contracts in the field of science or technology in which there has been little significant experience outside of work funded by Federal assistance, shall contain a notice to the effect that matters regarding rights to inventions, and materials generated under the contract or agreement are subject to the regulations issued by the Federal sponsoring agency and the recipient. The contractor shall be advised as to the source of additional information regarding these matters.

i. All negotiated contracts (except those of $2,500 or less) awarded by recipients shall include a provision to the effect that the recipient, the Federal sponsoring agency, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the contractor which are directly pertinent to a specific program for the purpose of making audit, examination, excerpts, and transcriptions.

j. Contracts and subgrants of amounts in excess of $100,000 shall contain a provision which requires the recipient to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act of 1970. Violations shall be reported to the Federal sponsoring agency and the Regional Office of the Environmental Protection Agency.

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

NOTE: There are no items eligible for inclusion in the list of RULES GOING INTO EFFECT.

Daily List of Public Laws

This is a listing of public bills enacted by Congress and approved by the President, together with the law number, the date of approval, and the U.S. Statutes citation. Subsequent lists will appear every Wednesday in the FEDERAL REGISTER, and copies of the laws may be obtained from the U.S. Government Printing Office.

NOTE: No acts approved by the President were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Delegation of Authority to the Deputy Assistant Secretary for Administration

Part 2, Subtitle A, Title 7, Code of Federal Regulations, is amended to provide a delegation of authority to the Deputy Assistant Secretary for Administration, as follows:

A new § 2.74 is added to read as follows:

§ 2.74 Deputy Assistant Secretary for Administration.

(a) *Delegations.* Pursuant to § 2.25, subject to reservations in § 2.26, the following delegation of authority is made by the Assistant Secretary for Administration to the Deputy Assistant Secretary for Administration, to be exercised only during the absence or unavailability of the Assistant Secretary: (1) Perform as Acting Assistant Secretary for Administration, all the duties and exercise all the powers which are now or which may hereafter be delegated to the Assistant Secretary for Administration.

Effective date: February 11, 1975.

Dated: February 6, 1975.

JOSEPH R. WRIGHT, JR.,
Assistant Secretary for Administration.

FINDINGS AND DETERMINATIONS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of each of the aforesaid orders and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

The following findings are hereby made with respect to each of the aforesaid orders:

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held January 20, 1975, in Washington, D.C., upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the respective marketing areas.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending each of the aforesaid orders effective upon publication in the Federal Register. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of this order are known to handlers. The emergency decision of the Assistant Secretary containing all amendment provisions of this order was issued January 28, 1975. The changes affected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending each of the aforesaid orders effective upon publication in the Federal Register, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (Sec. 553(d), Administrative Procedure Act, 5 U.S.C. 551-559.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within each of the respective marketing areas, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending each of the specified orders, is the only practical means pursuant to the

XUM V40-29 FEB 11 75 XUM

declared policy of the Act of advancing the interests of producers as defined in the respective orders as hereby amended;

(3) The issuance of the order amending each of the specified orders, except Austin-Waco, Fort Smith, Memphis, Michigan Upper Peninsula, and North Central Iowa, is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the respective marketing areas; and

(4) The issuance of the order amending the Austin-Waco, Fort Smith, Memphis, Michigan Upper Peninsula and North Central Iowa orders is approved or favored by at least three-fourths of the producers who during the determined representative period were engaged in the production of milk for sale in the respective marketing areas.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in each of the aforesaid marketing areas shall be in conformity to and in compliance with the terms and conditions of each of the aforesaid orders, as amended, and as hereby further amended, as follows:

PART 1001—BOSTON REGIONAL MARKETING AREA

1. In § 1001.32, paragraph (j) (1) (i) is revised as follows:

§ 1001.32 Additional duties of the market administrator.

(j) • • •
(1) • • •

(i) The Class I price for the following month: *Provided*, That on the effective date hereof the market administrator shall publicly announce the Class I price for the remainder of the month of February 1975 and on or before the fifth day of March 1975 the market administrator shall publicly announce the Class I price for that month;

2. In § 1001.61, paragraph (a) is revised as follows:

§ 1001.61 Class prices.

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $2.58: *Provided*, That from the effective date hereof through March 1975 the Class I price shall be the basic formula price for the preceding month plus $2.58.

PART 1002—NEW YORK-NEW JERSEY MARKETING AREA

1. In § 1002.22 paragraph (m) (1) (i) is revised as follows:

§ 1002.22 Additional duties of the market administrator.

Title 9—Animals and Animal Products

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE (MEAT AND POULTRY PRODUCTS INSPECTION), DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—MANDATORY MEAT INSPECTION

PART 309—ANTE-MORTEM INSPECTION

Diethylstilbestrol Certification

Pursuant to the authority contained in the Federal Meat Inspection Act, as amended (21 U.S.C. 601 et seq.), notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the federal meat inspection regulations (9 CFR Part 309) are amended to extend the length of time cattle and sheep must be withdrawn from feed containing diethylstilbestrol (DES) prior to slaughter at federally inspected establishments as a condition of slaughter without a requirement of retention of the carcasses and parts thereof for laboratory testing for DES residue.

Statement of Considerations. Under § 309.16 of the regulations under the Act, no cattle or sheep can be slaughtered at an official establishment unless the operator of the official establishment obtains a certificate from the owner, feedlot manager, or other person who had custody of the cattle and sheep during the production or feeding period, or during an interim holding period immediately prior to delivery to the official establishment. It must appear from the certificates that the animals have not received feed containing DES within the 7 days immediately prior to presentation for slaughter. When the certification does not meet these requirements, or no certificate is furnished, the cattle and sheep must be held alive for the required 7-day period at the establishment, or slaughtered and tissue samples sent to an acceptable private or commercial laboratory for testing, and appropriate disposal made of the carcasses and parts thereof.

Recent studies conducted by USDA have confirmed that biological variation is an important factor in the rate of elimination of DES by individual animals. These studies indicate it may take as long as 12 days to eliminate detectable levels of DES in certain individual animals fed feeds containing this substance. Additionally, Food and Drug Administration field investigations have indicated that apparently some animals which had been fed feeds containing DES, but had not been given such feeds for 7 days prior to slaughter still showed detectable liver residue. These findings parallel those of USDA. Therefore, adding a small factor for safety, a 14 day withdrawal period is necessary to prevent DES contamination of the meat supply.

Accordingly, § 309.16 of the meat inspection regulations (9 CFR 309.16) is amended as follows:

1. In § 309.16(a), the term "7 days" is changed to "14 days."

2. In § 309.16 (b) (1), and in (b) (2), the term "7 days" is changed to "14 days" wherever it appears.

3. In § 309.16 (b) (5), the term "7 days" is changed to "14 days" wherever it appears.

4. In § 309.16(c) (1) the words "Manual of Meat Inspection Procedures" are changed to "Meat and Poultry Inspection Manual" to reflect the current name of this publication.

The foregoing amendments should be made effective as soon as possible in order to afford maximum protection to the public, and it does not appear that public participation in rule-making in connection with the amendments would make additional relevant information available to the Department. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that such public procedure is impracticable and unnecessary and good cause is found for making the amendments effective less than 30 days after publication in the FEDERAL REGISTER.

These amendments will become effective February 11, 1975.

Done at Washington, D.C. on: February 4, 1975.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

[FR Doc.75-3808 Filed 2-10-75;8:45 am]

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 212—MANDATORY PETROLEUM PRICE REGULATIONS

Amendments to Octane and Price Posting Rules

On January 15, 1974, the Federal Energy Office (FEO) adopted § 212.129 of the Mandatory Petroleum Price Regulations requiring retail sellers of gasoline and No. 2-D diesel fuel to post in a prominent place of each pump used to dispense such fuels the maximum lawful price of the product and the octane number or numbers of the gasoline dispensed from that pump. These requirements appeared substantially in the form that had been promulgated originally by the Cost of Living Council in November, 1973, and called for posting in a manner to be prescribed by FEO. The manner prescribed by FEO was a form (CLC–9004A) prepared by the Cost of Living Council. Authorization for that form, however, lapsed, and its subsequent unavailability made compliance with the posting rule difficult for many sellers. Moreover, statutory authority (The Economic Stabilization Act of 1970) under which the Cost of Living Council initially adopted the regulation, expired on April 30, 1974.

Accordingly, on August 5, 1974, the Federal Energy Administration (FEA) issued notice (39 FR 28646, August 9, 1974) of a proposal to amend § 212.129 by revising paragraph (b), and solicited comments "on the factual relationship between the proposed octane and price posting regulations and the FEA's statutory authority" to amend the regulation "in light of the changes in statutory authority which have occurred since the initial issuance of the regulations." Based on the premise that "octane numbers are a primary indication of the quality of gasoline and that a reduction in octane numbers without a change in price is the same as a price increase," FEA made the preliminary determination that the Emergency Petroleum Allocation Act of 1973 (EPAA) provides sufficiently broad statutory authority to support the proposed regulation. Comments of the Administrator of the Environmental Protection Agency (EPA), which were included with the initial Notice and published at a later date, foresaw "no unfavorable impacts on the quality of the environment" as a result of the proposed amendment. The time for filing written comments in the proceeding was extended to September 3, 1974 (39 FR 30505, August 23, 1974).

Inasmuch as the rulemaking proposed only minor changes in an existing regulation, public hearings originally were not scheduled because of the slight public impact the proposed minor changes would have. Nevertheless, a request for oral presentation of comments having been received, FEA determined that a public hearing should be held.

Written comments, more than half of which were from oil companies, were received from approximately 30 interested persons. That number included comments from the Federal Trade Commission, EPA, a newspaper, several trade associations, the Public Interest Campaign, the State of New York, a petroleum refiner and the American Automolic hearing was held at which three interested parties presented oral statements with emphasis in two major areas: (1) FEA authority to promulgate an octane posting regulation, and (2) alternative octane computation methods.

FEA has considered all the comments and oral presentations in these and other areas, and has determined that the amendment should be adopted as proposed.

I. *FEA's Authority to Require Posting.* Comments suggesting that FEA lacks statutory authority for the proposed regulation focused on the following argument: Octane rating is not a primary indication of the quality of gasoline because antiknock (of which octane is an

XUM
V40 N29 FEB 11 75 F
XUM

indicator) is only one of many characteristics that measure the quality of gasoline. If the octane number is not therefore a primary indication of quality, a decrease in octane number does not reflect a relative increase in price. Accordingly, since FEA lacks the express statutory authority to require posting, it can not assert implied authority to require posting of octane number pursuant to its authority to regulate price.

The most frequently mentioned characteristics that measure the quality of gasoline were (a) volatility, (b) vapor-liquid ratio, (c) distillation, (d) corrosion, (e) existent gum, (f) sulfur content, and (g) Reid vapor pressure. FEA has determined, however, that while these characteristics do contribute to a definition of the general quality of a particular gasoline, antiknock is a characteristic of singular importance, and as such represents a "primary indication of quality."

The sole function of octane number is to measure the antiknock characteristic of a particular fuel—in this case, gasoline. In general, two characteristics—antiknock and volatility (the tendency of a fuel to evaporate or change from a liquid to a gaseous state)—define the character of gasoline since the other component characteristics are limited by definition to such minor concentrations as not to have an adverse effect on engine performance. (American Society for Testing and Materials, Annual Book of ASTM Standards, Part 17 at 174 (1973)). Moreover, the Federal Trade Commission recently considered the importance of octane in its decision to adopt a trade regulation rule making the failure to post minimum octane numbers on gasoline pumps an unfair trade practice and an unfair method of competition. (See FTC, The Failure to Post Minimum Octane Numbers on Gasoline Dispensing Pumps Constitutes an Unfair Trade Practice and an Unfair Method of Competition, 36 FR 23871, December 16, 1971.) The FTC decision contains ample evidence to support the conclusion that octane is a "primary indication of quality" of gasoline. Included in that evidence are comments from major oil companies, statements by major automobile manufacturers, findings of automobile periodicals, and consumer comments. All support the conclusion that while octane rating measures only one of the many characteristics of gasoline, it nevertheless measures a primary one.

Since octane number is a primary indication of the quality of gasoline, FEA has determined that a reduction in octane number, without a corresponding reduction in price, represents a relative price increase. Pursuant to FEA's clear authority under the EPAA to regulate the price of crude oil, residual fuel oil and refined petroleum products, FEA concludes that the amendment adopted today is amply supported by statutory authority.

II. *Computation of Octane Number.* At present, § 212.31 defines "Octane number" as

the octane number derived from the sum of Research (R) and Motor (M) octane numbers divided by two (R+M)/2. The research octane (R) and motor octant number (M) shall be as described in the American Society for Testing and Materials (ASTM) "Standard Specifications for Gasoline" D439-70, and subsequent revisions, and ASTM Test Methods D2699 and D2700.

Although several other formulae have been proposed (including the variation [(R+M)/2]+4), FEA has determined that there is presently insufficient justification to depart from the use of (R+M)/2.

Rather, FEA will defer to the conclusion of the Federal Trade Commission—based upon the Commission's in-depth consideration of the issue—that (R+M)/2 "is the simplest, [most] technically precise, and meaningful indication of road octane performance for premium grade requirement cars on the road and also for the majority of regular grade requirement cars • • •." (36 FR 23871, December 16, 1971.) This conclusion is supported in part by EPA, which recognized that when compared to either the research or motor octane numbers, (R+M)/2 "is more technically correct over the current mix of cars and is, therefore, a more useful basis for an octane rating system." (Letter from Alan G. Kirk II, EPA Asistant Administrator for Enforcement and General Counsel, to Robert E. Montgomery, Jr., FEA General Counsel, October 30, 1974.)

As stated in the FTC comment submitted in this proceeding, "[a]ny change in the posted number by the FEA at this time would only serve to confuse the motoring public, particularly as the octane numbers required to be posted since November of 1973 have been based on the (R+M)/2 formulation."

III. *Conclusion.* The amendment adopted today differs from the previous posting requirement in two significant aspects. Use of the old Cost of Living Council forms will no longer be required. Instead, sellers may adopt their own choice of form so long as certain minimum requirements are met: legible numerals not less than one-half (½) inch high must be posted in a prominent place on each face of each pump. Additionally, the amended regulation looks ahead to the eventual effective date for the FTC octane posting regulation, by providing that sellers may comply with the FEA regulation by complying with the proposed FTC regulation, whether required by the FTC to do so or not.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, 39 FR 23185).

In consideration of the foregoing, Part 212 of Chapter II, Title 10 of the Code of Federal Regulations, is amended as set forth below, effective immediately.

ROBERT E. MONTGOMERY, Jr.,
General Counsel,
Federal Energy Administration.

FEBRUARY 5, 1975.

Section 212.129 is amended in the caption and in paragraph (b) to read as follows:

§ 212.129 Price and octane number information and posting.

• • • • •

(b) Each retail seller of gasoline and No. 2-D diesel fuel shall post and maintain in legible form, in numbers of a conspicuous size (not less than one-half (½) inch high), and in a prominent place on each face of each pump used to dispense gasoline or No. 2-D diesel fuel in retail sales, the maximum permissible price allowed to be charged pursuant to Subparts E or F of this part for such product and the octane number or numbers of the gasoline dispensed from that pump. Whenever a monthly adjustment is made to the maximum permissible price, each seller must post the new adjusted maximum permissible price, and remove the prior posted price. An alternative form for posting gasoline octane numbers, which may be used in lieu of the octane posting otherwise required by this paragraph, shall be the form prescribed or required by the Federal Trade Commission pursuant to its rule at 16 CFR 422.1.

Title 15—Commerce and Foreign Trade

CHAPTER I—BUREAU OF THE CENSUS, DEPARTMENT OF COMMERCE

PART 50—SPECIAL SERVICES AND STUDIES BY THE BUREAU OF THE CENSUS

Fee Structure for Special Population Censuses

The following § 50.10 replaces § 50.10 which was published in the FEDERAL REGISTER on August 23, 1968 (33 FR 11984) and in the Code of Federal Regulations, revised as of January 1, 1969, (15 CFR 50.10).

In accordance with the rule making provisions of Administrative Procedure 5 U.S.C. 553, it has been found that notice and hearing on this schedule of fees and postponement of the effective date thereof is impracticable and unnecessary for the reason that such procedure, because of the nature of the rules, serves no useful purpose.

The fees for special censuses are established under the provisions of Title 13, United States Code, Section 8, authorizing the Department of Commerce to make special statistical surveys and studies, and to perform other specified services upon payment of the cost thereof. No transcript of any record will be furnished under authority of this act which would violate existing or future acts requiring that information furnished be held confidential.

The following amended fee schedule is effective February 15, 1975, provided, however, that work will be performed at the previous fee for cost estimates issued at the former rate, if accepted within 90 days after the date of the cost estimate letter.

§ 50.10 Fee Structure for Special Population Censuses.

(a) The Bureau of the Census is authorized to conduct special population censuses at the request of and at the expense of the community concerned. To obtain a special population census, an authorized official of the community should write a letter to the Deputy Director, Bureau of the Census, Washington, D.C. 20233, requesting detailed information and stating the approximate present population. The Deputy Director will reply giving an estimate of the cost and other pertinent information.

(b) The fee for a special population census consists of two parts:

(1) Certain local expenses to be paid directly by the community for salary and travel (if necessary) of enumerators and crewleaders, who are hired locally and, unless otherwise furnished, for incidental expenses such as office space, telephone, and the like, and where applicable for social security, state and Federal taxes.

(2) Expenses of the Bureau of the Census for preparation of enumerator assignment maps, salary, and travel expense of the supervisor or supervisors assigned by the Bureau, the cost of tabulation of results, and general office and administrative expenses. The fee structure for this portion of the cost is:

Population size	Bureau fee	Estimated total cost
100	$705	$750
500	890	975- $985
1,000	1,080	1,235- 1,255
5,000	1,800	2,545- 2,670
10,000	3,315	4,815- 5,105
15,000	4,015	6,940- 7,410
20,000	4,820	8,795- 9,385
25,000	5,515	10,745-11,595
30,000	6,435	12,525-13,515
35,000	6,955	13,995-15,135
40,000	7,700	15,825-17,150
45,000	8,050	17,240-18,730

For communities of 50,000 population and over, and counties, special geographic areas and states, regardless of size, an individual estimate will be prepared.

Dated: February 5, 1975.

VINCENT P. BARABBA,
Director, Bureau of the Census.

[FR Doc.75-3787 Filed 2-10-75;8:45 am]

Title 16—Commerce Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2588]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

H. Allen McKinney et al.

Subpart—Advertising falsely or misleadingly: § 13.73 *Formal regulatory and statutory requirements;* 13.73-92 Truth in Lending Act; § 13.155 *Prices;* 13.155-95 Terms and conditions; 13.155-95(a) Truth in Lending Act. Subpart—Misrepresenting oneself and goals—Prices: § 13.1823 *Terms and conditions;* 13.1823-20 Truth in Lending Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements;* 13.1852-75 Truth in Lending Act; § 13.1905 *Terms and conditions;* 13.1905-60 Truth in Lending Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146,147; 15 U.S.C. 45, 1601-1605) [Cease and desist order, H. Allen McKinney t/a S & H Mobile Homes, etc., Missoula, Mont., Docket C-2588, Oct. 23, 1974]

In the matter of H. Allen McKinney, an individual trading and doing business as S & H Mobile Homes and as S & H Mobile Homes of Missoula.

Consent order requiring a Missoula, Mont., retailer of new and used mobile homes and travel trailers, among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:[1]

It is ordered, That respondent H. Allen McKinney, an individual trading and doing business as S & H Mobile Homes, S & H Mobile Homes of Missoula, or under any other name or names, and respondent's successors, assigns, agents, representatives and employees, directly or through any corporation, subsidiary, division, or other device, in connection with any extension or arrangement for the extension of consumer credit, or any advertisement to aid, promote or assist directly or indirectly any extension of consumer credit, as "advertisement" and "consumer credit" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (Pub. L. 90-321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Representing in any such advertisement, directly or by implication, the amount of the downpayment required or that no downpayment is required, the amount of any installment payment, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are stated in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d)(2) of Regulation Z:

a. The cash price;

b. The amount of the downpayment required or that no downpayment is required, as applicable;

c. The number, amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended;

d. The amount of the finance charge expressed as an annual percentage rate, and

e. The deferred payment price.

2. Failing, in any consumer credit transaction or advertisement, to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, at the time and in the manner, form and amount required by §§ 226.6, 226.7, 226.8, 226.9, and 226.10 of Regulation Z.

It is further ordered, That respondent deliver a copy of this order to cease and desist to all present and future personnel of respondent engaged in the consummation of any extension of consumer credit or in any aspect of the preparation, creation or placing of advertising, to all persons engaged in reviewing the legal sufficiency of advertising, and to all present and future agencies engaged in preparation, creation or placing of advertising on behalf of respondent, and that respondent secure from each such person and agency a signed statement acknowledging receipt of said order.

It is further ordered, That respondent herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged, as well as a description of his duties and responsibilities.

It is further ordered, That respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

The Decision and Order was issued by the Commission October 23, 1974.

CHARLES A. TOBIN,
Secretary.

[FR Doc.75-3743 Filed 2-10-75;8:45 am]

[1] Copies of the complaint & decision and order filed with the original document.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

[FRL 332-2]

PART 121—FOOD ADDITIVES

Subpart C—Food Additives Permitted in Feed and Drinking Water of Animals or for the Treatment of Food-Producing Animals

2-ETHOXY-2,3-DIHYDRO-3,3-DIMETHYL-5-BENZOFURANYL METHANESULFONATE

A petition (FAP 4H5053) was filed by Fisons Corp., Two Preston Court, Bedford, Ma 01730, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348), proposing establishment of a food additive tolerance (21 CFR Part 121) for combined residues of the herbicide 2-ethoxy-2,3-dihydro-3,3-dimethyl-5 - benzofurfanyl methanesulfonate and its metabolites 2-hydroxy-2,3-dihydro - 3,3-dimethyl-5-benzofuranyl methanesulfonate and 2,3-dihydro-3,3-dimethyl - 2 - oxo-5-benzofuranyl methanesulfonate (both calculated as the parent compound) in sugar beet molasses at 0.5 part per million to provide for residues that may occur from use of the herbicide in a proposed experi-

XUM
V40 0129 FEB 11 75 XUM

mental program involving application to growing sugar beets.

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 FR 15623), transferred (effective December 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under sections 406, 408, and 409 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346, 346a, and 348).

Having evaluated the data in the petition and other relevant material, it is concluded that:

1. Residues of the herbicide will result in sugar beet molasses from carryover and concentration under agricultural uses provided for by an experimental permit under the Federal Insecticide, Fungicide, and Rodenticide Act. (For a related document, see this issue of the FEDERAL REGISTER, page _____.)

2. The proposed tolerance should be established to coincide with the experimental permit.

Therefore, pursuant to provisions of the Act (sec. 409(c) (1), (4), 72 Stat. 1786; 21 U.S.C. 348(c) (1), (4)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805), Part 121 is amended by adding the following new section to Subpart C:

§ 121.351 2 - Ethoxy - 2,3 - dihydro - 3, 3 - dimethyl - 5 - benzofuranyl methanesulfonate.

A tolerance of 0.5 part per million is established for combined residues of the herbicide 2-ethoxy-2,3-dihydro-3,3-dimethyl-5-benzofuranyl methanesulfonate and its metabolites 2-hydroxy-2,3-dihydro - 3,3 - dimethyl-5-benzofuranyl methanesulfonate and 2,3-dihydro-3,3-dimethyl-2-oxo-5-benzofuranyl methanesulfonate (both calculated as the parent compound) in sugar beet molasses, resulting from application of the herbicide to the growing sugar beets. Such residues may be present therein only as a result of the application of the herbicide to the growing sugar beets treated under an experimental program, which expires February 4, 1976, and on which said sugar beet roots and tops temporary pesticide tolerances for residues of the herbicide expiring the same date have been established. Residues remaining in or on the above commodity after expiration of this tolerance will not be considered actionable if the pesticide is legally applied during the term and in accordance with provisions of the temporary permit/food additive tolerance.

Any person who will be adversely affected by the foregoing order may at any time on or before March 13, 1975, file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets, SW, Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on February 11, 1975.

(Sec. 409(c) (1), (4), 72 Stat. 1786; 21 U.S.C. 348(c) (1), (4))

Dated: February 4, 1975.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.75-3697 Filed 2-10-75;8:45 am]

[FRL 332-4]

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

PICLORAM

In response to a food additive petition (FAP 4H5052) submitted jointly by the Montana Department of Agriculture, Helena, MT 59601, and the North Dakota Department of Agriculture, Bismarck, ND 58501, and a later request from the State of Nebraska, Department of Agriculture, P.O. Box 94756, Lincoln, NE 68509, interim food additive tolerances were established (§ 121.1256) for residues of the herbicide picloram (4-amino-3,5,6-trichloropicolinic acid) in flour at 1 part per million and in milled fractions (except flour at 2 parts per million resulting from application of the herbicide to growing barley and wheat. These interim tolerances expired at the end of the 1974 growing season.

Because of an anticipated continued shortage of 2,4-D and other herbicides effective in controlling broadleaf weeds, the petitioners have requested that the interim food additive tolerances be extended to the 1975 growing season. In addition, the State of South Dakota, Department of Agriculture, and the State of Minnesota, Department of Agriculture, request that the proposed extension of interim food additive tolerances also be expanded to include South Dakota and Minnesota.

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 FR 15623), transferred (effective December 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under sections 406, 408, and 409 of the Federal Food, Drug, and Cosmetic Act, as amended (21 U.S.C. 346, 346a, and 348).

Having evaluated the data submitted in the petition and other relevant material, it is concluded that the extension of time and the inclusion of the additional States should be established. (For a related document, see this issue of the FEDERAL REGISTER, page 6340.)

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(d), 72 Stat. 1787; 21 U.S.C. 348(d)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805), § 121.1256 is amended by revising the introductory paragraph and by adding the sentence "These interim tolerances expire April 1, 1976" to the end of the section, as follows:

§ 121.1256 Picloram.

The following interim tolerances are established for residues of the herbicide picloram (4-amino-3,5,6-trichloropicolinic acid) resulting from application of 2,4-D-picloram mixtures to growing barley and wheat in the States of Minnesota, Montana, Nebraska, North Dakota, and South Dakota:

* * * * * *

These interim tolerances expire April 1, 1976.

Any person who will be adversely affected by the foregoing order may at any time on or before March 13, 1975, file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets, SW, Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on February 11, 1975.

(Sec. 409(d), 72 Stat. 1787; 21 U.S.C. 348(d))

Dated: February 4, 1975.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

SUBCHAPTER C—DRUGS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Lincomycin, Monensin

In the FEDERAL REGISTER of December 18, 1974 (39 FR 43718), the regulations regarding monensin (21 CFR 135e.50) were amended to change the drug name from monensin sodium to monensin. This document amends the regulations regarding lincomycin (21 CFR 135e.49) to change the monensin drug name.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), § 135e.49 *Lincomycin* is amended in paragraph (e) (2) (vii) by changing the term "monensin sodium" to read "monensin."

Effective date. This order shall be effective February 11, 1975.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: February 4, 1975.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

[FR Doc.75-3747 Filed 2-10-75;8:45 am]

Title 29—Labor

SUBTITLE A—OFFICE OF THE SECRETARY OF LABOR

PART 40—FARM LABOR CONTRACTOR REGISTRATION

Requirements and Applications for Certificates of Registration

The Farm Labor Contractor Registration Act of 1963 (Pub. L. 88-582) was amended by Pub. L. 93-518 effective December 7, 1974.

By the 1974 amendments, persons employing the services of farm labor contractors must first determine that they possess Certificates of Registration that are in full force and effect. Also, section 5(a)(2) was amended to increase the amount of insurance required from an applicant for a Certificate of Registration with authorization to transport migrant workers. Further, sections 5(a)(4) and 5(d) were amended to require documentation with regard to the use of housing facilities owned or controlled by the applicant and used for housing migrant workers. Section 5(a)(5) was amended to require the applicant to authorize the Secretary to accept service of process when a suit is instituted against the farm labor contractor and said person has left the jurisdiction of the court in which the action was commenced.

As services of farm labor contractors without valid Certificates of Registration may not lawfully be utilized, and as the Department of Labor may not authorize Certificates of Registration in disregard of the amended law, and as regulations to supplement the law are necessary to state the details of the revised requirements so that Certificates of Registration may be issued, I find it is contrary to the public interest to suspend the program while proposed regulations are issued for comment. Accordingly, these regulations are not issued as a proposal. Further, I find the above reasons state good cause for making the regulations effective upon publication. Accordingly, these regulations are effective on February 11, 1975.

Interested persons shall, notwithstanding, be afforded opportunity until March 27, 1975, to present any written data, views or arguments concerning these changes to the Administrator, Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, D.C. 20210, for consideration in the same manner as if such changes were being proposed for adoption.

If upon review of the comments so received, it is concluded that any of them would warrant revisions in these changes, as adopted, the provisions of these changes will be revised accordingly.

Accordingly, Part 40 of Title 29, Code of Federal Regulations, is amended as follows:

1. Section 40.2 is amended by revising paragraphs (g) and (l) and adding new paragraphs (p) and (q) to read as follows:

§ 40.2 Definitions.

* * * * * *

(g) The Regional Administrator refers to the Assistant Regional Director for Employment Standards who is the Administrative Officer in charge of a regional office of the Employment Standards Administration.

* * * * * *

(l) The Administrator means the Wage-Hour Administrator of the United States Department of Labor or authorized representative.

* * * * * *

(p) A farm labor contractor is deemed an "owner" of a vehicle or housing facilities if said person has a legal or equitable interest therein.

(q) A farm labor contractor is in "control" of a vehicle or housing facilities if said person is in charge of or has the power or authority to oversee, manage, superintend or administer the vehicle or housing, either personally or through an authorized agent or employee acting on behalf of said farm labor contractor, irrespective of whether compensation is paid for acting in any of the aforesaid capacities.

2. Section 40.4 is amended by revising paragraph (c) and by adding new paragraphs (i), (j), and (k).

§ 40.4 Application for certificate of registration.

* * * * * *

(c) * * *

(1) A completed Farm Labor Contractor Automobile Liability Certificate of Insurance showing that the passenger hazard is included (as evidence of liability insurance which covers the workers while being transported). Such certificate represents that an automobile liability insurance policy including a Farm Labor Contractor Liability Endorsement provides insurance in an amount not less than that required under the law or regulation of any State in which such applicant operates a vehicle in connection with the business, activities, or operation as a farm labor contractor; but in no event shall the coverage be less than the following:

Kind of equipment	Limit for bodily injuries to or death of one person	Limit for bodily injuries to or death of all persons injured or killed in any one accident (subject to a maximum of $100,000 for bodily injuries to or death of one person)	Limit for loss or damage in any one accident to property of others (excluding cargo)
Passenger equipment: (seating capacity) 12 passengers or less	$100,000	$300,000	$50,000
More than 12 passengers	100,000	500,000	50,000

and that it was obtained from an insurance carrier licensed or otherwise authorized to do business in the State in which the insurance is obtained; or

(2) Proof of financial responsibility evidenced by (i) a completed Farm Labor Contractor Standard Accident Policy Certificate of Insurance, as evidence of the issuance of a Farm Labor Contractor Standard Accident Policy, in addition to a completed Farm Labor Contractor Automobile Liability Certificate of Insurance, if the Farm Labor Contractor Automobile Liability Certificate of Insurance shows that the passenger hazard has been excluded; or (ii) a liability bond executed by the applicant, identified in the instrument as the "principal," together with a third party, identified in the instrument as the "surety," to assure payment of any liability up to $500,000 for damages to persons or property arising out of the applicant's ownership of, operation of, or causing to be operated any vehicle for the transportation of migrant workers in connection with the business, activities, or operations as a farm labor contractor. The "surety" shall be one which appears on the list contained in Treasury Department Circular 570, with an underwriting limit of not less than $500,000 or which has been approved by the Secretary under the Welfare and Pension Plan Disclosure Act, as amended. Treasury Department Circular 570 may be obtained from the U.S. Treasury Department, Bureau of Accounts, Division of Deposit and Investments, Surety Bonds Branch, Washington, D.C. 20226.

* * * * * *

(i) Persons whose applications have been approved and have been issued Certificates of Registration shall provide to the Assistant Regional Director for Employment Standards who originally issued the Certificate of Registration a statement identifying each vehicle which the applicant obtains for use in the transportation of migrant workers and written proof that every such vehicle has conformed to all applicable

XUM V40 I29 FEB 11 75 XUM

Federal and State safety and health standards within 10 days after said registrant obtains or learns of the intended use of such vehicle provided that such vehicle is under the registrant's ownership or control.

(j) (1) If an applicant for a Certificate of Registration is the owner of or in control of facilities to be used for housing migrant workers during any period for which such a certificate is sought said applicant shall submit:

(i) A statement identifying such facilities; and

(ii) written proof that the housing facilities comply with Federal safety and health standards as prescribed in either 20 CFR Part 620 or 29 CFR 1910.142 and applicable State standards of safety and health. Such written proof may be either a statement signed by the person to whom migrant workers are furnished by a farm labor contractor attesting that the housing facilities comply with Federal safety and health standards and also with applicable State safety and health standards, or a written statement containing an attestation with equal effect and signed by the applicant or written statements issued by an authorized State and Federal agency.

(2) Should the required written proof be unavailable at the time of filing application form (WH–410), the applicant must attest in writing that migrant workers in the applicant's crew will not be housed in any facilities that have not met the safety and health standards of the Federal and State governments. In such event, if otherwise eligible, the applicant will be issued a Certificate of Registration without a housing authorization. This certificate will be amended to include an authorization to house migrant workers at such time as the required written proof is forthcoming, provided that such proof will have been submitted in prescribed form not less than 30 days before actual use or occupancy of the housing facilities to the Office of the Assistant Regional Director for Employment Standards who had issued the initial certificate.

(3) When a farm labor contractor to whom a Certificate of Registration has been issued obtains for use housing facilities or learns that certain facilities will be used for housing migrant workers and such facilities are under the ownership or control of said farm labor contractor, the farm labor contractor shall provide the documentation as prescribed in paragraph (j)(1) of this section to the Office of the Assistant Regional Director for Employment Standards which issued the initial certificate within 10 days after the farm labor contractor obtains or learns of the intended use of such real property.

(k) Each applicant for a Certificate of Registration shall execute a writing which shall be subscribed and sworn to and which shall contain the following declaration:

"I do hereby designate and appoint the Secretary of Labor, United States Department of Labor, as my lawful agent to accept service of summons in any action against me, at any and all times during which I have departed from the jurisdiction in which such action is commenced or otherwise have become unavailable to accept service, and under such terms and conditions as are set by the court in which such action has been commenced."

(Sec. 14, 78 Stat. 920 and Sec. 17, 88 Stat. 1652)

Signed at Washington, D.C., this 5th day of February 1975.

BETTY SOUTHARD MURPHY,
Administrator, Wage and Hour Division.

[FR Doc.75-3797 Filed 2-10-75;8:45 am]

CHAPTER V—WAGE AND HOUR DIVISION, DEPARTMENT OF LABOR

PART 519—EMPLOYMENT OF FULL-TIME STUDENTS AT SUBMINIMUM WAGES

Fair Labor Standards

On May 1, 1974, notice of proposed rule making regarding a revision of 29 CFR Part 519 to adapt the part to the Fair Labor Standards Amendments of 1974 (Pub. L. 93–259) was published in the FEDERAL REGISTER (39 FR 15117–15122).

In order to provide a basis for issuing certificates to be in effect on May 1, 1974, the effective date of the statutory amendments, it was necessary to make the revision effective on that date with the provision that interested parties be given opportunity to submit comments until May 31, 1974.

Numerous comments were received and have been given careful consideration. Such consideration has indicated a need to make some changes in the revision of 29 CFR Part 519. These changes do not affect full-time students employed in the Federal College Work Study Programs as authorized under Title IV, Part C, of the Higher Education Act of 1965, as amended. Such students may continue to be employed at subminimum wages in accordance with the provisions of these regulations.

Accordingly, pursuant to section 14 of the Fair Labor Standards Act (52 Stat. 1062, as amended; 29 U.S.C. 214), Reorganization Plan No. 6 of 1950 (3 CFR 1945–53 Comp, p. 1004), Secretary's Order No. 13–71 (36 FR 8755) and Employment Standards Order 1–74 (39 FR 33841), I hereby adopt the revision so proposed, effective immediately, subject only to the changes outlined below.

1. In the proposed regulations all references to gender were masculine. The regulations have been revised to make reference to both the masculine and feminine gender.

2. Changes are made in the following paragraphs to indicate that application and certification activity formerly handled by the Denver, Colorado Regional Office is now divided between the Denver, Colorado and Salt Lake City, Utah Area Offices: Paragraph (a) of § 519.3; paragraph (d) of § 519.4; paragraph (a) of § 519.13; and paragraph (d) of § 519.14.

3. Paragraph (d) of § 519.4 is revised to provide for the FEDERAL REGISTER publication of notices of certificates issued for employment in agriculture and in retail and service establishments until April 30, 1976. Thereafter, certificates will be available for examination in Washington, D.C., and in the appropriate offices of the Wage and Hour Division.

(A review of the results of FEDERAL REGISTER publication, as well as other factors, will be considered in determining whether this section will be modified at a later date to provide for publication after April 30, 1976.)

4. Changes are made in the following paragraphs to provide 45 days after FEDERAL REGISTER publication for filing a request for reconsideration or review: Paragraph (d) of § 519.4; paragraph (a) of § 519.9; paragraph (d) of § 519.14; and paragraph (a) of § 519.19.

5. Paragraph (h) of § 519.5 is amended to include current student employees.

6. Section 519.6 is revised to clarify the availability of authority to employ full-time students at subminimum wages for at least ten percent of the total monthly hours of all employees, regardless of the past practice of student employment. This revision is accomplished by changing the basis for varying allowances in paragraph (c); adding a new paragraph (e); relettering all subsequent paragraphs in § 519.6; changing the headings and notes in paragraphs (f), (g) and (h); changing the reference in paragraph (i) from "or (g)" to "(g) or (h)"; revising the reference in paragraph (a) of § 519.4 from "(i) through (n)" to "(j) through (o)"; and amending the reference in paragraph (e) of § 519.5 from "(g)" to "(h)".

7. Paragraph (j) of § 519.6 is revised to clarify the hours limitations on full-time students enrolled in summer school.

8. Paragraph (a) of § 519.9 is revised to provide 45 days after FEDERAL REGISTER notice for interested persons to request reconsideration or review, and subsequent to discontinuance of FEDERAL REGISTER publication 60 days after a certificate is granted.

9. In paragraph (a) of § 519.12, the definition of a full-time student is revised to allow a full-time student enrolled in one or more courses during his/her summer or other vacation to be considered a full-time student at the institution of higher education.

10. In the last sentence of paragraph (b) of § 519.13, the phrase "types of work performed by full-time student," is deleted.

11. In paragraph (c) of § 519.13 "in" is changed to "for."

12. Paragraph (d) of § 519.14 is revised to provide for the FEDERAL REGISTER publication of notices of certificates issued until April 30, 1976. Thereafter certificates will be available for examination in Washington, D.C., and the appropriate offices of the Wage and Hour Division.

(A review of the results of FEDERAL REGISTER publication, as well as other factors, will be considered in determining whether this section will be modified at a later date to proved for publication after April 30, 1976.)

13. A new paragraph (h) is added to § 519.15 to prohibit the reduction of the wage rate paid to a current employee, including current student employees.

14. Paragraph (c) of § 519.16 is amended to exemplify the meaning of "unrelated trades or businesses" as used in these regulations and for conformance with paragraph (g) of § 519.15.

15. Paragraph (e) of § 519.16 is revised to delimit the hours of work at subminimum wages of a full-time student taking one or more courses during his/her summer or other vacation.

16. Subparagraph (3) of paragraph (b) of § 519.17 is revised to conform the record keeping requirements to the provisions of the regulations.

17. Subparagraph (4) of paragraph (b) of § 519.17 on maintaining occupational information by institutions of higher education is deleted.

18. Paragraph (a) of § 519.19 is revised to provide 45 days after FEDERAL REGISTER notice for interested persons to request reconsideration or review, and subsequent to discontinuance of FEDERAL REGISTER publication 60 days after a certificate is granted.

19. In addition, certain typographical errors have been corrected.

It is hereby found that it is impracticable and contrary to the public interest to postpone the effective date of these amendments until 30 days after publication thereof in the FEDERAL REGISTER in that the changes are editorial or interpretive in nature.

Signed at Washington, D.C. this 31st day of January 1975.

BETTY SOUTHARD MURPHY,
Administrator, Wage and Hour Division.

519.20 Amendment or revocation of the regulations in this subpart.

AUTHORITY: Secs. 11 and 14, 52 Stat. 1068; sec. 11, 75 Stat. 74; secs. 501 and 602, 80 Stat. 843, 844 (29 U.S.C. 211, 214).

Subpart A—Retail or Service Establishments, and Agriculture

§ 519.1 Applicability of the regulations in this subpart.

(a) *Statutory provisions.* Under section 14 of the Fair Labor Standards Act of 1938, as amended, and the authority and responsibility delegated to him/her by the Secretary of Labor (36 F.R. 8755 and 39 F.R. 33841) the Administrator of the Wage and Hour Division is authorized and directed, to the extent necessary in order to prevent curtailment of opportunities for employment, to provide by regulation or order for the employment, under certificates, of full-time students in retail or service establishments, or in agriculture. That section contains provisions requiring a wage rate in such certificates of not less than 85 percent of the minimum wage applicable under section 6 of the Act, limiting weekly hours of employment, stipulating compliance with the applicable child-labor standards, and safeguarding against the reduction of the full-time employment opportunities of employees other than full-time students employed under certificates.

(b) *Source of limitations.* Some of the limitations in this subpart are specifically required in section 14(b) of the Act. The other limitations implement the provisions in that section relating to employment opportunities, i.e., the "extent necessary to prevent curtailment of opportunities for employment" and the avoidance of a "substantial probability of reducing the full-time employment opportunities of persons other than those to whom the minimum wage rate authorized" under section 14(b) is applicable.

§ 519.2 Definitions.

(a) *Full-time students.* A "full-time student" for the purpose of this subpart is defined as a student who receives primarily daytime instruction at the physical location of a bona fide educational institution, in accordance with the institution's accepted definition of a full-time student. A full-time student retains that status during the student's Christmas, summer and other vacations. An individual who was such a student immediately prior to vacation will be presumed not to have discontinued such status during vacation if local law requires his/her attendance at the end of the vacation. In the absence of such requirement, his/her status during vacation will be governed by his/her intention as last communicated to his/her employer. The phrase in section 14(b) of the statute "regardless of age but in compliance with applicable child-labor laws," among other things, restricts the employment in a retail or service establishment to full-time students who are at least 14 years of age because of the application of section 3(l) of the Act. There is a minimum age requirement of 16 years in agriculture for employment during school hours and in any occupation declared hazardous by the Secretary of Labor (Subpart E–1 of Part 570 of this Title.) In addition, there is a minimum age restriction of 14 years generally for employment in agriculture of a full-time student outside school hours for the school district where such employee is living while so employed, except (a) minors 12 or 13 years of age may be employed with written parental or guardian consent or they may work on farms where their parents or guardians are employed, and (b) minors under 12 may work on farms owned or operated by their parents or with parental or guardian consent on farms whose employees are exempt from section 6 by section 13(a)(6)(A) of the Act.

(b) *Bona fide educational institution.* A "bona fide educational institution" is ordinarily an accredited institution. However, a school which is not accredited may be considered a "bona fide educational institution" in exceptional circumstances, such as when the school is too recently established to have received accreditation.

(c) *Retail or service establishment.* "Retail or service establishment" means a retail or service establishment as defined in section 13(a)(2) of the Fair Labor Standards Act. The statutory definition is interpreted in Part 779 of this chapter.

(d) *Agriculture.* "Agriculture" means agriculture as defined in section 3(f) of the Fair Labor Standards Act. The statutory definition is interpreted in Part 780 of this chapter.

(e) *Student hours of employment.* "Student hours of employment" means hours during which students are employed under full-time student certificates issued under this part and is distinguished from "hours of employment of students".

(f) *Employer.* Section 519.4(a) of this subpart permits an agricultural or retail or service establishment employer to employ not more than four full-time students at subminimum wages on forwarding an application but before certification. For this purpose, the term "employer" looks to the highest structure of ownership or control, and hence may be more than a single retail or service establishment or farm, e.g., the controlling conglomerate or enterprise would be the "employer". With respect to public employers who operate retail or service establishments (see 29 CFR Part 779), the "employer" means the highest structure of control such as the State,

XUM V40 N29 FEB 11 75 XUM

municipality, county or other political subdivision.

§ 519.3 Application for a full-time student certificate.

(a) Whenever the employment of full-time students working outside of schools hours in agriculture or in a retail or service establishment at wages lower than the minimum applicable under section 6 of the Fair Labor Standards Act is believed to be necessary to prevent curtailment of opportunities for employment and employment of them will not create a substantial probability of reducing the full-time employment opportunities of the other workers, an application for a certificate may be filed by their employer with the appropriate Regional Office of the Wage and Hour Division (or the Denver, Colorado Area Office for Colorado, North Dakota, and South Dakota; the Salt Lake City, Utah Area Office for Montana, Utah, and Wyoming; and the Caribbean Office for the area it covers). Such application shall be signed by an authorized representative of the employer.

(b) The application must be filed in duplicate on official forms or exact copies thereof. The forms are available at the offices mentioned in paragraph (a) of this section. The application must contain the information as to the type of products sold or services rendered by the establishment, hours of employment during the preceding twelve-month period or data from previous certificates (or applications) as pertinent to the application, and other information for which request is made on the form.

(c) Separate application must be made for each farm or establishment in which authority to employ full-time students at subminimum wage rates is sought.

(d) Application for renewal of a certificate shall be made either on the same type of form as is used for a new application or on an alternate official form. No certificate in effect shall expire until action on such an application shall have been finally determined, provided that such application has been properly executed, and is received by the office specified in paragraph (a) of this section not less than 15 nor more than 30 days prior to the expiration date. A properly executed application is one which fully and accurately contains the information required on the form, and the required certification by an authorized representative of the employer.

§ 519.4 Procedure for action upon an application.

(a) Under certain conditions, an agricultural or retail or service establishment employer may obtain temporary authorization to employ full-time students at subminimum wages. These conditions are: (1) Attestation by the employer that he/she will employ no more than four full-time students at subminimum wages on any workday and that the employment of such students will not reduce the full-time employment opportunities of other persons, *and* (2) forwarding a properly completed application to the Wage and Hour Division not later than the start of such employment, *and* (3) posting a notice of such filing at the place(s) specified in paragraph (a) of § 519.6 of this subpart, *and* (4) compliance during the temporary authorization period with the requirements set forth in paragraphs (b) and (j) through (o) of § 519.6 of this subpart.

(b) Temporary authorization under the conditions set forth in paragraph (a) of this section is effective from the date the application is forwarded to the Wage and Hour Division in conformance with § 519.3 of this subpart. This authorization shall continue in effect for one year from the date of forwarding of the application unless, within 30 days the Administrator or his/her authorized representative denies the application, issues a certificate with modified terms and conditions, or expressly extends the 30-day period of review.

(c) Upon receipt of an application for a certificate, the officer authorized to act upon such application shall issue a certificate if the terms and conditions specified in this subpart are satisfied. To the extent he/she deems appropriate, the authorized officer may provide an opportunity to other interested persons to present data, views, or argument on the application prior to granting or denying a certificate.

(d) Until April 30, 1976, if a certificate is issued, there shall be published in the FEDERAL REGISTER a general statement of the terms of such certificate together with a notice that, pursuant to § 519.9, for 45 days following such publication any interested person may file a written request for reconsideration or review. Thereafter, applications and certificates will be available for examination in accordance with applicable regulations in Washington, D.C., and in the appropriate Regional Office of the Wage and Hour Division (or the Denver, Colorado Area Office for Colorado, North Dakota, and South Dakota; the Salt Lake City, Utah Area Office for Montana, Utah, and Wyoming; and the Caribbean Office for the area it covers) for establishments in its area. A period of 60 days will be provided after certificate issuance during which any interested person may file a written request for reconsideration or review.

(e) If a certificate is denied, notice of such denial shall be sent to the employer, stating the reason or reasons for the denial. Such denial shall be without prejudice to the filing of any subsequent application.

§ 519.5 Conditions governing issuance of full-time student certificates.

Certificates authorizing the employment of full-time students at subminimum wage rates shall not be issued unless the following conditions are met:

(a) Full-time students are available for employment at subminimum rates; the granting of a certificate is necessary in order to prevent curtailment of opportunities for employment.

(b) The employment of more than four full-time students by an employer will not create a substantial probability of reducing the employment opportunities for persons other than those employed under such certificates.

(c) Abnormal labor conditions such as a strike or lockout do not exist at the farm or establishment for which a full-time student certificate is requested.

(d) The data given on the application are accurate and based on available records.

(e) The farms or establishments on whose experience the applicant relies meet the requirements of paragraph (h) of § 519.6.

(f) There are no serious outstanding violations of the provisions of a full-time student certificate previously issued to the employer, nor have there been any serious violations of the Fair Labor Standards Act (including Child-Labor Regulation No. 3 and the Hazardous Occupations Orders published in Part 570 of this Chapter) which provide reasonable grounds to conclude that the terms of a certificate may not be complied with, if issued.

(g) The subminimum wage rate(s) proposed to be paid full-time students under temporary authorization or under certificate is not less than 85 percent of the minimum wage applicable under section 6 of the Act.

(h) Certificates will not be issued where such issuance will result in a reduction of the wage rate paid to a current employee, including current student employees.

§ 519.6 Terms and conditions of employment under full-time student certificates and under temporary authorization.

(a) A full-time student certificate will not be issued for a period longer than 1 year, nor will it be issued retroactively. It shall specify its effective and expiration dates. A copy of the certificate shall be posted during its effective period in a conspicuous place or places in the establishment or at the farm readily visible to all employees, for example, adjacent to the time clock or on the bulletin board used for notices to the employees. If temporary authorization is in effect under paragraph (a) of § 519.4 of this subpart, a notice thereof shall be similarly posted during the effective period of such authorization.

(b) Full-time students may not be employed under a certificate at less than 85 percent of the minimum wage applicable under section 6 of the Act.

(c) For retail or service establishment employers or agricultural employers, the allowable extent of full-time student employment under certificates varies under the 1974 Amendments, depending on whether: (1) The employer proposes to employ no more than 4 full-time students at subminimum wages on any workday, (2) the applicant requests authority for more than 10 percent of the total hours during any month. (For agricultural employers, the month of full-time student certificated employment may vary somewhat from the month in a previous year on which the certificate is based, depending on seasonal factors.)

(d) *Retail or service establishment employers or agricultural employers requesting authorization to employ not more than 4 full-time students at subminimum wages on any workday.* An application from such an applicant provides temporary authorizaton for the employment of full-time students at subminimum wages, provided the conditions set forth in paragraph (a) of § 519.4 of this subpart are met. Upon review of the application by the Administrator or his/her authorized representative the extent of the temporary authority may be modified.

(e) *Applicants requesting authorization for not more than 10 percent of the total hours of all employees during any month.* For such an applicant, certificates may authorize the employment of full-time student at subminimum wages for up to 10 percent of the total hours of all employees during any month, regardless of past practice of employing students. (Note: An establishment which has not previously held a certificate may be authorized 10 percent of the total hours of all employees during any month. Applicants requesting authority under this paragraph need not refer to paragraphs (f), (g), or (h) of this section.)

(f) *Applicants requesting authorization for more than 10 percent of the total monthly hours of all employees during any month with records of hours of employment of students and coverage by the Act prior to May 1974:* For such an applicant, certificates may not authorize full-time student employment at subminimum wages in excess of the highest ratio under any of these three formulas: (1) The proportion of student hours of employment (i.e., of full-time students under certificates) to total hours of all employees for the corresponding month of the preceding twelve-month period; (2) the maximum proportion of student hours of employment to total hours of all employees (in any corresponding month), applicable to the issuance of full-time student certificates before May 1974; or (3) 10 percent of the total hours of all employees, during any month.

(NOTE.—An establishment which is entitled to monthly allowances ranging from 5 to 20 percent may be authorized 10 percent for those months which were less than 10 percent and retain the higher allowances for those months above 10 percent.)

(g) *Applicants requesting authorization for more than 10 percent of the total hours of all employees during any month with records of hours of employment of students and new coverage under the 1974 Amendments:* For such an applicant, the highest permissible allowance under a certificate during any month is the highest ratio under any of these three formulas: (1) The proportion of hours of employment of full-time students to total hours of all employees during the corresponding month from May 1973 through April 1974; (2) the proportion of student hours of employment (i.e., of hours of full-time students under certificates) to total hours of all employees during the corresponding month of the preceding twelve-month period (an alternative which is not applicable to all months of the year until 12 months after May 1, 1974); or (3) 10 percent of the total hours of all employees, during any month. (See notes under paragraphs (e) and (f) of this section.)

(h) *Applicants requesting authorization for more than 10 percent of the total hours of all employees during any month without records of student hours worked:* For such an applicant, the permissible proportion under certificate of full-time student hours at subminimum wages to total hours of all employees is based on the "practice" during the preceding twelve-month period of: (1) Similar establishments of the same employer in the same general metropolitan areas in which such establishment is located; (2) similar establishments in the same or nearby communities if such establishment is not in a metropolitan area; or (3) other establishments of the same general character operating in the community or the nearest comparable community. ("Practice" means either the certificate allowances or the proportion between the actual student hours of employment to the total hours of all employees.)

(i) An overestimate of total hours of employment of all employees for a current month resulting in the employment of the full-time students in excess of the hours authorized in paragraph (e), (f), (g), or (h) of this section may be corrected by compensating them for the difference between the subminimum wages actually paid and the applicable minimum under section 6 of the Act for the excess hours. Similarly, if an agricultural employer or a retail or service establishment employer has authorization to employ no more than 4 full-time students at subminimum wages on any workday but exceeds that number, the excess may be corrected by compensating the additional full-time students for the difference between the subminimum wages actually paid and the applicable minimum under section 6 of the Act. This additional compensation shall be paid on the regular payday next after the end of the period.

(j) Full-time students shall not be permitted to work at subminimum wages for more than 8 hours a day, nor for more than 40 hours a week when school is not in session, nor more than 20 hours a week when school is in session (apart from a full-time student's summer vacation), except that when a full-day school holiday occurs on a day when the establishment is open for business, the weekly limitation on the maximum number of hours which may be worked shall be increased by 8 hours for each such holiday but in no event shall the 40-hour limitation be exceeded.

(NOTE.—School is considered to be in session for a student attending summer school.) Whenever a full-time student is employed for more than 20 hours in any workweek in conformance with this paragraph, the employer shall note in his/her payroll records that school was not in session during all or part of that workweek or the student was in his/her summer vacation.

(k) Neither oppressive child labor as defined in section 3(l) of the Act and regulations issued under the Act nor any other employment in violation of a Federal, State or local child labor law or ordinance shall come within the terms of any certificate issued under this subpart.

(l) Full-time students shall be employed at subminimum wages under this subpart only outside of their school hours, i.e., only outside of the scheduled hours of instruction of the individual student, or, in the case of agriculture, only outside of school hours for the school district where the employee is living while so employed, if the employee is under 16 years of age.

(m) No full-time student shall be hired under a full-time student certificate while abnormal labor conditions, such as a strike or lockout, exist at the establishment or farm.

(n) No provision of any full-time student certificate shall excuse noncompliance with higher standards applicable to full-time students which may be established under the Walsh-Healey Public Contracts Act or any other Federal law, State law, local ordinance, or union or other agreement. Thus, certificates issued under this law have no application to employment under the Service Contract Act.

(o) No full-time student certificate shall apply to any employee to whom a certificate issued under section 14(a) or (c) of the Act has application.

§ 519.7 Records to be kept.

(a) The employer shall designate each worker employed as a full-time student under a full-time student certificate at subminimum wages, as provided under Part 516 of this chapter.

(b) (1) In addition to the records required under Part 516 of this chapter and this subpart, the employer shall keep the records specified in paragraph (b) (2) and (3) of this section specifically relating to full-time students employed at subminimum wages.

(2) The employer shall obtain at the time of hiring and keep in his records information from the school attended that the employee receives primarily daytime instruction at the physical location of the school in accordance with the school's accepted definition of a full-time student. During a period between attendance at different schools not longer than the usual summer vacation, a certificate from the school next to be attended that

XUM V40129 FEB 11 75 XUM

the student has been accepted as a full-time student will satisfy the requirements of this subparagraph.

(3) The employer operating any farm or retail or service establishment shall maintain records of the monthly hours of employment of full-time students at subminimum wages and of the total hours of employment during the month of all employees in the establishment, who in cases of employment in agriculture, do not come within one of the other exemptions from the minimum wage provisions of the Act. The records shall show the total hours worked in the establishment by all full-time students of the type defined in § 519.2(a) at less than the minimum wage otherwise applicable under the Act, and the total hours of employment of all employees in the establishment, to whom, in cases of employment in agriculture, the minimum wage provision of the Act applies.

(c) The records required in this section, including a copy of any full-time student certificate issued, shall be kept for a period of 3 years at the place and made available for inspection, both as provided in Part 516 of this chapter.

§ 519.8 Amendment or replacement of a full-time student certificate.

In the absence of an objection by the employer (which may be resolved in the manner provided in Part 528 of this chapter), the authorized officer upon his/her own motion may amend the provisions of a certificate when it is necessary by reason of the amendment of these regulations, or may withdraw a certificate and issue a replacement certificate when necessary to correct omissions or apparent defects in the original certificate.

§ 519.9 Reconsideration and review.

(a) Within 15 days after being informed of a denial of an application for a full-time student certificate or within 45 days after FEDERAL REGISTER publication of a statement of the terms of the certificate granted, (subsequent to April 30, 1976, within 60 days after a certificate is granted), any person aggrieved by the action of an authorized officer in denying or granting a certificate may: (1) File a written request for reconsideration thereof by the authorized officer who made the decision in the first instance, or (2) file with the Administrator a written request for review.

(b) A request for reconsideration shall be accompanied by a statement of the additional evidence which the applicant believes may materially affect the decision and a showing that there were reasonable grounds for failure to present such evidence in the original proceedings.

(c) Any person aggrieved by the reconsideration determination of an authorized officer may, within 15 days after such determination, file with the Administrator a written request for review.

(d) A request for review shall be granted where reasonable grounds for the review are set forth in the request.

(e) If a request for reconsideration or review is granted, the authorized officer or the Administrator may, to the extent he/she deems it appropriate, afford other interested persons an opportunity to present data, views, or argument.

§ 519.10 Amendment or revocation of the regulations in this subpart.

The Administrator may at any time upon his/her own motion or upon written request of any interested person or persons setting forth reasonable grounds therefore, and after opportunity has been given to interested persons to present data, views, or argument, amend or revoke any of the regulations of this subpart.

Subpart B—Institutions of Higher Education

§ 519.11 Applicability of the regulations in this subpart.

(a) *Statutory provisions.* Under section 14 of the Fair Labor Standards Act of 1938, as amended, and the authority and responsibility delegated to him/her by the Secretary of Labor (36 FR 8755–6), the Administrator of the Wage and Hour Division is authorized and directed, toh the extent necessary in order to prevent curtailment of opportunities for employment, to provide by regulation or order for the employment, under certificates, of full-time students in institutions of higher education. That section contains provisions requiring a wage rate in such certificates of not less than 85 percent of the minimum wage applicable under section 6 of the Act, limiting weekly hours of employment, stipulating compliance with the applicable child-labor standards, and safeguarding against the reduction of the full-time employment opportunities of employees other than full-time students employed under certificates.

(b) *Source of limitations.* Some of the limitations expressed in this subpart are specifically required in section 14(b) of the Act. The other limitations implement the provisions relating to employment opportunities, i.e., the "extent necessary in order to prevent curtailment of opportunities for employment" and the requirement that the regulations shall "prescribe standards and requirements to insure that this paragraph will not create a substantial probability of reducing the full-time employment opportunities of persons other than those to whom the minimum wage rate authorized by" section 14(b) of the Act is applicable.

§ 519.12 Definitions.

(a) *Full-time students.* A "full-time student" for the purpose of this subpart is defined as one who meets the accepted definition of a full-time student of the institution of higher education which employs him/her. A fulltime student retains that status during the student's Christmas, summer and other vacations, even when a student is taking one or more courses during his/her summer or other vacation. The phrase in section 14(b) of the statute "regardless of age but in compliance with applicable child labor laws", among other things, restricts the employment in an institution of higher education to fulltime students who are at least 14 years of age because of the application of section 3(1) of the Act.

(b) *Institution of higher education.* An "institution of higher education" is an institution above the secondary level, such as a college or university, a junior college, or a professional school of engineering, law, library science, social work, etc. It is one that is recognized by a national accrediting agency or association as determined by the U.S. Commissioner of Education. Generally, an institution of higher education: (1) Admits as regular students only individuals having a certificate of graduation from a high school or the recognized equivalent of such a certificate; and (2) is legally authorized within a State to provide a program of education beyond high school; and (3) provides an educational program for which it normally awards a bachelor's degree, or provides not less than a two-year program which is acceptable for full credit toward such a degree or offers a two-year program in engineering, mathematics, or the physical or biological sciences which is designed to prepare the student to work as a technician and at a semi-professional level in engineering, scientific, or other technological fields which require the understanding and application of basic engineering, scientific, or mathematical principles of knowledge.

§ 519.13 Application for a full-time student certificate.

(a) Whenever the employment of its full-time students working in an institution at wages lower than the minimum wage applicable under section 6 of the Fair Labor Standards Act is believed to be necessary to prevent curtailment of opportunities for employment and employment of them will not create a substantial probability of reducing the full-time employment opportunities of other workers, an application for a certificate may be filed by their employer with the appropriate Regional Office of the Wage and Hour Division (or the Denver, Colorado Area Office for Colorado, North Dakota and South Dakota; the Salt Lake City, Utah Area office for Montana, Utah and Wyoming; and the Caribbean Office for the area it covers). Such an application shall be signed by an authorized representative of the employer.

(b) The application provided for under § 519.14 must be filed in duplicate on official forms or exact copies thereof. The forms are available at the offices mentioned in paragraph (a) of this section. The application must contain the information on numbers of full-time students and full-time employees (other than full-time students), minimum full-time student wages, and other information for which request is made on the form.

(c) Separate application must be made for each campus of an institution

of higher education for which authority to employ full-time students at subminimum wage rates is sought.

(d) Application for renewal of a certificate shall be made on the same type of form as is used for a new application. No certificate in effect shall expire until action on such an application shall have been finally determined, provided that such application has been properly executed, and is received by the office specified in paragraph (a) of this section not less than 15 nor more than 30 days prior to the expiration date. A properly executed application is one which fully and accurately contains the information required on the form, and the required certification by an authorized representative of the employer.

§ 519.14 Procedure for action upon an application.

(a) Under certain conditions, an institution of higher education has temporary authorization to employ full-time students at subminimum wages. These conditions are: (1) Absence of an effective finding by the Secretary that the institution has been employing full-time students under certificates in violation of the requirements of section 14(b)(3) of the Act or of these regulations; and (2) forwarding of a properly completed application to the Wage and Hour Division not later than the start of employment of full-time students at subminimum wages; and (3) posting a notice of such filing at the place(s) specified in paragraph (a) of § 519.16 of this subpart; and (4) compliance during the temporary authorization period with the requirements set forth in paragraphs (b) and (e) through (j) of § 519.16 of this subpart.

(b) Temporary authorization under the conditions set forth in paragraph (a) of this section is effective from the date the application is forwarded to the Wage and Hour Division in conformance with § 519.13 of this subpart. This authorization shall continue in effect for one year from the date of forwarding of the application unless, within 30 days, the Administrator or his/her authorized representative denies the application, issues a certificate with modified terms and conditions, or expressly extends the 30-day period of review.

(c) Upon receipt of an application for a certificate, the officer authorized to act upon such application shall issue a certificate if the terms and conditions specified in this subpart are satisfied. To the extent he/she deems appropriate, the authorized officer may provide an opportunity to other interested persons to present data, views, or argument on the application prior to granting or denying a certificate.

(d) Until April 30, 1976, if a certificate is issued there shall be published in the FEDERAL REGISTER a general statement of the terms of such certificate together with a notice that, pursuant to § 519.19, for 45 days following such publication any interested person may file a written request for reconsideration or review. Thereafter, applications and certificates will be available for examination in accordance with applicable regulations in Washington, D.C., and in the appropriate Regional Office of the Wage and Hour Division (or the Denver, Colorado Area Office for Colorado, North Dakota, and South Dakota; the Salt Lake City, Utah Area Office for Montana, Utah, and Wyoming; and the Caribbean Office for the area it covers) for institutions of higher education in its area. A period of 60 days will be provided after certificate issuance during which any interested person may file a written request for reconsideration or review.

(e) If a certificate is denied, notice of such denial shall be sent to the employer, stating the reason or reasons for the denial. Such denial shall be without prejudice to the filing of any subsequent application.

§ 519.15 Conditions governing issuance of full-time student certificates.

Certificates authorizing the employment of full-time students at subminimum wage rates shall not be issued unless the following conditions are met:

(a) Full-time students are available for employment at subminimum rates; the granting of a certificate is necessary in order to prevent curtailment of opportunities for employment.

(b) The employment of full-time students will not create a substantial probability of reducing the full-time employment opportunities for persons other than those employed under such certificates.

(c) Abnormal labor conditions such as a strike or lockout do not exist in the units of the campus for which a full-time student certificate is requested.

(d) The data given on the application are accurate and based on available records.

(e) There are no serious outstanding violations of the provisions of a full-time student certificate previously issued to the employer, nor have there been any serious violations of the Fair Labor Standards Act (including Child-Labor Regulation No. 3 and the Hazardous Occupations Orders published in Part 570 of this chapter) which provide reasonable grounds to conclude that the terms of a certificate may not be complied with, if issued.

(f) The subminimum wage rate(s) proposed to be paid full-time students under temporary authorization or under certificate is not less than 85 percent of the minimum wage applicable under section 6 of the Act.

(g) Full-time students are not to be employed by an institution of higher education at subminimum wages under this subpart in unrelated trades or businesses as defined and applied under sections 511 through 515 of the Internal Revenue Code, such as apartment houses, stores, or other businesses not primarily catering to the students of the institution.

(h) Certificates will not be issued where such issuance will result in a reduction of the wage rate paid to a current employee, including current student employees.

§ 519.16 Terms and conditions of employment under full-time student certificates and under temporary authorization.

(a) A full-time student certificate will not be issued for a period longer than 1 year, nor will it be issued retroactively. It shall specify its effective and expiration dates. A copy of the certificate shall be posted during its effective period in a conspicuous place or places in the institution of higher education readily visible to all employees, for example, adjacent to the time clock or on the bulletin board used for notices to the employees. If temporary authorization is in effect under paragraph (a) of § 519.14, a notice thereof shall be similarly posted during the effective period of such authorization.

(b) Full-time students may not be employed under a certificate at less than 85 percent of the minimum wage applicable under section 6 of the Act.

(c) An institution of higher education shall not employ full-time students at subminimum wages under this subpart in unrelated trades or businesses as defined and applied under sections 511 through 515 of the Internal Revenue Code, such as apartment houses, stores, or other businesses not primarily catering to the students of the institution.

(d) An institution of higher education subject to a finding by the Secretary that it is in violation of the requirements of section 14(b)(3) of the Act or of this subpart must be issued a full-time student certificate before it can employ full-time students at wages below those required by section 6 of the Act. The Administrator or his/her authorized representative will not issue a full-time student certificate to such an institution without adequate assurances and safeguards to insure that the violations found by the Secretary will not continue.

(e) Full-time students shall not be permitted to work at subminimum wages for more than 8 hours a day, nor for more than 40 hours a week when school is not in session, nor more than 20 hours a week when school is in session (apart from a full-time student's summer vacation) except that when a full-day school holiday occurs the weekly limitation on the maximum hours which may be worked shall be increased by 8 hours for each such holiday but in no event shall the 40-hour limitation be exceeded.

(NOTE.—School is considered to be in session for a student taking one or more courses during a summer or other vacation.)

Whenever a full-time student is employed for more than 20 hours in any workweek in conformance with this paragraph, the employer shall note in his/her payroll that school was not in session during all or part of that workweek or the student was in his/her summer vacation.

(f) Neither oppressive child labor as defined in section 3(1) of the Act and regulations issued under the Act nor any other employment in violation of a Federal, State or local child labor law or ordinance shall come within the terms

XUM V40129 FEB 11 75 XUM

of any certificate issued under this subpart.

(g) Full-time students shall be employed at subminimum wages under this subpart only outside of their school hours, i.e., only outside of the scheduled hours of instruction of the individual full-time student.

(h) No full-time student shall be hired under a full-time student certificate for work in a unit or units of the campus where abnormal labor conditions, such as a strike or lockout, exist.

(i) No provision of any full-time student certificate shall excuse noncompliance with higher standards applicable to full-time students which may be established under the Walsh-Healey Public Contracts Act or any other Federal law, State law, local ordinance, or union or other agreement. Thus, certificates issued under this subpart have no application to employment under the Service Contract Act.

(j) No full-time student certificate shall apply to any employee to whom a certificate issued under section 14(a) or (c) of the Act has application.

§ 519.17 Records to be kept.

(a) The employer shall designate each worker employed as a full-time student under a full-time student certificate at subminimum wages, as provided under Part 516 of this chapter.

(b) (1) In addition to the records required under Part 516 of this chapter and this subpart, the employer shall keep the records specified in paragraph (b) (2), (3) and (4) of this section specifically relating to full-time students employed at subminimum wages.

(2) The institution shall obtain at the time of hiring and keep in its records information that the employee is its full-time student at the physical location of the institution in accordance with its accepted definition of a full-time student. During a period between attendance at different schools not longer than the usual summer vacation, the acceptance by the institution of the full-time student for its next term will satisfy the requirements of this subparagraph.

(3) An institution of higher education shall maintain records showing the total number of all full-time students of the type defined in § 519.12(a) employed at the campus of the institution at less than the minimum wage otherwise applicable under the Act, and the total number of all employees at the campus to whom the minimum wage provision of the Act applies.

(c) The records required in this section, including a copy of any full-time student certificate issued, shall be kept for a period of 3 years at the place and made available for inspection, both as provided in Part 516 of this chapter.

§ 519.18 Amendment or replacement of a full-time student certificate.

In the absence of an objection by the employer (which may be resolved in the manner provided in Part 528 of this chapter) the authorized officer upon his/her own motion may amend the provisions of a certificate when it is necessary by reason of the amendment of these regulations, or may withdraw a certificate and issue a replacement certificate when necessary to correct omissions or apparent defects in the original certificates.

§ 519.19 Reconsideration and review.

(a) Within 15 days after being informed of a denial of an application for a full-time student certificate or within 45 days after FEDERAL REGISTER publication of a statement of the terms of the certificate granted, (subsequent to April 30, 1976, within 60 days after a certificate is granted), any person aggrieved by the action of an authorized officer in denying or granting a certificate may; (1) File a written request for reconsideration thereof by the authorized officer who made the decision in the first instance, or (2) file with the Administrator a written request for review.

(b) A request for reconsideration shall be accompanied by a statement of the additional evidence which the applicant believes may materially affect the decision and a showing that there were reasonable grounds for failure to present such evidence in the original proceedings.

(c) Any person aggrieved by the reconsideration determination of an authorized officer may, within 15 days after such determination, file with the Administrator a written request for review.

(d) A request for review shall be granted where reasonable grounds for the review are set forth in the request.

(e) If a request for reconsideration or review is granted, the authorized officer or the Administrator may, to the extent he/she deems it appropriate, afford other interested persons an opportunity to present data, views, or argument.

§ 519.20 Amendment or revocation of the regulations in this subpart.

The Administrator may at any time upon his/her own motion or upon written request of any interested person or persons setting forth reasonable grounds therefor, and after opportunity has been given to interested persons to present data, views, or argument, amend or revoke any of the regulations of this subpart.

[FR Doc.75-3798 Filed 2-10-75;8:45 am]

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1903—INSPECTIONS, CITATIONS, AND PROPOSED PENALTIES

Petitions for Modification of Abatement Dates

Pursuant to sections 8(g)(2) and 19(c) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 657, 659), Secretary of Labor's Order No. 12-71 (36 FR 8754), 29 CFR Part 1903 is hereby amended as set forth below in order to provide for the processing by the Secretary of Labor of uncontested petitions for modification of abatement date.

On January 23, 1975, the Occupational Safety and Health Review Commission published a notice in the FEDERAL REGISTER (40 FR 3594) amending its rules at 29 CFR 2200.34. This amendment transferred the responsibility of processing uncontested petitions for modification of the abatement requirements of a citation (29 U.S.C. 659(c)) from the Commission to the Secretary of Labor. Under the regulation, uncontested cases would continue to be filed, docketed, and processed by the Commission. The purpose of this transfer of responsibility is to facilitate the handling and expedite the processing of petitions for modification of abatement dates to which neither the Secretary nor any other interested party objects. Therefore, instead of requiring the Secretary to transmit all uncontested petitions for modification of abatement dates to the Commission for docketing and determination, OSHA Area Directors will now have the authority to grant such uncontested petitions without further action by the Commission. However, all contested petitions will continue to be transmitted to the Commission for hearing and decision pursuant to Commission regulations governing contested cases.

The provision of 5 U.S.C. 553 concerning notice of proposed rulemaking, public participation therein, and delay in effective date are inapplicable because this amendment is governed by the exception to the rulemaking provisions of the Administrative Procedure Act (5 U.S.C. 553). Said exception permits an agency to dispense with notice and public procedure in the case of "rules of agency organization, procedure or practice."

Having determined that this change in procedure will facilitate the handling of petitions for modification of abatement date, Part 1903 is amended by adding a new § 1903.14a thereto, entitled "Petitions for modification of abatement date" to read as follows:

§ 1903.14a Petitions for modification of abatement date.

(a) An employer may file a petition for modification of abatement date when he has made a good faith effort to comply with the abatement requirements of a citation, but such abatement has not been completed because of factors beyond his reasonable control.

(b) A petition—for modification of abatement date shall be in writing and shall include the following information:

(1) All steps taken by the employer, and the dates of such action, in an effort to achieve compliance during the prescribed abatement period.

(2) The specific additional abatement time necessary in order to achieve compliance.

(3) The reasons such additional time is necessary, including the unavailability of professional or technical personnel or of materials and equipment, or because necessary construction or alteration of facilities cannot be completed by the original abatement date.

(4) All available interim steps being taken to safeguard the employees against the cited hazard during the abatement period.

(5) A certification that a copy of the petition has been posted and, if appropriate, served on the authorized representative of affected employees, in accordance with subsection (c)(1) of this section and a certification of the date upon which such posting and service was made.

(c) A petition for modification of abatement date shall be filed with the Area Director of the United States Department of Labor who issued the citation no later than the close of the next working day following the date on which abatement was originally required. A later-filed petition shall be accompanied by the employer's statement of exceptional circumstances explaining the delay.

(1) A copy of such petition shall be posted in a conspicuous place where all affected employees will have notice thereof or near such location where the violation occurred. The petition shall remain posted for a period of ten (10) days. Where affected employees are represented by an authorized representative, said representative shall be served with a copy of such petition.

(2) Affected employees or their representatives may file an objection in writing to such petition with the aforesaid Area Director. Failure to file such objection within ten (10) working days of the date of posting of such petition or of service upon an authorized representative shall constitute a waiver of any further right to object to said petition.

(3) The Secretary or his duly authorized agent shall have the authority to approve any petition for modification of abatement date filed pursuant to paragraphs (b) and (c) of this section. Such uncontested petitions shall become final orders pursuant to sections 10 (a) and (c) of the Act.

(4) The Secretary or his authorized representative shall not exercise his approval power until the expiration of fifteen (15) working days from the date the petition was posted or served pursuant to paragraphs (c) (1) and (2) of this section by the employer.

(d) Where any petition is objected to by the Secretary or affected employees, the petition, citation, and any objections shall be forwarded to the Commission within three (3) working days after the expiration of the fifteen (15) day period set out in paragraph (c)(1) of this section.

This amendment shall be effective on February 11, 1975.

(Secs. 8(g)(2), 10(c), 84 Stat. 1600, 1601 (29 U.S.C. 657(g)(2), 659(c)))

Signed at Washington, D.C. this 5th day of February 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75-3796 Filed 2-10-75;8:45 am]

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Connecticut State Plan; Completion of Developmental Steps

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) (29 U.S.C. 667) for review of changes and progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On January 4, 1974, notice was published in the FEDERAL REGISTER (39 FR 1012) of the approval of the Connecticut plan and of the adoption of Subpart X of Part 1952 containing the decision and describing the plan. On December 19, 1974, and September 23, 1974, the State of Connecticut submitted supplements to the plan involving developmental changes and State initiated changes.

The supplements include:

(a) Legislation, captioned Public Act 73-379 as amended by Public Act 74-137 (Connecticut General Statutes, Chapter 571, Section 31-367 to 31-385), submitted to the State Legislature in accordance with the requirements of 29 CFR 1952.303 (c) of the State's developmental schedule, enacted, and effective on May 8, 1974. The legislation includes the technical changes required by the Assistant Secretary as set out in the preamble to the approval decision (39 FR 1012).

(b) Administrative regulations, adopted under Connecticut General Statutes, Title 4, Ch. 48 Sec. 4-42, effective September 11, 1974, and essentially identical to Federal regulations 29 CFR Parts 1903, 1904, and 1905 except for minor changes adapting them to the State level of operation, in accordance with the requirement of 29 CFR 1952.303(b) of the State developmental schedule.

(c) Pursuant to its assurances, the State has submitted an agreement regarding assignment of personnel by the Connecticut Department of Environmental Protection to the Department of Labor whereby the assigned State personnel were identified and included under the State's approved merit system.

2. *Location of the plan and its supplements for inspection and copying.* A copy of the plan and its supplements may be inspected and copied during normal business hours at the following locations; Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room 850, 1726 M Street NW., Washington, D.C. 20210; Assistant Regional Director, Occupational Safety and Health Administration, 18 Oliver Street, Fifth Floor, Boston, Massachusetts 02110; Department of Labor, 200 Folly Brook Blvd., Wethersfield, Connecticut 06109.

3. *Public Participation.* Under 29 CFR 1953.2(c), the Assistant Secretary of Labor for Occupational Safety and Health may prescribe alternative procedures to expedite the review process or for any other good cause which may be consistent with applicable law. The Assistant Secretary finds that good cause exists for not publishing Connecticut's enacted legislation, regulations and inter-agency agreement because the legislation, regulations and agreement substantively meet the assurances given by the State when the plan was approved. In addition the legislation and regulations incorporate language essentially identical to the Federal Act. Therefore further public notice and comment would be unnecessary.

4. *Decision.* Since the legislation and regulations, as passed, are in substantive compliance with the assurances given by the State when the plan was approved, and incorporate language identical to the Federal Act in all essential areas, it is determined that the legislation and regulations, incorporated as part of the approved plan, should be approved as completion of developmental steps in the Connecticut plan. The interagency agreement meeting the assurance provided by the State in its plan for assignment of personnel, should also be approved as completion of a developmental step.

Accordingly, for the reasons stated in section 3 above, Subpart X of 29 CFR Part 1952 is hereby amended, effective February 11, 1975, as set forth below.

A new § 1952.304 is added to Subpart X of Part 1952 to read as follows:

§ 1952.304 Completed developmental steps.

(a) In accordance with § 1952.303(c), legislative amendments to the Connecticut Occupational Safety and Health Act were passed by the legislature, effective May 8, 1974.

(b) In accordance with § 1952.303(b), regulations essentially identical to Federal regulations 29 CFR Parts 1903, 1904 and 1905, have been adopted (Connecticut General Statutes, Title 4, Ch. 48, Sec. 4-42), effective September 11, 1974.

(c) The State designee has completed an agreement with the Connecticut Department of Environmental Protection for the assignment of enforcement personnel under the State plan.

(Secs. 8(g), 18, Pub. L. 91-596, 84 Stat. 1600, 1608, (29 U.S.C. 657(g), 667))

Signed at Washington, D.C. this 4th day of February, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75-3794 Filed 2-10-75;8:45 am]

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Hawaii Plan; Approval of State Poster and State Standards

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, provides procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for review of changes and

XUM
V40129
FEB 11 75
XUM

progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and Part 1902 of this chapter. On January 4, 1974, a notice was published in the FEDERAL REGISTER (39 FR 1010) of the approval of of Subpart Y of Part 1952 containing the decision of approval. On November the Hawaii plan and of the adoption 26, 1974, the State submitted a supplement to the plan involving a State-initiated change (see Subpart E of 29 CFR Part 1953). In addition, a notice was published in the FEDERAL REGISTER on December 27, 1974, concerning the approval of the Hawaii standards by the Assistant Regional Director of the Occupational Safety and Health Administration (39 FR 44823). The promulgation of these standards represents a completion of a developmental step as outlined in 29 CFR 1952.313(b).

The supplement concerns the Hawaii State poster which is to be posted at all covered workplaces in the State. Among other things, the poster contains provisions notifying employees of their obligations and protections under the Hawaii Act, their right to request inspections and their right to remain anonymous as a result, their right to participate in inspections, their protection against discharge or discrimination under both Federal and State law for the exercise of their rights under the Federal and State laws and their right to file complaints about the administration of the State program with the Occupational Safety and Health Administration.

2. *Location of the plan and its supplement for inspection and copying.* A copy of this supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Room 850, 1726 M Street NW., Washington, D.C. 20210; Office of the Assistant Regional Director, Occupational Safety and Health Administration, Room 9470, Federal Office Building, 450 Golden Gate Avenue, San Francisco, California 94102; and the Department of Labor and Industrial Relations, Room 308, 825 Milani Street, Honolulu, Hawaii 96813.

3. *Public participation.* Under § 1953.2 of this chapter, the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) may prescribe alternative procedures to expedite the review process or for any other good cause which may be consistent with applicable law. The Assistant Secretary finds that the Hawaii poster incorporates all of the provisions required under 29 CFR 1952.10 (a)(5) and 29 CFR 1903.2(a)(3) (39 FR 39036, November 5, 1974). Accordingly, it is found that further public comment is unnecessary.

4. *Decision.* After careful consideration, the Hawaii Plan Supplement outlined above is approved under Part 1953. This decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally. In addition, Subpart Y of 29 CFR Part 1952 is amended to reflect the completion of a developmental step by the promulgation and approval of the Hawaii occupational safety and health standards. Accordingly § 1952.314 (c) and (d) in Subpart Y of Part 1952 is amended as follows:

§ 1952.314 Completed developmental steps.

* * * * *

(c) In accordance with § 1952.313(b), as amended, the Hawaii occupational safety and health standards were promulgated on April 18, 22, 23, 24, and 25, 1975.

(d) In accordance with the requirements of 29 CFR 1952.10, the Hawaii State poster was approved by the Assistant Secretary on February 4, 1975.

(Secs. 8(g)(2), 18, Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 657(g)(2), 667))

Signed at Washington, D.C. this 4th day of February 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75-3795 Filed 2-10-75;8:45 am]

Title 32—National Defense

CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

SUBCHAPTER P—RECORDS

PART 295—AVAILABILITY TO THE PUBLIC OF DEFENSE Mapping Agency Information

The Director of the Defense Mapping Agency has approved the following revision of Part 295 as shown below in order to reflect the new requirements established by P.L. 93-502, which amended the Freedom of Information Act, 5 U.S.C. 552.

Sec.
295.1 Purpose.
295.2 Applicability.
295.3 Policy.
295.4 Availability of Records.
295.5 DMA Officials Authorized to Release Records Requested by Members of the Public.
295.6 Procedure for Submission of Requests for DMA Records by Members of the Public.
295.7 Fees.
295.8 Material that may be Withheld from Disclosure.
295.9 Expedited Handling Required.
295.10 Appeals.
296.11 Judicial Action.

AUTHORITY: §§ 295.1 to 295.11 issued under 5 U.S.C. 301, 552, as amended by Act of Nov. 21, 1974 (P.L. 93-502, 88 Stat. 1-3).

§ 295.1 Purpose.

This part implements 5 U.S.C. 552, as amended, and DOD Directive 5400.7 (Part 286 of this Chapter) and describes established facilities at which, the officials from whom, and the procedures whereby members of the public may inspect and copy or obtain copies of unclassified DMA records.

§ 295.2 Applicability.

This part is applicable to Headquarters DMA and all DMA Components.

§ 295.3 Policy.

It is the policy of the DMA to make available to the public the maximum amount of information concerning its operations and activities. This basic policy is subject to the exemptions recognized in 5 U.S.C. 552(b) and Part 286 of this Subchapter. However, notwithstanding such permissible exemptions, it is DMA policy that an exempt record will be made available to the public when its disclosure would not be inconsistent with statutory requirements and when the DMA official designate din § 295.5 determines that no significant and legitimate governmental purpose would be served by withholding the information. The latter determination is within the sole discretion of the DMA.

§ 295.4 Availability of Records.

(a) Any identifiable documentary material in the possession of the Defense Mapping Agency which qualifies as a "record", as discussed in paragraph (b) of this section and which is not exempt under 5 U.S.C. 552(b) and Part 286 of this Subchapter shall be made available on the request of any person.

(b) In determining whether documentary material qualifies as a "record", consideration will be given to 44 U.S.C. 366, which defines the word "record" as follows:

[It] includes all books, papers, maps, photographs, or other documentary materials, regardless of physical form or characteristics, made or received by any agency of the United States Government in pursuance of federal law or in connection with the transaction of public business and preserved or appropriate for preservation by that agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the Government or because of the informational value of data contained therein.

(1) Records are not limited to permanent or historical documents but include contemporaneous documents as well.

(2) The term "records" does not include objects or articles such as structures, furniture, paintings, sculpture, three-dimensional models, vehicles, equipments, etc., whatever their historical value or value as "evidence."

(3) Formulae, designs, drawings, research data, computer programs, technical data packages, etc., are not considered "records" within the intent of 5 U.S.C. 552, even though maintained in documentation form. Because of development costs, utilization, or value, these items are considered *property*, not preserved for informational value nor as evidence of agency functions, but as exploitable resources to be utilized in the best interest of *all* the public. Requests for copies of such material shall be evaluated in accordance with policies expressly directed to the appropriate dissemination or use of such property. Requests to inspect such material to determine its content for informational purposes shall

normally be granted; however, unless inspection is inconsistent with the obligation to protect the property value of the material, as, for example, may be true for certain formulae.

(c) For a record to be considered "identifiable" it must exist at the time of the request. There is no obligation to create a record to satisfy a request for information.

(d) Requesters must reasonably describe the record sought. This requires sufficient particularity in the description to enable the DMA to locate the record requested with reasonable effort.

(e) Pursuant to 5 U.S.C. 552(4)(A), requesters will be charged the reasonable costs to the Defense Mapping Agency of searching for, copying and certifying records. Such charges will be determined in accordance with part 286 of this subsection.

(f) Requests for identifiable records may be denied only when an official designated in § 295.5 determines that such denial is authorized by 5 U.S.C. 552(b) and Part 286 of this subchapter.

§ 295.5 DMA Officials Authorized to Release Records Requested by Members of the Public.

Authority to make initial determinations of whether to release DMA records to members of the public is, in the case of Headquarters DMA, vested in the Deputy Directors, the Chief of Staff, the Comptroller, and the Staff Director of Personnel; in the case of DMA Components, such authority is vested in the Component Directors, Deputy Directors and Technical Directors.

§ 295.6 Procedure for Submission of Requests for DMA Records by Members of the Public.

(a) *Identification of records requested.* Requests to inspect or obtain copies of records will normally be submitted by letter and should contain at least the following information.

(1) As complete an identification as possible of the desired record, including (if known) its title or a description thereof, date and the issuing office.

(2) With respect to matters of official record concerning civilian or military personnel, the first name, middle name or initial, surname, date of birth, and social security number of the individual concerned, if known.

(3) A statement as to whether the requester wishes to inspect the record at a DMA facility or obtain copies thereof by return mail.

(b) *Addressing requests.* Requesters should address their inquiries to the appropriate official as follows:

(1) Director, Defense Mapping Agency, Bldg. 56, U.S. Naval Observatory, Washington, D.C. 20305.

(2) Director, DMA Aerospace Center, St. Louis Air Force Station, Missouri 63118.

(3) Director, DMA Hydrographic Center, Washington, D.C. 20390.

(4) Director, DMA Topographic Center, 6500 Brooks Lane, NW., Washington, D.C. 20315.

(5) Director, Defense Mapping School, Fort Belvoir, Virginia 22060.

(6) Director, Inter American Geodetic Survey, Fort Clayton, Canal Zone.

If the requester is not certain to which DMA Component his inquiry should be addressed, it may be submitted to the Director, Headquarters Defense Mapping Agency, Building 56, U.S. Naval Observatory, Washington, D.C. 20305 where prompt action will be taken to direct it into proper channels.

(c) *Facilities for inspection and copying of records.*

(1) Subject to the exemptions set forth in 5 U.S.C. 552(b) and part 286 of this subchapter, each Component of the Defense Mapping Agency shall make available for public inspection and copying in an appropriate facility or facilities the materials described in part 286 of this subchapter, unless such materials are published and copies offered for sale.

(2) The cost to the Component of copying any such opinion, order, or statement of policy or interpretation shall be imposed on the person requesting the copy in accordance with Part 286 of the Subchapter.

(3) Each Component of the Defense Mapping Agency shall maintain on a current basis and make available for public inspection and copying in the facilities established for that purpose current indexes providing identifying information for the public as to any matter, issued, adopted or promulgated after July 4, 1967 and required by 5 U.S.C. 552 and part 286 of this subchapter to be made available or published.

(4) With respect to such indexes, it is hereby determined pursuant to 5 U.S.C. 552(a)(2) that publication thereof in the FEDERAL REGISTER is, in the case of the Defense Mapping Agency, unnecessary and impracticable. However, all DMA Components will nonetheless provide copies of such indexes on request of members of the public at a cost not to exceed the direct cost of duplication.

(5) Use of DMA inspection and copying facilities by members of the public will be on an appointment basis only. Appointments, will, normally, be requested by letter in accordance with the procedure described in § 295.6 of this chapter.

§ 295.7 Fees.

(a) The schedule of fees published in part 286 of this subchapter shall be applicable to all services rendered to members of the public hereunder.

(b) When no specific fee has been established for a particular service, or the service requested does not fall within a category covered by Part 286 of this Subchapter, an appropriate fee will be established therefor in accordance with Part 286 of this Subchapter.

(c) Normally, mail requests for identifiable records should be accompanied by remittance of the total fee chargeable, as well as a self-addressed, stamped envelope, if special mail services are desired.

(d) Fees must be paid in full prior to search for and issuance of requested copies of records. If uncertainty as to the existence of a record, or as to the number of sheets to be copied or certified, precludes remittance of the exact fee with the request, the Defense Mapping Agency will inform the requester of the exact amount required. The time limits for responding to requests established in 5 U.S.C. 552 and part 286 of this subchapter begin to run only upon receipt of any required payment, unless the requester indicates in writing a clear willingness to pay the anticipated costs.

(e) Remittances may be in the form of either a personal check or bank draft drawn on a U.S. bank, or by U.S. postal money order. All such instruments shall be drawn to the order of the Treasurer of the United States.

(f) A receipt for fees paid will be given only upon request. Refund of fees paid will be made only when the requested service cannot be rendered.

§ 295.8 Material that may be Withheld from Disclosure.

Only those records falling within the specific exemptions listed in 5 U.S.C. 552 (b), and Part 286 of this Subchapter may be withheld from members of the public. Therefore, a request for a record made pursuant to 5 U.S.C. 552 and this part may be denied only by a DMA official designated in § 295.5 of this Chapter, with the advice of Counsel at a DMA Component, where available, or Counsel, HQ DMA, in all other cases, and only upon a determination that:

(1) The record is subject to one or more of the exemptions set forth in 5 U.S.C. 552(b) and Part 286 of this Subchapter, and a significant and legitimate governmental purpose is served by withholding it.

(2) The record cannot be found because it has not been described with sufficient particularity to enable the DMA to locate it with a reasonable amount of effort.

(3) The requester has unreasonably failed to comply with the procedural requirements imposed by this Part.

§ 295.9 Expedited Handling Required.

The handling of all requests from members of the public to inspect or copy records will be expedited by the officials designated in § 95.5 of this Chapter, as well as by all other DMA people. The initial determination of whether to make a record available upon request will normally be made within ten (10) working days of the date a request is received by the official designated to respond for the type of record sought. Any delay beyond this initial ten day period may not exceed ten additional working days and will be authorized only for the reasons described in Part 286 of this Subchapter.

§ 295.10 Appeals.

Any person who is denied a request for a record, in whole or in part, will be given a written explanation of the basis for such determination by an appropriate official designated in § 295.5 of this Chapter, and advised of his right to appeal the denial to the Director, HQ DMA, Building 56, U.S. Naval Observatory, Washington, D.C. 20305. The name and

XUM
V40129
FEB 11 75
XUM

title or position of the official responsible for the denial will be included in the written response to the requester. Final determinations on appeals will normally be made within twenty (20) working days of the receipt thereof by the Director, HQ DMA. If, due to unusual circumstances, additional time is needed to decide the appeal, the final determination may be delayed for the number of working days, not to exceed ten (10), which were not utilized as additional time for responding to the initial request. Final refusal to provide a requested record will be made in writing by the Director, HQ DMA, in accordance with the appeal procedures prescribed in Part 286 of this Subchapter.

§ 295.11 **Judicial Action.**

5 U.S.C. 552 provides that a requester will be deemed to have exhausted his administrative remedy after he has been refused the requested record by the head of an agency, or his designee, or when the agency fails to respond to his request within the time limits prescribed by law. The requester may then seek an order from a U.S. District Court: (1) in the district in which he resides or has his principal place of business; (2) in the district in which the record is situated; or (3) in the U.S. District Court for the District of Columbia, enjoining the agency from withholding the record and ordering its production.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

FEBRUARY 6, 1975.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD-74-249]

PART 62—LORAN

Loran-C System Rate Structure Change

The purpose of this amendment is to change the Loran-C rate structure in order to accommodate planned expansion of Loran-C to provide a highly accurate and reliable radionavigation aid for the U.S. Coastal Confluence Zone (CCZ); defined as U.S. coastal waters extending to the 100 fathom curve or 50 miles offshore, whichever is further; and to allow possible future system expansion for overland service should the need arise.

The change is merely an expansion of the existing Loran-C rate structure to eliminate limitations contained therein.

On May 16, 1974, the Secretary of Transportation announced the selection of Loran-C as the government provided radionavigation system for the Coastal Confluence Zone (CCZ). As a result of that decision, the Coast Guard has been tasked to plan, establish and operate four new Loran-C chains which, when added to the existing U.S. East Coast chain, will provide radionavigation service for the entire CCZ; i.e., Gulf of Alaska, West Coast, East Coast, and Gulf of Mexico.

Due to the planned expansion of Loran-C and present limitations, the Commandant, U.S. Coast Guard will expand the Loran-C rate structure and amend the terminology which describes the various basic and specific repetition intervals (group repetition intervals—GRI's) thereof.

The present Loran-C rate structure provides for 48 possible rates. (See Table I). These rates are described in terms of basic and specific repetition intervals, and are annotated by one or two letters (basic rate/interval), followed by a single number (specific rate/interval). The letters and numbers together represent a fixed period, in microseconds, between successive transmissions for all stations assigned to that rate.

Of the 48 posssible rates shown in Table I, the H and L rates, although available, cannot be used because the intervals provided are not of sufficient duration to accommodate the baseline distances and the number of secondary stations involved in Loran-C. This is because the farther the stations are apart and the more stations operating on a rate, the more time that is required since each station transmits sequentially in its own segment of the interval. Additionally, all of the even specific rates (0, 2, 4, 6) and odd specific rate 5 of basic rates S, SH, SL, and SS are considered less than optimum due to the high probability of interchain (crossrate) interference occurring with their use. This leaves only 12 optimum rates usable out of 48 with nine of these already in use—eight Coast Guard operated Loran-C chains and one Air Force Loran-D chain.

Expansion of Loran-C to cover the entire CCZ as discussed above will require 4 additional rates. This, plus the increasing number of commercial radiolocation operations using the Loran-C format will, if positive action is not taken now, eventually result in the necessity for extensive double assignment of present rates with the attendant possibility of mutual interference and user confusion. The Coast Guard therefore deems it not only desirable but absolutely necessary to expand the Loran-C rate structure to allow for future increases in services.

TABLE I.—*Group repetition intervals*

Specific GRI	Basic GRI SS	SL	SH	S	L	H
0	100,000	80,000	60,000	50,000	40,000	30,000
1	99,900	79,900	59,900	49,900	39,900	29,900
2	99,800	79,800	59,800	49,800	39,800	29,800
3	99,700	79,700	59,700	49,700	39,700	29,700
4	99,600	79,600	59,600	49,600	39,600	29,600
5	99,500	79,500	59,500	49,500	39,500	29,500
6	99,400	79,400	59,400	49,400	39,400	29,400
7	99,300	79,300	59,300	49,300	39,300	29,300

Note: The designation of a chain GRI is a combination of the identification of the basic and specific GRI. For example, SL-7 designates a chain having a GRI of 79,300 μSEC.

As can be seen in Table I, which shows the present rate structure, adjacent basic rates are either 10,000 or 20,000 microrates are no closer than 100 microseconds to each other. The omission of specific rates 8 and 9 further limits the number of available rates. Therefore, it is proposed to expand the Loran-C rate structure to provide a rate at each ten microsecond increment beginning with 40,000 and extending to 99,990 microseconds. While it is quite apparent that the extensive number of possible rates that would be available is far in excess of foreseeable needs, many of these rates will be unusable because of interference considerations, as with the present structure.

With the larger number of possible rate assignments under the new rate structure, the alpha-numeric method of rate designation would be quite complex and confusing. Therefore, each rate, existing and future, will be designated in purely numeric notation.

Rates will be designated by the four most significant digits of the Loran-C interval, i.e., the rate with an interval of 49,300 microseconds, presently termed Rate S7, will be known as rate 4930. (See Table II.)

TABLE II.—Group repetition intervals

(GRI in tens of microseconds)

9999	8999	7999	6999	5999	4999
9998	8998	7998	6998	5998	4998
9997	8997	7997	6997	5997	4997
9991	8991	7991	6991	5991	4991
9990(SS1)	8990	7990(SL1)	6990	5990(SH1)	4990(S1)
9989	8989	7989	6989	5989	4989
9971	8971	7971	6971	5971	4971
9970(SS3)	8970	7970(SL3)	6970	5970(SH3)	4970(S3)
9969	8969	7969	6969	5969	4969
9931	8931	7931	6931	5931	4931
9930(SS7)	8930	7930(SL7)	6930	5930(SH7)	4930(S7)
9929	8929	7929	6929	5929	4929
9000	8000	7000	6000	5000	4000

While expansion of the Loran-C rate structure would be effective upon publication of the amendment to 33 CFR Part 62, utilization of the new rates thereby provided, would not be effected until all presently existing rates had been considered and implemented or rejected. Also, all existing Loran-C chains will retain their presently assigned intervals (only the terminology would change) or be reassigned intervals provided under the old rate structure. Additionally, all new Loran-C chains providing service for the CCZ will also be assigned intervals from the old rate structure. Therefore, all existing Loran-C receivers will be usable with all existing and any new CCZ chains.

Since this amendment to Part 62 is a revision to expand the existing Loran-C rate structure and is not regulatory, the rule making requirements of 5 U.S.C. 553 are not applicable and this revision does not require a notice and may be effective immediately.

In consideration of the foregoing, Part 62 of Title 33 of the Code of Federal Regulations is amended as follows:

In § 62.40–5(a), lines 13 to end of paragraph are deleted, and a new paragraph, (b), is added to read:

§ 62.40–5 **Rate designation.**

. . . . . .

(b) Loran-C rates are designated by the four most significant digits of the five digit number which describes the time interval, in microseconds, between successive pulse group transmissions for each station assigned to a given rate. A rate is provided at each ten microsecond increment between 40,000 and 99,990 microseconds. Since all rates are on the same carrier frequency (100 kHz), no preliminary number or letter is required.

(44 U.S.C. 1505, 49 U.S.C. 1655(b)(1); 49 CFR 1.4(b) and 1.46(b))

Effective date. This amendment is effective immediately.

Dated: January 31, 1975.

O. W. SILER,
Admiral, U.S. Coast Guard, Commandant.

[FR Doc.75-3635 Filed 2-10-75;8:45 am]

[CGD 74-189]

PART 110—ANCHORAGE REGULATIONS

Beverly and Salem Harbors, Mass.; Special Anchorage Areas

This amendment to the anchorage regulations establishes two special anchorage areas, one located in Beverly and Mackerel Coves, north side of Beverly Harbor and the second located in Collins Cove north of Salem Neck, Mass. In special anchorage areas, vessels under 65 feet in length, when at anchor, are not required to carry or exhibit anchor lights.

This amendment is based on a notice of proposed rulemaking published in the Wednesday, December 18, 1974, issue of the FEDERAL REGISTER (39 FR 43732).

All comments received, with one exception, were in favor of the proposal.

The one objection was received from Boston Gas Company, Boston, Mass. Boston Gas Company stated that it would have no objection to the proposed establishment of a special anchorage area in Collins Cove if Rams Horn Channel is kept open for the ingress and egress of LNG barges to enable the off-loading of LNG at the Boston Gas Company dock.

The Commander, First Coast Guard District, replied to this comment, advising Boston Gas Company that the present aids to navigation, marking Rams Horn Channel would remain and that the designation of a special anchorage area in Collins Cove would not preclude the future use of Rams Horn Channel.

In consideration of the foregoing, the proposed amendments are adopted without change and are set forth below.

Effective date. These amendments are effective March 14, 1975.

Dated: February 6, 1975.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

In consideration of the foregoing, Title 33 of the Code of Federal Regulations is amended by adding new paragraphs (d) and (e) to § 110.25 to read as follows:

§ 110.25 **Beverly and Salem Harbors, Mass.**

. . . . . .

(d) *Beverly and Mackerel Coves, north side of Beverly Harbor.* The water area enclosed by a line commencing at the southernmost point of Curtis Point in Beverly; thence bearing 238°, 1,400 yards to latitude 42°32'29.4'' N., longitude 70°51'34'' W.; thence 284°, 1,475 yards to the western shoreline of Mackerel Cove; thence north northeasterly to the point of beginning.

(e) *Collins Cove, Salem, Mass.* The water area enclosed by a line beginning at Monument Bar Beacon; thence 242°, 580 yards to latitude 42°32'14.5'' N., longitude 70°52'46.3'' W.; thence 284°, 220 yards to latitude 42°32'16'' N., longitude 70°52'55'' W.; thence 231°, 525 yards to a point on the shoreline; thence following the shoreline and the western boundary of the special anchorage area as described in 33 CFR 110.25(a) to the point of beginning.

(Sec. 1, 30 Stat. 98, as amended, sec. 6(g)(1)(B), 80 Stat. 937; 33 USC 180, 49 USC 1655(g)(1)(B), 49 CFR 1.46(c)(2), 33 CFR 1.05-1(c)(1))

[FR Doc.75-3791 Filed 2-10-75;8:45 am]

Title 37—Patents, Trademarks, and Copyrights

CHAPTER I—PATENT AND TRADEMARK OFFICE, DEPARTMENT OF COMMERCE

PART 1—RULES OF PRACTICE IN PATENT CASES

Listing of Certain Prior Applications

On June 26, 1974, notice of proposed rule making regarding an amendment of § § 1.65 and 1.67 of Title 37, Code of Federal Regulations, dealing with the listing of certain prior applications in the application oath or declaration was published in the FEDERAL REGISTER (39 FR 24375). Interested persons were given until September 30, 1974, by Notice published in the FEDERAL REGISTER on August 7, 1974 (39 FR 28439), to submit written comments and suggestions. Full and careful consideration was given to all written comments received. The proposed rule language has been slightly revised.

In consideration of the comments received, and pursuant to the authority contained in section 6 of the Act of July 19, 1952, as amended (85 Stat. 364; 35 U.S.C. 6), Part 1 of Title 37, Code of Federal Regulations, is hereby amended as follows:

1. In § 1.65, paragraph (a) is revised to read as follows:

§ 1.65 **Statement of applicant.**

(a) (1) The applicant, if the inventor, must state that he verily believes himself to be the original and first inventor or discoverer of the process, machine, manufacture, composition of matter, or improvement thereof, for which he solicits a patent; that he does not know and does not believe that the same was ever known or used in the United States before his invention or discovery thereof, and shall state of what country he is a citizen and where he resides and whether he is a sole or joint inventor of the invention claimed in his application. In every original application the applicant must distinctly state that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States more than one year prior to his application or patented or described in any printed publication in any country before his invention or more than one year prior to his application, or patented or made the subject of an inventor's certificate in any foreign country prior to the date of his application on an application filed by himself or his legal representatives or assigns more than twelve months prior to his application in this country. He shall state whether or not any application for patent or inventor's certificate on the same invention has been filed in any foreign country, either by himself, or by his legal representatives or assigns. If any such application has been filed, the applicant shall name the country in which the earliest such application was field, and shall give the day, month, and year of its filing; he shall also identify by country and by day, month, and year of filing, every such foreign application filed more than twelve months before the filing of the application in this country. (2) This statement (i) must be subscribed to by the applicant, and (ii) must either (*a*) be sworn to (or affirmed) as provided in § 1.66, or (*b*) include the personal declaration of the applicant as prescribed in § 1.68. See § 1.153 for design cases and § 1.162 for plant cases.

. . . . . .

2. In § 1.67, paragraph (a) is revised to read as follows:

§ 1.67 **Supplemental oath or declaration for matter not originally claimed.**

(a) When an applicant presents a claim for matter originally shown or described but not substantially embraced in the statemnet of inventtion or claim originally presented, he shall file a supplemental oath or declaration to the effect that the subject matter of the proposed amendment was part of his invention: that he does not know and does not believe that the same was ever known or used in the United States before his invention or discovery thereof, or patented or described in any printed publication in any country before his invention or discovery thereof, or more

XUM V40-29 FEB 11 75 XUM

than one year before his application, or in public use or on sale in the United States for more than one year before the date of his application, that said invention has not been patented or made the subject of an inventor's certificate in any foreign country prior to the date of his application in this country on an application filed by himself or his legal representatives or assigns more than twelve months prior to his application in the United States, and has not been abandoned. Such supplemental oath or declaration should accompany and properly identify the proposed amendment, otherwise the propose admentment may be refused consideration.

* * * * *

Effective date. These amendments shall become effective on May 1, 1975, and shall apply to applications filed after that date.

C. MARSHALL DANN,
Commissioner of Patents.

Approved:

DAVID B. CHANG,
Acting Assistant Secretary for Science and Technology.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 332-3]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Picloram

In response to a petition (PP 4E1489) submitted jointly by the Montana Department of Agriculture, Helena, MT 59601, and the North Dakota Department of Agriculture, Bismarck, ND 58501, and a later request from the State of Nebraska, Department of Agriculture, P.O. Box 94756, Lincoln, NE 68509, interim tolerances were established (§ 180.292(b)) for residues of the herbicide picloram (4-amino-3,5,6-trichloropicolinic acid) in or on raw agricultural commodities green forage and straw of barley and wheat at 1 part per million; grain of barley and wheat at 0.5 part per million; kidney of hogs and horses at 5 parts per million; liver of hogs and horses at 0.5 part per million; meat, fat, and meat byproducts (except kidney and liver) of hogs and horses at 0.2 part per million; and eggs and the meat, fat, and meat byproducts of poultry at 0.05 part per million. These interim tolerances expired at the end of the 1974 growing season.

Because of an anticipated continued shortage of 2,4-D, and other herbicides effective in controlling broadleaf weeds the petitioners have requested the interim tolerances be extended to the 1975 growing season. In addition the State of South Dakota, Department of Agriculture, and the State of Minnesota, Department of Agriculture, request that the proposed extension of interim tolerances also be expanded to include South Dakota and Minnesota.

Based on consideration given the data submitted in the petition and other relevant material it is concluded that the extension of time and the inclusion of the additional States will protect the public health. (For a related document, see this issue of the FEDERAL REGISTER, page 6326.)

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805), § 180.292(b) is amended by revising the introductory paragraph and by adding the sentence "These interim tolerances expire April 1, 1976" to the end of the section, as follows:

§ 180.292 4 - amino - 3,5,6 - trichloropicolinic acid; tolerances for residues.

* * * * *

(b) Interim tolerances are established for residues of the herbicide picloram (4-amino-3,5,6-trichloropicolinic acid) in or on the following raw agricultural commodities when present as a result of application of 2,4-D-picloram mixtures to growing barley and wheat in the States of Minnesota, Montana, Nebraska, North Dakota, and South Dakota:

* * * * *

These interim tolerances expire April 1, 1976.

Any person who will be adversely affected by the foregoing order may at any time on or before March 13, 1975, file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th & M Streets, SW, Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on February 11, 1975.

(Sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e))

Dated: February 4, 1975.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5474]

[New Mexico 14384]

NEW MEXICO

Reservoir Site Restoration No. 51; Revocation of Reservoir Site No. 7

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Secretarial Order of August 18, 1894, which created Reservoir Site No. 7, is hereby revoked so far as it affects the following described land:

NEW MEXICO PRINCIPAL MERIDIAN

T. 24 N., R. 8 E.,
Sec. 1, lots 5 thru 8;
Sec. 2, lot 1.
T. 25 N., R. 8 E.,
Sec. 35, SE¼SE¼;
Sec. 36, SW¼NE¼, W½, W½SE¼, SE¼SE¼.

CARSON NATIONAL FOREST

T. 25 N., R. 8 E.,
Sec. 25, W½E½, E½W½, SW¼SW¼.

The area described aggregates 1,034.49 acres more or less, in Rio Arriba County of which 360 acres are national forest lands and approximately 342.80 acres are privately owned.

2. Subject to valid existing rights and the provisions of existing withdrawals, at 10 a.m. on March 12, 1975, the lands lying within Carson National Forest, shall be opened to such forms of disposition as may under applicable laws be made of national forest lands.

3. Subject to valid existing rights, the provisions of existing withdrawals and the requirements of applicable laws, at 10 a.m. on March 12, 1975, the public lands shall be open to the location of nonmetalliferous minerals and to the operation of the public land laws generally. All valid applications received at or prior to 10 a.m. on March 12, 1975, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing. The public land has been and continues to be open to applications and offers under the mineral leasing laws, and to location under the United States mining laws for metalliferous minerals.

Inquiries concerning the lands shall be addressed to Chief, Division of Technical Service, Bureau of Land Management, P.O. Box 1449, Santa Fe, New Mexico 87501.

JACK O. HORTON,
Assistant Secretary of the Interior.

FEBRUARY 4, 1975.

[Public Land Order 5475]

[Utah 26772]

UTAH

Powersite Restoration No. 704, Partial Revocation of Powersite Reserves Nos. 42 and 732

By virtue of the authority contained in the Act of March 3, 1879, 43 U.S.C. 31 (1970), and Reorganization Plan No. 3 of 1950, 5 U.S.C. App. 530 (1970), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), and the determination of the Federal Power Commission in DA-196, issued October 3, 1973, it is ordered as follows:

1. The Executive Order of July 2, 1910, creating Powersite Reserve No. 42, as construed by Powersite Interpretations of April 14, 1921, July 9, 1924, and March 23, 1959; and Executive Order of December 27, 1919, creating Powersite Reserve No. 732, as construed by Powersite Interpretations of August 9, 1932, and March 23, 1959, respectively, are hereby revoked so far as they affect the following described lands:

SALT LAKE MERIDIAN

POWERSITE RESERVE NO. 42

T. 5 S., R. 23 E.,
Sec. 1, lots 1, 5, 6, 7;
Sec. 12, lots 1, 6, 7, 15.
T. 4 S., R. 24 E.,
Sec. 1, lots 1, 2, 3, 5 through 11, SW¼NW¼, S½SE¼;
Sec. 2, lot 5, NE¼SE¼, SW¼SE¼;
Sec. 11, lots 1 through 5, E½NW¼, and every smallest legal subdivision in unsurveyed portions of the NE¼ and S½, any portion of which, when surveyed, shall lie within ¼ mile of Green River;
Every smallest legal subdivision in unsurveyed secs. 10, 12, 14, 15, 16, 21, 22, 27, and 28, any portion of which, when surveyed, shall lie within ¼ mile of Green River.
T. 5 S., R. 24 E.,
Sec. 5, lots 4 and 5;
Sec. 6, lots 1 through 9, lots 13, 14, SE¼NW¼, E½SW¼.
T. 3 S., R. 25 E.,
Sec. 26, lot 1;
Sec. 27, lots 1 through 4, SW¼SE¼;
Sec. 33, lots 1 through 7;
Sec. 34, lots 1 and 2, N½NW¼;
Every smallest legal subdivision on the east side of Green River in secs. 26, 33, 34, 35, any portion of which lies within ¼ mile of that river.
T. 4 S., R. 25 E.,
Every smallest legal subdivision in secs. 4 and 5, any portion of which lies within ¼ mile of Green River;
Sec. 6, lots 1 thru 11, SE¼NE¼, NE¼SW¼, NW¼SE¼.

POWERSITE RESERVE NO. 732

T. 4 S., R. 23 E.,
Sec. 24, SW¼;
Sec. 25;
Sec. 26, NW¼SW¼, S½SW¼;
Sec. 35, lot 7, SE¼NE¼.
T. 5 S., R. 23 E.,
Sec. 1, lots 2, 3, SW¼NE¼, SE¼NW¼, E½SW¼, W½SE¼;
Sec. 12, lots 2, 4, 5, 8, 9, 14, W½NE¼, NE¼NW¼.
T. 4 S., R. 24 E.,
Every smallest legal subdivision in unsurveyed secs. 17, 18, 20, any portion of which, when surveyed, shall lie within ¼ mile of Green River;
Sec. 19;
Sec. 29, W½SW¼, and every smallest legal subdivision in the NW¼, any portion of which, when surveyed, shall lie within ¼ mile of Green River;
Secs. 30 and 31.
T. 5 S., R. 24 E.,
Sec. 4, W½SW¼;
Sec. 5, lots 6, 9, 10, 11, 12, NW¼SW¼, SE¼SW¼;
Sec. 6, lots 10, 11, 12 15, 16;
Sec. 7, lots 1 thru 5, NW¼NE¼, SE¼NE¼;
Sec. 8, lots 1 thru 7, S½N½;
Sec. 9, W½NW¼.

The lands described aggregate approximately 10,328 acres in Uintah County.

2. All of the above described lands are within the exterior boundaries of the Dinosaur National Monument established by Presidential Proclamation No. 2290 of July 14, 1938, as revised by the Act of September 8, 1960, 74 Stat. 857, and are withdrawn from all forms of appropriation under the public land laws, including the mining laws, 30 U.S.C. Ch. 2, and from leasing under the mineral leasing laws.

3. At 10 a.m. on March 12, 1975, the lands described in paragraph 1 shall be relieved of the segregative effect of the Powersite Reserves Nos. 42 and 732 for the purpose of allowing said lands to be recommended for inclusion in the National Wilderness Preservation System, 16 U.S.C. 1131 (1970).

Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, Box 11505, Salt Lake City, Utah 84111.

JACK O. HORTON,
Assistant Secretary of the Interior.

FEBRUARY 4, 1975.

[FR Doc.75-3755 Filed 2-10-75;8:45 a.m.]

[Public Land Order 5478]

[Idaho 4383]

IDAHO

Powersite Restoration No. 711; Partial Revocation of Powersite Reserve No. 440

By virtue of the authority vested in the President by section 1 of the Act of June 25, 1910, 43 U.S.C. 141 (1970), and by virtue of the authority contained in section 24 of the Act of June 10, 1920, as amended, 16 U.S.C. 818 (1970), and pursuant to the determination of the Federal Power Commission in DA-609-Idaho, it is ordered as follows:

1. The Executive Order of June 6, 1914, creating Powersite Reserve No. 440, is hereby revoked so far as it affects the following described land:

BOISE MERIDIAN

T. 41 N., R. 4 E.,
Sec. 16, W½NE¼, SE¼NE¼, N½SE¼, SE¼SE¼;
Sec. 20, E½NE¼, NE¼SE¼.
T. 42 N., R. 4 E.,
Sec. 26, SE¼NW¼, N½SW¼, SE¼SW¼;
Sec. 35, N½NW¼, SW¼NW¼.

The areas described aggregate 640 acres in Clearwater and Shoshone Counties.

In DA-609-Idaho, the Federal Power Commission determined that it had no objection to the revocation of Powersite Reserve No. 440 so far as it affected the above described lands.

2. Except those lands in section 16, T. 41 N., R. 4 E., and in section 26, T. 42 N., R. 4 E., all of the above described lands are State owned and are not subject to opening under the public land laws. The lands in section 26 are in the St. Joe National Forest. Upon the promulgation of this order, title to the lands described in section 16 will vest in the State; the lands in section 26 which were open to mineral leasing under the mineral leasing laws and to location and entry under the Act of August 11, 1955, 30 U.S.C. 621 (1970), will continue to be open to leasing under the mineral leasing laws, 30 U.S.C. 181-287 (1970), and are now open to location and entry under the general mining laws, 30 U.S.C. Ch. 2.

3. At 10 a.m. on March 12, 1975, the following described lands shall be open to such forms of disposition as may by law be made of national forest lands:

ST. JOE NATIONAL FOREST

BOISE MERIDIAN

T. 42 N., R. 4 E.,
Sec. 26, SE¼NW¼, N½SW¼, SE¼SW¼.

The above described area contains 160 acres in Shoshone County.

JACK O. HORTON,
Assistant Secretary of the Interior.

[Montana 21216]

MONTANA

Revocation of Forest Service Administrative Site

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Executive Order No. 1623 of October 11, 1912, withdrawing vacant public lands as an administrative site is hereby revoked insofar as it affects the following described lands:

MONTANA PRINCIPAL MERIDIAN

T. 7 S., R. 7 E.,
Sec. 20, that portion of the SE¼SW¼ which lies east of the east right-of-way boundary of U.S. Highway No. 89.

The area described contains approximately 6.7 acres in Park County.

2. The above described lands are included in Powersite Classification No. 334 of February 18, 1943, which classification remains in full force and effect. Therefore, the lands will not be open to appropriation under the public land laws generally. The lands have been and will continue to be open to location and entry under the U.S. mining laws, and to the filing of applications and offers under the mineral leasing laws.

JACK O. HORTON,
Assistant Secretary of the Interior.

Revocation of Executive Order No. 6844

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. The Executive Order No. 6844 of September 11, 1934, which withdrew 30 acres of the national resource land described below for a fire lookout site and the remaining 290 acres thereof for classification and in aid of legislation is hereby revoked:

MOUNT DIABLO MERIDIAN

T. 24 N., A. 4 E.,
Sec. 12, W½.

The area described contains 320 acres in Butte County.

2. At 10 a.m. on March 12, 1975, the land shall be open to operation of the public land laws generally, including the United States mining laws, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on March 12, 1975, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing. The land has been and continues to be open to application and offers under the mineral leasing laws.

Inquiries concerning the land shall be addressed to the Bureau of Land Management, Room E-2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

JACK O. HORTON,
Assistant Secretary of the Interior.

Withdrawal of Land for Addition to the Alkali Lake Wildlife Management Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described public land, which is under the jurisdiction of the Secretary of the Interior, is hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, 30 U.S.C. Ch. 2, but not from leasing under the mineral leasing laws or from disposal of materials under the Act of July 31, 1947, as amended, 30 U.S.C. 601, 602 (1970), as an addition to the Alkali Lake Wildlife Management Area:

MOUNT DIABLO MERIDIAN

T. 12 N., R. 23 E.,
Sec. 3, SW¼SW¼.

The area described contains 40 acres in Lyon County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws, provided that such use or disposal will not be inconsistent with the purposes for which the land is withdrawn.

Partial Revocation of Withdrawal for Fort Whipple Military Reservation

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Executive Order of August 31, 1869, withdrawing lands for the Camp (Fort) Whipple, Arizona, Military Reservation, and Executive Order of October 19, 1875, modifying the boundaries of the Reservation, are hereby revoked so far as they affect the following described lands as depicted on the plat of survey accepted December 30, 1970:

GILA AND SALT RIVER MERIDIAN

T. 14 N., R. 2 W.,
Sec. 34, Tracts B, C, and D.

The areas described aggregate 64.50 acres in Yavapai County.

2. Of the described lands, Tracts B and D are included in lease A-540 issued pursuant to the Recreation and Public Purposes Act, 43 U.S.C. 869 (1970), and are not subject to other appropriation or disposition under the public land laws, including the mining laws.

3. At 10 a.m. on March 13, 1975, Tract C shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on March 13, 1975, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing. Tract C has been and will continue to be open to the filing of applications and offers under the mineral leasing laws, and to location and entry under the United States mining laws.

4. Any rights and privileges in the form of easements and rights-of-way previously granted or established by the relinquishing agency on the subject lands shall continue in full force and effect.

Inquiries concerning Tract C should be addressed to the Chief, Division of Technical Services, Bureau of Land Management, 3022 Federal Building, Phoenix, Arizona 85025.

JACK O. HORTON,
Assistant Secretary of the Interior.

CALIFORNIA

Withdrawal for National Forest Administrative Site

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws, 30 U.S.C. Ch. 2, but not from leasing under the mineral leasing laws, for an administrative site of the Department of Agriculture:

SAN BERNARDINO NATIONAL FOREST

SAN BERNARDINO MERIDIAN

Pinyon Flat Administrative Site

T. 3 N., R. 7 W.,
Sec. 15, SE¼SW¼SW¼NW¼, S½SE¼SW¼NW¼, SW¼SW¼SE¼NW¼, W½NW¼NE¼SW¼, W½SW¼NE¼SW¼, NW¼SW¼.

The area described aggregates 60 acres in San Bernardino County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of national forest lands under lease, license or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

JACK O. HORTON,
Assistant Secretary of the Interior.

[Public Land Order 5485]

[New Mexico 12479]

NEW MEXICO

Withdrawal for National Forest Recreation Area and Administrative Site

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws, 30 U.S.C., Ch. 2, but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture:

CARSON NATIONAL FOREST

NEW MEXICO PRINCIPAL MERIDIAN

Trampas Recreation Area

T. 21 N., R. 12 E.
Sec. 16, lot 5 and unsurveyed portion of S½SW¼SW¼;
Sec. 21, lot 1, NE¼ of lot 2, W½NW¼NE¼, unsurveyed portions of N½NE¼NW¼, NE¼NW¼NW¼.

Canon Administrative Site

T. 25 N., R. 13 E.,
Sec. 15, W½W½ of lot 5, and W½W½SW¼SW¼;
Sec. 16, lots 4, 5, 7, and 8.

The areas described aggregate 224.70 acres in Taos and Rio Arriba Counties.

JACK O. HORTON,
Assistant Secretary of the Interior.

FEBRUARY 5, 1975.

[FR Doc.75-3754; Filed 2-10-75;8:45 am]

[Public Land Order 5486]

[Wyoming 38635]

WYOMING

Partial Revocation of Stock Driveway Withdrawal

By virtue of the authority contained in section 10 of the Act of December 29, 1916, as amended, 43 U.S.C. 300 (1970), it is ordered as follows:

1. The departmental order of February 5, 1924, modifying Stock Driveway Withdrawal No. 3 (Wyoming No. 1), is hereby revoked so far as it affects the following described lands:

SIXTH PRINCIPAL MERIDIAN

T. 46 N., R. 87 W.,
Sec. 4, lot 1.

T. 47 N., R. 87 W.,
Sec. 29, SE¼NE¼NW¼NE¼, NW¼NE¼NW¼NE¼;
Sec. 33, SW¼NE¼SE¼, NW¼SE¼SE¼, NE¼SW¼SE¼SE¼, W½SE¼SE¼SE¼.

Containing 73.33 acres in Washakie County.

The lands lie approximately 7 miles southeast of Ten Sleep, Wyoming. The terrain is gently rolling and vegetation is a sagebrush-grassland association of low carrying capacity.

2. At 10 a.m. on March 13, 1975, the lands shall be open to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on March 13, 1975, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

The lands have been and continue to be open to applications and offers under the mineral leasing laws, and to location under the U.S. mining laws.

Inquiries concerning the land should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, Cheyenne, Wyoming.

JACK O. HORTON,
Assistant Secretary of the Interior.

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 142—LOANS TO PRIVATE NONPROFIT SCHOOLS FOR STRENGTHENING INSTRUCTION IN ACADEMIC SUBJECTS

Notice of proposed rulemaking was published in the FEDERAL REGISTER on July 23, 1974 at 39 FR 26749 setting forth regulations governing the administration of Title III-A, section 305 of the National Defense Education Act of 1958, as amended. This program provides loans to private nonprofit elementary and secondary schools through the acquisition of laboratory and other special equipment, and minor remodeling. Pursuant to section 503 of the Education Amendments of 1972, a public hearing was held September 17, 1974 in Washington, D.C., on the proposed regulations. In addition, written comments were invited.

No comments were received either orally or in writing.

After making one minor clerical change, Part 142 of Title 45 of the Code of Federal Regulations is amended to read as set forth below.

Effective date. Pursuant to section 431 (d) of the General Education Provisions Act, as amended (20 U.S.C. 1232(d)), these regulations have been transmitted to the Congress concurrently with the publication of this document in the FEDERAL REGISTER. That section provides that regulations subject thereto shall become effective on the forty-fifth day following the date of such transmission, which is March 28, 1975, subject to the provisions therein concerning Congressional action and adjournment.

(Catalog of Federal Domestic Assistance Program No. 13.479, School Equipment Loans to Nonprofit Private Schools)

Dated: January 17, 1975.

T. H. BELL,
U.S. Commissioner of Education.

Approved: February 4, 1975.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

AUTHORITY: Secs. 305 and 1001, Pub. L. 85-864, as amended, 72 Stat. 1590 (20 U.S.C. 445), unless otherwise noted.

Subpart A—Scope of Section 305

§ 142.1 Purpose of loan program.

The Federal Government makes loans available under the provisions of section 305 of the Act to eligible private nonprofit elementary and secondary schools for the acquisition of laboratory and other special equipment suitable for use in providing education in academic subjects as defined in § 142.2, and for minor remodeling of laboratory or other space used for that equipment.

(20 U.S.C. 445)

Subpart B—Definitions

§ 142.2 General provisions regulations.

Definitions listed in § 100.1 of this chapter apply to this part except as otherwise provided in this subpart.

(20 U.S.C. 445)

§ 142.3 Definitions.

As used in this part:

"Academic subjects" means the following elementary and secondary school subjects: the arts, civics, economics, english, geography, history, the humanities,

V40129 FEB 11 75 XUM

industrial arts, mathematics, modern foreign languages, reading, and science.

"Act" means section 305 of the National Defense Education Act of 1958, 20 U.S.C. 445.

"Arts" includes, but is not limited to, music (instrumental and vocal), dance, drama, folk art, creative writing, architecture and allied fields, painting, sculpture, photography, graphic and craft arts, industrial design, costume and fashion design, film, television, radio, tape and sound recording, and the arts related to the presentation, performance, execution and exhibition of such major art forms.

"Audiovisual library" means a facility for the collection, custody, cataloging, maintenance, and distribution of audiovisual materials for education in academic subjects in elementary or secondary schools, and controlled and operated by a school or a group of schools under a school system.

"Equipment" means laboratory and other special equipment as defined in this section, including materials as defined in § 100.1 of this chapter.

"Humanities" includes, but is not limited to the study of the following: language, both modern and classic; linguistics; literature; history; jurisprudence; philosphy; archeology; the history, criticism, theory, and practice of the arts; and those aspects of the social sciences which have humanistic content and employ humanistic methods.

"Laboratory and other special equipment" (a) The term includes: (1) Fixed or movable articles which are particularly appropriate for use in providing education in academic subjects in an elementary or secondary school and which are to be used either by teachers in connection with teaching or by students in learning in such subjects; (2) audiovisual equipment (including projectors, recorders, television cameras, television receivers, closed-circuit television distribution systems, and ancillary television projection and reception equipment to be used primarily for nonbroadcast purposes, except where broadcast takes the place of closed-circuit cable systems), to be used, either by teachers in connection with teaching or by students in connection with learning primarily in providing education in academic subjects in a private elementary or secondary school; (3) materials (as defined in S100.1 of this chapter) and devices (other than those used for printing, such as printing presses and offset printing machines) to be used for preparation of audiovisual and instructional materials for academic subjects; (4) storage equipment to be used solely for the care and protection of the items specified in paragraph (a)(1)–(3) of this definition, when used in laboratories or classrooms; (5) testgrading equipment to be used primarily in providing education in academic subjects in a private elementary or secondary school; and (6) (i) specialized equipment for audiovisual libraries serving private elementary or secondary schools when such equipment is to be used primarily in providing education in academic subjects. (ii) The term excludes such items as general-purpose furniture, school public address systems, or items for the maintenance and repair of equipment. However, the term does include equipment for maintenance, repair, and storage of materials in audiovisual libraries.

"Minor remodeling" (notwithstanding the definition set forth in § 100.1 of this chapter) means (a) those minor alterations, in a previously completed building in space used or to be used as a laboratory or classroom for education in academic subjects, which are needed to make effective use of equipment in providing education in such subjects. The term also includes those minor alterations in a previously completed building which are needed to make effective use of the items referred to in paragraph (a)(5)–(6) of the definition of "Laboratory and other special equipment" in this section. (b) The term may also include the extension of utility lines, such as for water and electricity, from points beyond the confines of the space in which the minor remodeling is undertaken but within the confines of such previously completed building, to the extent needed to make effective use of equipment. The term does not include building construction, structural alterations to buildings, building maintenance, repair, or renovation. (c) Minor remodeling may be done in a building owned by or under lease to the applying school. If the building is leased, the leasehold interest shall be sufficient in the light of the cost of the remodeling to be accomplished with loan funds.

"Private," as applied to a school, means a school which is established by an agency other than a State or a political subdivision or any combination of either or both, and which is supported in whole or in part by other than public funds and is administered and controlled by other than publicly elected or appointed officials.

"School" means a division of instructional organization consisting of a group of pupils comprised of one or more grade groups, organized on a class basis as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant as when elementary and secondary schools are so housed.

"State" means a State of the Union, Puerto Rico, the District of Columbia, the Canal Zone, Guam, American Samoa, the Virgin Islands and the Trust Territory of the Pacific Islands.

"Textbook" means a book or workbook, or manual, which is used as the principle source of study material for a given class, or group of students, a copy of which is expected to be available for the individual use of each pupil in that class or group of students.

(20 U.S.C. 403, 445)

Subpart C—Applications

§ 142.4 Filing application.

A private nonprofit elementary or secondary school, or its governing authority, desiring to borrow funds under this part shall file an application for that purpose with the Commissioner.

(20 U.S.C. 445(1))

§ 142.5 Content of application.

Each application under this part shall include:

(a) An appropriate identification of the applicant school;

(b) Satisfactory evidence of the applicant's eligibility as a private nonprofit elementary or secondary school;

(c) Statements of financial condition and information concerning credit of the applicant and of any proposed guarantor;

(d) A request for a loan in a definite amount;

(e) Proposed plan of repayment of principal with interest not to extend beyond 10 years from the date of the loan;

(f) An itemized list of the equipment, including materials, which is proposed to be acquired with the loan funds and the estimated cost thereof, the list to be organized by subject area and school level (i.e., elementary or secondary) at which the equipment is to be used;

(g) If funds are requested for minor remodeling, a full description of the work to be done (including drawings or blueprints), the estimated cost thereof, and the necessity for such minor remodeling in order to make effective use of equipment;

(h) A certification that the equipment, including materials, for providing education in academic subjects is to be used primarily for providing education in academic subjects, except that storage equipment will be used solely for the care and protection of equipment, and a certification that the minor remodeling, if any, is to be performed to make more effective use of equipment in providing education in academic subjects;

(i) A description showing the direct relationship of the proposed expenditures to the overall design for enriching the planned educational program and the achievement of desired curriculum goals in academic subjects; and

(j) Such additional information as the Commissioner may require.

(20 U.S.C. 445)

§ 142.6 Authorization for application.

The application shall be signed by an authorized representative of the school, and shall contain satisfactory evidence of:

(a) The authority of the applying entity to make the loan application;

(b) The authority of the person signing the application to act as the representative of the school and to negotiate for the loan;

(c) The legal identity of the corporation, association or other entity that will be the maker of the note; and

(d) The designation, by title, of the officer, or officers, empowered to execute the note on behalf of that entity.

(20 U.S.C. 445)

Subpart D—Loan Procedures

§ 142.24 Review of application.

The Commissioner will act upon a loan application only after a review of information contained in the application and any other pertinent information which he may possess.

(20 U.S.C. 445)

§ 142.25 Action on approved application.

(a) *Execution of note.* After the Commissioner approves an application for a loan, he will so notify the applicant and will require the execution of a promissory note, which will include a schedule of payments of the principal, with interest accruing on the unpaid principal of the loan to the dates of such payments. If the note is not executed by the last day of the fiscal year following the fiscal year in which the application was approved and promptly submitted to the Commissioner, the Commissioner may cancel the loan approval.

(b) *Payment to school.* Upon receipt of a duly executed note, the Commissioner will cause the loan funds to be paid by the U.S. Treasury to the applicant at the time loan funds will be needed.

(c) *Cancellation of loan approval.* If the applicant does not request the loan funds within a reasonable time after notification to the applicant of approval, the Commissioner may cancel approval of the loan.

(20 U.S.C. 445)

Subpart E—Loan Conditions

§ 142.35 Limitation on amount.

Each loan will be limited to the amount which may reasonably be expected to be expended without undue delay for the acquisition of equipment or for minor remodeling.

(20 U.S.C. 445)

§ 142.36 Assurance of repayment.

All loans will be made on the basis of such security or evidence of financial responsibility as will reasonably assure repayment.

(20 U.S.C. 445)

§ 142.37 Use of loan funds.

All loans will be subject to the condition that the funds borrowed will be used only for the acquisition of equipment, and for the performance of minor remodeling, substantially similar to the project described in the approved application.

(20 U.S.C. 445)

§ 142.38 Unused and unreported funds.

Loan funds that are not used by the last day of the fiscal year following the fiscal year in which the application was approved for the purposes set out in § 145.37, and loan funds used but not reported as required in § 142.44, shall immediately become due and payable, with interest accrued thereon unless the Commissioner extends the period upon the written request of the applicant. This paragraph shall not apply if the total amount not used for the acquisition of equipment, and for the performance of minor remodeling, and not reported does not exceed two percent of the amount lent or $200, whichever is smaller.

(20 U.S.C. 445)

§ 142.39 Misused funds.

Loan funds that are used for purposes other than those provided for in § 142.1 shall immediately become due and payable, with interest accrued thereon.

(20 U.S.C. 445)

§ 142.40 Disposal or unauthorized use of equipment.

If during the period of the loan the applicant disposes of equipment or fails to use it primarily for the purposes authorized under the loan conditions, the regulations, or the Act, the balance of the loan shall, at the option of the Commissioner, become immediately due and payable, with interest accrued thereon. Any such unauthorized use and any such disposal shall be reported to the Commissioner.

(20 U.S.C. 445(2))

§ 142.41 Time of acquisition.

Loan funds shall not be used for the acquisition of equipment, or minor remodeling, for which firm commitments have been made prior to the time when the application is approved by the Commissioner.

(20 U.S.C. 445)

§ 142.42 Interest.

(a) *Determination of interest rate.* Loans will bear interest at the rate arrived at by adding one-quarter of 1 per centum per annum to the rate which the Secretary of the Treasury determines to be equal to the current average market yield on outstanding marketable obligations of the United States with redemption periods to maturity comparable to the average maturities of those loans as computed at the end of the fiscal year next preceding the date the application for the loan is approved and by adjusting the result obtained to the nearest one-eighth of 1 per centum.

(b) *Effective interest rate.* The interest rate in effect at the time a loan is approved will remain in effect for the life of the loan.

(c) *Date of loan.* The date of the U.S. Treasury check paying the funds to the applicant will be the date of the loan and the date from which interest accrues.

(20 U.S.C. 445(3))

§ 142.43 Repayment.

(a) *Schedule of repayments.* Repayments of principal with accrued interest shall be made on those dates as may be agreed upon by the Commissioner and the applicant.

(b) *Date of maturity.* A loan may be made for any period of time except that the date of maturity shall be not more than ten years after the date on which the loan is made.

(c) *Prepayments.* Loans may be prepaid in full or in part at any time, with accrued interest to the date of payment, without penalty for prepayment.

(20 U.S.C. 445(4))

§ 142.44 Reports and records.

(a) *Reports.* Each applicant receiving a loan shall furnish a completion report upon completing the approved project, and shall furnish such progress or other reports as the Commissioner may from time to time require regarding the use of loan funds. The completion report shall be submitted by the last day of the fiscal year following the fiscal year in which the application was approved unless the Commissioner extends the period upon the written request of the applicant.

(b) *Records.* Each applicant receiving a loan shall keep the loan in a separate bank account or maintain a separate accounting of all such funds sufficient readily to identify all transactions with the loan funds. Each applicant shall also maintain intact all records supporting the use of loan funds for three years after the loan has been repaid in full. Such records shall be made available to fiscal representatives of the Government for audit purposes.

(20 U.S.C. 1232c(b) (2), (3))

Title 49—Transportation

CHAPTER I—DEPARTMENT OF TRANSPORTATION

SUBCHAPTER B—OFFICE OF PIPELINE SAFETY

[Docket No. OPS-26; Amdt. 192-17]

PART 192—TRANSPORTATION OF NATURAL AND OTHER GAS BY PIPELINE: MINIMUM FEDERAL SAFETY STANDARDS

Qualification of Pipe Transported by Railroad

This amendment to § 192.65(a) and Appendix A to Part 192 (1) incorporates by reference the 1972 edition of the American Petroleum Institute document API RP5L1, entitled "API Recommended Practice for Railroad Transportation of Line Pipe," and (2) requires that in the case of certain pipe transported by railroad, the transportation be in accordance with the 1972 edition of API RP5L1, except that before February 25, 1975, the transportation may be in accordance with the 1967 edition. The 1967 edition of API RP5L1 is currently incorporated by reference in Part 192. Incorporation by reference of the 1967 edition is continued so as not to preclude the use of pipe transported in accordance with that edition before the effective date of this amendment.

Section 192.65 regulates the use of pipe in a pipeline to be operated at a hoop stress of 20 percent or more of specified minimum yield strength where the pipe has an outer diameter to wall thickness ratio of 70 to 1, or more, and the pipe is transported by railroad. This section, in conjunction with § 192.7 and Appendix A to Part 192, requires as a qualification for use of pipe transported after November 11, 1970, that it be transported in accordance with the 1967 edition of API RP5L1. The 1967 edition of API RP5L1 prohibits pipe overhang of more than 5 feet, or one-half the distance between intermediate bearing strips, whichever is larger. As a result, double-jointed pipe (80-foot lengths) transported after November 11, 1970, on 52-foot railroad flatcars may not be used

XUM V40129 FEB 11 75 XUM

under the existing § 192.65 since the overhang on each end is about 14 feet. In contrast, the 1972 edition of API RP5L1 was developed especially to provide for the loading and transportation of double-jointed pipe on 52-foot railroad flatcars.

Incorporation by reference of the 1972 edition of API RP5L1 and adoption of related changes in § 192.65(a) were proposed in a notice of proposed rulemaking published on February 19, 1974 (39 FR 6126). Interested persons were afforded an opportunity to participate in the rulemaking by submitting written information, views, or arguments. The comments received have been fully considered in developing the final rule.

All comments received were favorable to the proposed rule change. However, one commenter did suggest an additional rule change which was not proposed in the notice. The suggested change would qualify for use under § 192.65 all pipe which is tested in accordance with § 192.-65(b), regardless of when the transportation is performed. Section 192.65(b) permits the use of pipe transported before November 12, 1970, if, as an alternative to meeting the transportation requirements of § 192.65(a), the pipe meets certain test requirements. The commenter argued that, in view of the soundness of the testing procedure, there is no reason to limit the applicability of § 192.65(b) to pipe transported before November 12, 1970. Although the Office of Pipeline Safety (OPS) considers the suggestion to go beyond the scope of the notice, OPS believes it merits discussion.

Section 192.65(b) was added to Part 192 by Amendment 192–12 (38 FR 4760, February 22, 1973) to preclude a substantial waste of stockpiled pipe. Before that amendment, many operators were unable to use pipe shipped prior to the effective date of Part 192 (November 12, 1970) because they could not verify that the pipe was transported in accordance with the 1967 edition of API RP5L1. To remedy the situation, § 192.65(b) was adopted as a "grandfather" clause to qualify for use about $13 million worth of stockpiled pipe that had been transported by railroad before November 12, 1970.

The difficulty expressed by operators who were unable to verify shipment in accordance with API RP5L1 as to pipe already on hand or ordered before Part 192 became effective should not exist with regard to pipe transported after November 11, 1970. Operators were given sufficient notice and lead time to prepare for compliance with § 192.65 after that date. Therefore, OPS does not consider it appropriate to extend the applicability of § 192.65(b) to all pipe as the commenter suggested.

Report of the Technical Pipeline Safety Standards Committee. Section 4(b) of the Natural Gas Pipeline Safety Act of 1968 requires that all proposed standards and amendments to such standards be submitted to the Committee and that the Committee be afforded a reasonable opportunity to prepare a report on the "technical feasibility, reasonableness, and practicability of each such proposal." This amendment to Part 192 was submitted to the Committee as Item 2 in a list of five proposed amendments. The Committee has made a favorable report which is set forth below. The Committee member who disagreed with the majority of the Committee on Item 2 did not submit a statement of his views.

JANUARY 17, 1975.

Memorandum to: The Secretary of Transportation. Attention: Joseph C. Caldwell, director, Office of Pipeline Safety.

From: Secretary, Technical Pipeline Safety Standards Committee.

Subject: Proposed changes to 49 CFR Part 192, minimum Federal safety standards for transportation of natural and other gases by pipeline.

The following letter and attachments represent an official report by the Technical Pipeline Safety Standards Committee concerning the Committee's action related to five proposed amendments to 49 CFR Part 192, Minimum Federal Safety Standards for Transportation of Natural and Other Gases by Pipeline.

The Committee reviewed the proposals of the Office of Pipeline Safety at a meeting, held in Washington, D.C., on October 30, and 31, 1974, and through an informal ballot-ing procedure recommended certain modifications, some of which were acceptable to the Office of Pipeline Safety. A formal ballot, reflecting the suggested changes, was prepared and distributed to the Committee members, by the undersigned on December 5, 1974.

Formal ballots have been submitted by all fourteen members of the Committee. The majority of the Committee approved all five items on the ballot as being technically feasible, reasonable, and practicable. Negative votes were cast by one member against Items 1, 2, and 3, by two members against Item 4 and by four members against Item 5. Another member, who had been unable to attend the meeting and participate in the discussions, abstained from voting.

Attachment A sets forth the minority opinions submitted in support of the negative votes on Items 4 and 5.

LOUIS W. MENDONSA.

In view of the improved safety criteria provided by this amendment and the period reasonably necessary for compliance, I have determined that good cause exists for making this amendment effective in less than 30 days after issuance.

In consideration of the foregoing, Part 192 of Title 49 of the Code of Federal Regulations is amended as follows, effective February 25, 1975:

1. Section 192.65(a) is amended to read as follows:

§ 192.65 Transportation of pipe.

In a pipeline to be operated at a hoop stress of 20 percent or more of SMYS, an operator may not use pipe having an outer diameter to wall thickness ratio of 70 to 1, or more, that is transported by railroad unless—

(a) The transportaion is performed in accordance with the 1972 edition of API RP5L1, except that before February 25, 1975, the transportation may be performed in accordance with the 1967 edition of API RP5L1.

2. In Section II.A of Appendix A to Part 192, item 4 is amended to read as follows:

APPENDIX A—INCORPORATED BY REFERENCE

* * * * *

II. Documents incorporated by reference.

A. American Petroleum Institute:

* * * * *

4. API Recommended Practice 5L1 entered "API Recommended Practice for Railroad Transportation of Line Pipe" (1967 and 1972 editions).

This amendment is issued under the authority of section 3 of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. 1672), § 1.58(d) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.58(d)), and the redelegation of authority to the Director, Office of Pipeline Safety, set forth in Appendix A to Part 1 of the regulations of the Office of the Secretary of Transportation (49 CFR Part 1).

Issued in Washington, D.C., on February 6, 1975.

JOSEPH C. CALDWELL,
Director,
Office of Pipeline Safety.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 13243; Reference Amdt. 36-4]

PART 36—NOISE STANDARDS: AIRCRAFT TYPE AND AIRWORTHINESS CERTIFICATION

Appendix F—Noise Requirements for Propeller Driven Small Airplanes Notice Test Data Conditions; Correction

The purpose of this document is to correct the language describing the conditions under which noise emission test data may be corrected under § F36.201(a) by deleting the reference to testing at releative humidities higher than 90 percent as stated in the preamble to Amendment 36–4, which was issued on December 31, 1974, and published in the FEDERAL REGISTER on January 6, 1975 (40 FR 1029). An editorial correction is also made to a speed symbol used in the acoustical change provisions of § 36.7(a)(2)(ii).

Notice 73–26, published in the FEDERAL REGISTER on October 10, 1973 (38 FR 23016), proposed the text of current § F36.201(a) providing for correction of test data under certain conditions, including when the relative humidity is above 90 percent. In the preamble to Amendment 36–4, the FAA responded to a comment that pointed out an apparent conflict between proposed § F36.101(b) (which prohibits all testing at relative humidities in excess of 90 percent) and § F36.201(a) (which, as proposed, implied that tests may be conducted with relative humidities above 90 percent, if data corrections are made). The preamble noted that the FAA did not intend to modify the strict testing prohibition when the relative humidity exceeded 90 percent by means of the data correction procedures and stated the intent to delete the words "above 90 percent or" from § F36.201(a) in the final rule. However, contrary to that stated intention in adopting § F36.201, the text of the published final rule inadvertently retained those words. This action corrects that error by making the deletion referred to in the preamble.

In addition, Amendment 36–3, issued on December 12, 1974, and published in the FEDERAL REGISTER on December 19, 1974 (39 FR 43830), added new acoustical change provisions to § 36.1. These included use of the speed symbol "V_2" in § 36.1(c)(2)(ii). Amendment 36–4 moved the new provisions to § 36.7. In so doing, the subscript was inadvertently omitted. To correct this, the term "V+10 knots" in § 36.7(a)(2)(ii) must be changed to read "V_2+10 knots."

Since this action is corrective in nature, and notice and public procedure were given on this subject in Notice 73–26, good cause is found that further notice and public procedure are unnecessary. Since the rule being corrected by this action would become effective February 7, 1975, as part of Amendment 36–4, and since this correction merely executes the stated intent of provisions adopted by Amendment 36–4, and makes an editorial change, the public interest is served by making this correction effective immediately. Therefore, good cause is found for making this correction effective in less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 313(a), 601, 603, 611, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423, and 1431); Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)); Title I of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); E. O. 11514)

In consideration of the foregoing, the text of § F36.201(a) of Appendix F of Part 36 is corrected, effective immediately by deleting the words "above 90 percent or" between the words "humidity is" and the words "below 40 percent," and the term "V+10 knots" in § 36.7(a)(2)(ii) is corrected to read "V_2+10 knots."

Issued in Washington, D.C., on February 3, 1975.

JAMES E. DOW,
Deputy Administrator.

[FR Doc.75-3721 Filed 2-10-75;8:45 am]

(Docket No. 74-NW-18-AD; Amdt. 39-2089)

PART 39—AIRWORTHINESS DIRECTIVES

Boeing Model 737 Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring the replacement of the "B" hydraulic system electrical pump wiring on Boeing Model 737 Series Airplanes was published in FR Doc. 74–21854.

Interested persons have been afforded an opportunity to participate in the making of the amendment. The Air Transport Association of America suggested "the AD be clarified to assure that the replacement of the circuit breakers as specified in Service Bulletin 29–1004 is not made mandatory." The FAA does not intend this AD to require replacement of the installed 35-ampere circuit breaker.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), Part 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BOEING: Applies to Boeing model 737 airplanes, listed under Group I in Boeing Service Bulletin 29–1004, Revision 1, dated April 2, 1969, or later FAA approved revisions. Compliance required within the next 1,000 hours time in service after the effective date of this AD, unless already accomplished.

To prevent failure of the "B" hydraulic system electrical wiring and other systems wiring which use a common wire bundle, replace the "B" hydraulic system electrical pump spliced wires in accordance with Boeing Service Bulletin 29–1004, Revision 1, dated April 2, 1969, or later FAA approved revisions, or in an equivalent manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. The documents may be examined at FAA Northwest Region, 9010 East Marginal Way, Seattle, Washington 98108.

This amendment become effective March 10, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1955(c)))

Issued in Seattle, Washington on February 3, 1975.

C. B. WALK, JR.,
Director, Northwest Region.

NOTE.—The incorporation by reference provisions in the Document were approved by the Director of the Federal Register on June 19, 1967.

[FR Doc.75-3722 Filed 2-10-75; 8:45 am]

[Airspace Docket No. 74-SW-51]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate the Batesville, Ark., transition area.

On December 20, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 44036) stating the Federal Aviation Administration proposed to designate a transition area at Batesville, Ark.

Interested persons were afforded an opportunity to participate in the rulemaking through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., April 24, 1975, as hereinafter set forth.

In § 71.181 (40 F.R. 441), the following transition area is added:

BATESVILLE, ARK.

That airspace extending upward from 700 feet above the surface within a 15-statute-mile radius of Batesville Regional Airport, Batesville, Ark. (latitude 35°43'00" N., longitude 91°38'00" W.); and within 3.5 miles each side of 256° bearing from the Batesville NDB (latitude 35°42'13" N., longitude 91°45'03" W.), extending from the 15-mile radius area to 11.5 statute miles west of the NDB; excluding that portion which overlies the Heber Springs, Ark., transition area.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on January 30, 1975.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.75-3723 Filed 2-10-75;8:45 am]

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER–897; Amdt. 8]

PART 250—PRIORITY RULES, DENIED-BOARDING COMPENSATION TARIFFS AND REPORTS OF UNACCOMMODATED PASSENGERS

Denied-Boarding Compensation; Interpretative Amendment and Partial Stay

Correction

In FR Doc. 75–2833 appearing at page 4409 in the issue of Thursday, January 30, 1975, on page 4409 the date in the last line of the third paragraph in column two should read "March 1, 1975".

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER I—PUBLIC TRANSPORTATION

PART 820—RURAL HIGHWAY PUBLIC TRANSPORTATION DEMONSTRATION PROGRAM

Revocation

On November 6, 1974, Chapter I of title 23, Code of Federal Regulations, was amended by adding a new Part 820. Part 820 provided administrative guidelines to implement the Rural Highway Public Transportation Demonstration Program required by section 147 of the Federal-Aid Highway Act of 1973, Pub. L. 93–87. On January 4, 1975, in section 103 of the Federal-Aid Highway Amendments of 1974, Pub. L. 93–643, the Congress amended section 147 to change the area to be served from rural areas to rural areas and small urban areas when service within small urban areas will enhance the mobility of rural populations, to increase authorizations, to limit payments for operating expenses to payments from the general fund of the United States, to provide preference for certain existing private bus operations, and to require

XUM V40129 FEB 11 75 XUM

public notice and public hearing prior to the obligation of any funds.

As a result of the Federal-Aid Highway Amendments of 1974, new administrative guidelines will be required to implement section 147.

These new guidelines are now being prepared and will be published as soon as practicable. The deadline date for submitting proposals under the new guidelines will be 60 days after their publication. Applicants should assure themselves that proposals submitted under the old guidelines comply with new section 147 and the new guidelines. Applicants who have not yet sent in proposals should wait for the issuance of new guidelines.

Pending issuance of new guidelines, Part 820 of Subchapter I of Chapter I of title 23, Code of Federal Regulations, is revoked.

Since the regulations in Part 820 relate to a grant program, notice and public procedure on the revocation is unnecessary and it may be made effective in ferew than 30 days after publication in the FEDERAL REGISTER.

(Pub. L. 93-87, 147; Pub. L. 93-643, 103; 49 CFR 1.48(c)(1) and 1.50(g))

Effective Date: February 11, 1975.

NORBERT T. TIEMANN,
Federal Highway Administrator.

FRANK C. HERRINGER,
Urban Mass Transportation Administrator.

[FR Doc.75-3972 Filed 2-10-75;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

[27 CFR Part 4]

[Notice No. 271]

WINE

Labeling and Advertising; Hearing

Notice is hereby given, pursuant to the provisions of section 5 of the Federal Alcohol Administration Act (49 Stat. 981 as amended; 27 U.S.C. 205), of a public hearing to begin at 10 a.m. eastern standard time on Tuesday, April 29, 1975, in the George S. Boutwell Auditorium, seventh floor, Internal Revenue Service Building, 1111 Constitution Avenue NW., Washington, D.C., at which time and place all interested parties will be afforded opportunity to be heard, in person or by authorized representative, concerning the proposed regulatory changes in 27 CFR Part 4, described below.

Since the enactment of the Federal Alcohol Administration Act in 1935, the Bureau of Alcohol, Tobacco and Firearms and its predecessor agencies in administering the Act have done so with the belief that it provided ample protection to the wine consumer with reference to the identity and quality of the product, and the integrity of the label. This protection has been provided by frequent on-site inspections of all domestic wine producers; by requiring both domestic producers and importers to obtain Bureau approval before using labels on bottles or packages of wine; by requiring approval of formulas for wine specialties, sparkling wine, and other special wines; by providing standards of identity for wine wherein permissible processes and ingredients for each class and type of wine are spelled out in detail; and by investigating suspected violations of the Act and taking punitive action where warranted, including suspension or revocation of the permits issued under the Act.

Recently it has become apparent that today's consumers want to know, and, we feel, have a right to know, what ingredients have been used in the production of the alcoholic beverages they buy. Therefore, in consideration of its function as a consumer protection agency, the Bureau proposes to amend its regulations to require label disclosure of the ingredients of all wine products, whether domestically produced or imported.

The intent of the Bureau is to provide, with the very few exceptions noted in the following paragraphs, that each ingredient used in producing a wine for domestic consumption, regardless of whether the wine is covered by a standard of identity under this part, be shown on the label unless it is removed in its original form before packaging in the final consumer package. The listing would be in descending order of predominance by weight in the original formulation of the product, with the exception noted in the following paragraph.

The exception is for minor ingredients, which are defined in the proposed regulations as individual ingredients, each of which make up less than 0.25 percent of the weight of the original formulation of the product. These minor ingredients could be listed as "with less than 0.25 percent each carboxy methyl cellulose, sorbic acid, * * * added". This would avoid forcing the producer to obtain new labels whenever one ingredient which is used in very small amounts becomes more or less predominant than another. The Bureau is aware that any expense borne by the producer, including the considerable cost involved in obtaining numerous sets of different labels, would inevitably be passed on to the consumer. We do not think the consumer would benefit sufficiently to offset the cost disadvantage from a requirement for listing of minor ingredients in order of predominance. Listing of minor ingredients in order of predominance would, of course, be permitted at the option of the producer.

Substances which come into being during a process such as fermentation or storage in wood (such as quercus lactone in the case of storage in oak containers) are not considered ingredients. These substances are often extremely complex, and sometimes not identifiable. For that reason, the Bureau has found that it is impossible to identify all those substances which are formed within the product, and does not propose to require them to be listed on the label.

The proposed amendments would require that all ingredients used in the production of any wine product be listed on the label, with the exception of carbon dioxide in still wines and "incidental additives". Carbon dioxide is used in still (nonsparkling) wines as a means of obtaining back pressure during bottling, so that air does not contact the wine. The small amount which may remain is incidental, and we can see no good reason to require it to be listed. The proposed exclusion of incidental additives (which are defined, in general terms, in the next paragraph) is based on Food and Drug Administration practice with other food products. Any attempt to list every substance which comes into contact with the product, whether or not it reacts within it or remains in it, would result in a long and essentially meaningless list which would not help the consumer and would be chaotic for the wine producer. That being the case, the exclusion from the ingredient list of substances whose effect on the product is nominal or nonexistent seems to us to be absolutely essential.

An incidental additive would be defined, in general terms, as (1) a processing aid used in an intermediate product, if it has no technical or functional effect on the finished wine (an example of such an incidental additive is citric acid used to preserve a flavor, which, when the flavor is added to the wine, is not present in sufficient quantity to preserve it); or (2) a processing aid that is added to wine for its mechanical effect only, such as an inert filter aid or a clarifying agent, and is then removed or reduced to a level too small to be measurable by standard laboratory tests; or (3) a processing aid which reacts within the product only to remove other substances (as by forming an insoluble complex) and which is then removed or reduced to a level too small to be measurable by standard laboratory tests; or (4) a yeast food or other fermentation adjunct which does not remain in the finished product. Any ingredient which causes, catalyzes, or otherwise participates in a chemical or biological reaction within the product, except as noted in (3) and (4), would be excluded from the proposed definition of an incidental additive and would be listed in the ingredient list. Standard laboratory tests are defined as those tests prescribed by the latest edition of the "Official Methods of Analysis of the Association of Official Analytical Chemists", or other methods which have been approved by the Director.

The proposed amendments would provide for natural ingredients to be listed by common name, such as "grapes", "apples", "oranges" or "orange juice", "dextrose", "yeast", "enzymes"; chemical mixtures which have no common names would be broken down into their component compounds. An example of the latter would be a defoaming agent composed of sorbic acid and carboxy methyl cellulose; we would require listing of both component compounds. Nomenclature for these chemical compounds would be that used by the Food and Drug Administration in 21 CFR Part 121. Our intention is that any substance which is listed in that part will be identified in the ingredient list by the name used therein.

Functional statements, except for a mandatory statement in the case of preservatives (as required by the Federal Food, Drug, and Cosmetics Act of 1938) would not be permitted in the ingredient list, because they are felt to provide little or no benefit in comparison with the label

XUM
V40-29 FEB 11 75 XUM

space they occupy, and because such statements tend to become meaningless euphemisms unless closely controlled. Preservatives would be identified by the term "to preserve" or "as a preservative". In addition, the use of any word or phrase denoting quality (e.g., "finest" grapes or "best" yeast) would be prohibited in connection with any ingredient shown on the list. Further, the use of negative statements such as "contains no additives" or "contains no preservatives" would be prohibited. The two latter provisions are intended to keep the ingredient list as clear and concise as possible by avoiding puffery and other unnecessary verbiage. These prohibitions would apply only to the ingredient list and would not preclude statements otherwise authorized by this part.

In the case of sodium an exception would be made to our general approach (listing only those substances added to the product). It is quite possible for a wine to which the producer has added no sodium to contain far more than one to which sodium salts have been added. Under those conditions, the consumer on a low sodium diet might well choose a product which shows no sodium salts added in the ingredient list and thereby consume more sodium than if he had chosen a product which listed several. Because the sodium content of a wine can be an important consideration for a consumer who must restrict his sodium intake, we propose to require the listing, immediately following the ingredient list, of the sodium content of the wine in substantially the following form: "This product contains less than ____ mg. of sodium per 177 ml. (6 ounce) serving" (in the case of containers holding less than 177 ml., the size of the serving would be the size of the container), except that the listing of sodium will not be required for wines which contain less than 1 mg. of sodium per ounce. We feel that a sodium content of less than 1 mg. per ounce is so insignificant that its disclosure will not benefit the consumer. Our intent is to provide the consumer with valuable information as to the sodium content of the product without requiring the producer to obtain new labels each time there is a minor change in the sodium content. We realize that it is quite possible under the proposed regulation for a wine to actually contain considerably less sodium than the maximum listed, but we feel that this provision is an equitable compromise between the needs of the consumer and the compliance problems of industry.

Other rules would provide, through practical necessity and in accordance with Food and Drug Administration practice, for listing colors and flavors by class names, such as "artificial color". Specifically, artificial or synthetic colors, or colors which are not natural to the product (caramel in wine, for example) would be identified by the name of the color, the term "artificially colored" or, where applicable, by the term "certified color added". In the case of synthetic colors, the wine producer would be required to keep certificates supplied by the manufacturer, certifying that the synthetic colors came from lots certified by the Food and Drug Administration, available for inspection. The Bureau has available information as to the specific synthetic color(s) used in all wine products, and plans to provide this information to any interested party upon written request. Natural colors would be identified as "natural colors", or by a true statement of the source of the color (anthocyanin pigments derived from grapes, for example).

Flavoring materials may be identified by the use of the term "artificially flavored" or "naturally flavored", or, in the case of the latter, a truthful and adequate statement of the source of the natural flavor. A new definition would be added to define "natural flavors" as, in general, essential oils, essences, distillates and like substances, or products of roasting, maceration, heating, or enzymolysis of natural animal and vegetable products, whose significant function is flavoring. Substances generally considered as foods (such as salt and sugars) or spices are not considered flavors. Artificial flavors, for purposes of the list of ingredients, would be defined as those which are not natural.

Another proposed amendment would allow the listing of distilled spirits used in wine or wine specialities by class and type, as defined in the Distilled Spirits Labeling and Advertising Regulations (27 CFR Part 5), as, for example, "brandy". If the distilled spirits do not meet the standards for any type defined in Part 5, the term, "spirits", preceded by the name of the commodity from which distilled, may be used. An example would be "grape spirits". Distilled spirits are used in wine products in relatively small quantities, and the Bureau is of the opinion that this general terminology is more meaningful to consumers than a complete breakdown of all the ingredients used in producing the distilled spirits. Further, the consumer is protected by the standards of identity for distilled spirits contained in 27 CFR Part 5.

Present regulations provide that imported wines may not be released from customs custody without a certificate of label approval issued by the Bureau. The application for a certificate includes a copy of the label used, and each such application is closely examined for compliance with the labeling provisions of the Federal Alcohol Administration Act before approval. The proposed regulations provide that, in addition to listing ingredients on labels of imported wine, each application for a certificate of label approval covering bulk or bottled imported wine must be accompanied by a list of such ingredients certified by an official of each foreign country in which the wine has been blended or treated. In connection with these requirements, an accelerated sampling program is planned to insure the label integrity of imported as well as domestic wine.

In the case of both domestic and imported products, labels on wine bottled or packed before the mandatory compliance date prescribed by the regulations would not have to bear the ingredient list when removed from customs custody or domestic storage for consumption. Many wines are bottle aged; and to require that such wines in storage before the mandatory compliance date be relabeled to list ingredients would impose an unreasonable economic burden on producers. Imported wines bottled or packed prior to the mandatory compliance date could only take advantage of this exemption if accompanied by a statement signed by a duly authorized official of the appropriate foreign country attesting that the wine was in fact bottled or packed prior to that date. No such documentation would be required of domestic producers, since information as to bottling dates is available in such proprietors' records and will be verified by ATF inspectors during the course of onsite inspections. The records of foreign producers are, of course, not subject to audit by ATF inspectors.

During the period between the proposed effective date and the proposed mandatory compliance date, wine producers would be expected to obtain Bureau approval for ingredient lists. A new form would be provided for that purpose, for use as a supplement to Form 1649, in lieu of refiling of that form if no other mandatory label information is deleted, modified, or relocated. This supplemental form (to be designated Form 1649 Supplemental) would provide for a typed list of ingredients which could be used to cover any number of labels to which that specific list is applicable, identified in accordance with the instructions on the form.

Proposed amendments to 26 CFR Part 231, Taxpaid Wine Bottling Houses and Part 240, Wine, which are affected by these regulations, will be amended by a Notice of Proposed Rulemaking to be issued in the near future. Basically, these amendments would provide (1) recordkeeping requirements conforming to this part; (2) for a historical list of ingredients where complete ingredient information cannot be obtained from commercial records in existence prior to the effective date of this part; and (3) for ingredient lists containing all necessary information to be supplied by the transferor to the transferee when wine is transferred, whether in bond or taxpaid.

The proposed regulations also include minor editorial, conforming, and clarifying changes.

In consideration of the foregoing, it is proposed that the regulations in 27 CFR Part 4, Labeling and Advertising of Wine, be amended as follows:

PARAGRAPH 1. Section 4.10 is completely revised, to read as follows:

§ 4.10 Meaning of terms.

As used in this part, unless the context otherwise requires, terms shall have the meaning ascribed in this part.

Act. Means the Federal Alcohol Administration Act.

Added brandy or alcohol. As used in the phrase "added brandy or alcohol" the term "brandy" means brandy or wine spirits for use in the fortification of wine as permitted by internal revenue law. The term "alcohol" means ethyl alcohol distilled at or above 190° proof.

Brand label. Means the label carrying, in the usual distinctive design, the brand name of the wine.

Container. Means any bottle, barrel, cask or other closed receptacle irrespective of size or of the material from which made, for use for the sale of wine at retail. The term "bottler" means any person who places wine in containers of a capacity of 1 gallon or less; and the term "packer" means any person who places wine in containers of a capacity in excess of 1 gallon.

Director. Means the Director, Bureau of Alcohol, Tobacco and Firearms, the Department of the Treasury, Washington, D.C.

Gallon. Means a United States gallon of 231 cubic inches of alcoholic beverage at 60° F.

Incidental additive. An "incidental additive" is, (1) a processing aid used in an intermediate product if it has no technical or functional effect on the finished wine (an example of such an incidental additive is critic acid used to preserve a flavor, which, when the flavor is added to the finished wine, is not present in sufficient quantity to preserve it); or (2) a processing aid that is added to a wine for its mechanical effect only, such as an inert filter aid or a clarifying agent, and is then removed or reduced to a level too small to be measurable by standard laboratory tests as defined in this section; or (3) a processing aid which reacts chemically or biologically within the product only to remove other substances (as by forming an insoluble complex) and both the original substance and all of its reaction products must then be removed, or reduced to a level to small to be measurable by standard laboratory tests, and have no further technical or functional effect on the finished product; or (4) a yeast food or other fermentation adjunct which does not remain in the finished product, or is reduced to a level too small to be measurable by standard laboratory tests. Any substance which causes, catalyzes, or otherwise participates in a chemical or biological reaction within the product, except as noted in paragraphs (n)(3) and (n)(4), is specifically excluded from this definition of an incidental additive.

Interstate commerce. Means commerce between any State and any place outside thereof, or commerce within the Commonwealth of Puerto Rico or the District of Columbia, or between points within the same State but through any place outside thereof.

Liter or litre. Means a metric unit of capacity equal to 1000 cubic centimeters at 4° C., and equivalent to 33.814 U.S. fluid ounces. For purposes of this part, a liter is subdivided into 1000 equal milliliters (ml).

Natural flavor or natural flavoring. The term "natural flavor" or "natural flavoring" means the essential oils, oleoresin, essence or extractive, hydrolysate, distillate, or any product of roasting, maceration, heating or enzymolysis, which contains the flavoring constituents derived from a spice, fruit or fruit juice, vegetable or vegetable juice, edible yeast, herb, bark, bud, root, leaf or similar plant material, meat, seafood, poultry, eggs, dairy products, or fermentation products thereof, whose significant function is flavoring. Substances generally considered foods (such as salt and sugars) or spices are not considered flavors.

Permittee. Means any person holding a basic permit under the Federal Alcohol Administration Act.

Person. Means any individual, partnership, joint-stock company, business trust, association, corporation, or other form of business enterprise, including a receiver, trustee, or liquidating agent, and including an officer or employee of any agency of a State or political subdivision thereof; and the term "trade buyer" means any person who is a wholesaler or retailer.

Pure condensed must. Means the dehydrated juice or must of sound, ripe grapes, or other fruit or agricultural products, concentrated to not more than 80° (Balling), the composition thereof remaining unaltered except for removal of water; the term "restored pure condensed must" means pure condensed must to which has been added an amount of water not exceeding the amount removed in the dehydration process; and the term "sugar" means pure cane, beet, or dextrose sugar in dry form containing, respectively, not less than 95 percent of actual sugar calculated on a dry basis.

Regional director. Means a "regional director" who is responsible to and functions under the direction and supervision of the Director, Bureau of Alcohol, Tobacco and Firearms.

Standard laboratory tests. Means, for purposes of this part, those prescribed by the latest edition of the "Official Methods of Analysis of the Association of Official Analytical Chemists," or other methods which have been approved by the Director.

United States. Means the several States, the Commonwealth of Puerto Rico and the District of Columbia; and the term "State" includes Puerto Rico and the District of Columbia.

Use of other terms. Any other term defined in the Federal Alcohol Administration Act and used in this part shall have the same meaning assigned to it by such act.

Vintage wine. Means a wine made in accordance with the standards prescribed in Classes 1. 2, and 3 of § 4.21, deriving not less than 95 percent of its volume from grapes gathered in the same calendar year, grown in the same viticultural area, and fermented in the State in which this viticultural area is located.

Wine. Means: (1) wine as defined in section 610 and section 617 of the Revenue Act of 1918 (26 U.S.C. 3036, 3044, 3045) and (2) other alcoholic beverages not so defined, but made in the manner of wine, including sparkling and carbonated wine, wine made from condensed grape must, wine made from agricultural products other than the juice of sound, ripe grapes, imitation wine, compounds sold as wine, vermouth, cider, perry, and sake; in each instance only if containing not less than 7 percent, and not more than 24 percent of alcohol by volume, and if for nonindustrial use.

PAR. 2. Section 4.21 is amended by deleting paragraph (h)(1)(i) and renumbering (h)(1)(ii), (iii) and (iv) as (i), (ii) and (iii)). As amended, § 4.21(h)(1)(i), (ii) and (iii) read as follows:

§ 4.21 The standards of identity.

. . . . . .

(h) *Class 8; imitation and substandard wine.* (1) • • •

(i) Any wine made from a mixture of water with residue remaining after thorough pressing of grapes, fruit, or other agricultural products.

(ii) Any class or type of wine the taste, aroma, color, or other characteristics of which have been acquired in whole or in part, by treatment with methods or materials of any kind (except as permitted in § 4.22(c)(6)), if the taste, aroma, color, or other characteristics of normal wines of such class or type are acquired without such treatment.

(iii) Any wine made from must concentrated at any time to more than 80° (Balling).

PAR. 3. Section 4.30 is amended editorially, to read as follows:

§ 4.30 General.

(a) *Application.* No person engaged in business as a producer, rectifier, blender, importer, or wholesaler, directly or indirectly or through an affiliate, shall sell or ship or deliver for sale or shipment, or otherwise introduce in interstate or foreign commerce, or receive therein, or remove from customs custody, any wine in containers unless such wine is packaged, and such packages are marked, branded, and labeled in conformity with this subpart. Wine domestically bottled or packed prior to Dec. 15, 1936, and imported wine entered in customs bond in containers prior to that date shall be regarded as being packaged, marked, branded and labeled in accordance with this subpart, if the labels on such wine (1) bear all the mandatory label information required by § 4.32 (a), (b), and (d), even though such information is not set forth in the manner and form required by § 4.32 and other sections of this title referred to therein, and (2) bear no statements, designs, or devices which are false or misleading.

(b) *Alteration of labels.* (1) It shall be unlawful for any person to alter, mutilate, destroy, obliterate or remove any mark, brand, or label upon wine held for sale in interstate or foreign commerce

XUM V40129 FEB 11 75 XUM

or after shipment therein, except as authorized by Federal law, or except as provided in subparagraph (2) of this paragraph: *Provided*, That the regional director may, upon written application, permit additional labeling or relabeling of wine for purposes of compliance with the requirements of this part or of State law.

(2) No application for permission to relabel wine need be made in any case where there is added to the container, after removal from customs custody or from the premises where bottled or packed, a label identifying the wholesale or retail distributor thereof, and containing no reference whatever to the characteristics of the product.

PAR. 4. Section 4.32 is amended by adding a new paragraph (c); by renumbering paragraph (c) as (d); and by changing the reference in paragraph (a) from (c) to (d). As amended, § 4.32 (a), (c) and (d) read as follows:

§ 4.32 Mandatory label information.

(a) Except as otherwise provided in paragraph (d) of this section, there shall be stated on the brand label:

(1) Brand name, in accordance with § 4.33.

(2) Class, type, or other designation, in accordance with § 4.34.

(3) Name and address, in accordance with § 4.35.

(4) On blends consisting of foreign and domestic wines, if any reference to the presence of foreign wine is made, the exact percentage by volume of foreign wine.

* * * * *

(c) There shall be stated on the brand label, back label, or on a separate strip label, a list of ingredients complying with § 4.37a.

(d) In the case of imported wine, the name and address of the importer need not be stated upon the brand label if it is stated upon any other label affixed to the container. In the case of domestic wine, bottled or packed for a retailer or other person under his private brand, the name and address of the bottler or packer need not be stated upon the brand label if the name and address of the person for whom bottled or packed appears upon the brand label, and the name and address of the bottler or packer is stated upon any other label affixed to the container.

PAR. 5. Section 4.35(d) is amended by replacing the words "Assistant Regional Commissioner" with the words "regional director". As amended, § 4.35(d) reads as follows:

§ 4.35 Name and address.

* * * * *

(d) *Trade names.* The trade name of any permittee appearing on any label shall be identical with the name in which his basic permit is issued by the regional director.

PAR. 6. A new § 4.37a has been added, in numerical sequence, to read as follows:

§ 4.37a List of ingredients.

(a) *General.* There shall be shown on the brand label or back label, or an a separate strip label, a list of all ingredients used in the production, rectification, or treatment of wine, except carbon dioxide in still wines and incidental additives as defined in § 4.10.

(b) *Mandatory statements.* Substances used in wine to retard spoilage by oxidation or by microbes (such as sulfur dioxide and sorbic acid) will be identified in the ingredient list both by name and by the statement "to preserve" or "as a preservative".

(c) *Prohibited statements.* Statements of the following types may not be made in the ingredient list: (1) negative statements, such as "contains no additives"; (2) statements of substances formed within the product, such as substances formed by storage in wood; (3) functional statements, such as "to clarify" (except as noted in paragraph (b)); (4) statements of grape (or other fruit) varieties used to make a wine; and (5) statements denoting quality, as provided in § 4.39(a)(10).

(d) *Form of list.* The list shall be separate and distinct from all other matter shown on the label, and shall take substantially the following form: "Made from:" followed by a listing of all ingredients required to be listed. Ingredients which are duplicated in the components of a finished product need be listed only once.

(e) *Order of predominance*—(1) *General.* Ingredients shall be listed in descending order of their predominance by weight in the original formulation of the product, except for the option described in paragraph (e)(2) of this section.

(2) *Minor ingredients.* Minor ingredients, which are, for purposes of this paragraph, individual ingredients, each of which make up less than 0.25 percent by weight in the original formulation of the product, may, in lieu of listing as in paragraph (e)(1), be listed in alphabetical order. If this option is chosen, the listing shall be in the following form: "with less than 0.25 percent each of carboxy methyl cellulose, sorbic acid, * * *, added".

(f) *Nomenclature.* Wherever possible, ingredients shall be listed by common name (i.e., a name likely to be recognized by the average consumer as referring to a distinct substance). Natural ingredients shall be broken down into basic "oranges" or "orange juice", "dextrose", or "yeast". Ingredients which do not have common names shall be identified by their chemical names. Chemical mixtures, unless they can be identified by common names, will be broken down into their component compounds. As an example, a defoaming agent which contains sorbic acid and carboxy methyl cellulose will be listed by the names of the two components. Chemical nomenclature will be based on that used by the Food and Drug Administration in 21 CFR Part 121. All substances listed in 21 CFR Part 121 shall be identified in the ingredient list by the name used therein.

(g) *Coloring materials*—(1) *Caramel.* Caramel is the only coloring material authorized for use in beverage wine production on bonded wine cellar premises under the provisions of 26 CFR Part 240. Caramel shall be identified in the ingredient list by the words "colored with caramel", "caramel colored", "artificially colored", or artificial color added".

(2) *Other coloring materials.* Coloring materials other than caramel may be used only in wine specialties produced on the bottling premises of a distilled spirits plant under the provisions of 26 CFR Part 201. Such coloring materials shall be identified in the ingredient list

(i) by the words "artificially colored"; or

(ii) by the words "certified color" if the colors are from lots certified by the manufacturer to be from lots certified by the Food and Drug Administration; or

(iii) by the common or usual name of the color in conjunction with the words "colored with _____" or "_____ colored" (an example is "colored with FD&C yellow #5").

(h) *Flavoring materials*—(1) *Use of flavoring materials.* The use of flavoring materials is subject to the provisions of 26 CFR 240.356. No flavoring material for use in wine may contain any ingredient not authorized for such use, or for general food use, by the Food and Drug Administration. Further, any single material added to wine which comprises more than five percent by volume of the finished product is automatically considered a basic ingredient and not a flavoring material. However, any single material added to wine which comprises five percent or less of the finished product is not to be considered a flavoring material for that reason only.

(2) *Identification of artificial flavoring materials.* Artificial flavoring materials are defined as any flavoring materials not included in the definition of "natural flavors in § 4.10. Such flavors shall be identified in the ingredient list by the words "artificially flavored".

(3) *Natural flavoring materials.* When no flavoring materials other than "natural flavors", as defined in § 4.10, have been used, a truthful and adequate statement of the source of the flavor shall be made, or, alternatively, the words "naturally flavored" may be used.

(4) *Flavoring materials which also contribute color.* Flavoring materials which also contribute color shall be identified in the ingredient list as both colors and flavors.

(i) *Sodium.* The presence of sodium in wine, whether added (in the form of sodium salts or otherwise) or naturally present, shall be stated immediately following the ingredient list in the following form: "contains less than _____ mg. of sodium per 177 ml. (6 oz.) serving", except than the listing for containers of less than 177 ml. (6 oz.) shall be stated in terms of the sodium content of the entire container: *Provided*, That no such listing of sodium shall be required if the sodium content is less than 1 mg. per ounce.

(j) *Distilled spirits.* Distilled spirits used in wine production shall be identified by class and type in accordance with the standards of identity contained in 27 CFR Part 5. In the case of distilled spirits not covered by a standard of identity, the term "spirits", preceded by the name of the commodity from which distilled (as, for example, "grape spirits") shall be used.

(k) *Domestic wine bottled or packed prior to January 1, 1977.* Domestic wine bottled or packed prior to January 1, 1977, shall not be required to bear the list of ingredients required by this section.

(l) *Imported wine removed from customs custody after December 31, 1976.* Imported beverage wine removed from customs custody after December 31, 1976, but bottled or packed on or before that date, shall not be required to bear the list of ingredients required by this section if it is accompanied by a statement signed by a duly authorized official of the appropriate foreign country stating that the wine was bottled or packed prior to January 1, 1977.

PAR. 7. Section 4.38 has been amended to provide a requirement for a list of ingredients, and has been changed editorially. As amended § 4.38 reads as follows:

§ 4.38 General requirements.

(a) *Contrasting background.* All labels shall be so designed that all the statements thereof required by this subpart are readily legible under ordinary conditions, and all such statements shall be on a contrasting background.

(b) *Size of type.* All statements (other than alcoholic content statements and ingredient lists upon labels of containers having a capacity of 1 gallon or less) required on labels by this article, shall be in readily legible script, type, or printing not smaller than 8-point Gothic caps except that, if contained among other descriptive or explanatory reading matter, the script, type, or printing of all required material shall be of a size substantially more conspicuous than such other descriptive or explanatory reading matter: *Provided*, That in the case of labels of containers having a capacity of less than one-half pint, such script, type, or printing thereon need not be in 8-point Gothic caps, but shall be readily legible under ordinary conditions. Alcoholic content statements, whether required or optional, and the list of ingredients required by § 4.37a, on labels on containers having a capacity of 1 gallon or less shall be in readily legible script, type, or printing not smaller than 6-point Gothic caps, except in the case of containers having a capacity of less than one-half pint, in which case such script, type, or printing need not be as large as 6-point Gothic caps, but shall be readily legible under ordinary conditions. Alcoholic content statements shall not appear in script, type, or printing larger or more conspicuous than 8-point Gothic caps on labels on containers having a capacity of 1 gallon or less and shall not be set off with a border or otherwise accentuated.

(c) *English language.* All mandatory label information shall be stated on labels in the English language: *Provided*, That the brand name, the place of production, and the name of the manufacturer, producer, blender, rectifier, maker, bottler, packer, or shipper appearing on the label need not be in the English language if the words "Product of" immediately precede the name of the country of origin stated in accordance with customs' requirements. Additional statements in foreign languages may be made on labels, if such statements in no way conflict with, or are contradictory to the requirements of this subpart.

(d) *Location of label.* No label, other than stamps authorized or required by the United States Government or any State or foreign government, shall be affixed over the mouths of containers of wine, and no label shall obscure any such stamps or be obscured thereby.

(e) *Labels firmly affixed.* All labels shall be affixed to containers of wine in such manner that they cannot be removed without thorough application of water or other solvents.

(f) *Additional information on labels.* Labels may contain information other than the mandatory label information required by this subpart, provided such information complies with the requirements of such sections and does not conflict with, nor in any manner qualify statements required by, any regulations promulgated under the act.

(g) *Representations as to materials.* If any representative (other than representations or information required by this subpart) is made as to the presence, excellence, or other characteristic of any ingredient in any wine, or used in the production thereof, the label containing such representation shall state, in print, type, or script, substantially as conspicuous as such representation, the name and amount in percent by volume of each such ingredient.

(h) *Statement of contents of containers.* Upon request of the Director, there shall be submitted to him a full and accurate statement of the contents of the containers to which labels are to be or have been affixed.

PAR. 8. Section 4.39 is amended to (1) add a new paragraph (a)(10); (2) delete the footnote; (3) add a sentence to the end of paragraph (a)(5); and (4) make editorial changes in paragraphs (a)(2), (a)(9), and (b)(3). As amended, § 4.39 (a)(2), (a)(5), (a)(9), (a)(10) and (b)(3) read as follows:

§ 4.39 Prohibited practices.

(a) *Statements on labels.* * * *

(2) Any statement that is disparaging of a competitor's products.

* * * * *

(5) Any statement, design, device, or representation of or relating to any guaranty, irrespective of falsity, which the Director finds to be likely to mislead the consumer. Statements in substantially the following form are not considered misleading: "We will refund the purchase price to the purchaser if he is in any manner dissatisfied with the contents of this package. (Name of Permittee)"

* * * * *

(9) Any word in the brand name or class and type designation which is the name of a distilled spirits product or which simulates, imitates, or creates the impression that the wine so labeled is, or is similar to, any product customarily made with a distilled spirits base. Examples of such words are: "Manhattan", "Martini", "Old Fashioned", "Screwdriver", and "Daiquiri" in a class and type designation or brand name of a wine cocktail; "Cuba Libre", "Zombie", and "Collins" in a class and type designation or brand name of a wine specialty or wine highball; "creme", "cream", "de", or "of" when used in conjunction with "menthe", "mint", or "cacao" in a class and type designation or brand name of a mint or chocolate flavored wine specialty.

(10) Any word or statement in the ingredient list denoting quality, such as "finest" grapes or "best" yeast.

(b) *Statement of age.* * * *

(3) In the case of imported wine, the year of vintage may be stated if such wine was bottled prior to importation in containers of 1 gallon or less (except that the year of vintage may be stated in the case of champagne whether or not bottled in containers of 1 gallon or less), or, if such wine is bottled in the United States in containers of 1 gallon or less from the original container of the product and such container bears the vintage date upon the brand label thereof and the bottler possess a certificate, issued by a duly authorized official of the country of origin of such wine, identifying that container as containing vintage wine as defined in § 4.10(g) and certifying (i) that the laws of such country upon the labels of wine produced for consumption therein, (ii) that the wine regulate the appearance of vintage dates in question has been produced in conformity with such laws, and (iii) that such wine would be entitled, under such laws, to bear the vintage date if sold in such country: *Provided*, That, in the case of imported wine bottled prior to importation in containers of 1 gallon or less, the year of vintage may be stated only when the invoice is accompanied by a certificate identical with that required above in the case of wine bottled in the United States of containers of 1 gallon or less, if the issuance of such a certificate with respect to such wine has been authorized by the foreign government concerned.

* * * * *

PAR. 9. Section 4.40 is completely revised to read as follows:

§ 4.40 Label approval and release.

(a) *Certificate of Label Approval.* No imported beverage wine in containers shall be released from customs custody

XUM
V40129
FEB 11 75
XUM

unless there shall have been deposited with the appropriate customs officer at the port of entry the original or a photostatic copy of an "Application for and Certification of Label Approval under the Federal Alcohol Administration Act" (Form 1649). Such certificate shall be issued by the Director upon application made on Form 1649, properly filled out and certified to by the importer or transferee in bond.

(b) *List of ingredients.* Each application for a certificate of label approval covering imported wine in containers bottled or packed after December 31, 1976, shall be accompanied by a list of ingredients, certified by a duly authorized official of the appropriate foreign country, and such list shall contain the information required by § 4.37a. Where the wine has been blended or treated in more than one foreign country, an appropriate certified list of ingredients must be prepared by a duly authorized official of each such country.

(c) *Release.* If the original or photostatic copy of Form 1649 bears the signature of the Director, then the brand or lot of imported wine bearing labels identical with those shown thereon (except for the list of ingredients, which may be on Form 1649 Supplemental) may be released from customs custody. Beverage wine bottled or packed before January 1, 1977, may be released from customs custody without the list of ingredients required by § 4.37a only if accompanied by a statement signed by a duly authorized official of the appropriate foreign country, that the wine was bottled or packed prior to January 1, 1977. Wine bottled or packed on or after January 1, 1977, shall not be released from customs custody unless the Form 1649 on file is accompanied by the certified list of ingredients and the label bears a list of ingredients.

(d) *Relabeling.* Imported wine in customs custody which is not labeled in conformity with certificates of label approval (including Form 1649 Supplemental) issued by the Director and which certificates contain all information required by this section, must be relabeled prior to release, under the supervision and direction of the customs officers of the port at which such wine is located.

(e) *Approval of ingredient lists.* Where there is no change in the location, size or prominence of the mandatory information on a label covered by a valid Form 1649, except for the addition of the list of ingredients required by § 4.37a, a new Form 1649 need not be filed; in lieu thereof, an application for approval of the ingredient list may be filed on Form 1649 Supplemental, in accordance with the instructions on the form. If the identical ingredient list is to be used with more than one approved label, a single Form 1649 Supplemental may be filed covering all such labels.

PAR. 10. Section 4.50 is amended by adding two sentences to the end of paragraph (a), by relettering paragraph (b) as (c), by adding a new paragraph (b), by making editorial changes in paragraphs (a) and (c), and by deleting the footnote. As amended, § 4.50(a) reads as follows:

§ 4.50 Certificates of label approval.

(a) No person shall bottle or pack wine, other than wine bottled or packed in customs custody, or remove such wine from the plant where bottled or packed, unless upon application to the Director he has obtained and has in his possession an "Application for and Certification of Label Approval under the Federal Alcohol Administration Act" (Form 1649), covering such wine. Such certificate of label approval shall be issued by the Director upon application made on Form 1649, properly filled out and certified to by the applicant. Each application for a certificate of label approval covering labels for imported wine shall be accompanied by a list of ingredients, certified by a duly authorized official of the appropriate foreign country, and such list shall contain the information required by § 4.37a. Where the wine has been blended or treated in more than one foreign country, an appropriate certified list of ingredients must be prepared by a duly authorized official of each such country.

(b) Where there is no change in the location, size or prominence of the mandatory information on a label covered by a valid Form 1649, except for the addition of the list of ingredients required by § 4.37a, a new Form 1649 need not be filed; in lieu thereof, an application for approval of the ingredient list may be filed on Form 1649 Supplemental, in accordance with the instructions on the form. If the identical ingredient list is to be used with more than one approved label, a single Form 1649 Supplemental may be filed covering all such labels.

(c) Any bottler or packer of wine shall be exempt from the requirements of this section if upon application he shows to the satisfaction of the Director that the wine to be bottled or packed by him is not to be sold, offered for sale, or shipped or delivered for shipment, or otherwise introduced in interstate or foreign commerce. A "Certificate of exemption from label approval under the Federal Alcohol Administration Act" (Form 1650) shall be issued by the Director upon application upon the form designated "Application for certificate of exemption from label approval under the Federal Alcohol Administration Act" (Form 1648), properly filled out and certified to by the applicant.

PAR. 11. Section 4.64 is amended by adding a provision to paragraph (a)(8). As amended, § 4.64(a)(8) reads as follows:

§ 4.64 Prohibited statements.

(a) *Restrictions.* • • •

(8) Any statement, design, device, or representation which relates to alcoholic content or which tends to create the impression that a wine is "unfortified" or has been "fortified," or contains distilled spirits, or has intoxicating qualities, except that a statement of composition, if required to appear as a designation of a product not defined in these regulations, may include a reference to the type of distilled spirits employed therein: *Provided,* That this paragraph shall not apply to the list of ingredients required by § 4.37a when the list is included in an advertisement.

Requests to present oral testimony. All persons who desire to present oral testimony should so advise the Director, Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20026, not later than April 22, 1975. Requests shall be submitted in an original and three copies and must include (1) the name and address of the party submitting the request, (2) the name and address of the person or persons who will present oral testimony, and (3) the approximate length of time desired for the presentation of testimony.

Submission of written material. Any interested party may submit to the Director, Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20226, in an original and nine copies, relevant written data, views, or arguments for incorporation into the record of hearing. Written material must be submitted not later than April 22, 1975. Written comments or suggestions which are not exempt from disclosure by the Bureau of Alcohol, Tobacco and Firearms, may be inspected by any person upon compliance with 27 CFR 71.22(d)(7). The provisions of 27 CFR 71.31(b) shall apply with respect to designation of portions of comments or suggestions exempt from disclosure. The name of any person submitting comments (whether or not exempt from disclosure in whole or in part) is not exempt from disclosure.

At the conclusion of the hearing, a reasonable time will be afforded interested parties for the examination of the record and submission of written arguments and briefs.

Dated: January 22, 1975.

REX D. DAVIS,
Director, Bureau of Alcohol, Tobacco and Firearms.

Approved: February 4, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[FR Doc.75-3720 Filed 2-10-75;8:45 am]

[27 CFR Part 5]

[Notice No. 272]

DISTILLED SPIRITS

Labeling and Advertising; Hearing

Notice is hereby given, pursuant to the provisions of section 5 of the Federal Alcohol Administration Act (49 Stat. 981 as amended; 27 U.S.C. 205), of a public hearing to begin at 10 a.m. eastern standard time on Wednesday, April 16, 1975, in the George S. Boutwell Auditorium, seventh floor, Internal Revenue Service Building, 1111 Constitution Avenue, N.W., Washington, D.C., at which time and place all interested parties will be afforded opportunity to be heard, in person or by authorized representative,

concerning the proposed regulatory changes in 27 CFR Part 5, described below:

Since the enactment of the Federal Alcohol Administration Act in 1935, the Bureau of Alcohol, Tobacco and Firearms and its predecessor agencies in administering the Act have done so with the belief that it provided ample protection to the distilled spirits consumer with reference to the identity and quality of the product and the integrity of the label. This protection has been provided by frequent on-site inspections of all domestic producers; by requiring both domestic producers and importers to obtain Government approval before using labels on bottles or packages of distilled spirits; by requiring Government approval of formulas for rectified products such as specialties, liqueurs and cocktails; by providing standards of identity for all distilled spirits products wherein permissible processes and ingredients for each class and type of distilled spirits are spelled out in detail; and by investigating suspected violations of the Act and taking punitive action where warranted, including suspension or revocation of the permits issued under the Act.

Recently it has become apparent that today's consumers want to know, and, we feel, have a right to know, what ingredients have been used in the production of the alcoholic beverages they buy. Therefore, in consideration of its function as a consumer protection agency, the Bureau proposes to amend its regulations to require label disclosure of the ingredients of all distilled spirits products, whether domestically produced or imported.

The intent of the Bureau is to provide, with the very few exceptions noted in the following paragraphs, that each ingredient used in producing a distilled spirits product for domestic consumption, regardless of whether the product is covered by a standard of identity under this part, be shown on the label unless it is removed in its original form before packaging in the final consumer package. The listing would be in descending order of predominance by weight in the original formulation of the product, with two exceptions.

The first exception is for cereal grains, which could be listed, optionally, as "cereal grains" in lieu of listing the individual grains. If this option is chosen, however, no individual grain may be listed anywhere on the label unless each grain is listed, in descending order of predominance, in the ingredient list. This exception is considered necessary to allow the producer to take advantage of temporary price changes in, or availability of grain (but only to the extent that the standards of identity permit changes in the predominance of the various grains) without necessitating expensive and time-consuming label changes. Vodka, for example, is a neutral spirit which may be made from any grain or combination of grains without changing the quality or character of the product. The producer could substitute wheat, if it were to become cheaper, for corn without necessitating an expensive and time-consuming label change. We are aware that this area is controversial, both from the standpoint of the consumer and of the distilled spirits industry. We consider the issue completely open, however; and our final regulation could conceivably call for anything from complete identification of specific grains in strict order of predominance to a simple statement that "cereal grains" are present. Since this is such a key issue, and so controversial, we especially invite comments and suggestions in this area. For example, any information as to the possibility of allergies to distilled spirits products made from specific grains (as corn whisky or vodka made from corn) would be very beneficial.

The second exception is for minor ingredients, which are defined in the proposed regulations as individual ingredients, each of which make up less than 0.25 percent of the weight of the original formulation of the product. These minor ingredients could be listed as "with less than 0.25 percent each d-limonene, neobee, etc., added". This would avoid forcing the producer to obtain new labels whenever one ingredient which is used in extremely small amounts becomes more or less predominant than another.

In both of these cases, the Bureau is aware that any expense borne by the producer, including the considerable cost involved in obtaining numerous sets of different labels, would inevitably be passed on to the consumer. We do not think the consumer would benefit sufficiently to offset the cost disadvantage from a requirement for listing of cereal grains and minor ingredients in order of predominance. Such listing would, of course, be allowed at the option of the producer.

Substances which come into being during a process such as fermentation or storage in wood, such as quercus lactone in the case of storage in oak containers, are not considered ingredients. These substances are extremely complex, and often not even identifiable. For that reason, the Bureau has found that it is impossible to identify all those substances which are formed within the product, and does not propose to require them to be listed on the label.

The proposed amendments would require that all ingredients used in the production of any distilled spirits product be listed on the label, with the exception of "incidental additives". The proposed exclusion of incidental additives (which are defined, in general terms, in the next paragraph) is based on Food and Drug Administration practice with other food products. Any attempt to list every substance which comes into contact with the product, whether or not it reacts within it or remains in it, would result in a long and essentially meaningless list which would not help the consumer and would be chaotic for the distilled spirits bottler. That being the case, the exclusion from the ingredient list of substances whose effect on the product is nominal or nonexistent seems to us to be absolutely essential.

An incidental additive would be defined, in general terms, as (1) a processing aid used in an intermediate product if it has no technical or functional effect on the finished distilled spirits (an example of such an incidental additive is sulfur dioxide used to preserve apple juice, which, when the apple juice is added to the distilled spirits product, is not present in sufficient quantity to preserve it); or (2) a processing aid that is added to distilled spirits for its mechanical effect only (such as an inert filter aid and some clarifying agents) and is then removed or reduced to a level too small to be measurable by standard laboratory tests; or (3) a processing aid which reacts within the product only to remove other substances (as by forming an insoluble complex) and which is then removed or reduced to a level too small to be measurable by standard laboratory tests; or (4) a yeast food or other fermentation adjunct which does not remain in the finished product, or is reduced to a level too small to be measurable by standard laboratory tests. Any ingredient which causes, catalyzes, or otherwise participates in a chemical or biological reaction within the product, except as noted above, is excluded from the proposed definition of an incidental additive and would have to be listed in the ingredient list. Standard laboratory tests are defined as those tests prescribed by the latest edition of the "Official Methods of Analysis of the Association of Official Analytical Chemists," or other methods which have been approved by the Director.

In the case of sodium, an exception would be made to our general approach (i.e., listing only those substances added to the product). It is quite possible for a distilled spirits product to which the producer has added no sodium to contain far more sodium than one to which sodium salts have been added (as, for example, salt in a cocktail). Under those conditions, the consumer on a low sodium diet might well choose a product which shows no sodium salts added in the ingredient list and thereby consume more sodium than if he had chosen a product which listed several sodium salts. Because the sodium content of an alcoholic beverage can be an important consideration for a consumer who must restrict his sodium intake, we propose to require the listing, immediately following the ingredient list, of the sodium content of distilled spirits in substantially the following form: "This product contains less than ____ mg. of sodium per 30 ml. (1 oz.) serving". Products containing less than 1 mg. of sodium per 30 ml. (1 oz.) serving, however, would not be required to contain this information, on the basis that such a small amount is too trivial to be of importance to the consumer. Our intent is to provide the consumer with valuable information as to the sodium content of the product without requiring the producer to obtain new labels each time there is a minor change in the sodium content. We realize that it is quite possible under the proposed regulation

XUM V40129 FEB 11 75 XUM

for a beverage to actually contain considerably les sodium than the maximum listed, but we feel that this provision is an equitable compromise between the needs of the consumer and the compliance problems of industry.

The proposed amendments would provide for natural ingredients to be listed by common name, such as "malt", "oranges", "orange juice", "whole milk", "yeast", "enzymes"; chemical mixtures which have no common names would be broken down into their component compounds. An example of the latter would be a cloud emulsion which includes d-limonene, neobee and citric acid, which would require listing of all three component compounds. Nomenclature for these chemical compounds would be that used by the Food and Drug Administration in 21 CFR Part 121. Our intention is that any substance listed in that part will be identified in the ingredient list by the name used therein.

Functional statements, except for a mandatory statement in the case of preservatives (as required by the Federal Food, Drug, and Cosmetic Act of 1938) would not be permitted in the ingredient list, because they are felt to provide little or no benefit in comparison with the label space they occupy, and because such statements tend to become meaningless euphemisms unless very closely controlled. Preservatives would be identified by the term "to preserve" or "as a preservative". In addition, the use of any word or phrase denoting quality (e.g., "finest" grain or "best" yeast) would be prohibited in connection with any ingredient shown on the list. Further, the use of negative statements such as "contains no additives" or "contains no preservatives" would be prohibited. The two latter provisions are intended to keep the ingredient list as clear and concise as possible by avoiding puffery and other unnecessary verbiage. These prohibitions would apply only to the ingredient list and would not preclude statements otherwise authorized by the regulations from appearing elsewhere on the label.

Other rules would provide, through practical necessity and in accordance with Food and Drug Administration practice, for listing colors and flavors by class names, such as "artificial color". Specifically, artificial or synthetic colors, or colors which are not natural to the product (caramel in brandy, for example) would be identified by the name of the color, the term "artificially colored" or, where applicable, by the term "certified color added". In the case of synthetic colors, the bottler would be required to keep certificates supplied by the manufacturer certifying that the synthetic colors came from lots certified by the Food and Drug Administration available for inspection. The Bureau has available information as to the specific synthetic color(s) used in all distilled spirits products, and plans to provide this information to any interested party upon written request. Natural colors would be identified as "natural colors", or by a true statement of the source of color.

Flavoring materials could be identified by the use of the terms "artifically flavored" or "naturally flavored", or, in the case of the latter, a truthful and adequate statement of the source of the natural flavor. A new definition would be added to define "natural flavors" as, in general, essential oils, essences, distillates and like substances, or products of roasting, maceration, heating, or enzymolysis of natural animal and vegetable products, whose significant function is flavoring. Substances generally considered as foods (such as salt and sugar) or spices are not considered flavors. Artificial flavors, for purposes of the list of ingredients, would be defined as those which are not natural.

Another proposed amendment would allow the listing of wine in distilled spirits products by class and type as defined in the Wine Labeling and Advertising Regulations (27 CFR Part 4); or, if the wine comprises less than 2½ percent by volume of the finished product, it could be listed as a flavoring material. With few exceptions, wine is used in distilled spirits products in relatively small quantities; and the Bureau is of the opinion that this general terminology is more meaningful to consumers in this case than a complete breakdown of all of the ingredients used in producing the wine. Further, the consumer is protected by the standards of identity for wine contained in 27 CFR Part 4.

Provision would be made for distilled spirits types which comprise less than ten percent of the total distilled spirits content of a product, on a proof gallon basis, to be identified by class and type in accordance with 27 CFR Part 5.22, the standards of identity for distilled spirits. As in the case of wine used in distilled spirits products, it is felt that this general terminology is more informative to the consumer than a breakdown of the component ingredients of each type.

Present regulations provide that imported distilled spirits may not be released from customs custody without a certificate of label approval issued by the Bureau. The application for a certificate includes a copy of the label used, and each such application is closely examined for compliance with the labeling provisions of the Federal Alcohol Administration Act before approval. The proposed regulations would provide that, in addition to listing ingredients on labels of imported distilled spirits, each application for a certificate of label approval covering bulk or bottled imported spirits must be accompanied by a list of such ingredients certified by an official of each foreign country in which the spirits have been blended or treated. In connection with these proposed requirements, an accelerated sampling program is planned to insure the label integrity of imported as well as domestic distilled spirits.

In the case of both domestic and imported products, labels on distilled spirits bottled or packed before the mandatory compliance date prescribed by the regulations would not have to bear the ingredient list when removed from customs custody or domestic storage for consumption. Many distilled spirits products are bottled considerably in advance of sale, and to require that such products in storage before the mandatory compliance date be relabeled to list ingredients would impose an unreasonable economic burden on bottlers. Imported distilled spirits or packed prior to the mandatory compliance date could only take advantage of this exemption if accompanied by a statement by a duly authorized official of the appropriate foreign country attesting that the spirits were in fact bottled or packed prior to that date. No such certified list of ingredients or other documentation would be required or domestic bottlers, since such information as to bottling dates is available in domestic proprietors' records and will be verified by ATF Inspectors during the course of on-site inspections. The records of foreign producers are, of course, not subject to audit by ATF inspectors.

During the period between the proposed effective date and the proposed mandatory compliance date, bottlers would be expected to obtain Bureau approval for ingredient lists. A new form would be provided for that purpose, for use as a supplement to Form 1649, in lieu of the refiling of that form if no other mandatory label information is deleted, modified or relocated. This supplemental form (to be designated Form 1649 Supplemental) would provide for a typed list of ingredients which could be used to cover any number of labels to which that specific list is applicable, identified in accordance with the instructions on the form.

Proposed amendments to 26 CFR Part 201, Distilled Spirits Plants, to make these regulations compatible, will be issued as a Notice of Proposed Rulemaking in the near future. Basically, those amendments would provide (1) recordkeeping requirements conforming to this part; (2) for an historical list of ingredients where complete ingredient information cannot be obtained from commercial records existing prior to the effective date of this part; and (3) for ingredient lists containing all necessary information to be supplied by the transferor to the transferee when spirits are transferred, whether in bond or taxpaid.

The following proposed regulations include minor editorial, conforming and clarifying changes.

In consideration of the foregoing, it is proposed that the regulations in 27 CFR Part 5, Labeling and Advertising of Distilled Spirits, be amended as follows:

PARAGRAPH 1. Section 5.11 is amended by (1) redefining "Director", "Interstate or foreign commerce", and "United States"; (2) deleting the definition of "Assistant regional commissioner"; and (3) adding, in alphabetical order, new definitions of "Incidential additive", "Natural flavor", "Regional director", and "Standard laboratory tests". The

amended and added definitions read as follows:

§ 5.11 Meaning of terms.

. . . . . .

Director. The Director, Bureau of Alcohol, Tobacco and Firearms, the Department of the Treasury, Washington, D.C. 20226.

. . . . . .

Incidental additive. An incidental additive is, (a) a processing aid used in an intermediate product but which has no technical or functional effect on the finished distilled spirits product (an example of such an incidental additive is sulfur dioxide used to preserve apple juice, which, when the apple juice is added to the beverage, is not present in the final product in sufficient quantity to preserve it); or (b) a processing aid that is added to a distilled spirits product for its mechanical effect only (such as an inert filter aid or certain clarifying agents) and is then removed or reduced to a level too small to be measurable by standard laboratory tests; or (c) a processing aid which reacts chemically or biologically within the product only to remove other substances (as by forming an insoluble complex) and both the original substance and all of its reaction products are then removed or reduced to a level too small to be measurable by standard laboratory tests, and have no further technical or functional effect on the finished product; or (d) a yeast food or other fermentation adjunct which does not remain in the finished product, or is reduced to a level too small to be measurable by standard laboratory tests. Any substance which causes, catalyzes, or otherwise participates in a chemical or biological reaction within the product, except as noted in paragraphs (c) and (d) is specifically excluded from the definition of an incidental additive.

Interstate or foreign commerce. Commerce between any State and any place outside thereof, or commerce within the Commonwealth of Puerto Rico or the District of Columbia, or between points within the same State but through any place outside thereof.

Natural flavor. The term "natural flavor" or "natural flavoring", except as otherwise provided in this part, means the essential oils, oleoresin, essence or extractive, hydrolysate, distillate or any product of roasting, maceration, heating or enzymolysis, which contains the flavoring constituents derived from a spice, fruit or fruit juice, vegetable or vegetable juice, edible yeast, herb, bark, bud, root, leaf or similar plant material, meat, seafood, poultry, eggs, dairy products, or fermentation products thereof, whose significant function is flavoring. Substances generally considered foods (such as salt and sugar) or spices are not considered flavors.

. . . . . .

Regional director. A regional director who is responsible to, and functions under the direction and supervision of the Director, Bureau of Alcohol, Tobacco and Firearms.

Standard laboratory tests. For purposes of this part, standard laboratory tests are those prescribed by the latest edition of the "Official Methods of Analysis of the Association of Official Analytical Chemists", or other methods which have been approved by the Director.

United States. The fifty States, the Commonwealth of Puerto Rico, and the District of Columbia.

PAR. 2. Section 5.22 is amended by (1) adding a parenthetical explanation to the last sentence of paragraph (i); (2) clarifying the intent of the last sentence of paragraph (j)(2); and (3) deleting the references to Tequila from paragraph (j)(5). As amended § 5.22 (i), (j)(2), and (j)(5) read as follows:

§ 5.22 The standards of identity.

. . . . . .

(i) *Class 9; flavored brandy, flavored gin, flavored rum, flavored vodka, and flavored whisky.* "Flavored brandy," "flavored gin," "flavored rum," "flavored vodka," and "flavored whisky" are brandy, gin, rum, vodka, and whisky, respectively, to which have been added natural flavoring materials, with or without the addition of sugar, and bottled at not less than 70° proof. The name of the predominant flavor shall appear as a part of the designation. If the finished product contains more than 2½ percent by volume of wine, the kinds and percentages by volume of wine must be stated as a part of the designation, except that a flavored brandy may contain an additional 12½ percent by volume of wine, without label disclosure (except in the list of ingredients required by § 5.39a), if the additional wine is derived from the particular fruit corresponding to the labeled flavor of the product.

(j) • • •

(2) Any class or type of distilled spirits (other than distilled spirits required under § 5.35 to bear a distinctive or fanciful name and a truthful and adequate statement of composition) to which have been added flavors considered to be artificial or imitation. In determining whether a flavor is artificial or imitation for purposes of this paragraph, recognition will be given to what is considered to be "good commercial practice" in the flavor manufacturing industry;

. . . . . .

(5) Any rum to which neutral spirits or distilled spirits other than rum have been added;

. . . . . .

PAR. 3. Section 5.31 is amended by making editorial changes in paragraphs (a) and (b)(2). As amended § 5.31 reads as follows:

§ 5.31 General.

(a) *Application.* No person engaged in business as a distiller, rectifier, importer, wholesaler, or warehouseman and bottler, directly or indirectly, or through an affiliate, shall sell or ship or deliver for sale or shipment or otherwise introduce in interstate or foreign commerce, or receive therein, or remove from customs custody, any distilled spirits in bottles, unless such bottles are marked, branded, labeled, or packaged, in conformity with this subpart.

(b) *Alteration of labels.* It shall be unlawful for any person to alter, mutilate, destroy, obliterate, or remove any mark, brand, or label on distilled spirits held for sale in interstate or foreign commerce or after shipment therein, except—

(1) As authorized by Federal law,

(2) That the regional director or the ATF officer, if any, assigned to the distilled spirits plant premises may, on oral or written application, permit additional labeling or relabeling of bottled distilled spirits with labels covered by certificates of label approval which comply with the requirements of this part and with State law,

(3) That there may be added to the bottle, after removal from customs custody, or prior to or after removal from the bottling premises, without application for permission to relabel, a label identifying the wholesale or retail distributor thereof or identifying the purchaser or consumer, and containing no references whatever to the characteristics of the product.

PAR. 4. Section 5.32 is amended by (1) correcting the section reference in paragraph (b)(3); (2) deleting paragraph (b)(4); (3) renumbering paragraphs (b)(5), (6), and (7) as (4), (5) and (6); (4) relettering paragraph (c) as (d); and (5) adding a new paragraph (c). As amended § 5.32(b)(3), (4), (5) and (6), and § 5.32(c) and (d) read as follows:

§ 5.32 Mandatory label information.

. . . . . .

(b) • • •

(3) In the case of distilled spirits packaged in containers conforming to the standards of fill prescribed in § 5.47, net contents in accordance with § 5.38(a).

(4) Percentage of neutral spirits and name of commodity from which distilled, or in the case of continuously distilled neutral spirits or gin the name of the commodity only, in accordance with § 5.39.

(5) A statement of age or age and percentage, when required, in accordance with § 5.40.

(6) State of distillation of domestic types of whisky and straight whisky, except light whisky and blends, in accordance with § 5.36.

(c) On the brand label, back label, or on a separate strip label a list of all ingredients required to be listed by § 5.39a.

(d) In the case of a container which has been excepted by the Director under the provisions of § 5.48(a), the information required to appear on the "brand label", as defined, may appear elsewhere on such container if it can be demonstrated that the container cannot reasonably be so designed that the required brand label can be properly affixed.

. . . . . .

PAR. 5. Section 5.33 is amended by (1) making clarifying changes in paragraphs

XUM
V 40 29 FEB 11 75 F
XUM

(a), (b), (c) and (f); (2) providing type size requirements for ingredients listed on the label, in paragraph (b); and (3) referring to "regional director" in paragraph (g). As amended, § 5.33 reads as follows:

§ 5.33 Additional requirements.

(a) *Contrasting background.* Labels shall be so designed that the statements required by this subpart are readily legible under ordinary conditions, and such statements shall be on a contrasting background.

(b) *Size of type.* Statements required by this subpart (except brand names) shall appear generally parallel to the base on which the container rests as it is designed to be displayed, or shall be otherwise equally conspicuous, and shall be in script, type, or printing not smaller than 8-point Gothic caps (except that the list of ingredients required by § 5.39a may be in script, type, or printing not smaller than 6-point Gothic caps) and shall be separate and apart from any other descriptive or explanatory matter, except that, in the case of labels on bottles of less than one-half pint capacity, such script, type, or printing may be smaller than 8-point or 6-point Gothic caps if readily legible under ordinary conditions. A statement of the type of distilled spirits shall be as conspicuous as the statement of the class to which it refers, and in direct conjunction therewith.

(c) *English language.* The requirements of this subpart shall be stated in the English language, except that the brand name need not be in English, and for products bottled for consumption within Puerto Rico the required information may be stated in the Spanish language, if the net contents and, if the product is an imitation, the word "imitation" are also stated in the English language.

(d) *Location of label.* Labels shall not obscure government stamps or be obscured thereby. Labels shall not obscure any markings or information required to be permanently marked in the bottle by other U.S. Treasury Department regulations.

(e) *Labels firmly affixed.* Labels which are not an integral part of the bottle shall be affixed to bottles in such manner that they cannot be removed without thorough application of water or other solvents.

(f) *Additional information on labels.* Labels may contain information other than the mandatory label information required by this subpart provided such information does not conflict with, nor in any manner qualify, statements required by regulations promulgated under the Act.

(g) *Contents of bottles.* A complete and accurate statement of the contents of the bottles to which labels are to be or have been affixed shall be submitted, on request, to the Director or the regional director.

PAR. 6. Section 5.35 is amended by (1) making an editorial change in the heading of paragraph (b), (2) adding a new paragraph (c), and (3) redesignating paragraphs (c) through (e) as paragraphs (d) through (f), respectively. As amended the titles of paragraphs (b), (d), (e) and (f), and new paragraph (c) read as follows:

§ 5.35 Class and type.

* * * * * *

(b) *Products designated in accordance with trade and consumer understanding.* * * *

(c) *Whisky or brandy treated with wood.* The words "colored and flavored with wood. * * * (insert chips, slabs, as appropriate)" shall be stated as a part of the class and type designation for whisky and brandy treated, in whole or in part, with wood through percolation, or otherwise, during distillation, rectification, or storage (other than through contact with the oak container).

(d) *Origin of whiskies in mixtures.* * * *

(e) *Whisky manufactured in Scotland, Ireland, or Canada.* * * *

(f) *Cordials and liqueurs.* * * *

PAR. 7. Section 5.36 is amended by deleting the words "assistant regional commissioner" from the end of paragraph (f) and inserting instead the words "regional director". As amended § 5.36(f) reads as follows:

§ 5.36 Name and address.

* * * * * *

(f) *Trade names.* The trade name of any permittee appearing on any label shall be identical with the name in which his basic permit is issued by the regional director.

PAR. 8. Section 5.39 is amended by (1) changing the title, (2) changing the heading of paragraph (a) and redesignating paragraph (a)(2) as paragraph (b), and (3) by deleting present paragraphs (b) and (c). As amended, § 5.39 reads as follows:

§ 5.39 Presence of neutral spirits and name of commodity from which distilled.

(a) *Percentage of neutral spirits and name of commodity.* In the case of distilled spirits (other than cordials, liqueurs, and specialties) produced by blending or rectification, if neutral spirits have been used in the production thereof, there shall be stated the percentage of neutral spirits so used and the name of the commodity from which such neutral spirits have been distilled. The statement of percentage and the name of the commodity shall be made in substantially the following form: "____% neutral spirits distilled from _____ (insert grain, cane products, or fruit, as appropriate)"; or "____% neutral spirits (vodka) distilled from _____ (insert grain, cane products, or fruit, as appropriate)"; or "____% grain (cane products), (fruit) neutral spirits"; or "____% grain spirits."

(b) *Neutral spirits or gin products by a process of continuous distillation.* In the case of neutral spirits or of gin produced by a process of continuous distillation, there shall be stated the name of the commodity from which such neutral spirits or gin have been distilled. The statement of the name of the commodity shall be made in substantially the following form: "Distilled from grain", or "Distilled from cane products", or "Distilled from fruit".

PAR. 9. A new section, § 5.39a, is added immediately following § 5.39, to read as follows:

§ 5.39a List of ingredients.

(a) *General.* There shall be shown on the brand label or back label, or on a separate strip label, a list of all ingredients used in the production, blending, rectification or treatment of distilled spirits, except incidental additives as defined in § 5.11.

(b) *Mandatory statements.* Substances used in distilled spirits to retard spoilage by oxidation or by microbes (such as sodium benzoate) will be identified in the ingredient list both by name and by the statement "to preserve" or "as a preservative".

(c) *Prohibited statements.* Statements of the following types may not be made in the ingredient list: (1) negative statements, such as "contains no additives"; (2) statements of ingredients formed within the product, as lactones formed by storage in wood; (3) functional statements, such as "to clarify" (except as noted in paragraph (b)); and (4) statements denoting quality, as provided in § 5.42(b)(6).

(d) *Form of list.* The list shall be separate and distinct from all other matter shown on the label, and shall take substantially the following form: "Made from:" followed by a listing of all ingredients required to be listed. Ingredients which are duplicated in the components of a finished product need be listed only once.

(e) *Order of predominance.*—(1) *General.* Ingredients shall be listed in descending order of their predominance by weight in the original formulation of the product except for the options described in paragraphs (e)(2) and (e)(3) of this section.

(2) *Cereal grains.* Cereal grains, which are, for purposes of this part, unconverted and unsprouted grains regardless of form (i.e., whole, cracked, degerminated, etc.) may, in lieu of being listed as in paragraph (e)(1) of this section, be listed as "cereal grains", in descending order of predominance of the grains as a class; if this option is chosen, however, no individual grain may be listed anywhere on the label unless each grain used is listed, in descending order of predominance, in the ingredient list.

(3) *Minor ingredients.* Minor ingredients, which are, for purposes of this part, individual ingredients, each of which make up less than 0.25 percent by weight in the original formulation of the product, may, in lieu of listing as in paragraph (e)(1), be listed in alphabetical order. If this option is chosen, the listing shall be in the following form: "with less than 0.25 percent each d-limonene, neobee, etc., added".

(f) *Nomenclature.* Wherever possible, ingredients shall be listed by common

name (i.e., a name likely to be recognized by the average consumer as referring to a distinct substance). Natural ingredients shall be broken down into basic foodstuffs, such as "corn", "corn syrup", "sugar", "salt", "malt", "yeast", "enzymes", "orange juice". Ingredients which do not have common names shall be identified by their chemical names. Chemical mixtures, unless they can be identified by common names, will be broken down into their component compounds. As an example, a cloud emulsion which contains d-limonene, citric acid, and neobee will be listed by the names of the three individual components. Chemical nomenclature will be based on that used by the Food and Drug Administration in 21 CFR Part 121. All substances listed in 21 CFR Part 121 shall be identified in the ingredient list by the name used therein.

(g) *Coloring materials.* Synthetic or natural materials which primarily contribute color shall be identified in the ingredient list

(1) by the words "artificially colored"; or

(2) by the words "certified color" if the colors are from lots certified by the manufacturer to be from lots certified by the Food and Drug Administration; or

(3) by the common or usual name of the color in conjunction with the words "colored with _____" or "_____ colored" (examples are "colored with FD&C yellow No. 5" or "caramel colored").

(h) *Flavoring materials.*—(1) *Use of artificial flavoring materials.* No flavoring material for use in distilled spirits may contain any ingredient not authorized for such use, or for general food use, by the Food and Drug Administration. Further, any single material added to distilled spirits which comprises more than five percent by volume of the finished product is automatically considered a basic ingredient, and not a flavoring material. However, any single material added to distilled spirits which comprises five percent or less of the finished product is not to be considered a flavoring material for that reason only.

(2) *Identification of artificial flavoring materials.* Artificial flavoring materials are defined as any flavoring materials not included in the definition of "natural flavors" in § 5.11. Such flavoring materials shall be identified in the ingredient list by the words "artificially flavored".

(3) *Natural flavoring materials.* When no flavoring materials other than "natural flavors", as defined in § 5.11, have been used, a truthful and adequate statement of the source of the flavor shall be made, or, alternatively, the words "naturally flavored" may be used.

(4) *Flavoring materials which also contribute color.* Flavoring materials which also contribute color shall be identified in the ingredient list as both colors and flavors.

(i) *Sodium.* The presence of sodium in distilled spirits, whether added (in the form of sodium salts or otherwise) or naturally present, shall be stated immediately following the ingredient list in the following form: "Contains less than ____ mg. of sodium per 30 ml. (1 oz.) serving": *Provided*, That no such listing of sodium shall be required if the sodium content is less than 1 mg. per 30 ml. (1 oz.) serving.

(j) *Wine.* Wine used in a distilled spirits product which comprises not more than 2½ percent by weight in the original formulation of the product, and which primarily contributes flavor, may be listed as a flavoring material under the provisions of paragraph (h). Optionally, wine which comprises not more than 2½ percent by weight in the original formulation of the product may be listed by class and type as defined in 27 CFR Part 4. Wine which comprises more than 2½ percent by weight in the original formulation of the product will be listed by class and type.

(k) *Products containing more than one type of distilled spirits.* Products such as cordials and cocktails, which contain two or more distinct types of distilled spirits, other than alcoholic flavoring materials, shall be listed by the ingredients contained in each such distinct type which comprises ten percent or more of the total distilled spirits content of the product, on a proof gallon basis. Types which comprise less than ten percent of the total distilled spirits content of the product on a proof gallon basis shall be listed by class and type, as defined in this part.

(l) *Domestic distilled spirits bottled or packed prior to January 1, 1977.* Domestic distilled spirits bottled or packed prior to January 1, 1977, shall not be required to bear the list of ingredients required by this section.

(m) *Imported distilled spirits bottled or packed prior to January 1, 1977.* Labels on imported distilled spirits removed from customs custody for consumption which were bottled or packed prior to January 1, 1977, shall not be required to bear the list of ingredients required by this section, if the shipment is accompanied by the statement required by § 5.51(c). Labels on imported distilled spirits bottled or packed on or after January 1, 1977, shall comply with the requirements of this section as a condition for removal from customs custody.

PAR. 10. Section 5.42 is amended by (1) making an editorial change in paragraph (a)(1); (2) adding a new paragraph (b)(6), and (3) redesignating paragraphs (b)(6) through (b)(8) as paragraphs (b)(7) through (b)(9). As amended, paragraphs 5.42(a)(1), (b)(6), (b)(7), (b)(8), and (b)(9) read as follows:

§ 5.42 Prohibited practices.

(a) * * *

(1) Any statement that is false or untrue in any particular or that, irrespective of falsity, directly or by ambiguity, omission, or inference, or by the addition of irrelevant scientific technical matter, tends to create a misleading impression.

* * * * * *

(b) * * *

(6) The ingredient list required by § 5.39a of this part shall not contain any words or statements denoting the quality of any ingredient listed. Examples of prohibited words are "finest" corn, "best" yeast.

(7) Distilled spirits shall not be labeled as "double distilled" or "triple distilled", or any similar term.

(8) Labels shall not contain any statement, design, device, or pictorial representation which the Director finds relates to, or is capable of being construed as relating to, the armed forces of the United States, or the American flag, or any emblem, seal, insignia, or decoration associated with such flag or armed forces; nor shall any label contain any statement, design, device, or pictorial representation of or concerning any flag, seal, coat of arms, crest or other insignia, likely to mislead the consumer to believe that the product has been endorsed, made, or used by, or produced for, or under the supervision of, or in accordance with the specifications of the government, organization, family, or individual with whom such flag, seal, coat of arms, crest, or insignia is associated.

(9) Labels shall not contain any statement, design, or device representing that the use of any distilled spirits has curative or therapeutic effects if such statement is untrue in any particular or tends to create a misleading impression.

PAR. 11. Section 5.51 is completely revised to read as follows:

§ 5.51 Label approval and release.

(a) *Certificate of Label Approval.* No imported distilled spirits in containers shall be released from customs custody for consumption unless there shall have been deposited with the appropriate customs officer at the port of entry the original or a photostatic copy of an "Application for and Certification of Label Approval under the Federal Alcohol Administration Act" (Form 1649). Such certificate shall be issued by the Director upon application made on Form 1649, properly filled out and certified to by the importer or transferee in bond.

(b) *List of ingredients.* Each application for a certificate of label approval covering imported distilled spirits in containers bottled or packed after December 31, 1976, shall be accompanied by a list of ingredients, certified by a duly authorized official of the appropriate foreign country, and such list shall contain the information required by § 5.39a. Where the distilled spirits have been blended or treated in more than one foreign country, an appropriate certified list of ingredients must be prepared by a duly authorized official of each such country.

(c) *Release.* If the original or photostatic copy of Form 1649 bears the signature of the Director, then the brand or lot of imported distilled spirits bearing labels identical with those shown thereon (except for the list of ingredients, which may be on Form 1649 Supplemental) may be released from customs custody. Distilled spirits bottled or packed before January 1, 1977, may be released from customs custody for consumption without the list of ingredients required by § 5.39a only if accompanied

XUM
V40129
FEB 11 75
XUM

by a statement signed by a duly authorized official of the appropriate foreign country, that the distilled spirits were bottled or packed prior to January 1, 1977. Distilled spirits bottled or packed on or after January 1, 1977, shall not be released from customs custody unless the Form 1649 on file is accompanied by the certified list of ingredients and the label bears a list of ingredients.

(d) *Relabeling.* Imported distilled spirits in customs custody which are not labeled in conformity with certificates of label approval issued by the Director (including Form 1649 Supplemental) and containing all information required by this section must be relabeled, prior to release, under the supervision of the customs officers of the port at which the spirits are located.

(e) *Statements of process.* Forms 1649 covering labels for gin bearing the word "distilled" as a part of the designation shall be accompanied by a statement prepared by the manufacturer, setting forth a step-by-step description of the manufacturing process.

(f) *Approval of ingredient lists.* Where there is no change in the location, size or prominence of the mandatory information on a label covered by a valid Form 1649, except for the addition of, or a change in, the list of ingredients required by § 5.39a, a new Form 1649 need not be filed; in lieu thereof an application for approval of the ingredient list may be filed on Form 1649 Supplemental, in accordance with the instructions on the form. If the identical ingredient list is to be used with more than one approved label, a single Form 1649 Supplemental may be filed covering all such labels.

PAR. 12. Section 5.55 is amended by (1) adding two sentences at the end of paragraph (a); (2) adding a new paragraph (b); and (3) redesignating paragraphs (b) and (c) as (c) and (d). As amended § 5.55 reads as follows:

§ 5.55 Certificates of label approval.

(a) *Requirement.* Distilled spirits shall not be bottled or removed from a plant, except as provided in paragraph (c) of this section, unless the proprietor possesses a certificate of label approval, Form 1649, covering the labels on the bottle, issued by the Director pursuant to application on such form. Applications for certificates of approval covering labels for imported gin bearing the word "distilled" as a part of the designation shall be accompanied by a statement, prepared by the manufacturer, setting forth a step-by-step description of the manufacturing process. Each application for a certificate of label approval covering labels for imported spirits shall be accompanied by a list of ingredients, certified by a duly authorized official of the appropriate foreign country, and such list shall contain the information required by § 5.39a. Where the spirits have been blended, rectified, or treated in more than one foreign country, an appropriate certified list of ingredients must be prepared by a duly authorized official of each such country.

(b) *Approval of ingredient lists.* Where there is no change in the location, size or prominence of the mandatory information on a label covered by a valid Form 1649, except for the addition of, or a change in, the list of ingredients required by § 5.39a, a new Form 1649 need not be filed; in lieu thereof an application for approval of the ingredient list may be filed on Form 1649 Supplemental, in accordance with the instructions on the form. If the identical ingredient list is to be used with more than one approved label, a single Form 1649 Supplemental may be filed covering all such labels.

(c) *Exemption.* Any bottler of distilled spirits shall be exempt from the requirements of paragraphs (a) and (b) of this section and § 5.56 if he possesses a certificate of exemption from label approval, Form 1650, issued by the Director pursuant to application on Form 1648 showing that the distilled spirits to be bottled are not to be sold, offered for sale, or shipped or delivered for shipment, or otherwise introduced in interstate or foreign commerce.

(d) *Miscellaneous.* Photoprints or other reproductions of certificates of label approval, or certificates of exemption are not acceptable as substitutes for an original or duplicate original (issued, on request, by the Director) of a certificate. The original or duplicate original of such certificates shall, on demand, be exhibited to a duly authorized officer of the U.S. Government.

Requests to present oral testimony. All persons who desire to present oral testimony should so advise the Director, Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20226, not later than April 9, 1975. Requests shall be submitted in an original and three copies and must include (1) the name and address of the party submitting the request, (2) the name and address of the person or persons who will present oral testimony, and (3) the approximate length of time desired for the presentation of testimony.

Submission of written material. Any interested party may submit to the Director, Bureau of Alcohol, Tobacco and Firearms, Washington, D.C. 20226, in an original and nine copies, relevant written data, views, or arguments for incorporation into the record of hearing. Written material must be submitted not later than April 9, 1975. Written comments or suggestions which are not exempt from disclosure by the Bureau of Alcohol, Tobacco and Firearms, may be inspected by any person upon compliance with 27 CFR 71.22(d)(7). The provisions of 27 CFR 71.31(b) shall apply with respect to designation of portions of comments or suggestions exempt from disclosure. The name of any person submitting comments (whether or not exempt from disclosure in whole or in part) is not exempt from disclosure.

At the conclusion of the hearing, a reasonable time will be afforded interested parties for the examination of the record and submission of written arguments and briefs.

Dated: January 21, 1975.

REX D. DAVIS,
Director, Bureau of Alcohol, Tobacco and Firearms.

Approved: February 4, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 221]

FLATHEAD IRRIGATION PROJECT

Operation and Maintenance Rates

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 FR 13938), and by virtue of the authority delegated to the Commissioner of Indian Affairs to the Area Director (10 BIAM-3; 34 FR 637), and by authority delegated to the Project Engineer and to the Superintendent by the Area Director June 11, 1969, Release 10-2, 10 BIAM 7.0, §§ 2.70-2.75.

Notice is hereby given that it is proposed to revise §§ 221.16 and 221.17 of Title 25, Code of Federal Regulations, dealing with the irrigable lands of the Flathead Indian Irrigation Project, Montana, that are *not* subject to the jurisdiction of the several irrigation districts. The purpose of the amendment is to establish the assessment rate for non-district lands of the Flathead Indian Irrigation Project for 1975 and thereafter until further notice.

It is the policy of the Department of the Interior, whenever practicable, to afford the public the opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions or objections with respect to the proposed amendment to the Project Engineer, Bureau of Indian Affairs, Flathead Indian Irrigation Project, St. Ignatius, Montana, 59865, on or before March 13, 1975.

Section 221.16 is revised to read as follows:

§ 221.16 Charges, Jocko Division.

(a) An annual minimum charge of $4.67 per acre, for the season of 1975 and thereafter until further notice, shall be made against all assessable irrigable land in the Jocko Division that is not included in an Irrigation District organization, regardless of whether water is used.

(b) The minimum charge when paid shall be credited on the delivery of the pro rata per acre share of the available water up to one and one-half acre feet per acre for the entire assessable area of the farm unit, allotment or tract. Additional water, if available, will be delivered at the rate of three dollars and twelve cents ($3.12) per acre foot or fraction thereof.

Section 221.17 is revised to read as follows:

§ 221.17 Charges, Mission Valley and Camas Division.

(a)(1) An annual minimum charge of $4.57 per acre, for the season of 1975 and thereafter until further notice, shall be made against all assessable irrigable land in the Mission Valley Division that is not included in an Irrigation District organization regardless of whether water is used.

(2) The minimum charge when paid shall be credited on the delivery of pro rata per acre share of the available water up to one and one-tenth acre feet per acre for the entire assessable area of the farm unit, allotment or tract. Additional water, if available, will be delivered at the rate of three dollars and six cents ($3.06) per acre foot or fraction thereof.

(b)(1) An annual minimum charge of $6.00 per acre, for the season of 1975 and thereafter until further notice, shall be made against all assessable irrigable land in the Camas Division that is not included in an Irrigation District organization regardless of whether water is used.

(2) The minimum charge when paid shall be credited on the delivery of the pro rata per acre share of the available water up to one and one-half acre feet per acre for the entire assessable area of the farm unit, allotment or tract. Additional water, if available, will be delivered at the rate of four dollars ($4.00) per acre foot or fraction thereof.

GEORGE L. MOON,
Project Engineer.

DEPARTMENT OF COMMERCE

Patent and Trademark Office

[37 CFR Parts 1, 2, 4]

PATENT AND TRADEMARK CASES

Rules and Procedures

Notice is hereby given that, pursuant to the authority contained in section 41 of the Act of July 5, 1946 (60 Stat. 440, 15 U.S.C. 1123) and section 6 of the Act of July 19, 1952 (66 Stat. 793, 35 U.S.C. 6), as amended October 5, 1971 (85 Stat. 364), the Patent and Trademark Office proposes to amend Title 37 of the Code of Federal Regulations by revising or amending §§ 1.12, 1.136, 1.197, 1.244, 1.256, 1.304, 2.18, 2.37, 2.75, 2.80, 2.85, 2.101, 2.102, 2.103, 2.105, 2.111, 2.112, 2.120, 2.123, 2.127, 2.129, 2.141, 2.144, 2.145, 2.162, 2.172, 2.183, 2.185, 2.187 and 4.2.

All persons are invited to present their written views, objections, recommendations, or suggestions in connection with the proposed changes to the Commissioner of Patents and Trademarks, Washington, D.C. 20231 on or before May 1, 1975. No oral hearing will be held. Written comments or suggestions will be available for examination by interested persons at Crystal Plaza Building 3, Room 11C17a, 2021 Jefferson Davis Highway, Arlington, Virginia.

Assignment records open to public inspection. The proposed revision of § 1.12 is intended to make clear the existing practice that assignment records relating to trademark applications and registrations are open to the public. The present wording, which is based on the amendment of § 1.12 on August 23, 1965 (819 O.G. 443), does not clearly distinguish between the procedure to be applied to patent records and to trademark records. In view of a number of inquiries as to the manner in which the amendment was to be applied, a notice was published in the Official Gazette of January 18, 1966 (822 O.G. 769) stating that assignments relating to applications for registration of trademarks will be open to public inspection as heretofore. Since assignment records relating to trademark applications and registrations have always been open to the public, which practice continues at the present time, it is believed desirable to make the practice clear.

In the third sentence of the section, language is added to indicate that the requirement for written authority applies only to patent applications.

Time less than six months. It is proposed to revise paragraph (b) of section 1.136 to read "sufficient cause" rather than "good and sufficient cause." This revision is merely for consistency of language with other sections in this part and does not represent any change in practice.

Reconsideration of decision. It is proposed to revise paragraph (b) of § 1.197, paragraph (b) of section 1.256, paragraph (c) of §§ 2.129, and 2.144, to provide that the Board of Appeals, the Board of Patent Interferences, and the Trademark Trial and Appeal Board may, for sufficient cause, extend the time for filing a request for rehearing or reconsideration, or modification of a decision rendered by these Boards. Proposed revised paragraph (b) of § 1.256 and paragraph (c) of § 2.129 provide similar opportunity for extension of time for filing a reply to such a request in inter parties cases. The purpose of these revisions is to eliminate the necessity for waiver of a rule by the Commissioner in order for a party to obtain an extension of time.

In these sections, as well as in the related §§ 1.244(c), 2.127(b), 1.304 and 2.145(d), it is proposed to use the term "request" rather than "petition" in connection with rehearing or reconsideration, in order to avoid redundancy and in order to clearly distinguish such action from a petition to the Commissioner.

Time for appeal or civil action. Proposed revised § 1.304 and proposed revised paragraph (d) of § 2.145 clarify the portion of each which relates to the time for filing appeal or commencing civil action in cases where a request for rehearing or reconsideration, or modification of a decision, is filed. Present §§ 1.304 and 2.145(d) provide for an extension of time for appeal or civil action if a request for rehearing is filed within thirty days after a decision, but their language is subject to the interpretation that they deny any extension if the request for rehearing is filed more than thirty days after the date of a decision. It has been the practice of the Patent and Trademark Office, however, in those cases where the thirty days to file a request for rehearing has been enlarged by waiver of rule by the Commissioner under § 1.183 or § 2.148, to consider the waiver as also applying to the thirty day period specified in §§ 1.304 and 2.145(d). *Dresser Industries, Inc.* v. *Safety-Kleen Corporation*, 183 USPQ 180 (Comr. Pats. 1974).

In order to clarify the meaning of § 1.304 and paragraph (d) of § 2.145, it is proposed to revise these sections to eliminate all reference to a definite time for filing a request for rehearing, and to include instead reference to the provisions for filing request for rehearing which are made in §§ 1.197(b), 1.256(b), 2.129(c) and 2.144. Such sections are proposed to be revised to provide for extension of the basic time specified therein.

Proposed revised § 1.304 and paragraph (d) of § 2.145 also provide that the time for appeal or commencing civil action (whether it be the original sixty days, or the thirty days extension after decision on a request for rehearing) may be extended by the Commissioner upon a showing of sufficient cause.

Proposed revised § 1.304 is arranged in three subsections identified as (a), (b) and (c), and paragraph (d) of § 2.145 is arranged in three subsections identified as (1), (2) and (3). The purpose of separate subsections is to provide a means for easier reading and understanding of these sections in view of the fact that three different points are included in the sections. The proposed rearrangement does not affect practice.

Elimination of reasons of appeal in trademark cases. It is proposed to revise paragraphs, (a), (b) and (d) of § 2.145 to eliminate reference to the need to file the reasons of appeal in the Patent and Trademark Office when appealing a decision of the Trademark Trial and Appeal Board to the U.S. Court of Customs and Patent Appeals, consistent with the modification of section 21 of the trademark act made by Pub. L. 93-600, enacted January 2, 1975.

Recognition for representation, powers of attorney, and correspondence with attorney. It is proposed to revise §§ 2.18 and 4.2 to clarify the existing practice of the Patent and Trademark Office in relation to firms of attorneys and powers of attorney, and the handling of correspondence with attorneys and other recognized persons, in trademark cases.

Under present practice firms of attorneys are not recognized for practice before the Office in trademark cases. The persons indentified in § 2.12 who may represent others before the Office are persons to whom individual responsibility may attach for actions taken and who must conform under § 2.13 to the

XUM
V 4 0 2 9
F E B 1 1 7 5
XUM

Code of Professional Responsibility of the American Bar Association. Section 2.12(a) pertains to attorneys at law and does not provide for representation by a firm of attorneys as distinguished from individual attorneys. Further, reference to representation by a firm of attorneys was eliminated from § 2.15 by amendment effective July 2, 1971 (see 890 O.G. TM 60, September 14, 1971). If a firm name is given in the signature location on a paper filed by an attorney, nevertheless under § 2.15 an individual attorney must actually sign the paper.

It is not necessary under existing practice for an attorney at law filing a paper in connection with a trademark case to have a power of attorney from the party whom he represents. Normally, a letter of transmittal on an attorney's letterhead for a paper not required to be signed by the attorney, such as an application, or an attorney's signature on a paper during prosecution, or a personal appearance, is sufficient for an attorney to be recognized as a party's representative. If deemed necessary, further proof may be required under § 2.17(a) of an attorney's authority to act for a party or an attorney's qualifications under § 2.12(a).

Although not needed, a written power of attorney is accepted if it is filed. Such power may be revoked, and if revoked, the Office will not thereafter recognize such attorney in that case unless he is again specifically appointed. Any written power of attorney which is filed should designate individuals and not firms of attorneys; a power of attorney which designates a firm rather than individuals is not considered to be a power but merely a direction that correspondence be addressed to that firm. (See 890 O.G. TM 60, September 14, 1971.)

It is proposed to eliminate from § 4.2 (power of attorney form) the requirement to identify bar membership, since further proof may be required under section 2.17(a) if there appears to be any reason to question either an attorney's authority to represent a party or an attorney's qualifications under § 2.12(a). It is further proposed to eliminate from § 4.2 present Note (8) which calls for the names of law firm members and their bar membership if a firm name is used, and to add a new Note (8) which indicates that individuals should be appointed and that naming a firm will serve only as a designation of address for correspondence.

Proposed revised § 2.18 is intended to clarify the practice relative to the address to which correspondence is sent by the Office when an attorney at law or other recognized person is acting on behalf of a party. When an attorney or other recognized person is representing a party, correspondence is sent to such attorney or other recognized person at the address specified when such person's representation is established. The Office will not undertake to correspond with more than one person at more than one address. Therefore if another attorney or recognized person files a paper, the paper will be accepted but correspondence will continue to be sent to the address of the attorney or representative as already established in the file until the Office receives written instruction by the attorney or other representative, or by the party being represented, to send correspondence to another address. A subsequently filed power of attorney or authorization of agent is regarded by the Office as a change of address for correspondence even though there is no revocation of the previous power or authorization, but in other situations a specific request is necessary, and language such as "Send correspondence to (giving address, or name and address)", is the most desirable means for changing the correspondence address. Other types of statements will be accepted by the Office if their intention is sufficiently clear to be reasonably interpreted as a request to change the address to which correspondence is to be sent. Neither the appointment of an associate attorney nor the filing of a paper by a different recognized representative has any effect on correspondence unless an instruction to change the correspondence address is included.

The Office does not send notice or acknowledgement of changes of address. Only a written revocation of a written power of attorney is acknowledged by the Office.

Designation of domestic representative by person not domiciled in the United States. In § 2.37 and paragraph (a) (4) of § 2.185, it is proposed to change the terms "appointment" and "resident agent" to "designation" and "domestic representative," respectively, to conform to the language of section 1(d) of the Trademark Act of 1946. This will not change present practice.

Effective filing date for the Supplemental Register. In § 2.75 it is proposed to add the word "effective" before "filing date" in order to make clear the existing practice that, when the filing date of an amendment to convert an application for registration on the Principal Register to an application for registration on the Supplemental Register becomes the filing date of the latter application, such date is considered to be the effective filing date of that application. This change in wording is in agreement with the language "effective filing date" used in § 2.83.

Publication of marks placed in interference. The proposed revision of § 2.80 restores a reference to publication of the mark in case of interference which was omitted inadvertently when § 2.80 was amended as of March 1, 1972 (896 O.G. TM 2). Although interference is not now declared except upon petition to the Commissioner (amendment of § 2.91 as of March 1, 1974 (896 O.G. TM 2)), the practice of publishing the mark when interference is declared was continued.

Fee for petition to revive a multiple class application. It is proposed to revise paragraph (e) of § 2.85 to delete reference to a petition to revive and thereby to make clear that only one fee is required for a petition to revive an abandoned application in which there is more than one class. Section 31 of the trademark act specifies a fee which shall be paid "on filing each petition for the revival of an abandoned application" without qualification as to the number of classes in the application, and therefore only one fee for each petition is considered to be necessary. For the same reason, in connection with multiple class registrations, under existing practice a single fee is sufficient for issuance of a new certificate of registration following change of ownership of a mark (§ 2.171) or correction of a registrant's mistake (§ 2.175), for certificate of correction of registrant's mistake (§ 2.175), or for amendment or disclaimer after registration (§2.173).

Fee required for each class being opposed, and insufficient fees for classes in application being opposed. Proposed revised §§ 2.101, 2.102 and 2.103 make clear the existing requirement that when there is more than one class in an application (such as in a combined application), the required fee must be paid for each class when filing an opposition against such application.

These proposed revised sections also provide that when the fees which accompany an opposition are insufficient to cover all classes in the application being opposed, which may occur with a combined application, opposer should specify the classes in which opposition to registration of the mark is sought, so that the Office will not be required to select classes or make further inquiry in that respect and will be able to process the opposition promptly in the particular classes which opposer desires. This is in accord with present practice. See notice in the Official Gazette of August 11, 1964 (805 O.G. TM 39).

Joining persons in an opposition. Proposed revised § 2.101 provides that two or more persons may be joined in an opposition, but that the required fee for each class in which each person seeks opposition must be paid for each person so joined. By this revision, existing practice is incorporated into this section. See notice in the Official Gazette of August 11, 1964 (805 O.G. TM 39).

Unverified opposition during extension of time. It is proposed to further revise §§ 2.102 and 2.103 to permit an unverified opposition to be filed by an attorney or agent during an extension of time for opposition as well as within the original thirty days for opposition after publication of the mark. Present practice limits the filing of an unverified opposition to thirty days after publication. Nevertheless it has been found that some oppositions filed during extensions of time are unverified, and that when the defect is discovered, either there is insufficient time in the extended period to file a verified opposition or the period has expired. It seems desirable to eliminate a situation that has in some cases proven to be a difficulty for opposers. Since the main effort and cost of preparing and filing an opposition is expended even though the opposition is unverified, it is believed that in most instances opposers will file verified oppositions in extended

opposition periods. Further, any unverified opposition must be confirmed by opposer by verification or declaration within thirty days after its filing. For both reasons it is believed that the proposed change in practice will not result in any undue delay in registration.

Proposed revised § 2.102 provides that an opposition filed within an extension of time to oppose must be accompanied by the required fee for each class, and states that the opposition should be verified or include a declaration in accordance with § 2.20. However, in case verification or declaration cannot be secured within the extension of time, proposed revised § 2.103 provides that an unverified opposition may be filed within an extension of time to oppose. Such unverified opposition must be confirmed by opposer by verification or declaration within thirty days after its filing.

Extension of time to oppose. It is proposed to further revise § 2.102 to make clear existing practice as to who may request an extension of time to oppose and who may file opposition during an extension of time. Request to extend the time for filing opposition must be made by a person who is eligible to oppose, that is, a person who believes that he would be damaged by the registration of the mark on the Principal Register. An attorney at law or other person recognized to represent a party may file a request for extension of time on behalf of a potential opposer. *La Maur, Inc.* v. *Andis Clipper Co.*, 181 USPQ 783 (Comr. Pats. 1974). The potential opposer must be identified in the request for extension because an extension of time is a personal privilege which is normally granted only to the person who has requested it. A problem has been, however, that complete information is sometimes not available at the time request for extension of time must be filed, so that there is a misidentification of the potential opposer, or, where there are parties in privity, for example related companies, one of the interested parties is named whereas later the other will be found to be the proper party to oppose. For this reason, it is considered desirable to permit opposition to be filed during an extension of time by a person whose name varies or is different from the name of the person to whom the extension was granted, provided the difference in names constitutes mere misidentification as a result of mistake and is not a difference in entity, or provided the persons designated are in privity, such as in the case of related companies under section 5 of the trademark act. This practice is in accord with the decision in *F. Jacobson & Sons, Inc.* v. *Excelled Sheepskin Co.*, 140 USPQ 281 (Comr. Pats. 1963). An analogous situation is found in *Universal Oil Products Co.* v. *Rexall Drug and Chemical Co.*, 174 USPQ 458 (CCPA 1972), where a parent company was permitted to oppose although the mark on which opposition was based was owned by the parent's subsidiary company.

When there is uncertainty between persons in privity as to which will ultimately be the proper opposer, it is desirable that the persons and their relationships be identified as clearly as possible in the request for extension of time.

First thirty-day extension of time to oppose. It is proposed to revise § 2.102 consistently with Pub. L. 93–600, effective January 2, 1975, which provides for a first thirty-day extension of the time for filing an opposition upon request without showing good cause.

Transmittal of opposition. It is proposed to revise § 2.105 to eliminate reference to transmittal of an opposition by the Examiner of Trademarks to the Trademark Trial and Appeal Board, in view of the fact that all activity connected with the processing of oppositions has been transferred from the Trademark Examining Operation to the Trademark Trial and Appeal Board.

It is further proposed to revise § 2.105 by changing the word "notice" throughout the section to the word "notification" and also by changing the word "Institution" in the heading of the section to the word "Notification". The purpose of these changes is to make clear the present practice of regarding the paper which is prepared in accordance with this section to be merely a notification to the parties of the existence of a proceeding which commenced at the time the opposition was filed.

Fee required for each class for cancellation, and insufficient fees for classes in registration. Proposed revised §§ 2.111 and 2.112 make clear the existing requirement that when there is more than one class in a registration, the required fee must be paid for each class when filing a petition to cancel the registration. A petition to cancel which is accompanied by fees insufficient to cover each class in the registration should specify the classes for which cancellation is sought, so that the Office will not be required to select classes or make further inquiry in that respect, and cancellation may be accomplished promptly in the classes desired. This is in accord with present practice.

Order compelling discovery in inter partes cases. Because of the increasing burden upon the Trademark Trial and Appeal Board as a result of the frequency and complexity of the motions being filed to compel discovery under rules adopted July 1, 1972 (898 O.G. TM 170, May 16, 1972), it is considered desirable that before seeking an order from the Board compelling discovery, the parties themselves be required to attempt to resolve the issues by mutual agreement. It is proposed to accomplish this by revising paragraph (c) of § 2.120 to require that a motion for an order compelling discovery be supported by an affidavit or a declaration in accordance with § 2.20 stating that the moving party or its attorney has conferred with the opposing party or its attorney in good faith in an effort to resolve by agreement the issues raised by the motion and that the parties have been unable to reach agreement with respect thereto, or specifying the parts of the issues, if any, which have been resolved. See *Angelica Corporation* v. *Collins & Aikman Corporation*, 183 USPQ 378 (TT&A Bd. 1974), and *Cool-Ray, Inc.* v. Eye Care, Inc., 183 USPQ 618 (TT&A Bd. 1974).

Requirements for depositions. It is proposed to revise paragraph (g) § 2.123 by adding a subsection numbered (3) thereto in order to restore to this section a designation of the existing requirements as to the form of depositions which was omitted inadvertently when paragraph (g) of this section was amended as of July 1, 1972 (898 O.G. TM 170, May 16, 1972).

Comments on inter partes procedures in general. In addition to the changes in inter partes procedures which are proposed herein, the Patent and Trademark Office is currently making an overall review of the efficiency and effectiveness of all of the amended inter partes rules of procedure in trademark cases which became effective as of July 1, 1972 (898 O.G. TM 170, May 16, 1972). The Patent and Trademark Office would welcome comments on any present inter partes procedures separate from comments on the specific revisions proposed herein.

Requests for reconsideration of decisions on motions. Motion procedures before the Trademark Trial and Appeal Board under §§ 2.127 and 2.129 follow the Federal Rules of Civil Procedure, which results in a multiplicity of types of motions being available. Some of these could be finally dispositive of a case and appeal could be taken from them. It therefore seems desirable to distinguish in trademark cases between the procedures as to decisions on motions which are finally dispositive of a case and decisions on motions which are not finally dispositive. To accomplish this it is proposed to revise paragraph (b) of § 2.127 to limit the section to motions which are not finally dispositive of a case. Any request for rehearing of such motions must be filed within thirty days, as is the existing practice. It is proposed to revise paragraph (c) of § 2.129 to include a reference to decisions on motions which are finally dispositive of a case and thus to make it clear that a request for rehearing of any final decision (including those on motions) may be filed within thirty days and that such time may be extended for sufficient cause.

Fee required for each class on appeal, and insufficient fees for classes in application on appeal. Proposed revised § 2.141 makes clear the existing requirement that when there is more than one class in an application (such as in a combined application), the prescribed fee must be paid for each class when appealing to the Trademark Trial and Appeal Board.

The proposed revised section also provides that when the fees which accompany an appeal are insufficient to cover all classes in the application being appealed, which may occur with a combined application, applicant should specify the classes in which appeal is taken, so that the Office will not be required to select classes or make further

XUM
V40129
FEB 11 75
XUM

inquiry in that respect and will be able to set up the appeal promptly in the particular classes which applicant desires. This is in accord with present practice.

Requirements for affidavit or declaration under section 8 of the Act of 1946. Proposed revised § 2.162 provides that an affidavit or declaration in accordance with § 2.20 containing either a statement of use or recitation of facts as to excusable nonuse must be filed before the expiration of the specified sixth year. However, if the evidence supporting the statement of use is not submitted or is found to be deficient, such supporting evidence may be filed thereafter, and may be considered even though filed after the expiration of the sixth year, and if the recitation of facts as to nonuse are found not to be sufficient, further evidence or explanation may be submitted and may be considered even though filed after the expiration of the sixth year. The statement of use or the recitation of facts as to excusable nonuse in the affidavit or declaration meets the statutory requirement of making a showing within the sixth year, although such statement or recitation is not necessarily conclusive and may be required to be supported by other evidence. *In re The Magnavox Company*, 177 USPQ 274 (Comr. Pats. 1973).

The phrase "specifying the nature of such use" is omitted from paragraph (c) of proposed revised § 2.162 because its meaning is unclear and it does not identify any requirement which is necessary for an affidavit or declaration under section 8 of the act.

The proposed revised section also makes it clear that where there is more than one class in a registration, a statement of use or a statement as to nonuse, and appropriate evidence in support thereof, is necessary with respect to each class in the registration, and that the required fee is necessary for each class in the registration. An affidavit or declaration under section 8 which is accompanied by fees insufficient to cover each class in the registration should specify the classes to which the affidavit or declaration pertains, so that the Office will not be required to select classes or make further inquiry in that respect and will be able to determine promptly the question of acceptance or refusal in relation to relevant classes.

Surrender for cancellation. Proposed revised § 2.172 makes clear the existing practice of regarding a request to delete one entire class, or more than one entire class but less than the total number of classes, from a registration in which there is more than one class, as a surrender of a registration as to the specified class or classes, and not as an amendment of a registration. Each class is treated in effect as a separate registration. On the other hand, deletion of less than all of the goods or services in a class constitutes amendment of a registration as to that class. No fee is required for surrender, whereas a fee is required for each class which is amended.

Requirements of application for renewal. It is proposed to revise paragraph (c) of § 2.183 to provide that when facts are recited in an application for renewal to show excusable nonuse and such facts are found to be deficient, additional evidence or explanation may be considered by the Examiner even though filed after the expiration of the initial six month period for applying has expired, or after the three month delay period in the case of a delayed application for renewal. The recitation in the application of facts to show excusable nonuse meets the statutory requirement of making a showing within the required time, although such statement or recitation is not necessarily conclusive and may be required to be supported by other evidence. *In re The Magnavox Company*, 177 USPQ 274 (Comr. Pats. 1973).

Section 2.183 as proposed to be revised also makes clear the existing practice that when there is more than one class in a registration, a declaration or verified statement of use and a specimen or facsimile, or a recitation of facts as to nonuse, are necessary with respect to each class in the registration, and that the required fee is necessary for each class in the registration when renewing the registration. An application for renewal which is accompanied by fees insufficient to cover each class should specify the classes with regard to which renewal is desired.

Signature of translator for English translation. The proposed revision of paragraph (a)(2) of § 2.185 is intended to make it clear that the signature necessary for an English translation of a foreign document is the signature of the translator of the document, and that the signature only is needed, not a verification or a declaration in accordance with section 2.20.

Certificate of registration may issue to assignee. Proposed revised § 2.187 sets forth more specifically the procedure for giving notice to the Patent and Trademark Office in time to permit issuance of a certificate of registration in a name other than the name of the original applicant. If an assignment document or a certificate of change of name is of record in the Assignment Division of the Patent and Trademark Office before the notice of publication of a mark is mailed, there is sufficient time for the necessary information to reach the application file before the application is prepared for issuance of the certificate of registration. Also, if at any time prior to the preparation of the application for issue, a paper is filed in an application stating that a document has been filed for recordation, the application can be flagged and held until the necessary information reaches the file from the Assignment Division.

If a certificate of registration is to be issued to an assignee, there must be in the application file an address for such assignee; if there is not, the inquiry necessary to obtain the address may delay the issuance of the certificate of registration.

Change in name of Patent Office. All of the sections proposed to be modified herein have been revised to reflect the change in the name of the Patent Office to the Patent and Trademark Office, and the change in title of the Commissioner of Patents to Commissioner of Patents and Trademarks, in accordance with Pub. L. 93-596, effective January 2, 1975.

The text of the proposed revised sections or paragraphs of sections is as follows:

§ 1.12 Assignment records open to public inspection.

The assignment records, relating to original or reissue patents, including digests and indexes, and assignment records relating to pending or abandoned trademark applications and to trademark registrations, are open to public inspection and copies of any instrument recorded may be obtained upon payment of the fee therefor. Assignment records, digests and indexes, relating to any pending or abandoned patent application are not available to the public. Copies of any such patent assignment records and information with respect thereto shall be obtainable only upon written authority of the applicant or his assignee or attorney or agent or upon a showing that the person seeking such information is a bona fide prospective or actual purchaser, mortgagee or licensee of such patent application, unless it shall be necessary to the proper conduct of business before the Office or as provided by these rules. An order for a copy of an assignment should give the identification of the record. If identified only by the name of the patentee and number of the patent, or in the case of a trademark registration by the name of the registrant and number of the registration, or by name of the applicant and serial number of the application, an extra charge will be made for the time consumed in making a search for such assignment.

§ 1.136 Time less than six months.

* * * * *

(b) The time for reply, when a time less than six months has been set, will be extended only for sufficient cause, and for a reasonable time specified. Any request for such extension must be filed on or before the day on which action by the applicant is due, but in no case will the mere filing of the request effect any extension. Only one extension may be granted by the primary examiner in his discretion; any further extension must be approved by the Commissioner. In no case can any extension carry the date on which response to an action is due beyond six months from the date of the action.

§ 1.197 Action following decision.

* * * * *

(b) Any request for rehearing or reconsideration, or modification of the decision, must be filed within thirty days from the date of the original decision, unless that decision is so modified as to become, in effect, a new decision, and the Board of Appeals so states. Such time may be extended upon a showing of sufficient cause.

* * * * *

§ 1.244 Motions; miscellaneous provisions.

* * * * *

(c) Any request for rehearing or reconsideration, or modification of the decision, must be filed within twenty days after the date of the decision, and any reply thereto shall be filed within twenty days from the date of service of the request.

* * * * *

§ 1.256 Final hearing.

* * * * *

(b) Any request for rehearing or reconsideration, or modification of the decision, must be filed within thirty days from the date of the original decision, unless that decision is so modified as to become, in effect, a new decision, and the Board of Patent Interferences so states. Any reply thereto shall be filed within fifteen days from the filing of the request. The times specified herein may be extended upon a showing of sufficient cause. (See § 1.304.)

§ 1.304 Time for appeal or civil action.

(a) The time for filing the notice and reasons of appeal to the U.S. Court of Customs and Patent Appeals (§ 1.302) or for commencing a civil action (§ 1.303) is sixty days from the date of the decision of the Board of Appeals or the Board of Patent Interferences. If a request for rehearing or reconsideration, or modification of the decision, is filed within the time, or within any extension of the time granted under §§ 1.256(b) or 1.197 (b), the time for filing appeal or commencing civil action is extended to thirty days after action on the request. The sixty and thirty day periods referred to above may be extended by the Commissioner upon a showing of sufficient cause.

(b) The times specified herein are calendar days. If the last day of the time specified for appeal or commencing a civil action falls on a Saturday, Sunday or legal holiday, the time is extended to the next day which is neither a Saturday, Sunday nor a holiday.

(c) If a defeated party to an interference has taken an appeal to the U.S. Court of Customs and Patent Appeals and an adverse party has filed notice under 35 U.S.C. 141 that he elects to have all further proceedings conducted under 35 U.S.C. 146 (§ 1.303(c)), the time for filing a civil action thereafter is specified in 35 U.S.C. 141.

§ 2.18 Correspondence held with attorney or agent.

Correspondence will be sent to the applicant or a party to a proceeding at his address unless papers are transmitted by an attorney at law, or a written power of attorney or authorization of agent is filed, or the applicant or party designates in writing another address to which correspondence is to be sent, in which event correspondence will be sent to the attorney at law transmitting the papers, or to the attorney designated in the power of attorney or the agent designated in the authorization of agent, or to the address designated by the applicant or party for correspondence. Correspondence will continue to be sent to such address until the applicant or party, or the attorney or other recognized person representing the applicant or party, indicates in writing that correspondence is to be sent to another address. Double correspondence will not be undertaken by the Patent and Trademark Office, and if more than one attorney at law or other recognized person appears or signs a paper, the Office reply thereto will be sent to the address already established in the file until another correspondence address is specified by the applicant or party or by the attorney or other recognized person representing the applicant or party.

§ 2.37 Authorization for representation; U.S. representative.

The authorization of a qualified person to represent applicant (§ 2.17(b)) and the designation of a domestic representative (§ 2.24) may be included as a paragraph or paragraphs in the application.

§ 2.75 Amendment to change application to different register.

An application for registration on the Principal Register may be changed to an application for registration on the Supplemental Register and vice versa by amending the application to comply with the rules relating to the requirements for registration on the appropriate register, as the case may be. The original filing date may be considered for the purpose of proceedings in the Patent and Trademark Office provided the application as originally filed was sufficient for registration on the register to which amended. Otherwise, the filing date of the amendment will be considered the effective filing date of the application so amended.

§ 2.80 Publication for opposition.

If, on examination or reexamination of an application for registration on the Principal Register, it appears that the applicant is entitled to have his mark registered, the mark will be published in the Official Gazette for opposition. The mark will also be published in the case of an application to be placed in interference or concurrent use proceedings, if otherwise registrable.

§ 2.85 Classification schedules.

* * * * *

(e) Where the amount of the fee received on filing an appeal in connection with an application or on filing an affidavit under section 8(a) or 8(b) or on an application for renewal or in connection with an opposition or petition for cancellation is sufficient for at least one class of goods or services but is less than the required amount because a multiple class application or registration is involved, the appeal or the affidavit or renewal application or opposition or petition for cancellation will not be refused on the ground that the amount of the fee was insufficient if the required additional amount of the fee is received in the Patent and Trademark Office within the time limit set forth in the notification of this defect by the Examiner.

* * * * *

§ 2.101 Time for filing opposition.

Any person who believes that he would be damaged by the registration of a mark upon the Principal Register may, upon payment of the required fee for each class in the application, oppose the same by filing an opposition, which is verified or which includes a declaration in accordance with § 2.20, in the Patent and Trademark Office within thirty days after publication (§ 2.80) of the mark sought to be registered. An opposition accompanied by fees insufficient to cover each class in the application should specify the particular classes in which opposition is sought. Two or more persons may be joined in an opposition to the registration of a mark, but separate fees for each class in the application for each person so joined must be paid.

§ 2.102 Extension of time.

(a) A request to extend the time for filing opposition must be made by a person who believes that he would be damaged by the registration of the mark on the Principal Register, but an attorney at law or other person recognized to represent a party may file the request on behalf of a potential opposer. The potential opposer must be identified with reasonable certainty in the request. Any opposition filed during an extension of time should be in the name of the person to whom the extension was granted, but an opposition may be accepted if the person to whom the extension was granted was misidentified through mistake, or an opposition filed in a different name may be accepted if the person filing the opposition is in privity with the person to whom the extension was granted.

(b) A request to extend the time for filing an opposition must be received in the Patent and Trademark Office before the expiration of thirty days from the date of publication, and should specify the period of extension desired. A first extension of time will be granted upon request if the extension is for not more than thirty days. Any other request for extension of time for filing an opposition should be accompanied by a showing of good cause, and in the event circumstances do not permit submission of such showing with the request, it should be furnished as promptly as possible and, in any event within ten days after submission of such request.

(c) An opposition filed within an extended time must be accompanied by the required fee for each class, and should be verified or include a declaration in accordance with § 2.20, and if it is accompanied by fees insufficient to cover each class in the application should specify the particular classes in which opposition is sought.

§ 2.103 Opposition filed by attorney or agent.

An opposition which is unverified or not accompanied by a declaration in ac-

XUM
V 40 29 F
FEB 11 75
XUM

cordance with § 2.20 may, upon payment of the required fee for each class, be filed by a duly authorized attorney or agent. Such opposition and the required fee for each class must be filed in the Patent and Trademark Office within thirty days after publication (§ 2.80) of the mark sought to be registered or within an extension of the time for filing an opposition (§ 2.102) but the opposition will be null and void unless confirmed by the opposer either by verification or declaration in proper form filed within thirty days after such filing, or within such further time as may be fixed by the Commissioner upon request made before the expiration of the thirty days. An opposition accompanied by fees insufficient to cover each class should specify the particular classes in which opposition is sought.

§ 2.105 Notification of opposition proceedings.

A notification of an opposition which has been regularly filed shall be prepared, identifying the title and number of the proceeding and the application involved, and designating a time, not less than thirty days from the mailing date of such notification, within which answer must be filed. Copies of this notification shall be forwarded by the Trademark Trial and Appeal Board to the parties in care of their attorneys or agents, if they have attorneys or agents of record. The duplicate copy of the opposition and exhibits shall be forwarded with the notification to the applicant.

§ 2.111 Time for filing petition for cancellation.

(a) Any person who believes that he is or will be damaged by a registration may, upon payment of the required fee for each class in the registration, apply to the Commissioner to cancel said registration. Such petition may be made at any time in the case of registrations on the Supplemental Register or under the Act of 1920, or registrations under the act of 1881 or the act of 1905 which have not been published under section 12(c) of the act (§ 2.153), and in cases involving the grounds specified in section 14 (c), (d), and (e) of the act. In all other cases such petition must be made within five years from the date of registration of the mark under the act of 1946 or from the date of publication under section 12 (c) of the act.

(b) A petition to cancel accompanied by insufficient fees to cover each class in the registration should specify the particular classes for which cancellation is sought.

§ 2.112 Petition for cancellation.

The petition to cancel, which must be verified, or include a declaration in accordance with § 2.20, must set forth a short and plain statement showing how the petitioner is or will be damaged by the registration, state the grounds for cancellation, and indicate the respondent party to whom notice shall be sent. A duplicate copy of the petition, including exhibits, shall be filed with the petition. Applications to cancel different registrations owned by the same party may be joined in one petition when appropriate, but the required fee for each class in each registration against which each application to cancel is filed must accompany the petition. A petition to cancel accompanied by insufficient fees to cover all classes should specify the particular classes for which cancellation is sought.

§ 2.120 Discovery procedure.

• • • • • •

(c) *Failure to make discovery: Sanctions.* (1) If any party fails or refuses to answer any proper question in taking discovery depositions or fails or refuses to answer any proper question propounded by interrogatories or fails or refuses to comply with a request to produce and permit the inspection and copying of designated things, the party seeking discovery may file a motion with the Trademark Trial and Appeal Board for an order compelling discovery. Such a motion must be supported by an affidavit or a declaration in accordance with § 2.20, stating that the moving party or its attorney has conferred with the opposing party or its attorney in an effort in good faith to resolve by agreement the issues raised by the motion and has been unable to reach agreement. If part of the issues raised by the motion have been resolved by agreement, the affidavit or declaration shall specify the issues so resolved and also specify the issues remaining unresolved.

(2) If a party or an officer, director, or managing agent of a party, or a person designated under Rule 30(b) (6) or 31(a) of the Federal Rules of Civil Procedure to testify on behalf of a party, fails to obey an order to provide or permit discovery, the Trademark Trial and Appeal Board may strike out all or any part of any pleading of that party, dismiss the action or proceeding, or deny any part thereof, enter judgment as by default against that party or take any such other action as may be deemed appropriate.

§ 2.123 Trial testimony in inter partes cases.

• • • • • •

(g) Form of deposition:

• • • • • •

(3) Each deposition must contain an index of the names of the witnesses, giving the pages where their examination and cross-examination begin, and an index of the exhibits, briefly describing their nature and giving the pages at which they are introduced and offered in evidence.

• • • • • •

§ 2.127 Motions.

• • • • • •

(b) Any request for rehearing or reconsideration, or modification of a decision on a motion which is not finally dispositive of the case, must be filed within thirty days from the date thereof. Any brief in opposition shall be filed within fifteen days after service of the request.

• • • • • •

§ 2.129 Oral argument, and reconsideration.

• • • • • •

(c) Any request for rehearing or reconsideration, or modification of a decision, including a decision on a motion which is finally dispositive of a case, must be filed within thirty days from the date thereof. Any brief in opposition shall be filed within fifteen days after service of the request. The times specified herein may be extended upon a showing of sufficient cause.

§ 2.141 Ex parte appeals from the Examiner of Trademarks.

Every applicant for the registration of a mark may, upon final refusal by the Examiner of Trademarks, appeal to the Trademark Trial and Appeal Board upon payment of the prescribed fee for each class in the application. An appeal accompanied by insufficient fees to cover each class in the application should specify the particular classes in which appeal is taken. A second refusal on the same grounds may be considered as final by the applicant for purpose of appeal.

§ 2.144 Reconsideration of decision on ex parte appeal.

Any request for rehearing or reconsideration, or modification of the decision, must be filed within thirty days from the date of the decision. Such time may be extended upon a showing of sufficient cause.

§ 2.145 Appeal to court and civil action.

(a) *Appeal to U.S. Court of Customs and Patent Appeals.* An applicant for registration, or any party to an interference, opposition, or cancellation proceeding or any party to an application to register as a concurrent user, hereinafter referred to as inter partes proceedings, who is dissatisfied with the decision of the Trademark Trial and Appeal Board and any registrant who has filed an affidavit or declaration under section 8 of the act or who has filed an application for renewal and is dissatisfied with the decision of the Commissioner (sections 2.165, 2.184), may appeal to the U.S. Court of Customs and Patent Appeals. The appellant must take the following steps in such an appeal: (1) In the Patent and Trademark Office give written notice of appeal to the Commissioner (see paragraphs (b) and (d) of this section); (2) In the court, file a petition of appeal and a certified transcript of the record within a specified time after filing the notice of appeal, and pay the fee for appeal, as provided by the rules of the court. The transcript will be transmitted to the Court by the Patent and Trademark Office on order of and at the expense of the appellant. Such order should be filed with the notice of appeal, but in no case should it be filed later than 15 days thereafter.

(b) *Notice of appeal.* (1) When an appeal is taken to the U.S. Court of Customs and Patent Appeals, the appellant shall give notice thereof in writing to the Commissioner, which notice shall be filed in the Patent and Trademark Office within the time specified in paragraph (d) of this section. The notice shall specify the party or parties taking the appeal and shall designate the decision or part thereof appealed from.

(2) In inter partes proceedings, the notice must be served as provided in § 2.119.

• • • • • •

(d) *Time for appeal or civil action.* (1) The time for filing the notice of appeal to the U.S. Court of Customs and Patent Appeals (paragraph (b) of this section), or for commencing a civil action (paragraph (c) of this section), is sixty days from the date of the decision of the Trademark Trial and Appeal Board or the Commissioner, as the case may be. If a request for rehearing or reconsideration, or modification of the decision, is filed within the time, or within any extension of the time granted under § 2.129 (c) or § 2.144, the time for filing appeal or commencing civil action is extended to thirty days after action on the request. The sixty- and thirty-day periods referred to above may be extended by the Commissioner upon a showing of sufficient cause.

(2) The times specified herein are calendar days. If the last day of time specified for appeal, or commencing a civil action falls on a Saturday, Sunday, or legal holiday, the time is extended to the next day which is neither a Saturday, Sunday nor a holiday.

(3) If a party to an inter partes proceeding has taken an appeal to the U.S. Court of Customs and Patent Appeals and an adverse party has filed notice under section 21(a)(1) of the act that he elects to have all further proceedings conducted under section 21(b) of the act, the time for filing a civil action thereafter is specified in section 21(a)(1) of the act.

§ 2.162 Requirements for affidavit or declaration during sixth year.

The affidavit or declaration required by § 2.161 must:

(a) Be executed by the registrant after expiration of the five-year period following the date of registration or of publication under section 12(c) of the act;

(b) Be filed in the Patent and Trademark Office before the expiration of the sixth year following the date of registration or of publication under section 12 (c) of the act;

(c) Identify the certificate of registration by the registration number and date of registration;

(d) Be accompanied by the required fee for each class in the registration. If accompanied by insufficient fees to cover each class, the particular classes to which the affidavit or declaration pertains should be specified;

(e) State that the registered mark is in use. The statement must be supported by evidence which shows that the mark is still in use, and normally such evidence consists of a specimen, a facsimile specimen, or a statement of facts concerning use. The supporting evidence should be submitted with the affidavit or declaration, but if it is not or if the evidence submitted is found to be deficient, the evidence, or further evidence, may be submitted and may be considered even though filed after the sixth year has expired;

(f) If the registered mark is not still in use, recite facts to show that nonuse is due to special circumstances which excuse such nonuse and is not due to any intention to abandon the mark. If the facts recited are found not to be sufficient, further evidence or explanation may be submitted and may be considered even though filed after the sixth year has expired; and

(g) Contain the statement of use or statement as to nonuse and appropriate evidence in support thereof, as required in paragraphs (e) and (f) of this section, for each class in the registration.

§ 2.172 Surrender for cancellation.

Upon application by the registrant, the Commissioner may permit any registration to be surrendered for cancellation. Application for such action must be signed by the registrant and must be accompanied by the original certificate of registration, if not lost or destroyed. When there is more than one class in a registration, a request to delete one entire class or more than one entire class but less than the total number of classes constitutes surrender of a registration or registrations as to the specified class or classes, and not amendment of a registration. Deletion of less than all of the goods or services in a single class constitutes amendment of registration as to that class.

§ 2.183 Requirements of application for renewal.

(a) The application for renewal must include a statement which is verified or which includes a declaration in accordance with § 2.20 by the registrant setting forth the goods or services recited in each class in the registration on or in connection with which the mark is still in use in commerce, specifying the nature of such commerce. This statement must be executed not more than six months before the expiration of the registration and be accompanied by:

(1) A specimen or facsimile for each class showing current use of the mark;

(2) The required fee for each class including an additional fee for each class in the case of a delayed application for renewal. If the application for renewal is accompanied by insufficient fees to cover each class, particular classes for which renewal is sought should be specified.

(b) The declaration or verified statement, specimen or facsimile and the fee for each class in the registration must be filed within the period prescribed for applying for renewal. If defective or insufficient, they cannot be completed after the period for applying for renewal has passed; if completed after the initial six month period has expired but before the expiration of the three month delay period, the application can be considered only as a delayed application for renewal.

(c) If the mark is not in use in commerce at the time of filing of the declaration or verified statement, facts must be recited to show that nonuse is due to special circumstances which excuse such nonuse and is not due to any intention to abandon the mark. There must be a recitation of facts as to nonuse for each class or it must be clear that the facts recited apply to each class. If the facts recited require amplification or explanation, further evidence may be submitted and may be considered even though filed after the period for applying for renewal has passed.

§ 2.185 Requirements for assignments.

(a) Assignments under section 10 of the act of registered marks, or marks for which an application for registration has been filed, will be recorded in the Patent and Trademark Office. Other instruments which may relate to such marks may be recorded in the discretion of the Commissioner. No assignment will be recorded, except as may be ordered by the Commissioner, unless it has been executed and unless:

• • • • • •

(2) It is in the English language or, if not in the English language, accompanied by a translation signed by the translator.

• • • • • •

(4) A designation of a domestic representative is made in case the assignee is not domiciled in the United States. The designation must be separate from the assignment and there must be a separate designation for each registration or application assigned in one instrument.

• • • • • •

§ 2.187 Certificate of registration may issue to assignee.

The certificate of registration may be issued to the assignee of the applicant, or in a new name of applicant, provided an appropriate document is of record in the Assignment Division of the Patent and Trademark Office no later than the time notice of publication is mailed, or a statement that such document has been filed for recordation is in the application file by the time the application is being prepared for issuance of the certificate of registration. The address of the assignee must be made of record in the application file.

§ 4.2 Power of attorney accompanying application.

Applicant hereby appoints _____ (#) _____ to prosecute this application to register, to transact all business in the Patent and Trademark Office in connection therewith, and to receive the certificate of registration.
(Address)

NOTE: (#) Individual attorneys at law should be appointed. If the name of a law

XUM V40129 FEB 11 75 XUM

firm is given, it will be regarded merely as a designation of address for correspondence.

Dated: January 28, 1975.

C. MARSHALL DANN,
Commissioner of Patents and Trademarks.

Approved:

DAVID B. CHANG,
Assistant Secretary for Science and Technology.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social and Rehabilitation Service

[45 CFR Part 249]

MEDICAL ASSISTANCE PROGRAM

Skilled Nursing and Intermediate Care Facilities

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulations provide, under certain conditions, for the Secretary to alter the standards applicable to intermediate care facilities participating under title XIX of the Social Security Act. These standards are the Life Safety Code of the National Fire Protection Association, the American National Standards Institute (ANSI) Standards relating to usability of facilities by the physically handicapped, and HEW standards with respect to room size and number of residents per room.

The proposed regulations also provide, under certain circumstances, for the Secretary to waive the ANSI and room size/occupancy standards applicable to skilled nursing facilities participating under title XIX.

Existing regulations authorize State survey agencies to waive these standards. The present proposal would in effect transfer these authorities to the Secretary by specifying the circumstances under which the Secretary could alter or waive the standards. This would assure national uniformity in the consideration of the conditions under which the applicable Federal SNF or ICF standards may be waived or altered in particular instances.

There is no intention to abridge or otherwise change the authority of the States, under section 1902(a)(33) of the Act, to determine whether institutions meet the requirements established by the Secretary for participation in the Medicaid program. While the establishment of the standards and waiver or alteration of them is the Secretary's responsibility, the State has sole responsibility for determing whether a particular institution meets whatever standard is applicable.

Prior to the adoption of the proposed regulation, consideration will be given to any comments, suggestions, or objections thereto which are received in writing by the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, P.O. Box 2366, Washington, D.C. 20013, on or before March 13, 1975. Comments received will be available for public inspection in Room 5326 of the Department's offices at 330 C Street, SW., Washington, D.C., on Monday through Friday of each week from 8:30 am to 5 pm (area code 202-245-0950).

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302))
(Catalog of Federal Domestic Assistance Program No. 13.714, Medical Assistance Program)

Dated: January 7, 1975.

JAMES S. DWIGHT, Jr.,
Administrator, Social and Rehabilitation Service.

Approved: January 31, 1975.

CASPAR W. WEINBERGER,
Secretary.

Part 249, Chapter II, Title 45, Code of Federal Regulations, is amended as set forth below:

1. Section 249.12(a)(5)(ii) and (iii) and (6)(i) and (ix) is revised to read as follows:

§ 249.12 Standards for intermediate care facilities.

(a) • • •
(5) • • •

• • • • • •

(ii) Upon request of the State survey agency, with respect to a particular facility, the Secretary may, for such periods as he deems appropriate, prescribe as the applicable standard the Life Safety Code with specified exceptions or modifications, if application of the code in its entirety would result in unreasonable hardship upon a facility, but only if such exceptions or modifications will not adversely affect the health and safety of the residents; and

(iii) The Life Safety Code shall not apply in any State if the Secretary makes a finding that in such State there is in effect a fire and safety code, imposed by State law, which adequately protects residents in intermediate care facilities. Where an exception or modification to the Life Safety Code prescribed by the Secretary with respect to a particular facility permits the participation of an existing facility of two or more stories which is not of at least 2-hour fire resistive construction, blind, nonambulatory or physically handicapped residents are not housed above the street level floor unless the facility is of 1-hour protected non-combustible construction (as defined in National Fire Protection Association Standard #220), fully sprinklered 1-hour protected ordinary construction or fully sprinklered 1-hour protected wood frame construction.

• • • • • •

(6) Maintains conditions relating to environment and sanitation as set forth below:

(i) Resident living areas are designed and equipped for the comfort and privacy of the resident. Each room is equipped with or conveniently located near adequate toilet and bathing facilities appropriate in number, size, and design to meet the needs of residents. Each room is at or above grade level and each resident room contains a suitable bed, closet space which provides security and privacy for clothing and personal belongings, and other appropriate furniture;

(A) Resident bedrooms have no more than 4 beds; single resident rooms measure at least 100 square feet; and multiresident rooms provide a minimum of 80 square feet per bed. Upon request of the State survey agency, with respect to a particular facility, the Secretary may, for such periods as he deems appropriate, prescribe some other standard if application of the requirements of the preceding sentence would result in unreasonable hardship upon the facility but only if such other standard is in accordance with the particular needs of the residents and will not adversely affect their health and safety. Each room is equipped with a resident call system; or

(B) In the case of institutions for the mentally retarded or persons with related conditions, the number of residents in multi-resident bedrooms does not exceed 12 persons; single resident rooms measure 100 square feet; and multi-resident rooms provide a minimum of 80 square feet per bed. Upon request of the State survey agency, with respect to a particular facility, the Secretary may, for such periods as he deems appropriate, prescribe some other standard if application of the requirements of the preceding sentence would result in unreasonable hardship upon the institution but only if such other standard is in accordance with the particular needs of the residents and will not adversely affect their health and safety; and

• • • • • •

(ix) The facility is accessible to and functional for residents, personnel, and the public. All necessary accommodations are made to meet the needs of persons with semi-ambulatory disabilities, sight and hearing disabilities, disabilities of coordination, as well as other disabilities in accordance with the American National Standards Institute (ANSI) Standard No. A117.1 (1961) American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped. Upon request of the State survey agency, with respect to a particular existing building, the Secretary may, for such periods as he deems appropriate, prescribe as the applicable standard ANSI Standard No. A117.1 (1961) with specified exceptions or modifications if application of the ANSI Standard in its entirety would result in unreasonable hardship upon the facility, but only if such exceptions or modifications will not adversely affect the health and safety of residents. For purposes of ANSI Standard No. A117.1 (1961), "existing buildings" are defined as those facilities or parts thereof whose construction plans are approved and stamped by the appropriate State agency responsible therefor before the date these regulations become effective.

• • • • • •

2. Section 249.13(f)(1)(iv) is revised to read as follows:

§ 249.13 Standards for intermediate care facility services in institutions for the mentally retarded or persons with related conditions.

• • • • • •

(f) • • •
(1) • • •

(iv) The facility is accessible to and functional for residents, personnel, and the public. All necessary accommodations are made to meet the needs of persons with semi-ambulatory disabilities, sight and hearing disabilities, disabilities of coordination, as well as other disabilities in accordance with the American National Standards Institute (ANSI) Standard No. A117.1 (1961) American Standard Specification for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped. Upon request of the State survey agency, with respect to a particular existing building, the Secretary may, for such periods as he deems appropriate, prescribe as the applicable standard ANSI Standard No. A117.1 (1961) with specified exceptions or modifications if application of the ANSI Standard in its entirety would result in unreasonable hardship upon the facility, but only if such exceptions or modifications will not adversely affect the health and safety of residents.

• • • • • •

3. Section 249.33(a)(1)(i) is revised to read as follows:

§ 249.33 Standards for payment for skilled nursing facility and intermediate care facility services.

(a)(1) • • •

(i) The agency designated pursuant to § 250.100(c) of this chapter that the facility meets the statutory definition contained in section 1861(j) of the Social Security Act and is in full compliance with the standards prescribed by the Secretary in the regulations promulgated thereunder; except that where a waiver has been granted pursuant to section 1903(i)(4) of the Social Security Act, the conditions of 20 CFR 405.1137 need not be met; or

Social Security Administration

[20 CFR Part 405]

[Reg. No. 5]

FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Skilled Nursing Facilities

Notice is hereby given pursuant to the Administrative Procedure Act (5 U.S.C. 553) that the amendment to the regulations set forth in tentative form below, is proposed by the Commissioner of Social Security with the approval of the Secretary of Health, Education, and Welfare. This amendment makes a technical change in the Medicare regulations to correspond to a proposed revision of Part 249 of the Social and Rehabilitation Service regulations (45 CFR Part 249) which appears in this issue of the FEDERAL REGISTER. The amendment to the Medicare regulations reflects that, with respect to skilled nursing facilities participating only in the Medicaid program, the Secretary of Health, Education, and Welfare (rather than the State survey agencies as at present) would grant waivers of specific provisions of the American National Standards Institute standards regarding the usability of facilities by handicapped persons and would permit variations of the standards regarding room size and the number of patients per room.

Under the proposed amendments to the Medicare and Medicaid regulations, the Secretary will have the authority to grant waivers where the facility is participating in the Medicare program, the Medicaid program, or both.

Prior to the final adoption of the proposed amendments, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare, Fourth and Independence Avenue SW., Washington, D.C. 20201, on or before March 13, 1975.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

(Secs. 1102, 1871, 49 Stat. 647, as amended, 79 Stat. 331; 42 U.S.C. 1302 and 1395hh.)

(Catalog of Federal Domestic Assistance Program No. 13.800, Health Insurance for the Aged and Disabled—Hospital Insurance.)

Dated: December 18, 1974.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: January 31, 1975.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

Regulations No. 5 of the Social Security Administration, as amended (20 CFR Part 405), are further amended as set forth below.

Section 405.1134 is amended by revising paragraphs (c) and (e) to read as follows:

§ 405.1134 Condition of participation—Physical environment.

The skilled nursing facility is constructed, equipped, and maintained to protect the health and safety of patients, personnel, and the public.

• • • • • •

(c) *Standard: Facilities for physically handicapped.* The facility is accessible to, and functional for, patients, personnel, and the public. All necessary accommodations are made to meet the needs of persons with semiambulatory disabilities, sight and hearing disabilities, disabilities of coordination, as well as other disabilities, in accordance with the American National Standards Institute (ANSI) Standard No. A117.1, American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped. The Secretary may waive in existing buildings, for such periods as deemed appropriate, specific provisions of ANSI Standard No. A117.1 which, if rigidly enforced, would result in unreasonable hardship upon the facility, but only if such waiver will not adversely affect the health and safety of patients.

• • • • • •

(e) *Standard: Patient rooms and toilet facilities.* Patient rooms are designed and equipped for adequate nursing care and the comfort and privacy of patients, and have no more than four beds, except in facilities primarily for the care of the mentally ill and/or retarded where there shall be no more than 12 beds per room. (An institution primarily engaged in the care of the mentally retarded or in the treatment of mental diseases cannot qualify as a participating skilled nursing facility under Medicare.) Single patient rooms measure at least 100 square feet, and multipatient rooms provide a minimum of 80 square feet per bed. The Secretary may permit variations in individual cases where the facility demonstrates in writing that such variations are in accordance with the particular needs of the patients and will not adversely affect their health and safety. Each room is equipped with, or is conveniently located near, adequate toilet and bathing facilities. Each room has direct access to a corridor and outside exposure, with the floor at or above grade level.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 75-NE-2]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation regulations that would designate a transition area at Hopedale, Massachusetts.

The transition area would be designated to provide controlled airspace protection for aircraft executing a new VOR approach procedure utilizing the Putnam, Connecticut, VORTAC, which is being developed to serve the Hopedale Draper Airport, Hopedale, Massachusetts.

Interested persons may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, New England Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803. All communications

XUM V40 N29 FEB 11 75 XUM

received on or before March 13, 1975 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Operations, Procedures and Airspace Branch, New England Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts.

The Federal Aviation Administration, having completed a review of the airspace requirements for a transition area at Hopedale Draper Airport, Hopedale, Massachusetts, proposes the air space action hereinafter set forth:

1. Amend § 71.181 (38 FR 569) of Part 71 of the Federal Aviation Regulations so as to add the following transition area:

HOPEDALE, MASSACHUSETTS

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the Center, 42°06'25" N, 71°30'40" W, of the Hopedale Draper Airport, Hopedale, Massachusetts, within 5 miles southeast and 6.5 miles northwest of the 060° radial from the Putnam VORTAC, 41°57'19" N, 71°50'41" W, extending from the 6-mile radius area to the Putnam VORTAC, excluding that portion that coincides with the Danielson, Connecticut, and the Southbridge, Massachusetts, Transition Area.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Burlington, Massachusetts, on January 29, 1975.

WILLIAM E. CROSBY,
Acting Director,
New England Region.

[FR Doc.75-3724 Filed 2-10-75;8:45 am]

[14 CFR Part 135]

[Docket No. 12768; Notice No. 75-4]

AIR TAXI OPERATIONS

Equipment Requirements for Certain Airplanes

The Federal Aviation Administration is considering amending § 135.2(e) of the Federal Aviation Regulations to rescind certain Part 121 equipment requirements for Part 135 certificate holders operating turbojet-powered airplanes having maximum certificated takeoff weights over 12,500 pounds but under 27,000 pounds, with passenger-carrying capacities of not more than 12 persons.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, D.C. 20591. All communications received on or before April 14, 1975, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Section 135.2(e) provides that operators of turbojet-powered airplanes with maximum certificated takeoff weights of over 12,500 pounds but under 27,000 pounds, with passenger-carrying capacities of not more than 12 persons, used only in planeload charter flights, need not comply until May 15, 1975, with § 121.313(f)—a lockable door between the pilot and passenger compartments; § 121.343(a)—flight recorder; § 121.359—cockpit voice recorder; § 121.587—closing and locking of door between the pilot and passenger compartments; and § 121.581(a)—forward observer's seat, provided that if the forward observer's seat is not installed, a forward passenger seat with appropriate communications equipment nearby is provided for use by the Administrator while conducting en route inspections.

The compliance date specified in § 135.2(e) was extended from November 15, 1974, to May 15, 1975, by Amendment No. 135-39 issued November 14, 1974, and published in the FEDERAL REGISTER November 21, 1974 (39 FR 40849). In adopting Amendment No. 135-39, the FAA explained that it had under study petitions filed by the National Air Transportation Conferences, Inc., and Executive Air Fleet Corporation which request that § 135.2 be amended by deleting all of the provisions of § 135.2(e) that require compliance with the requirements of Part 121 specified. The extension of the compliance date of May 15, 1975, was considered necessary to provide the FAA sufficient time to complete its study of the petitions and take final agency action on them. In addition, it was recognized that many operators would require additional time to achieve compliance in the event that final agency action resulted in a denial of the petitions for rulemaking.

Upon completion of that study and careful consideration of the petitions involved, the Administrator determined that they did not present adequate reasons to justify instituting the rulemaking procedures requested with respect to the requirement for a flight recorder and a cockpit voice recorder. Accordingly, that part of their petitions was denied (Docket No. 12768). Consequently, by May 15, 1975, operators of airplanes to which § 135.2(e) applies will have to equip those airplanes with a flight recorder and a cockpit voice recorder in accordance with the provisions of § 121.343(a) and § 121.359.

However, the Administrator determined that there are adequate reasons to justify instituting rule-making procedures, in response to the petitions, with respect to those provisions of § 135.2(e) which will require compliance with § 121.313(f)—a lockable door between the pilot and passenger compartments; § 121.587—closing and locking of door between the pilot and passenger compartments; and § 121.581(a)—forward observer's seat.

The FAA recognizes that many turbojet-powered airplanes having maximum certificated takeoff weights over 12,500 pounds but under 27,000 pounds and passenger-carrying capacities of not more than 12 persons, have physical size and design arrangements which may preclude the installation of a lockable door and, in many cases, a forward observer's seat on the flight deck, without excessive redesign of the interior configuration and structure of the airplane. These airplanes have the same passenger capacity as some reciprocating engine airplanes type certificated under the airworthiness standards for small airplanes prescribed in Part 23. However, due primarily to a necessary increase in fuel load, their maximum certificated takeoff weight exceeds 12,500 pounds and they are certificated under the transport category rules of Part 25. Only a limited number of these airplanes are involved in air taxi operations and their service operating experience indicates that there have been no instances of interference with flight crewmembers by passengers. This may be due to the relatively small passenger capacity of these airplanes.

Accordingly, upon further study of this matter, it appears to the FAA that any safety benefits that may be derived from compliance with § 121.313(f) and § 121.587 would not be commensurate with the burden that compliance would impose on the operators of those airplanes. Therefore, this proposal would delete the requirement for compliance with § 121.313(f) and § 121.587 by operators of turbojet-powered airplanes having a maximum certificated takeoff weight over 12,500 pounds but under 27,000 pounds and a passenger-carrying capacity of not more than 12 persons.

Although a forward observer's seat is considered desirable in order that the Administrator may properly conduct en route inspections, since its installation to comply with § 121.581(a) may not be possible in many of the subject aircraft without a major structural change, in those airplanes in which a forward observer's seat is not installed the FAA proposes to continue to permit a properly equipped forward passenger seat to be used in lieu of a forward observer's seat.

For editorial reasons this proposal adds to § 135.2(a) the words "except as provided in paragraph (e) of this section."

These amendments are proposed under sections 313(a), 601, and 604 of the

Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1424), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 135.2 of the Federal Aviation Regulations by amending the introductory clause in paragraph (a) and by amending paragraph (e) to read as follows:

§ 135.2 Air taxi operations with large aircraft.

(a) Except as provided in paragraph (e) of this section, no person may conduct air taxi operations in large aircraft under an individual exemption and authorization issued by the Civil Aeronautics Board or under the exemption authority of Part 298 of this title, unless that person—

* * * * *

(e) After May 15, 1975, air taxi operations may be conducted with a turbojet-powered airplane having a maximum certificated takeoff weight of over 12,500 pounds but under 27,000 pounds and a passenger-carrying capacity of not more than 12 persons that does not comply with—

(1) *§ 121.313(f).* A lockable door between the pilot and passenger compartments; § 121.587—closing and locking the door between the pilot and passenger compartments; and

(2) *§ 121.581(a).* Forward observer's seat on the flight deck, provided that if the forward observer's seat is not installed, a forward passenger seat with appropriate communications equipment nearby is provided for use by the Administrator while conducting en route inspections. The location and equipment of the seat, with respect to its suitability for use in conducting en route inspections, is determined by the Administrator.

Issued in Washington, D.C., on February 3, 1975.

R. P. SKULLY,
Director, Flight Standards Service.

FEDERAL ENERGY ADMINISTRATION

[10 CFR Parts 205, 211]

CHANGED CIRCUMSTANCE ADJUSTMENTS AS GRANTED TO CERTAIN FEA REGION VIII WHOLESALE PURCHASERS

Proposal to Issue Decision and Order

Exception. Name of Petitioner: Continental Oil Company; Date of Filing: January 27, 1975; Case Number: FEE-08-060.

The Federal Energy Administration hereby gives notice of a proposal to issue the decision and order of its Office of Exceptions and Appeals set forth below. The proposed decision and order would grant exception relief to certain wholesale purchasers which are located in the states of Montana, Wyoming, North Dakota, South Dakota, Colorado and Utah, which applied for adjustments to base period use based upon changed circumstances prior to October 15, 1974, and which received an adjustment of base period use for periods of less than a calendar year. The exception relief set forth in the decision and order is proposed in response to an application for exception filed by the Continental Oil Company on behalf of 265 of its wholesale purchasers, as well as any other wholesale purchasers similarly situated. The basis for the exception relief is set forth in the proposed decision and order.

FEA will receive written comments with respect to this proposal from persons who would be aggrieved by the issuance of the decision and order, and from any other interested persons. Any such comments should be addressed to Regional Administrator, Federal Energy Administration, P.O. Box 26247, Denver, Colorado 80226, and should be received by Friday, February 21, 1975. Comments submitted by persons who would be aggrieved by the issuance of the proposed decision and order should set forth in detail a full and complete statement of all relevant facts pertaining to the circumstances that are the subject of such comment, including:

(a) The names and addresses of all affected persons (if reasonably ascertainable);

(b) A description of the acts or transactions that would be affected by the proposed action;

(c) A complete statement of the business or other reasons that would justify withholding the adjustment provided by the decision and order set forth below;

(d) A full discussion of the pertinent provisions and relevant facts contained in any documents submitted with the application;

(e) Copies of all relevant contracts, agreements, leases, instruments, and other documents.

Each person submitting such comments shall also serve a copy of such comments upon any reasonably ascertainable person who would be adversely affected if the position advanced in such comments were adopted by the FEA. A certificate of service shall be filed with the FEA at the time the comments are submitted in accordance with the provisions of 10 CFR 205.53(a).

ROBERT E. MONTGOMERY, Jr.,
General Counsel,
Federal Energy Administration.

FEBRUARY 5, 1975.

DECISION AND ORDER
OF THE FEDERAL ENERGY ADMINISTRATION

Exception

Name of Petitioner: Continental Oil Company.

Date of Filing: January 27, 1975.

Case Number: FEE-08-060.

The Office of Exceptions and Appeals has received an application for exception filed by the Continental Oil Company (Continental) on behalf of its 265 wholesale purchasers, and all other similarly situated wholesale purchasers located in the States of Montana, Wyoming, North Dakota, South Dakota, Colorado and Utah, which submitted to FEA Region VIII applications for adjustments to base period use pursuant to former § 211.13(c) of the Mandatory Petroleum Allocation Regulations and which received adjustments which were made applicable to only part of the wholesale purchaser's calendar year. Continental contends that the practice followed by Region VIII of granting adjustments for less than a calendar year is an erroneous application of § 211.13(c), and differed substantially from the practice adhered to by other FEA Regional Offices, and that based on this difference in practice, a gross inequity exists with respect to the entire class of wholesale purchasers in FEA Region VIII and that appropriate exception relief should be granted from the operation of § 211.13(c) as applied by Region VIII.

Generally, the Mandatory Petroleum Allocation Regulations provide that a wholesale purchaser of an allocated product may purchase volumes of the product from its supplier(s) based upon the volumes of the product purchased from the supplier(s) during a prior base period. The base periods specified for most refined petroleum products are certain time periods of 1972. For example, the base period for motor gasoline, diesel fuel and home heating oil is the month of 1972 which corresponds to the current month. FEA's regulations recognized, however, that in some cases changes affecting a firm's use of an allocated product had occurred since a particular base period making it inappropriate to use the volume of fuel purchased during the base period to determine the firm's current allocation. A regulatory procedure was therefore established under which a wholesale purchaser could apply for an "adjustment" to its base period volume. In this connection § 211.13(c), which was applicable during most of 1974, stated in part that:

(1) *Wholesale purchasers.* Wholesale purchasers may apply to the FEA pursuant to Subpart B of Part 205 of this chapter for changed circumstances since January 1, 1973, which have not been reflected in an adjustment under paragranh (b) of this section.

On October 15, 1974, § 211.13(c) was deleted and § 211.13(e) was added to provide that future applications based upon "changed circumstances" would be received only as applications for exceptions and would be approved in accordance with the exceptions standards of serious hardship or gross inequity.

During the period of time in which adjustments to base period volumes were made under the authority of § 211.13(c), the typical practice of FEA Regional Offices, other than the Region VIII Office, was to adjust the base period volume of each wholesale purchaser for all base periods within an entire calendar year. Thus, if an application submitted by a wholesale purchaser-reseller of motor gasoline for adjustment of its base period volume were approved, each of the twelve monthly base period volumes would be adjusted based upon the finding made by the FEA Regional Office.

The practice of officials in FEA Region VIII was considerably different. The same type of application described above would, if approved in FEA Region VIII, result in adjustments for only the base periods remaining in the calendar year. Thus, if an application for an adjustment to base period volumes were approved in the Region VIII Office in June, the adjustments would be made only for the calendar months of June through December. The purchaser's base period volume for the months of January through May would not have been adjusted.

As a result of this situation, wholesale purchasers in FEA Region VIII have been placed in a position which is substantially

XUM
V40129 FEB1175 XUM

different from that of wholesale purchasers in all other regions of the country. In the event that their supplies of allocated products are inadequate for periods corresponding to base periods of the calendar year which were not adjusted by the Regional Office, purchasers in Region VIII would be required to seek supplies of surplus product, which may be difficult to locate, in order to replace the volumes which would otherwise have been the adjusted amounts. Wholesale purchasers in other regions would not encounter this situation since each of their base period volumes within a calendar year was adjusted. Thus, their increased base period volumes would have the effect of drawing a larger portion of allocable supplies into their region than would be the case if Region VIII had made § 211.13(c) adjustments for an entire year. The burden which wholesale purchasers in Region VIII are likely to encounter in locating sufficient supplies of surplus product could be very substantial. On the other hand, base period suppliers of the Region VIII purchasers involved are significantly benefited, because they are not required to use the purchaser's higher adjusted base period volumes in calculating their supply obligations for those periods corresponding to a base period which Region VIII failed to adjust.

In a number of previous decisions the FEA has recognized that when the burden involved in meeting the nation's energy problems fall in a substantial and disproportionate manner on a particular firm, the resultant inequitable distribution of burdens can in appropriate circumstances constitute a gross inequity which warrants exception relief. See Butler Aviation International, Inc., Federal Energy Guidelines, Par. 20,685 (October 25, 1974) and Gulf Energy and Development Corp., Federal Energy Guidelines, Par. 20,689 (October 25, 1974).

The same principle would also apply to a well-defined class. Based on the facts set forth above, the Federal Energy Administration has concluded that wholesale purchasers which are located in Region VIII and which received an adjustment to base period use based upon changed circumstances for only a portion of a calendar year are subject to substantial and disproportionate burdens which constitute a gross inequity and justify exception relief.

The exception relief granted should be designed to correct the gross inequity by placing suppliers and wholesale purchasers in Region VIII in the same basic posture as suppliers and wholesale purchasers in all other regions in the United States. The further determination has been made that this result can be best achieved by adjusting the base period use for each unadjusted base period by application to the unadjusted base period volume of a fraction calculated by dividing the wholesale purchaser's base period use, as adjusted, for all base periods for which adjustments were granted pursuant to § 211.13(c) by the wholesale purchaser's base period volume, prior to any adjustment, for all base periods for which such adjustments were granted. IT IS *Therefore ordered* That:

(1) Subject to the provisions of paragraphs (2) and (3) below, the class to which the exception relief set forth below applies are those wholesale purchasers which:

(a) are located in the States of Colorado, Montana, North Dakota, South Dakota, Utah and Wyoming;

(b) filed an application with FEA Regional Office VIII on or before October 15, 1974, requesting an adjustment to its base period volume pursuant to the provisions of 10 CFR 211.13(c); and

(c) received an order issued by FEA Regional Office VIII dated on or before October 15, 1974, which approved an adjustment to the wholesale purchaser's base period volume pursuant to the provisions of 10 CFR 211.13(c) for a perod of less than 12 consecutive months.

(2) The exception relief set forth below shall not apply in any situation in which a request for adjustment submitted by a wholesale purchaser was expressly denied and no adjustment was made.

(3) The exception relief set forth below shall not apply in any situation in which a request for adjustment submitted by a wholesale purchaser was specifically granted only on an interim basis.

(4) The adjusted base period volume of each member of the class set forth above is hereby adjusted by the application of the fraction set forth below to the base period volume of each allocated product supplied to each member of the class. The following fraction shall be applied to each base period within the calendar year which has not otherwise been adjusted by the FEA Region Office VIII:

The wholesale purchaser's base period use, as adjusted, for all base periods for which adjustments were granted pursuant to § 211.13(c), divided by the wholesale purchaser's base period volume, prior to any adjustment, for all base periods for which adjustments were granted pursuant to § 211.13(c).

In accordance with the provisions of 10 CFR, Part 205, an aggrieved party may file an appeal from this Decision and Order with the Federal Energy Administration. The provisions of 10 CFR, Part 205, Subpart H, set forth the procedures and criteria which govern the filing and determination of any such appeal.

MELVIN GOLDSTEIN,
Director,
Office of Exceptions and Appeals.

[10 CFR Part 211]

ALLOCATION FRACTIONS GREATER THAN ONE, RESIDENTIAL USE OF PROPANE, SURPLUS PROPANE AND BUTANE PURCHASE REPORTS, AND SHIFTING OF ENTITLEMENTS AMONG MOTOR GASOLINE RETAIL SALES OUTLETS

Proposed Rulemaking and Public Hearing

The Federal Energy Administration hereby gives notice of a proposal to amend Part 211, Chapter II of Title 10, Code of Federal Regulations, with respect to regulations concerning allocations fractions greater than one, residential use of propane, surplus propane and butane purchase reports, and shifting of entitlements among motor gasoline retail sales outlets. The FEA will receive written comments and hold a public hearing with respect to this proposal.

Allocation fractions greater than one. The FEA proposes to amend § 211.10(g), which governs the disposition of surplus product when allocation fractions are greater than one, to correct a number of deficiencies in the operation of that paragraph which have been brought to the attention of FEA.

Proposed § 211.10(g) (2) would require suppliers not subject to the reporting requirements of § 211.10(g) (3) to distribute surplus product in accordance with § 211.10(g) (5) in order to assure that suppliers subject to the reporting requirements cannot circumvent the operation of this paragraph by sales to non-reporting suppliers. This change will also insure that non-reporting suppliers do not prefer their owned and operated wholesale purchaser-resellers in distributing their surplus product. Proposed § 211.10(g) (3) specifies that in addition to the suppliers now required under § 211.10(g) (3) to submit surplus product reports to FEA, a supplier which is a gas processing plant operator must also report its surplus butane. The purpose of this proposal is to require that butane, for which there is no state set-aside, must be allocated on the basis of an allocation fraction no greater than one, and that surplus butane will be subject to the reporting and distribution provisions of § 211.10(g).

Section 211.10(g) (5) is proposed to be amended to require a supplier first to offer a proportionate share of its surplus product to branded independent marketers and non-branded independent marketers within the supplier's distribution system. The supplier would not be permitted to supply surplus product to retail sales outlets which it owns and operates in a greater proportion that the total base period volumes of its owned and operated outlets bear to the total base period volumes of all purchasers entitled to receive an allocation from the supplier, unless the supplier first offers and meets all requests for surplus product from any and all independent marketers which are base period or assigned base period purchasers of the suppliers up to the proportionate amount of product required to be distributed to independent marketers.

The supplier, however, would not be required to offer surplus product to any purchaser which had refused to lift all its allocation entitlement for that period corresponding to a base period. Section 211.10(g) (5) (i) (A) and (B) would also not permit a supplier to favor its branded independent marketers over its non-branded independent marketers in distributing surplus product. The supplier, therefore, could not increase the share distributed among its owned and operated outlets without first offering the required amounts to branded and non-branded independent marketers entitled to receive an allocation from the supplier.

In this connection, it should be noted that sales of surplus product to wholesale purchaser-consumers and endusers are not considered sales to independent marketers. Thus, the amounts of surplus product available for direct sale to consumers cannot exceed the amount of surplus which remains after the proportions to be offered independent marketers and the supplier's owned and operated retail outlets are determined under § 211.10(g) (5) unless the supplier chooses to sell to consumers the portion of its surplus available for sale through its own retail outlets or the supplier has offered its surplus product to independent marketers as required by § 211.10(g) (5) (i) and has met their requests to purchase surplus product.

Allocation level for residential use of propane. FEA has recently promulgated regulations concerning the allocation level for space heating requirements of middle distillate fuels and residual fuel oil (§ 211.123(c) (2) and § 211.163(c) (2), respectively). These allocation levels are one hundred ten percent of base period use, as reduced by application of an allocation fraction, except that if a supplier's allocation fraction is less than 0.8, the allocation fraction becomes eighty-eight percent of base period use, not subject to an allocation fraction (the equivalent of 0.8 times one hundred ten percent of base period use).

FEA proposes to amend § 211.83(c) to retain the present allocation level (ninety-five percent of base period use) for residential use of propane, most of which is used for space heating, and to provide a minimum allocation fraction which a supplier may use to supply its residential use customers. Proposed § 211.83(c) would provide that if a supplier's allocation fraction is less than 0.9, the allocation level becomes eighty-five percent of base period use, not subject to an allocation fraction (the equivalent of 0.9 times ninety-five percent of base period use). The purpose of this proposal is to provide adequate propane supplies, principally for space heating, for residential users, and to assure that a minimum supply level is maintained for such users.

Surplus propane and butane purchase reports. FEA has become aware that although large quantities of propane and butane are apparently being sold as surplus product, there are a number of wholesale purchasers receiving propane at relatively low allocation fractions which have reported that they are unable to locate surplus propane and butane supplies. FEA believes it may be possible that suppliers which are required to report surplus propane pursuant to § 211.10(g) (3) are either inadvertently or consciously disregarding this reporting requirement thereby making it impossible for FEA to redirect available supplies of surplus propane and butane under § 211.10(g) (4).

To assist in monitoring and redirecting supplies of surplus propane and butane, FEA is proposing amendments to § 211.97 and § 211.97 to require wholesale purchaser-resellers and wholesale purchaser-consumers (but not end-users as defined in § 211.51) which plan to purchase surplus propane or butane to report such anticipated purchasers and to certify that the supplier has provided the purchaser with a written certification that the supplier has complied with the provisions of § 211.10(g). A supplier of surplus product presently must certify to a purchaser under § 211.10(g) (7) that the supplier has surplus product to distribute and that it has complied with the provisions of 211.10(g). The report from wholesale purchasers would be required whether the potential supplier is classified as a reporting or a non-reporting supplier pursuant to § 211.10(g) (2) and (3).

The report of the proposed sale of surplus propane or butane would have to be submitted by any firm which would take title to the product. Wholesale purchasers would also be required to report proposed purchases of propane or butane from a supplier having an allocation fraction less than one as provided in § 211.10(f) (2), which has available product because the supplier's wholesale purchasers and endusers have not purchased, or have advised the supplier that they do not intend to purchase, their entitlements by the end of the period corresponding to a base period.

The report which would be required from wholesale purchasers under the proposed amendments would aid FEA in determining if surplus propane and butane is being correctly reported by suppliers offering the surplus product. With additional information concerning availability and location of surpluses and concerning whether surpluses were being correctly reported to FEA, FEA would be able to effect a more equitable distribution of these surpluses to high priority purchasers.

Shifting of entitlements among motor gasoline retail sales outlets. On October 8, 1974, the Federal Energy Administration issued a rulemaking on "Adjustments to Base Period Use, Shifting of Entitlements Among Gasoline Outlets, and Distribution of Surplus Product" (39 FR 36854, October 15, 1974). The amendment to 10 CFR § 211.106(b) (3) (ii) which concerned shifting of entitlements among gasoline outlets inadvertently retained the opening phrase of the proposed rulemaking which states in effect that a supplier may reassign among outlets up to thirty (30) percent of the allocation entitlements of each retail outlet it operates. Although in many instances the entity which owns and operates several outlets is also the supplier as defined in § 211.106, FEA intended, and herewith proposes, that any entity which owns and operates several outlets could reassign entitlements among those outlets supplied by a common supplier. The proposed amendment would make it clear that an entity which is not a supplier could also shift entitlements among the outlets which it owns and operates.

Procedures for written comments and public hearing. Interested persons are invited to participate in this rulemaking by submitting data, views, or arguments with respect to the proposed regulations set forth in this notice to Executive Communications, Federal Energy Administration, Box CB, Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to FEA Executive Communications with the designation "Allocation fractions, propane and butane and shifting of entitlements." Fifteen copies should be submitted. All comments received by Friday February 21, 1975 and all relevant information, will be considered by the Federal Energy Administration before final action is taken on the proposed regulations.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to that determination.

The public hearing in this proceeding will be held at 9:30 a.m., on Friday February 21, 1975 at Room 2105, 2000 M Street NW., Washington, D.C., in order to receive comments from interested persons on the matters set forth herein.

Any person who has an interest in the proposed amendments or who is a representative of a group or class of persons that has an interest in the proposed amendments, may make a written request for an opportunity to make an oral presentation. Such a request should be directed to Executive Communications, FEA, and must be received before 4:30 p.m., e.s.t., Monday, February 17, 1975. Such a request may be hand delivered to Room 3309, Federal Building, 12th & Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons that has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be contacted through February 18, 1975. Each person selected to be heard will be so notified by the FEA before 4:30 p.m., e.s.t., February 18, 1975 and must submit 100 copies of his or her statement to Executive Communications, FEA, Room 3309, Federal Building, Washington, D.C. 20461, before 4:30 p.m., e.s.t., on February 20, 1975.

The FEA reserves the right to select the persons to be heard at the hearing, to schedule their respective presentations and to establish the procedures governing the conduct of the hearing. The length of each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. It will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. Any decision made by the FEA with respect to the subject matter of the hearing will be based on all information available to the FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions, to be asked of any person making a statement at the hearing, to Executive Communications, FEA, before 4:30 p.m., e.s.t. February 20, 1975. Any person who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer. The FEA or the presiding officer, if the question is

XUM V40129 FEB 11 75 XUM

submitted at the hearing, will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by the FEA and made available for inspection at the Administrator's Reception Area, Room 3400, Federal Building, 12th & Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

As required by section 7(c)(2) of the Federal Energy Administration Act of 1974, Pub. L. 93-275, a copy of this notice has been submitted to the Administrator of the Environmental Protection Agency for his comments concerning the impact of this proposal on the quality of the environment. The Administrator had no comments on this proposal.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, 39 FR 23185)

In consideration of the foregoing, it is proposed to amend Part 211, Chapter II of Title 10 Code of Federal Regulations, as set forth below.

Issued in Washington, D.C., February 5, 1975.

ROBERT E. MONTGOMERY, JR.,
General Counsel,
Federal Energy Administration.

1. Section 211.10 is amended in paragraph (g) by revising subparagraphs (2), (3), (5), and (8) to read as follows:

§ 211.10 Supplier's method of allocation.

• • • • • •

(g) *Allocation fractions greater than one.* • • •

(2) *Non-reporting suppliers.* Any wholesale purchaser-reseller which is a retail sales outlet or any other supplier not subject to subparagraph (3) of this paragraph and which has an allocable supply of sufficient magnitude that its allocation fraction will exceed one (1.0) for a period corresponding to a base period, shall make allocations based on an allocation fraction of one (1.0) and shall distribute its surplus product as provided by subparagraph (5) of this paragraph. There is no requirement that such a wholesale purchaser-reseller report its surplus product to FEA.

(3) *Surplus product reports.* A supplier which is either a refiner, a gas processing plant operator, a prime supplier in any state, or a supplier of a prime supplier (such as a broker) and which is not a retail sales outlet and which has an allocable supply of sufficient magnitude that its allocation fraction computed pursuant to paragraph (b) of this section will exceed one (1.0) for an allocated product for a period corresponding to a base period, shall make allocations based on an allocation fraction of one (1.0) and shall report the volume, location, price, availability of transportation and significant specifications of surplus product available. The surplus product report shall be submitted in writing to the FEA National Office, with a copy to the appropriate FEA Regional Offices, within five (5) days of the supplier's determination that its allocation fraction will exceed one (1.0). The report must be clearly labeled "Surplus Product Report" both on the document and on the outside of the envelope in which the document is transmitted and shall be addressed to: Federal Energy Administration, Surplus Product Report, Post Office Box 19407, Washington, D.C. 20036. The FEA shall provide written notification to each supplier submitting a surplus product report of the exact time of receipt of the surplus product report.

• • • • • •

(5) *Distribution of surplus product.* Any supplier subject to subparagraph (2) and any supplier which reports pursuant to subparagraph (3) of this paragraph and which is not notified to the contrary within ten (10) days of receipt by FEA of the supplier's notification under subparagraph (3) of this paragraph, may distribute its surplus product at its discretion except that (i) the supplier shall supply, in the aggregate, to any and all purchasers in the category of (A) wholesale purchaser-resellers which are entitled to receive an allocation from that supplier and which are branded independent marketers, to the extent that such category of purchaser is willing to accept it, at least the same proportion of the supplier's surplus product as the total base period volumes (prior to any adjustments) of branded independent marketers which are entitled to receive an allocation from that supplier bear to the total base period volumes (prior to any adjustments) of all purchasers, including those assigned by FEA, which are entitled to receive an allocation from that supplier; and (B) wholesale purchaser-resellers which are entitled to receive an allocation from that supplier and which are non-branded independent marketers, to the extent that such category of purchasers is willing to accept it, at least the same proportion of the supplier's surplus product as the total base period volumes (prior to any adjustments) of non-branded independent marketers which are entitled to receive an allocation from that supplier bear to the total base period volumes (prior to any adjustments) of all purchasers including those assigned by FEA, which are entitled to receive an allocation from that supplier; and (ii) the supplier may not supply to retail sales outlets owned and operated by the supplier, in the aggregate, a greater proportion of the supplier's surplus product than the total base period volumes (prior to any adjustments) of all such retail sales outlets bear to the total base period volumes (prior to any adjustments) of all purchasers, including those assigned by FEA, which are entitled to receive an allocation from that supplier unless the supplier first offers and meets all requests for surplus product from any and all independent marketers which are entitled to receive an allocation from that supplier to the extent required in clause (i) of this subparagraph. *Provided, That* a supplier shall not be required to offer surplus product to any purchaser which has refused to lift all of its allocation entitlement for that period corresponding to a base period.

• • • • • •

(8) *Limitation on purchaser's rights including special restrictions on propane and butane.* (i) Unless directed by FEA no supplier shall supply and no end-user or wholesale purchaser-consumer shall accept quantities of an allocated product which exceed one hundred (100) percent of the end-user's or wholesale purchaser-consumer's current requirements, *Provided,* That (A) no supplier shall supply and no end-user or wholesale purchaser-consumer shall accept or use quantities of propane or butane (including the propane and butane content of natural gas liquids and refinery gas) in excess of one hundred (100) percent of base period use for any industrial use except for the purpose of increasing inventories for such uses to the levels allowed under § 211.86(g) or § 211.96(e), *And provided, further, That* (B) no supplier shall supply and no end-user or wholesale purchaser-consumer shall accept or use quantities of propane or butane (including the propane and butane content of natural gas liquids and refinery gas) in excess of one hundred (100) percent of base period use of refinery fuel use.

(ii) Suppliers and wholesale purchasers shall comply with § 211.87 and § 211.97 in the purchase and sale of surplus propane and butane.

2. Section 211.83 is amended in paragraph (c) by revising subparagraph (3) to read as follows:

§ 211.83 Allocation levels.

• • • • • •

(c) *Allocation levels subject to an allocation fraction.* • • •

(3) Ninety-five (95) percent of base period use for all residential use, except that whenever the allocation fraction of a supplier which supplies end-users and wholesale purchaser-consumers pursuant to this allocation level is less than 0.9, that supplier shall supply the residential use requirements of those end-users and wholesale purchaser-consumers at an allocation level of eighty-five (85) percent of base period use, not subject to an allocation fraction.

• • • • • •

3. Section 211.87 is amended by adding a paragraph (f) to read as follows:

§ 211.87 Procedures and reporting requirements.

• • • • • •

(f) *Surplus propane purchase report.* (1) Notwithstanding the provisions of § 211.12 of this part, any wholesale purchaser may purchase propane subject to subparagraphs (2) and (3) of this paragraph from any supplier which certifies to the wholesale purchaser in writing that the supplier has surplus propane to distribute and that the supplier has complied with the provisions of § 211.10(g) of this part.

(2) A wholesale purchaser which plans to purchase surplus propane shall report the proposed purchase to the FEA National Office in accordance with forms and instructions issued by FEA including the name and address of the purchaser, the supplier and the broker, if any, the quantity of surplus propane to be purchased and the price of the surplus propane, and a statement certifying that the supplier has provided the wholesale purchaser with a written certification that the supplier has complied with the provisions of § 211.10(g). The report must be clearly labelled "Surplus Propane Purchase Report" both on the document and on the envelope in which the document is transmitted and shall be addressed to: Federal Energy Administration, Surplus Propane Purchase Report, Post Office Box ____, Washington, D.C. 20036.

(3) End-users planning to purchase surplus propane are not required to report pursuant to this paragraph but shall be subject to § 211.10(g) of this part.

4. Section 211.97 is amended by adding a paragraph (e) to read as follows:

§ 211.97 Procedures and reporting requirements.

• • • • • •

(e) *Surplus butane purchase report.* (1) Notwithstanding the provisions of § 211.12 of this part, any wholesale purchaser may purchase butane pursuant to subparagraphs (2) and (3) of this paragraph from any supplier which certifies to the wholesale purchaser in writing that the supplier has surplus butane to distribute and that the supplier has complied with the provisions of § 211.10(g) of this part.

(2) A wholesale purchaser which plans to purchase surplus butane shall report the proposed purchase to the FEA National Office in accordance with forms and instructions issued by FEA including the name and address of the purchaser, the supplier and the broker, if any, the quantity of surplus butane to be purchased and the price of the surplus butane, and a statement certifying that the supplier has provided the wholesale purchaser with a written certification that the supplier has complied with the provisions of § 211.10(g). The report must be clearly labelled "Surplus Butane Purchase Report" both on the document and on the envelope in which the document is transmitted and shall be addressed to: Federal Energy Administration, Surplus Butane Purchase Report, Post Office Box CB, Washington, D.C. 20036.

(3) End-users planning to purchase surplus butane are not required to report pursuant to this paragraph, but shall be subject to § 211.10(g) of this part.

5. Section 211.106 is amended in paragraph (b) by revising clause (ii) of subparagraph (3) to read as follows:

§ 211.106 Retail sales outlets.

• • • • • •

(b) *Retail sales outlets as a firm.* • • •

(3) • • •

(ii) Each entity which operates two or more retail sales outlets which are supplied by a common supplier may reassign up to thirty (30) percent of the allocation entitlement (excluding any amounts which those retail sales outlets have certified pursuant to § 211.12(d) to be for ultimate use under an allocation level not subject to an allocation fraction) of a retail sales outlet which it operates to another retail sales outlet which it operates provided that no retail sales outlet may have its allocation entitlement (excluding any amounts which those retail sales outlets have certified pursuant to § 211.12(d) to be for ultimate use under an allocation level not subject to an allocation fraction) increased by more than thirty (30) percent pursuant to any reassignment permitted by this paragraph (b)(3)(ii).

FEDERAL TRADE COMMISSION

[16 CFR Part 437]

FOOD ADVERTISING

Amendment of Analysis and Statement of Issues by Section

On November 11, 1974, a document was published in the FEDERAL REGISTER (39 FR 39842) initiating a proceeding for the promulgation of a Trade Regulation Rule concerning food advertising. The proposal would amend Subchapter D, Trade Regulation Rules of 16 CFR Chapter 1 by adding a new Part 437. The proposed Rule consisted of a preamble and two parts—Subpart A setting forth the definitions of terms embodied in the proposed Rule and establishing the specific form, content and method for making disclosures required by the proposed Rule; and Subpart B establishing specific requirements which must be met before certain affirmative nutrition claims can be made in food advertising. Also published at that time was an *Explanation and Basis of Proceeding,* and an *Analysis and Statement of Issues by Section.*

The proceeding was designed for two purposes, i.e., (1) to elicit comment on the proposed Rule and on certain issues relating to voluntary claims in food advertising as to which the Commission has not as yet proposed particular rule provisions; and (2) to elicit comment on the issues raised by the staff statement of fact, law and policy, including, in particular, the form which the disclosures called for therein should take. The *Analysis and Statement of Issues by Section* was designed to facilitate comment on the proposed Rule and on the staff statement respecting affirmative disclosure and to designate the issues which the Commission is particularly interested in having addressed during the time period provided for written comments.

Notice is hereby given that the Federal Trade Commission has amended § 437.1(a) of the *Analysis and Statement of Issues by Section* (39 FR 39846) to conform to the corresponding section of the proposed Rule, to read as follows:

ANALYSIS AND STATEMENT OF ISSUES BY SECTION

• • • • • •

Subpart A—General

§ 437.1 Definitions.

(a) *"Advertisement" or "Advertising".* Under this definition, the proposed rule covers all food advertising except advertisements promulgated by retail supermarkets, food stores and wholesale food establishments, *and* point-of-purchase advertising for all foods, *if:*

1. The contents of the advertisements relate only to price; and

2. The advertisements contain no nutrition claims.

• • • • • •

Issued: February 11, 1975.

By direction of the Commission.

[SEAL] CHARLES A. TOBIN,
Secretary.

DEPARTMENT OF STATE

[Public Notice CM–6/13]

STUDY GROUP 2 OF THE U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL RADIO CONSULTATIVE COMMITTEE (CCIR)

Meeting

The Department of State announces that Study Group 2 of the U.S. National Committee for the International Radio Consultative Committee (CCIR) will meet on March 6, 1975, at 1 p.m. in Room 521J, Federal Office Building 10B, 600 Independence Avenue SW., Washington, D.C.

Study Group 2 deals with matters relating to the communications for scientific satellites, space probes, spacecraft, exploration satellites (e.g., meteorological and geodetic), and to interference problems concerning the radioastronomy and radar astronomy services. The agenda for the meeting will include:

a. Review of work programs looking to the international meeting of Study Group 2 in 1976;

b. Assignment of responsibilities;

c. Establishment of deadlines for submission of documents to the National Committee; and

d. Ceremonial transfer of the Chairmanship of U.S. Study Group 2 from Dr. John P. Hagen to Mr. Elbert L. Eaton.

Members of the general public who desire to attend the meeting on March 6 will be admitted up to the limits of the capacity of the meeting room.

Dated: February 4, 1975.

GORDON L. HUFFCUTT,
Chairman,
U.S. CCIR National Committee.

ADVISORY COMMITTEE ON VOLUNTARY FOREIGN AID

Meetings

Pursuant to Executive Order 11686 and the provisions of section 10(a), Pub. L. 92–463, Federal Advisory Committee Act, notice is hereby given of the meetings of the Advisory Committee on Voluntary Foreign Aid which will be held on March 6, 1975, from 2 p.m. to 5:30 p.m., and March 7, from 9 a.m. to 12:30 p.m. and 2 p.m. to 5 p.m., in Room 5951, New State Building, 21st and Virginia Avenue NW., Washington, D.C.

The purpose of the meetings will be to consider A.I.D.'s response to the Advisory Committee's Report, "A Look to the Future," the ocean freight subvention policy, the food crisis, the experience to date with the Operational and Development Program Grants, plans for the bicentennial, and to formulate the 1975 agenda of the Advisory Committee on Voluntary Foreign Aid, and such other matters related to the foreign assistance advisory concerns of the Committee as may be appropriate.

The sessions will be open to the public. Any interested person may attend, appear before, or file statements with the Committee in accordance with procedures established by the Committee and to the extent time available for the meetings permits. Written statements may be filed before or after the meetings.

Dr. Jarold A. Kieffer will be the A.I.D. representative at the meetings. Information concerning the meetings may be obtained from Mr. Robert S. McClusky, Telephone: AC 202–632–1892. Persons desiring to attend the meetings should enter the New State Building through the 21st Street entrance.

Dated: February 3, 1975.

JAROLD A. KIEFFER,
Assistant Administrator for Population and Humanitarian Assistance.

FISH

Tariff Rate Quota

FEBRUARY 5, 1975.

The tariff-rate quota for the calendar year 1975, on certain fish dutiable under item 110.50, Tariff Schedules of the United States.

In accordance with item 110.50 of part 3, schedule 1, Tariff Schedules of the United States, it has been ascertained that the average aggregate apparent annual consumption in the United States of fish, fresh, chilled or frozen, fillets, steaks, and sticks, or cod, cusk, haddock, hake, pollock, and rosefish, in the three years preceding 1975, calculated in the manner provided for in headnote 1, part 3A, schedule 1, was 237,968,606 pounds. The quantity of fish that may be imported for consumption during the calendar year 1975 at the reduced rate of duty under item 110.50 is, therefore, 35,695,291 pounds.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

DEPARTMENT OF DEFENSE

Department of the Army

U.S. ARMY MISSILE COMMAND SCIENTIFIC ADVISORY GROUP

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following Committee Meeting:

Name of committee. U.S. Army Missile Command Scientific Advisory Group.

Date of meeting. 4–5 March 1975.

Place. U.S. Missile Command, Redstone Arsenal, Alabama.

Time: 0830 hours.

Proposed agenda. a. High Acceleration Guided Projectile Technology.

b. Advanced Seeker Concepts.

c. Sensor and Control Systems Technology.

d. Component Hardening Program.

This meeting is closed to the public since the matters to be discussed fall under section 552(b)(1) of Title 5, United States Code, which states that matters required by Executive Order to be kept SECRET in the interest of national defense shall be withheld from disclosure.

For the commander.

LLOYD L. LIVELY,
Executive Secretary, U.S. Army Missile Command Scientific Advisory Group.

NAVY GRADUATE EDUCATION PROGRAM SELECT STUDY COMMITTEE

Establishment

In accordance with the provisions of Pub. L. 92–463, Federal Advisory Committee Act, notice is hereby given that the Navy Graduate Education Program Select Study Committee has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The Office of Management and Budget has also reviewed the justification for this advisory committee and concurs with its establishment.

The nature and purpose of the Navy Graduate Education Program Select Study Committee is indicated below:

"The Committee shall advise the Chief of Naval Education and Training concerning those curricula of the Navy graduate education program. This Committee shall study the curricula of the Navy graduate education program and recommend which unique Navy specialty and subspecialty requirements can most effectively be provided at the Naval Postgraduate School and which can best be provided at civilian institutions. This Committee is an Ad Hoc Committee and shall terminate as soon as its objectives are met. Under no circumstances shall this Committee continue longer than six months."

MAURICE W. ROCHE,
Directorate for Correspondence and Directives, OASD (Comptroller).

Office of the Secretary

DEFENSE SCIENCE BOARD TASK FORCE ON "EXPORT OF U.S. TECHNOLOGY; IMPLICATIONS TO U.S. DEFENSE"

Advisory Committee Meeting

The Semiconductor Subcommittee of a special advisory committee to the Defense Science Board on "Export of U.S. Technology; Implications to U.S. Defense" will meet in closed session on February 27, 1975 in the Pentagon, Washington, D.C.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense. The special advisory committee will provide an assessment of the implications to U.S. defense of current and impending exports of U.S. technology to serve as a basis for determination of Defense policy.

In accordance with Pub. L. 92–463, section 10, paragraph (d), it has been determined that Defense Science Board meetings concern matters listed in section 552(b) of Title 5 of the United States Code, particularly subparagraph (1) thereof, and that the public interest requires such meetings to be closed insofar as the requirements of subsections (a)(1) and (a)(3) of section 10, Pub. L. 92–463 are concerned.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

FEBRUARY 6, 1975.

DEPARTMENT OF JUSTICE

PRICE BROTHERS CO.

Proposed Consent Judgment in Action to Enjoin Discharge of Pollutants

In accordance with departmental policy, 28 CFR § 50.7, 38 FR 19029, notice is hereby given that on January 21, 1975, a proposed consent decree was lodged with the United States District Court for the Southern District of New York in the case of *United States* v. *Price Brothers Company*. The proposed decree prohibits any discharge whatsoever from the defendant's spinning operations into the Hudson River and prohibits any discharge from sources other than the spinning operations except as allowed by the terms of any permit that may be issued under the provisions of the Federal Water Pollution Control Act.

The Department of Justice will receive for 30 days from the date of publication of this notice written comments relating to the proposed judgment. Comments should be addressed to the Assistant Attorney General of the Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530 and refer to *pany*, D.J. Ref. 90–5–1–1–336.

The proposed consent decree may be examined at the office of the United States Attorney, Foley Square, New York, New York 10007, at the Region II Office of the Environmental Protection Agency, 26 Federal Plaza, New York, New York 10007 and at the Pollution Control Section, Land and Natural Resources Division, Department of Justice, Ninth Street and Pennsylvania Avenue, NW., Washington, D.C. 20530. A copy of the proposed consent decree may be obtained by applying in person or by mail to the Pollution Control Section. In requesting a copy, please enclose a check in the amount of $0.40 (10 cents per page reproduction charge) payable to the Treasurer of the United States.

WALLACE H. JOHNSON,
Assistant Attorney General,
Land and Natural Resources Division.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

TRIBAL CONTRACTING GUIDELINES

Notice of Development

JANUARY 30, 1975.

This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2.

Notice is hereby given that the Bureau of Indian Affairs has developed the following guidelines which will be used in contracting with Indian tribes:

TRIBAL CONTRACTING GUIDELINES

SECTION I—INTRODUCTION

Recently the Commissioner of Indian Affairs announced a course of action designed to offer all Indian Tribes the opportunity to operate Bureau programs to the extent possible under contracts. (Indian Tribe, as used in these guidelines, means a Federally recognized Indian Tribe, Community, Corporation, body, or organization, including like Native entities in Alaska)

Since that announcement, questions have arisen concerning the extent to which the Bureau can contract its programs to Indian Tribes and what activities must be performed by the Government.

The following guidelines are intended to define the degree to which each program may be contracted to an Indian Tribe and to identify parameters that will insure accomplishment of basic responsibilities.

They will provide a basis for initial discussions and for answering basic questions for both Tribal and Bureau personnel relative to the self determination concept. Although there may be a few instances that will require specific review and interpretation, this presentation should provide a common understanding of the policy and principles of Tribal contracting of Bureau programs.

SECTION II—GENERAL

1. All Tribes will have been offered the opportunity to contract with the Bureau to operate Bureau programs by the time these guidelines are issued. In some instances, decisions may have been deferred pending further study. It is incumbent on the Bureau staff to be fully conversant with the contracting policy and procedures of the Bureau and the criteria and limitations contained in these guidelines to provide proper advice and guidance to Tribes in these matters.

2. When a Tribe has decided to undertake the operation of one or more Bureau programs by contract, it shall develop a Plan of Operation. This Plan will contain, as a minimum, the work requirements necessary to assure adequate accomplishment of program objectives, staffing and staff qualifications, and itemized estimate of costs.

The Plan of Operation may be developed independently by the Tribe; or, assistance and guidance may, if requested, be furnished by appropriate Bureau personnel.

3. The Plan of Operation and a Tribal resolution expressing the Tribe's desire to contract will then be forwarded through appropriate channels to the Contracting Office for consideration. The Contracting Office will obtain a technical review and evaluation from appropriate program staff prior to taking action on the Tribe's Plan of Operation, and legal review as considered by the Contracting Office to be appropriate. Prior to approval of any contract with a Tribe that may affect terms and conditions of Bureau employment, the Contracting Office through appropriate channels shall meet with such labor organizations as may be the exclusive representative(s) of employees who would be adversely affected by such approval and, in accordance with the requirements of Executive Order 11491, as amended, shall consult with such labor organizations(s) as to the reasons for contracting the program contemplated.

4. Maximum Tribal input will be effected during the contract planning and development stages. After the contract is signed, however, the contractor, as in any other contract, will be required to comply with the provisions of the contract. Any proposed changes to contracted activities will be fully discussed by the contractor and Bureau personnel. All modifications to the contract require formal approval of the Contracting Officer.

5. The Bureau is responsible for insuring that funds allocated to its programs are used properly and effectively and therefore will closely review the financial management of all contracts.

XUM
V40129
FEB 11 75
XUM

Tribal contractors will be expected to utilize sound business practices and will be required to maintain an accounting system in accordance with generally accepted accounting principles and standards. Tribes may request and expect assistance and guidance from Bureau personnel in developing appropriate accounting systems.

Tribes will be subject to the same fiscal limitations as are imposed on the Bureau.

6. All activities contracted for pursuant to these guidelines shall be subject to any Bureau approvals required by law or regulation whether or not specifically mentioned herein.

7. Facilities, equipment and records now being used to carry out any program by the Bureau may be made available, as Government furnished property (GFP), to a Tribe which undertakes the program under contract, when authorized by law and approved by the Bureau. The standard GFP Clause shall be incorporated in applicable contracts.

8. Use of GSA support is allowable with cost-reimbursement contracts. Ordering of supplies from General Services Administration (GSA) stores shall be in accordance with GSA Regional Office policy.

Ordering of equipment, materials, and supplies from a Federal Supply Service contractor is at the supplier's option.

GSA vehicle use must be approved on an individual contract basis by GSA Regional Office.

9. The Bureau can contract with a Tribe, an association of Tribal bodies, a Tribal corporation, or any other legal entity organized by Tribes.

When an association of Tribal bodies, tribal corporation, or other recognized Tribal organization does wish to contract, the Bureau may contract with such body, corporation or organization only with the consent of the Tribe or Tribes affected.

SECTION III—PROGRAMS SUITABLE FOR CONTRACTING

A. *Education and training*—1. *School Operations.* All functions related to school operations can be contracted, either as a total school or by unit components, such as food services, pupil transportation, maintenance, or residential living.

Detailed guidelines—including planning, eligibility, limitations, fiscal and program auditing requirements, technical assistance available, a sample proposal and procedural steps—are contained in 20 BIAM 6, dated April 24, 1972.

Requirements and limitations:

(a) Education programs shall meet or exceed established State standards;

(b) Transportation equipment and personnel shall meet applicable licensing and safety standards;

(c) Food service facilities shall be inspected periodically by an appropriate Health Service Authority and maintained in an acceptable condition;

(d) Food service shall conform with the minimum nutritional requirements prescribed by U.S. Department of Agriculture and/or the State Department of Education; and

(e) Pupil attendance shall conform to established State or tribal standards.

Waivers for these and other requirements are authorized by 20 BIAM 6 and can be made by the Bureau when formally requested by the contractor and professionally justified as to the educational soundness for the exceptions.

2. *Supplementary Education Programs.* Any Elementary and Secondary Education Act (P.L. 93-380) project component which may be performed by a Tribe should be identified by the Bureau in consultation with the Tribal officials during the project planning stage and designed for performance under contract.

Requirements and limitations: When supplementary education projects are approved and funds allocated therefor, it becomes the responsibility of the Bureau to insure that the project is carried out as approved. Tribes contracting to perform such projects will be expected to fulfill this obligation.

3. *Career Development.* Tribes may contract for the total administration of a Scholarship Program or may limit its service to recommendations to the Bureau for selection of eligible grantees and determination of amount of grant, and student counseling.

Grants may be made directly to the student by the Bureau on advice from the Tribe, or from funds provided to the Tribe for distribution to the students.

Requirements and limitations: Scholarship grants will be made on the basis of criteria contained in 62 BIAM 5. There will be strict accounting for all grant funds, including refunds from schools in case of dropout, transfer, etc.

4. *Adult Vocational Training (AVT) and Direct Employment Programs.* All direct elements of AVT and Direct Employment Programs can be performed under contract with Tribes including placement services, job counseling, relocation assistance, and other duties connected with finding employment and establishing the client in a job and in the new environment.

5. *Aid to Public Schools.* (JOM) Such contracts may be made for determination of need; developing, in cooperation with school officials and the Indian Education Committee(s), a program to satisfy such needs; and monitoring the program, as provided in 25 CFR 33.

B. *Community Services—Social Services.* All operational components of the Social Services element can be contracted with Tribes. Administration of this program will include counseling for recipients of services and monitoring of foster home and institutional care. The same budgetary standards used by the State welfare agency for State public assistance programs are used to determine the individual's or family's assistance needs.

Grants may be made directly to eligible recipients by the Bureau on advice from the Tribe, or from funds provided to the Tribe for distribution to eligible recipients on approval by the Contracting Officer of a request supported by names and amounts.

Requirement: When no official Tribal Standards have been adopted, the standards established by the State for foster homes and foster care should be observed in so far as possible, taking into consideration the preservation of Indian life styles peculiar to the geographical location.

C. *Law Enforcement*—1. *Detention Center Operations.* Contracts for the operation of detention centers shall require full consideration for the safety, health and protection of individual rights of all inmates.

Standards of health, safety, and sanitation will be determined by joint agreement between the Bureau of Indian Affairs and Public Health Service in consultation with Tribal officials.

Personnel must meet qualification and physical standards prescribed by applicable codes and regulations.

Facilities must be kept in a good state of repair.

2. *Enforcement Services.* This program involves the furnishing of uniformed police officers and all equipment necessary to provide investigation, enforcement and protection services, subject to local conditions of jurisdiction and State and Federal law where applicable.

Policemen must be adequately trained, physically fit and meet rigid moral standards not less than those required for Bureau employed policemen.

Contracts may not be entered into for enforcement services where Courts of Indian Offenses (25 CFR) are provided.

D. *Housing*—1. *Housing Improvement Program.* A Tribe may contract for the Bureau Housing Improvement Program for the total program which may encompass the selection of houses for repair, determination of extent of repair and performance of the work.

Requirement and limitations: Houses selected for repair and the determination of the extent of repair shall conform with Bureau standards.

2. *Housing Development.* This program may be contracted.

E. *Road Maintenance Programs*—Road maintenance programs can be contracted with Tribes.

Requirements and limitations: Maintenance is limited to roads listed on the Indian Roads Systems Map.

F. *Commercial Development*—1. *Credit and Financing.* The only element in the Credit Program which may be contracted with Tribes is the furnishing of management and technical assistance to loan and grant recipients and the maintenance of a Credit Office where applicants could receive advice on credit programs, make application, and be counseled on procedures and the responsibilities of a loan recipient.

Requirements and limitations: Approval and administration of loans must be performed by the Bureau.

2. *Commercial Enterprise Development.* Most operational components of this activity may be contracted with the exception of the financial assistance portion of the Enterprise Development Activity made under provisions of Title IV of the Indian Financing Act of 1974.

SECTION IV—PROGRAMS NOT SUITABLE, OR PARTIALLY SUITABLE FOR CONTRACTING

A. *Trust Services*—1. Real Estate Services cannot be contracted except for appraisals functions.

2. Indian Trust Fund Programs cannot be contracted.

3. Forestry Management cannot be contracted as a program; however, certain work elements such as tree planting and thinning can be contracted on a project basis.

4. Range Management cannot be contracted as a program; however, certain work elements such as development of range use plans, operation and maintenance projects, fencing and miscellaneous technical services can be contracted on a project basis.

Approval of carrying or grazing capacity, establishing grazing fee rates and executing grazing permits are key protective functions required by the trust responsibilities of the Secretary.

B. *Trust Facilitation*—1. Soil and Moisture Conservation Programs cannot be contracted as a program but operational elements such as land use investigation and planning, soil stabilization and improvement, water and resource management, operation and maintenance, and miscellaneous technical services can be contracted on a project basis.

2. Irrigation Operation and Maintenance Programs can be contracted (except for collection of and accounting for funds).

3. Environmental Quality Programs may not be contracted as a program; however, certain work elements such as initial surveys and assembly of statements may be contracted on a project basis.

SECTION V—PROJECTS SUITABLE FOR CONTRACTING

(Contract Opportunities of a Project Nature as Distinguished From Program Operations.)

In Sections III and IV, mention was made of some of the project type contract opportunities which Indian Tribes may wish to undertake. This is a summary, not all inclusive, demonstrative of such projects:

1. Construction projects including roads, buildings, building repair and improvement, dams, irrigation structures.
2. Tree planting, thinning.
3. Studies and investigations of various types.
4. Safety promotion and instructions.
5. Training projects.
6. Comprehensive plans.
7. Tribal membership rolls.
8. Mapping and resources overlays.
9. Special education programs.
10. Soil and Moisture Conservation projects such as seeding, brush clearing, erosion control practice.
11. Industrial development projects.
12. Building and facilities maintenance.

SECTION VI—FUNCTIONS NOT SUITABLE FOR CONTRACTING

The following cannot be considered as contractable items:

1. A position, such as the Agency Superintendent or Reservation Programs Officer.
2. Finance or budget functions which involve decisions connected with the integrity of an accounting for funds.
3. Functions with primary responsibility for accounting for, control of, and general management of Government property.
4. Courts of Indian Offenses.
5. Functions of Area or Agency Special Officer.

Interested members of the public may submit written comments and suggestions on these tribal contracting guidelines to the Director of Administration, Bureau of Indian Affairs, 1951 Constitution Avenue NW., Washington, D.C. 20245, on or before March 13, 1975. The comments and suggestions submitted will be considered and the guidelines revised as needed.

These guidelines will be issued as a new Supplement 1 to Part 20 of the Bureau of Indian Affairs Manual and will become effective on the date the supplement is signed. Copies of the supplement will be distributed to Federally recognized Indian tribes. In addition, the Bureau manual and its supplements are available for inspection by Indian tribes and other members of the public at the Bureau's Agency, Area and Central Office locations.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

Bureau of Land Management

ALASKA

Meeting

Notice is hereby given that pursuant to 43 U.S.C. 2653.7, a public hearing will be held on February 21, 1975, beginning at 10 a.m., in the Wildwood Theatre in Kenai, Alaska.

The meeting will be open to the public, and any interested person make an oral statement or file a written statement. Requests to give oral statements should be made to the Bureau of Land Management representative at the public hearing, and written statements may be submitted by March 7, 1975, to the State Director, Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501.

Additional public hearings required under the aforementioned authorities shall be scheduled in Juneau, Kodiak, and Sitka, with locations and dates to be announced.

CURTIS V. MCVEE,
State Director.

[Tentative Sale 40]

MID-ATLANTIC OUTER CONTINENTAL SHELF

Call for Nominations of and Comments on Areas for Oil and Gas Leasing

Pursuant to the authority prescribed in 43 CFR 3301.3 (1973), nominations are hereby requested for areas in the Mid-Atlantic Outer Continental Shelf (OCS) for possible oil and gas leasing under the Outer Continental Shelf Lands Act (43 U.S.C. 1331-1343 (1970)). Nominations will be considered for any or all of that part of the following mapped area landward of a line beginning at the SW corner of block 971, found on OCS Official Protraction Diagram NJ 18-6; thence north to the NW eorher of block 883; thence east to the SW corner of block 843; thence north to the NW corner of block 667; thence east to the SW corner of block 628; thence north to the NW corner of block 540; thence east to the SW corner of block 498; thence north to the NW corner of block 366; thence east to the SW corner of block 326; thence north to the NW corner of block 194; thence east to the SW corner of block 152; thence north to the NW corner of block 64; thence east to the SW corner of block 22; thence north to the NW corner of block 990, found on OCS Official Protraction Diagram NJ 18-3; thence east to the SW corner of block 947; thence north to the NW corner of block 859; thence east to the SW corner of block 819; thence north to the NW corner of block 775; thence east to the SW corner of block 734; thence north to the NW corner of block 646; thence east to the SW corner of block 603; thence north to the NW corner of block 471; thence east to the SW corner of block 431; thence north to the NW corner of block 343; thence east to the SW corner of block 276, found on OCS Official Protraction Diagram NJ 19-1; thence north to the NW corner of block 232; thence east to the SW corner of block 190; thence north to the NW corner of block 102; thence east to the SW corner of block 65; thence north to, and ending at the NW corner of block 21; and seaward of a line beginning at the SW corner of block 996, found on OCS Official Protraction Diagram NJ 18-5; thence north to the NW corner of block 820; thence east to the SW corner of block 779; thence north to the NW corner of block 559; thence east to the SW corner of block 518; thence north to the NW corner of block 298; thence east to the SW corner of block 258; thence north to the NW corner of block 962, found on OCS Official Protraction Diagram NJ 18-2; thence east to the SW corner of block 881, found on OCS Official Protraction Diagram NJ 18-3; thence north to the NW corner of block 661; thence east to the SW corner of block 620; thence north to the NW corner of block 400; thence east to the SW

XUM
V40129
FEB 11 75

corner of block 358; thence north to, and ending at the NW corner of block 6:

OCS Official Protraction Diagrams:
1. NJ 18-2 Wilmington
2. NJ 18-3
3. NJ 19-1
4. NJ 18-5 Salisbury
5. NJ 18-6

This area is located offshore the States of New Jersey, Delaware, Maryland and Virginia (extreme northern part only), and it is at no point closer than 20 miles from the shoreline.

These protraction diagrams may be purchased for $2.00 each from the Environmental Assessment Team Leader, Atlantic Outer Continental Shelf Office, Bureau of Land Management, 6 World Trade Center, Suite 600D New York, New York 10048. All nominations must be described in accordance with the Outer Continental Shelf Official Protraction Diagrams prepared by the Bureau of Land Management, Department of the Interior and referred to above. Only whole blocks or properly described subdivisions thereof, not less than one quarter of a block, may be nominated.

In addition to requesting nominations of tracts for possible oil and gas leasing within the specified areas, this notice also requests the identification of particular tracts recommended to be either specifically excluded from oil and gas leasing or leased only under special conditions because of conflicting values and environmental concerns. Particular geological, environmental, biological, archaeological, socio-economic or other information which might bear upon potential leasing and development of particular tracts is requested where available. Information on these subjects will be used in the preliminary selection of tracts which precedes any final selection by the Director pursuant to 43 CFR 3301.4. This information is requested from Federal, State and local governments; industry; universities; research institutes; environmental organizations; and members of the general public. Comments may be submitted on blocks or portions thereof, as required for nominations, or on all areas or portions thereof as described above. They should be directed to specific factual matters which bear upon the Department's decision whether to make a preliminary selection of particular tracts within these areas for further environmental analysis pursuant to the National Environmental Policy Act of 1969 [42 U.S.C. 4321-4347 (1970)], and possible leasing. Comments relating to general matters which would be applicable to oil and gas operations in any part of the OCS are not sought at this time.

Nominations and comments should be submitted not later than April 14, 1975, in envelopes labeled "Nominations of Tracts for Leasing on the Outer Continental Shelf—Mid-Atlantic" or "Comments on Leasing on the Outer Continental Shelf—Mid-Atlantic," as appropriate. They must be submitted to the Director, Bureau of Land Management, Attention: 720, Department of the Interior, Washington, D.C. 20240. Copies must be sent to the Conservation Manager, Geological Survey, Eastern Region, suite 316, 1825 K Street, NW, Washington, D.C. 20006 and to the Environmental Assessment Team Leader, Atlantic Outer Continental Shelf Office, Bureau of Land Management at his address cited above.

Final selection of tracts for competitive bidding will be made only after compliance with established Departmental procedures and all requirements of the National Environmental Policy Act of 1969. Notice of any tracts finally selected for competitive bidding will be published in the FEDERAL REGISTER stating the conditions and terms for leasing and the place; date and hour at which bids will be received and opened.

This call for nominations and comments does not in any way commit the Department to leasing in the Mid-Atlantic. It is an information gathering component of the Department's leasing procedure. Issuance of this Call for Nominations of and Comments on Areas for Oil and Gas Leasing is not intended, and shall not be construed, either as an exercise of jurisdiction by the United States over all or any part of the area subject to the call or as affecting the positions of the parties to litigation involving the Atlantic Outer Continental Shelf, *U.S. v. Maine, et al.*, Supreme Court, No. 35 Original, and *U.S. v. Florida*, Supreme Court, No. 52 Original.

Approved: February 6, 1975.

CURT BERKLUND,
Director, Bureau of Land Management.

WILLIAM W. LYONS,
Deputy Under Secretary of the Interior.

National Park Service

[Order No. 6, Amdt. 3]

SUPERINTENDENTS, ET AL., SOUTHEAST REGION

Delegation of Authority

Order No. 5, published in 37 FR 7721 on April 19, 1972, and Amendment No. 1, published in 37 FR 17771 on August 31, 1972, and Amendment No. 2, published in 38 FR 17749 on July 3, 1973, are hereby amended to change the designation references from Director of Southeast Region to Regional Director, Southeast Region.

Section 1, paragraphs (f), (g) and (l) are amended as follows:

(f) Authority to designate areas at which recreation fees will be charged, as specified by the Land and Water Conservation Fund Act of 1965 (78 Stat. 897), as amended.

(g) Authority to select from the fees established by 43 CFR Part 18 (38 FR 3385), specific fees to be charged at the designated areas in accordance with the Land and Water Conservation Fund Act of 1965 (78 Stat. 897), as amended.

(l) Authority to issue revocable special use permits having a term of more than 20 years.

Section 2. *Delegations.* Is revised to read as follows:

(a) *Associate Regional Director, Administration.* The Associate Regional Director, Administration, is authorized to exercise all the procurement and contracting authority now or hereafter vested in the Regional Director, Southeast Region, except authority relating to land acquisition as hereinafter delegated to Chief, Division of Land Acquisition.

(b) *Chief, Contracting and Property Management Division.* The Chief, Contracting and Property Management Division, is authorized to exercise all the procurement and contracting authority now or hereafter vested in the Regional Director, Southeast Region, except authority relating to land acquisition as hereinafter delegated to Chief, Division of Land Acquisition.

(c) *Assistant Chief, Contracting and Property Management Division.* The Assistant Chief, Contracting and Property Management Division, may execute and approve contracts not in excess of $200,000 for supplies, equipment, or services in conformity with applicable regulations and statutory authority and subject to availability of appropriated funds. This authority may be exercised by the Assistant Chief in behalf of any area administered by the Chief, Contracting and Property Management Division.

(d) *Contracting Specialist, Contracting and Property Management Division.* The Contracting Specialist, Contracting and Property Management Division, may execute and approve contracts not in excess of $50,000 for supplies, equipment, or services in conformity with applicable regulations and statutory authority and subject to availability of appropriated funds. This authority may be exercised by the Contracting Specialist in behalf of any area administered by the Chief, Contracting and Property Management Division.

(e) *Procurement Agent, Contracting and Property Management Division.* The Procurement Agent, Contracting and Property Management Division, may execute and approve contracts not in excess of $10,000 for supplies, equipment, or services in conformity with applicable regulations and statutory authority and subject to availability of appropriated funds. This authority may be exercised by the Procurement Agent in behalf of any area administered by the Chief, Contracting and Property Management Division.

(f) *Chief, Division of Land Acquisition.* The Chief, Division of Land Acquisition is authorized to:

(1) Approve and accept offers to sell to or exchange with the United States lands or interests in lands and to execute all necessary agreements and conveyances incident thereto.

(2) Accept deeds conveying to the United States lands or interests in lands.

(3) Approve on behalf of the National Park Service offers of settlement in condemnation cases.

(4) Approve claims for reimbursement under Pub. L. 91-646.

(g) *Field Land Acquisition Officers and Supervisory Realty Specialist.* All Field Land Acquisition Officers and the Supervisory Realty Specialist (Chief, Realty Section, Southeast Regional Office) are authorized to exercise authority with respect to the following:

(1) Approve and accept offers to sell to or exchange with the United States lands or interests in lands when the amount involved does not exceed $100,000.

(2) Accept deeds conveying to the United States lands or interests in lands.

(3) Approve claims for reimbursement under Pub. L. 91-646 when the amount involved does not exceed $5,000.

(National Park Service Order No. 77, 38 FR 7478, published March 22, 1973, as amended)

Dated: October 4, 1974.

DAVID D. THOMPSON, Jr.
Regional Director, Southeast Region.

[INT DES 75-5]

ANNUAL REGULATIONS PERMITTING THE HUNTING OF MIGRATORY BIRDS

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Public Law 91-190, the Department of the Interior has prepared a draft environmental statement for the issuance of annual regulations permitting the sport hunting of migratory birds, and invites written comments by April 14, 1975.

Copies of the draft statement are available for inspection at all U.S. Fish and Wildlife Service field stations (including National Wildlife Refuges and Fish Hatcheries), Regional and Area Offices and the Washington, D.C. headquarters. Address list of field stations can be obtained from the following Fish and Wildlife Service Offices:

Alaska Area Office (Alaska), Area Director, 813 "D" Street, Anchorage, Alaska 99501.

Region I (California, Hawaii, Idaho, Nevada, Oregon, Washington), Regional Director, 1500 Plaza Building, Irving Street, P.O. Box 3737, Portland, Oregon 97208.

Region II (Arizona, New Mexico, Oklahoma, Texas), Regional Director, Box 1306, Albuquerque, New Mexico 87103.

Region III (Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin), Regional Director, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111.

Region IV (Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee), Regional Director, 17 Executive Park Drive, NE., Atlanta, Georgia 30329.

Region V (Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia), Regional Director, John W. McCormack P.O. and Courthouse, Boston, Massachusetts 02109.

Region VI (Colorado, Iowa, Kansas, Missouri, Montana, Nebraska, North Dakota, South Dakota, Utah, Wyoming), Regional Director, 10597 West Sixth Avenue, P.O. Box 25486, Denver, Colorado 80215.

Single copies may be obtained by writing the Chief, Office of Environmental Coordination, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

Comments concerning the environmental statement should also be addressed to the Chief, Office of Environmental Coordination. Please refer to the statement number above.

Dated: February 5, 1975.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

CIGAR-BINDER (TYPES 51 & 52) AND CIGAR-FILLER AND BINDER (TYPES 42-44 & 53-55) TOBACCOS

Notice of Referendums

Notice is hereby given that on February 24 to February 28, 1975, each inclusive, separate referendums will be held of farmers engaged in the production of the 1974 crop of cigar-binder (types 51 & 52) tobacco and cigar-filler and binder (types 42-44 & 53-55) tobacco. Notice was given (39 FR 45296) that consideration would be given to data, views and recommendations on establishing the date or period for holding the referendums and whether the referendums should be conducted at polling places rather than by mail ballot. The data, views and recommendations regarding these referendums have been considered.

It is hereby determined that these referendums will be held by mail ballot during the period February 24-28, 1975, inclusive. The purpose of these referendums is to determine whether cigar-binder (types 51 & 52) tobacco and cigar-filler and binder (types 42-44 & 53-55) tobacco farmers are in favor of or opposed to marketing quotas for the 1975-76, 1976-77, and 1977-78 marketing years. The referendums will be conducted in accordance with the provisions of the Act (7 U.S.C. 1312(c)) and the regulations contained in 7 CFR Part 717.

Signed at Washington, D.C. on February 6, 1975.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

Farmers Home Administration

[Notice of Designation Number A100]

MISSOURI

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Missouri:

Cape Girardeau Perry

The Secretary has found that this need exists as a result of a natural disaster consisting of excessive rainfall and flooding November 2 and 3, 1974. These counties were previously designated by the Secretary November 15, 1974, because of excessive rainfall in the spring, drought in the summer and freezes in the spring and fall of 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Christopher S. Bond that such designation be made.

Applications for Emergency loans must be received by this Department no later than March 31, 1975, for physical losses and October 29, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 4th day of February 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

[FR Doc.75-3778 Filed 2-10-75;8:45 am]

[Notice of Designation Number A134]

WISCONSIN

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in ten counties in Wisconsin as a result of damages and losses caused by various natural disasters. The attached sheet lists the counties, the natural disasters, and the dates on which the natural disasters occurred.

XUM V40 N29 FEB 11 1975 XUM

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3 (b) including the recommendation of Governor Patrick J. Lucey that such designation be made.

Applications for Emergency loans must be received by this Department no later than March 31, 1975, for physical losses and October 29, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 4th day of February 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

Wisconsin, 10 Counties, 1974

Forest Service

MULTIPLE USE PLAN, UPPER FISHER PLANNING UNIT

Availability of Final Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture has prepared a final environmental statement for Upper Fisher Planning Unit, Forest Service Report Number USDA-FS-FES (Adm) R1-74-15.

The environmental statement concerns a proposed implementation of a revised multiple use plan for the Upper Fisher Planning Unit, Libby and Fisher River Ranger Districts, Kootenai National Forest, and located in Lincoln County, Montana. The proposal affects approximately 65,000 acres of National Forest lands which have been stratified into ten management situations or units with similar resource implications.

This final environmental statement was filed with CEQ on January 31, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service,
South Agriculture Bldg., Room 2231,
12th St. and Independence Ave. SW.
Washington, D.C. 20250.

USDA, Forest Service,
Northern Region,
Federal Building,
Missoula, MT 59801.

Supervisor's Office,
Kootenai National Forest,
416 Mineral Avenue,
Libby, MT 59923.

USDA, Forest Service,
Libby Ranger District,
Libby Ranger Station,
Libby, MT 59923.

USDA, Forest Service,
Fisher River Ranger District,
Canoe Gulch Ranger Station,
Libby, MT 59923.

A limited number of single copies are available upon request to Forest Supervisor, Floyd J. Marita, Kootenai National Forest, Box AS, Libby, MT 59923.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Dated: January 31, 1975.

LEROY JONES,
Regional Forester,
Northern Region, Forest Service.

Soil Conservation Service

DEER CREEK WATERSHED PROJECT, IOWA

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and § 650.7(e) of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement (EIS) for the Deer Creek Watershed Project, Worth County, Iowa, USDA-SCS-EIS-WS-(ADM)-75-2-(D)-IA.

The EIS concerns a plan for watershed protection and flood prevention. The planned works of improvement provide for conservation land treatment, approximately 15 miles of channel work, and 40 miles of subsurface public tile drains. The channel work will involve enlarging and realigning 10.6 miles of existing open ditches and 1.4 miles of unmodified natural streams; and constructing 3 miles of new channels where none existed before. These channels will provide for timely removal of floodwater and will also provide outlets for subsurface drainage. Of the 12 miles of work proposed on existing channels, 10.5 miles will involve those with intermittent flow and 1.5 miles with ephemeral flow.

A limited supply of the draft EIS is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 823 Federal Building, Des Moines, Iowa 50309.

Copies of the draft EIS have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Wilson T. Moon, State Conservationist, Soil Conservation Service, 823 Federal Building, Des Moines, Iowa 50309.

Comments must be received on or before April 10, 1975, in order to be considered in the preparation of the final environmental impact statement.

Dated: January 31, 1975.

KNIFE LAKE IMPROVEMENT RC&D MEASURE, ONANEGOZIE RC&D PROJECT, MINN.

Availability of Supplement to Final Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and § 650.7(e) of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a supplement to the final environmental statement (ES) for the Knife Lake Improvement RC&D Measure, Onanegozie RC&D Project, Kanabec County, Minnesota USDA-SCS-ES-RD-(ADM)-73-1-(F).

The ES concerns a plan for multipurpose development for public recreation, flood damage reduction and the application of associated land treatment measures to protect the proposed development.

The supplement of the final ES has been filed with the Council on Environmental Quality.

A limited supply is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 200 Federal Building and U.S. Courthouse, 316 North Robert Street, St. Paul, Minn. 55101.

(Catalog of Federal Domestic Assistance Program No. 10.901, National Archives Reference Services)

Dated: February 4, 1975.

NEIL P. BOGNER,
Acting Deputy Administrator for Field Services, Soil Conservation Service.

[FR Doc.75-3732 Filed 2-10-75;8:45 am]

LITTLE BLACK WATERSHED PROJECTS, MISSOURI, ARKANSAS

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a combined draft environmental impact statement (EIS) for the Upper and Lower Little Black Watershed Projects in Butler, Carter, and Ripley Counties, Missouri and Clay County, Arkansas, USDA-SCS-EIS-WS-(ADM)-75-8-D-MO.

The EIS concerns plans for watershed protection, flood prevention, agricultural water management (drainage), and nonagricultural water management (recreation). The planned works of improvement provide for conservation land treatment, 24 floodwater retarding structures, one multiple-purpose reservoir with capacity for floodwater retarding and non-agricultural water management (recreation), and approximately 85.5 miles of channel work. The channel work will involve clearing and debris removal on 1.3 miles of Little Black River, 1.4 miles of enlargement on Little Black River, 79.8 miles of enlargement of existing manmade channels and 3.0 miles of new channel. The 85.5 miles of channel work will decrease flooding and provide improved water management on a delta area that is 89 percent agricultural cropland and pastureland. Of the 82.5 miles of work proposed on existing streams or channels, 4.7 miles will involve perennial flow, 37 miles of intermittent flow and 40.8 miles of ephemeral flow. The 3.0 miles of new channel will consist of 1.3 miles of floodway and 1.7 miles for connecting existing ditches. The recreation developments will provide 94,480 visitor days of recreation annually.

A limited supply of the copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, P.O. Box 459, Parkade Plaza Shopping Center, Terrace Level, Columbia, Missouri 65201.

Copies of the draft EIS have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to J. Vernon Martin, State Conservationist, Soil Conservation Service, P.O. Box 459, Columbia, Missouri 65201.

Comments must be received on or before March 31, 1975, in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: February 3, 1975.

EUGENE C. BUIE,
Acting Deputy Administrator for Water Resources, Soil Conservation Service.

[FR Doc.75-3734 Filed 2-10-75;8:45 am]

UPPER BIG NEMAHA WATERSHED PROJECT, NEBR.

Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council of Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Upper Big Nemaha Watershed Project, Gage, Johnson, Lancaster, and Otoe Counties, Nebraska.

The environmental assessment of this federal action indicated that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Wilson J. Parker, State Conservationist, Soil Conservation Service, USDA, 134 South 12th Street, Room 604, Lincoln, Nebraska 68508, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement include conservation land treatment supplemented by 22 single purpose floodwater retarding structures and 35 grade stabilization structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, 134 South 12th Street, Room 604, Lincoln, Nebraska 68508.

Requests for the negative declaration should be sent to the above address.

No administrative action on implementation of the proposal will be taken until February 26, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: February 5, 1975.

EUGENE C. BUIE,
Acting Deputy Administrator for Water Resources, Soil Conservation Service.

INFORMATION MAGNETICS, INC., ET AL.

Order Extending Denial of Export Privileges

In the matter of Information Magnetics, Inc. (Infomag), Goleta, California and Gresham-Infomag Ltd., Weybridge, Surrey, England; Respondents.

By order dated December 2, 1974 (39 FR 42935), the export privileges of the above-titled firms were temporarily denied for a period of 60 days. Pending final disposition of the proceedings, the period of such denial, as set forth in Paragraph IV of that Order, is continued for 45 days to March 17, 1974. All other terms and conditions of that Order, the interpretations thereof, and the exceptions thereto, remain in full force and effect.

Dated: January 30, 1975.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

COMBINATION DRUG CONTAINING NORETHINDRONE ACETATE AND ETHINYL ESTRADIOL

Notice of Withdrawal of Approval of New Drug Application

In a notice of opportunity for hearing (DESI 12872) which was published in the FEDERAL REGISTER of February 7, 1973 (38 FR 3534) pursuant to the evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, the Commissioner of Food and Drugs proposed to issue an order withdrawing approval of the drug product described below. He concluded that, although the drug is effective as a presumptive test for pregnancy, there is a lack of proof of safety for that use in view of the potential danger in the presence of pregnancy and the availability of a number of very accurate chemical tests to detect pregnancy. The holder of the new drug application has waived its opportunity for a hearing, and no other interested person has requested a hearing. Therefore, approval of the new drug application is now being withdrawn:

Gestest Tablets containing norethindrone acetate and ethinyl estradiol; E.R. Squibb and Sons, Inc., Georges Road, New Brunswick, NJ 08903 (NDA 12-872).

All identical, related, and similar drug products, as defined in 21 CFR 310.6, not the subject of an approved new drug application, are covered by the application

XUM V40 0129 FEB 11 75 XUM

reviewed and are subject to this notice. Any person who wishes to determine whether a specific product is covered by this notice should write the Food and Drug Administration, Division of Drug Labeling Compliance (HFD–310), 5600 Fishers Lane, Rockville, MD 20852.

The Director of the Bureau of Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended (21 U.S.C. 355)), and under authority delegated to him (21 CFR 2.121), finds that new evidence, not contained in the application or not available until after the application was approved, evaluated together with the evidence available when the application was approved, reveals that the drug is not shown to be safe for use under the conditions of use upon the basis of which the application was approved.

Therefore, pursuant to the foregoing finding, approval of new drug application No. 12–872 and all amendments and supplements applying thereto is withdrawn effective on February 21, 1975.

Shipment in interstate commerce of the above-listed product or of any identical, related, or similar product, not the subject of an approved new drug application, will then be unlawful.

Dated: February 1, 1975.

J. RICHARD CROUT,
Director, Bureau of Drugs.

[DESI 8656; Docket No. FDC–D–712; ANDA 80400 etc.]

TOPICAL PREPARATIONS THAT CONTAIN LESS THAN 0.5% HYDROCORTISONE

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of Abbreviated New Drug Applications

In a notice (DESI 8656) published in the FEDERAL REGISTER of April 28, 1971 (36 FR 7982), and amended on June 1, 1973 (38 FR 14424) the Commissioner of Food and Drugs announced his conclusion pursuant to the evaluation of reports received from the National Academy of Sciences/National Research Council, Drug Efficacy Study Group on topical corticosteroids. The notice, as amended, stated that these drugs are regarded as effective for relief of the inflammatory manifestations of corticosteroid-responsive dermatoses (skin disorders), and invited abbreviated new drug applications. Several of the products which were subsequently approved pursuant to that notice contained very low strengths of the active drug. Such low strengths have not been proven to be effective and should not have been approved. This present notice proposes to withdraw their approval. Requests for hearing on the proposal are due March 13, 1975.

Included in the notice were topical hydrocortisone products containing 0.5% or more of the corticosteroid; none contained less than 0.5%. The panel of the NAS/NRC Drug Efficacy Study Group which had reviewed topical hydrocortisone-containing products regarded 0.5% hydrocortisone as the lower limit of therapeutic activity. Copies of such Academy reports are on display in the office of the Hearing Clerk, Food and Drug Administration, Room 4–65, 5600 Fishers Lane, Rockville, MD 20852. Although the notice of April 28, 1971 was silent in that regard, it was not intended that the effective classification given the specifically listed products which contained 0.5% or more of the corticosteroid be extended to lower strength topical hydrocortisone preparations. However, pursuant to the notice the below-named abbreviated new drug applications which provide, at least in part, for topical preparations containing less than 0.5% hydrocortisone were received and approved without full consideration of the effectiveness of concentrations of hydrocortisone less than 0.5%. None contained any data to support the effectiveness of such low strengths.

On the basis of all of the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111(a)(5), demonstrating the effectiveness of topical hydrocortisone-containing drug products containing less than 0.5% hydrocortisone.

1. NDA 80–400; Hydrocortisone Topical Cream 0.25%, 0.5%, 1% and 2.5%; Biocraft Laboratories Inc., 92 Route 46, Elmwood Park, NJ 07407.

2. NDA 80–423; Texacort Lotion containing 0.25% and 0.5% hydrocortisone;

3. NDA 80–426; Cetacort Lotion containing 0.125%, 0.25%, 0.5%, and 1% hydrocortisone;

4. NDA 80–427; Cetacort Cream containing 0.25%, 0.5%, and 1% hydrocortisone;

5. NDA 80–430; Lubricort Lotion containing 0.25%, 0.5%, and 1% hydrocortisone; all marketed by Texas Pharmacal Co., 307 E. Josephine Street, San Antonio, TX 78215.

6. NDA 80–428; Texacort Cream containing 0.25% and 0.5% hydrocortisone; formerly marketed by Texas Pharmacal.

7. NDA 80–441; Maintasone Lotion containing 0.26% and 0.5% hydrocortisone;

8. NDA 80–442; Nutracort Cream containing 0.25%, 0.5% and 1% hydrocortisone; both marketed by Owen Laboratories, Inc., P.O. Box 34630, Dallas, TX 75284.

9. NDA 80–443; Nutracort Lotion containing 0.25%, 0.5% and 1% hydrocortisone; all marketed by Owen Laboratories, Inc., P.O. Box 34630, Dallas, TX 75234.

10. NDA 80–472; Hytone Cream containing 0.25%, 0.5%, 1%, and 2.5% hydrocortisone;

11. NDA 80–473; Hytone Lotion containing 0.25%, 0.5%, and 1% hydrocortisone;

12. NDA 80–474; Hytone Ointment containing 0.25%, 0.5%, 1%, and 2.5% hydrocortisone; all marketed by Dermik Laboratories Inc., subsidiary of Rorer-Amchem Inc., 150 Eileen Avenue, Syosset, NY 11791.

13. NDA 80–478; Hydrocortisone Ointment 0.25% and Hydrocortisone Cream 0.25%;

14. NDA 80–479; Hydrocortisone Lotion 0.25%, all marketed by Robinson Laboratory, Inc., 355 Brannan Street, San Francisco, CA 94107.

15. NDA 80–482; Hydrocortisone Cream 0.125%, 0.25%, 0.5%, and 1%; C and M Pharmacal Inc., 1519 E. 8 Mile Road, Hazel Park, MI 48030.

16. NDA 80–489; Hydrocortisone Ointment 0.25%, 0.5%, and 1%; Day Baldwin Inc., subsidiary Cheesbrough-Ponds, Inc., 1460 Chestnut Avenue, Hillside, NJ 07205.

17. NDA 80–494; Dermalotion Lotion containing 0.25%, 1%, and 2% hydrocortisone; Merit Pharmaceutical Co., Inc., 8243 Telephone Road, Houston, TX 77017.

18. NDA 80–497; Hydrocortisone Lotion 0.25% and 0.5%; Towne, Paulsen and Co., Inc., 140 E. Duarte Road, Monrovia, CA 91016.

19. NDA 80–693; Hydrocortisone Cream 0.25%, 0.5%, and 1%; Kasco-Efco Laboratories Inc., Hicksville, NY 11802.

20. NDA 80–703; Hazel-Balm-H-C Aerosol Foam containing 0.2% hydrocortisone; Arnar Stone Laboratories Inc., 1740 Ridge Avenue, Evanston, IL 60204.

21. NDA 80–848; Hydrocortisone Cream 0.25%, 0.5%, and 1%; Day Baldwin Inc.

Therefore, notice is given to the holder(s) of the new drug application(s) and to all other interested persons that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug applications insofar as they pertain to products containing less than 0.5% hydrocortisone and all amendments and supplements thereto on the ground that new information before him with respect to the drug products, evaluated together with the evidence available to him at the time of approval of the applications, shows there is a lack of substantial evidence that the drug products will have the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice of opportunity for hearing applies to all persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice of opportunity for hearing to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Division of Drug Labeling Compliance (HFD–310), 5600 Fishers Lane, Rockville, MD 20852.

In addition to the ground(s) for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in § 310.6) e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201 (p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201 (p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR 310, 314), the applicant(s) and all other persons subject to this notice pursuant to 21 CFR 310.6 are hereby given an opportunity for a hearing to show why approval of the drug application(s) should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and of all identical, related, or similar drug products.

If an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before March 13, 1975, a written notice of appearance and request for hearing, and (2) on or before April 14, 1975, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this notice. The proceedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 130.14 as published and discussed in detail in the FEDERAL REGISTER of March 13, 1974 (39 FR 9750), recodified as 21 CFR 314.200 on March 29, 1974 (39 FR 11680).

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of any such drug product. Any such drug product may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice shall be filed in quintuplicate with the Hearing Clerk, Food and Drug Administration (HFC–20), Room 4–65, 5600 Fishers Lane, Rockville, MD 20852.

All submissions pursuant to this notice, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 505, 52 Stat. 1052–1053, as amended; 21 U.S.C. 355), and under authority delegated to the Director of the Bureau of Drugs (21 CFR 2.121).

Dated: February 1, 1975.

J. RICHARD CROUT,
Director, Bureau of Drugs.

Office of Education

NATIONAL ADVISORY COUNCIL ON INDIAN EDUCATION

Notice of Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), that the next meeting of the National Advisory Council on Indian Education will be held February 28, 1975 at 7:30 p.m. to 10 p.m. at 10 I Street SW., Washington, D.C. and on March 1–9, 1975 from 8 a.m. to 6:30 p.m. every day at Tempo B, Wing 8, 2nd Floor, 2nd and Q Streets SW., Washington, D.C.

The National Advisory Council on Indian Education is established under section 442 of the Indian Education Act (Pub. L. 92–318, Title IV, 20 U.S.C. 1221g). The Council, among other things, is directed to:

(1) advise the Commissioner of Education with respect to the administration (including the development of regulations and of administrative practices and policies) of any program in which Indian children or adults participate from which they can benefit, including sections 241aa to 241ff and 887c of this title and with respect to adequate funding thereof;

(2) review applications for assistance under sections 241aa to 241ff, 887c, and 1211a of this title, and make recommendations to the Commissioner with respect to their approval;

(3) evaluate program and projects carried out under any program of the Department of Health, Education, and Welfare in which Indian children or adults can participate or from which they can benefit, and disseminate the results of such evaluations;

(4) provide technical assistance to local educational agencies and to Indian educational agencies, institutions, and organizations to assist them in improving the education of Indian children;

(5) assist the Commissioner in developing criteria and regulations for the administration and evaluation of grants made under section 241bb(b) of this title; and

(6) to submit to the Congress not later than March 31 of each year a report on its activities, which shall include any recommendations it may deem necessary for the improvement of Federal education programs in which Indian children and adults participate, or from which they can benefit, which report shall include statement of the National Council's recommendations to the Commissioner with respect to the funding of any such programs.

The first evening of the meeting will be open to the public beginning at 7:30 p.m. to 10 p.m. This meeting will be held in the Skyline Inn conference room at 10 Eye Street SW., Washington, D.C.

February 28, 1975, 7:30 p.m. to 10 p.m. the proposed agenda includes:

(1) Review of Title IV roles, regulations and guidelines.

(2) Orientation of Proposal reading procedure.

The March 1–9, 1975 meeting of the National Advisory Council on Indian Education shall be closed to the public, since the Council members will be reviewing proposals that must be held in confidence, under the authority of the Federal Advisory Committee Act. (Pub. L. 92–463) and under the exemptions contained in the Freedom of Information Act, 5 U.S.C. section 552(b)(4) and (6), (Pub. L. 90–23), 45 CFR 5.71(a) and 5.71(b).

March 1–9, 1975. The proposed agenda includes:

(1) Review of Title IV proposals submitted under Parts B–C and Part A non-LEAs.

(2) Make recommendations to the Commissioner with respect to their approval.

Records shall be kept of all Council proceedings (and shall be available for public inspection at the Office of the National Advisory Council on Indian Education located at 425 13th St. NW., Room 326, Washington, D.C. 20004).

Signed at Washington, D.C. on February 4, 1975.

DORRANCE D. STEELE,
Acting Executive Director.

[FR Doc.75–3706 Filed 2–10–75;8:45 am]

NATIONAL ADVISORY COUNCIL ON EDUCATION PROFESSIONS DEVELOPMENT

Meeting

Notice is hereby given, pursuant to section 10(a)(2), Public Law 92–463, that the next meeting of the National Advisory Council on Education Professions Development will be held on Wednesday, March 5, 1975, 9 a.m. to 5 p.m., Thursday, March 6, 1975, 9 a.m. to 5 p.m., and Friday, March 7, 1975, 9 a.m. to 12 noon, local time, at the Sheraton-Palace Hotel, San Francisco, California.

The National Advisory Council on Education Professions Development is established under section 502 of the Education Professions Development Act (Public Law 90–35). The Council is charged with the review of the Education Professions Development Act and of all other Federal programs for the training and development of educational personnel.

The meeting of the Council shall be open to the public. The proposed agenda

XUM
V40-29 FEB 11 75 XUM

includes discussion of recommendations for Federal legislation concerning education professions development, the licensing of postsecondary schools, and a tour of teacher training institutions in the San Francisco Bay Area.

Since the meeting on Thursday, March 6, 1975, involves site visits to teacher training institutions in San Francisco, members of the public planning to attend must provide their own transportation and must give advance notice by calling the Council (202–382–8712) or by mail no later than March 3, 1975.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Council offices, located at 1111 20th Street NW., Suite 306, Washington, D.C. 20036.

Signed at Washington, D.C. on February 3, 1975.

GEORGE E. ARNSTEIN,
Executive Director.

Office of the Secretary

HEALTH INSURANCE BENEFITS ADVISORY COUNCIL

Meeting

Notice is hereby given, pursuant to Pub. L. 92–463, that the Health Insurance Benefits Advisory Council (HIBAC), established pursuant to Section 1867 of the Social Security Act, as amended, which advises the Secretary of Health, Education, and Welfare on Medicare and Medicaid matters will meet on Friday, March 14, 1975, at 9 a.m. in Room 5051 of the Department of Health, Education, and Welfare's North Building, 330 Independence Avenue SW., Washington, D.C. The Council will consider matters pertaining to the Medicare and Medicaid programs.

The Mental Health Subcommittee of HIBAC, which is considering expansion of coverage of mental benefits under Medicare will meet on Thursday, March 13, 1975, at 9 a.m. in Room 5169 of Health, Education, and Welfare's North Building.

The Subcommittee on Maximum Allowable Cost for Drug Reimbursement Under Medicare and Medicaid (MAC), will meet on Thursday, March 13, 1975, at 2 p.m. in Room 5169 of the Health, Education, and Welfare's North building. The Committee is charged with studying how the Administrations' (MAC) proposals may affect the programs.

These meetings are open to the public.

Further information on the Council and the Committees may be obtained from Mr. Sherman Lazrus, Executive Secretary, Health Insurance Benefits Advisory Council, Room 17A–31, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852, telephone (301) 443–1185.

Dated: February 2, 1975.

SHERMAN LAZRUS,
Executive Secretary, Health Insurance Benefits Advisory Council.

[FR Doc.75–3771 Filed 2–10–75;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket No. 26494; Order 75–2–29]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

North Atlantic Air Fares [1]

Issued under delegated authority, February 6, 1975.

An agreement, CAB 24944, R–1 through R–34, has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA). The agreement proposes fares to be effective April 1, 1975 through March 31, 1976 over the North Atlantic.

Essentially, the agreement readopts the pattern of fares contained in Agreement C.A.B. 24623 (the Montreux agreement) and approved by Board Order 74–10–106 (October 21, 1974) for effect from November 1, 1974, through March 31, 1976. The Montreux agreement, however, was not implemented despite approval by most governments due to withdrawal of several carrier parties.

The agreement here before the Board would hold first class, economy class, 14/21 day excursion, year round group inclusive tour fares, and winter group inclusive tour fares to the Montreux levels. The 22/45 day excursion fares between New York and London would be reduced by three percent, the 22/45 day Advance Purchase Excursion Fares (APEX) by 6 to 9 percent, and the affinity group fares by two percent. These percentage reductions become less as the structure extends outward to points beyond London. For example, between New York and Rome the affinity group fares remain at the Montreux level, the 22/45 day excursion fares are reduced by one to two percent, and the peak season APEX fare is reduced by 2 percent. In addition, the winter group inclusive tour fare for U.S.-originating travel would be extended through May 22, 1975 and be reintroduced for travel commencing September 16 at a somewhat higher level.[2] Finally, the affinity group fares to Spain and Portugal are proposed to be reduced by up to 8 percent for Madrid and from 2 to 10 percent for Lisbon, and one free stopover in each direction would be provided for travel to Spain and Portugal on the proposed affinity group fares.

The APEX fares are subject to substantially the same conditions contained in the Montreux agreement. Sales would be limited to 20 percent of each carrier's total weekly economy class capacity, and the number of seats to be made available on any one flight may not exceed 50 percent of the economy class seating capacity of that flight or 80 seats, whichever is greater. Reservations, full payment, and issuance of tickets must be completed not later than two calendar months prior to commencement of outbound travel. A change in reservation, cancellation, or failure to use confirmed APEX space as ticketed (other than the death of a prospective passenger prior to departure time) is subject to a non-refundable charge equal to 10 percent of the fare or $50, whichever is higher.

Finally, the agreement proposes the reintroduction of youth fares between the United States and Europe at levels generally reflecting the combination of normal U.S.-Canada fares and Canada-Europe youth fares.

The purpose of this order is to establish dates for the submission of carrier justifications in support of the agreement and comments from other interested persons. By Order 75–1–133 (January 30, 1975) the Board approved an agreement which will significantly alter the transatlantic route pattern of Pan American and TWA, and we will expect the justifications submitted to reflect this change. The justifications should include, but not be limited to, traffic and financial estimates for the period April 1, 1975, through March 31, 1976, at the August 1, 1974, fares, at the Montreux fares and at the proposed fares. We will expect traffic forecasts to detail passenger distribution by fare category for each of the three forecasts, and with and without the youth fares proposed in the agreement before us.

Accordingly, *It is ordered* That: 1. All United States air carrier members of the International Air Transport Association providing service over the North Atlantic shall file within twenty days after the date of service of this order, full documentation and economic justification (as described above) in support of the subject agreement;

2. Comments and/or objections from interested persons shall be submitted within thirty days after the date of service of this order; and

3. Tariffs implementing the subject agreement shall not be filed in advance of Board action on the agreement.

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75–3811 Filed 2–10–75;8:45 am]

[Docket No. 27437; Order 75–2–26]

TRANSPORTES AEREOS PORTUGUESES, S.A.R.L.

Transatlantic Passenger Fares; Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 24th day of January, 1975.

By tariff revisions filed January 8, 1975, for effect February 7, 1975, Transportes Aereos Portugueses, S.A.R.L. (TAP) proposes extension of the current 7/8-day winter group inclusive tour (GIT) fares between the United States and Portugal into the shoulder and peak seasons.[1] The present winter GIT, at $329 round trip New York-Lisbon, is marked to expire March 31, 1975, with the rest of the IATA

[1] NOTE: List of air fares filed as part of original document.

[2] The fares would also be available during the month of August for travel from the U.S. to points in the Azores, Canary Islands, and Madeira.

North Atlantic fare structure, but presumably will be extended through April 15 by IATA agreement as in past years. TAP now proposes to apply this GIT fare, with the same conditions of travel, during the periods April 16–June 15, 1975, and August 1–October 31, 1975, at a New York-Lisbon level of $409. The TAP filing was made pursuant to a directive of the Government of Portugal.

Complaints requesting suspension and investigation of the TAP filing have been filed by Trans World Airlines, Inc. (TWA), and Pan American World Airways, Inc. (Pan American). The complainants assert that TAP's proposal should not be approved at this time since the IATA 1975 fare structure for the shoulder and peak seasons is still under negotiation, and that the impact of the TAP filing cannot be evaluated in isolation; that approval of TAP's filing would seriously complicate the problem of reaching an agreement in IATA, and could lead to competitive filings to/from other countries. It is further contended that, although the present 7/8-day GIT has been successful in alleviating the seasonality problem on the North Atlantic by promoting traffic during the winter, extension of this fare into the peak season would only intensify that problem; that the peaking problem would be particularly severe with regard to westbound-originating travel since the fare would be available in August which is the most intense peak period in that direction; that the peak season 7/8-day GIT would represent a greater discount vis-a-vis the regular 14/21-day GIT than is the case during the winter; and that the extended 7/8-day GIT would aggravate day-of-week peaking problems during the summer season since it incorporates no weekend surcharge. Finally, it is argued that, although a modified extension of the 7/8-day GIT may prove to be economically sound, the fare should be developed through the IATA negotiating process, with appropriate safeguards, and should not be introduced at this time as a measure geared to the interests of only one country.

TAP, in an answer to the complaints, states that even if the fares were shown to be unreasonable or otherwise unlawful, the fares were filed pursuant to a Portuguese government order, and established practice dictates that the matter be resolved through intergovernmental negotiation rather than by suspension action; but that in any event the complainants have not provided facts sufficient to support suspension. TAP contends further that no economic evidence has been submitted which demonstrates unreasonableness; that if the current, Board-approved 7/8-day GIT fares are lawful, then their extension is lawful; that the fares would maintain the same general relationship exhibited between the present, approved 7/8-day GIT fares and other IATA fares; and finally, that preservation of the IATA ratemaking machinery should not take precedence over the action of a sovereign and friendly nation which directs its national carrier to apply fares not part of a currently effective IATA agreement.

Upon full consideration of the tariff filing, the complaint, and all other relevant factors, the Board has determined that the proposed fares may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be suspended pending investigation. The proposed $409 fare represents a significant reduction from the present GIT peak season fare.[2] Moreover, it is $26 below the $435 peak APEX fare approved by the Board in Order 74–10–106, despite much more liberal conditions than the APEX. In these circumstances, there seems little doubt that it would result in a significant dilution of carrier yield, a result which runs counter to the Board's recently stated policy on transatlantic fares (Order 75–1–24, January 7, 1975). We recognize Portugal's legitimate interest in promoting tourism; however, no purpose is served by pursuing this objective on an uneconomic basis. The winter GIT was introduced for a specific purpose—to strengthen off-season traffic when load factors are historically low. We have no evidence which suggests that carrier costs differ significantly for the 7/8-day GIT as compared with the 14/21-day GIT. Moreover, it is not unlikely that an extension of this fare to Portugal would precipitate competitive filings in other North Atlantic markets and further deteriorate the financial position of IATA carriers.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, and particularly sections 204(a), 403, 801 and 1002(j) thereof,

It is ordered, That: 1. An investigation be instituted to determine whether the fares and provisions in Tariff C.A.B. No. 44, Air Tariffs Corporation, Agent, on 2nd Revised Pages 24–C and 24–D, and 6th Revised Page 274–A, and rules, regulations and practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to take appropriate action to prevent the use of such fares and provisions or rules, regulations, or practices;

2. Pending hearing and decision by the Board, the fares and provisions on the tariff pages specified in paragraph 1 above are suspended and their use deferred to and including February 6, 1976 unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. This order shall be submitted to the President[3] and shall become effective February 7, 1975;

4. Except to the extent granted herein, the complaints in Dockets 27387 and 27410 be and hereby are dismissed;

5. The investigation ordered herein be assigned for hearing before an Administrative Law Judge of the Board at a time and place hereafter to be designated; and

6. Copies of this order be served upon Transportes Aereos Portugueses, S.A.R.L., Trans World Airlines, Inc., and Pan American World Airways, Inc., which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75–3810 Filed 2–10–75;8:45 am]

[1] Air Tariffs Corporation, Agent, Tariff C.A.B. No. 44, 2nd Revised Pages 24–C and 24–D, and 6th Revised Page 274–A.

[2] The all-year 14/21-day GIT: $366 basic, $462 peak. The peak season fare is not presently on file in the carriers' effective tariffs, but is included in the Montreux package now under consideration by the IATA North Atlantic Traffic Conference in Geneva, and may reasonably be expected to be adopted as part of the new IATA structure for effect April 1, 1975.

Correction

In FR Doc. 75–2834 appearing at page 4479 in the issue of Thursday, January 30, 1975 the document heading should be corrected to read as above.

COMMISSION ON CIVIL RIGHTS

IOWA STATE ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Iowa State Advisory Committee (SAC) to this Commission will convene at 11 a.m. on February 28, 1975, at the U.S. Federal Building, Room 563 210 Walnut Street, Des Moines, Iowa.

Persons wishing to attend this meeting should contact the Committee Chairman, or the Central States Regional Office of the Commission, Room 3103, Old Federal Office Building, 911 Walnut Street, Kansas City, Missouri 64106.

The purpose of this meeting is for organization and planning.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., February 5, 1975.

ISAIAH T. CRESWELL, Jr.,
Advisory Committee Management Officer.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-32000/166; FRL 332-5]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW, Washington DC 20460.

On or before April 14, 1975 any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW, Washington DC 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after April 14, 1975.

Dated: February 4, 1975.

JOHN B. RITCH, Jr.,
Director,
Registration Division.

FISONS CORP.

Establishment of Temporary Tolerances

Fisons Corp., Two Preston Court, Bedford, MA 01730, submitted a petition (PP 4G1495) requesting establishment of temporary tolerances for combined residues of the herbicide 2-ethoxy-2,3-dihydro-3,3-dimethyl-5-benzofuranyl methanesulfonate and its metabolites 2-hydroxy-2,3-dihydro-3,3-dimethyl-5-benzofuranyl methanesulfonate and 2,3-dihydro-3,3-dimethyl-2-oxo-5-benzofuranyl methanesulfonate (both calculated as the parent compound) in or on the raw agricultural commodities sugar beet tops at 1 part per million; sugar beet roots at 0.1 part per million; and in meat, fat, and meat byproducts of cattle, goats, hogs, horses, and sheep at 0.03 part per million.

It has been determined that these temporary tolerances will protect the public health. They are therefore established on condition that the herbicide be used in accordance with the temporary permit being issued concurrently and which provides for distribution under the Fisons Corp. name. (For a related document, see this issue of the FEDERAL REGISTER, page 6326.)

These temporary tolerances expire February 4, 1976. Residues remaining in or on the above commodities after expiration of these tolerances will not be considered actionable if the pesticide is legally applied during the term and in accordance with provisions of the temporary permit/tolerances.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805).

Dated: February 4, 1975.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

FEDERAL RESERVE SYSTEM

MERCANTILE BANCORPORATION INC.

Order Approving Acquisition of Bank

Mercantile Bancorporation Inc., St. Louis, Missouri ("Applicant"), a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire at least 90 per cent of the voting shares, plus directors' qualifying shares, of State Bank of Willow Springs, Willow Springs, Missouri ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the application and all comments received have been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

XUM
V40 0129 FEB 11 75 F
XUM

Applicant, the largest banking organization in Missouri, presently controls twenty-three banks[1] with aggregate deposits of $1.5 billion, representing 10.65 per cent of total commercial bank deposits in Missouri.[2] Acquisition of Bank, with $8.0 million in deposits, would increase Applicant's share of commercial bank deposits by .05 of a percentage point and would not result in any significant increase in the concentration of banking resources in Missouri.

Bank is the smallest of seven banks in its market area (which is approximated by Howell County plus the southwestern portion of Texas County and the area around the city of Mountain Grove in Wright County) and holds 7.5 per cent of the total commercial bank deposits in the market. Applicant's nearest subsidiary bank is located 81 miles west of Bank. No significant competition exists between Bank and any of Applicant's subsidiary banks and it is unlikely that any will develop in the future due to distances involved and Missouri branching restrictions. Population per banking office in Bank's market is substantially less than the State average; therefore, prospects for de novo entry do not seem favorable. Accordingly, competitive considerations are consistent with approval of the application.

The financial and managerial resources and prospects of Applicant, its subsidiaries, and Bank are all regarded as satisfactory and consistent with approval of the application. As a result of the affiliation, Bank's management continuity will be strengthened. Applicant will assist Bank in offering corporate services, industrial education assistance, and trust counseling. Applicant will also cause Bank to increase rates paid on all time and savings deposits to legal maximums. Considerations relating to the convenience and needs of the community are consistent with approval of the application. It has been determined that the proposed acquisition is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order, or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of St. Louis pursuant to delegated authority.

By order of the Secretary of the Board, acting pursuant to delegated authority for the Board of Governors, effective February 3, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-3739 Filed 2-10-75;8:45 am]

[1] Includes a de novo bank, approved but not consummated.

[2] Deposit data as of June 30, 1974 adjusted to reflect holding company acquisitions approved through December 31, 1974.

MERCHANTS NATIONAL CORP.

Proposed Acquisition of KMS Mortgage & Investment Co.

Merchants National Corporation, Indianapolis, Indiana, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of KMS Mortgage & Investment Company, Columbus, Ohio. Notice of the application was published on December 3, 1974 in The Columbus Dispatch, a newspaper circulated in Franklin County, Ohio; on December 4, 1974 in The Indianapolis News, a newspaper circulated in the County of Marion, Indiana; and on December 4, 1974 in Fort Lauderdale News, a newspaper circulated in Broward County, Florida.

Applicant states that the proposed subsidiary would engage in the originating, selling, and servicing of mortgage loans for its own account or the account of others. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than March 6, 1975.

Board of Governors of the Federal Reserve System, February 3, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.75-3740 Filed 2-10-75;8:45 am]

VICTORIA BANKSHARES, INC.

Order Approving Acquisition of Bank

Victoria Bankshares, Inc., Victoria, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)), to acquire 100 per cent of the voting shares (less directors' qualifying shares) of the successor by merger to The Jackson County State Bank, Edna, Texas ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the application and all comments received have been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the seventeenth largest multi-bank holding company in Texas, presently controls six subsidiary banks with aggregate deposits of approximately $147 million, representing about 0.8% per cent of the total commercial bank deposits in Texas.[1] Acquisition of Bank would increase Applicant's share of State deposits by less than 0.1 per cent, and would have no appreciable effect upon the concentration of banking resources in Texas.

Bank (deposits of $12.8 million) is the second largest of three banks in the Jackson banking market (approximated by Jackson County, which is located about 100 miles southwest of Houston) and controls approximately 32 per cent of the total deposits in commercial banks in the market. Applicant presently has no subsidiary bank in the Jackson banking market, and its nearest subsidiary bank is in Victoria, Texas, approximately 26 miles southwest of Edna. Thus, it appears that consummation of this proposal would not result in the elimination of any significant existing competition. Moreover, it does not appear likely that any significant competition between Bank and any of Applicant's present subsidiary banks would develop in the future in view of the distances involved and Texas' restrictive branching laws. Accordingly, on the basis of the facts of record, it has been concluded that consummation of the proposed acquisition would not result in significant adverse effects on existing or potential competition in any relevant area, and that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant, its subsidiaries, and Bank are regarded as favorable and consistent with approval of the application. Applicant's acquisition of Bank would give Bank access to Applicant's financial resources and managerial expertise, and is likely to result in a greater lending capacity for Bank, as well as additional customer services in

[1] All banking data are as of June 30, 1974, and reflect holding company formations and acquisitions approved by the Board through January 15, 1975.

the areas of trust activities, oil and gas financing, and investment counseling. Considerations relating to the convenience and needs of the community to be served lend weight toward approval of the application. It has been determined that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Secretary of the Board, acting pursuant to delegated authority for the Board of Governors, effective February 3, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-3741 Filed 2-10-75;8:45 am]

FEDERAL OPEN MARKET COMMITTEE

Domestic Policy Directive

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on November 19, 1974.[1]

The information reviewed at this meeting suggests that real output of goods and services is falling significantly further in the current quarter while price and wage increases are continuing large. In October industrial production declined—after having changed little since May—and the unemployment rate increased further, from 5.8 to 6.0 percent. In recent weeks sizable cutbacks in automobile production have been announced, and claims for unemployment insurance have continued to increase. There are major uncertainties concerning the duration of the coal strike; a lengthy shutdown would have substantial effects on other industries. The October rise in wholesale prices of industrial commodities, although substantial, remained well below the extraordinarily rapid rate in the first 8 months of the year; prices of farm products and foods increased sharply.

In recent weeks the dollar has declined further against leading foreign currencies. In the third quarter the U.S. foreign trade deficit was substantially larger than in the second quarter, but U.S. banks sharply reduced their foreign lending.

Growth of the narrowly defined money stock picked up from the slow pace of the third quarter to an annual rate of about 5 percent in October. Net inflows of consumer-type time and savings deposits at banks and at nonbank thrift institutions also improved in October, and the money supply measures more broadly defined expanded appreciably. Bank credit outstanding changed little, and banks reduced their borrowing through Eurodollars and large-denomination CD's. Since mid-October markets for short- and long-term securities have improved, despite heavy Treasury financing and a large volume of corporate security issues. Interest rates on market securities in general have declined further, and mortgage yelds also have fallen somewhat. On November 13 the Board of Governors announced a restructing of member bank reserve requirements, which will have the effect of releasing reserves to the banking system in the week beginning December 12.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions conducive to resisting inflationary pressures, supporting a resumption of real economic growth, and achieving equilibrium in the country's balance of payments.

To implement this policy, while taking account of developments in domestic and international financial markets, the Committee seeks to achieve bank reserve and money market conditions consistent with moderate growth in monetary aggregates over the months ahead.

By order of the Federal Open Market Committee, February 5, 1975.

ARTHUR L. BROIDA,
Secretary.

[FR Doc.75-3742 Filed 2-10-75;8:45 am]

Docket Nos. 50-440A and 50-441A, Cleveland Electric Illuminating Company (Perry Nuclear Power Plant, Units 1 and 2)

In view of his transfer from the Nuclear Regulatory Commission to the staff of the Joint Committee on Atomic Energy, effective February 2, 1975 William C. Parler has been relieved from further service on the Atomic Safety and Licensing Appeal Boards assigned to the above-styled proceedings.

In accordance with the authority conferred upon him by 10 CFR 2.787(a), the Chairman of the Atomic Safety and Licensing Appeal Panel has made the following changes in the composition of particular Appeal Boards:

1. Docket Nos. 50-413 and 50-414, Duke Power Company (Catawba Nuclear Station, Units 1 and 2): Richard S. Salzman appointed to the Appeal Board and designated its Chairman.

2. Docket No. 50-410; Niagara Mohawk Power Corporation (Nine Mile Point Nuclear Station, Unit 2): Richard S. Salzman designated Chairman of the Appeal Board.

3. Docket No. 50-278, Philadelphia Electric Company, et al. (Peach Bottom Atomic Power Station, Unit 3): Michael C. Farrar designated Chairman of the Appeal Board.

Notice will be given of any subsequent additional changes made by the Chairman of the Appeal Panel in the composition of Appeal Boards to which Mr. Parler had been assigned.

Dated: February 4, 1975.

MARGARET E. DU FLO,
Secretary to the Appeal Board.

[Docket No. 50-324]

BRUNSWICK STEAM ELECTRIC PLANT, UNIT 2

Availability of Initial Decision of the Atomic Safety and Licensing Board and Issuance of a Facility Operating License; Correction

The captioned FR Doc. 75-363, published on page 1291 on Tuesday, January 7, 1975, was imprecise by stating that the Initial Decision of the Atomic Safety and Licensing Board, dated December 26, 1974, authorized issuance of an operating license to the Carolina Power and Light Company to operate Unit 2 of the Brunswick Steam Plant. The Initial Decision resolved the issues set forth in Section

XUM
V40-29 FEB 11 75 XUM

B of Appendix D to 10 CFR Part 50, which sets forth procedures for environmental review of certain licenses to construct or operate production or utilization facilities issued in the period January 1, 1970 to September 9, 1971. Accordingly, the Initial Decision of the Atomic Safety and Licensing Board authorized continuation of construction permits CPPR–67 and CPPR–68 for the Brunswick Steam Electric Plant, Units 1 & 2. The operating license for the Brunswick Steam Electric Plant, Unit 2 was issued by the Commission pursuant to 10 CFR 50.56.

Dated at Bethesda, Maryland this 5th day of February, 1975.

For the Nuclear Regulatory Commission.

WALTER R. BUTLER,
Chief, Light Water Reactors Branch 1–2, Division of Reactor Licensing.

[Dockets Nos. STN 50–456, STN 50–457]

COMMONWEALTH EDISON CO. (BRAIDWOOD STATION, UNITS 1 AND 2)

Availability of Partial Initial Decision of the Atomic Safety and Licensing Board

Pursuant to the National Environmental Policy Act of 1969 and the Commission's regulations in Appendix D of 10 CFR Part 50, notice is hereby given that a Partial Initial Decision dated January 8, 1975, by the Atomic Safety and Licensing Board in the above-captioned proceeding relating to environmental and site suitability matters is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW, Washington, D.C. and in the Wilmington Township Public Library, 201 South Kankakee Street, Wilmington, Illinois.

The Partial Initial Decision is also being made available at the Illinois State Clearinghouse, Room 103 State House, Springfield, Illinois, and at the Northeastern Illinois Planning Commission, 400 W. Madison Street, Chicago, Illinois.

Based on the record developed in the public hearing in the above-captioned matter, the Partial Initial Decision modified in certain respects the contents of the Final Environmental Statement prepared by the Commission's Directorate of Licensing relating to construction of the Braidwood Station, Units 1 and 2.

Pursuant to the provisions of 10 CFR Part 50, Appendix D, the Final Environmental Statement is deemed modified to the extent that the Findings and Conclusions contained in the Partial Initial Decision differ from those contained in the Final Environmental Statement. As required by 10 CFR Part 51, a copy of the Partial Initial Decision, which modifies the Final Environmental Statement, has been transmitted to the Council on Environmental Quality, the Environmental Protection Agency, and other interested agencies and persons.

Single copies of the Partial Initial Decision and the Final Environmental Statement may be obtained by request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Rockville, Maryland, this 30th day of January 1975.

For the Nuclear Regulatory Commission.

B. J. YOUNGBLOOD,
Chief, Environmental Projects Branch 3, Division of Reactor Licensing.

[Docket No. 50–213]

CONNECTICUT YANKEE ATOMIC POWER CO.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 1 to Facility Operating License No. DPR–61 issued to Connecticut Yankee Atomic Power Company which revised Technical Specifications for operation of the Haddam Neck Plant, located in Middlesex County, Connecticut. The amendment is effective as of its date of issuance.

This amendment changes the power distribution monitoring requirements of the Technical Specifications to utilize manual axial offset monitoring.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment dated August 21, 1974, (2) Amendment No. 1 to License No. DPR–61, with any attachments, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. and at the Russell Library, 119 Broad Street, Middletown, Connecticut 06457.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 29th day of January 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch #1, Division of Reactor Licensing.

[Docket No. 40–8027]

KERR-McGEE NUCLEAR CORP.

Availability of Final Environmental Statement for the Sequoyah Hexafluoride Plant

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in 10 CFR Part 51, notice is hereby given that the Final Environmental Statement prepared by the Commission's Division of Materials and Fuel Cycle Facility Licensing, related to Kerr-McGee Nuclear Corporation's Sequoyah Uranium Hexafluoride Plant, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW, Washington, D.C. and in the Sallisaw City Library, 111 North Elm, Sallisaw, Oklahoma. The Final Environmental Statement is also being made available at the State Clearinghouse, Office of Community Affairs & Planning, State Grant-in-Aid Clearinghouse, 4901 North Lincoln Boulevard, Oklahoma City, Oklahoma 73105 and the Metropolitan Clearinghouse, Arkoma Regional Planning Commission, 104 N. 16th Street, Fort Smith, Arkansas 72901. The notice of availability of the Draft Environmental Statement for the Sequoyah Hexafluoride Plant and requests for comments from interested persons was published in the FEDERAL REGISTER on April 18, 1974 (39 FR 13910). The comments received from Federal agencies, State and local officials and interested members of the public have been included as appendices to the Final Environmental Statement.

Copies of this statement are available as NUREG–75/007 from the National Technical Information Service, Springfield, Virginia 22161, at a price of $9.25 for paper copy and $2.25 for microfiche.

Dated at Bethesda, Maryland, this 4th day of February 1975.

For the Nuclear Regulatory Commission.

RICHARD E. CHEETWOOD,
Chief, Technical Support Branch, Division of Materials and Fuel Cycle Facility Licensing.

[FR Doc.75–3707 Filed 2–10–75;8:45 am]

[Docket No. 50–263]

NORTHERN STATES POWER CO.

Issuance of Amendment to Provisional Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 7 to Provisional Operating License No. DPR–22 issued to the Northern States Power Company (the licensee) which revised Technical Specifications for operation of the Monticello Nuclear Generating Plant, located in Wright County, Minnesota. The amendment is effective as of its date of issuance.

The amendment authorizes a revision in the reactor vessel material surveillance program to delete a requirement that a specimen basket be removed during the third refueling outage and replace it with a requirement to remove at a later date when more meaningful results can be obtained.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment dated November 15, 1974, (2) Amendment No. 7 to License No. DPR–22, with Change No. 16, and (3) the Commission's concurrently issued Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. and at The Environmental Conservation Library, Minneapolis Public Library, 300 Nicollet Mall, Minneapolis, Minnesota 55401. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 3rd day of February, 1975.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,
Chief, Operating Reactors Branch #2, Division of Reactor Licensing.

[FR Doc.75–3716 Filed 2–10–75;8:45 am]

REGULATORY GUIDES

Notice of Issuance and Availability

The Nuclear Regulatory Commission has issued two guides in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 1.75, Revision 1, "Physical Independence of Electric Systems," endorses, with certain exceptions, IEEE Std 384–1974, "IEEE Trial-Use Standard Criteria for Separation of Class IE Equipment and Circuits," dated March 15, 1974. This standard describes a method acceptable to the staff for complying with the Commission's regulations with respect to the physical independence of the circuits and electric equipment comprising or associated with the Class IE power system, the protection system, systems actuated or controlled by the protection system, and auxiliary or supporting systems that must be operable for the protection system and the systems it activates to perform their safety-related functions. This guide applies to all types of nuclear power plants.

Regulatory Guide 1.81, Revision 1, "Shared Emergency and Shutdown Electric Systems for Multi-Unit Nuclear Power Plants," describes a method acceptable to the staff for complying with the Commission's requirements for sharing of onsite emergency and shutdown electric systems for multi-unit nuclear power plants. With respect to the sharing of d.c. systems, this guide applies to all multi-unit plants. With respect to the sharing of a.c. systems, this guide applies to the multi-unit plants whose a.c. power is supplied by diesel generators. This revision reflects comments received from the public and additional staff review.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 1.75, Revision 1, will, however, be particularly useful in evaluating the need for an early revision if received by April 4, 1975.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

Other Division 1 Regulatory Guides currently being developed include the following:

Prevention of Fracture of Structural Discontinuities in Reactor Pressure Vessel.
Protection Against Postulated Events and Accidents Outside of Containment.
Fracture Toughness Requirements for Materials for Class 2 and 3 components.
Maintenance of Water Purity in PWR Secondary Systems.
Criteria for Heatup and Cooldown Procedures.
Effects of Residual Elements on Predicted Radiation Damage.
Surveillance Testing and Inservice Inspection of Thermal Barrier and Steam Generator Materials in High-Temperature Gas-Cooled Reactors.
Surveillance and Postirradiation Examination of Fuel Rods in Lead Assemblies.
Design Load Combinations for Component Supports.
Interim Guide on Tornado Missiles.
Criteria for Plugging Steam Generator Tubes.
Structural Design Criteria for Fuel Assemblies in Light-Water-Cooled Reactors.
Overhead Crane Handling Systems for Nuclear Power Plants.
Recommended Procedure for Resintering Test to Monitor Densification Stability of Production Fuel.
Tornado Design Classification.
Overpressure Protection of Low-Pressure Systems Connected to Reactor Coolant Pressure Boundary.
Instrumentation for Light-Water-Cooled Nuclear Power Plants to Assess Plant Conditions During and Following an Accident.
Investigation of Material Underneath Nuclear Power Plant Foundations.
Protective Coatings for Light-Water Nuclear Reactor Containment Facilities.
Quality Assurance Requirements for Installation, Inspection, and Testing of Mechanical Equipment and Systems.
Quality Assurance Requirements for Installation, Inspection, and Testing of Structural Concrete and Structural Steel During the Construction Phase of Nuclear Power Plants.
Assumptions Used for Evaluating the Potential Radiological Consequences of a BWR Radioactive Offgas System Failure.
Fire Protection Criteria for Nuclear Power Plants.
Requirements for Auditing of Quality Assurance Programs for Nuclear Power Plants.
Quality Assurance Requirements for Control of Procurement of Equipment, Materials, and Services for Nuclear Power Plants.
Quality Assurance Requirements for Lifting Equipment.
Maintenance and Testing of Batteries.
Qualification Test of Class IE Cables, Connections, and Field Splices for Nuclear Power Plants.
Seismic Qualification of Class I Electric Equipment.
Design of Main Steam Line Isolation Valve Leakage Control Systems for Direct Cycle Boiling Water Reactor Nuclear Power Plants.
Fuel Oil Systems for Standby Diesel Generators.
Quality Assurance Requirements for the Manufacture of Class IE Instrumentation and Electric Equipment for Nuclear Power Plants.
Assumptions Used for Evaluating the Potential Radiological Consequences of a Liquid Radioactive Waste System Accident.
Containment Isolation Provisions.
Instrument Spans and Setpoints.
Protection of Nuclear Power Plant Control Room Operators Against an Onsite Chlorine Release.
Initial Startup Testing Program for Facilities Shutdown from Outside the Control Room.
Periodic Testing of Diesel Generators.
Qualification of Inspection, Examination, and Testing Personnel for Nuclear Facilities.
Quality Assurance Program Requirements for Nuclear Power Plant Fuels.
Testing of Nuclear Air Cleaning Systems.
Preoperational and Initial Startup Testing of Feedwater Systems for BWRs.
Design Criteria for Overload Protection of Motor-Operated Valves.
Probable Maximum Storm Surge Flooding on Lakes and Sea Shores.
Protection of Nuclear Power Plants Against Industrial Sabotage.
Emergency Planning for Nuclear Power Plants.
Control Room Manning.
Flood Protection for Nuclear Power Plant.
Hydrologic Design Criteria for Water Control Structures Constructed for Nuclear Power Plants.
Spill Analysis—Dispersion and Dilution in Surface and Ground Water.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on February 6, 1975 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the reviewer listed.

NEW FORMS

ACTION

State Volunteer Services Coordinator Program, quarterly report form, quarterly, State Volunteer Services Coordinators, Lowry, R. L., 395-3772.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service, descriptive survey of nutrition education, single-time, State education agencies and local school districts, Planchon, P., 395-3896.

Agricultural Research Service, group evaluation of selected USDA recipes, ARS 195-198, single-time, elementary school students and school personnel, Human Resources Division, 395-3532.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration, university curricula questionnaire, single-time, colleges and universities, Planchon, P., 395-3896.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education:
- Questionnaire for special education departments of institutions of higher education, OE 306-2, single-time, directors of special education departments, Human Resources Division, 395-3532.
- REHALRC survey of services, OE 399-3, single-time, directors of materials centers, Human Resources Division, 395-3532.
- Instructions and schedules for submitting monitoring and evaluation information AIDP, OE-1049-2, quarterly, AIDP grantee institutions, Human Resources Division, 395-3532.
- LRC service data, OE 399-1, annually, learning resource centers, Human Resources Division, 395-3532.

DEPARTMENT OF LABOR

Labor-Management and Service Administration, plan description report, EBS-1, other (see SF-83), pension plans and selected welfare plans, Caywood, D. P., 395-3443.

Bureau of Labor Statistics, general wage index establishment information, general wage index wage data and quarterly report, 3038A, 3038B, and 3038C, quarterly, private nonfarm establishments, excluding households, Strasser, A., 395-3880.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education:
- Northwest learning resource center workshop evaluation form, OE 399-2, on occasion, teachers, administrators, and paraprofessionals, Human Resources Division, 395-3532.
- Client perceptions of LRC services, OE 399-3, annually, LRC staff, Human Resources Divison, 395-3532.
- Survey of special education materials/information services within SMSA, OE 400, single-time, LEAS in SMSA's, Human Resources Division, 395-3532.

Social and Rehabilitation Service, manpower supply and demand in rehabilitation study, single-time, directors of rehabilitation training programs, Human Resources Division, 395-3532.

National Institutes of Health, Trace elements in water and human tissues, NIH-HL-20, other (see SF-83), employees and their families, Weiner, N., 395-4890.

Office of Education:
- Plan of operation and budget explanations, OE 1185, annually, Institutions of postsecondary education, Lowry, R. L., 395-3772.
- Questionnaire for directors of special education, OE 398-1, single-time, LEA level person responsible for special education services, Planchon, P., 395-3896.

DEPARTMENT OF LABOR

Bureau of Labor Statistics, nonproduction bonus study for PATC, BLS 3059, single-time, business establishments within the scope of PATC study, Lowry, R. L., 395-3772.

REVISIONS

DEPARTMENT OF AGRICULTURE

Commodity Exchange Authority, supplemental statement to application for registration, commodity future trading, CFTC 3-R, on occasion, individuals and firms in commodity brokerage business, Lowry, R. L., 395-3772.

DEPARTMENT OF HEALTH, EDUCATION AND WELFARE

Social Security Administration:
- Cost classification report—hospital/supplementary medical insurance benefits program, SSA-2960, semiannually, health insurance contractors, Caywood, D. P., 395-3443.
- Estimate of administrative costs and credits, hospital insurance benefits program, SSA-1528, annually, Caywood, D. P., 395-3443.
- Estimate of administrative costs—supplemental medical insurance benefits program, SSA-1524, annually, commercial health insurance companies, Caywood, D. P. 395-3443.

EXTENSIONS

NATIONAL SCIENCE FOUNDATION

Office cards (applicants for all NSF fellowships), 681, annually, exchange scientists, Evinger, S. K., 395-3648.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service, application for appeal inspection or board approval inspection (U.S. Grain Standards Act), GR-202, on occasion, Evinger, S. K., 395-3648.

DEPARTMENT OF DEFENSE

Department of the Army (excluding Office of civil defense), vessel operation reports, RHB-1/ENG 3, on occasion, Evinger, S. K., 395-3648.

DEPARTMENT OF HEALTH, EDUCATION AND WELFARE

Office of Education, instructions for A-102 financial status report and performance, report for OEEOP programs, OE-116-2, annually, Lowry, R. L., 395-3772.

PHILLIP D. LARSEN,
Budget and Management Officer.

NEW FORMS

UNITED STATES TARIFF COMMISSION

Questionnaire on imports, exports and production of wood products, single-time, business firms, Weiner, N., 395-4890.

DEPARTMENT OF COMMERCE

Bureau of Domestic Commerce, oilfield drilling rigs, DIB 984, single-time, producers of rigs, Weiner, N., 395-4890.

DEPARTMENT OF HEALTH EDUCATION, AND WELFARE

Office of the Secretary, change agent screener telephone survey school superintendents, OS-8-75, single-time, school superintendents, Planchon, P., 395-3896.

Health Resources Administration, effectiveness of emergency medical care, HRABHSR1125, single-time, sample of trauma and myocardial infarctions, Reese, B. F. 395-5630.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management, assignment affecting record title to geothermal resources lease, 3200-17, single-time, individuals, Lowry, R. L. 395-3772.

DEPARTMENT OF TRANSPORTATION

Departmental and other:
- Miami carpool survey, annually, carpool riders, Strasser, A., 395-3880.
- Miami home interview survey, annually, households in system market area, Strasser, A., 395-3880.

REVISIONS

DEPARTMENT OF LABOR

Bureau of Labor Statistics, form letters requesting collective bargaining agreements and related information, BLS-2451, on occasion, labor organizations, Lowry, R. L., 395-3772.

SMALL BUSINESS ADMINISTRATION

[Amdt. 1]

DIRECTOR, OFFICE OF FINANCING AND CHIEF, PROGRAM OPERATIONS DIVISION

Delegation of Authority

Delegation of authority No. 12-A (Revision 1) (38 FR 18595), is hereby amended to provide certain limitations on actions pertaining to economic injury loans. This amendment also deletes paragraph IA since the position of Deputy Associate Administrator for Finance no longer exists. As amended, Delegation of Authority No. 12-A (Revision 1) reads as follows:

• • • • • •

A. [Deleted]

B. *Director, Office of Financing.* 1. To approve or decline applications for business, economic opportunity, disaster and all other types of loans authorized to be made by the Agency, including reconsiderations thereof, and to execute authorizations and amendments pertaining to such loans, except that actions on economic injury loans are limited to those not in excess of $2,000,000.

• • • • • •

C. *Chief, Program Operations Division.* 1. To approve or decline applications for business, economic opportunity, disaster and all other types of loans authorized to be made by the Agency, including reconsiderations thereof, and to execute authorizations and amendments pertaining to such loans, except that actions on economic injury loans are limited to those not in excess of $1,000,000.

• • • • • •

Effective Date: December 20, 1974.

EINAR JOHNSON,
Acting Associate Administrator for Finance and Investment.

[Disaster Loan Area 1114]

RHODE ISLAND

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of January, because of the effects of a certain disaster, damage resulted to property located in the State of Rhode Island;

Whereas, the Small Business Administration has investigated and received reports of other investigations of conditions in the area affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act, as amended:

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Newport, Rhode Island, suffered damage or destruction resulting from a fire which occurred January 12, 1975.

Office:
Small Business Administration
District Office,
57 Eddy Street,
Providence, Rhode Island 02903.

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to April 7, 1975. EIDL applications will not be accepted subsequent to November 4, 1975.

Dated: February 4, 1975.

THOMAS S. KLEPPE,
Administrator.

DEPARTMENT OF LABOR

Manpower Administration

FEDERAL ADVISORY COUNCIL ON UNEMPLOYMENT INSURANCE

Meeting

A meeting of the Federal Advisory Council on Unemployment Insurance will be held on March 5, 1975, starting at 1 p.m. and adjourning at approximately 4:30 p.m. The meeting will continue on March 6, 1975, beginning at 9 a.m. and continuing until approximately 4:30 p.m. Meeting location will be in the first floor conference room (off the lobby) of the Patrick Henry Building, which is located at 601 D Street NW., Washington, D.C.

The agenda will concern program financing and will include the following topics:

1. Adoption of meeting rules and procedures;
2. Unemployment situation and payments under existing U.I. programs;
3. Status of UI reserves;
4. Legislative financing proposals; and
5. Further discussion of permanent legislative changes considered at the December 6, 1974 meeting.

Members of the public are invited to attend the proceedings. Written data, views, or arguments pertaining to the agenda must be received by the Council's Executive Secretary prior to the meeting date. Twenty duplicate copies are needed for distribution to the members and for inclusion in the meeting minutes.

Persons wishing to address the Council members on a scheduled agenda topic should inform the Executive Secretary prior to the meeting date, stating the nature of their intended presentation and the amount of time needed. The chairman will announce at the beginning of the meeting the extent to which time will permit the granting of such requests.

A more detailed agenda will be available prior to the meeting date. Telephone inquiries and communications concerning this meeting should be directed to:

Mrs. Sally Ehrle, Executive Secretary,
Federal Advisory Council on Unemployment Insurance,
Room 7000, Patrick Henry Building,
601 D Street NW.,
Washington, D.C. 20213.

Mrs. Ehrle's telephone number is 202-376-7034.

Signed at Washington, D.C. this 4th day of February 1975.

BEN BURDETSKY,
Acting Assistant Secretary for Manpower.

INTERSTATE COMMERCE COMMISSION

[Notice No. 693]

ASSIGNMENT OF HEARINGS

FEBRUARY 6, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC-F-12257, International Carriers, Inc.—Purchase—Motor Dispatch, Inc., now being reassigned February 24, 1975, on 3rd Floor, 230 S. Dearborn St., Chicago, Ill. The Prehearing Conference scheduled February 13, at Washington, D.C., remains assigned.

MC 108340 Sub 27, Haney Truck Line, now assigned March 17, 1975 at Portland, Oregon; in Room 103, Pioneer Courthouse, 555 S. W. Yamhill Street.

I&S No. 8998, Coal Southwestern, Western Trunk Line, & Central Territories, FSA No. 42890, Coal From Illinois, Indiana, Kentucky and Missouri, now assigned March 4, 1975, at Chicago, Illinois, will be held in Room 1086A, Everett McKinley Dirksen Building.

MC 95876 Sub 151, Anderson Trucking Service, Inc., now assigned March 12, 1975, at Chicago, Illinois, will be held in Room 1086A, Everett McKinley Dirksen Building.

MC 111545 Sub 201, Home Transportation Company, Inc., MC 123048 Sub 311, Diamond Transportation System, Inc., now assigned March 10 and 11, 1975, at Chicago, Illinois will be held in Room 1086A, Everett McKinley Dirksen Building.

[Finance Docket No. 26745]

BALTIMORE AND OHIO RAILROAD CO.

Abandonment of Service

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Sangamon and Cass Counties, Ill., on or before February 26, 1975 and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 31st day of January, 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

THE BALTIMORE AND OHIO RAILROAD COMPANY, ABANDONMENT BETWEEN COAL SHAFT AND BEARDSTOWN IN SANGAMON AND CASS COUNTIES, ILLINOIS

The Interstate Commerce Commission hereby gives notice that by order dated January 31, 1975, it has been determined that the proposed abandonment by the Baltimore and Ohio Railroad Company of its 43.7 miles of line between Coal Shaft and Beardstown, all in Sangamon and Cass Counties, Ill., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because a shift of rail traffic to motor carriers would have only minimal noise, air pollution, and fuel consumption impacts. There are no historic or major ecological impacts associated with the proposed action. In addition the Capital City Railroad Relocation Authority of Springfield has indicated that the proposed action is consistent with its plans to consolidate its city's railroads into a centralized corridor.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before March 12, 1975.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc.75-3815 Filed 2-10-75;8:45 am]

[AB 95 (Sub-No. 1)]

BELLEFONTE CENTRAL RAILROAD CO.

Abandonment of Service

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Centre County, Pa., on or before February 28, 1975 and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 31st day of January, 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

BELLEFONTE CENTRAL RAILROAD COMPANY ABANDONMENT BETWEEN CHEMICAL AND STATE COLLEGE, IN CENTRE COUNTY, PENNSYLVANIA

The Interstate Commerce Commission hereby gives notice that by order dated January 31, 1975, it has been determined that the proposed abandonment of the Bellefonte Central Railroad Company line between Chemical and State College, a distance of 13.55 miles, all in Centre County, Pa., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because there are no proposed developmental plans or projects which would be dependent on continued direct rail service, and the safety, historic, pollution, and other environmental effects associated with the proposed action are negligible or absent. Part of the land underlying the right-of-way may become incorporated into the Pennsylvania State University campus. The Centre Regional Council of Governments and the Centre County Planning Commissions are currently actively analyzing the area in order to determine the best future land use for the line, should abandonment be authorized.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before March 17, 1975.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc.75-3817 Filed 2-10-75;8:45 am]

[AB 43 (Sub-No. 6)]

ILLINOIS CENTRAL GULF RAILROAD CO.

Abandonment of Service

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, *et seq.*; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Warren and Yazoo Counties, Miss., on or before February 29, 1975 and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 30th day of January, 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

ILLINOIS CENTRAL GULF RAILROAD COMPANY ABANDONMENT BETWEEN VALLEY AND REDWOOD, IN YAZOO AND WARREN COUNTIES, MISSISSIPPI

The Interstate Commerce Commission hereby gives notice that by order dated January 30, 1975, it has been determined that the proposed abandonment by the Illinois Central Gulf Railroad Company of its line between Valley and Redwood, in Yazoo and Warren Counties, Miss., a distance of 20 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental effects of the proposed abandonment are not considered significant because there has been no traffic over the subject line since August 1970, there are no development plans in the area which could be affected by the loss of rail service, and there are no major ecological, historic, or safety impacts associated with the proposed action.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before March 17, 1975.

This negative environmental determination shall become final unless good and sufficient reason is filed to demonstrate why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

FOURTH SECTION APPLICATIONS FOR RELIEF

FEBRUARY 6, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before February 26, 1975.

FSA No. 42936—*Class and Commodity Rates Between Points in Texas.* Filed by Southwestern Freight Bureau, Agent, (No. B-514), for interested rail carriers. Rates on various commodities, in carloads and tank-car loads, as described in the application, from, to and between points in Texas, over interstate routes through adjoining states.

Grounds for relief—Intrastate rates and maintenance of rates from and to points in other states not subject to the same competition.

Tariff—Supplement 64 to Southwestern Freight Bureau, Agent, tariff I.C.C. No. 1159. Rates are published to become effective on March 14, 1975.

FSA No. 42938—*Nitric Acid from El Dorado, Arkansas.* Filed by Southwestern Freight Bureau, Agent, (No. B-5127), for interested rail carriers. Rates on nitric acid, in tank-car loads, as described in the application, from El Dorado, Arkansas, to East St. Louis, Illinois and St. Louis, Missouri. Grounds for relief—Market competition.

Tariff—Supplement 198 to Southwestern Freight Bureau, Agent, tariff 3-I, I.C.C. No. 4923. Rates are published to become effective on March 14, 1975.

FSA No. 42939—*Joint Water-Rail Container Rates—American President Lines, Ltd.* Filed by American President Lines, Ltd., (No. 16), for itself and interested rail carriers. Rates on general commodities, from ports in Sri Lanka, to rail stations on the U.S. Atlantic and Gulf Seaboard.

Grounds for relief—Water competition.

AGGREGATE-OF-INTERMEDIATES

FSA No. 42937—*Class and Commodity Rates Between Points in Texas.* Filed by Southwestern Freight Bureau, Agent, (No. B-510), for interested rail carriers. Rates on various commodities, in carloads and tank-car loads, as described in the application, from, to and between points in Texas, over interstate routes through adjoining states.

Grounds for relief—Maintenance of depressed rates published to meet intrastate competition without use of such rates as factors in constructing combination rates.

Tariff—Supplement 64 to Southwestern Freight Bureau, Agent, tariff 87-J (TLFB Series), I.C.C. No. 1169. Rates are published to become effective on March 14, 1975.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice No. 229]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

FEBRUARY 11, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before March 3, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75447. By order of January 24, 1975 the Motor Carrier Board approved the transfer to Robert G. Bossard, doing business as F. A. Bossard & Son, Meadville, Pa., of the operating rights in Certificate No. MC-60929 issued January 12, 1950 to Winifred F. Bossard, doing business as F. A. Bossard & Son, Meadville, Pa., authorizing the transportation of household goods between points in Crawford County, Pa., on the one hand, and, on the other, points in Ohio, New York, and West Virginia. Louis D. Musica, 355 Center St., Meadville, Pa., 16335 Attorney for applicants.

No. MC-FC-75634. By order entered January 29, 1975 the Motor Carrier Board approved the transfer to Robert T. Woodhull, doing business as Peer's Moving Company (CO.), Dover, N.J., of the operating rights set forth in Certificate No. MC-81965, issued August 24, 1959, to William R. Humphrey, doing business as Humphrey Moving Co., Morris Plains, N.J., authorizing the transportation of household goods, between Bernardsville, N.J., and points within 20 miles of Bernardsville, on the one hand, and, on the other, points in Connecticut, Delaware, New York, Pennsylvania, Maryland, and the District of Columbia. Michael T. Henchy, 2 West Blackwell St., Dover, N.J. 07801, attorney for applicants.

No. MC-FC-75626. By order of January 29, 1975 the Motor Carrier Board approved the transfer to Whiteford Transport, Inc., South Bend, Ind., of the operating rights in Certificates No. MC-109682, MC-109682 (Sub-No. 9), MC-109682 (Sub-No. 19), MC-109682 (Sub-No. 20), MC-109682 (Sub-No. 21) and MC-109682 (Sub-No. 31) issued September 3, 1952, November 14, 1950, April 6, 1955, July 15, 1955, July 11, 1958 and May 25, 1973 respectively to Bolin Driveaway Co., a corporation, Cleveland, Ohio, authorizing the transportation of various commodities from, to and between specified points and areas in Indiana, Ohio, Pennsylvania, New York, West Virginia, Virginia, Michigan, Delaware, Maryland, New Jersey, Alabama, North Carolina, South Carolina, and the District of Columbia and from specified points in Alabama, Indiana and Ohio to points in the United States. Walter N. Bieneman, 100 West Long Lane St., Bloomfield Hills, Mich., 48013, Attorney for applicants.

No. MC-FC-75650. By order entered 2.4.75 the Motor Carrier Board approved the transfer to Stanley H. Ross, doing business as SHR Tours, Taconic, Conn., of Broker's License No. MC-12650 (Sub-No. 1), issued July 5, 1968, to Alfa Ski Tours, Inc., doing business as Alfa Ski Tours, Brooklyn, N.Y., authorizing operations as a broker at Brooklyn, Rockville Center, and Manhasset, N.Y., in connection with transportation by motor vehicle in interstate or foreign commerce, of passengers and their baggage, in round-trip, all-expense ski tours, beginning and ending at New York, N.Y., and at points in Nassau County, N.Y., and extending to points in Maine, New Hampshire, Vermont, Massachusetts, and Connecticut. Michael E. Lurf, 9 Rutledge Road, Scarsdale, N.Y. 10583, attorney for applicants.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

FEBRUARY 5, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before February 21, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 31462 (Sub-No. E66), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in the Lower Peninsula of Michigan to points in Connecticut. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E111), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Florida, on the one hand, and, on the other points in North Dakota. The purpose of this filing is to eliminate the gateway of (1) Gulfport, Mississippi and points within 35 miles thereof, (2) Cairo, Illinois and points within 25 miles thereof, (3) Burlington, Iowa and points within 50 miles thereof, and (4) Alden, Minnesota and points within 35 miles thereof.

No. MC 31462 (Sub-No. E112), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Florida, on the one hand, and, on the other, points in Nebraska. The purpose of this filing is to eliminate the gateway of Gulfport, Mississippi and points within 35 miles thereof, and Cairo, Illinois and points within 25 miles thereof.

No. MC 31462 (Sub-No. E113), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Florida on east and south of a line beginning at the Georgia-Florida State line extending along U.S. 231 to the Gulf of Mexico, on the one hand, and, on the other, points in that part of Missouri beginning at the Illinois-Missouri State line extending along U.S. Highway 60 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 63, thence along U.S. Highway 63, to junction U.S. Highway 60, thence on U.S. Highway 60 to the Missouri-Oklahoma State line. The purpose of this filing is to eliminate the gateway of any point in Missouri within 25 miles of Cairo, Illinois, and any point in Georgia.

No. MC 31462 (Sub-No. E116), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Iowa, on the one hand, and, on the other, points in Florida. The purpose of this filing is to eliminate the gateways of (1) Gulfport, Mississippi and points within 35 miles thereof, and (2) Cairo, Illinois and points within 25 miles thereof.

No. MC 31462 (Sub-No. E117), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Florida, on the one hand, and, on the other, points in South Carolina. The purpose of this filing is to eliminate the gateway of any point in Georgia.
